SCHOOL DIVISION LEGAL STATUS

The Constitution of Virginia provides that the General Assembly establish a system of free public elementary and secondary schools for all children of school age throughout the state, and seek to ensure that an educational program of high quality is established and continually maintained. The General Assembly requires that such an educational system be maintained and administered by the Board of Education, the Superintendent of Public Instruction, division superintendents and school boards. The Board of Education divides the Commonwealth into school divisions of such geographical area and school-age population as will promote the realization of the standards of quality and will periodically review the adequacy of existing school divisions for this purpose. The supervision of schools in the Scott County school division is vested in the Scott County School Board.

NONDISCRIMINATION

The Scott County School Board is committed to nondiscrimination with regard to sex, sexual orientation, gender, gender identity, race, color, national origin, disability, religion, ancestry, age, marital status, pregnancy, childbirth or related medical conditions, disability, status as a veteran, genetic information or any other characteristic protected by law. This commitment prevails in all of its policies and practices concerning staff, students, educational programs and services, and individuals and entities with whom the Board does business.

The Scott County School Board:

- provides the necessary trained and dedicated leadership, qualified personnel, equipment and materials to assure an appropriate education for every student;
- treats all members of the school community equitably with the highest degree of respect;

SCHOOL DIVISION GOALS AND OBJECTIVES

Generally

The school division is committed to excellence in education, equality of educational opportunity, and the recognition of each student's individuality. Inasmuch as students differ in their rate of physical, mental, emotional and social growth and vary in their needs and abilities, learning opportunities are provided that are consistent with personal development and potential. Programs emphasize diagnostic and prescriptive instruction, allowing an individual approach to each student's learning style and educational needs.

The educational program introduces each student to a variety of interest and subject areas that offer exposure to the range of opportunities available in later years. These experiences produce the basis for further education and future employment. As students demonstrate increased maturity, they may assume more responsibility for the decisions regarding their education.

The school environment should be responsive and conducive to learning. The physical environment facilitates and enhances the learning experiences available to each student. A responsive environment includes competent, dedicated teachers using a variety of techniques and a classroom atmosphere where students can function and develop according to their abilities. Safety, physical comfort, and appearance also are vital environmental components.

Standards of Quality and Objectives

The school board accepts the overall goals of public education as expressed by the Standards of Quality legislated by the Virginia General Assembly and implemented by State Board of Education regulations.

The school board reports its compliance with the Standards of Quality to the Board of Education annually. The report of compliance is submitted to the Board of Education by the chairman of the board and the superintendent.

Standards of Quality--Programs and Services

The school board commits itself to providing programs and services as stated in the Standards of Quality to the extent funding thereof is provided by the General Assembly.

Adopted:

Legal Ref.: Code of Virginia, 1950, as amended, §§ 22.1-253.13:1, 22.1-253.13:8.

COMPREHENSIVE PLAN

The Scott County School Board adopts a divisionwide comprehensive, unified, long-range plan based on data collection, an analysis of the data, and how the data will be utilized to improve classroom instruction and student achievement. The plan is developed with staff and community involvement and includes, or is consistent with, all other divisionwide plans required by state and federal laws and regulations. The school board reviews the plan biennially and adopts any necessary revisions. Prior to the adoption of the plan or revisions thereto, the school board posts the plan or revisions on the division's Internet website if practicable and makes a hard copy of the plan or revisions available for public inspection and copying and conducts at least one public hearing to solicit public comment on the plan or revisions.

The divisionwide comprehensive plan includes

- (i) the objectives of the school division, including strategies for first improving student achievement, particularly the achievement of educationally at risk students, then maintaining high levels of student achievement;
- (ii) an assessment of the extent to which these objectives are being achieved;
- (iii) a forecast of enrollment changes;
- (iv) a plan for projecting and managing enrollment changes including consideration of the consolidation of schools to provide for a more comprehensive and effective delivery of instructional services to students and economies in school operations;
- (v) an evaluation of the appropriateness of establishing regional programs and services in cooperation with neighboring school divisions;
- (vi) a plan for implementing such regional programs and services when appropriate;
- (vii) a technology plan designed to integrate educational technology into the instructional programs of the school division, including the division's career and technical education programs, consistent with or as part of the comprehensive technology plan for Virginia adopted by the Board of Education;
- (viii) an assessment of the needs of the school division and evidence of community participation, including parental participation, in the development of the plan;
- (ix) any corrective action plan required pursuant to Va. Code § 22.1-253.13:3; and
- (x) a plan for parent and family involvement to include building successful school and parent partnerships that will be developed with staff and community involvement, including participation by parents.

The school board presents a report to the public by November 1 of each odd-numbered year on the extent to which the objectives of the divisionwide comprehensive plan have been met during the previous two school years.

Each school prepares a comprehensive, unified, long-range plan, which the school board considers in the development of the divisionwide comprehensive plan.

Adopted:

Legal Ref.: Code of Virginia, 1950, as amended, § 22.1-253.13:6.

EVALUATION OF SCHOOL BOARD OPERATIONAL PROCEDURES

The School Board reviews its performance annually to ensure its proper discharge of responsibilities to the community. Evaluation is based on a positive approach, identifying the strengths of the School Board and opportunities for improvement.

The following elements are included in the self-evaluation process:

1. School Board members are involved in the development of an evaluation instrument and procedure.
2. The School Board evaluation instrument is completed by individual Board members and submitted to the School Board Chairman, or the Chairman's designee, for compilation.
3. The School Board meets, with all members present, to review and discuss the composite results.
4. Each conclusion is supported by objective evidence.

Based on discussion of the results, the School Board develops both short-and long-range goals and objectives to ensure continued proficiency in its areas of excellence, to strengthen weak areas and to improve the efficiency of the Board.

CLOSED MEETINGS

- A. Closed meetings may be held by the School Board or any committee thereof only in accordance with Virginia law, for purposes including the following:
1. Discussion, consideration or interviews of prospective candidates for employment; assignment, appointment, promotion, performance, demotion, salaries, disciplining or resignation of specific public officers, appointees or employees of the School Board. Any teacher shall be permitted to be present during a closed meeting in which there is a discussion or consideration of a disciplinary matter which involves the teacher and some student and the student involved in the matter is present, provided the teacher makes a written request to be present to the presiding officer of the School Board. The School Board may not, however, discuss the compensation of Board members in closed session.
 2. Discussion or consideration of admission or disciplinary matters or any other matters that would involve the disclosure of information contained in a scholastic record concerning any student in the BLANK school system. However, any such student, legal counsel and, if the student is a minor, the student's parents or legal guardians shall be permitted to be present during the taking of testimony or presentation of evidence at a closed meeting, if such student, parents or guardians so request in writing and such request is submitted to the presiding officer of the School Board.
 3. Discussion or consideration of the acquisition of real property for a public purpose, or of the disposition of publicly held real property where discussion in an open meeting would adversely affect the bargaining position or negotiating strategy of the School Board.
 4. The protection of the privacy of individuals in personal matters not related to public business.
 5. Discussion concerning a prospective business or industry or the expansion of an existing business or industry where no previous announcement has been made of the business' or industry's interest in locating or expanding its facilities in the community.

 7. Consultation with legal counsel and briefings by staff members or consultants pertaining to actual or probable litigation, where such consultation or briefing in open meeting would adversely affect the negotiating or litigating posture of the School Board. For purposes of this subsection, "probable litigation" means litigation which has been specifically threatened or on which the School Board or its legal counsel has a reasonable basis to believe will be commenced by or against a known party. The closure of a meeting is not permitted merely because an attorney representing the School Board is in attendance or is consulted on a matter.
 8. Consultation with legal counsel employed or retained by the School Board regarding specific legal matters requiring the provision of legal advice by such counsel. The closure of a meeting is not permitted merely because an attorney representing the School Board is in attendance or is consulted on a matter.

All discussions with the applicant or its representatives may be conducted in a closed meeting.

12. Discussion or consideration of medical and mental health records subject to the exclusion in subdivision 1 of Va. Code § 2.2-3705.5.

Code § 2.2-3705.2 where discussion in an open meeting would jeopardize the safety of any person or the security of any facility, building, structure, information technology system or software program; or discussion of reports or plans related to the security of any governmental facility, building or structure, or the safety of persons using such facility, building or structure.
 14. Discussion or consideration of information subject to the exclusion in subdivision 11 of Va. Code § 2.2-3705.6 (the Public Private Education Facilities and Infrastructure Act) by the School Board or any independent review panel appointed to review information and advise the School Board concerning such information.
 15. Discussion of the award of a public contract involving the expenditure of public funds, including interviews of bidders or offerors, and discussion of the terms or scope of such contract, where discussion in an open session would adversely affect the bargaining position or negotiating strategy of the School Board.
- B. No resolution, ordinance, rule, contract, regulation or motion adopted, passed or agreed to in a closed meeting shall become effective unless the School Board, following the meeting, reconvenes in open meeting and takes a vote of the membership on such resolution, ordinance, rule, contract, regulation or motion which shall have its substance reasonably identified in the open meeting.

CALLING AND CERTIFICATION OF CLOSED MEETINGS

- A. No closed meetings are held by the School Board or any committee thereof unless the School Board or committee has taken an affirmative recorded vote in an open meeting approving a motion which (i) identifies the subject matter, (ii) states the purpose of the meeting as authorized in Va. Code § 2.2-3711.A or other provision of law and (iii) cites the applicable exemption or exemptions from open meeting requirements provided in the Virginia Freedom of Information Act (FOIA) or other provision of law. The matters contained in such motion are set forth in detail in the minutes of the open meeting. A general reference to the provisions of FOIA or authorized exemptions from open meeting requirements, or the subject matter of the closed meeting is not sufficient to satisfy the requirements for holding a closed meeting.
- B. The School Board, or committee thereof, in holding a closed meeting, restricts its discussion during the closed meeting only to those purposes specifically exempted under FOIA and identified in the motion required in Section A, above.
- C. At the conclusion of any closed meeting, the School Board or committee thereof immediately reconvenes in an open meeting and takes a roll call or other recorded vote to be included in the minutes, certifying that to the best of each member's knowledge (i) only public business matters lawfully exempted from open meeting requirements and (ii) only such public business matters as were identified in the motion by which the closed meeting was convened were heard, discussed or considered in the meeting. Any member of the Board or committee who believes that there was a departure from the requirements of (i) and (ii) above, so states prior to the vote, indicating the substance of the departure that, in the member's judgment, has taken place. The statement is recorded in the minutes of the meeting.
- D. Failure of the certification required by Section C, above, to receive the affirmative vote of a majority of the members present during a meeting does not affect the validity or confidentiality of such meeting with respect to matters considered therein in compliance with these provisions. The recorded vote and any statement made in connection therewith, upon proper authentication, constitutes evidence in any proceeding brought to enforce FOIA.
- E. Except as specifically authorized by law, in no event may the School Board or committee thereof take action on matters discussed in any closed meeting, except at an open meeting for which notice was given pursuant to Va. Code § 2.2-3707.
- F. The School Board is subject to a civil penalty of up to \$1,000 if a court finds that the Board voted to certify a closed meeting in accordance with Section C above and such certification was not in accordance with FOIA.

ELECTRONIC PARTICIPATION IN MEETINGS FROM REMOTE LOCATIONS

Except as provided hereafter, or as otherwise permitted by law, the School Board does not conduct any meeting wherein the public business is discussed or transacted through telephonic, video, electronic or other electronic communication means where the members are not physically assembled. This policy is applied strictly and uniformly, without exception, to the entire membership of the School Board and without regard to the identity of the member requesting remote participation or the matters that will be considered or voted on at the meeting.

For purposes of this policy, “electronic communication” means the use of technology having electrical, digital, magnetic, wireless, optical, electromagnetic, or similar capabilities to transmit or receive information.

I. Quorum Physically Assembled

- A. The School Board may conduct any meeting wherein the public business is discussed or transacted through electronic communication means if 1) on or before the day of a meeting, a member of the School Board notifies the chair that such member is unable to attend the meeting due to a temporary or permanent disability or other medical condition that prevents the member's physical attendance or that such member is unable to attend the meeting due to a personal matter and identifies with specificity the nature of the personal matter; and 2) the School Board approves the member's participation by a majority vote of the members present at the primary or central meeting location.

Participation by a School Board member by electronic communication means due to a personal matter is limited each calendar year to two meetings.

- B. If participation by a School Board member through electronic communication means is approved pursuant to subsection A above, the School Board records in its minutes the remote location from which the member participated; however, the remote location need not be open to the public. If participation is approved due to a temporary or permanent disability or other medical condition, the School Board also includes in its minutes the fact that the member participated through electronic communication means due to a temporary or permanent disability or other medical condition that prevented the member's physical attendance. If participation is approved due to a personal matter, the School Board also includes in its minutes the specific nature of the personal matter cited by the member.

If a School Board member's participation from a remote location due to a personal matter is disapproved, such disapproval is recorded in the minutes with specificity.

- C. A School Board member may participate in a meeting by electronic means pursuant to subsections A and B above only when:
- a quorum of the School Board is physically assembled at one primary or central meeting location; and
 - the School Board makes arrangements for the voice of the remote participant to be heard by all persons at the primary or central meeting location.

II. Quorum Not Physically Assembled

The School Board may meet by electronic communication means without a quorum physically assembled at one location when the Governor has declared a state of emergency in accordance with Va. Code § 44-146.17, provided

- the catastrophic nature of the declared emergency makes it impracticable or unsafe to assemble a quorum in a single location, and
- the purpose of the meeting is to address the emergency.

If it holds a meeting pursuant to this section, the School Board

- gives public notice using the best available method given the nature of the emergency contemporaneously with the notice provided members of the School Board; and
- makes arrangements for public access to the meeting.

For any meeting conducted pursuant to this section, the nature of the emergency, the fact that the meeting was held by electronic communication means and the type of electronic communication means by which the meeting was held are stated in the minutes of the meeting.

The superintendent's evaluations include student academic progress as a significant component and an overall summative rating. Evaluations include identification of areas of individual strengths and weaknesses and recommendations for appropriate professional activities. Informal evaluations may also take place as the Board deems appropriate, provided that specific criteria for such appraisals be communicated to the superintendent.

Each Board member is involved in assessing the superintendent's job performance on a continuing basis and by completing the annual evaluation instrument. Upon conclusion of the annual performance appraisal, the evaluation is reviewed with the superintendent by the Board or its designees.

- B. The superintendent and the principal or his designee receive reports from local law-enforcement authorities on offenses, wherever committed, by students enrolled at the school if the offense would be a felony if committed by an adult or would be a violation of the Drug Control Act (Va. Code § 54.1-3400 et seq.) and occurred on a school bus, on school property or at a school-sponsored activity, or would be an adult misdemeanor involving any incidents described in clauses (i) through (viii) of subsection A and whether the student is released to the custody of his parent or, if 18 years of age or more, is released on bond. The superintendent may request that the reports include information regarding terms of release from detention, court dates and terms of any disposition orders entered by the court. In submitting reports of such incidents, principals and superintendents accurately indicate any offenses, arrests or charges as recorded by law-enforcement authorities and required to be reported by such authorities pursuant to subsection I.B. of this policy.

Further, the principal reports whether the incident has been reported to local law enforcement pursuant to this policy and, if the incident is so reported, that the parents may contact local law enforcement for further information, if they so desire.

The principal or principal's designee notifies the parent of any student involved in an incident required to be reported pursuant to this policy, regardless of whether disciplinary action is taken against such student or the nature of the disciplinary action. Such notice relates to only the relevant student's involvement and does not include information regarding other students.

III. Prevention and Intervention Activities

Whenever any student commits any reportable incident as set forth in this policy, such student is required to participate in such prevention and intervention activities as deemed appropriate by the superintendent or superintendent's designee.

The School Board develops, in cooperation with the local law-enforcement agencies, juvenile and domestic relations court judges and personnel, parents, and the community at large, programs to prevent violence and crime on school property and at school-sponsored events, which include prevention of hazing. Notice of the time and place for the public hearing is published at least ten days in advance, in a newspaper having general circulation within the school division.

Upon approval of the school division's budget by the appropriating body, the school division publishes the approved budget in line item form, including the estimated required local match, on its website and the document is also made available in hard copy as needed to citizens for inspection.

SCHOOL ACTIVITY FUNDS

All funds derived from extracurricular school activities, including, but not limited to, entertainment, athletic contests, facilities fees, club dues, vending machine proceeds that are not deposited in the school nutrition program account, and from any and all activities of the school involving personnel, students or property are considered school activity funds.

Each school keeps an accurate record of all receipts and disbursements of school activity funds so that a clear and concise statement of the condition of each fund may be determined at all times. It is the duty of each principal to see that such records are maintained in accordance with regulations of the Virginia Board of Education and the Scott County School Board. The principal or principal's designee performs the duties of school finance officer. The school finance officer is bonded, and the school board prescribes rules governing such bonds for employees who are responsible for school activity funds.

School activity funds are audited at least once a year by a duly qualified accountant or accounting firm approved by the school board. A copy of the audit report is filed in the superintendent's office. Monthly reports of such funds are prepared and filed in the principal's office and annual reports are filed in the office of the principal or division superintendent. The cost of such audits are a proper charge against the school activity funds.

ACTIVITY FUND POLICY

All activity funds received by a local school must be deposited into its account through the school principal. The school employee (teacher, etc.) responsible for receipting activity funds must maintain a Scott County Public Schools Activity Sheet containing the date, specific activity (school pictures, etc.), amount received, paid to/by (student's name, etc.).

Upon transfer of the activity fund monies to the principal's office for deposit, the employee (teacher, etc.) must verify the amount and acknowledge transfer by signature. The office employee receiving the activity fund deposit from the school employee (teacher, etc.) will verify the amount received and acknowledge receipt of the monies by signature.

The office staff and employee (teacher, etc.), must maintain a copy of the Activity Sheet on file.

FUNDS FOR INSTRUCTIONAL MATERIALS AND OFFICE SUPPLIES

The School Board may, by resolution and subject to the approval of the appropriating body, establish accounts in each of its departments and schools committed solely for the purchase of instructional materials and office supplies. The School Board may authorize the transfer of a percentage of the funds budgeted for a school or division department, not to exceed thirty-five percent of the allocation, into the account.

The account shall be managed by the principal of the school or head of the division department who shall file a monthly accounting of the funds with the superintendent. No additional funds shall be transferred into any such account unless the monthly accounting has been filed. The funds in the account may be disbursed for payment of obligations by issuing a negotiable check signed by the principal or head of the division department, and a second person designated by the School Board. At the close of the fiscal year, all funds remaining in the accounts shall be returned to the School Board simultaneously with a full accounting of the disbursements. All such accounts shall be subject to an annual audit as prescribed by Va. Code § 15.2-2511 and to relevant provisions of the Virginia Public Procurement Act.

RECEIPT OF GOODS POLICY

This policy provides guidelines to be followed when receiving goods at the school.

All goods received must be inspected and verified immediately against the purchase order, packing slip, or receiving document. This inspection and verification must be done by someone other than the requisitioner or buyer of the goods. The goods ordered and received on behalf of the school must have two signatures.

The employee providing signature for goods on behalf of the school is responsible for assuring that such goods are received in the manner, quality and quantity ordered. This is to assure that the quality, amount, and price of the goods are correct, and that payment is made only for goods actually received. Any defective goods must be promptly returned to the vendor.

FINANCIAL ACCOUNTING AND REPORTING

The superintendent or superintendent's designee is responsible for implementing a modern system of accounting for all school funds as established by the Board of Education and the Auditor of Public Accounts.

The Scott County School Board receives monthly statements of the funds available for school purposes.

At least once each year the School Board submits a report of all its expenditures to the appropriating body. Such report is also made available to the public either on the school division website or in hard copy at the central school division office on a template prescribed by the Board of Education.

The notification will also include actual per pupil state and local education expenditures for the previous school year. The notice may also include federal funds expended for public education in the school division.

The notice will be made available in a form provided by the Department of Education and shall be published on the school division's website or in hard copy upon request.

SMALL PURCHASING

Pursuant to written procedures not requiring competitive sealed bids or competitive negotiation, the School Board may enter into single or term contracts for goods and services other than professional services and nontransportation related construction if the aggregate or the sum of all phases is not expected to exceed \$200,000 and transportation-related construction if the aggregate or sum of all phases is not expected to exceed \$25,000. However, such small purchase procedures shall provide for competition wherever practicable. Such small purchase procedures may allow for single or term contracts for professional services without requiring competitive negotiation, provided the aggregate or the sum of all phases is not expected to exceed \$ 80,000. Where small purchase procedures are adopted for construction, the procedures shall not waive compliance with the Uniform State Building Code.

PURCHASING AUTHORITY

The superintendent with the School Board's formal approval may designate a qualified employee to serve as the purchasing agent for the Board. In this capacity, the agent for the Board may purchase or contract for all supplies, materials, equipment, and contractual services required by the school division subject to federal and state laws and regulations and School Board policies. All purchases made by the school division will be in accordance with the Virginia Public Procurement Act.

All personnel in the division who desire to purchase equipment and supplies shall follow the established procurement procedures within their departments or schools for the issuance of a requisition or purchase order. All purchase orders must be forwarded to the superintendent or superintendent's designee for approval and processing.

Internal Controls

The superintendent, or superintendent's designee, establishes appropriate procedures for internal accounting controls.

Purchasing and Contracting

The Scott County School Board encourages full and open competition whenever practicable among potential contractors and suppliers by competitive bidding practices; to centralize purchasing and contracting within the school division to realize the economies resulting therefrom; and to seek maximum educational value for every dollar expended.

PETTY CASH FUNDS

The school board may by resolution establish one or more petty cash funds for the payment of properly itemized bills for materials, services, or supplies furnished to the school division under conditions calling for immediate payment to the vendor upon delivery. Such funds shall not exceed \$2,000 each.

If it establishes any petty cash funds, the school board will appoint an agent or other person authorized only to approve payment of claims arising from commitments made pursuant to provisions of law from such petty cash funds. Any agent or person into whose hands any such fund is placed may pay such claims therefrom without necessity of prior receipt and audit of the claims by the school board and without approval and issuance of the warrant of the school board.

The clerk of the school board shall report payments from petty cash funds to the school board or to any appointed agent of the school board for approval and reimbursement promptly after any claim has been paid.

A bond in the amount of \$4,000.00 will be required for each person distributing petty cash funds, but no additional bond shall be required of any person already bonded in the required amount.

PETTY CASH FUNDS POLICY

The school may establish a petty cash fund for the purpose of paying small obligations such as providing change for concessions, lunch sales, postage costs, and other purchases requiring immediate cash as a means of payment. Such funds shall not exceed **\$200** for **Duffield Primary School, Gate City High School, Gate City Middle School, Nickelsville Elementary School, Rye Cove High School, Scott County Career & Technical Center, Shoemaker Elementary School, Twin Springs High School and Weber City Elementary School** and **\$100** for **Dungannon Intermediate School, Fort Blackmore Primary School, Hilton Elementary School, Rye Cove Intermediate Schools, and Yuma Elementary School**. To establish a petty cash fund at the beginning of the fiscal year (July 1), the school will issue a check from the general fund payable to the Petty Cash Fund in the amount agreed upon for that particular school (listed above). A separate activity fund for posting all petty cash fund transactions must be set up within the School Activity Fund Monthly Report which is submitted to the superintendent each month. At the end of the fiscal year to close the cash balance of the petty cash fund a check is to be written to the general fund for any remaining balance.

If a school establishes a petty cash fund, the principal (or designee) shall be the only authorized person to approve payment of claims arising from such petty cash funds. An accounting record of all petty cash transactions is to be maintained. Every reimbursement from the fund must be by receipts signed by the payee and contain itemized invoices or claims. The only deposits to the petty cash fund should be the warrants issued to the petty cash custodian to reimburse the fund and the check to the petty cash fund requires dual signatures. Other miscellaneous receipts should not be deposited to the petty cash fund. The petty cash account should be reimbursed on a monthly basis, or as needed, and must be reimbursed at fiscal year-end in order to properly reflect current year expenditures.

PURCHASING PROCEDURES

All procurements made by the school division are in accordance with the Virginia Public Procurement Act.

Certification Regarding Sex Offenses

As a condition of awarding a contract for the provision of services that require the contractor or employees of the contractor to have direct contact with students on school property during regular school hours or during school-sponsored activities, the School Board requires the contractor to provide certification of whether any individual who will provide such services has been convicted of any violent felony set forth in the definition of barrier crime in subsection A of Va. Code § 19.2-392.02; any offense involving the sexual molestation, physical or sexual abuse or rape of a child, or any crime of moral turpitude.

This requirement does not apply to a contractor or employees of the contractor providing services to the school division in an emergency or exceptional situation, such as when student health or safety is endangered or when repairs are needed on an urgent basis to ensure that school facilities are safe and habitable, when it is reasonably anticipated that the contractor or employees of the contractor will have no direct contact with students.

Award of Contracts When Individuals Who Will Provide Services Have Been Convicted of Certain Crimes

The School Board will not award a contract for the provision of services that require the contractor or employees of the contractor to have direct contact with students on school property during regular school hours or during school-sponsored activities when any individual who provides such services has been convicted of any violent felony set forth in the definition of barrier crime in subsection A of Va. Code § 19.2-392.02 or any offense involving the sexual molestation, physical or sexual abuse, or rape of a child.

The School Board may award a contract for the provision of services that require the contractor or employees of the contractor to have direct contact with students on school property during regular school hours or during school-sponsored activities when any individual who provides such services has been convicted of any felony or crime of moral turpitude that is not set forth in the definition of barrier crime in subsection A of Va. Code § 19.2-392.02 and does not involve the sexual molestation, physical or sexual abuse, or rape of a child, provided that in the case of a felony conviction, the Governor has restored the individual's civil rights.

Unauthorized Aliens

The School Board provides in every written contract that the contractor does not, and shall not during the performance of the contract for goods and services in Virginia, knowingly employ an unauthorized alien as defined in the federal Immigration Reform and Control Act of 1986.

Discrimination by Contractor Prohibited

The School Board includes the following provisions in every contract of more than \$10,000:

1. During the performance of this contract, the contractor agrees as follows:
 - a. The contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, national origin, age, disability, or other basis prohibited by state law relating to discrimination in employment, except where there is a bona fide

occupational qualification reasonably necessary to the normal operation of the contractor. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause.

- b. The contractor, in all solicitations or advertisements for employees placed by or on behalf of the contractor, will state that such contractor is an equal opportunity employer.
- c. Notices, advertisements and solicitations placed in accordance with federal law, rule or regulation shall be deemed sufficient for the purpose of meeting the requirements of this section.

- 2. The contractor will include the provisions of the foregoing paragraphs a, b and c in every subcontract or purchase order of over \$10,000, so that the provisions will be binding upon each subcontractor or vendor.

VENDOR RELATIONS

No vendor agent, or sales representative enters the schools to advertise or sell goods or services to employees or students except as provided herein. Anyone found soliciting goods or services to students or employees in the schools or on school property during school hours without authorization is subject to legal action.

Vendors are not permitted to make appointments with individual School Board employees without the permission of the principal, the superintendent or the superintendent's designee. No vendor is permitted to sell, arrange demonstrations of products or services or take orders for goods or services without prior authorization from the principal, or superintendent or the superintendent's designee.

This does not prevent authorized representatives of firms regularly supplying goods and services to the school division from having access to the schools in the course of their routine business duties.

Prohibition on Solicitation or Acceptance of Gifts

No employee with responsibility for a procurement transaction may request, accept, or agree to accept from a bidder, offeror, contractor or subcontractor anything of more than minimal value unless consideration of substantially equal or greater value is exchanged.

Disclosure of Subsequent Employment

No employee or former employee with official responsibility for procurement transactions may accept employment with any bidder, offeror or contractor with whom the employee or former employee dealt in an official capacity concerning procurement transactions for a period of one year from the end of employment by the school division unless the employee or former employee provides written notification to the division prior to commencement of employment by that bidder, offeror or contractor.

PAYMENT PROCEDURES

School Board

The School Board examines all claims against it, except those to be paid from petty cash funds or funds for the purchase of instructional materials and office supplies, and when approved, orders or authorizes payment thereof. A record of such approval and order or authorization is made in the minutes of the School Board. Payment of each claim shall be ordered or authorized by a warrant drawn on the treasurer or other officer charged by law with the responsibility for the receipt, custody and disbursement of the funds of the School Board. The face of the warrant shall state the purpose or service for which such payment is drawn and the date of the order entered or authority granted by the School Board.

The warrant shall be signed by the chairman or vice-chairman, and countersigned by the clerk or deputy clerk, made payable to the person or persons, firm or corporation entitled to receive such payment and recorded in the form and manner prescribed by the Board of Education.

Fiscal Agent

The School Board may, by resolution, appoint an agent and deputy agent to examine and approve claims against it. A record of such approval and order or authorization shall be made and kept with the records of the School Board. Payment of each such claim so examined and approved by such agent or his deputy shall be ordered or authorized by a warrant drawn on the treasurer or other officer charged by law with the responsibility for the receipt, custody, and disbursement of the funds made available to the School Board. The warrant shall be signed by such agent or his deputy and countersigned by the clerk or deputy clerk of the School Board.

However, (1) when the agent is the superintendent, who also occupies the position of School Board clerk, a countersignature from the chairman or vice-chairman is required and (2) when the deputy agent and the deputy clerk is one and the same person, the warrant must be countersigned by either the clerk or the agent of the School Board.

Each warrant shall be payable to the person or persons, firm or corporation entitled to receive payment. The face of the warrant shall state the purpose or service for which such payment is made and also that such warrant is drawn pursuant to authority delegated to such agent or his deputy by the School Board on the specified date.

Any such agent or deputy agent must furnish a corporate surety bond. The School Board shall set the amount of such bond or bonds and the premium therefore shall be paid out of funds made available to the School Board.

Special Warrants

The Scott County School Board may provide, by resolution, for the drawing of special warrants in payment of compensation, when such compensation has been earned and is due, for

- all employees under written contract,
- all other employees whose rates of pay have been established by the School Board or its properly delegated agent, upon receipt of certified time sheets or other evidence of service performed, and
- payment on contracts for school construction projects according to the terms of such contracts.

All such special warrants shall be signed by the clerk or deputy clerk of the School Board and countersigned by the superintendent or the chairman or vice-chairman of the School Board. When the superintendent and clerk is one and the same person, such special warrants shall be countersigned by such chairman or vice-chairman. Such payrolls and contracts so paid shall be reviewed and approved by the School Board at its next regular meeting.

Adopted:

Legal Ref.: Code of Virginia, 1950, as amended, §§ 22.1-68, 22.1-78.

Cross Ref.: DGC School Activity Funds

POLICY TO SAFEGUARD SCHOOL ACTIVITY FUNDS

To insure procedural safeguards for funds received from extra curricular school activities, such as entertainment, athletic contests, etc., keep two creditable people with the money until the money has been locked safely into a locked cash box. There should be documentation or batch receipts supporting the underlying collection. An itemized listing of collections and individual receipts should accompany each remittance to the school office. This documentation should be attached to the office copy of the school receipt. All receipt books need to be accounted for and turned into the bookkeeper at the end of the year. The school office should also issue a receipt to the person remitting the money. The school finance officer shall be bonded and the local school board shall prescribe rules governing such bonds for employees who are responsible for the school activity funds.

The duties to be performed in providing proper management and security of the funds may be delegated to a degree by the principal but the responsibility for the safeguarding, accounting, and managing of the school activity funds rests solely with the principal.

SCHOOL CREDIT CARD USE AND POLICY

Schools have the authority to make purchases for their schools using credit cards; however, no personal use of the credit card is permitted. The credit card is to be used only by the principal or principal's designee authorized to make purchases for the school. If the principal does not authorize the credit card purchase, the employee who made the purchase becomes personally liable for the amount of purchase.

School credit cards must be kept under lock and key. A sign out/sign in sheet must be maintained for each credit card. At the time of sign in to return the school credit card the receipts needed to support the items charged in the bill from the credit card company must be turned in to the person responsible for maintaining the credit card records for the school. No employee is to maintain a credit card in their possession. The card will only be in the employee's possession at the time of use and returned promptly along with the appropriate detailed documentation of charges as stated above.

The credit card is not intended to create debt for the school; therefore, any balance on the credit card must be paid in full on a monthly basis.

The principal may want to restrict the total amount of charges that can be made on the credit card to help limit exposure to theft or other improper uses of the credit card.

DISPOSAL OF SURPLUS ITEMS

The school division shall apply trade-in allowances on equipment to be replaced against the purchase cost of the new equipment whenever possible.

The school division may dispose of equipment having no trade-in value by informal bid, auction or pre-priced sale as appropriate to the public. If items are valued in excess of \$500.00, formal authorization for negotiated sale or for putting the items to bid shall be obtained from the School Board.

The bidder or purchaser shall certify whether he/she is an officer or employee of the division or a member of the immediate family of an officer or employee. Officers and employees of the school division, and members of their immediate families, may purchase surplus property from the school division only if the property is being sold at uniform prices available to the public or if the goods are sold for less than \$500.00.

If reasonable attempts through the bidding or direct sales process to dispose of the items are unsuccessful, then the superintendent is authorized to arrange for their disposal.

Obsolete educational technology hardware and software that is being replaced pursuant to Va. Code § 22.1-199.1(B)(4) may be donated to other school divisions, to students, as provided in Board of Education guidelines, and to preschool programs in the Commonwealth. In addition, the school board may donate such obsolete educational technology hardware and software and other obsolete personal property to a Virginia nonprofit organization which is exempt from taxation under § 501(c)(3) of the Internal Revenue Code.

Adopted:

Legal Refs.: Code of Virginia, 1950, as amended, §§ 2.2-3108, 2.2-3109, 2.2-3110, 22.1-68, 22.1-78, 22.1-129, 22.1-199.1.

NON-LOCALLY FUNDED PROGRAMS

In order to further the goals and objectives of the school division, the school board may seek sources of revenue to supplement the funds provided through local, state and federal funding.

To promote efficiency in developing proposals and making application for specially funded programs, the superintendent may establish procedures for the preparation of proposals and their review. The superintendent shall ensure that none of the conditions of acceptance is in conflict with the policies of the board, the objectives of the division, or state or federal law.

The superintendent or superintendent's designee may submit proposals or applications for grants prior to approval by the school board. No such application or proposal shall be binding on the board without its approval.

SCHOOL CRISIS, EMERGENCY MANAGEMENT, AND MEDICAL EMERGENCY RESPONSE PLAN

Each school develops a written school crisis, emergency management and medical emergency response plan as defined below. The School Board includes the chief law-enforcement officer, the fire chief, the chief of the emergency medical services agency, the executive director of the regional emergency medical services council, and the emergency management official of the locality, or their designees, in the development of such plans. The School Board, the chief law-enforcement officer, the fire chief, the chief of the emergency medical services agency, the executive director of the regional emergency medical services council, and the emergency management official of the locality, or their designees, annually review each school's plan. The Department of Education and the Virginia Center for School and Campus Safety will provide technical assistance to the school division in the development of the plans. In developing these plans, schools may consult the model school crisis, emergency management, and medical emergency response plan developed by the Board of Education and the Virginia Center for School and Campus Safety.

The School Board designates Jason Smith, Assistant Superintendent, as emergency manager.

Each school annually conducts school safety audits as defined below. The results of such school safety audits are made public within 90 days of completion. The School Board may withhold or limit the release of any security plans, walk-through checklists and specific vulnerability assessment components as provided in the Virginia Freedom of Information Act, Va. Code § 2.2-3705.2. The completed walk-through checklist will be made available upon request to the chief law-enforcement officer of the locality or that officer's designee. Each school maintains a copy of the school's safety audit, which may exclude such security plans, walk-through checklists and vulnerability assessment components, within the office of the school principal and makes a copy of such report available for review upon written request.

Each school submits a copy of its school safety audit to the superintendent. The superintendent collates and submits all such school safety audits, in the prescribed format and manner of submission, to the Virginia Center for School and Campus Safety and shall make available upon request to the chief law-enforcement officer of the locality the results of such audits.

The superintendent establishes a school safety audit committee to include, if available, representatives of parents, teachers, local law-enforcement, emergency services agencies, local community services boards and judicial and public safety personnel. The school safety audit committee reviews the completed school safety audits and submits any plans, as needed, for improving school safety to the superintendent for submission to the School Board.

"School crisis, emergency management, and medical emergency response plan" means the essential procedures, operations, and assignments required to prevent, manage, and respond to a critical event or emergency, including natural disasters involving fire, flood, tornadoes or other severe weather; loss or disruption of power, water, communications or shelter; bus or other accidents; medical emergencies, including cardiac arrest and other life threatening medical emergencies; student or staff member deaths; explosions; bomb threats; gun, knife or other weapons threats; spills or exposures to hazardous substances; the presence of unauthorized persons or trespassers; the loss, disappearance or kidnapping of a student; hostage situations; violence on school property or at school activities; incidents involving acts of terrorism; and other incidents posing a serious threat of harm to students, personnel or facilities. The plan includes a provision that the Department of Criminal Justice Services and the Virginia Criminal Injuries Compensation Fund shall be contacted immediately to deploy assistance in the event of an emergency as defined in the emergency response plan when there are victims as defined in Va. Code § 19.2-11.01, as well as current contact information for both.

“School safety audit” means a written assessment of the safety conditions in each public school to (1) identify and, if necessary, develop solutions for physical safety concerns, including building security issues and (2) identify and evaluate any patterns of student safety concerns occurring on school property or at school-sponsored events. Solutions and responses include recommendations for structural adjustments, changes in school safety procedures and revisions to the School Board’s standards for student conduct.

Each school has contingency plans for emergencies that include staff certified in cardiopulmonary resuscitation (CPR), the Heimlich maneuver, and emergency first aid.

In addition, the school administration ensures that the school has:

- 0. written procedures to follow in emergencies such as fire, injury, illness, allergic reactions and violent or threatening behavior. The procedures include Policy JHCD Administering Medicine to Students. The plan is outlined in the student handbook and discussed with staff and students during the first week of each school year;
- 1. space for the proper care of students who become ill;
- 2. a written procedure, in accordance with guidelines established by the School Board, for responding to violent, disruptive or illegal activities by students on school property or during a school sponsored activity; and
- 3. written procedures to follow for the safe evacuation of persons with special physical, medical or language needs who may need assistance to exit a facility.

Each school shall maintain a copy of the school safety audit within the office of the school principal and shall make a copy of such report available for review upon written request.
2. Each school shall maintain records of regular safety, health and fire inspections that have been conducted and certified by local health and fire departments. The frequency of such inspections shall be determined by the local school board in consultation with the local health and fire departments
 - a. Equip all exit doors with panic hardware as required by the Uniform Statewide Building Code.
 - b. Have space available for the proper care of students who become ill.
3. Response plan. The response plan shall ensure immediate and effective action in a crisis or potential crisis situation.

- a. The School Board shall ensure that every school within the division develops a written school crisis and emergency management plan, consisting of the essential procedures, operations, and assignments required to prevent, manage, and respond to a critical event or emergency, including the following:

 - other incidents posing a serious threat of harm to students, personnel or facilities; or
 - imminent risk of suicide by students.

This plan shall be developed and fully operational by July 1, 2000. In developing this plan, schools may consult the model school crisis and emergency management plan developed by the Board of Education.

- All schools must have contingency plans for emergencies that include staff certified in Cardiopulmonary Resuscitation, the Heimlich maneuver, and emergency first aid. In addition, the school administration shall ensure that the school has:
- Written procedures for responding to emergencies, including outside threats to safety and security such as bomb threats or threatening conduct by persons not part of the school community.
- All schools must have contingency plans for emergencies that include staff certified in Cardiopulmonary Resuscitation, the Heimlich maneuver, and emergency first aid. In addition, the school administration shall ensure that the school has:

- Written procedures, in accordance with guidelines established by the local school board, for responding to violent, disruptive or illegal activities by students or others within the school community while on school property or during a school-sponsored activity. Specific procedures shall be established for responding to verbal or physical threats and other forms of threatening conduct.
- Procedures for responding to medical emergencies.

4. Crisis communication plan. The crisis communication plan shall ensure effective communication during a crisis. It shall require that the following elements be made a part of each school's written safety and crisis management plan:

BOMB THREATS

I. Purpose

To establish procedures for handling bomb threats.

II. Procedures

The following procedures shall be followed whenever a telephoned bomb threat is received at a Scott County Public School.

WARNING: **Because detonating devices are activated by radio waves, use of two-way radios should be avoided within 300 feet of the building or suspected location of the explosive device.**

A. Person Receiving the Call:

1. Have someone else also listen to the call if possible.
2. Take notes for the police investigation. Record caller's exact words.
3. Attempt to determine the caller's gender, accent, or other distinguishing speech characteristics.
4. Listen for background noises that may help in identifying the location of the caller.
5. Ask caller for the following information:
 - a. Time of detonation.
 - b. Location of the explosive device.
 - c. Type of explosive device.
 - d. Physical appearance of the device.
 - e. Reason device was placed at the school.
 - f. Caller's name.
6. If your phone is direct service, attempt to identify the number from which the person is calling by the following procedure when the caller hangs up (this procedure will not work on some telephone systems):
 - a. Hang up. Immediately pick up the same phone and push the (star) button followed by the numbers 5 and 7, and then hang up the phone. This will flag the calling number at the telephone exchange. Note the exact time this is done. The police will retrieve the information later.
 - b. When police arrive, inform the investigating police officer that you completed the above procedure and give him or her the number of the phone you received the call on and the time you performed the procedure.
7. Notify the principal or designee, the police department at 386-9111, the area office, and school security of the threat.

B. Principal or Designee

1. Ensure proper notifications are made.
2. Decide if the building will be evacuated. This decision should be made based on all available information. The police will offer guidance, but the decision is the responsibility of the school official.
3. If evacuation is necessary, conduct evacuation using fire drill procedures; any requirement for prior notification to school security may be omitted. Students should be evacuated to a location at least 300 feet from the building.
4. If events warrant, request a building search. The search should be supervised by police, but school personnel should provide any assistance requested.

REPORTING OF HAZARDS

Any employee who discovers a dangerous condition should report the condition immediately to the employee's supervisor, the superintendent or the superintendent's designee.

The superintendent shall name a designee to evaluate and label toxicity of all art materials used in the division in accordance with criteria established by the Virginia Department of Education. All materials which meet the criteria as toxic shall be so labeled. Such materials are not used in kindergarten through grade 5.

Legal Refs.: Code of Virginia, 1950, as amended, § 22.1-274.1.
8 VAC 20-530-10 et seq.

POSSIBLE EXPOSURE TO VIRAL INFECTIONS

Upon notification by a School Board employee who believes the employee has been involved in a possible exposure-prone incident which may have exposed the employee to the blood or body fluids of a student, the superintendent shall contact the local health director who, upon immediate investigation of the incident, shall determine if a potentially harmful exposure has occurred and make recommendations based upon all information available to the health director regarding how the employee can reduce any risks from such exposure.

The superintendent shall share these recommendations with the School Board employee.

The superintendent and the School Board employee shall not divulge any information provided by the local health director regarding the student involved except as described below. The information provided by the local health director is subject to any applicable confidentiality requirements set forth in Va. Code § 32.1-35.

Whenever any School Board employee is directly exposed to body fluids of any person in a manner which may, according to the current guidelines of the Centers for Disease Control and Prevention, transmit human immunodeficiency virus or hepatitis B or C viruses, the person whose body fluids were involved in the exposure shall be deemed to have consented to testing for infection with human immunodeficiency virus or hepatitis B or C viruses. Such person shall also be deemed to have consented to the release of such test results to the School Board employee who was exposed.

If the person whose blood specimen is sought for testing is a minor, consent for obtaining such specimen shall be obtained from the parent, guardian, or person standing in loco parentis of such minor prior to initiating such testing. If the parent or guardian or person standing in loco parentis withholds such consent, or is not reasonably available, the person potentially exposed to the human immunodeficiency virus or hepatitis B or C viruses, or the employer of such person, may petition the juvenile and domestic relations district court in the county or city where the minor resides or resided, or, in the case of a nonresident, the county or city where the School Board has its principal office, for an order requiring the minor to provide a blood specimen or to submit to testing and to disclose the test results in accordance with this policy.

Whenever any person is directly exposed to the body fluids of a School Board employee in a manner that may, according to the then current guidelines of the Centers for Disease Control and Prevention, transmit human immunodeficiency virus or hepatitis B or C viruses, the School Board employee whose body fluids were involved in the exposure shall be deemed to have consented to testing for infection with human immunodeficiency virus or hepatitis B or C viruses. The School Board employee shall also be deemed to have consented to the release of such test results to the person.

Except if the person to be tested is a minor, if the person whose blood specimen is sought for testing refuses to provide such specimen, any person identified by this policy who was potentially exposed to the human immunodeficiency virus or the hepatitis B or C viruses in the manner described by this policy, or the employer of such person, may petition, on a form to be provided by the Office of the Executive Secretary of the Supreme Court of Virginia, the general district court of the county or city in which the person whose specimen is sought resides or resided, or, in the case of a nonresident, the county or city where the School Board has its principal office, for an order requiring the person to provide a blood specimen or to submit to testing and to disclose the test results in accordance with this policy. A copy of the petition, which shall specify the date and location of the hearing, shall be provided to the person whose specimen is sought. At any hearing before the court, the person whose specimen is sought or the person's counsel may appear. The court may be advised by the State Health Commissioner or the Commissioner's designee prior to entering any testing order. If the general district court determines that there is probable cause to believe that a person identified by this policy has been exposed in the manner prescribed by this policy, the court shall issue an order requiring the person whose bodily fluids were involved in the exposure to provide a blood specimen or to submit to testing and to disclose the test results in accordance with this policy. If a testing order is issued, both the petitioner and the person from whom the blood specimen is sought shall receive

counseling and opportunity for face-to-face disclosure of any test results by a licensed practitioner or trained counselor.

THREAT ASSESSMENT TEAMS

The superintendent establishes a threat assessment team for each school. Teams may serve one or more schools as determined by the superintendent. The teams assess and intervene with individuals whose behavior may pose a threat to the safety of school staff or students consistent with the model policies developed by the Virginia Center for School and Campus Safety including procedures for referrals to community services boards or health care providers for evaluation or treatment when appropriate.

Each team includes persons with expertise in counseling, instruction, school administration and law enforcement. Each team

- provides guidance to students, faculty and staff regarding recognition of threatening or aberrant behavior that may represent a threat to the community, school or self;
- identifies members of the school community to whom threatening behavior should be reported; and
- implements policies adopted by the School Board.

A principal who has received information that a juvenile is a suspect in or has been charged with certain violations of law pursuant to Va. Code § 16.1-301 may provide such information to a threat assessment team. No member of a threat assessment team may disclose any such information or use such information for any purpose other than evaluating threats to students and school personnel.

Upon a preliminary determination that a student poses a threat of violence or physical harm to self or others, a threat assessment team immediately reports its determination to the superintendent or superintendent's designee. The superintendent or superintendent's designee immediately attempts to notify the student's parent or legal guardian. Nothing in this policy precludes school division personnel from acting immediately to address an imminent threat.

Upon a preliminary determination by the threat assessment team that an individual poses a threat of violence to self or others or exhibits significantly disruptive behavior or need for assistance, a threat assessment team may obtain criminal history record information, as provided in Va. Code §§ 19.2-389 and 19.2-389.1, and health records, as provided in Va. Code § 32.1-127.1:03. No member of a threat assessment team rediscloses any criminal history record information or health information obtained pursuant to this policy or otherwise uses any record of an individual beyond the purpose for which such disclosure was made to the threat assessment team.

Each threat assessment team collects and reports to the Virginia Center for School and Campus Safety (the Center) quantitative data on its activities using the case management tool developed by the Center.

The superintendent may establish a committee to oversee the threat assessment teams or may assign the oversight of the teams to an existing committee. If such a committee is established, it will include individuals with expertise in human resources, education, school administration, mental health and law enforcement.

THREAT ASSESSMENT POLICY AND PROCEDURE

The Scott County School's Policy on Student Threat Assessment presented here is based on the precise language and requirements of § 22.1-79.4, *Code of Virginia* requiring local school boards to adopt policies for the establishment of threat assessment teams and prescribing the composition and responsibilities of teams as well as related referral and reporting requirements.

STUDENT THREAT ASSESSMENT

- A formal threat assessment team shall be established for each school for the assessment of and intervention with students whose behavior may pose a threat to the safety of school staff or students.
- The superintendent shall establish, for each school, a threat assessment team; a particular threat assessment team may serve one or more schools as determined by the superintendent.
 - Each team shall include persons with expertise in counseling, instruction, school administration, and law enforcement.
 - Each team shall:
 - Provide guidance to students, faculty, and staff regarding recognition of threatening or aberrant behavior that may represent a threat to the community, school, or self;
 - Identify members of the school community to whom threatening behavior should be reported; and
 - Implement school board policies for the assessment of and intervention with students whose behavior poses a threat to the safety of school staff or students.
- All school division employees, volunteers, and contractors are required to report any expressed threats or behavior that may represent a threat to the community, school, or self.
- In cases determined to be appropriate, teams shall follow established procedures for referrals to community services boards or health care providers for evaluation or treatment when appropriate.
- Regardless of threat assessment activities, disciplinary action and referral to law enforcement are to occur as required by school board policy and the *Code of Virginia*.
- Upon a preliminary determination that a student poses a threat of violence or physical harm to self or others, a threat assessment team shall immediately report its determination to the superintendent or designee and attempt to notify the student's parent or legal guardian. Nothing in this policy shall preclude school division personnel from acting immediately to address an imminent threat.
- The superintendent will establish a committee operating within the division charged with oversight of the threat assessment teams consisting of individuals with expertise in human resources, education, school administration, mental health, and law enforcement.
- Each threat assessment team established pursuant to *Code of Virginia*, § 22.1-79.4 shall report quantitative data on its activities according to guidance developed by the Department of Criminal Justice Services.

PROCEDURES FOR CONDUCTING STUDENT THREAT ASSESSMENTS

These procedures are consistent with the requirements of the *Code of Virginia* and reflect practices set forth in *Threat Assessment in Schools: A Guide to Managing Threatening Situations and to Creating Safe School Climates* as well as best practices identified in school divisions in Virginia. Elements of the procedure that are aligned with *Code of Virginia* requirements include a cross-reference to the applicable section of the *Code*.

PURPOSE

The purpose of this regulation is to establish procedures for the assessment and intervention with students whose behavior poses a threat to the safety of school staff or students.

DEFINITIONS

- A threat is a concerning communication or behavior that suggests a person may intend to harm someone else. The threat may be spoken, written, or gestured and is considered a threat regardless of whether it is observed or communicated directly to the target of the threat or observed by or communicated to a third party and regardless of whether the target of the threat is aware of the threat existing in any fashion, whether orally, visually, in writing, or electronically.
- A threat assessment is a fact-based process relying primarily on an appraisal of behaviors to identify potentially dangerous or violent situations and address them.
- A low risk threat is one in which the person/situation does not appear to pose a threat of violence and any underlying issues can be resolved easily.
- A moderate risk threat is one in which the person/situation does not appear to pose a threat of violence at this time but exhibits behaviors that indicate a continuing intent to harm and potential for future violence.
- A high risk threat is one in which the person/situation appears to pose a threat of violence, exhibiting behaviors that indicate both a continuing intent to harm and efforts to acquire the capacity to carry out the plan.
- An imminent threat exists when the person/situation appears to pose a clear and immediate threat of serious violence toward others that requires containment and action to protect identified target(s).

THREAT ASSESSMENT TEAM

- School threat assessment teams shall be headed by the principal or administrative designee and include at least one guidance counselor, a school psychologist and/or school social worker, a law enforcement representative who is typically a school resource officer, and a member with expertise in instruction. Other school staff may serve on the team and/or be consulted during the threat assessment process, as appropriate, or as determined by the principal. [Note: § 22.1-79.4.D., *Code of Virginia*, requires school threat assessment teams to include persons with expertise in counseling, instruction, school administration, and law enforcement]
- In fulfilling statutory responsibilities, school threat assessment teams shall:
 - Conduct the assessment of and intervention with students whose behavior may pose a threat to the safety of the school staff or students.
 - Provide guidance to students, faculty, and staff regarding recognition of threatening behavior that may represent a threat by conducting presentations, broadly disseminating relevant information, and ensuring access to consultation from teams;
 - Clearly identify the person(s) to whom members of the school community are to report threatening behavior; and
 - Implement school board policies in an effective manner for the assessment of and intervention with students whose behavior poses a threat, including, in appropriate cases, referrals to community services boards or health care providers for evaluation or treatment. (§ 22.1-79.4.C., *Code of Virginia*)
 -
- The school division level threat assessment team shall oversee and provide support for school threat assessment teams. [Note: § 22.1-79.4.B., *Code of Virginia*, authorizes the superintendent of each school division to establish a committee charged with oversight of the threat assessment teams operating within the

division, which may be an existing committee established by the division. *If established*, it is required that the committee include individuals with expertise in human resources, education, school administration, mental health, and law enforcement.]

- The team shall include a senior division administrator (e.g., Assistant Superintendent for Administration) and senior division administrators in school safety, in student services, and in human resources in consultation with designated representatives of the (specify) community services board and (locality) police department (or sheriff's office).
- The school division level threat assessment team shall provide oversight to school level threat assessment teams; ensure that procedures are maintained for effective information sharing between the school division and community mental health and law enforcement agencies; assess the effectiveness of the threat assessment process throughout the school division; and recommend changes to policies and procedures, as needed, to ensure an effective threat assessment process reflecting known best practices.

PROCEDURES

- Identifying and Reporting Threats
 - When a student makes a threat or engages in concerning communications or behaviors that suggest the likelihood of a threatening situation, the **Scott County Public School's Student Threat Assessment Guidelines** shall be followed. The goal of the threat assessment process is to take appropriate preventive or corrective measures to maintain a safe and secure school environment, to protect and support potential victims, and to provide assistance, as needed, to the student being assessed.
 - Regardless of threat assessment activities, disciplinary action and referral to law enforcement are to occur when required by school board policy or the *Code of Virginia*.
 - Threats of self harm require compliance with § 22.1-272.1, *Code of Virginia* and with applicable school board policies and regulations [*Policy JHF-R*] When threats of self harm are accompanied by threats to harm others, or investigation suggests the existence of a threat to others, the threat assessment team shall be notified and take appropriate action to prevent acts of violence.
 - All school division employees, volunteers, and contractors are required to report immediately to the designated school administrator any expression of intent to harm another person, concerning communications, or concerning behaviors that suggest a student may intend to commit an act of violence.
 - Anyone who believes that a person or situation poses a clear and immediate threat of serious violence that requires containment should notify school security and/or law enforcement in accordance with school board policies.
 - In accordance with § 22.1-279.3:1, *Code of Virginia* certain types of threats require immediate notification to law enforcement. The school administrator shall immediately report to the local law enforcement agency:
 - A threat that involves stalking of any person on a school bus, on school property, or at a school-sponsored activity.
 - Threats to bomb, burn, kill, or harm school personnel.
- Threats of death or bodily injury to a person or members of his or her family; and/or threats to commit serious bodily harm to persons on school property.
 - The school administrator shall also immediately report any act noted above that may constitute a criminal offense to the parents and/or guardians of any minor student who is alleged to have committed the act and shall report that the incident has been reported to local law enforcement, as required by law. The school administrator shall inform the parents and/or guardians that they may contact local law enforcement for further information, if they so desire. In addition, the school administrator may report other threats to the local law enforcement agency, as necessary and appropriate.
- Assessing Threats

- When a threat is reported, the school administrator shall initiate an investigative process and, in consultation with the threat assessment team, make a determination of the seriousness of the threat as expeditiously as possible in accordance with **Scott County Public School's Student Threat Assessment Guidelines**.
 - The initial phase of the threat assessment process typically follows a standard discipline investigation process. As soon as the threat is reported, the school administrator is to conduct timely interviews of the student who made the threat, the recipients of the threat, and other witnesses who have knowledge of the threat. The purpose of the interviews is to evaluate the student's threat in context, so that the meaning of the threat and intent of the student can be determined.
 - **Imminent threat.** If the student appears to pose a clear and immediate threat of serious violence, the administrator shall notify law enforcement in accordance with School Board policies. [Note: In accordance with *Virginia's Crisis Management and Emergency Response Resource Guide* responses may include actions such as evacuation, lockdown, and soft lockdown.]
 - **Low risk threat.** If it is determined that the threat is a low risk threat and the threat assessment team determines no further assessment or monitoring is required at this time, the administrator shall complete the **Student Threat Assessment and Response Form** and retain a copy with the student's disciplinary records in accordance with School Board policy. If the student appears to be in need of assistance, the threat assessment team shall refer the student for assistance from the appropriate school or community-based resources and assign a case manager to monitor progress.
 - If it cannot be determined with a reasonable degree of confidence that the threat is low risk, then a more in-depth investigation is to be undertaken by the threat assessment team to determine the nature and degree of any safety concerns and to develop strategies to reduce risk, as necessary. The investigation may include but not be limited to reviews of records, consultation with staff who knows the student, and interviews of the subject, student and threat recipient(s).
 - Based on information collected, the school threat assessment team is to determine strategies to mitigate the threat and provide assistance, as needed. As a step in this process, the threat assessment team is to classify threats and respond in accordance with the level of threat in accordance with **Student Threat Assessment Guidelines**.
 - Upon a determination that a student poses a threat of violence or physical harm to self or others, a threat assessment team shall immediately report its determination to the superintendent or designee and attempt to notify the student's parent or legal guardian. (§ 22.1-79.4.D., *Code of Virginia* and § 22.1-272.1., *Code of Virginia*).
 - In instances where the threat is deemed moderate risk or high risk, or requires further action, the school administrator shall notify the parent and/or guardian of the student who is the recipient of the threat and the parent and/or guardian of the student who made the threat. In cases involving low risk threats, the parent or guardian of the threat recipient may be notified at the discretion of the threat assessment team.
 - Findings from assessment and classification of the threat are to be documented in writing by submitting the **Student Threat Assessment and Response Report** to the central office within 72 hours of the initial receipt of the threat.
- Intervening, Monitoring, and Resolving
 - If it is determined that the student poses a threat of violence, the threat assessment team shall develop, implement, and monitor an individualized plan to intervene and reduce the threat. The individualized plan is to be documented in the **Student Threat Assessment and Response Report**.
 - The student who made the threat and any impacted students are to be assisted in accessing appropriate school and community-based resources for support and/or assistance.
 - A member of the threat assessment team shall be designated case manager to monitor the status of the student and to notify the threat assessment team of any change in status or additional information that would be cause for a re-assessment. Additional information from monitoring and any re-assessment are to be documented in updates to the **Student Threat Assessment and Response Report**. These updates are to be submitted at least every 30 days until the case is resolved.

- Resolution of the case is to be documented in the Verification of Case Closure portion of the **Student Threat Assessment and Response Report**.

STUDENT THREAT ASSESSMENT GUIDELINES

These guidelines are based on principles and practices recommended in *Threat Assessment in Schools: A Guide to Managing Threatening Situations and to Creating Safe School Climates*, a 2002 publication of the U.S. Secret Service and U.S. Department of Education. The publication is available online at www.secretservice.gov/ntac/ssi_guide.pdf.

PRINCIPLES OF THREAT ASSESSMENT

Threat assessment is to be viewed as one component of an overall strategy to reduce school violence and implemented within the larger context of strategies to ensure schools are safe and secure environments. The principle objective of school violence-reduction strategies should be to create cultures and climates of safety, respect, and emotional support within the school.

Among other school safety strategies employed by Scott County Public Schools are:

- School climate assessments
- Emphasis on school connectedness
- Strong, but caring, stance against the code of silence
- Bullying prevention and intervention
- School-law enforcement partnerships including school resource officers
- Collaborative relationships with mental health, social services, and other community-based resources

Assumptions

Assumptions reflected in the guidelines are informed by findings of the *Safe School Initiative*, a study that examined 37 incidents of targeted school violence that occurred in the United States from December 1974 through May 2000. Among key findings:

- Incidents of targeted violence at school are rarely sudden, impulsive acts.
- Prior to most incidents, other people knew about the attacker's idea and/or plan to attack.
- Most attackers did not threaten their targets directly prior to advancing the attack.
- Most attackers engaged in some behavior, prior to the incident that caused concern or indicated a need for help.

The fact that most attackers engaged in pre-incident planning behavior and shared their intentions and plans with others, suggests that the information is likely to be uncovered through a sound threat assessment process.

Attacks examined under the *Safe School Initiative* appeared to be the end result of a process of thinking and behavior that begins with an idea, progresses to development of a plan, moves on to acquiring the means (e.g., weapons, training, capacity, access) to carry out the plan, and culminates in an attack. A graphic representation of the process is shown in Figure 1.

Figure 1. Attack Process

Principles

The appraisal of risk in a threat assessment focuses on actions/behaviors, communications, and specific circumstances that might suggest that an individual intends to engage in violence and is planning or preparing for that event. The threat assessment process is centered upon an analysis of the facts and evidence of behavior in a given situation.

According to experts, six core principles that form the foundation of the threat assessment process are:

1. The central question in a threat assessment inquiry or investigation is whether a student poses a threat, not whether the student has made a threat.

The Safe School Initiative found that fewer than 20 percent of school shooters communicated a direct or conditional threat to their target before the attack. By contrast, individuals who are found to pose threats of violence frequently do not make threats to their targets. The study found that in more than 80 percent of the cases, school shooters did not threaten their targets directly, but they did communicate their intent and/or plans to others before the attack.

2. Targeted violence is the end result of an understandable, and often discernible, process of thinking and behavior.

Students who have committed targeted attacks did not “just snap,” but engaged in a process of thought and escalation of action over days, weeks, months, and even years.

3. Targeted violence stems from an interaction among the individual, the situation, the setting, and the target.

Preventing acts of violence requires a focus on these four components and their interaction. A focus on the individual should provide insight into how the individual perceives and deals with conditions, often stressful, in his or her life. A focus on the situation should examine circumstances and events such as bullying or personal losses that contribute to feelings of being overwhelmed. Almost all school shooters experienced some major situational stress at some point prior to their attacks.

4. An investigative, skeptical, inquisitive mindset is critical to successful threat assessment.

Those who carry out threat assessment must strive to be both accurate and fair, continuing throughout the assessment process both to gather pieces of information and to fit the pieces into a larger picture.

5. Effective assessment is based upon facts and observations of behavior, rather than on characteristics or “traits.” Student “profiles” do not provide a reliable basis for making judgments of the threat posed by a particular student.

6. An “integrated systems approach” coordinated with agencies and service systems within the school and the community (e.g., mental health services, law enforcement) should guide threat assessment inquiries.

Relationships with agencies and service systems within the school (e.g., school psychologist, school social worker, school-based mental health clinicians) and community (e.g., mental health, juvenile justice, child welfare) are critical to identifying, assessing, and managing students who are on a path to carrying out an act of targeted violence.

Definitions

- A threat is a concerning communication or behavior that suggests a person may intend to harm someone else. The threat may be spoken, written, or gestured and is considered a threat regardless of whether it is observed

or communicated directly to the target of the threat or observed by or communicated to a third party and regardless of whether the target of the threat is aware of the threat existing in any fashion, whether orally, visually, in writing, or electronically.

- A threat assessment is a fact-based process relying primarily on an appraisal of behaviors to identify potentially dangerous or violent situations and address them.
- A low risk threat is one in which the person/situation does not appear to pose a threat of violence and any underlying issues can be resolved easily.
- A moderate risk threat is one in which the person/situation does not appear to pose a threat of violence at this time but exhibits behaviors that indicate a continuing intent to harm and potential for future violence.
- A high risk threat is one in which the person/situation appears to pose a threat of violence, exhibiting behaviors that indicate both a continuing intent to harm and efforts to acquire the capacity to carry out the plan.
- An imminent threat exists when the person/situation appears to pose a clear and immediate threat of serious violence toward others that requires containment and action to protect identified target(s).

School Threat Assessment Teams

[Note: § 22.1-79.4.D., *Code of Virginia*, requires school threat assessment teams to include persons with expertise in counseling, instruction, school administration, and law enforcement.]

School threat assessment teams shall be headed by the principal or administrative designee and include at least one guidance counselor, a school psychologist and/or school social worker, a law enforcement representative who is typically a school resource officer, and a member with expertise in instruction. Other school staff may serve on the team and/or be consulted during the threat assessment process, as appropriate, or as determined by the principal.

At the discretion of the superintendent, a threat assessment team may be established to serve more than one school when logistics and staff assignments make it feasible. (§ 22.1-79.4.C., *Code of Virginia*)

School threat assessment teams are required by § 22.1-79.4.D, *Code of Virginia*, to do the following:

- Provide guidance to students, faculty, and staff regarding recognition of threatening behavior that may represent a threat by conducting presentations, broadly disseminating relevant information, and ensuring access to consultation from teams;
- Identify the person(s) to whom members of the school community are to report threatening behavior; and
- Implement school board policies in an effective manner for the assessment of and intervention with students whose behavior poses a threat, including, in appropriate cases, referrals to community services boards or health care providers for evaluation or treatment.

Division Threat Assessment Teams

[Note: § 22.1-79.4.B., *Code of Virginia*, permits the superintendent to establish a division-level threat assessment team charged with oversight of the school threat assessment teams operating within the division and permits an existing division-level committee to function as the division threat assessment team. *If established*, the division-level threat assessment team must include individuals with expertise in human resources, education, school administration, mental health, and law enforcement.]

The division-level threat assessment team shall oversee and provide support for school threat assessment teams.

The team shall include a senior division administrator (e.g., Assistant Superintendent for Administration) and senior division administrators in school safety, in student services, and in human resources in consultation with designated representatives of the (specify) community services board and (locality) police department (or sheriff's office).

The division-level threat assessment team shall perform the following duties:

- provide oversight to school level threat assessment teams;
- ensure that procedures are maintained for effective information sharing between the school division and community mental health and law enforcement agencies;
- assess the effectiveness of the threat assessment process throughout the school division; and
- recommend changes to policies and procedures, as needed, to ensure an effective threat assessment process reflecting current best practices.

Documentation

When a threat assessment is conducted and results in a determination of low risk, the administrator shall complete the **Student Threat Assessment and Response Report** and maintain a copy with the student's discipline record in accordance with existing policy.

When a student threat is determined to be moderate or high risk, the administrator shall ensure that the determination is documented in the **Student Threat Assessment and Response Report** and that the report is submitted to the central office within 72 hours of the initial report of the threat.

Any individualized plan to intervene and reduce the threat is to be documented in the **Student Threat Assessment and Response Report**. Additional information from monitoring and any re-assessment are also to be documented in updates to the **Student Threat Assessment and Response Report** that are to be submitted at least every 30 days until the case is resolved. Resolution of the case is to be documented in the Verification of Case Closure portion of the **Student Threat Assessment and Response Report**.

IDENTIFYING AND REPORTING THREATS

All school division employees, volunteers, and contractors are required to report immediately to the school administrator any expression of intent to harm another person, concerning communications, or concerning behaviors that suggest a student may intend to commit an act of targeted violence.

The school threat assessment team shall strive to make the reporting process both understandable and highly accessible and to discourage a "code of silence" that may be a barrier to reporting. Faculty and staff, students, volunteers, and other members of the school community need to know:

- their role and responsibility to report;
- what to report;
- where to report it;
- that reports are wanted and will be acted upon.

Members of the school community should be encouraged on an ongoing basis to report any threatening communication or troubling behavior and be reminded that reporting is an act of caring and not "snitching" or "tattling."

Section 8.01-47, *Code of Virginia*, enacted in 2013, grants immunity from all civil liability to any person who, in good faith with reasonable cause and without malice, reports, investigates, or causes an investigation to be made into information that any person poses a credible danger of serious bodily injury or death to any other person on school property.

All threats of self harm require compliance with § 22.1-272.1, *Code of Virginia* and with applicable school board policies and regulations [cite Division Regulation #]. However, when threats of self-harm are accompanied by threats to harm others, or investigation suggests the existence of a threat to others, the threat assessment team shall be notified and take appropriate action to prevent acts of targeted violence.

Anyone who believes that a person or situation poses a clear and immediate threat of serious violence that requires containment should notify school security and law enforcement in accordance with school board policies.

ASSESSING AND CLASSIFYING THREATS

When a threat is reported, the school administrator shall initiate an investigative process and, in consultation with the threat assessment team, make a determination of the seriousness of the threat as expeditiously as possible in accordance with **Scott County Public School's Student Threat Assessment Guidelines**.

The initial phase of the threat assessment process typically follows a standard discipline investigation process. As soon as the threat is reported, the school administrator is to conduct timely interviews of the student who made the threat, the recipients of the threat, and other witnesses who have knowledge of the threat. The purpose of the interviews is to evaluate the student's threat in context, so that the meaning of the threat and intent of the student can be determined.

If the student appears to pose a clear and immediate threat of serious violence, the administrator shall notify law enforcement in accordance with School Board policies. [Note: In accordance with *Virginia's Crisis Management and Emergency Response Resource Guide* responses may include actions such as evacuation, lockdown, and soft lockdown.]

Information obtained from the threat assessment should be recorded in the **Student Threat Assessment and Response Report** which documents information collected from multiple sources. All questions should be asked and responses recorded.

The following are examples of key questions to help assess the situation. Additional questions may be asked for clarification and/or to probe more deeply to fully understand the circumstances.

Questions for student who made the threat:

- What exactly was said or done
- What was meant by what was said or done
- Student understanding of how what was said/done would make target feel
- Reason student said or did concerning act
- What student now plans

Questions for witness(es):

- What exactly the student said or did
- What witness thinks student meant based on the context of the comment or action
- What witness thinks was motive for what student said/did
- Has the student engaged in any behaviors that would assist them in committing violent acts towards others (e.g., seeking weapons)

Questions for recipient(s) of threat:

- What exactly the student said or did, if witnessed
- Nature of relationship with student; whether there is history of conflict or prior threats
- What recipient thinks was motive for what student said/did

Information from records and consultation with adults in school who know student best:

- Recent disciplinary and school performance history

- Presence of known problems in the life of the student

Regardless of threat assessment activities, disciplinary action and referral to law enforcement are to occur as required by school board policy or § 22.1-279.3:1, *Code of Virginia*. Certain types of threats require immediate notification to law enforcement. The school administrator shall immediately report to the local law enforcement agency:

- A threat that involves stalking of any person on a school bus, on school property, or at a school-sponsored activity.
- Threats to bomb, burn, kill, or harm school personnel.
- Threats of death or bodily injury to a person or members of his or her family; and/or threats to commit serious bodily harm to persons on school property.

In accordance with § 22.1-279.3:1, *Code of Virginia*, the principal (or designee) shall also immediately report any act noted above that may constitute a criminal offense to the parents and/or guardians of any minor student who is alleged to have committed the act and shall report that the incident has been reported to local law enforcement, as required by law. The school administrator shall inform the parents and/or guardians that they may contact local law enforcement for further information, if they so desire. In addition, the school administrator may report other threats to the local law enforcement agency, as necessary and appropriate.

If it is determined that the threat is a low risk threat and the threat assessment team determines no further assessment or monitoring is required at this time, the administrator shall complete the **Student Threat Assessment and Response Form** and retain a copy with the student's disciplinary records in accordance with School Board policy.

If the student appears to be in need of assistance, the threat assessment team shall refer the student for assistance from the appropriate school or community-based resources and assign a case manager to monitor progress.

The school administrator should be able to investigate and resolve most low risk threats in consultation with members of the threat assessment team with minimal direct involvement by the full team.

If it cannot be determined with a reasonable degree of confidence that the threat is low risk, then a more in-depth investigation is to be undertaken by the threat assessment team to determine the nature and degree of any safety concerns and to develop strategies to reduce risk.

Before conducting an interview with a student of concern, threat assessment team members should be well acquainted with the facts that brought the student to the attention of school administrators and others. In addition, team members should review available information concerning the student's background, interests, and behaviors.

Review of records/consultation with staff members who know the student best: Background information can inform the threat assessment team's approach to and questioning of the student. This information may help the threat assessment team determine whether the student poses a threat to particular targets. In addition, knowledge of background information concerning the student prior to the interview may help the threat assessment team judge whether the student is forthcoming and straightforward.

Student interview: Generally, a student should be asked directly about his or her intentions. Often, adolescents will respond forthrightly to a direct question. A student interview conducted during a threat assessment inquiry can elicit important information that permits the threat assessment team to better understand the situation of the student and possible targets. This understanding, in turn, will help the threat assessment team to assess the risk of

violence that the student may pose in a given situation. Interviews with a student of concern also can generate leads for further inquiry.

An interview can also send the message to the student that his or her behavior has been noticed and has caused concern. Interviews give students of concern the opportunity to tell their personal stories, to be heard, and to reassess and redirect their behavior away from activities that are of concern. The interview may suggest to a student who has mixed feelings about attacking that there are people who are interested in his or her welfare, and that there are better, more effective ways to deal with problems or with specific people.

Although an interview with a student of concern can provide valuable information, relying too heavily on that interview as a basis for making judgments about whether that student poses a threat may present problems. The information offered by the student may be incomplete, misleading, or inaccurate. It therefore is important to collect information to corroborate and verify information learned from the student interview.

Interview with threat recipient(s): Individuals who have been identified as potential targets of the student of concern should also be interviewed. The threat assessment team should inform the subject of the interview that the primary purpose of that interview is to gather information about a possible situation of concern.

A potential target should be asked about their relationship to the student of concern and queried about recent interactions with that student. The interviewer should gather information about grievances and grudges that the student of concern may hold against a target or against others. Interviews with potential targets should be conducted with special sensitivity. Care must be taken to gather information without unduly alarming a potential target. If the threat assessment team believes that there may be a risk of violence to an identified target, that target should be offered assistance and support.

The assessment process facilitates increased and revised understanding of issues over time. That is, when new information is made available to the team during or after the initial assessment, the team should review the new information and re-evaluate the threat accordingly.

Assessing Potential Threatening Behavior

Information gathered in a threat assessment inquiry should be examined for evidence of behavior and conditions that suggest that the student of concern is planning and preparing for an attack. Analysis of this information should, in the end, answer these questions:

- Is the behavior of the student consistent with movement on a pathway toward attack?
- Do the student's current situation and the setting incline him or her toward or away from targeted violence?

Based on the information available, the threat assessment team should seek to answer the following questions:

1. What are the student's motive(s) and goals?

- What motivated the student to make the statements or take the actions that caused him or her to come to attention?
- Does the situation or circumstance that led to these statements or actions still exist?
- Does the student have a major grievance or grudge? Against whom?
- What efforts have been made to resolve the problem and what has been the result? Does the potential attacker feel that any part of the problem is resolved or see any alternatives?

2. Have there been any communications suggesting ideas or intent to attack?

- What, if anything, has the student communicated to someone else (targets, friends, other students, teachers, family, others) or written in a diary, journal, or on a Web site concerning his or her ideas and/or intentions?

- Have friends been alerted or "warned away"?

3. Has the subject shown inappropriate interest in any of the following?

- school attacks or attackers;
- weapons (including recent acquisition of any relevant weapon);
- incidents of mass violence (terrorism, workplace violence, mass murderers).

4. Has the student engaged in attack-related behaviors? These behaviors might include:

- developing an attack idea or plan;
- making efforts to acquire or practice with weapons;
- casing, or checking out, possible sites and areas for attack;
- rehearsing attacks or ambushes.

5. Does the student have the means to carry out an act of targeted violence?

- How organized is the student's thinking and behavior?
- Does the student have the means, e.g., access to a weapon, to carry out an attack?

6. Is the student experiencing hopelessness, desperation, and/or despair?

- Is there information to suggest that the student is experiencing desperation and/or despair?
- Has the student experienced a recent failure, loss, and/or loss of status?
- Is the student known to be having difficulty coping with a stressful event?
- Is the student now, or has the student ever been, suicidal or "accident-prone"?
- Has the student engaged in behavior that suggests that he or she has considered ending their life?

7. Does the student have a trusting relationship with at least one responsible adult?

- Does the student have at least one relationship with an adult where the student feels that he or she can confide in the adult and believes that the adult will listen without judging or jumping to conclusions? (Students with trusting relationships with adults may be directed away from violence and despair and toward hope.)
- Is the student emotionally connected to – or disconnected from – other students?
- Has the student previously come to someone's attention or raised concern in a way that suggested he or she needs intervention or supportive services?

8. Does the student see violence as an acceptable – or desirable – or the only – way to solve problems?

- Does the setting around the student (friends, fellow students, parents, teachers, adults) explicitly or implicitly support or endorse violence as a way of resolving problems or disputes?
- Has the student been "dared" by others to engage in an act of violence?

9. Is the student's conversation and "story" consistent with his or her actions?

- Does information from collateral interviews and from the student's own behavior confirm or dispute what the student says is going on?

10. Are other people concerned about the student's potential for violence?

- Are those who know the student concerned that he or she might take action based on violent ideas or plans?
- Are those who know the student concerned about a specific target?

- Have those who know the student witnessed recent changes or escalations in mood and behavior?

11. What circumstances might affect the likelihood of an attack?

- What factors in the student’s life and/or environment might increase or decrease the likelihood that the student will attempt to mount an attack at school?
- What is the response of other persons who know about the student’s ideas or plan to mount an attack? Do those who know about the student’s ideas actively discourage the student from acting violently, encourage the student to attack, deny the possibility of violence, passively collude with an attack, etc.?

Thoughtful consideration of the answers to the above 11 questions will produce a sound foundation for the threat assessment team’s response to the overarching question in a threat assessment inquiry: ***Does the student of concern pose a threat of targeted violence at school?***

Behaviors that should raise concern about potential violence include:

- ideas or plans about injuring him/herself or attacking a school or persons at school;
- communications or writings that suggest that the student has an unusual or worrisome interest in school attacks;
- comments that express or imply the student is considering mounting an attack at school;
- recent weapon-seeking behavior, especially if weapon-seeking is linked to ideas about attack or expressions about interest in attack;
- communications or writings suggesting the student condones or is considering violence to redress a grievance or solve a problem; and
- rehearsals of attacks or ambushes.

Classifying Threats to Determine Response Strategies

The threat assessment is designed to identify and assess risks in a deliberate and thorough manner. In determining response strategies to mitigate the risk and to provide assistance, as needed, it is helpful to classify threats by level. Based on the information collected, the threat assessment team may classify threats using the following basic criteria:

Threat Levels	Criteria
Low risk threat	person/situation does not appear to pose a threat of violence and any underlying issues can be resolved easily.
Moderate risk threat	person/situation does not appear to pose a threat of violence at this time but exhibits behaviors that indicate a continuing intent to harm and potential for future violence.
High risk threat	person/situation appears to pose a threat of violence, exhibiting behaviors that indicate both a continuing intent to harm and efforts to acquire the capacity to carry out the plan.
Imminent threat	person/situation appears to pose a clear and immediate threat of serious violence toward others that requires containment and action to protect identified target(s).

RESPONDING TO THREATS

Successful management of a threatening situation can require substantial time and effort. Management of these situations comprises three related functions:

1. controlling/containing the situation and/or student in a way that will prevent the possibility of an attack;
2. protecting and aiding possible targets to the extent possible; and
3. providing support and guidance to help the student deal successfully with his or her problems.

If it is determined that the student poses a threat of violence, the threat assessment team shall develop, implement, and monitor an individualized plan to intervene and reduce the threat. The individualized plan is to be documented in the **Student Threat Assessment and Response Report**.

The student who made the threat and any impacted students are to be assisted in accessing appropriate school and community-based resources for support and/or assistance.

A member of the threat assessment team shall be designated case manager to monitor the status of the student and to notify the threat assessment team of any change in status or additional information that would be cause for a re-assessment. Additional information from monitoring and any re-assessment are to be documented in the **Student Threat Assessment and Response Report Update** to be submitted at least every 30 days until the case is resolved. Resolution of the case is to be documented in the Verification of Case Closure portion of the **Student Threat Assessment and Response Report**.

Threat Assessment and Disciplinary Responses

Response strategies selected should be the ones with the greatest potential for long-term preventive power. While holding students accountable for their actions, school administrators must be fair and reasonable in disciplinary responses. A broad range of corrective disciplinary actions may be employed including admonition and counseling, student behavior contract, after-school or in-school detention, and suspension of student privileges for a specified period. These disciplinary responses may be combined with other actions such as parent conferences, modifications of student classroom assignment or schedule, and referrals to in-school and community-based programs such as mediation and community service.

It is important for threat assessment teams to recognize that even fair and reasonable discipline can be perceived as another grievance to which the student may react. In such cases, the disciplinary response could lead to escalation in threatening behavior.

The most punitive responses may or may not prevent acts of violence. Suspension or expulsion of a student *can* create the risk of triggering either an immediate or a delayed violent response unless such actions are coupled with containment and support. A student who is expelled may conclude: "I have lost everything. I have only a short time to act. I will give them what they deserve." In addition, a student who is suspended or expelled is often under less supervision than if he or she were to remain in a school setting.

Although detaining a student may be necessary in a particular situation, without careful attention to the need for confinement, weapons removal, or interpersonal intervention, that action may be insufficient to prevent an eventual attack at school or otherwise protect a target. Similarly, referring a student to the mental health system, without seeing that referral in the context of an overall monitoring/management plan, may not be sufficient to prevent violence.

Low Risk Threat Responses

A low risk threat is one in which the person/situation does not appear to pose a threat of violence and any underlying issues can be resolved easily. The response to such a threat depends on the context of the threat, whether the threat requires some form of disciplinary action, and what is necessary to resolve the situation. All low risk threats must end in an apology, retraction, or explanation that indicates that the threat is over. School administrators should do the following:

- Since low risk threats by definition do not appear to pose a threat and can be easily resolved, action to protect the person(s) to whom the threat was directed may not be necessary. When the person to whom the threat was directed is a student, his/her parents or guardian may be notified, at the discretion of the threat assessment team. If parents of a threatened student are notified, they should be contacted promptly and reassured that the threat has been resolved.
- All low risk threats are subject to disciplinary action based on school board policy. Regardless of disciplinary action, the parent or guardian of the subject student is to be notified of the incident and of the disciplinary action taken.
- When the threat assessment team determines a threat to be low risk, the case may be resolved entirely with no further action or resolved with referral to appropriate school or community-based resources. When students are referred for services, a member of the threat assessment team is designated case manager to

monitor the student and the ongoing situation. At any time that new information is made available after the initial assessment, the team should review the new information and re-evaluate the threat accordingly.

Moderate Risk Threat Responses

A moderate risk threat will typically result in notifying the intended victim(s) of the threat and taking precautions to protect them, taking steps to monitor and supervise the subject student, and taking disciplinary action in accordance with existing discipline policy. The threat assessment team will also work to address the conflict or problem that led to the threat. Examples of strategies that may be employed include but are not limited to:

- Take precautions to protect potential victims. Precautions typically include:
 - Provide direct supervision so the student cannot carry out the threat while at school or on the bus.
 - Caution the student who made the threat about the consequences of carrying out the threat.
 - Contact the subject student's parents to assume responsibility for supervision of the student and to enlist their support in preventing the student from carrying out the threat.
 - Notify the intended victim(s) and their parents. The intended victim(s) and their parents must be notified of the seriousness of the threat, the identity of the student who made the threat, and what actions are being taken to ensure student safety. The intended victim and his/her parents should be notified before the student who made the threat leaves school grounds.
- Consult with the school resource officer to assist in monitoring and supervising the subject student as well as determining the need, if any, for law enforcement action.
- Follow applicable disciplinary procedure in accordance with conduct policy.
- Where appropriate, refer the subject student for counseling, conflict mediation, or other interventions to reduce the threat of violence and to address the underlying conflict or issues that led to the threat. The school administrator should involve school-based professionals, such as the psychologist, counselor, or social worker, who can provide assistance in resolving the conflict and appropriate intervention.
- At the discretion of the threat assessment team, a mental health evaluation may be conducted, following parameters for response to high risk threats below.
- If warranted by findings from the mental health evaluation, the threat assessment team shall convene to complete and implement a written safety plan to address the immediate steps taken to prevent the threat from being carried out and a plan for further action before the subject student is permitted to return to school or an alternative educational environment.

High Risk Threat Responses

Threats to rape, kill, inflict severe injury, or use weapons, or other actions indicating intent to commit such offenses require the immediate involvement of the threat assessment team. When the threat is determined to be high risk, the threat assessment team must:

- Notify law enforcement per regulation to contain the threat and consult with the central office.
- Take immediate precautions to protect potential victims:
 - Provide direct supervision so the subject student cannot carry out the threat while at school or on the bus.
 - Caution the student who made the threat about the consequences of carrying out the threat.

- Contact the subject student's parents and enlist their support in preventing the student from carrying out the threat; either law enforcement or the student's parents should assume responsibility for supervising the student.
- Notify the intended victim(s) and their parents. The intended victim(s) and their parents must be fully notified of the seriousness of the threat, the identity of the student who made the threat, and what actions are being taken to ensure student safety. The intended victim and his/her parents should be notified before the student who made the threat leaves school grounds.
- Follow applicable disciplinary procedure in accordance with conduct policy.
- A mental health evaluation is to be conducted either by a clinically qualified team member or by someone contracted to provide the assessment. The clinician conducting the evaluation should not have a treatment relationship with the student. The assessment should be based on a review of all available information as well as information from the student. The written report must identify the problem or conflict that prompted the threat and recommend strategies to address the problem and to reduce the risk of violence.
- The school administrator will determine the conditions of readmission to school that may include the requirement to cooperate in a mental health evaluation. The parents are to be notified of all requirements and any failure to comply. A re-admission meeting must be held prior to the subject student's return to school.
- Every effort will be made by threat assessment team members to obtain any required signed permission for release and exchange of information with mental health provider(s), if any, and local law enforcement agencies.
- After receiving the mental health evaluation report, the threat assessment team shall convene to complete and implement a written safety plan to address the immediate steps taken to prevent the threat from being carried out and a plan for further action before the subject student is permitted to return to school or an alternative educational environment.

The safety plan should include:

- conditions under which the subject student may return to school;
- interventions, such as counseling or mediation, that are needed to reduce risk;
- scheduled follow-up contact with the subject student and parent to assess changes in risk and update the safety plan over time, until the perceived threat is resolved; and
- person(s) who are responsible for monitoring and verifying that the safety plan recommendations are being followed.

Imminent Threat Responses

An imminent threat exists when the person/situation appears to pose a clear and immediate threat of serious violence toward others. Such threats require immediate containment and action to protect identified target(s) and referral to law enforcement and consultation with school security.

Following immediate containment and action to protect identified target(s), these threats require the involvement of the threat assessment team for the purpose of conducting/coordinating appropriate mental health assessment and developing a safety plan.

Procedures for notification of the superintendent or designee, senior division administrator, and parents of the subject student and intended target student(s) that are set forth for high risk threats are to be followed.

Following mental health assessment, the threat assessment team shall complete and implement a written safety plan to address the immediate steps taken to prevent the threat from being carried out and a plan for further

action before the subject student is permitted to return to school or an alternative educational environment. The safety plan should include:

- conditions under which the subject student may return to school;
- interventions, such as counseling or mediation, that are needed to reduce risk;
- scheduled follow-up contact with the subject student and parent to assess changes in risk and update the safety plan over time, until the perceived threat is resolved; and
- identification of person(s) who are responsible for monitoring and verifying that the safety plan recommendations are being followed.

<http://curry.virginia.edu/research/labs/youth-violence-project>

The Youth Violence Project conducts research on effective methods and policies for youth violence prevention and school safety. The project's website contains extensive information about the Virginia model of threat assessment, an approach to violence prevention that emphasizes early attention to problems such as bullying, teasing, and other forms of student conflict before they escalate into violent behavior. School staff members are encouraged to adopt a flexible, problem-solving approach, as distinguished from a more punitive, zero tolerance approach to student misbehavior.

APPENDIX B. Association of Threat Assessment Professionals Model Violence Risk Assessment Process

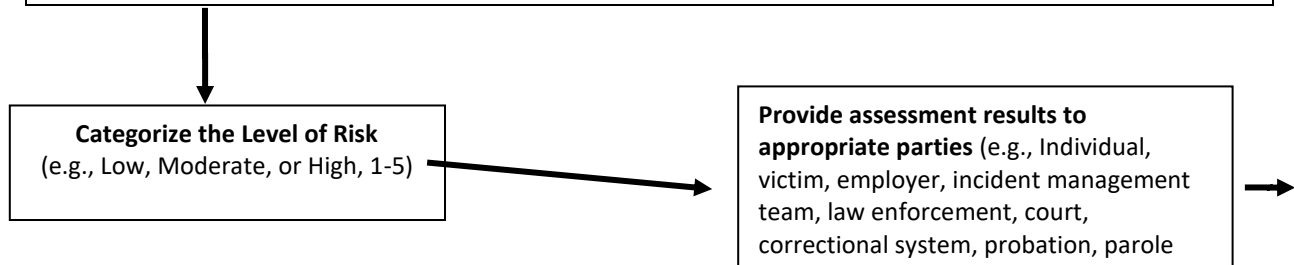

Source: *Risk Assessment Guideline Elements for Violence: Considerations for Assessing the Risk of Future Violent Behavior (2006). Association of Threat Assessment Professionals*

Analysis Guidelines

Consideration of multiple behavioral and risk factors:

- Must involve consideration of contextual factors, mitigation factors, or inhibitors to risk as well as risk factors, potential stressors – as well as resiliency factors
- Access to sufficient, credible, first-hand collateral data sources
- Must assess the impact of gathering information and investigative/threat assessment process itself upon risk
- Avoid over-reliance on single factors (factors considered must be scientifically relevant or those considered within the field based upon empirical and published literature)
- When conceptualizing risk level, must recognize professional limitations pertinent to the threat assessment – seek out relevant consultation or expertise when necessary
- Qualify assessment when necessary (e.g., availability of information, recognize assumptions, potential changes in relevant context, time-limited nature of assessment)
- Assessor must be aware of the complex contextual, legal, ethical, and regulatory issues that impact the violence risk assessment process

EMERGENCY FIRST AID, CPR AND AED CERTIFIED PERSONNEL

In school buildings with an instructional and administrative staff of ten or more, there shall be at least three employees who have current certification or training in emergency first aid, cardiopulmonary resuscitation (CPR) and the use of an automated external defibrillator (AED). If one or more students diagnosed as having diabetes attend such school, there shall be at least two employees who have been trained in the administration of insulin and glucagon.

In school buildings with an instructional and administrative staff of fewer than ten, there shall be at least two employees who have current certification or training in emergency first aid, CPR and the use of an AED. If one or more students diagnosed as having diabetes attend such school, there shall be at least one employee who has been trained in the administration of insulin and glucagon.

When a registered nurse, nurse practitioner, physician or physician assistant is present, no employee who is not a registered nurse, nurse practitioner, physician or physician assistant shall assist with the administration of insulin or administer glucagon. Prescriber authorization and parental consent shall be obtained for any employee who is not a registered nurse, nurse practitioner, physician or physician assistant to assist with the administration of insulin and administer glucagon.

SCHOOL BUS SCHEDULING AND ROUTING

The operation of school buses is scheduled to maximize safety and efficiency.

School bus routes, school sites and safety of students at designated school bus stops are reviewed at least once each year and as changes occur. Routes are reviewed for safety hazards, fuel conservation and to assure the most efficient use of buses. School administrators evaluate the safety of pupils at bus stops periodically and, at the request of the School Board, report the results annually to the School Board.

A written vehicular and pedestrian traffic control plan for each school is reviewed annually for safety hazards. All new school site plans include provisions that promote vehicular and pedestrian safety.

STUDENT CONDUCT ON SCHOOL BUSES

Riding the school bus to and from school is a privilege given to students by the Scott County School Board. Students who do not behave properly in waiting for and riding the bus may have this privilege taken away. In addition, students may be given detention, in-school suspension, suspension, placement in an alternative program, or expulsion for misbehaving on the bus. Inappropriate behavior can lead to accidents and injuries. Safety is our greatest concern.

Students are expected to obey the following bus rules:

- a. Obey promptly and courteously the request and directions of the bus driver.
 - b. Be seated quickly and remain properly seated while on the bus. Do not sit on feet or books.
 - c. Follow assignment of seats as deemed necessary by the driver or school administrator.
 - d. Function in an orderly manner at all times for the safety and welfare of the entire group.
 - e. Follow all safety and operational regulations.
 - f. Refrain from using profane, abusive, or disruptive language and suggestive mannerisms.
 - g. Respect the property of others, including the bus. Make a personal effort to keep the bus clean.
 - h. Understand that riding the bus is a privilege, which can be continued or discontinued based on the conduct of the individual (Virginia Code 22.1-175[1]).
 - i. Be ready to board the bus at the designated stop and approach the bus only after it has completely stopped.
 - j. Cross the road carefully upon signal from the driver at a point ten feet in front of the bus.
 - k. Use the same procedures as above when leaving the bus, and immediately move away from the bus.
 - l. Keep hands, arms, head, and any other objects inside the bus windows.
 - m. Refrain from throwing any objects on, at, or from a school bus.
 - n. Refrain from talking to others alongside the bus and talk in a normal conversational voice to student on the same seat.
 - o. Do not use explosives or anything that could be used as a weapon or looks like a weapon. Students who bring such things on the bus will be severely punished.
 - p. Refrain from bringing the following on the bus: bottles, animals, radios, games, large class projects, recorders, posters, stickers, food, pins, water pistols, and any other items that may cause a disturbance.
 - q. In cases where such items are needed for a school activity, the parent should make arrangements to bring the child to school or to box/package the item(s) to minimize disturbance on the bus.
 - r. In no way block the aisle.
 - s. Have proper written permission before changing from assigned bus and regular stop.
 - t. The bus driver will not drop off any unaccompanied Pre-K through 3rd grade student without an adult being visible at the bus stop. The driver will return your child to the custody of a school official until a parent or emergency contact can be reached.
- **If you cannot be visible at the bus stop, then you may provide a note releasing us from liability. The note should be sent to the school stating it is acceptable to let your child off the bus without you being there. When the principal receives a note from you, then the principal will inform the bus driver. The driver will then drop your child off without you being visible.**

SPECIAL USE OF SCHOOL BUSES

The use of school buses for purposes other than transporting children to school for the regular school hours is permitted with prior approval of the superintendent and in accordance with regulations pertaining to field trips.

FOOD SERVICES

Generally

Employees of the Scott County School Board do not require a student who cannot pay for a meal at school or who owe a school meal debt to do chores or other work to pay for such meals or wear a wristband or hand stamp.

The Scott County School Division provides free and reduced price breakfasts, lunches and milk to students according to the terms of the National School Lunch Program, the National School Breakfast Program and the Special Milk Program.

Competitive foods, as defined herein, comply with state and federal requirements.

Free and Reduced Price Food Services

School officials determine student eligibility based on guidelines established by federal law. Eligible students are provided nutritionally acceptable meals and milk free or at a reduced cost if state and federal resources for school food programs are available. The superintendent or superintendent's designee establishes regulations or procedures as needed to implement this policy.

The criteria for determining a student's eligibility and the procedures for securing free and reduced price meals and milk is publicly announced at the beginning of each school year and provided to parents of all children in attendance at Scott County Public Schools.

If the School Board collects information to determine eligibility for participation in the National School Breakfast Program or the National School Lunch Program, it posts prominently on its website a web-based application for student participation in such program and provides a paper-based application.

Employees of the Scott County School Board do not physically segregate, overtly identify, or otherwise discriminate against any child eligible for free or reduced price meals.

Definitions

"Competitive food" means all food and beverages other than meals reimbursed under programs authorized by the National School Lunch Act and the Child Nutrition Act of 1966 available for sale to students on the school campus during the school day. Competitive foods meet the nutrient guidelines established by the Board of Education, including the guidelines for calories, fat, sugar and sodium.

"Fundraiser" means a school-sponsored activity where food or nonfood items are sold on the school campus during regular school hours by a school-sponsored organization to raise money for a school-related program or activity. One fundraiser is defined as one or more fundraising activities by one or more school-sponsored organizations that last one school day. If multiple school-sponsored organizations conduct fundraisers on the same day, the combined activities are counted as one fundraiser. If a fundraising activity lasts more than one school day, each subsequent day's activity is considered as one fundraiser and counts toward the total number of permitted fundraisers.

"School campus" means all areas of the property under the jurisdiction of the school that are accessible to students during the school day.

“School day” means the period from the midnight before to 30 minutes after the end of the official school day.

School Sponsored Fundraisers

Each school may conduct 30 school-sponsored fundraisers per school year during which food that does not meet the nutrition guidelines for competitive foods may be available for sale to students. Fundraisers are not conducted during school meal service times.

Unpaid Meal Charges

Students who do not have money on account or in hand to cover the cost of a meal at the time of service may be permitted to charge the meal. Students may charge no more than \$25 to their accounts.

A student carrying a negative balance of \$25 or more is not permitted to charge any additional amounts. A student who is not permitted to charge any additional amounts is permitted to buy a meal if the student has cash on hand. Reasonable efforts are used to avoid calling attention to a student’s inability to pay.

Notice of low or negative balances in a student’s meal account are sent to parents and the school principal. Parents are expected to pay all meal charges in full by the last day of the school year.

If a parent regularly fails to provide meal money or send food to school with the student and the student does not qualify for free or reduced benefits, the child nutrition director will inform the principal, who will determine the next course of action, which may include notifying the department of social services of suspected child neglect and/or taking legal steps to recover the unpaid meal charges.

The superintendent or superintendent’s designee ensures that federal child nutrition funds are not used to offset the cost of unpaid meals and that the child nutrition program is reimbursed for bad debt. In order to accomplish those goals, the following procedures are followed:

- If payment of the negative balance is not received within 10 working days of the maximum charge limit being reached, the debt will be turned over to the superintendent or superintendent’s designee for collection. If the debt is not paid within 10 days of notice being given, it is considered bad debt for the purposes of federal law concerning unpaid meal charges.

Recordkeeping

The Scott County School Board is responsible for maintaining records that document compliance with this policy. Those records include documentation used to assess the nutritional profile of food items and determine whether a food item is an allowable competitive food, such as recipes, nutrition labels and/or product specifications for the competitive food available for sale to students.

The School Board is also responsible for

- maintaining records documenting compliance with the competitive food nutrition standards for food available for sale in areas that are outside of the control of the school nutrition programs operations,
- ensuring any organization or school activity designated as responsible for food service at the various venues in the school, other than the school nutrition programs, maintains records documenting compliance with the competitive food nutrition standards,
- maintaining records each school year documenting the number of exempt fundraisers, if any, conducted at each school within the division, and

- designating an individual at the division or school level to monitor and ensure compliance with this policy in all areas that are outside the control of the school nutrition programs operation. The designee may not be a school nutrition personnel.

REPRODUCTION OF COPYRIGHTED MATERIALS INTERPRETATION FOR EDUCATORS IN SCOTT COUNTY SCHOOLS

Introduction

Teachers and administrators in Scott County Schools desire to provide students with access to quality materials at the lowest cost possible. The copyright law does provide fair use limits for educators who need to use copyrighted works. This document represents the interpretation of the Copyright Law for School County Schools (classified as nonprofit educational institutes). The best option is to plan in advance and to receive written permission from publishers to use copyrighted material. In seeking such permission, the request should include:

1. title, author(s) or editor(s), edition number
2. exact amount (pages) of material to be used, preferably including a photocopy of the material involved
3. number of copies to be made
4. description of how material will be used, for what purpose and/or course and frequency of use if for more than one occasion
5. type of duplication (photocopy, ditto, etc.)

Photocopying

Single Copy

Teachers preparing to teach a class may make or request to have made a single copy of:

- a book chapter
- an article from a newspaper or periodical
- a short story, essay, or short poem
- a chart, graph, diagram, cartoon, drawing, or picture from book, periodical, or newspaper

Multiple Copies

Teachers desiring to duplicate a copy of a work for **EACH** student must:

-include a notice of copyright with each copy **AND meet these three tests:**

1. **BREVITY TEST:** For **POETRY**; a copy of a poem if less than 250 words and if printed on no more than two pages, or no more than 250 words if from a longer poem;
2. For **PROSE**: Any complete story, essay, or article under 2,500 or excerpts of not more than 1,000 words or 10% of the work; for **SPECIAL, SHORTER WORKS**, so designated because they contain illustrations (e.g. children's stories) may not be copied in their entirety even though they contain less than 2,500 words. Educators may **NOT** copy more than two published pages containing no more than 10% of the text.
3. For **ILLUSTRATIONS**: No more than one chart, graph, diagram, drawing, cartoon, or picture per book or periodical issue.
4. **SPONTANEITY TEST:** "Inspiration and decision to use the work" must occur so soon prior to classroom use that it would not be feasible for the teacher to write for and receive permission to duplicate the material. The teacher must request the copying and not as directed by an administrator.
5. **CUMULATIVE EFFECT TEST:** Copies of the material must be for only one course in the school in which copies are made;

No more than one short poem, article, story, essay or two excerpts may be copied from the same author;

No more than three copies from the same collective work or periodical during one class term.

There must not be more than nine instance of such multiple copying for one course during one class term.

Prohibited Copying

- Some uses are prohibited regardless of the otherwise permissible copying.
- Educators may not create through photocopying their own anthologies, compilations or collective works whether brought together in one collection or reproduced and used separately.
- Copying must NOT substitute for the purchase of books, periodicals, or reprints.
- THIS ESPECIALLY APPLIES TO THE DUPLICATION OF “CONSUMABLE” MATERIALS SUCH AS WORKBOOKS, TEST BOOKLETS, AND STANDARDIZED TESTS WHICH MAY NOT BE DUPLICATED.
- The teacher must not duplicate the same item from one term to another.

Music

(See also: Audio Visual Materials — Audio Disc, Cassettes, Tape Recordings)

Permissible Copying

- Educators are permitted to make copies of music in an emergency defined as “replace purchased copies which for any reason are not available for an IMMEDIATE performance AS LONG AS replacement copies are purchased later”.
- For academic purposes other than performances, a teacher or researcher may duplicate a single copy of an “entire performable unit (section, movement, aria, etc.)” if that unit is unavailable except in a larger work and if it is out of print, as confirmed by the copyright proprietor. For other nonperformance educational purposes, multiple copies of no more than 10% of the whole work may be made as long as the excerpt does not comprise a performable unit. This multiple copying should not exceed one copy per student.
- Printed copies of purchased music may be edited or simplified EXCEPT alterations or addition of lyrics.
- A single copy of a sound recording of copyrighted music may be made for use in “constructing aural exercises or examinations”—THIS APPLIES TO THE COPYRIGHT OF THE MUSIC ITSELF AND NOT TO ANY COPYRIGHT THAT MAY EXIST IN THE SOUND RECORDING.
- A single copy of a recording of performance(s) by students is permissible for evaluation or rehearsal purposes and may be retained by the teacher or educational institution.

Prohibited Copying

- “To create or replace or substitute for anthologies, compilations or collective works.”
- Copying from works intended to be “consumable” such as workbooks, exercises, standardized tests and answer sheets.
- For performance except as above.

Photocopying by Library Media Staff

Copying is to take place ONLY at the specific request of users or other libraries.

Under Section 108 of the Copyrights Act, library employees are permitted to make a SINGLE copy of a work as long as the library receives no financial gain, and affixes notice of copyright on all duplicated works.

In addition to the above requirements, the library media center may make copies only under the following conditions:

- It may duplicate in facsimile form a published, copyrighted work that is damaged, deteriorating, lost or stolen if a reasonable effort determines no possibility for replacement.
- Recordings are to be shown to students no more than twice during the 10-day period...the second time for instructional reinforcement only.
- After the 10-day period, the recordings may be viewed only by teachers.
- If several teachers request videotaping of the same program, duplicate copies are permitted. (ALL copies are subject to the same restrictions as the original.)
- Off-air recordings may not be physically or electronically altered or combined with others to form anthologies, but do not have to be shown in their entirety.
- All copies of the recordings must include the copyright notice on the broadcast program as recorded.
- Schools may not build library collections of videotapes of television programs.

From Public Broadcasting Services

Four public broadcasting services drew up a joint policy statement that allows schools specific videotaping privileges for their production: Public Broadcasting Service, Public Television Library, Great Plains National Instructional Television Library, Agency for Instructional Television. Educators may record broadcasts from these agencies on the following conditions:

- Recordings may be made only by students, faculty or staff members in accredited, nonprofit education institutions.
- May be used only for instruction or educationally related activities in a classroom, laboratory, or auditorium.
- May be used only in the school for which they were made.
- The recordings may be used "only during the seven day period of local ETV and other educational broadcast licensed by the distribution agency, and will be erased or destroyed immediately at the end of the period..."
- ALL REQUESTS FOR TAPING MUST COME DIRECTLY FROM TEACHERS AND MUST BE SHOWN ONLY TO STUDENTS AND FACULTY FOR INSTRUCTIONAL PURPOSES.

Television Broadcasts Taped by Teachers

- At this time there is no specific court ruling or legislation directly addressing this particular activity. The 1984 US Supreme Court Sony decision affirmed the right of individuals to use videocassette recordings in their homes. This right was upheld primarily on the basis of "private, noncommercial time-shifting in the home." The majority did not address the use of privately taped programs for public performances or for educational purposes.

Videocassette Programs Rented, Purchased or Taped at Home by Teachers

- Programs must relate to specific objectives in the classroom program of studies and/or SOL's.
- Programs may NOT be used for recreational or entertainment purposes.
- Programs purchased by the school or teacher and marked "For Home Use Only" may be used in the classroom if directly related to the instructional goals.
- Programs rented by the teacher and marked "For Home Use Only" may not be used in the classroom UNLESS the merchant provides a WRITTEN and SIGNED release form giving permission for classroom use.
- Teachers may not tape a program at home from either a broadcast or cable transmission

for use in the classroom. Refer to the two sections above for allowable taping from commercial and cable transmission.

- Use of programs from direct broadcast must be approved by the principal, division level curriculum specialists or department chairperson.

Penalties for Infringement of Copyright

- EDUCATORS, EDUCATION INSTITUTIONS, AND SCHOOL DIVISION MAY BE SUED IF THEY VIOLATE OR INFRINGE THE RIGHTS OF COPYRIGHT.
- The legal or insurance protection of Scott County Schools will not be extended to employees who knowingly violate copyright laws.
- The copyright law specifies a normal penalty of from \$250 to \$10,000 in statutory damages for each violation, but the penalty can be as much as \$50,000 for a willful violation. Even if a defendant is judged not to be in violation of the law, court costs and attorneys' fees must be borne by the individual and/or organization charged with the copyright infringement.
- Educators should be aware that criminal charges of copyright violation can be brought. Those found guilty of "willfully infringing a copyright for private or commercial financial gain, could be fined up to \$10,000 or imprisoned for up to one year or both.

INSURANCE MANAGEMENT

The school board maintains such insurance on school property, including vehicles, as it deems necessary or as is required by law. The school board may provide liability insurance, or may provide self-insurance, for certain or all of its officers and employees and for student teachers and other persons performing functions or services for any school in the school division, regardless of whether payment is made for such functions or services. Such insurance, including workers' compensation and all property and casualty insurance, is placed with insurance companies authorized to do business in Virginia or provided by insurance pools, groups, or self-insured programs authorized by the state Bureau of Insurance.

EDUCATIONAL TECHNOLOGY FOUNDATION AND PUBLIC SCHOOL FOUNDATIONS

The school board may establish educational technology foundations for the express purpose of implementing a public/private partnership to expand access to and improve the quality of educational technology in the division. The school board may also establish public school foundations for the express purpose of implementing a public/private partnership to implement public school improvement projects approved by the school board. Such foundations may be established directly by the school board or by the school board and other organizations or persons, on behalf of the school board by a third party, or through a contract with a corporation as defined by Va. Code § 2.2-212.2:2. The foundations may be established as a cooperative regional effort with other school boards.

I. Requirements

Upon establishing or contracting with a corporation, whether or not other organizations, school boards, or persons are involved, the school board shall:

- Review and approve the articles of incorporation and bylaws
- Establish a system of accounting to protect public funds
- Establish agreement that, upon dissolution of the corporation, any assets remaining after payment of just debts shall be transferred to and become the property of the school board or, if a regional effort, the procedure by which the property may be divided among the school boards
- Require, in any instance in which the school board advances, contributes or loans funds to the corporation, that such contract shall provide for the posting of a bond with surety by the officers of the corporation conditioned to protect the rights of the school board
- Establish terms for the allocation of any profits or revenues between the school board and the corporation
- Take such other steps as may be necessary to comply with applicable law

II. Funding

The school board may (i) advance, contribute or loan funds to such foundations, and (ii) establish an escrow fund for the purpose of funding various educational technology projects.

III. Procurement

In making purchases through its public school foundation or purchasing educational technology through its educational technology foundation, the school board is exempt from the Virginia Public Procurement Act, except, relative to such purchases, the school board shall comply with the provisions of Va. Code §§ 2.2-4311 and 2.2-4367 through 2.2-4377.

FACILITIES PLANNING

The School Board provides for the erecting, furnishing, equipping, and maintenance of all school facilities.

The superintendent presents to the School Board annually, or as necessary to coordinate with the planning process of the appropriating body, a Capital Improvement Program which includes recommendations regarding timing, location, costs and savings associated with:

- new building requirements
- restoration and renewal of existing school facilities

The superintendent may make recommendations for new buildings and renovations after receiving input concerning facilities utilization, development and closure from the community. Recommendations are supported by data that supports the feasibility and need for construction and/or renovation.

PLAYGROUND EQUIPMENT

When any playground equipment is installed on School Board property the Board assumes ownership of that equipment unless specifically stated otherwise by agreement. For this reason the maintenance of the playground equipment installed by a school or community group is the responsibility of the School Board.

Once equipment is installed on School Board property, the principal of the school has the responsibility to inspect the equipment on a regular basis and the authority, to order its repair or removal from the school property. The principal may also restrict or deny the use of such equipment until such time as, in his or her opinion, it is restored to safe a condition.

Consideration should be given to designing the outdoor learning environment to support classroom learning.

EDUCATIONAL FACILITIES SPECIFICATIONS

To ensure that all new and remodeled facilities are designed to best implement the educational program, the superintendent provides for the development of detailed educational specifications to apply to the design and construction of new buildings. Educational specifications include detailed descriptions of:

- All the activities that are expected to take place in the building;
- The curriculum to be housed in the building;
- Specific architectural characteristics desired; and
- The facilities needed, their equipment requirements, and their relationship to other facility elements.

When educational specifications are prepared, an introductory section is included containing a brief description of the community and the educational philosophy of the division. Consultants may be used in the development of educational specifications when deemed necessary by the superintendent and approved by the School Board.

The School Board consults with the local building official and the state or local fire marshal to develop a procurement plan to ensure that all security enhancements to public school buildings are in compliance with the Uniform Statewide Building Code and Statewide Fire Prevention Code.

Energy efficiency will be considered in the architectural evaluation.

A continuous study of energy use shall be maintained by the administration for future planning in new construction.

- have been approved in writing by the superintendent;
- are accompanied by a statement by an architect or professional engineer licensed by the Board for Architects, Professional Engineers, Land Surveyors, Certified Interior Designers and Landscape Architects that such plans and specifications are, in the professional opinion and belief of the architect or professional engineer, in compliance with the regulations of the Board of Education and the Uniform Statewide Building Code; and
- have been reviewed by an individual or entity with professional expertise in building security and crime prevention through building design.

The superintendent's approval, architect's or engineer's statement, all reviewers' comments, and a copy of the final plans and specifications are submitted to the Superintendent of Public Instruction.

NAMING SCHOOL FACILITIES

It is the responsibility of the Scott County School Board to determine the name of schools and school facilities in the division. The Board will solicit and accept input from the public regarding the names of schools and school facilities but reserves the right to make the final decision regarding the name of any school or school facility. Suggestions regarding the name of a school or school facility must be in writing, must state the name of the person or group making the suggestion and must state the reasons supporting the suggestion. The School Board may create a committee to make recommendations to the Board on the naming of any school or school facility.

No school or school facility will be named for a living individual. Schools and school facilities may be named for individuals who have been deceased for at least 10 years.

The Board may rename a school or school facility upon a determination that it is appropriate to do so. The procedure for renaming a school or school facility will be the same as the procedure outlined above.

RETIREMENT OF FACILITIES

School division buildings may become unsuitable for their present use, but may be used to benefit the school division or public in other ways. The superintendent reviews division schools and facilities on a continuing basis. The superintendent may recommend to the School Board that a particular school or school facility should be retired or its use changed. In determining whether a facility is to be retired, the School Board may consider the following factors, among others:

1. The adaptability of the building for continued use for its present purpose;
2. The suitability of the site of the building;
3. The maintenance and upkeep costs of the building;
4. The historic value of the building to the community.

The School Board shall invite the viewpoints of community residents and staff in making its decision to retire a school building.

If the School Board determines to close a facility, it will first consider other uses that the school division might make of the building prior to considering relinquishing possession of the building.

PERSONNEL POLICIES GOALS

The goal of the employment policies and practices of the Scott County School Board is to promote the employment and retention of highly qualified personnel to effectively serve the educational needs of students.

No employee, contractor or agent of the Scott County School Board may assist a school board employee, contractor or agent in obtaining a new job, apart from the routine transmission of administrative and personnel files, if the employee, contractor or agent knows, or has probable cause to believe, that such school employee, contractor or agent engaged in sexual misconduct regarding a minor or student in violation of law. This prohibition does not apply if the information giving rise to probable cause

1. A. has been properly reported to a law enforcement agency with jurisdiction over the alleged misconduct and
B. has been properly reported to any other authorities as required by federal or state law, including title IX of the Education Amendments of 1972 (20 U.S.C. § 1681 et seq.) and the regulations implementing it and
2. A. the matter has been officially closed or the prosecutor or police with jurisdiction over the alleged misconduct has investigated the allegations and notified school officials that there is insufficient information to establish probable cause that the school employee, contractor or agent engaged in sexual misconduct regarding a minor in violation of law;
B. the school employee, contractor or agent has been charged with, and acquitted or otherwise exonerated of the alleged misconduct; or
C. the case or investigation remains open and there have been no charges filed against, or indictment of, the school employee, contractor or agent within 4 years of the date on which the information was reported to a law enforcement agency.

STAFF TIME SCHEDULES

Work Schedules

The workday for full-time licensed and professional staff is a minimum of seven hours and thirty minutes and continues until professional responsibilities to the students and school division are completed. Administrative meetings, curriculum development, pupil supervision, assigned duties, parent conferences, group or individual planning and extra-curricular activities may require hours beyond the stated minimum. Elementary school classroom teachers are provided at least an average of thirty minutes per day during the students' school week as planning time. Each full-time middle and secondary classroom teacher is provided one planning period per day, or the equivalent, as defined by the Board of Education, unencumbered of any teaching or supervisory duties. If a middle or secondary school classroom teacher teaches more than the standard load of students or class periods per week, as defined by the Board of Education, an appropriate contractual arrangement and compensation is provided.

Work schedules for other employees are defined by the superintendent or superintendent's designee consistent with the Fair Labor Standards Act and the provisions of this policy.

Workweek Defined

For purposes of compliance with the Fair Labor Standards Act, the workweek for employees of the Scott County School Board is 12:00 a.m. Saturday until 11:59 p.m. Friday.

Overtime and Compensatory Time

Working hours for all employees not classified as exempt under the Fair Labor Standards Act, including secretaries, bus drivers, cafeteria, janitorial and maintenance personnel, conform to federal and state regulations. The superintendent ensures that job positions are classified as exempt or non-exempt and that employees are made aware of such classifications. Supervisors make every effort to avoid circumstances which require non-exempt employees to work more than 40 hours each week. The Scott County School Board discourages overtime work by non-exempt employees. A non-exempt employee will not work overtime without the express approval of the employee's supervisor. All overtime work must be expressly approved in writing by the superintendent or superintendent's designee. All supervisory personnel must monitor overtime on a weekly basis and report such time to the superintendent or superintendent's designee. Principals and supervisors monitor employees' work, ensure that overtime provisions of this policy and the Fair Labor Standards Act are followed and ensure that all employees are compensated for any overtime worked. Principals or supervisors may need to adjust daily schedules to prevent non-exempt employees from working more than 40 hours in a workweek. Accurate and complete time sheets of actual hours worked during the workweek must be signed by each employee and submitted to the finance officer. The finance officer reviews work records of employees on a regular basis to make an assessment of overtime use.

In lieu of overtime compensation, non-exempt employees may receive compensatory time off at a rate of not less than one and one-half (1.5) hours for each one hour of overtime worked, if such compensatory time

- (1) is pursuant to an agreement between the employer and employee reached before overtime work is performed, and
- (2) is authorized by the immediate supervisor.

Employees will be allowed to use compensatory time within a reasonable period after requesting such use if the requested use of the compensatory time does not unduly disrupt the operation of the school division. Employees may accrue a maximum of 240 compensatory time hours before they will be provided overtime pay at the rate earned by the employee at the time the employee receives such payment. In addition, upon leaving the

school division, an employee will be paid for any unused compensatory time at the rate of not less than the higher of

- (1) the average regular rate received by the employee during the employee's last three years of employment, or
- (2) the final regular rate received by the employee.

Non-exempt employees whose workweek is less than 40 hours are paid at the regular rate of pay for time worked up to 40 hours. Such employees are provided overtime pay or compensatory time as provided above for working more than 40 hours in a workweek.

Employees are provided with a copy of this policy and are required to sign this policy to acknowledge their understanding of overtime and compensatory time provisions. Such signed policy constitutes the written agreement required in this section.

Attendance Expectations

All employees are expected to be present during all work hours. Absence without prior approval, chronic absences, habitual tardiness or abuses of designated working hours are all considered neglect of duty and will result in disciplinary action up to and including dismissal.

Acceptable Use Policy for Electronic Information, Services, and Networks

Current policy approved by School Board 06/05/2007

(Revised 7/10/15)

The School Board provides a computer system, including the Internet, to promote educational excellence by facilitating resource sharing, innovation and communication. The term computer system includes hardware, software, data, communication lines and devices, terminals, printers, CD-ROM devices, image & document scanners, tape drives, servers, mainframe and personal computers, the Internet and other internal or external networks.

The purpose of telecommunications technology in Scott County Public Schools is to support research, communication, and education and to provide access to unique resources and opportunities for collaborative work. The use of SCPS computer networks, including Internet access, must be in support of education and consistent with the educational objectives of Scott County Public Schools and the Virginia Board of Education.

This policy applies to all users of SCPS electronic information, services, and networks. By using or accessing Division facilities or services, the user agrees to abide by this policy.

In accordance with Va. Code § 22.1-70.2, Scott County Public Schools requires all students/staff to receive NetSmartz Internet safety training or division developed Internet safety training. Internet safety is both taught to and practiced by all students and staff, grades K-12, with special emphasis placed in both the SCPS Grade 5 and Grade 8 curriculum.

Electronic information research skills are now fundamental for productive citizens and employees. Access to the Internet enables students, teachers, and administrators to explore thousands of libraries, databases, bulletin boards, and other resources while exchanging information with people around the world. The Division expects that its teachers will blend thoughtful use of the Internet throughout the curriculum and will provide guidance and instruction to students in its use. As much as possible, access from school to Internet resources should be structured in ways which point students to those which have been evaluated prior to use. While students will be able to move beyond those resources to others that have not been previewed, they will be subject to supervision in an effort to provide Internet use that is particularly suited to learning objectives.

Scott County Public Schools will use a filter which seeks to prevent access to pornography as set out in Va. Code § 18.2-374.1:1 or as defined in 18 U.S.C. § 2256, obscenity as defined by Va. Code § 18.2-372 or 18 U.S.C. § 1460, material which the school division deems to be harmful to juveniles as defined in Va. Code § 18.2-390, material that is harmful to minors as defined in 47 U.S.C. § 254(h)(7)(G), and material that is otherwise inappropriate for minors. However, it is recognized that this filter alone is no guarantee that users will not be able to find Internet resources which are profane, offensive, obscene, or otherwise objectionable. The ultimate responsibility for appropriate use of Internet resources lies with the user. Parents and guardians may request alternative activities not requiring Internet use for their minor children.

Students utilizing SCPS-provided Internet access must first have the permission of and must be supervised by the Division's professional staff. Students utilizing school-provided Internet access are responsible for good behavior on-line just as they are in a classroom or other area of the school. The same general rules for behavior and communications apply. To remain eligible as users, students' use must be in support of and consistent with the educational objectives of the Division. Access is a privilege, not a right. Access requires responsibility.

Computer System Use-Terms and Conditions.

1. Acceptable Use. Scott County Public Schools provides employees and students with access to its telecommunication systems. The purpose of these systems is not general access but has a more specific limited educational purpose. This purpose includes use of telecommunication systems for professional SCPS business, classroom instructional activities, professional and career development and to further educational personal goals consistent with the school division mission, goals, and objectives and school policies. Uses which might be acceptable on a user's personal account on another system may not be acceptable on these limited purpose systems. Access to the Division's computer system shall be for the purposes of education or research and be consistent with the educational objectives of the Division or for legitimate school business.

Internet Guidelines:

The school division will provide access to the Internet based on the following guidelines:

1. In elementary schools (K-4), teachers will actively supervise student use of the Internet. Access is password driven. Teachers will make every effort to ensure that students are directed to sites with only age- and topic-appropriate material. Best teaching practice recommends teachers bookmark or use portals to direct usage.
2. In upper elementary school (5-6), teachers will supervise and model appropriate use of the Internet. Students will continue to have Internet access under direct teacher supervision; however, students will, also, experience guided practice leading towards gaining skills to become an independent, responsible user of the Internet. Teachers will model skills needed to search for information within an area of study, to filter information for credibility and worth, and to recognize areas of inappropriate information sources or access. Teachers will explore an Internet site before directing students to that site. Teachers will make every effort to ensure that students are directed only to sites with age- and topic-appropriate material and resources.
3. In middle school (7-8), teachers will provide guided practice and model appropriate use of the Internet. Teachers will supervise student initiated information search activities and provide support for students as they begin to assume responsibility for becoming independent users of the Internet. Teachers will make every effort to ensure that students explore only sites with age and topic-appropriate material and resources.
4. In high school (9-12), students will participate in independent Internet use with teachers assuming less of a monitoring role and more of an advisory role.

2. Privilege. The use of the Division's computer system is a privilege, not a right.

3. Unacceptable Use. Each user is responsible for his or her actions on the computer system as described below.

Prohibited Conduct Includes:

- ◆ to use the network for any illegal activity, including violation of copyright or other contracts, or transmitting any material in violation of any federal, state or local law.
- ◆ to send, receive, view or download illegal material via the computer system.
- ◆ to download unauthorized software .
- ◆ to download copyrighted material for unauthorized use.
- ◆ to use the computer system for private financial or commercial gain.
- ◆ to transmit profane, obscene, abusive, sexually explicit, or threatening language.
- ◆ to wastefully use resources, such as file space.
- ◆ to gain unauthorized access to resources or entities.
- ◆ to post material unauthorized or created by another without his or her consent.
- ◆ to use the computer system for commercial or private advertising.
- ◆ to "hack into" or otherwise access data not intended for the user including, but not limited to, other users' files and administrative data.

- ◆ to share passwords with others, circumvent the menu/password and/or internet filtering software installed on Division computers.
- ◆ to access, upload, download, or distribute profane, pornographic, obscene, sexually explicit, or illegal material.

- ◆ including destroying data by creating or spreading viruses or by other means.
- ◆ to violate copyright or otherwise use the intellectual property of another individual or organization without permission.
- ◆ to download or install any network monitoring software as well as any computer monitoring software

The following uses of school-provided computer networks including Internet access are not permitted by students unless authorized by the Scott County Public Schools Technology Department:

- ◆ to access the school division computer network with privately owned laptop computers
- ◆ to download and/or install software on the school division's computers

4. Network Etiquette. Each user is expected to abide by generally accepted rules of etiquette, including the following:

**LETTER TO PARENTS:
Acceptable Use Policy for Electronic Information, Services, and Networks**

Dear Parent/Guardian:

The Scott County School Board offers your child the use of electronic communications through the Scott County School Division's computer system. Your child will be able to communicate with other schools, colleges, organizations and individuals around the world through the Internet and other electronic information systems/networks.

Part of the School Division's responsibility in preparing students for the 21st century is to provide them access to the tools they will be using as adults. The Internet will likely be one of these tools. Through the Division's computer system your child will have access to databases, libraries and computer services from all over the world. We accept the responsibility of teaching your child about his/her role as a "network" citizen and the code of ethics involved with this new community.

With this educational opportunity also comes responsibility on the part of your child. It is important that you and your child read the enclosed Division policy, administrative regulation and agreement form and discuss these requirements. The Division takes precautions to prevent access to inappropriate material. However, it is impossible to control access to all material and a user may access inappropriate material.

In order for your child to take advantage of this educational opportunity, your authorization is needed. Attached to this letter are the Acceptable Computer System Use Policy and Regulation (GAB/IIBEA) and the Acceptable Computer System Use Agreement which both you and your child must sign before your child may use the computer system. Please review these materials carefully with your child before signing the required agreement.

Sincerely,

SOCIAL MEDIA GUIDELINES

In accordance with GAB/IIBEA, Acceptable Computer System Use Policy, Scott County Public Schools provides a computer system for technological communications, including the Internet, to promote educational excellence by facilitating resource sharing, innovation and communication. E-communication acts of employees are defined as texting and/or IM. However, SCPS reserves the right to discipline employees for actions taken off-campus, which would violate the aforementioned policy and plan stipulations if occurring on-site, if such actions adversely affect the safety, well-being or performance of students while in school, on school buses, at school activities or coming to and from school; if such actions threaten violence against a student or employee, if such actions violate local, state or federal law, or School Board policies or regulations, or if such actions disrupt the learning environment, administration, or orderly conduct of the school. Employees will be held responsible for their disclosure, whether purposeful or inadvertent, of confidential or private information, information that violates the privacy rights or other rights of a third party. When information is posted on the Internet, it is posted for public display. As such, the SCPS employee has no expectation of privacy for any information he posts on the Internet. Consequently, the division may take disciplinary measures, up to and including dismissal, for employee off-campus Internet and/or e-communication activities which are inconsistent with the professional and ethical standards expected of SCPS employees. In accordance with GCPD Professional Staff Discipline and GCPF Suspension of Staff Members, the division may take disciplinary measures, up to and including dismissal, for employee off-campus Internet and e-communication activities.

ACCESS TO EMPLOYEE SOCIAL MEDIA ACCOUNTS

The Scott County School Board does not require current or prospective employees to disclose the username or password to the employee's personal social media accounts or to add an employee, supervisor or administrator to the list of contacts associated with the employee's personal social media account.

If the School Board or a School Board employee inadvertently receives an employee's username and password to, or other login information associated with, the employee's personal social media account through the use of an electronic device provided to the employee by the School Board or a program that monitors the School Board's network, the Board will not be liable for having the information but will not use the information to gain access to the employee's social media account.

This policy does not prohibit the School Board and its agents from viewing information about a current or prospective employee that is publicly available.

Every employee of the Scott County School Board who, in his professional or official capacity, has reason to suspect that a child is an abused or neglected child, in compliance with the Code of Virginia § 63.2-1509 et seq. shall immediately report the matter to

- the local department of social services where the child resides or where the abuse or neglect is believed to have occurred;

Notice of Reporting Requirement

The School Board posts in each school a notice that

- any teacher or other person employed there who has reason to suspect that a child is an abused or neglected child, including any child who may be abandoned, is required to report such suspected cases of child abuse or neglect to local or state social services agencies or the person in charge of the relevant school or his designee; and

SCHOOL EMPLOYEE CONFLICT OF INTERESTS

A. Purpose

The State and Local Government Conflict of Interests Act (the Act), applies to public school employees and officials. The Act creates uniform standards of conduct for all public employees and officials. The Act also defines and prohibits inappropriate conflicts of interest and requires disclosure of economic interests in some circumstances. The purpose of this policy is to provide an introduction to the Act for employees. Additional information regarding the Act may be obtained from Policy BBFA Conflict of Interests and Disclosure of Economic Interests and from the Virginia Conflict of Interest and Ethics Advisory Council (the Ethics Council) which assists with compliance with the Act.

B. Compliance

School board employees are required to read and be familiar with the Act. The superintendent provides employees with information regarding how to access the Act and how to contact the Ethics Council.

The Act's provisions are complex and their application is fact-specific. A violation of the Act could result in civil or criminal penalties. Therefore, if an employee has any question whether an interest the employee has in a contract or transaction involving the school division is prohibited under the Act, the employee should contact the superintendent's office or the Ethics Council for assistance.

C. Areas of Regulation

The Act prohibits school employees from having a "personal interest," as that term is defined by the Act, in certain contracts and transactions that involve the division and from engaging in other specified conduct related to the schools. The prohibited personal interest also may be that of the school employee's immediate family (a spouse or any other person who resides in the same household as the employee and who is a dependent of the employee).

Under the Act, an employee may be considered to have a prohibited conflict arising from:

- a personal interest in a contract;
- a personal interest in a transaction;
- business opportunities tied to official acts;
- misuse of confidential information; or
- receipt or solicitation of certain gifts.

Examples of prohibited conduct include:

- soliciting or accepting money or other thing of value for services performed within the scope of the employee's official duties, except for the employee's compensation, expenses or other remuneration paid by the division;
- using for the employee's own economic benefit or that of another party, confidential information that the employee has acquired by reason of the employee's public position and which is not available to the public;
- accepting any money, loan, gift, favor, service or business or professional opportunity that reasonably tends to influence the employee in the performance of the employee's official duties;
- accepting any business or professional opportunity when the employee knows that there is a reasonable likelihood that the opportunity is being afforded to influence the employee in the performance of the employee's official duties;
- entering into contracts with the school division under certain circumstances;

- accepting a gift from a person who has interests that may be substantially affected by the performance of the employee’s official duties under circumstances where the timing and nature of the gift would cause a reasonable person to question the employee’s impartiality in the matter affecting the donor; and
- accepting gifts from sources on a basis so frequent as to raise an appearance of the use of the employee’s position for private gain.

D. Awards to Employees for Exceptional Service

The Act does not prohibit or apply to the acceptance by a teacher or other employee of the Scott County School Board of an award or payment in honor of meritorious or exceptional services performed by the teacher or employee and made by an organization exempt from federal income taxation pursuant to the provisions of Section 501(c)(3) of the Internal Revenue Code.

E. Advisory Opinions

Employees may seek written opinions regarding application of the Act from the local Commonwealth’s Attorney, the local county attorney or the Ethics Council. Good faith reliance on a written opinion of the Commonwealth’s Attorney or a formal opinion or written informal advice of the Ethics Council made in response to a written request for such opinion or advice regardless of whether such opinion or advice is later withdrawn, provided that the alleged violation occurred prior to the withdrawal of the opinion or advice, bars prosecution for a knowing violation of the Act provided the opinion or advice was made after a full disclosure of the facts. If the employee relies on written informal advice given by the Ethics Council in a prosecution for a knowing violation of the Act, the record of the request and the written informal advice given shall be a public record and released upon request. An opinion of the local county attorney may be introduced at trial as evidence that the employee did not knowingly violate the Act.

I. Policy Statement

The Scott County School Board is an equal opportunity employer, committed to nondiscrimination in recruitment, selection, hiring, pay, promotion, retention or other personnel actions affecting employees or candidates for employment. Therefore, discrimination in employment against any person on the basis of race, color, creed, religion, national origin, ancestry, political affiliation, sex, sexual orientation, gender, gender identity, age, pregnancy, childbirth or related medical conditions, marital status, status as a veteran, genetic information or disability is prohibited. Personnel decisions are based on merit and the ability to perform the essential functions of the job, with or without reasonable accommodation.

The Scott County School Board provides facilities, programs and activities that are accessible, usable and available to qualified persons with disabilities. Further, the Scott County School Board does not discriminate against qualified persons with disabilities in the provision of health, welfare and other social services.

The statement, "Scott County School Board is an equal opportunity employer," is placed on all employment application forms.

II. Notice of Policy/Prevention

This policy is (1) posted in prominent areas of each school division building, (2) included in employee handbooks and (3) provided to any employee or candidate for employment upon request. Training to prevent prohibited discrimination is included in employee in-service training.

III. Complaint Procedure

A. File Report

Any person who believes he has not received equal employment opportunities should report the alleged discrimination to one of the Compliance Officers designated in this policy. The alleged discrimination should be reported as soon as possible, and the report generally should be made within fifteen (15) school days of the occurrence. Any employee who has knowledge of conduct which may constitute prohibited discrimination shall immediately report such conduct to one of the Compliance Officers designated in this policy.

The reporting party should use the form, Report of Discrimination, GB-F, to make complaints of discrimination. However, oral reports and other written reports will also be accepted. The complaint must be filed with one of the Compliance Officers designated in this policy. Any complaint that involves the Compliance Officer shall be reported to the superintendent.

The complaint and the identity of the complainant and the person or persons allegedly responsible for the discrimination will be disclosed only to the extent necessary to fully investigate the complaint and only when such disclosure is required or permitted by law. A complainant who wishes to remain anonymous will be advised that anonymity may limit the school division's ability to fully respond to the complaint.

B. Investigation

Upon receipt of a report of alleged discrimination, the Compliance Officer shall immediately authorize or undertake an investigation. The investigation may be conducted by school personnel or a third party designated by the school division. The investigation shall be completed as soon as practicable, which

generally should be not later than 14 school days after receipt of the report by the Compliance Officer. Upon receiving the complaint, the Compliance Officer will acknowledge receipt of the complaint by giving written notice that the complaint has been received to both the complainant and the superintendent. If the Compliance Officer determines that more than 14 school days will be required to investigate the complaint, the complainant and the superintendent will be notified of the reason for the extended investigation and the date by which the investigation will be concluded.

The investigation may consist of personal interviews with the complainant, the person(s) alleged to have violated the policy and any others who may have knowledge of the alleged discrimination or the circumstances giving rise to the complaint. The investigation will consider witnesses and evidence from both the complainant and the person(s) responsible for the alleged discrimination. The investigation may also include the inspection of any documents or information deemed relevant by the investigator. The school division shall take necessary steps to protect the complainant and others pending the investigation.

Whether a particular action or incident constitutes a violation of this policy requires a case by case determination based on all of the facts and circumstances revealed by a complete and thorough investigation.

The Compliance Officer shall issue a written report to the superintendent upon completion of the investigation. If the complaint alleges the superintendent has violated this policy, then the report shall be sent to the School Board. The report shall include a determination of whether the allegations are substantiated, whether this policy was violated and recommendations for corrective action, if any.

All employees shall cooperate with any investigation of alleged discrimination conducted under this policy or by an appropriate state or federal agency.

C. Action by Superintendent

Within 5 school days of receiving the Compliance Officer's report, the superintendent or superintendent's designee shall issue a written decision regarding (1) whether this policy was violated and (2) what action, if any, should be taken.

If the complaint alleges that the superintendent has violated this policy, the School Board's standing Equal Employment Opportunity/Nondiscrimination Committee shall make the decision and determine what action should be taken. If the School Board does not have such a standing committee, at its next scheduled meeting it shall appoint a committee consisting of three of its members to handle the matter. The committee shall issue a written decision within 14 calendar days of the time the School Board receives the Compliance Officer's report or the time a committee is appointed, if there is no standing committee. The written decision shall state (1) whether this policy was violated and (2) what action, if any, should be taken.

The written decision must be mailed to or personally delivered to the complainant within 5 calendar days of the issuance of the decision. If the superintendent, superintendent's designee or committee concludes that prohibited discrimination occurred, the BLANK School Division shall take prompt, appropriate action to address and remedy the violation as well as prevent any recurrence. Such action may include discipline up to and including dismissal.

D. Appeal

If the superintendent, superintendent's designee or committee determines that no prohibited discrimination occurred, the person who was allegedly subjected to discrimination may appeal this finding to the School Board within 5 school days of receiving the decision. Notice of appeal must be filed with the superintendent, or with a member of the committee which issued the written decision, who shall forward

the record to the School Board. The School Board shall make a decision within 30 calendar days of receiving the record. The School Board may ask for oral or written argument from the aggrieved party and the superintendent, superintendent's designee or the committee, whichever issued the written decision, and any other individual the School Board deems relevant. Written notice of the School Board's decision will be given to the complainant.

Employees may choose to pursue their complaints arising under this policy through the relevant employee grievance procedure instead of the complaint procedure in this policy.

The school division appropriate action against any employee who retaliates against another employee or candidate for employment who reports alleged discrimination or participates in related proceedings. The Compliance Officer informs persons who make complaints, who are the subject of complaints and who participate in investigations of how to report any subsequent problems.

V. Right to Alternative Complaint Procedure

Nothing in this policy denies the right of any individual to pursue other avenues of recourse to address concerns relating to prohibited discrimination including initiating civil action, filing a complaint with outside agencies or seeking redress under state or federal law.

VI. Prevention and Notice of Policy

Training to prevent discrimination is included in employee orientations and in-service training.

PROHIBITION AGAINST HARASSMENT AND RETALIATION

I. Policy Statement

The Scott County School Board is committed to maintaining an educational environment and workplace that is free from harassment. In accordance with law, the Board prohibits harassment against students, employees, or others on the basis of sex, sexual orientation, gender, gender identity, race, color, national origin, disability, religion, ancestry, age, marital status, pregnancy, childbirth or related medical conditions, status as a veteran, genetic information or any other characteristic protected by law or based on a belief that such characteristic exists, hereinafter referred to as protected group status, at school or any school sponsored activity.

It is a violation of this policy for any student or school personnel to harass a student or school personnel based on protected group status at school or any school sponsored activity. Further, it is a violation of this policy for any school personnel to tolerate harassment based on a student's or employee's protected group status at school or any school sponsored activity, by students, school personnel or third parties participating in, observing or otherwise engaged in school sponsored activities.

For the purpose of this policy, school personnel includes School Board members, school employees, agents, volunteers, contractors or other persons subject to the supervision and control of the school division.

The school division

- promptly investigates all complaints, written or verbal, of harassment based on protected group status at school or any school sponsored activity;
- promptly takes appropriate action to stop any harassment;
- takes appropriate action against any student or school personnel who violates this policy; and
- takes any other action reasonably calculated to end and prevent further harassment of school personnel or students.

II. Definitions

The Compliance Officer is the person designated by the School Board to receive complaints of harassment referred by the Title IX Coordinator and oversee investigation of those complaints as described below.

"Consent" is clear, unambiguous, and voluntary agreement between the participants to engage in specific sexual activity.

Prohibited Conduct

Harassment Based on Sex

Harassment based on sex consists of unwelcome sexual advances, requests for sexual favors, sexually motivated physical conduct or other verbal or physical conduct or communication, which may include use of cell phones or the internet, of a sexual nature when submission to that conduct or communication is made a term or condition, either explicitly or implicitly, of obtaining or retaining employment or education; submission to or rejection of the conduct or communication by an individual is used as a factor in decisions affecting that individual's employment or education; or that conduct or communication substantially or unreasonably interferes with an individual's employment or education, or creates an intimidating, hostile or offensive employment or educational environment (i.e. the conduct is sufficiently serious to limit a student's or employee's ability to participate in or benefit from the educational program or work environment).

Examples of conduct which may constitute harassment based on sex if it meets the immediately preceding definition include:

- unwelcome sexual physical contact
- unwelcome ongoing or repeated sexual flirtation or propositions, or remarks
- sexual slurs, leering, epithets, threats, verbal abuse, derogatory comments or sexually degrading descriptions
- graphic comments about an individual's body
- sexual jokes, notes, stories, drawings, gestures or pictures
- spreading sexual rumors
- touching an individual's body or clothes in a sexual way
- displaying sexual objects, pictures, cartoons or posters
- impeding or blocking movement in a sexually intimidating manner
- sexual violence
- display of written materials, pictures, or electronic images
- unwelcome acts of verbal, nonverbal, written, graphic, or physical conduct based on sex or sex stereotyping

- an employee of the School Board conditioning the provision of an aid, benefit, or service of the School Board on an individual's participation in unwelcome sexual conduct;
- unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the School Board's education program or activity; or
- "sexual assault" as defined in 20 U.S.C. § 1092(f)(6)(A)(v), "dating violence" as defined in 34 U.S.C. § 12291(a)(10), "domestic violence" as defined in 34 U.S.C. § 12291(a)(8), or "stalking" as defined in 34 U.S.C. § 12291(a)(30).

Harassment Based on Race, National Origin, Disability or Religion

Harassment based on race, national origin, disability or religion consists of physical or verbal conduct, which may include use of cell phones or the internet, relating to an individual's race, national origin, disability or religion when the conduct

- creates an intimidating, hostile or offensive working or educational environment;
- substantially or unreasonably interferes with an individual's work or education; or
- otherwise is sufficiently serious to limit an individual's employment opportunities or to limit a student's ability to participate in or benefit from the education program.

Examples of conduct which may constitute harassment based on race, national origin, disability or religion if it meets the immediately preceding definition include:

- graffiti containing racially offensive language
- name calling, jokes or rumors
- physical acts of aggression against a person or his property because of that person's race, national origin, disability or religion
- hostile acts which are based on another's race, national origin, religion or disability
- written or graphic material which is posted or circulated and which intimidates or threatens individuals based on their race, national origin, disability or religion

Additional Prohibited Behavior

Behavior that is not unlawful may nevertheless be unacceptable for the educational environment or the workplace. Demeaning or otherwise harmful actions are prohibited, particularly if directed at personal characteristics including socioeconomic level regardless of whether the personal characteristic is protected by law.

"Title IX" means 20 U.S.C. §§ 1681-1688 and the implementing regulations.

“Title IX Coordinator” means the person designated by the School Board to coordinate its efforts to comply with its responsibilities under this policy and Title IX.

The Title IX Coordinator may be contacted at The Scott County School Board has designated **Brenda Robinette**, brenda.robinette@scottschools.com, 340 East Jackson Street, Gate City, VA 24251, 276-386-6118, as the Compliance Officer responsible for identifying, investigating, preventing and remedying prohibited harassment. Complaints of harassment may also be made to the Alternate Compliance Office **Jason Smith**, jason.smith@scottschools.com, or **Jennifer Frazier**, jennifer.frazier@scottschools.com, 340 East Jackson Street, Gate City, VA 24251, 276-386-6118.

III. Complaint Procedures

Report

Any student or school personnel who believes he or she has been the victim of harassment prohibited by law or by this policy by a student, school personnel or a third party should report the alleged harassment to the Title IX Coordinator or to any school personnel. The alleged harassment should be reported as soon as possible, and the report generally should be made within fifteen (15) school days of the occurrence. Further, any student who has knowledge of conduct which may constitute prohibited harassment should report such conduct to the Title IX Coordinator or to any school personnel. Any school personnel who has notice that a student or other school personnel may have been a victim of prohibited harassment shall immediately report the alleged harassment to the Title IX Coordinator. Any complaint that involves the Title IX Coordinator should be reported to the superintendent.

The reporting party should use the form, Report of Harassment, GBA-F/JFHA-F, to make complaints of harassment. However, oral reports and other written reports are also accepted.

The complaint, and identity of the person allegedly harassed and alleged harasser, will be disclosed only to the extent necessary to fully investigate the complaint and only when such disclosure is required or permitted by law. Additionally, a person allegedly harassed who wishes to remain anonymous shall be advised that such confidentiality may limit the School Division’s ability to fully respond to the complaint.

After receiving a complaint, the Title IX Coordinator makes an initial determination whether the allegations may be sexual harassment prohibited by Title IX. If they may be, the Title IX Grievance Process below is followed. If they cannot be sexual harassment prohibited by Title IX, then the complaint is referred to the Compliance Officer who follows the procedures below.

The Title IX Coordinator also determines whether the alleged harassment may also constitute criminal conduct and ensures that law enforcement officials are notified if necessary.

If the alleged harassment may also constitute child abuse, then it must be reported to the Department of Social Services in accordance with Policy GAE Child Abuse and Neglect Reporting.

Investigation by Compliance Officer

Generally

The Compliance Officer

- receives complaints of harassment referred by the Title IX Coordinator;
- conducts or oversees the investigation of any alleged harassment referred by the Title IX Coordinator;
- assesses the training needs of the school division in connection with complaints referred by the Title IX Coordinator;
- arranges necessary training; and

- ensures that any harassment investigation is conducted by an impartial investigator who is trained in the requirements of equal employment/education opportunity and has the authority to protect the alleged victim and others during the investigation.

Compliance Officer Formal Procedure

Upon receiving a referral of a complaint of alleged prohibited harassment from the Title IX Coordinator, the Compliance Officer shall immediately authorize or undertake an investigation. The investigation may be conducted by school personnel or a third party designated by the school division. The investigation shall be completed as soon as practicable, which generally should be not later than 14 school days after referral of the complaint to the Compliance Officer. Upon receiving the complaint, the Compliance Officer shall acknowledge receipt of the complaint by giving written notice that the complaint has been received to both the person complaining of harassment and the person accused of harassment. Also upon receiving the complaint, the Compliance Officer shall determine whether interim measures should be taken pending the outcome of the investigation. Such interim measures may include, but are not limited to, separating the alleged harasser and the person allegedly harassed. If the Compliance Officer determines that more than 14 school days will be required to investigate the complaint, the person allegedly harassed and the alleged harasser shall be notified of the reason for the extended investigation and of the date by which the investigation will be concluded.

The investigation may consist of personal interviews with the person allegedly harassed, the alleged harasser and any others who may have knowledge of the alleged harassment or the circumstances giving rise to the complaint. The investigation will consider witnesses and evidence from both the alleged harasser and the person allegedly harassed. The investigation may also consist of the inspection of any other documents or information deemed relevant by the investigator. The school division shall take necessary steps to protect the person allegedly harassed and others pending the completion of the investigation.

In determining whether alleged conduct constitutes a violation of this policy, the division shall consider, at a minimum: (1) the surrounding circumstances; (2) the nature of the behavior; (3) past incidents or past or continuing patterns of behavior; (4) the relationship between the parties; (5) how often the conduct occurred; (6) the identity of the alleged perpetrator in relation to the alleged victim (i.e. whether the alleged perpetrator was in a position of power over the alleged victim); (7) the location of the alleged harassment; (8) the ages of the parties and (9) the context in which the alleged incidents occurred. Whether a particular action or incident constitutes a violation of this policy requires a case by case determination based on all of the facts and circumstances revealed after a complete and thorough investigation.

The Compliance Officer shall issue a written report to the superintendent upon completion of the investigation. If the complaint involves the superintendent, then the report shall be sent to the School Board. The report shall include a determination of whether the allegations are substantiated, whether this policy was violated and recommendations for corrective action, if any.

All employees shall cooperate with any investigation of alleged harassment conducted under this policy or by an appropriate state or federal agency.

Action by Superintendent

Within 5 school days of receiving the Compliance Officer's report, the superintendent or superintendent's designee shall issue a decision regarding whether this policy was violated. This decision must be provided in writing to the person allegedly harassed and the alleged harasser. If the superintendent or superintendent's designee determines that it is more likely than not that prohibited harassment occurred, the BLANK School Division shall take prompt, appropriate action to address and remedy the violation as well as prevent any recurrence. Such action may include discipline up to and including expulsion or discharge. Whether or not the superintendent or superintendent's designee determines that prohibited harassment occurred, the superintendent or superintendent's designee may determine that school-wide or division-wide training be conducted or that the person allegedly harassed receives counseling.

Appeal

If the superintendent or superintendent's designee determines that no prohibited harassment occurred, the employee or student who was allegedly subjected to harassment may appeal this finding to the School Board within 5 school days of receiving the decision. Notice of appeal must be filed with the superintendent who shall forward the record to the School Board. The School Board shall make a decision within 30 calendar days of receiving the record. The School Board may ask for oral or written argument from the aggrieved party, the superintendent and any other individual the School Board deems relevant. Written notice of the School Board's decision will be given to both the alleged harasser and the person allegedly harassed.

If the superintendent or superintendent's designee determines that prohibited harassment occurred and discipline is imposed, the disciplined person may appeal the disciplinary sanction in the same manner as any other such sanction would be appealed.

Employees may choose to pursue their complaints under this policy through the relevant employee grievance procedure instead of the complaint procedure in this policy.

Compliance Officer Informal Procedure

If the person allegedly harassed and the person accused of harassment agree, the person allegedly harassed' s principal or principal's designee or supervisor may arrange for them to resolve the complaint informally with the help of a counselor, teacher or administrator.

If the person allegedly harassed and the person accused of harassment agree to resolve the complaint informally, they shall each be informed that they have the right to abandon the informal procedure at any time in favor of the initiation of the Compliance Officer Formal Procedures set forth herein. The principal or principal's designee or supervisor shall notify the person allegedly harassed and the person accused of harassment in writing when the complaint has been resolved. The written notice shall state whether prohibited harassment occurred.

Sexual Harassment Prohibited by Title IX

Definitions

"Actual knowledge" means notice of sexual harassment prohibited by Title IX or allegations of sexual harassment prohibited by Title IX to the Title IX Coordinator or any official of the school division who has authority to institute corrective measures or to any employee of an elementary or secondary school.

"Complainant" means an individual who is alleged to be the victim of conduct that could constitute sexual harassment prohibited by Title IX.

"Formal complaint" means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment prohibited by Title IX against a respondent and requesting that the allegation be investigated. A formal complaint may be filed with the Title IX Coordinator in person, by mail, or by electronic mail. When the Title IX Coordinator signs a formal complaint, the Title IX Coordinator is not a complainant or otherwise a party. The allegations in a formal complaint must be investigated. In response to a formal complaint, the Title IX Grievance Process below is followed.

"Program or activity" includes locations, events or circumstances over which the School Board exercises substantial control over both the respondent and the context in which the sexual harassment occurs.

"Respondent" means an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment prohibited by Title IX.

“Supportive measures” means non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures are designed to restore or preserve equal access to the School Board’s education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the educational environment, or deter sexual harassment. Supportive measures may include counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, campus escort services, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security or monitoring of parts of campus, and other similar measures. Any supportive measures provided to the complainant or respondent are maintained as confidential, to the extent that maintaining such confidentiality does not impair the ability to provide supportive measures. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.

Title IX Grievance Process

Generally

Any person may report sex discrimination prohibited by Title IX, including sexual harassment (whether or not the person reporting is the person alleged to be the victim of conduct that could constitute sex discrimination or sexual harassment), in person, by mail, by telephone, or by electronic mail, using the contact information listed for the Title IX Coordinator or by any other means that results in the Title IX Coordinator receiving the person’s verbal or written report. The reporting party may use the form, Report of_Harassment, GBA-F/JFHA-F, to make a complaint. Such a report may be made at any time, including non-business hours, by using the telephone number or electronic mail address, or by mail to the office address listed for the Title IX Coordinator.

Complainants and respondents are treated equitably by offering supportive measures to a complainant and by following this grievance process before the imposition of any disciplinary sanctions or other actions that are not supportive measures against a respondent.

The Title IX Coordinator promptly contacts the complainant to discuss the availability of supportive measures, consider the complainant’s wishes with respect to supportive measures, inform the complainant of the availability of supportive measures with or without the filing of a formal complaint, and explain the process for filing a formal complaint.

Applicants for admission and employment, students, parents or legal guardians, employees, and all unions or professional organizations holding collective bargaining or professional agreements with the School Board are notified

- of the name or title, office address, electronic mail address, and telephone number of the Title IX Coordinator; and
- that the School Board does not discriminate on the basis of sex in its education program or activity and that it is required by Title IX not to discriminate in such a manner. The notification states that the requirement not to discriminate extends to admission and employment and that inquiries about the application of Title IX may be referred to the Title IX Coordinator, the Assistant Secretary for Civil Rights of the United States Department of Education, or both.

The School Board prominently displays the contact information for the Title IX Coordinator and this policy on its website and in each handbook or catalog it makes available to persons listed above who are entitled to notifications.

Nothing herein precludes a respondent from being removed from the School Board’s education program or activity on an emergency basis, provided that an individualized safety and risk analysis determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of sexual harassment justifies removal, and that the respondent is provided with notice and an opportunity to challenge the decision immediately following the removal.

Nothing herein precludes a non-student employee respondent from being placed on administrative leave during the pendency of a grievance process

This grievance process treats complainants and respondents equitably by providing remedies to a complainant where a determination of responsibility for sexual harassment has been made against the respondent, and by following this process before the imposition of any disciplinary sanctions or other actions that are not supportive measures against a respondent. Remedies are designed to restore or preserve equal access to the School Board's education program or activity.

The respondent is presumed not responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the grievance process.

All relevant evidence is evaluated objectively, including both inculpatory and exculpatory evidence. Credibility determinations are not based on a person's status as a complainant, respondent, or witness.

Any Title IX Coordinator, investigator, decision-maker, or any person who facilitates an informal resolution process may not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent.

Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process receives training on the definition of sexual harassment prohibited by Title IX, the scope of the School Board's education program or activity, how to conduct an investigation and grievance process including appeals, and informal resolution processes, and how to serve impartially, including by avoiding prejudgment of the facts at issue, conflicts of interest, and bias. Decision-makers receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant. Investigators receive training on issues of relevance in order to create investigative reports that fairly summarize relevant evidence.

A finding of responsibility may result in disciplinary action up to and including expulsion for students or dismissal of employees.

The standard of evidence used to determine responsibility is preponderance of the evidence.

This grievance process does not allow, rely upon, or otherwise use questions or evidence that constitute, or seek disclosure of, information protected under a legally recognized privilege unless the person holding such privilege has waived the privilege.

Notice of Allegations

On receipt of a formal complaint, the Title IX coordinator gives the following written notice to the parties who are known:

- notice of the grievance process, including any informal resolution process, and
- notice of the allegations of sexual harassment potentially constituting sexual harassment prohibited by title IX, including sufficient details known at the time and with sufficient time to prepare a response before any initial interview. Sufficient details include the identities of the parties involved in the incident, if known, the conduct allegedly constituting sexual harassment prohibited by Title IX, and the date and location of the alleged incident, if known.

The written notice

- includes a statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the grievance process;
- informs the parties that they may have an advisor of their choice, who may be, but is not required to be, an attorney, and may inspect and review evidence; and

- informs the parties of any provisions in the School Board's code of conduct or the superintendent's Standards of Student Conduct that prohibit knowingly making false statements or knowingly submitting false information during the grievance process.

If, in the course of an investigation, the investigator decides to investigate allegations about the complainant or respondent that are not included in the notice previously provided, notice of the additional allegations is provided to the parties whose identities are known.

Dismissal of formal complaints

A formal complaint or any allegations therein must be dismissed if the conduct alleged in the complaint

- would not constitute sexual harassment prohibited by title IX even if proved,
- did not occur in the School Board's education program or activity, or
- did not occur against a person in the United States.

Such a dismissal does not preclude action under another provision of the School Board's code of conduct or the superintendent's Standards of Student Conduct.

A formal complaint or any allegations therein may be dismissed if at any time during the investigation:

- a complainant notifies the Title IX Coordinator in writing that the complainant would like to withdraw the formal complaint or any allegations therein;
- the respondent is no longer enrolled or employed by the School Board; or
- specific circumstances prevent the School Board from gathering evidence sufficient to reach a determination as to the formal complaint or allegations therein.

Investigation of formal complaint

When investigating a formal complaint and throughout the grievance process, the burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the School Board and not on the parties provided that a party's records that are made or maintained by a physician, psychologist, or other recognized professional or paraprofessional acting in the professional's or paraprofessional's capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party are not accessed, considered, disclosed or otherwise used without the voluntary, written consent of the party's parent, or the party if the party is an eligible student, to do so for this grievance procedure.

The parties have an equal opportunity to present witnesses, including fact and expert witnesses, and other inculpatory and exculpatory evidence.

The ability of the parties to discuss the allegations under investigation or to gather and present relevant evidence is not restricted.

The parties have the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney. The choice or presence of advisor for either the complainant or respondent is not limited in any meeting or grievance proceeding.

Any party whose participation is invited or expected is provided written notice of the date, time, location, participants, and purpose of all investigative interviews or other meetings with sufficient time for the party to prepare to participate.

The investigator provides both parties an equal opportunity to inspect and review any evidence obtained as part of the investigation that is directly related to the allegations raised in a formal complaint, including the evidence which will not be relied upon in reaching a determination regarding responsibility and inculpatory or exculpatory evidence whether obtained from a party or other source, so that each party can meaningfully respond

to the evidence prior to conclusion of the investigation. Prior to the completion of the investigative report, the investigator must send to each party and the party's advisor, if any, the evidence subject to inspection and review in an electronic format or a hard copy, and the parties must have at least 10 days to submit a written response, which the investigator will consider prior to completion of the investigative report.

The investigator creates an investigative report that fairly summarizes relevant evidence and, at least 10 days prior to the time a determination regarding responsibility is made, sends to each party and the party's advisor, if any, the investigative report in an electronic format or a hard copy, for their review and written response.

After the investigator has sent the investigative report to the parties and before reaching a determination regarding responsibility, the decision-maker must afford each party the opportunity to submit written, relevant questions that the party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party. Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. The decision-maker(s) must explain to the party proposing the question any decision to exclude a question as not relevant.

Determination regarding responsibility

The decision-maker, who cannot be the same person as the Title IX Coordinator or the investigator, must issue a written determination regarding responsibility.

The written determination must include

- identification of the allegations potentially constituting sexual harassment prohibited by Title IX;
- a description of the procedural steps taken from the receipt of the formal complaint through the determination, including any notifications to the parties, interviews with parties and witnesses, site visits, and methods used to gather other evidence;
- findings of fact supporting the determination;
- conclusions regarding the application of the School Board's code of conduct or the superintendent's Standards of Student Conduct to the facts;
- a statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility, any disciplinary sanctions the School Board imposes on the respondent, and whether remedies designed to restore or preserve equal access to the School Board's education program or activity will be provided to the complainant; and
- the procedures and permissible bases for the complainant and respondent to appeal.

The decision-maker must provide the written determination regarding responsibility to the parties simultaneously.

The determination regarding responsibility becomes final either on the date that the parties are provided with the written determination of the result of the appeal, if an appeal is filed, or, if an appeal is not filed, the date on which an appeal would no longer be considered timely.

The Title IX Coordinator is responsible for effective implementation of any remedies.

Appeals

Either party may appeal from a determination regarding responsibility or from a dismissal of a formal complaint or any allegations therein, on the following bases:

- procedural irregularity that affected the outcome of the matter;

- new evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter; and
- the Title IX Coordinator, investigator, or decision-maker had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter.

Notification of appeal must be given in writing to the Title IX Coordinator.

As to all appeals, the Title IX Coordinator

- notifies the other party in writing when an appeal is filed and implements appeal procedures equally for both parties;
- ensures that the decision-maker for the appeal is not the same person as the decision-maker that reached the determination regarding responsibility or dismissal, the investigator, or the Title IX Coordinator; and
- ensures that the decision-maker for the appeal complies with the standards set forth in title IX and this policy.

The appeal decision-maker

- gives both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome;
- reviews the evidence gathered by the investigator, the investigator's report, and the decision-maker's written decision;
- issues a written decision describing the result of the appeal and the rationale for the result; and
- provides the written decision simultaneously to both parties and the Title IX Coordinator.

Timelines

The investigative report will be provided to the parties within 35 days from the date the formal complaint is filed.

A decision will be issued within 10 working days from the date the investigative report is submitted to the decision-maker.

Either party may appeal within 5 working days from the date the written determination regarding responsibility is given to the parties.

Any appeal will be resolved with 15 calendar days from the filing of the appeal.

If the parties agree to an informal resolution process, these deadlines are tolled from the time one party requests an informal resolution process until either the time the other party responds, if that party does not agree to the informal resolution process, or until either party withdraws from the informal resolution process.

Temporary delays of the grievance process or the limited extension of time frames for good cause with written notice to the complainant and the respondent of the delay or extension and the reasons for the action are permitted. Good cause may include considerations such as the absence of a party, a party's advisor, or a witness; concurrent law enforcement activity; disciplinary processes required by law or School Board policy; or the need for language assistance or accommodation of disabilities.

Informal Resolution Process

At any time during the formal complaint process and prior to reaching a determination regarding responsibility, the parties may participate in an informal resolution process, such as mediation, that does not involve a full investigation and determination of responsibility. When one party requests an informal resolution

process, the other party must respond to the request within 3 days. The informal resolution process must be completed within 10 days of the agreement to participate in the process.

The informal resolution process may be facilitated by a trained educational professional, consultant, or other individual selected by the Title IX Coordinator under the following conditions:

- the parties are provided a written notice disclosing the allegations, the requirements of the informal resolution process, including the circumstances under which it precludes the parties from resuming a formal complaint arising from the same allegations; provided, however that at any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process, resume the grievance process with respect to the formal complaint, and be informed of any consequences resulting from participating in the informal resolution process, including the records that will be maintained or could be shared;
- the parties, voluntarily and in writing, consent to the informal resolution process; and
- the informal resolution process cannot be used to resolve allegations that an employee sexually harassed a student.

If the matter is resolved to the satisfaction of the parties, the facilitator shall document the nature of the complaint and the resolution, have both parties sign the documentation and receive a copy, and forward it to the Title IX Coordinator. If the matter is not resolved, the formal complaint process is resumed.

Parties cannot be required to participate in an informal resolution process.

An informal resolution process is not offered unless a formal complaint is filed.

Recordkeeping

The School Board will maintain for a period of seven years records of:

- each investigation of allegations of sexual harassment prohibited by Title IX including any determination regarding responsibility and any audio or audiovisual recording or transcript, if any, required under the Title IX regulations, any disciplinary sanctions imposed on the respondent, and any remedies provided to the complainant designed to restore or preserve equal access to School Board's education program or activity;
- any appeal and the result therefrom;
- any informal resolution and the result therefrom; and
- all materials used to train Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process. These materials will also be made available on the School Board's website.

For each response required under 34 C.F.R. § 106.44, the School Board must create, and maintain for a period of seven years, records of any actions, including any supportive measures, taken in response to a report or formal complaint of sexual harassment prohibited by Title IX. In each instance, the School Board will document the basis for its conclusion that its response was not deliberately indifferent, and document that it has taken measures designed to restore or preserve equal access to its education program or activity. If the School Board does not provide a complainant with supportive measures, then it will document the reasons why such a response was not clearly unreasonable in light of the known circumstances.

IV. Retaliation

Retaliation against students or school personnel who report harassment or participate in any related proceedings is prohibited. The school division shall take appropriate action against students or school personnel who retaliate against any student or school personnel who reports alleged harassment or participates in related proceedings. The Title IX Coordinator will inform persons who make complaints, who are the subject of complaints, and who participate in investigations of how to report any subsequent problems.

VI. Prevention and Notice of Policy

Training to prevent harassment prohibited by law or by this policy is included in employee and student orientations as well as employee in-service training.

This policy is (1) displayed in prominent areas of each division building in a location accessible to students, parents and school personnel (2) included in the student and employee handbooks; and (3) sent to parents of all students within 30 calendar days of the start of school. Further, all students, and their parents/guardians, and employees are notified annually of the names and contact information of the Compliance Officers.

VII. False Charges

Students or school personnel who knowingly make false charges of harassment shall be subject to disciplinary action as well as any civil or criminal legal proceedings.

STAFF HEALTH (Employee Assistance Program)

Most human problems can be successfully treated, provided they are identified in the early stages and referred to an appropriate type of care. The cause of these problems may stem from substance abuse or emotional or family concerns. The purpose of the Employee Assistance Program (EAP) is to offer a method for identification and referral so that division employees and their families can take constructive action in dealing with personal problems.

General Guidelines

1. Program participation is voluntary and confidential. The employee may enter the program through self-referral or supervisory referral. In either case, all matters will be conducted on a strictly confidential and humane basis. Exceptions to this would be cases of suspected child abuse, which must be reported to appropriate authorities in accordance with Virginia State Statutes and established division procedures, and other unprofessional or inappropriate conduct involving students.
2. Employees who have a problem are encouraged to seek counseling and information on a voluntary basis by contacting the Supervisor of Personnel.
3. No documentation regarding the employee's participation in the EAP program will become part of the employee's personnel file, and at no time shall the division discriminate against any employee in terms of job security or promotional considerations as a result of that employee participating or not participating in this program.
4. At employee request, sick leave may be granted for treatment or rehabilitation on the same basis as is granted for ordinary health problems.
5. If there are costs incurred as a result of a program referral that exceed those covered by the employee's insurance benefits, these costs will be the responsibility of the employee.

DRUG FREE WORK PLACE FOR EMPLOYEES

It is the policy of the Scott County Public School System that no employee while on school premises or while in the conduct of official school activities off school premises shall possess, allege to possess, use, allege to use, sell, allege to sell, transmit, allege to transmit, be under the influence of any narcotic drug, hallucinogenic drug, stimulant drug, amphetamine, intoxicant of any kind, or mood behavior altering substance of any kind.

Any employee identified as involved in substance abuse will be subject to appropriate disciplinary measures by the Scott County School Board, including:

1. referral to and completion of an appropriate rehabilitation program
2. referral for prosecution
3. termination of employment

DRUG AND ALCOHOL TESTING

The Scott County School Board seeks to provide a drug-free, safe, and secure work environment for all employees of the Board and all students served by the School Division. All employees will receive a copy of the Drug and Alcohol Testing Policy and will sign a statement certifying that he/she has received a copy of the policy and the division shall maintain this signed copy.

REQUIRED TESTING

- Testing for Employees Required to Maintain Commercial Drivers Licenses (CDLs)

All employees who are required to maintain a CDL for employment activities will be required to submit to drug and alcohol testing in accordance with Policy File GDQ.

- Testing Where There is Reasonable Suspicion

An employee is required to undergo drug and/or alcohol testing if school administration determines there is a reasonable suspicion that the employee is under the influence of drugs and/or alcohol. Reasonable suspicion means suspicion, based upon objective and articulable facts, sufficient to lend a prudent supervisor to suspect that an employee is under the influence of alcohol and/or drugs. Such objective and articulable facts may include, but are not limited to, impaired motor coordination, smell of alcohol, observed use, possession and/or sale of alcohol and/or drugs, violation of drug statutes, frequent tardiness and/or absences, and poor job performance.

- Testing for Employees Involved In or Connected With Accidents

If an employee is involved in or connected with an accident involving personal injury or property damage while on the job or an accident involving a government-owned vehicle, he/she may be tested for drug and/or alcohol use if recommended by an immediate supervisor.

- Random Testing

If there is determined to be a need by the Division Superintendent, school personnel may be subject to random drug screens as deemed necessary to further the educational interests and/or welfare of the school division. Before the implementation of such random testing, the Division Superintendent shall provide notice, in writing, to school personnel of the reasons for such testing. School personnel is defined for this policy provision as all employees of the Scott County School Board regardless of employment position.

PROCEDURES

If an employee is requested to submit to a test for the presence of drugs and/or alcohol, the employee will be given a full explanation of the testing procedure and will be required to sign a consent form. Drug tests will consist of testing for substances, which may include marijuana, synthetic cannabinoids, opiates, cocaine, amphetamines, phencyclidine, MDMA, and/or any other substance defined as a "controlled substance" by either Virginia or Federal law. Drug testing will be conducted by obtaining a specimen of oral fluid and/or urine or as otherwise permitted by law. An Evidential Breath Test (EBT) using an EBT device operated by a trained technician will be used to test for alcohol.

Testing will be performed on a very private, strictly confidential basis. All medical information will be considered confidential and will be available only to staff members authorized to access personnel records.

Where there is reasonable suspicion that an employee is under the influence or using drugs and/or alcohol in violation of this policy, a school official shall transport the suspected employee to a pre-approved testing site to submit to testing for alcohol and/or drugs.

An employee involved in a work-related accident shall, upon direction of his/her immediate supervisor, as soon as reasonably possible, submit to testing for alcohol and/or drugs at a pre-approved testing site.

The employee must remain available for drug and/or alcohol testing until the testing has been conducted. An employee who fails to remain readily available for such testing shall be deemed to have refused to submit to testing.

CONSEQUENCES

An employee who is tested for reasonable suspicion shall be placed on leave with pay until the test results are received. Any employee who refuses to submit to testing, attempts to tamper with the results of a drug and/or alcohol test, or refuses to release the results of a drug and/or alcohol test shall be charged with insubordination and suspended with pay in accordance with Policy GCPF and/or may be subject to further disciplinary actions up to, and including termination. Any employee so suspended shall continue to receive his/her then applicable salary unless and until the school board, after a hearing, determines otherwise in accordance with Policy GCPF.

Any employee whose test yields a confirmed positive result for alcohol and/or drugs may be subjected to disciplinary action, up to and including termination, and/or may be required to satisfactorily participate in and complete a drug abuse assistance or rehabilitation program. An employee may also be required, as a condition of continued employment, to submit to follow-up and return-to-duty testing, and/or testing pursuant to an agreed to testing schedule.

SEARCHES

Scott County Public Schools reserves the right to search, without employee consent, all areas and property in which it maintains either full control or joint control with the employee, including, but not limited to, Scott County Public Schools' vehicles, property, and equipment, under the following circumstances:

1. when an employee is required to submit to reasonable suspicion testing;
2. when an employee is required to submit to post-accident testing; and/or
3. when an employee who is subject to random testing receives a confirmed positive result.

Searches may be conducted only by authorized administrative personnel. Nothing in this policy, however, shall be interpreted to prohibit any search by law enforcement.

COST

Scott County Public Schools shall bear the cost of all initial testing requested by a school official. All costs associated with a re-test of a confirmed positive test result shall be borne by the employee.

THIRD-PARTY COMPLAINTS AGAINST EMPLOYEES

Any parent or guardian of a student enrolled in Scott County Public Schools or any resident of Scott County may file a complaint regarding an employee of the Scott County School Board. Such complaint should be filed with the superintendent or superintendent's designee. If the complaint involves allegations that an employee of the Scott County School Board has abused or neglected a child in the course of his employment, the complaint will be investigated in accordance with Va. Code §§ 63.2-1503, 63.2-1505 and 63.2-1516.1.

Information determined to be unfounded after a reasonable administrative review is not maintained in any employee personnel file, but may be retained in a separate sealed file by the administration if such information alleges civil or criminal offenses. Any dispute over such unfounded information, exclusive of opinions retained in the personnel file, or in a separate sealed file, notwithstanding the provisions of the Government Data Collection and Dissemination Practices Act, Va. Code §§ 2.2-3800 et seq., is settled through the employee grievance procedure as provided in Va. Code §§ 22.1-306 and 22.1-308 through 22.1-314.

Individuals lodging a complaint are notified in writing that the complaint has been received and is being investigated.

The complaint should be filed as soon as possible after the alleged incident, usually within 15 school days, and will be processed promptly, usually within 15 days.

Part I. Definitions

The following words and terms when used in this chapter shall have the following meanings unless the context clearly indicates otherwise.

"Business day" means any day that the relevant school board office is open.

"Days" means calendar days unless a different meaning is clearly expressed in this procedure. Whenever the last day for performing an act required by this procedure falls on a Saturday, Sunday, or legal holiday, the act may be performed on the next day that is not a Saturday, Sunday, or legal holiday.

"Dismissal" means the dismissal of any teacher within the term of such teacher's contract.

"Grievance" means, for the purpose of Part II (8VAC20-90-20 et seq.), a complaint or a dispute by a teacher relating to his employment, including but not necessarily limited to the application or interpretation of personnel policies, rules and regulations, ordinances, and statutes; acts of reprisal against a teacher for filing or processing a grievance, or participating as a witness in any step, meeting, or hearing related to a grievance; or complaints of discrimination on the basis of race, color, creed, political affiliation, handicap, age, national origin, or sex.

"Grievance" means, for the purposes of Part III (8VAC20-90-60 et seq.), a complaint or a dispute involving a teacher relating to his employment involving dismissal. The term "grievance" shall not include a complaint or dispute by a teacher relating to the establishment and revision of wages or salaries, position classifications or general benefits; suspension of a teacher or nonrenewal of the contract of a teacher who has not achieved continuing contract status; the establishment or contents of ordinances, statutes or personnel policies, procedures, rules and regulations; failure to promote; discharge, layoff, or suspension from duties because of decrease in enrollment, decrease in enrollment in or abolition of a particular subject, or insufficient funding; hiring, transfer, assignment and retention of teachers within the school division; suspension from duties; the methods, means and personnel by which the school division's operations are to be carried on; or coaching or extracurricular activity sponsorship. While these management rights are reserved to the school board, failure to apply, where applicable, these rules, regulations, policies, or procedures as written or established by the school board is grievable.

"Hearing officer" means an impartial hearing officer from outside the school division who possesses some knowledge and expertise in public education and education law and who is capable of presiding over an administrative hearing.

"Personnel file" means, for the purposes of Part III (8VAC20-90-60 et seq.), any and all memoranda, entries or other documents included in the teacher's file as maintained in the central school administration office or in any file regarding the teacher maintained within a school in which the teacher serves.

"Teacher" or "teachers" means, for the purposes of Part II (8VAC20-90-20 et seq.), all employees of the school division involved in classroom instruction and all other full-time employees of the school division except those employees classified as supervising employees. "Teacher" means, for the purposes of Part III (8VAC20-90-60 et seq.), all regularly licensed professional public school personnel employed by any school division under a written contract as provided by § 22.1-302 of the Code of Virginia as a teacher or as an assistant principal, principal, or supervisor as provided by § 22.1-294 of the Code of Virginia.

"Shall file," "shall respond in writing," or "shall serve written notice" means the document is either delivered personally or is mailed by registered or certified mail, return receipt requested, and postmarked within the time limits prescribed by this procedure to the grievant or office of the proper school board representative.

"Supervisory employee" means any person having authority in the interest of the board (i) to hire, transfer, suspend, layoff, recall, promote, discharge, assign, reward, or discipline other employees; and (ii) to direct other employees; or (iii) to adjust the grievance of other employees; or (iv) to recommend any action set forth in clause

(i), (ii), or (iii) above; provided that the authority to act as set forth in clause (i), (ii), (iii), or (iv) requires the exercise of independent judgment and is not merely routine and clerical in nature.

"Written grievance appeal" means a written or typed statement describing the event or action complained of, the date of the event or action complained of, and a concise description of those policies, rules, regulations, or statutes upon which the teacher bases his claim. The grievant shall specify what he expects to obtain through use of the grievance procedure. A written grievance appeal shall be on forms prescribed by the Board of Education and supplied by the local school board.

8VAC20-90-20. Purpose of Part II of This Grievance Procedure.

Part II. Grievance Procedure

The purpose of Part II of the Procedure for Adjusting Grievances is to provide an orderly procedure for resolving disputes concerning the application, interpretation, or violation of any of the provisions of local school board policies, rules and regulations as they affect the work of teachers, other than dismissals. An equitable solution of grievances should be secured at the most immediate administrative level. The procedure should not be construed as limiting the right of any teacher to discuss any matter of concern with any member of the school administration, nor should the procedure be construed to restrict any teacher's right to seek, or the school division administration's right to provide, review of complaints that are not included within the definition of a grievance. Nothing in this procedure shall be interpreted to limit a school board's exclusive final authority over the management and operation of the school division.

Statutory Authority

§§ 22.1-16 and 22.1-308 of the Code of Virginia.

8VAC20-90-30. Grievance Procedure.

Recognizing that grievances should begin and should be settled promptly, a grievance must be initiated within 15 business days following either the event giving rise to the grievance, or within 15 business days following the time when the employee knew or reasonably should have known of its occurrence. Grievances shall be processed as follows:

1. Step 1 -- Informal. The first step shall be an informal conference between the teacher and his immediate supervisor (which may be the principal). The teacher shall state the nature of the grievance, and the immediate supervisor shall attempt to adjust the grievance. It is mandatory that the teacher present the grievance informally prior to proceeding to Step 2.
2. Step 2 -- Principal. If for any reason the grievance is not resolved informally in Step 1 to the satisfaction of the teacher, the teacher must perfect his grievance by filing a written grievance appeal on the required form within 15 business days following the event giving rise to the grievance, or within 15 business days following the time when the employee knew or reasonably should have known of its occurrence, specifying on the form the specific relief expected. Regardless of the outcome of Step 1, if a written grievance appeal is not, without just cause, filed within the specified time, the grievance will be barred.

A meeting shall be held between the principal (or his designee or both) and the teacher (or his designee or both) within five business days of the receipt by the principal of the written grievance. At such meeting the teacher or other party involved, or both, shall be entitled to present appropriate witnesses and to be accompanied by a representative other than an attorney. The principal (or his designee or both) shall respond in writing within five business days following such meeting.

The principal may forward to the teacher within five days from the receipt of the written grievance a written request for more specific information regarding the grievance. The teacher shall file an answer thereto within 10 business days, and the meeting must then be held within five business days thereafter.

3. Step 3 -- Superintendent. If the grievance is not settled to the teacher's satisfaction in Step 2, the teacher can proceed to Step 3 by filing a written notice of appeal with the superintendent, accompanied by the original written grievance appeal form within five business days after receipt of the Step 2 answer (or the due date of such answer). A meeting shall then be held between the superintendent (or his designee or both) and the teacher (or his designee or both) at a mutually agreeable time within five business days. The superintendent or designee may make a written request for more specific information from the teacher, but only if such information was not requested in Step 2. The teacher shall file an answer to such request within 10 business days, and the meeting shall be held within five business days of the date on which the answer was received. At such meeting both the superintendent and the teacher shall be entitled to present witnesses and to be accompanied by a representative who may be an attorney. A representative may examine, cross-examine, question, and present evidence on behalf of a grievant or the superintendent without violating the provisions of § 54.1-3904 of the Code of Virginia. If no settlement can be reached in said meeting, the superintendent (or his designee) shall respond in writing within five business days following such meeting. If the grievance is not resolved to the satisfaction of the teacher in Step 3, the teacher may request a decision by the school board pursuant to Step 4.

4. Step 4 -- Decision by the school board.

a. If a teacher elects to request a decision by the school board as provided for in Step 3, he must notify the superintendent in writing of the intention to make the request of the board within five business days after receipt of the answer as required in Step 3 or the due date thereof. Upon receipt of such notice, the board may hold a hearing on the grievance, may elect to have the hearing conducted by a hearing officer appointed by the school board consistent with the procedures in § 22.1-311 of the Code of Virginia, or may make its determination on the basis of the written evidence presented by the teacher and the recommendation of the superintendent.

b. In any case in which the school board elects to hold a hearing or elects to have a hearing officer conduct the hearing, the hearing shall be set within 30 days of the school board's receipt of the notice required by subdivision 4 a of this section (Step 4a), and the teacher must be given at least 15 days' written notice of the date, time, and place of the hearing.

The teacher and the division superintendent may be represented by legal counsel or other representatives. The hearing shall be private, unless the teacher requests a public hearing. The school board or the hearing officer, as the case may be, shall establish the rules for the conduct of the hearing. Such rules shall include the opportunity for the teacher and the division superintendent to make an opening statement and to present all material or relevant evidence, including the testimony of witnesses and the right of all parties or their representatives to cross-examine the witnesses. Witnesses may be questioned by the school board or the hearing officer.

In the case of a hearing conducted by the school board, the school board's attorney, assistants, or representative, if he or they represented a participant in the prior proceedings, the grievant, the grievant's attorney or representative and, notwithstanding the provisions of § 22.1-69 of the Code of Virginia, the superintendent shall be excluded from any executive session of the school board that has as its purpose reaching a decision on the grievance. However, immediately after a decision has been made

and publicly announced, as in favor of or not in favor of the grievant, the school board's attorney or representative, and the superintendent, may join the school board in executive session to assist in the writing of the decision.

A stenographic record or tape recording of the hearing shall be taken. However, the recording may be dispensed with entirely by mutual consent of the parties. If the recording is not dispensed with, the two parties shall share the cost of the recording equally, and if either party requests a transcript, that party shall bear the expense of its preparation.

c. In the event of a hearing conducted by a hearing officer, the recommendation of the hearing officer shall be based exclusively upon the evidence presented at the hearing. Upon the hearing officer's own motion or upon application by either party to the grievance, the hearing officer may reopen the hearing for the purpose of hearing after-discovered evidence upon a finding of good cause by the hearing officer at any time before his recommendation is due. The hearing officer shall transmit his written recommendation and a record or recording of the hearing to the school board as soon as practicable and no more than 10 business days after the hearing.

d. In the event of a hearing by a hearing officer, the school board may make its decision upon the record or recording of such hearing or the school board may elect to conduct a further hearing to receive additional evidence. The school board must hold such further hearing as soon as practicable and must give written notice of the time and place of such further hearing to the division superintendent and the teacher within 10 business days after the board received the record or recording of the initial hearing. The notice must specify each matter to be inquired into by the school board. The school board shall determine the procedure to be followed at such further hearing.

e. In the event of a hearing before the school board, the school board shall give the teacher its written decision as soon as practicable and no more than 30 days after the hearing. The decision of the school board shall be reached after considering the evidence and information presented at the school board hearing.

f. In the event of a hearing before a hearing officer followed by a further hearing by the school board, the school board shall give the teacher its written decision as soon as practicable and no more than 30 days after such further hearing. The decision of the school board shall be reached after considering the record or recording of the initial hearing, the recommendations of the hearing officer, and the evidence and information presented at the further hearing before the school board.

g. In the event of a hearing before a hearing officer in cases in which no further hearing is conducted by the school board, the school board shall give the teacher its written decision as soon as practicable and no more than 30 days after receiving the record or recording of the hearing. The decision of the school board shall be reached after considering the record or recording of the hearing and the recommendations of the hearing officer.

h. The school board shall retain its exclusive final authority over matters concerning employment and the supervision of its personnel.

8VAC20-90-40. Grievability.

A. Initial determination of grievability. Decisions regarding whether a matter is grievable shall be made by the school board at the request of the division administration or grievant and such decision shall be made within 10 business days of such request. The school board shall reach its decision only after allowing the division administration and the grievant opportunity to present written or oral arguments regarding grievability. The decision as to whether the arguments shall be written or oral shall be at the discretion of the school board. Such determination of grievability shall be made subsequent to the reduction of the grievance to writing but prior to any hearing by the board or a hearing officer, or the right to such determination shall be deemed to have been waived. Failure of the school board to make such a determination within such a prescribed 10-business-day period shall entitle the grievant to advance to the next step as if the matter were grievable.

B. Appeal of determination on grievability. Decisions of the school board may be appealed to the circuit court having jurisdiction in the school division for a hearing on the issue of grievability.

1. Proceedings for a review of the decision of the school board shall be instituted by filing a notice of appeal with the school board within 10 business days after the date of the decision and giving a copy thereof to all other parties.

2. Within 10 business days thereafter, the school board shall transmit to the clerk of the court to which the appeal is taken, a copy of its decision, a copy of the notice of appeal, and the exhibits. The failure of the school board to transmit the record within the time allowed shall not prejudice the rights of the grievant. The court may, on motion of the grievant, issue a writ of certiorari requiring the school board to transmit the records on or before a certain date.

3. Within 10 business days of receipt by the clerk of such record, the court, sitting without a jury, shall hear the appeal on the record transmitted by the school board and such additional evidence as may be necessary to resolve any controversy as to the correctness of the record. The court may, in its discretion, receive such other evidence as the ends of justice require.

4. The court may affirm the decision of the school board or may reverse or modify the decision. The decision of the court shall be rendered not later than 15 days from the date of the conclusion of the court's hearing.

8VAC20-90-50. Time Limitations.

A. The right of any party to proceed at any step of this Part II grievance procedure shall be conditioned upon compliance with the time limitations and other requirements set forth in this procedure.

B. The failure of the teacher to comply with all substantial procedural requirements including initiation of the grievance and notice of appeal to the next step in the procedure, shall eliminate the teacher's right to any further proceedings on the grievance unless just cause for such failure can be shown.

C. The failure of the school board or any supervisory employee to comply with all substantial procedural requirements without just cause shall entitle the grievant, at his option, to advance to the next step in the procedure or, at the final step, to a decision in his favor.

D. The determination as to whether the substantial procedural requirements of this Part II of the Procedure for Adjusting Grievances have been complied with shall be made by the school board. In any case in which there is a factual dispute as to whether the procedural requirements have been met or just cause has been shown for failure

to comply, the school board shall have the option of allowing the grievant to proceed to its next step. The fact that the grievance is allowed to proceed in such case shall not prevent any party from raising such failure to observe the substantial procedural requirements as an affirmative defense at any further hearing involving the grievance.

8VAC20-90-70. Procedure for Dismissals.

A. Notice to teacher of recommendation for dismissal.

1. In the event a division superintendent determines to recommend dismissal of any teacher, written notice shall be sent to the teacher on forms prescribed by the Board of Education notifying him of the proposed dismissal and informing the teacher that within 10 business days after receiving the notice, the teacher may request a hearing before the school board or, at the option of the school board, a hearing officer appointed by the school board, as provided in § 22.1-311 of the Code of Virginia.
2. During such 10-business-day period and thereafter until a hearing is held in accordance with the provisions herein, if one is requested by the teacher, the merits of the recommendation of the division superintendent shall not be considered, discussed, or acted upon by the school board except as provided for herein.
3. At the request of the teacher, the superintendent shall provide the reasons for the recommendation in writing or, if the teacher prefers, in a personal interview. In the event a teacher requests a hearing pursuant to § 22.1-311 or 22.1-312 of the Code of Virginia, the division superintendent shall provide, within 10 days of the request, the teacher, or his representative, with the opportunity to inspect and copy his personnel file and all other documents relied upon in reaching the decision to recommend dismissal. Within 10 days of the request of the division superintendent, the teacher, or his representative, shall provide the division superintendent with the opportunity to inspect and copy the documents to be offered in rebuttal to the decision to recommend dismissal. The division superintendent and the teacher or his representative shall be under a continuing duty to disclose and produce any additional documents identified later that may be used in the respective parties' cases-in-chief. The cost of copying such documents shall be paid by the requesting party.
4. Upon a timely request for a hearing, the school board or, at the school board's option, a hearing officer appointed by the school board shall set a hearing within 15 days of the request and the teacher shall be given at least five days' written notice of the time and the place of the hearing.

B. Procedure for hearing.

1. The hearing shall be conducted by the school board or, at the school board's option, a hearing officer appointed by the school board. The teacher and the division superintendent may be represented by legal counsel or other representatives. The hearing shall be private, unless the teacher requests a public hearing. The school board or hearing officer, as the case may be, shall establish the rules for the conduct of the hearing, and such rules shall include the opportunity for the teacher and the division superintendent to make an opening statement and to present all material or relevant evidence, including the testimony of witnesses, and the right of all parties to cross-examine the witnesses. Witnesses may be questioned by the school board or hearing officer.
2. The parties shall produce such additional evidence as the school board or hearing officer may deem necessary to an understanding and determination of the dispute. The school board or hearing officer shall determine the relevancy and materiality of the evidence offered. All evidence shall be taken in the presence of the school board or hearing officer and of the parties.
3. Exhibits offered by the teacher or the division superintendent may be received in evidence by the school board or hearing officer and, when so received, shall be marked and made a part of the record.
4. A stenographic record or tape recording of the proceedings shall be taken. The two parties shall share the cost of the recording equally. The record or recording of the proceedings shall be preserved for a period of six months. If the school board requests that a transcript of the record or recording be made at any time prior to expiration of the six-month period, it shall be made and copies shall be furnished to both parties. The school board shall bear the expense of the transcription.
5. The teacher shall bear his own expenses. The school board shall bear the expenses of the division superintendent and the hearing officer.
6. Witnesses who are employees of the school board shall be granted release time if the hearing is held during the school day. The hearing shall be held at the school in which most witnesses work, if feasible.
7. In the event of a hearing conducted by a hearing officer, the recommendation of the hearing officer shall be based exclusively upon the evidence presented at the hearing. Upon the hearing officer's own motion or upon application by the teacher or the division superintendent, the hearing officer may reopen the hearing for the purpose of hearing after-discovered evidence upon a finding of good cause by the hearing officer at any time before his recommendation is due. The hearing officer shall transmit his written recommendation and a record or recording of the hearing to the school board as soon as practicable and no more than 10 business days after the hearing.
8. In the event of a hearing by a hearing officer, the school board may make its decision upon the record or recording of such hearing or the school board may elect to conduct a further hearing to receive additional evidence. The school board must hold such further hearing as soon as practicable and must give written notice of the time and place of such further hearing to the division superintendent and the teacher within 10 business days after the board received the record or recording of the initial hearing. The notice must specify each matter to be inquired into by the school board. The school board shall determine the procedure to be followed at such further hearing.

C. School board determination.

1. In the event of a hearing before the school board, the school board shall give the teacher its written decision as soon as practicable and no more than 30 days after the hearing. The decision of the school board shall be reached after considering the evidence and information presented at the school board hearing.

2. In the event of a hearing before a hearing officer followed by a further hearing by the school board pursuant to subdivision B 8 of this section, the school board shall give the teacher its written decision as soon as practicable and no more than 30 days after such further hearing. The decision of the school board shall be reached after considering the record or recording of the initial hearing, the recommendations of the hearing officer, and the evidence and information presented at the further hearing before the school board.

3. In the event of a hearing before a hearing officer in cases in which no further hearing is conducted by the school board, the school board shall give the teacher its written decision as soon as practicable and no more than 30 days after receiving the record or recording of the hearing. The decision of the school board shall be reached after considering the record or recording of the hearing and the recommendations of the hearing officer.

4. The school board may dismiss or suspend a teacher upon a majority vote of a quorum of the school board. The school board's attorney, assistants, or representative, if he or they represented a participant in the prior proceedings; the grievant; the grievant's attorney or representative; and, notwithstanding the provisions of § 22.1-69 of the Code of Virginia, the superintendent shall be excluded from any executive session of the school board that has as its purpose reaching a decision on a grievance. However, immediately after a decision has been made and publicly announced, as in favor of or not in favor of the grievant, the school board's attorney or representative and the superintendent may join the school board in executive session to assist in the writing of the decision.

8VAC20-90-80. Time Limitations.

The right of any party to proceed at any step of the grievance procedure shall be conditioned upon compliance with the time limitations and other requirements set forth in this grievance procedure.

1. The failure of the grievant to comply with all substantial procedural requirements shall terminate the teacher's right to any further proceedings on the grievance unless just cause for such failure can be shown.

2. The failure of the school board or of any supervisory employee to comply with all substantial procedural requirements without just cause shall entitle the grievant, at his option, to advance to the next step in the procedure or, at the final step, to a decision in his favor.

3. The determination as to whether the substantial procedural requirements of this Part III of the Procedure for Adjusting Grievances have been complied with shall be made by the school board. In any case in which there is a factual dispute as to whether the procedural requirements have been met or just cause has been shown for failure to comply, the school board shall have the option of allowing the grievance to proceed to its next step. The fact that the grievance is allowed to proceed in such case shall not prevent any party from raising such failure to observe the substantial procedural requirements as an affirmative defense at any further hearing involving the grievance.

SUPPORT STAFF GRIEVANCES

The Scott School Board adopts the following procedure in accordance with § 22.1-79(6) of the Code of Virginia, as amended. Nothing in this procedure is intended to create, nor shall it be construed as creating, a property right in employment, nor shall this procedure be interpreted to limit in any way whatsoever the School Board's exclusive final authority over the employment and supervision of its personnel.

The following words and terms are defined as indicated when used in this procedure, unless the context clearly indicates otherwise.

"Days" means calendar days unless a different meaning is clearly expressed in this procedure. Whenever any period of time fixed by this procedure shall expire on a Saturday, Sunday or legal holiday, the period of time for taking action under this procedure shall be extended to the next day that is not a Saturday, Sunday or legal holiday. "Working days" means those days that the Scott County School Board office is open for business.

"Dismissal" means the termination of employment of any covered employee with or without cause during the term of such employee's employment.

"Employee" or "employees" means all full-time employees of the Scott County School Board who have completed the required probationary period except the division superintendent and those employees covered under the provisions of Articles 2 and 3 of Chapter 15 of Title 22.1 of the Code of Virginia, as amended. "Employee" does not mean a part-time or temporary employee.

"Grievance" means a complaint or dispute involving the dismissal or other disciplinary action of an employee. A dismissal, reassignment or other action pursuant to a Reduction in Force (RIF) is not a disciplinary action and is not grievable. Employee evaluations are not disciplinary actions and are not grievable. "Grievance" does not mean a complaint or dispute regarding the suspension of an employee. The procedure for the suspension of employees is set forth in Policy GCPF Suspension of Staff Members.

Procedure

1. Written notice of the proposed action, along with a statement of the reasons for the action, shall be given to the employee by the employee's building administrator/department head. Upon receipt of the recommendation, the employee is required to meet with a Human Resources administrator.
2. During this meeting the employee receives a copy of this policy as notice of the employee's grievance rights. The employee may file a written request for a hearing with the superintendent within ten (10) working days of receiving the written notice. The failure to file such a request within the prescribed time will constitute a waiver of the right to a hearing and the proposed action will become final without a hearing or further notice.
3. Upon receiving a timely written request, the superintendent shall select an external hearing officer to hear the grievance. The hearing officer will be selected from a list approved by the School Board. The hearing officer will hold a hearing within fifteen (15) working days of receipt of the employee's request. Notice of the hearing shall be given orally or in writing to the employee at least five (5) working days before the hearing. The employee and the school division will share the cost of the hearing officer and the cost of recording the hearing equally.
4. The employee and the employee's supervisor may be represented by legal counsel or a lay advocate at the hearing, but not both. The division may also be represented by legal counsel at the hearing. The hearing will be private and the hearing officer will have full discretion over the conduct of the hearing. However, the employee and the division may make opening statements, may present all material and

relevant evidence, including the testimony of witnesses, and may cross examine witnesses. Witnesses may be questioned by the hearing officer.

5. The hearing officer shall give the employee a written decision within ten (10) working days after the completion of the hearing. The decision shall be based on the evidence relevant to the issues produced at the hearing in the presence of each party.
6. The employee may appeal the decision to the School Board by providing written notice of appeal to the superintendent within five (5) working days of receiving the decision of the hearing officer. Upon timely appeal, the School Board shall decide the appeal on the written record and render its decision within thirty (30) days of the appeal.

STAFF HIRING PROCEDURES

It is the desire of the Scott County School Board to recruit, hire and retain the best possible qualified applicants.

The Superintendent is responsible for developing procedures for advertising vacancies and new positions. Those procedures will be designed to ensure that all openings are properly advertised to give all interested and qualified parties the opportunity to apply. While most positions will be filled using those procedures, the School Board may, at the request of the Superintendent, fill positions in other ways. For example, the School Board may authorize the filling of a position to accommodate the disability of an employee, to transfer an employee when it is determined to be in the best interest of the school division, to satisfy the rights of employees returning from leave, to move an employee whose performance is unsuccessful to a position in which the employee might be successful or to discipline an employee for conduct deficiencies.

Current division employees are given an opportunity to apply for positions for which they are qualified.

The applicant determined to be the best qualified shall be selected for a vacant or new position, regardless of whether the applicant is an internal or external candidate.

Application for employment in Scott County Public Schools shall be made on forms provided by the School Board Office and may be found on the division's website, <https://www.scottschools.com/>, under the tab Employment.

It is the responsibility of the applicant to furnish accurate information and any falsification of either information or credentials is cause for dismissal or refusal to employ.

VOLUNTARY RETIREMENT SAVINGS PROGRAM

The Scott County School Division offers its employees the opportunity to participate in a defined contribution retirement plan, also known as a tax sheltered annuity or 403(b) program. This program is maintained and operated pursuant to a written plan.

The written plan contains all the material terms and conditions for eligibility, benefits, applicable limitations, the contracts available under the plan and the time and form under which benefit distributions may be made.

The written plan also addresses any optional features, including hardship withdrawal distributions, loans, plan-to-plan or annuity contract-to-annuity contract transfers and acceptance of rollovers to the plan, which are included in the Division's program.

The written plan may

- allocate responsibility for administrative functions, including functions to comply with the requirements of 26 U.S.C. § 403(b) and other tax requirements
- assign such responsibilities to parties other than the school division, but not to participants (unless the administration of the plan is a substantial portion of the duties of the participant)
- incorporate by reference other documents which thereupon become part of the written plan
- address termination of the program

Every employee of the school division is notified annually about the program.

PROFESSIONAL STAFF

No teacher is regularly employed by the School Board or paid from public funds unless such teacher

- holds a license or provisional license issued by the Board of Education,
- holds a three-year license to teach high school career and technical education courses in specified subject areas or
- is hired to teach in a trade and industrial education program and for whom the teacher licensure requirements have been waived by the Virginia Department of Education.

If a teacher employed under a provisional license is activated or deployed for military service within a school year (July 1 - June 30), an additional year will be added to the teacher's provisional license for each school year or portion thereof during which the teacher is activated or deployed. The additional year shall be granted the year the return of the teacher from deployment or activation.

The superintendent may request that the Board of Education extend the three-year provisional license of a teacher for at least one year but no more than two additional years. The request must be accompanied by the superintendent's recommendation for such extension and satisfactory performance evaluations for the teacher for each year of the original three-year license.

The Board of Education prescribes, by regulation, the requirements for the licensure for teachers and other school personnel required to hold a license. On recommendation of the superintendent, the School Board may waive applicable licensing requirements as specified Va. Code § 22.1-298.1 for any individual the School Board seeks to employ as a career and technical education teacher who is also seeking initial licensure or renewal of a license with an endorsement in the area of career and technical education.

PROFESSIONAL STAFF CONTRACTS

The School Board enters into written contracts with teachers, principals, assistant principals, and supervisors as defined in 8 VAC 20-441-10 before such employees assume their duties except as noted below. Contracts are in the form permitted by the Board of Education, with special covenants added by the School Board as appropriate. Contracts are signed in duplicate, with a copy furnished to each party.

Written contracts are not required with persons who are temporarily employed. A temporarily employed teacher, is 1) one who is employed to substitute for a contracted teacher for a temporary period of time during the contracted teacher's absence, or 2) one who is employed to fill a teacher vacancy for a period of time, but for no longer than 90 teaching days in such vacancy, unless otherwise approved by the Superintendent of Public Instruction on a case-by-case basis, during one school year.

Coaching contracts and contracts for extracurricular activity sponsorship assignments where a monetary supplement is paid are separate from the employee's primary contract. Such contracts are in a form permitted by the Board of Education. Termination of the separate contract does not constitute cause for the termination of the primary contract.

For purposes of this policy, "extracurricular activity sponsorship" means an assignment for which a monetary supplement is received, requiring responsibility for any student organizations, clubs, or groups such as service clubs, academic clubs and teams, cheerleading squads, student publication and literary groups, and visual and performing arts organizations except those that are conducted in conjunction with regular classroom, curriculum, or instructional programs.

PROFESSIONAL STAFF CONTRACTS AND COMPENSATION PLANS

Written contracts shall be made by the School Board with each teacher, principal, or supervisor employed by it, except those temporarily employed as substitute teachers, before such employee assumes his or her duties. Contracts will be in the form prescribed by the State Board of Education, with special covenants added by the local School Board, as appropriate. Contracts shall be signed in duplicate, with a copy thereof furnished to both parties.

The following definitions shall apply in this policy:

“Teacher” shall mean a person who is regularly employed full time as a classroom teacher, visiting teacher, guidance counselor, or librarian and who holds a valid teaching certificate.

“Principal” shall mean a person who is regularly employed full time as a principal or assistant principal and who holds a valid teaching certificate.

“Supervisor” shall mean a person who is regularly employed full time in a supervisory capacity and who is required by the Board of Education to hold a certificate to be employed in that position.

Only persons regularly employed full time by a School Board as teachers, principals, or supervisors shall be eligible for continuing contract status.

A probationary term of service of five years in the same school division is required prior to the issuance of a continuing contract. Once a continuing contract status has been attained in a school division elsewhere in the state, a two-year probationary period shall be served in the Scott County School Division prior to the issuance of a continuing contract. A teacher holding probationary contract status in another school division in the state shall be required to serve a five probationary term in the Scott County School Division prior to the issuance of a continuing contract.

A person employed as a principal or supervisor, including a person who has previously achieved continuing contract status as a teacher, shall serve three years in such position in the Scott County School Division before acquiring continuing contract status as a principal or supervisor. Continuing contract status acquired by a principal or supervisor shall not be construed as prohibiting a Board from reassigning the administrative or supervisory personnel to a teaching position.

If a principal or supervisor is reassigned to a teaching position, such reassignment shall be to continuing contract status.

In calculating probationary terms of service for teachers, principals, and supervisors, employment for 160 or more teaching days during one school year shall constitute a single year of service.

If a teacher, principal, or supervisor separates from service during his or her probationary period and does not return to service in the same school division by the beginning of the year following the year of separation, such person shall be required to begin a new probationary period.

If a teacher who has attained continuing contract status separates from service and does not return to teaching in Virginia Public Schools for a period longer than two years, such person shall be required to begin a new five-year probationary period.

Teaching service outside of the Virginia Public School System shall not be counted as meeting in whole or part the required probationary term.

Continuing contracts may be executed in behalf of persons holding a valid postgraduate, collegiate professional, or vocational certificate.

The contractual period is that prescribed by the State Board.

Employees going from a 12 month contractual period to an 11 or 10 month contractual period and employees going from an 11 month to a 10 month contractual period will not receive a check for the months of July and/or August depending on the contract change.

Compensation is provided for a 10-month contractual period and shall include:

1. One-hundred and eighty teaching days, minimum required by law.
2. Ten days minimum for such activities as teaching, planning for the opening of school, evaluation, completing records and reports, incident to the closing of each semester or school year, committee assignments, and conferences as defined by the School Board.
3. Ten days for the continuation of activities above and/or such other activities as may be assigned or approved at the discretion of the School Board. These days are subject to optional use as determined by the School Board.

Supervisors and principals shall be given contracts for ten (10), eleven (11), or twelve (12) months as determined by the School Board.

STAFF SALARY SCHEDULES

The School Board shall annually establish and approve salaries for all school employees.

Legal Ref.: Code of Virginia, 1950, as amended, §§ 22.1-78, 22.1-289.1, 22.1-313.

SUPPLEMENTARY PAY

The Scott County School Board approves all athletic coaching and other extracurricular activity sponsorships for which supplemental pay is provided. The Board establishes the amount of compensation for employees who coach or supervise such activities.

A separate contract in a form permitted by the Board of Education is executed by the School Board with an employee who receives supplemental pay for any athletic coaching assignment or extracurricular activity sponsorship assignment. All such contracts require a party intending to terminate the contract to give reasonable notice to the other party before termination thereof becomes effective.

For purposes of this policy, "extracurricular activity sponsorship" means an assignment requiring responsibility for any student organizations, clubs, or groups, such as service clubs, academic clubs and teams, cheerleading squads, student publication and literary groups, and visual and performing arts organizations except those activities that are conducted in conjunction with regular classroom, curriculum, or instructional programs.

**PROFESSIONAL STAFF LEAVES AND ABSENCES/SUPPORT
STAFF LEAVES AND ABSENCES**

The Scott County School Board recognizes the importance of a sound and inclusive leave policy for the promotion of physical and mental health of its employees and for maintaining good morale.

Personnel employed on a regular salaried basis may request or be placed on leave of absence for temporary medical disability if the School Board determines, after consultation with a physician who has performed a thorough medical examination, that the employee’s condition interferes with the performance of regular duties. The employee’s physician, upon approval of the personnel office, may perform such examination. Such employee has the right to present testimony and/or information relevant to the employee’s fitness to continue the performance of regular duties. The maximum length of a leave of absence for temporary disability shall in no event be more than 180 days.

All leaves, whether paid or unpaid, shall preserve the right of tenure, retirement, annual leave with pay, salary increments, and other benefits provided by law for those employees who return from leave within the agreed time.

The following categories of leaves shall be recognized by the Scott County School Board as applicable to Scott County Public School System personnel who are employed on a regular full-time salaried basis.

PERSONAL BUSINESS LEAVE (Revised 01/14)

Personal business leave is granted all personnel at the rate of three (3) days per year and may accumulate to ten days. If this leave is allowed to accumulate, upon leaving the system, days so accumulated are paid in full. Any days earned over the ten (10) day maximum may be transferred to sick leave.

This leave applies to all ten, eleven, and twelve month full-time employees.

This leave may be taken any time during a contract period at the option of the employee with full pay.

No personal business leave will be accepted from another county.

The Scott County School Board grants each employee three days business leave. These days are to be earned at the rate of one and one-half per semester. If such business leave days are taken before being earned, and the contract is terminated, this will be deducted from the final salary payment.

*Each full time employee of Scott County Public Schools hired on or after January 1, 2014 will follow the same guidelines listed above regarding earned/accumulated Personal Business Leave.

HOLIDAYS:

All twelve-month employees are entitled to the following eleven (11) paid holidays during the year:

July 4	1	If the 4th falls on a Saturday—Friday will be granted; if the 4th falls on Sunday--the following Monday will be granted.
Labor Day	1	The first Monday in September
Thanksgiving	3	Thanksgiving Day, the day before and after Thanksgiving
Christmas	2	*Christmas Eve and Christmas Day

New Year	2	*New Year's Eve and New Year's Day
Easter	1	**Easter Monday or Good Friday
Memorial Day	1	The last Monday in May.

* If one or both of the designated Christmas and/or New Year's holidays fall on a weekend, then the employee would be entitled to take the last working day immediately preceding and/or the first day following the weekend as a holiday.

** If schools are closed for both Good Friday and Easter Monday, the employee with the approval of the immediate supervisor would be allowed to take either day for the holiday. If schools operate on one of these dates, the twelve month employees would be entitled to only the day that schools are closed.

VACATION LEAVE (Revised 06/08)

12 Month Employees: Twelve month employees in the Scott County Schools are granted one and one-half (1 1/2) days per month, making a total of eighteen (18) vacation days per year.

1. Each twelve month employee is granted eighteen (18) vacation days as of July 1 of the new contract year. These days must be used between July 1 and June 30 as they are not cumulative.
2. If a twelve month employee leaves the employment of the School Board prior to June 30, and has already used more vacation days at the time of departure than he or she has earned by service, the employer will subtract one day's salary for each of the unearned vacation days used to that time.
3. A vacation day for a month will be considered earned if the employee has worked half of the available working days during the month. This same procedure will also apply if an employee is unable to return to his/her assignment during the year after exhausting all accumulated sick leave. Vacation time earned will continue to accumulate as long as the absence is covered by accumulated sick leave.
4. Twelve month employees with unused vacation days may apply for vacation on days that schools are closed by the annual school calendar. The request must be approved by the employee's immediate supervisor.
5. Calendar changes and/or adjustments requiring school operation on Saturdays will be considered a normal working day for all employees assigned to schools and/or rendering services directly required and essential to the orderly operation of the schools.
6. On all other days, excluding designated holidays and weekends, that schools are closed to students and ten month employees; twelve month employees will be expected to work regular hours. Depending on the nature of their assignment, eleven month employees may be required to work when schools are closed. The contracts of eleven month employees will address this matter.
7. Up to five (5) vacations days not taken by June 30 may be transferred into sick leave.

SICKNESS AND ACCIDENT: (Revised 01/14)

The Scott County School Division operates under the regulations governing the State Sick Leave Plan for Teachers (Revised--Effective September 1, 1980) as supplemented by School Board policies.

The following provisions apply to all full-time employees:

- A. Ten (10), eleven (11), and twelve (12) month employees may earn a maximum of ten (10), eleven (11), and twelve (12) days respectively for each yearly contractual period. This leave must be taken in a minimum of one-half day increments. Such leave, if not used, will have unlimited accumulation for Professional Staff and Non-Professional Staff employees (beginning January 1, 2003). (Non-professional – accumulate 180 days until December 31, 2002). Upon retirement, the Professional Staff employees will be paid at a rate of \$50 per day for unused sick leave days. Non-Professional Staff employees will be paid at a rate of \$25 per day for unused sick leave day. This provision shall not apply to full-time employees hired on or after January 1, 2014 except as denoted below.

*Each full time employee of Scott County Public Schools hired on or after January 1, 2014 will earn one day of sick leave per month of employment (10, 11, or 12 days each year). A maximum of 90 days of sick leave may be accumulated. Full time employees subject to this provision, upon retirement, shall receive payment for unused sick leave days at the rates mentioned in the above paragraph but **will not** be eligible for the sick leave bank.

- B. Employees shall be permitted to anticipate sick leave earnings for the current contract year. Should the recipient of advanced sick leave terminate employment with the school system prior to earning the amount of sick leave used, the recipient will have the advanced days deducted from the salary.
- C. An employee cannot claim any portion of earned leave unless he/she has actually reported for duty for one day of each contracted month. However, if an employee is unable, because of accident or illness, to begin work in accordance with the terms of his contract, such employee may use accumulated leave to his credit not to exceed such balances as of June 30 of the immediately preceding school year.
- D. Such leave must be taken in minimum of one-half day increments.
- E. The principal or Superintendent shall have the authority to require reasonable proof of illness when he deems it necessary.

Sick leave shall be allowed for personal illness, including quarantine, injury, pregnancy, temporary physical or mental incapacity, or illness in the immediate family requiring the attendance of the employee for not more than three (3) days in any one case. (The term "immediate family" of an employee shall be regarded to include mother, father, foster parents, adoptive parents, stepmother, stepfather, grandparents, grandchildren, wife, husband, children, brother, sister, father-in-law, mother-in-law, brother-in-law, sister-in-law, or any relative living in the household of the employee.) The Superintendent, or his designee, may grant exceptions on a case by case basis. The sick leave days will be deducted from the accumulated sick leave.

Effective July 1, 2005, in the case of childbirth, the birth mother may take up to 35 working days of paid sick leave. Any additional days of paid sick leave would require a physician's certificate. Additional days taken over 35 would be classified as unpaid sick leave, leave of absence, or family medical leave. Accumulated Business Leave days may also be used.

Employees covered under this policy may transfer from one school system to another in Virginia and likewise transfer any such accumulated leave in the School Board of the system to which the transfer is made signifies its willingness to accept such transfer.

The School Board of Scott County accepts the transfer of accumulated sick leave from other school systems in Virginia for professional instructional, administrative and supervisory personnel only, up to a maximum of 90 days.

An employee will be presumed to have left public school employment if he/she accepts employment other than in the public school system of Virginia, or is unable to be employed in the public schools of Virginia for a period of one (1) year because of illness or physical disability. An employee who leaves employment in the public schools to enter the armed services does not forfeit accumulated earnings unless he/she fails to return to public school employment immediately upon discharge from an original tour of duty in the armed services. However, current earnings cannot be allowed for the period while in the service.

Bus drivers, who are not considered full-time employees, are granted **five (5)** sick leave days per year accumulative to **20** (twenty) days.

ADMINISTRATIVE PROCEDURE FOR SCOTT COUNTY PUBLIC SCHOOLS

Effective Date: July 1, 2017

Subject: Return to Work Practices for Work Related Injuries

Purpose: The purpose of this instruction guide is to provide for the implementation of a Return to Work procedure for employees that have sustained work related injuries in the course and scope of employment.

Concept: It is the Practice of Scott County Schools to provide temporary or alternative duty assignments to employees who have been injured because of an incident, which arises out of the course or scope of employment.

1. It shall be the responsibility of Supervisors or Principals to make available a temporary, "alternative" duty assignment for an injured employee under their supervision who is temporarily partially disabled and has been released back to work with restrictions by their treating physician. A Supervisor or Principal may, with the permission and assistance of his or her immediate supervisor, find a temporary alternative duty assignment for the injured employee within another department of the same division or school if the Supervisor or Principal cannot provide a alternative duty assignment due to a clear unavailability of work; a threat to the health, safety, and welfare of the employee in question; a threat to the health, safety, and welfare of fellow employees; or due to a legal bar to providing such alternative duty assignment. However, it is first and foremost the responsibility of the employing department to provide alternative duty assignments.
2. Employees who are offered temporary alternative duty assignments are expected to report for duty and to fulfill their alternative duty assignment during the period of time they are temporarily disabled as they would their regular position. Employees may use their accrued leave time in accordance with the Human Resources Practices and Procedures; however, such leave time may not be utilized for avoiding alternative duty assignment.
3. Temporary alternative duty shall mean all periods of time when the employee's physician has determined that the injured employee may return to some form of restricted duty. Such temporary alternative duty assignment(s) shall continue until terminated by the treating physician; until the injured employee reaches Maximum Medical Improvement; or until all statutory requirements have been exhausted.
4. Such temporary alternative duty shall take into account and accommodate those restrictions, which have been placed upon the injured employee by their treating physician. As restrictions or limitations may change during the recovery process, the Supervisor shall continue to modify the work environment to accommodate the employee.
5. During this alternative duty assignment, the employee shall continue to receive their normal rate of pay for the hours worked in accordance with the salary administration practices of the school board

and shall be paid from the employing department's budget. Departments which require shift work which results in total accumulated hours to an employee in excess of 40 hours per week may pay an employee at their normal rate of pay for their normal hourly work week as long as the employee performs an alternative duty position with total accumulated hours of no less than 40 hours per week. Such employees who accumulate less than 40 hours per week shall be paid their normal rate of pay for the number of hours worked. Other benefits to which the employee may be entitled shall be paid in accordance with Virginia Workers' Compensation.

6. Once an employee has reached Maximum Medical Improvement, they are responsible to report this to their Supervisor. Upon reaching Maximum Medical Improvement, the employee's medical condition shall be assessed as to their permanent medical restrictions and their ability to perform the duties of the position to which they were hired. If the injured employee cannot return to their regular position, the Superintendent in association with the employee's Supervisor or Principal shall attempt to find employment within the employing department. If such employment cannot be accommodated within the employing department, the Superintendent shall attempt to find employment in another department or school within the school board. Such attempts are not a guarantee that a position will be offered or that future employment is assured.

FUNERAL LEAVE: (Revised 07/17)

Employees may be absent without loss of pay and without sick leave deduction in the case of a mother, step-mother, father, step-father, husband, wife, brother, sister, mother-in-law, father-in-law, child, or grandparent for a period **not** to exceed three (3) days per occurrence. The Superintendent, or his designee, may grant exceptions on a case by case basis.

CIVIL LEAVE:

Leave with full pay may be granted an employee for any absence necessary for serving on a jury, or attending court as a witness under subpoena. SICK LEAVE BANK (revised 01/14)

The Scott County School System shall maintain a sick leave bank for full-time employees who have catastrophic or long-term illness or injury that have exhausted their own sick leave as long as one-third of the eligible members participate in the sick leave bank.

Membership Requirements

1. Eligible employees are those full-time employees who receive sick leave benefits. However, full-time employees of Scott County Public Schools hired on or after January 1, 2014, are not eligible for participation in the sick leave bank.
2. Membership in the Sick Leave Bank is voluntary on the part of the eligible employees.

3. A member not having a sick leave day to contribute at the time of assessment shall automatically be assessed the first sick leave day subsequently earned.

Rules for Use

1. The Sick Leave Bank will be administered by the Central Office and an Advisory Committee. The Advisory Committee consists of one member from each personnel classification, the Sick Leave Bank Coordinator and the Human Resources Manager.
2. A member must make application for use of the Sick Leave Bank benefit; it is not automatic.
3. The first 10 consecutive contract days of illness or disability will not be covered by the bank but must be covered by the employees own accumulated sick leave days.
4. A member of the bank will not be able to utilize the Sick Leave Bank benefits until his or her sick leave supply is exhausted.

17. If the Sick Leave Bank becomes inoperative for any reason, the sick leave days remaining in the bank at that time will be distributed first to those members receiving benefits. From the remaining bank balance, the sick leave bank days will be credited to the nearest one-half (1/2) day to each participating member, if a sufficient number of days exist. If any insufficient balance exists to do this, the bank shall terminate and no further distribution will be made.

FAMILY AND MEDICAL LEAVE

Generally

The Scott County School Board recognizes its obligation to provide its eligible employees with unpaid leave pursuant to the Family and Medical Leave Act (FMLA), 29 U.S.C. § 2601 et seq. This policy describes the benefits available to eligible employees under the Act.

Covered active duty: The term covered “active duty” means

- in the case of a member of a regular component of the Armed Forces, duty during the deployment of the member with the Armed Forces to a foreign country; and
- in the case of a member of a reserve component of the Armed Forces, duty during the deployment of the member with the Armed Forces to a foreign country under a call or order to active duty under a provision of law referred to in 10 U.S.C. § 101(a)(13)(B).

Covered servicemember: The term “covered servicemember” means

- a member of the Armed Forces, including a member of the National Guard or Reserves, who is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness; or
- a veteran who is undergoing medical treatment, recuperation, or therapy, for a serious injury or illness and who was a member of the Armed Forces, including a member of the National Guard or Reserves, at any time during the period of 5 years preceding the date on which the veteran undergoes that medical treatment, recuperation, or therapy.

Eligible employee: To be eligible for leave under this policy the employee must have at least twelve (12) months of service with the Scott County school division and have worked at least 1250 hours according to the Fair Labor Standards Act, 29 U.S.C. § 201 et seq., in the twelve (12) months preceding the commencement of the leave. The term does not include teacher assistants or aides who do not have as their principal function actual teaching or instructing, or auxiliary personnel such as counselors, psychologists, curriculum specialists, cafeteria workers, maintenance workers, bus drivers, or other primarily noninstructional employees.

Next of kin: The term “next of kin” used with respect to an individual, means the nearest blood relative of that individual other than the covered servicemember’s spouse, parent, son, or daughter, in the following order of priority: blood relatives who have been granted legal custody of the covered servicemember by court decree or statutory provisions, brothers and sisters, grandparents, aunts and uncles, and first cousins, unless the covered servicemember has specifically designated in writing another blood relative as his or her nearest blood relative for purposes of military caregiver leave under the FMLA. When no such designation is made, and there are multiple family members with the same level of relationship to the covered servicemember, all such family members shall be considered the covered servicemember’s next of kin and may take FMLA leave to provide care to the covered servicemember, either consecutively or simultaneously. When such designation has been made, the designated individual shall be deemed to be the covered servicemember’s only next of kin.

Outpatient status: The term “outpatient status,” with respect to a covered servicemember, means the status of a member of the Armed Forces assigned to

- A. a military medical treatment facility as an outpatient; or
- B. a unit established for the purpose of providing command and control of members of the Armed Forces receiving medical care as outpatients.

Serious health condition: A serious health condition is an illness, injury, impairment or condition that involves inpatient care or continuing treatment by a health care provider.

Serious injury or illness: The term "serious injury or illness," in the case of

- a member of the Armed Forces, including a member of the National Guard or Reserves, means an injury or illness incurred by the member in line of duty on active duty in the Armed Forces (or existed before the beginning of the member's active duty and was aggravated by service in line of duty on active duty in the Armed Forces) and that may render the member medically unfit to perform the duties of the member's office, grade, rank, or rating; and
- a veteran who was a member of the Armed Forces, including a member of the National Guard or Reserves, at any time during a period described in 29 U.S.C. § 2611(15)(B), means a qualifying (as defined by the Secretary of Labor) injury or illness that was incurred by the member in line of duty on active duty in the Armed Forces (or existed before the beginning of the member's active duty and was aggravated by service in line of duty on active duty in the Armed Forces) and that manifested itself before or after the member became a veteran.

Year: A rolling 12-month period measured backward from the date an employee uses an FMLA leave.

Leave

Any eligible employee is entitled to leave for a combined total of twelve (12) weeks per year for the following situations:

1. The birth and care of a newborn child;
2. The adoption or foster placement of a child;
3. To care for an employee's spouse, parent, or child with a serious health condition;
4. Because of a serious health condition that makes the employee unable to perform the essential functions of the employee's job; and
5. Because of any qualifying exigency as defined in Department of Labor regulations, arising out of the fact that the spouse, or a son, daughter, or parent of the employee is on covered active duty (or has been notified of an impending call or order to covered active duty) in the Armed Forces.

However, an eligible employee who is the spouse, son, daughter, parent, or next of kin of a covered servicemember is entitled to a total of 26 workweeks of leave per year to care for the servicemember. Leave under this paragraph is available only during a single year. During that year the employee is entitled to a combined total of 26 workweeks of leave under this policy.

To the extent that an employee is entitled to compensated leave under other the Scott County school division policies, such paid leave shall be substituted for unpaid FMLA leave. Otherwise, family and medical leave is unpaid. When paid leave is available, the employee must satisfy any procedural requirements of the division's paid leave policy.

Employees on FMLA leave must report their status and intention regarding returning to work to the school division at least every four weeks.

Notice to Employees of Their Rights under the FMLA

Posting and General Notice

The Scott County school division shall post, in conspicuous places, on the premises of the school division where notices to employees and applicants for employment are customarily posted, a notice explaining the

FMLA's provisions and providing information about the procedure for filing complaints with the Department of Labor. Attachment 1 may be used as the notice.

A copy of Attachment 1 will also be given to each employee by including it in the employee handbook or similar document or by distributing it to each new employee upon hiring.

Eligibility Notice

When an employee requests FMLA leave, or the division has knowledge that an employee's leave may be for an FMLA-qualifying reason, the division should notify the employee of the employee's eligibility to take FMLA leave within five business days. The Eligibility Notice should state whether the employee is eligible for FMLA leave. If the employee is not eligible for FMLA leave, the Notice must state at least one reason why the employee is not eligible (such as, for example, the number of months the employee has worked for the division.) This notification may be accomplished by providing the employee a copy of Attachment 4.

Notice of Rights and Responsibilities

The division will provide written notice detailing the specific expectations and obligations of the employee and explaining the consequences of the failure to meet those obligations each time the employee is given an Eligibility Notice. This Notice will include, as appropriate:

- that the leave may be designated and counted against the employee's annual FMLA leave entitlement and the 12-month period for FMLA entitlement;
- any requirements for the employee to furnish certification of a serious health condition, serious injury or illness, or qualifying exigency arising out of active duty or call to active duty status, and the consequences of failing to provide certification;
- that the division will substitute paid leave for unpaid leave and any conditions related to the substitution and the employee's right to take unpaid FMLA leave if the employee does not meet the conditions for paid leave;
- any requirement for the employee to make any premium payments to maintain health benefits and the arrangements for making such payments, and the possible consequences of failure to make such payments on a timely basis;
- the employee's rights to maintenance of benefits during the FMLA leave and restoration to the same or an equivalent job upon return from FMLA leave; and
- the employee's potential liability for payment of health insurance premiums paid by the employer during the employee's unpaid FMLA leave if the employee fails to return to work after FMLA leave.

The Notice of Rights and Responsibilities should be accompanied by any required certification form.

The Notice of Rights and Responsibilities will also include notice that employees on FMLA leave must report their status and intention regarding returning to work to the division at least every four weeks.

If the information provided by the Notice of Rights and Responsibilities changes, the division will, within five business days of receipt of the employee's first notice of need for leave subsequent to any change, provide written notice referencing the prior notice and setting forth any of the information in the Notice of Rights and Responsibilities that has changed.

Designation Notice

When the division has enough information to determine whether the leave is being taken for a FMLA-qualifying reason, the division should give the employee written notice whether the leave will be designated and will be counted as FMLA leave within five business days. If the division determines that the leave will not be designated as FMLA-qualifying, the division must inform the employee of that determination. The division will also

notify the employee that paid leave must be substituted for unpaid FMLA leave or that paid leave taken under an existing leave plan be counted as FMLA leave at the time of designating the FMLA leave.

If the division will require the employee to present a fitness-for-duty certification to be restored to employment after taking leave for a continuous period of time, the division will provide notice of the requirement with the Designation Notice. If the division will require that the fitness-for-duty certification address the employee's ability to perform the essential functions of the employee's position, the division must so indicate in the Designation Notice and must include a list of the essential functions of the employee's position.

If the division has reasonable safety concerns regarding the ability of an employee who is returning to work after intermittent or reduced leave schedule to perform his or her duties based on the serious health condition for which the employee took leave, it may require the employee to submit a fitness for duty certification unless one has been submitted within the past 30 days.

If the leave is not designated as FMLA leave because it does not meet the requirements of the FMLA, the notice to the employee that the leave is not designated as FMLA leave may be in the form of a simple written statement.

If the information provided by the division to the employee in the Designation Notice changes, the division will provide, within five business days of receipt of the employee's first notice of need for leave subsequent to any change, written notice of the change.

The division will notify the employee of the amount of leave counted against the employee's FMLA leave entitlement. If the amount of leave needed is known at the time the employer designates the leave as FMLA-qualifying, the division must notify the employee of the number of hours, days, or weeks that will be counted against the employee's FMLA leave entitlement in the Designation Notice. If it is not possible to provide the hours, days, or weeks that will be counted against the employee's FMLA leave entitlement, then the division must provide notice of the amount of leave counted against the employee's FMLA leave entitlement upon request by the employee but no more often than once in a 30-day period and only if leave was taken in that period.

The division's decision to designate leave as FMLA-qualifying will be based only on information received from the employee or the employee's spokesperson. If the division does not have sufficient information about the reason for an employee's use of leave, the division will inquire further of the employee or the spokesperson to ascertain whether leave is potentially FMLA-qualifying. Once the division has knowledge that the leave is being taken for a FMLA-qualifying reason, the division will provide the employee the notice described in this subsection.

An employee giving notice of the need for FMLA leave must explain the reasons for the needed leave so as to allow the division to determine whether the leave is FMLA-qualifying. If the employee fails to explain the reasons, leave may be denied.

Leave for the Birth, Adoption or Foster Placement of a Child

The employee's entitlement to leave for a birth, adoption or foster placement of a child expires at the end of the twelve month period beginning on the date of the birth, adoption or foster placement. Leave taken for the birth, adoption or foster placement of a child may be taken intermittently or on a reduced leave schedule if the superintendent agrees to such an arrangement.

If the necessity for leave for the birth, adoption or foster placement of a child is foreseeable based on an expected birth or placement, the employee shall provide the school division with not less than 30 days' notice, before the date the leave is to begin, of the employee's intention to take leave. If the date of the birth or placement requires leave to begin in less than 30 days, the employee shall provide such notice as is practicable. The employee's notice should be sufficient to make the division aware that the employee needs FMLA-qualifying leave and of the anticipated timing and duration of the leave.

Leave Because of a Serious Health Condition of Employee

Employees are entitled, when medically necessary, to take such leave on an intermittent or reduced leave schedule except as provided below.

If the necessity for leave is foreseeable based on planned medical treatment, the employee shall

- (1) make a reasonable effort to schedule the treatment so as not to disrupt unduly the operations of the division; and
- (2) provide the division with at least 30 days' notice, before the date the leave is to begin, of the employee's intention to take leave. If the date of the treatment requires leave to begin in less than 30 days, the employee shall provide such notice as is practicable.

The employee's notice should be sufficient to make the division aware that the employee needs FMLA-qualifying leave and of the anticipated timing and duration of the leave.

The School Board may require that a request for leave because of the employee's own serious health condition be supported by a certification issued by a health care provider of the employee. The division may use Form WH-380-E (Attachment 2) for this certification. The division should request that the employee furnish certification when the employee gives notice of the need for leave or within five business days thereafter, or, in the case of unforeseen leave, within five business days after the leave begins. The division may request certification at a later date if it later has reason to question the appropriateness of the leave or its duration. The employee must provide a complete and sufficient certification within 15 calendar days after the division's request. When the division requests certification, it will advise the employee of the anticipated consequences of the employee's failure to provide adequate certification.

Certification will be sufficient if it states

- (1) the name, address, telephone number and fax number of the health care provider and the type of medical practice/specialization;
- (2) the approximate date on which the serious health condition commenced and its probable duration;
- (3) a statement or description of appropriate medical facts regarding the employee's health condition for which FMLA leave is requested. The medical facts must be sufficient to support the need for leave; and
- (4) information sufficient to establish that the employee is unable to perform the essential functions of his or her position, the nature of any other work restrictions, and the likely duration of such inability.

If an employee requests leave on an intermittent or reduced leave schedule for planned medical treatment of his or her serious health condition, the certification shall include information sufficient to establish the medical necessity for such intermittent or reduced schedule leave and an estimate of the dates on which such treatment is expected to be given and the duration of such treatment and any period of recovery.

If an employee requests leave on an intermittent or reduced leave schedule because of his or her own serious health condition that may result in unforeseeable episodes of incapacity, the certification shall include information sufficient to establish the medical necessity for the intermittent leave or leave on a reduced leave schedule, and an estimate of the frequency and duration of the episodes of incapacity.

If the employee submits a complete and sufficient certification signed by the health care provider, the division may not request additional information from the health care provider. However, the division may contact the health care provider for purposes of clarification and authentication of the medical certification. To make such contact, the division must use a health care provider, a human resources professional, a leave administrator, or a management official. The employee's direct supervisor may not contact the employee's health care provider.

If the school division doubts the validity of a certification, it may require, at its own expense, that the employee obtain the opinion of a second health care provider designated or approved by the school division

concerning any information certified. The health care provider designated or approved by the school division may not be employed by the school division on a regular basis.

If the second opinion differs from the original certification, the school division may require, at its own expense, that the employee obtain the opinion of a third health care provider designated or approved jointly by the school division and the employee concerning information certified. The opinion of the third health care provider will be binding on both the school division and the employee.

Leave Because of a Serious Health Condition of a Child, Spouse, or Parent of Employee

Family and medical leave shall be provided when the employee is needed to care for his/her spouse, child or parent with a serious health condition, as defined above. Employees are entitled, when medically necessary, to take such leave on an intermittent or reduced leave schedule except as provided below.

If the necessity for leave is foreseeable based on planned medical treatment, the employee shall

- (1) make a reasonable effort to schedule the treatment so as not to disrupt unduly the operations of the division; and
- (2) provide the division with at least 30 days' notice, before the date the leave is to begin, of the employee's intention to take leave. If the date of the treatment requires leave to begin in less than 30 days, the employee shall provide such notice as is practicable.

The employee's notice should be sufficient to make the division aware that the employee needs FMLA-qualifying leave and the anticipated timing and duration of the leave.

The School Board may require that a request for leave to care for an employee's spouse, parent, or child with a serious health condition be supported by a certification issued by a health care provider of the family member in need of care. The division may use Form WH-380-F (Attachment 3) for this medical certification. The division should ask the employee to furnish certification when the employee gives notice of the need for leave or within five business days thereafter, or, in the case of unforeseen leave, within five business days after the leave begins. The division may request certification at some later date if it has reason to question the appropriateness of the leave or its duration. The employee must provide the requested certification within 15 calendar days after the division's request. When the division requests certification, it will advise the employee of the anticipated consequences of the employee's failure to provide adequate certification.

Certification will be sufficient if it states

- (1) the name, address, telephone number, and fax number of the health care provider and type of medical practice/specialization;
- (2) the approximate date on which the serious health condition commenced and its probable duration;
- (3) a statement or description of appropriate medical facts regarding the patient's health condition for which FMLA leave is requested. The medical facts must be sufficient to support the need for leave; and
- (4) information sufficient to establish that the family member is in need of care and an estimate of the frequency and duration of the leave required to care for the family member.

If an employee requests leave on an intermittent or reduced leave schedule for planned medical treatment of a family member's serious health condition, the certification shall include information sufficient to establish the medical necessity for such intermittent or reduced schedule leave and an estimate of the dates and the duration of such treatments and any periods of recovery.

If an employee requests leave on an intermittent reduced leave schedule in order to care for a family member with a serious health condition, the certification shall include a statement that the employee's intermittent leave or leave on a reduced leave schedule is medically necessary for the care of the son, daughter,

parent, or spouse who has a serious health condition, or will assist in their recovery, and the expected duration and schedule of the intermittent leave or reduced leave schedule.

If the employee submits a complete and sufficient certification signed by the health care provider, the division may not request additional information from the health care provider. However, the division may contact the health care provider for purposes of clarification and authentication of the medical certification. To make such contact, the division must use a health care provider, a human resources professional, a leave administrator, or a management official. The employee's direct supervisor may not contact the employee's health care provider.

If the school division doubts the validity of a certification, it may require, at its own expense, that the employee obtain the opinion of a second health care provider designated or approved by the school division concerning any information certified. The health care provider designated or approved by the school division may not be employed by the school division on a regular basis.

If the second opinion differs from the original certification, the school division may require, at its own expense, that the employee obtain the opinion of a third health care provider designated or approved jointly by the school division and the employee concerning information certified. The opinion of the third health care provider will be binding on both the school division and the employee.

Leave to Care for a Covered Servicemember

If the necessity for leave is foreseeable based on planned medical treatment for a serious injury or illness of a covered servicemember, the employee shall

- (1) make a reasonable effort to schedule the treatment so as not to disrupt unduly the operations of the division; and
- (2) provide the division with at least 30 days' notice, before the date the leave is to begin, of the employee's intention to take leave. If the date of the treatment requires leave to begin in less than 30 days, the employee shall provide such notice as is practicable.

The employee's notice should be sufficient to make the division aware that the employee needs FMLA-qualifying leave and the anticipated timing and duration of the leave.

The School Board may require that a request for leave to care for a covered servicemember with a serious injury or illness be supported by a certification issued by a health care provider of the covered serviceperson. The certification may be completed by any health care provider listed in 29 C.F.R. 825.310(a). The employee shall provide, in a timely manner, a copy of such certification to the school division.

Certification will be sufficient if it states

- (1) the name, address, and appropriate contact information (telephone number, fax number, and and/or email address) of the health care provider, the type of medical practice, the medical specialty, and whether the health care provider is one of the following: a (DOD) health care provider, a United States Department of Veterans Affairs (VA) health care provider, a DOD TRICARE network authorized private health care provider, or a DOD non-network TRICARE authorized health care provider or a health care provider as defined in 29 C.F.R. 825.125;
- (2) whether the covered servicemember's injury or illness was incurred in the line of duty on active duty;
- (3) the approximate date on which the serious health condition or serious injury or illness commenced or was aggravated and its probable duration;
- (4) a statement or description of appropriate medical facts regarding the covered servicemember's health condition for which FMLA leave is requested. The medical facts must be sufficient to support the need for leave; and
- (5) information sufficient to establish that the covered servicemember is in need of care and whether the covered servicemember will need care for a single continuous period of time,

including any time for treatment and recovery, and an estimate as to the beginning and ending dates for this period of time.

If an employee requests FMLA leave on an intermittent or reduced leave schedule for planned medical treatment appointments for the covered servicemember, the certification must state that there is a medical necessity for the covered servicemember to have such periodic care and must contain an estimate of the treatment schedule of such appointments.

If an employee requests FMLA leave on an intermittent or reduced schedule basis to care for a covered servicemember other than for planned medical treatment, the certification must contain a statement that there is a medical necessity for the covered servicemember to have such periodic care, and must contain an estimate of the frequency and duration of the periodic care.

In addition to the information listed above, the division may also request that the certification set forth the information on Form WH-385 (Attachment 7.)

In lieu of Form WH-385, the division will accept invitational travel orders (ITOs) or invitational travel authorizations (ITAs) issued to any family member to join an injured or ill servicemember at his or her bedside. An ITO or ITA is sufficient certification for the duration of time specified in the ITO or ITA. During that time period, the employee may take leave to care for the covered servicemember in a continuous block of time or on an intermittent basis.

The information on the certification must relate only to the serious injury or illness for which the current need for leave exists. The division may seek authentication or clarification of the certification, ITO, or ITA but may not seek second or third opinions. The division may require an employee to provide confirmation of covered family relationship to the seriously injured or ill servicemember.

The division will also accept as sufficient certification of the servicemember's serious injury or illness documentation indicating the servicemember's enrollment in the Department of Veterans Affairs Program of Comprehensive Assistance for Family Caregivers.

Leave Related to a Qualifying Exigency arising from Covered Active Duty or a Call to Covered Active Duty

If the necessity for leave because of a qualifying exigency arising from the fact that a family member is on covered active duty or has been notified of an impending call to covered active duty is foreseeable, the employee shall give such notice to the school division as is reasonable and practicable. The employee's notice should be sufficient to make the division aware that the employee needs FMLA-qualifying leave and the anticipated timing and duration of the leave.

The first time an employee requests leave because of a qualifying exigency arising out of the covered active duty or call to covered active duty status (or notification of an impending call or order to covered active duty) of a military member, the division may require the employee to provide a copy of the military member's active duty orders or other documentation issued by the military which indicates that the military member is on covered active duty or call to covered active duty status and the dates of the military member's covered active duty service. A copy of new active duty orders or other documentation issued by the military shall be provided to the division if the need for leave because of a qualifying exigency arises out of a different covered active duty or call to covered active duty status (or notification of an impending call or order to covered active duty) of the same or a different military member.

A request for leave because of a qualifying exigency must be supported by

- (1) a statement or description signed by the employee of appropriate facts regarding the qualifying exigency for which FMLA leave is requested. The facts must be sufficient to support the need for leave;
- (2) the approximate date on which the qualifying exigency commenced or will commence;

- (3) the beginning and ending dates of absence if the employee requests leave because of a qualifying exigency for a single, continuous period of time;
- (4) an estimate of the frequency and duration of the qualifying exigency if the employee requests leave because of a qualifying exigency on an intermittent or reduced schedule basis;
- (5) if the qualifying exigency involves meeting with a third party, appropriate contact information for the individual or entity with whom the employee is meeting and a brief description of the purpose of the meeting; and
- (6) if the qualifying exigency involves Rest and Recuperation leave, a copy of the military member's Rest and Recuperation orders, or other documentation issued by the military which indicates that the military member has been granted Rest and Recuperation leave, and the dates of the military member's Rest and Recuperation leave.

The division may use Form WH-384 (Attachment 6) for this certification.

Rules for Intermittent and Reduced Schedule Leave

When permitted by the FMLA, intermittent and reduced schedule leave may be used until the aggregate amount of such leave equals twelve weeks or 26 weeks if the leave is taken to care for a covered servicemember in the employee's rolling year. However, when the employee requests intermittent or reduced schedule leave that is foreseeable based on planned medical treatment the school division may temporarily transfer the employee to an available alternative position with equivalent pay and benefits that better accommodates the employee's intermittent or reduced schedule leave.

When an eligible employee employed principally in an instructional capacity requests leave to care for a family member with a serious health condition, leave because of the employee's own serious health condition, or leave to care for a covered servicemember and the leave is foreseeable based on planned medical treatment and the employee would be on leave for greater than 20 percent of the total number of working days in the period during which the leave would extend, the school division may require the employee to elect either

- (1) to take leave for periods of a particular duration, not to exceed the duration of the planned medical treatment; or
- (2) to transfer temporarily to an available alternative position offered by the school division for which the employee is qualified and that has equivalent pay and benefits and better accommodates recurring periods of leave than the employee's regular employment position.

The school division may require an employee to make such an election when the employee has

- (1) made a reasonable effort to schedule the treatment so as not to disrupt unduly the operations of the division, subject to the approval of the health care provider; and
- (2) has provided the division with not less than 30 days' notice before the date the leave is to begin, of the employee's intention to take leave, except that if the date of the treatment requires leave to begin in less than 30 days, the employee shall provide such notice as is practicable.

Rules for Husband and Wife Employed by the Scott County School Division

A husband and wife who are both eligible for family and medical leave and are employed by the Scott County school division shall be granted family and medical leave only for a combined total of twelve weeks per year when the leave is taken for the birth, foster placement, or adoption of a child or to care for the child after birth, adoption, or foster placement or to care for a parent with a serious health condition.

A husband and wife who are both eligible for family and medical leave and are employed by the Scott County school division shall be granted family and medical leave only for a combined total of 26 workweeks per year if the leave

- (1) is taken to care for a covered servicemember; or
- (2) is taken as a combination of leave to care for a covered servicemember and leave for the birth, foster placement, or adoption of a child or to care for the child after birth, adoption, or foster placement or to care for a parent with a serious health condition. However, if the leave taken by

the husband and wife includes leave for the birth, foster placement, or adoption of a child or to care for the child after birth, adoption, or foster placement or to care for a parent with a serious health condition, the leave for that reason shall be limited to 12 workweeks per year.

Benefits During Family and Medical Leave

Employees on family and medical leave shall receive the group health insurance plan coverage on the same conditions as coverage would have been provided if the employee had been working during the period of leave. Other benefits shall be provided according to the Scott County school division policy for paid or unpaid leave, whichever applies.

If the employee fails to return to work when the period of leave to which he or she is entitled expires for any reason other than the continuation, recurrence, or onset of a serious health condition that entitles the employee to leave, or other circumstances beyond the employee's control, the school division may recover the premium it paid for maintaining the employee's coverage during the period of unpaid leave in accordance with federal law.

Return to Work

An employee on family and medical leave shall provide the division at least two work days' notice of the intent to return to work. The employee shall be returned to the same or equivalent position at the end of the family and medical leave unless the division shows that the employee would not otherwise have been employed at the time reinstatement is requested.

The following return to work provisions apply to instructional employees:

1. If an instructional employee begins family and medical leave more than five (5) weeks before the end of an academic term, the employee may be required to continue taking leave until the end of the term if the leave is at least three (3) weeks in duration and the return to work would occur during the last three (3) weeks of the academic term.
2. If an instructional employee begins family and medical leave a) because of the birth, adoption, or foster care placement of a son or daughter of the employee, b) to care for a family member with a serious health condition, or c) to care for a covered servicemember during the five (5) week period before the end of an academic term, the employee may be required to continue taking leave until the end of the academic term if the leave is longer than two (2) weeks in duration and the return to work would occur during the last two (2) weeks of the academic term.
3. If an instructional employee begins family and medical leave a) because of the birth, adoption, or foster care placement of a son or daughter of the employee, b) to care for a family member with a serious health condition, or c) to care for a covered servicemember during the three (3) week period before the end of an academic term, the employee may be required to continue taking leave until the end of an academic term if the leave is longer than five (5) working days in duration.

If an instructional employee is required to continue leave until the end of an academic term, only the period of leave until the employee is ready and able to return to work shall be counted against the family and medical leave entitlement. However, the division must continue the group health insurance coverage under the same conditions as if the employee were working.

Outside Employment

An employee who is on family and medical leave may not engage in employment for any other employer or self-employment while on leave. Falsification of records and failure to correct records known to be false are violations of this policy and will result in discipline which may include termination from employment.

LEAVE WITHOUT PAY

Employee's Debilitating or Life-Threatening Illness or Injury

A leave of absence, without pay, may be granted to employees of the school division who have a debilitating or life-threatening illness or injury and who are not eligible for Family and Medical Leave as described in Policy GCBE Family and Medical Leave because they have not worked for the division for 12 months or have not worked at least 1250 hours according to the Fair Labor Standards Act, 29 U.S.C. § 201 et seq.

Employees with a debilitating or life-threatening illness who are entitled to leave under this policy may take up to thirty (30) days unpaid leave during their first year of employment with the school division. Leave may be taken only in full-day increments. Leave may be taken only when the employee has no other leave (such as sick leave) available.

Employees must submit medical documentation of their need for leave. Whenever possible, documentation must be provided prior to leave being taken.

Approval must be obtained prior to leave being taken.

All rights under this policy expire at the end of the employee's first year of service.

Other Work During Leave

Employees who are on unpaid leave pursuant to this policy or any other policy, except those on leave pursuant to the Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA) (see Policy GCBE Military Leave and Benefits), may not engage in work for which they receive pay or any other type of remuneration without the prior written approval of the superintendent.

MILITARY LEAVE AND BENEFITS

Leave

All employees of the Scott County School Board who are members of the state or federal military reserves are entitled to leaves of absence from their duties on all days during which they are engaged in federally funded military duty, including training duty, or when called forth by the Governor.

Immediately upon receipt of official notice to report for duty, the employee will notify his or her supervisor of the need for military leave. A copy of the official orders must accompany the leave request.

Pay/Paid Leave

All employees on military leave receive up to 15 days paid leave per federally funded tour of duty. When possible, military leave for employees on less than a 12 month contract should be arranged during non-duty hours.

An employee who is scheduled for a physical examination for military service during working hours, including but not limited to pre-induction physicals, receives paid leave.

In addition, full-time employees of the Scott County School Division whose active duty service with the regular armed forces of the United States or the National Guard or other reserve component requires the employee's absence from employment receive supplemental pay in the amount of or equal to their monthly salary if the employee's military compensation is less than the regular salary paid to the employee by the school division.

The employee will be permitted, upon request, to use any vacation, annual, or similar leave that had accrued at the time military leave began.

Except as outlined above, military leave is unpaid.

Benefits

Health Benefits

If the employee so desires, the employee and the employee's dependents may continue to participate in the division's group health plan for up to 24 months while the employee is on military leave. The employee must notify **Angie Vermillion** or **Carla Carter** if the employee wants to continue participation in the division's group health plan. Employees who elect to continue on the division's health plan will be responsible for the employee's share of the health insurance, dental, and/or vision premiums.

Retirement Benefits

An employee reemployed after military leave will be treated as not having incurred a break in service. The period of military leave will be considered service to the division for purposes of vesting and benefit accrual. The division is responsible for its pension plan funding obligation. The division is not required to make its contribution until the employee is reemployed.

The employee is allowed, but not required, to make up the employee's contributions to a contributory plan. The employee may repay his or her employee contributions for a period of up to three times the period of military service, but not to exceed five years. If the employee's retirement plan is contributory and the employee does not make up the employee's contributions, the employee will not receive the employer match or the accrued benefit attributable to the employee's contribution because the employer is required to make contributions that are contingent on the employee's contributions.

The employer and employee contribution will be calculated on the rate of pay the employee would have received but for the absence to serve military duty.

Reemployment

An employee who is entitled to military leave by reason of service in the federal military reserves is entitled to be reemployed by the School Board as long as the employee

- has given advance notice of the need for military leave (unless notice is precluded by military necessity or is otherwise impossible or unreasonable);
- has not been absent from his or her job for more than five years; and
- returns to work as outlined below.

If the employee was absent from work for

- less than 31 days, the employee must report back to work by the beginning of the next regularly scheduled work period after a reasonable amount of time to arrive home, rest and report to work;
- more than 30 days but less than 181 days, the employee must submit an application for reemployment within 14 days after the completion of service;
- more than 180 days, the employee must submit an application for reemployment within 90 days after the completion of service.

Employees who are entitled to military leave due to service in the Virginia military reserves must make written application for reemployment within (1) 14 days of release from duty or from hospitalization following release if the length of the employee's absence by reason of service in the uniformed services does not exceed 180 days or (2) 90 days of his release from duty or from hospitalization following release if the length of the employee's absence by reason of service in the uniformed services exceeds 180 days.

Upon returning from duty, an employee will be restored to the same job he held before leaving or to a comparable job. The School Board is not obligated to reemploy persons returning from military leave in certain unusual situations specified by state and federal law.

Termination after Reemployment

A person who is reemployed after returning from more than 30 days of military duty will not be discharged except for cause

- within one year after the date of reemployment, if the person's period of military service before the reemployment was more than 180 days; or
- within 180 days after the date of reemployment, if the person's period of military service before the reemployment was more than 30 days but less than 181 days.

Discrimination Against Members of Military Reserves Prohibited

Members of the military reserves will not be denied initial employment, reemployment, retention in employment, promotion, or any benefit of employment on the basis of that membership.

CIVIC DUTIES

I. Jury Duty

The Scott County School Board supports its employees fulfilling the civic duties of serving on federal and state jury panels. Employees called for jury duty may be absent without loss of pay subject to verification of actual days served by the clerk of the court.

II. Court Appearances

Employees subpoenaed as court witnesses or summoned for a job related legal transaction may be absent without loss of pay. The superintendent or designee shall have approval authority to grant such leave for employees. In order to be paid under these circumstances, a copy of the subpoena shall be transmitted to the payroll office.

When attending to personal legal transactions, employees must use personal leave or annual leave, or be placed on a leave without pay status.

EMPLOYMENT OF FAMILY MEMBERS

- A. The School Board may not employ or pay, and the superintendent may not recommend for employment, any family member of the superintendent or of a School Board member except as authorized below. This prohibition does not apply to the employment, promotion, or transfer within the school division of any family member who
- has been employed pursuant to a written contract with the School Board or employed as a substitute teacher or teacher's aide by the School Board prior to the taking of office of the superintendent or any School Board member, or
 - has been employed pursuant to a written contract with the School Board or employed as a substitute teacher or teacher's aide by the School Board prior to the inception of the family relationship, or
 - was employed by the School Board at any time prior to June 10, 1994 and had been employed at any time as a teacher or other employee of any Virginia school board prior to the taking of office of any member of the School Board or the superintendent.

A family member employed as a substitute teacher may not be employed to any greater extent than he was employed by the School Board in the last full school year prior to the taking of office of such Board member or superintendent or to the inception of such relationship.

- B. Notwithstanding the rules stated in Section A above, the School Board may employ or pay, and the superintendent may recommend for employment, any family member of a School Board member provided that
- the member certifies that he had no involvement with the hiring decision; and
 - the superintendent certifies to the remaining members of the School Board in writing that the recommendation is based upon merit and fitness and the competitive rating of the qualifications of the individual and that no member of the Board had any involvement with the hiring decision.
- C. Notwithstanding the rules stated in Section A above, the School Board may employ or pay any family member of the superintendent provided that
- the superintendent certifies that he had no involvement with the hiring decision; and
 - the assistant superintendent certifies to the members of the School Board in writing that the recommendation is based upon merit and fitness and the competitive rating of the qualifications of the individual and that the superintendent had no involvement with the hiring decision.
- D. No family member of any employee may be employed by the School Board if the family member is to be employed in a direct supervisory and/or administrative relationship either supervisory or subordinate to the employee. The employment and assignment of family members in the same organizational unit is discouraged.
- E. Family members are defined as father, mother, brother, sister, spouse, son, daughter, son-in-law, daughter-in-law, sister-in-law or brother-in-law.

EFFECT OF CRIMINAL CONVICTION OR FOUNDED COMPLAINT OF CHILD ABUSE OR NEGLECT

Generally

The Board will not hire or continue the employment of any part-time, full-time, temporary, or permanent personnel who are determined to be unsuited for service by reason of criminal conviction or information appearing in the registry of founded complaints of child abuse and neglect maintained by the Department of Social Services.

I. APPLICANTS FOR EMPLOYMENT

A. Criminal Convictions

As a condition of employment for all of its employees, whether full-time or part-time, permanent, or temporary, the Scott County School Board shall require on its application for employment certification of whether the applicant has been convicted of any violent felony set forth in the definition of barrier crime in subsection A of Va. Code § 19.2-392.02; any offense involving the sexual molestation, physical or sexual abuse or rape of a child; or any crime of moral turpitude.

The School Board does not employ any individual who has been convicted of any violent felony set forth in the definition of barrier crime in subsection A of Va. Code § 19.2-392.02 or any offense involving the sexual molestation, physical or sexual abuse, or rape of a child.

The School Board may employ any individual who has been convicted of any felony or crime of moral turpitude that is not set forth in the definition of barrier crime in subsection A of § Va. Code § 19.2-392.02 and does not involve the sexual molestation, physical or sexual abuse, or rape of a child, provided that in the case of a felony conviction, such individual's civil rights have been restored by the Governor.

Notwithstanding the requirements of subsection A of Va. Code § 22.1-296.1, the School Board may employ an individual who, at the time of the individual's hiring, has been convicted of a felony, provided that such individual (i) was employed in good standing by a school board on or before December 17, 2015; (ii) has been granted a simple pardon for such offense by the Governor or other appropriate authority; and (iii) has had his civil rights restored by the Governor or other appropriate authority. However, the School Board may employ, until July 1, 2020, such an individual who does not satisfy the conditions set forth in clauses (ii) and (iii), provided that such individual has been continuously employed by the School Board from December 17, 2015 through July 1, 2018.

The Scott County School Board shall also require on its application for employment, as a condition of employment requiring direct contact with students, whether full-time or part-time, permanent, or temporary, certification that the applicant has not been the subject of a founded case of child abuse and neglect. Any person making a materially false statement regarding a finding of child abuse and neglect shall be guilty of a Class 1 misdemeanor and upon conviction, the fact of said conviction shall be grounds for the Board of Education to revoke such person's license to teach.

As a condition of employment, any applicant who is offered or accepts employment, whether full-time, part-time, permanent or temporary with the Scott County School Board shall submit to fingerprinting and provide personal descriptive information. The information and fingerprints shall be forwarded through the Central Criminal Records Exchange to the Federal Bureau of Investigations for the purpose of obtaining criminal history record information on applicants who are offered or accept employment.

To conserve the costs of conducting criminal history record checks to applicants and school boards, upon the written request of the applicant, the Scott County School Board shall inform another school board with which reciprocity has been established and to which the applicant also has applied for employment of the results of the criminal history record information conducted within the previous ninety days that it obtained concerning the applicant. Criminal history record information pertaining to an applicant for employment by a school board shall be exchanged only between school boards in the Commonwealth in which a current agreement of reciprocity for the exchange of such information has been established and is in effect. Reciprocity agreements shall provide for the apportionment of the costs of the fingerprinting or criminal records check between the applicant and BLANK School Board as provided by statute.

If an applicant is denied employment because of information appearing on his/her criminal history record, the School Board shall provide a copy of the information provided by the Central Criminal Records Exchange to the applicant.

B. Founded Complaints of Child Abuse or Neglect

The School Board requires, as a condition of employment, that any applicant who is offered or accepts employment requiring direct contact with students, whether full-time or part-time, permanent or temporary, provide written consent and the necessary personal information for the School Board to obtain a search of the registry of founded complaints of child abuse and neglect. The registry is maintained by the Department of Social Services. The School Board shall ensure that all such searches are requested in conformance with the regulations of the Board of Social Services. In addition, where the applicant has resided in another state within the last five years, the School Board requires as a condition of employment that such applicant provide written consent and the necessary personal information for the School Board to obtain information from each relevant state as to whether the applicant was the subject of a founded complaint of child abuse and neglect in such state. The School Board shall take reasonable steps to determine whether the applicant was the subject of a founded complaint of child abuse and neglect in the relevant state. The Department of Social Services shall maintain a database of central child abuse and neglect registries in other states that provide access to out-of-state school boards for use by local school boards. The applicant may be required to pay the cost of any search conducted pursuant to this subsection at the discretion of the School Board. From such funds as may be available for this purpose, however, the School Board may pay for the search.

If the information obtained pursuant to the preceding paragraph indicates that the applicant is the subject of a founded case of child abuse and neglect, such applicant shall be denied employment, or the employment shall be rescinded.

If an applicant is denied employment because of information appearing on his record in the registry, the School Board shall provide a copy of the information obtained from the registry to the applicant. The information provided to the School Board by the Department of Social Services shall be confidential and shall not be disseminated by the School Board.

II. EMPLOYEE CHARGES AND CONVICTIONS

A. Criminal Proceedings

An employee who is charged by summons, warrant, indictment, or information with the commission of a felony or a misdemeanor specified in Va. Code § 22.1-315 may be suspended in accordance with Policy GCPF Suspension of Staff Members.

If a current employee is suspended or dismissed because of information appearing on his/her criminal history record, the School Board shall provide a copy of the information provided by the Central Criminal Records Exchange to the employee.

The superintendent shall inform the School Board of any notification of arrest of a school board employee received pursuant to Virginia Code § 19.2-83.1. The School Board shall require such employee, whether full-time or part-time, permanent, or temporary, to submit to fingerprinting and to provide personal descriptive information to be forwarded along with the employee's fingerprints through the Central Criminal Records Exchange to the Federal Bureau of Investigation for the purpose of obtaining criminal history record information regarding such employee. The contents of the employee's criminal record shall be used only to implement dismissal, suspension or probation in accordance with §§ 22.1-307 and 22.1-315 of the Code of Virginia.

B. Founded Complaints of Child Abuse or Neglect

Any employee of the Scott County School Board will be dismissed if he or she is or becomes the subject of a founded complaint of child abuse and neglect and after all rights to an appeal provided by Va. Code § 63.2-1526 have been exhausted. The fact of such finding, after all rights to an appeal provided by Va. Code § 63.2-1526 have been exhausted, shall be grounds for the local school division to recommend that the Board of Education revoke such person's license to teach.

III. COURT ORDERED PROBATION

For purposes of this policy, a court's placing an individual on probation pursuant to Va. Code § 18.2-251 is treated as a conviction and as a finding of guilt.

IV. COSTS OF FINGERPRINTING, CRIMINAL RECORD AND ABUSE AND NEGLECT CHECKS

The applicant or employee shall pay for the fingerprinting, criminal record check and abuse and neglect check conducted pursuant to this policy. The cost for fingerprinting is \$40. Cash or money order will be accepted, no checks.

PROFESSIONAL STAFF PROBATIONARY TERM AND CONTINUING CONTRACT

Teachers

Probationary Term

A probationary term of service of three years in Scott County School Division is required before a teacher is issued a continuing contract. A mentor teacher is provided to every first year probationary teacher to assist him or her in achieving excellence in instruction. Probationary teachers with prior successful teaching experience may be exempt from this requirement with approval from the superintendent. Probationary teachers are evaluated at least annually in accordance with policy GCN Evaluation of Professional Staff. A teacher in the first year of the probationary period is evaluated informally at least once during the first semester of the school year. The superintendent considers such evaluations as one factor in making recommendations to the School Board regarding the nonrenewal of such teacher's contract.

In order to achieve continuing contract status, every teacher must successfully complete training in instructional strategies and techniques for intervention for or remediation of students who fail or are at risk of failing the Standards of Learning assessments. BLANK School Board provides said training at no cost to teachers it employs. If such training is not offered in a timely manner, no teacher will be denied continuing contract status for failure to obtain such training.

Once a continuing contract status has been attained in a school division in this state, another probationary period need not be served unless such probationary period, not to exceed two years, is made a part of the contract of employment. If a teacher separates from service and returns to teaching service in Virginia public schools by the beginning of the third year, the person shall be required to begin a new probationary period, not to exceed two years, if made part of the contract.

If a teacher who has not achieved continuing contract status receives notice of re-employment, he must accept or reject in writing within 15 calendar days of receipt of the notice. Unless a conference with the superintendent is requested as specified in the Code of Virginia, or in the case of reduction in force, written notice of nonrenewal of the probationary contract must be given by the Board on or before June 15 of each year. If the teacher requests a conference with the superintendent, then written notice of non-renewal by the School Board must be given within thirty days after the superintendent notifies the teacher of his intention with respect to the recommendation.

Continuing Contract

Teachers employed after completing the probationary period are entitled to continuing contracts during good behavior and competent service. Written notice of noncontinuation of the contract by either party must be given by June 15 of each year; otherwise the contract continues in effect for the ensuing year.

The School Board may reduce the number of teachers, whether or not such teachers have reached continuing contract status, because of decrease in enrollment or abolition of particular subjects.

Furthermore, nothing in the continuing contract shall be construed to authorize the School Board to contract for any financial obligation beyond the period for which funds have been made available.

As soon after June 15 as the school budget is approved by the appropriating body, the School Board furnishes each teacher a statement confirming continuation of employment, setting forth assignment and salary.

Within two weeks of the approval of the school budget by the appropriating body, but no later than July 1, the School Board will notify any teacher who may be subject to a reduction in force due to a decrease in the School Board's budget as approved by the appropriating body.

Principals, Assistant Principals, and Supervisors

A person employed as a principal, assistant principal or supervisor, including a person who has previously achieved continuing contract status as a teacher, shall serve a probationary term of three years in such position in the same school division before acquiring continuing contract status as a principal, assistant principal or supervisor.

Continuing contract status acquired by a principal, assistant principal or supervisor shall not be construed (i) as prohibiting the School Board from reassigning such principal, assistant principal or supervisor to a teaching position if notice of reassignment is given by the School Board by June 15 of any year or (ii) as entitling any such principal, assistant principal or supervisor to the salary paid him as principal, assistant principal or supervisor in the case of any such reassignment to a teaching position. No such salary reduction and reassignment, however, shall be made without first providing such principal, assistant principal or supervisor with written notice of the reason for such reduction and reassignment and an opportunity to present his or her position at an informal meeting with the superintendent, the superintendent's designee or the School Board. Before recommending such reassignment, the superintendent shall consider, among other things, the performance evaluations for such principal, assistant principal or supervisor. The principal, assistant principal or supervisor shall elect whether such meeting shall be with the superintendent, the superintendent's designee or the School Board. The School Board, superintendent or superintendent's designee shall determine what processes are to be followed at the meeting. The decision to reassign and reduce salary shall be at the sole discretion of the School Board.

The intent of this section is to provide an opportunity for a principal, assistant principal or supervisor to discuss the reasons for such salary reduction and reassignment with the superintendent, the superintendent's designee or the School Board, and the provisions of this section are meant to be procedural only. Nothing contained herein shall be taken to require cause for the salary reduction and reassignment of a principal, assistant principal or supervisor.

As used in this policy, "Supervisor" means a person who holds an instructional supervisory position as specified in the regulations of the Board of Education and who is required to hold a license as prescribed by the Board of Education.

REDUCTION IN PROFESSIONAL STAFF WORK FORCE

A decrease in enrollment, abolition of particular subjects, a decrease in the School Board's budget as approved by the appropriating body, a consolidation of schools, the phasing out of programs, departments or grade levels and other conditions may cause a reduction in the number of staff needed in a building, program or department or in the entire school division.

The regulations will not provide for reductions to be made solely on the basis of seniority; they will include consideration of the performance evaluations of the teachers potentially affected by the reduction in workforce.

The Scott County School Board does not employ drivers subject to controlled substances and alcohol testing required by federal law without first conducting a pre-employment query of the federal Drug and Alcohol Clearinghouse (the Clearinghouse) to obtain information about the driver. Drivers must give specific consent for the query.

No driver is permitted to perform any safety-sensitive function if the results of a Clearinghouse query demonstrate that the driver has a verified positive, adulterated, or substituted controlled substances test result; has an alcohol confirmation test with a concentration of 0.04 or higher; has refused to submit to a test; or that an employer has reported actual knowledge that the driver used alcohol on duty, used alcohol before duty, used alcohol following an accident, or used a controlled substance in violation of federal regulations, except where a query of the Clearinghouse demonstrated that the driver has successfully completed the substance abuse professional (SAP) evaluation, referral, and education/treatment process required by federal regulation; achieves a negative return-to-duty test result; and completes the follow-up testing plan prescribed by the SAP

The School Board also conducts a query of the Clearinghouse at least once per year for information for all employees subject to controlled substance and alcohol testing required by federal law and regulation to determine whether information exists in the Clearinghouse about these employees.

Drug and Alcohol Testing

Drivers are subject to drug and alcohol testing as required by state and federal law. Any driver who refuses to submit to a test shall not perform or continue to perform safety-sensitive functions. The division administers alcohol and controlled substance tests in accordance with federal laws and regulations.

Prohibited conduct

Drivers are prohibited from alcohol possession and/or use on the job, use during the four hours before performing safety-sensitive functions, having prohibited concentrations of alcohol in their systems while on duty or performing safety-sensitive functions, and use during eight hours following an accident or until after undergoing a post-accident alcohol test, whichever occurs first.

No driver shall report for duty or remain on duty requiring the performance of safety-sensitive functions when the driver uses any controlled substances except when the use is pursuant to the instructions of a licensed medical practitioner who is familiar with the driver's medical history and has advised the driver that the substance does not adversely affect his ability to safely operate a commercial motor vehicle.

Notification

The superintendent or superintendent's designee is responsible for providing educational materials to drivers that explain the requirements of federal regulations and the divisions' policies and procedures with regard to meeting those requirements. The superintendent or superintendent's designee ensures that a copy of the materials is distributed to each driver prior to the start of testing and to each driver subsequently hired or transferred into a position requiring driving a commercial vehicle. Those materials contain at least the following information

- the identity of the person designated by the school division to answer driver questions about the materials;
- the categories of drivers subject to this policy;
- sufficient information about the safety-sensitive functions performed by those drivers to make clear what period of the work day the driver is required to be in compliance;
- specific information concerning driver conduct that is prohibited;
- the circumstances under which a driver will be tested for alcohol and/or controlled substances, including post-accident testing;
- the procedures that will be used to test for the presence of alcohol and controlled substances, protect the driver and the integrity of the testing processes, safeguard the validity of the test results, and ensure that those results are attributed to the correct driver, including post-accident information, procedures and instructions;
- the requirement that a driver submit to alcohol and controlled substances tests;
- an explanation of what constitutes a refusal to submit to an alcohol or controlled substances test and the attendant consequences;
- the consequences for drivers found to have violated federal law or regulations, including the requirement that the driver be immediately removed from safety-sensitive functions;
- the consequences for drivers found to have an alcohol concentration of 0.02 or greater but less than 0.04;
- information concerning the effects of alcohol and controlled substances use on an individual's health, work, and personal life; signs and symptoms of an alcohol or a controlled substances problem (the driver's or a co-worker's); and available methods of intervening when an alcohol or a controlled substances problem is suspected, including confrontation, referral to any employee assistance program and/or referral to management; and
- the requirement that the following personal information be reported to the Clearinghouse: a verified positive, adulterated, or substituted drug test result; an alcohol confirmation test with a concentration of 0.04 or higher; a refusal to submit to required tests; an employer's report of actual knowledge of on duty alcohol use, pre-duty alcohol use, post-accident alcohol use, and controlled substance use; a SAP report of

the successful completion of the return-to-duty process; a negative return-to-duty test; and an employer's report of completion of follow-up testing.

Each driver must sign a statement certifying that the driver has received a copy of the above materials and the division maintains this signed copy.

Before performing each alcohol or controlled substances test, the division notifies the driver that the test is required by federal law or regulation.

Consequences of prohibited conduct

A driver who has engaged in conduct prohibited by federal regulation or for whom testing confirms prohibited alcohol concentration levels or the presence of a controlled substance, is removed immediately from safety-sensitive functions. Before a driver is returned to the performance of safety-sensitive functions, if at all, the driver shall undergo an evaluation by a substance abuse professional, as defined by 49 C.F.R. § 40.281, comply with any required rehabilitation and undergo a return-to-duty test with negative drug test results and/or an alcohol test with an alcohol concentration of less than 0.02.

Record retention

The division maintains records in compliance with federal regulations in a secure location with controlled access. With the driver's consent, the division may obtain any of the information concerning drug and alcohol testing from the driver's previous employer. A driver is entitled upon written request to obtain copies of any records pertaining to the driver's use of alcohol or controlled substances including information pertaining to alcohol or drug tests.

Records shall be made available to a subsequent employer upon receipt of a written request from a driver. Disclosure by the subsequent employer is permitted only as expressly authorized by the terms of the driver's request.

The Scott County School Board adopts the following policy with respect to the use of electronic records and signatures in connection with its communications with parents, guardians, or other persons having control over a child enrolled in this division.

Definitions

“Attribution” – An electronic record or electronic signature is attributable to a person if it was the act of the person. The act of the person may be shown in any manner, including a showing of the efficacy of any security procedure applied to determine the person to which the electronic record or electronic signature was attributable.

“Electronic Signature”- An electronic sound, symbol or process attached to or logically associated with a record and executed or adopted by a person with the intent to sign the record.

Electronic Records

Electronic records created or received by the division shall be appropriately attributed to the individual(s) responsible for their creation and/or authorization or approval. The division shall utilize available technology to implement reliable methods for generating and managing electronic records. Any electronic record filed with or issued by the division may be given full force and effect of a paper communication if the following conditions are satisfied:

1. The communication is an electronic filing or recording and the Scott County School Board agrees to accept or send such communication electronically; and
2. If a signature is required on the record or communication by any statute, rule or other applicable law or School Board policy, the electronic signature must conform to the requirements set forth in this policy governing the use of electronic signatures.

The issuance and/or acceptance of an electronic signature by the School Board may be permitted in accordance with the provisions of this policy and all applicable state and federal law. If permitted, such electronic signature shall have the full force and effect of a manual signature only if the electronic signature satisfies all of the following requirements:

SCHOOL YEAR/SCHOOL DAY

School Year

The length of the school year is at least 180 teaching days or 990 teaching hours. Days on which a school or schools or all the schools in the division are closed due to severe weather or other emergencies are made up as provided below if necessary to meet these requirements.

Students are provided a minimum of 680 hours of instructional time in elementary school, except for students in half-day kindergarten, in the four academic disciplines of English, mathematics, science, and history and social science and a minimum of 375 hours of instructional time in half-day kindergarten in the four academic disciplines of English, mathematics, science, and history and social science.

Unstructured recreational time that is intended to develop teamwork, social skills, and overall physical fitness may be included in the calculation of total instructional time or teaching hours for elementary school, provided that such unstructured recreational time does not exceed 15 percent of total instructional time or teaching hours.

Make Up Days

If severe weather conditions or other emergency situations result in the closing of a school or schools or all the schools in the school division for

- five or fewer days, all missed days are made up by adding teaching days to the school calendar or extending the length of the school day;
- six days or more, the first five days plus one day for each two days missed in excess of the first five are made up by adding teaching days to the school calendar or extending the length of the school day.

If severe weather conditions or other emergency situations result in the closing of any school in the school division and such school has been unable to meet the 180 teaching day requirement, the school division may make up the missed teaching days by providing its students with instructional hours equivalent to such missed teaching days to meet the minimum 990 teaching hour requirement.

The Board of Education may waive the requirement that the school division provide additional teaching days or teaching hours to compensate for school closings resulting from a declared state of emergency or severe weather conditions or other emergency situations under certain circumstances. If the School Board desires a waiver, it will submit a request to the Board of Education. The request will include evidence of efforts that have been made by the school division to reschedule as many days as possible and certification by the superintendent and chairman of the School Board that every reasonable effort for making up lost teaching days or teaching hours was exhausted before requesting a waiver. If the waiver is denied, the school division will make up the missed instructional time.

The Board of Education waives the requirement that school divisions provide additional teaching days or teaching hours to compensate for school closings resulting from an evacuation directed and compelled by the Governor pursuant to Va. Code § 44-146.17 for up to five teaching days. If the School Board desires such a waiver, it notifies the Board of Education and provides evidence of efforts that have been made by the school division to reschedule as many days as possible and certification by the superintendent and chair of the School Board that every reasonable effort for making up lost teaching days or teaching hours was exhausted. After receiving such notification, the Board of Education grants the waiver and there is no proportionate reduction in the amount paid

by the Commonwealth from the Basic School Aid Fund. Further, the local appropriations for educational purposes necessary to fund 180 teaching days or 990 teaching hours shall not be proportionally reduced by the local appropriating body due to any reduction in the length of the term of any school or the schools in a school division permitted by such waiver.

School Calendar

The School Board establishes the division's calendar in accordance with state law. The School Board establishes teaching contracts in accordance with applicable regulations of the Board of Education to include contingencies for making up teaching days and teaching hours missed for emergency situations.

An advisory committee composed of teachers, parents and school administration may be utilized to recommend a proposed calendar to the superintendent. The recommendation of this committee is advisory.

School Day

The standard school day for students in grades 1 through 12 averages at least 5-1/2 instructional hours excluding breaks for meals and recess. The standard school day for kindergarten is a minimum of three instructional hours.

All students in grades 1 through 12 maintain a full day schedule of classes (5-1/2 hours) unless a waiver is granted in accordance with policies defined by the School Board.

Each elementary school provides students with a daily recess during the regular school year, as determined appropriate by the school.

The secondary school class schedule contains a minimum of 140 clock hours for each unit of credit. When credit is awarded in less than whole units, the increment awarded is no greater than the fractional part of the 140 hours of instruction provided.

The time for opening and closing schools is established by the School Board upon recommendation of the superintendent, provided that the daily program for students in grades 1 through 12 averages at least 5 ½ hours, not including meal intermissions. If the required program length is maintained, the School Board may approve occasional shortened days for staff development, conferences, planning and other activities designed to improve the instructional program, provided that no more than one day in each five-day week may be shortened to no less than four hours. The daily program for kindergarten is at least three hours, not including meal intermissions.

When exceptions in the length of the daily program are necessary, the Board requests approval by the Superintendent of Public Instruction of the exceptions by August 1 preceding the school year for which they are requested.

The length of the work day for employees is determined by the School Board. It is of sufficient length to allow for the daily program for students and additional time as may be necessary for such activities as planning, preparation, meetings, workshops, conferences, meal intermissions or other contractual obligations.

Joint or Regional Schools

School boards operating joint or regional high schools, including regional charter schools, offering a specialized curriculum leading to a high school diploma and a postsecondary credential, such as industry certification, career certificate, or degree may, by agreement, establish alternative schedules for the delivery of

instruction. Those schedules may include alternatives to standard school day and year requirements, subject to the issuance of any necessary waivers by the Board of Education and relevant Board of Education regulations.

Certification

The superintendent and School Board chair certify the total number of teaching days and teaching hours each year as part of the annual report to the Board of Education.

The teacher responsible for each class shall make sure that each student: (1) remains seated and silent and (2) does not disrupt or distract other students during the moment of silence. The moment may be used for any lawful silent activity, including personal reflection, prayer and meditation. Teachers shall not influence, in any way, students to pray or meditate or not to pray or meditate during the moment of silence.

Legal Ref.: Code of Virginia, 1950, as amended, § 22.1-203.

At the beginning of homeroom or 1st period (whichever comes first) classes will be notified by bell or intercom to begin the Moment of Silence and will be notified by same means at the end of the Moment of Silence.

PLEDGE OF ALLEGIANCE

FAMILY LIFE EDUCATION (FLE)

Generally

The Scott County School Board provides Family Life Education (FLE) based on the FLE Standards of Learning (SOL) and curriculum guidelines developed by the Board of Education. The SOL objectives related to dating violence and the characteristics of abusive relationships are taught at least once in middle school and at least twice in high school. The high school FLE curriculum incorporates age-appropriate elements of effective and evidence-based programs on the prevention of dating violence, domestic abuse, sexual harassment, including sexual harassment using electronic means, and sexual violence, human trafficking, and the law and meaning of consent. Such age-appropriate elements of effective and evidence-based programs on the prevention of sexual violence may include instruction that increases student awareness of the fact that consent is required before sexual activity. The FLE curriculum offered in any school incorporates age-appropriate elements of effective and evidence-based programs on the importance of the personal privacy and personal boundaries of other individuals and tools for a student to use to ensure that he respects the personal privacy and personal boundaries of other individuals. The FLE curriculum incorporates age-appropriate elements of effective and evidence-based programs on the harmful physical and emotional effects of female genital mutilation; associated criminal penalties; and the rights of the victim, including any civil action pursuant to Va. Code § 8.01-42.5.

The FLE curriculum may incorporate age-appropriate elements of effective and evidence-based programs on the prevention, recognition, and awareness of child abduction, child abuse, child sexual exploitation and child sexual abuse.

The School Board reviews its family life education curricula at least once every seven years, evaluates whether the curricula reflects contemporary community standards, and revises the curricula if necessary.

Right of Parental Review

A parent or guardian has the right to review the family life curricula, including all supplemental materials used in the program.

The School Board develops and distributes to the parents or guardians of students participating in the FLE program a summary designed to assist them in understanding the program implemented in its school division and to encourage parental guidance and involvement in the instruction of the students. Such information reflects the curricula of the program as taught in the classroom. The following statement is included on the summary: "Parents and guardians have the right to review the family life education program offered by their school division, including written and audio-visual educational materials used in the program. Parents and guardians also have the right to excuse their child from all or part of family life education instruction."

Copies of the family life curriculum are available for public viewing at each school, and parents may opt-out students by placing an "O" in front of the appropriate Standard of Learning Object (SOL) on the individual progress record which may be obtained at the school which the student attends.

CHARACTER EDUCATION

The Scott County School Board provides, within its existing program or as a separate program, a character education program in its schools. The character education program may occur during the regular school year, during the summer in a youth development academy offered by the school division, or both. The purpose of the program is to foster civic virtues and personal character traits so as to improve the learning environment, promote student achievement, reduce disciplinary problems and develop civic-minded students of high character. The program is cooperatively developed with students, parents and the community. Specific character traits emphasized may include trustworthiness, respect, responsibility, fairness, caring and citizenship.

Character education is interwoven into the school procedures and environment so as to instruct primarily by example, illustration and participation, in such a way as to complement the Standards of Learning. Classroom instruction may also be used to supplement the program. The program also addresses the inappropriateness of bullying, as defined in Va. Code § 22.1-276.01. Parents have the right to review any audio-visual materials that contain graphic sexual or violent content used in any anti-bullying program. Prior to the use of any such material, the parent of a child participating in such a program is provided written notice of the parent's right to review the material and the right to excuse the child from participating in the part of such program utilizing such material.

The character education program

- specifies those character traits to be taught, selecting from those which are common to diverse social, cultural and religious groups;
- is implemented at the elementary and secondary levels;
- provides for relevant professional development and adequate resources; and
- includes a method for program evaluation.

Character education is intended to educate students regarding those core civic values and virtues which are efficacious to civilized society and are common to the diverse social, cultural, and religious groups of the Commonwealth. REMEDIAL AND SUMMER INSTRUCTION PROGRAM

Generally

The School Board develops and implements programs of prevention, intervention, or remediation for students who are educationally at risk, including but not limited to those who fail to achieve a passing score on any Standards of Learning assessment in grades three through eight, or who fail an end-of-course test required for the award of a verified unit of credit. Such programs shall include components that are research based.

Any student who achieves a passing score on one or more, but not all, of the Standards of Learning assessments for the relevant grade level in grades three through eight may be required to attend a remediation program.

Any student who fails to achieve a passing score on all of the Standards of Learning assessments for the relevant grade level in grades three through eight or who fails an end-of-course test required for the award of a verified unit of credit is required to attend a remediation program or to participate in another form of remediation. The superintendent requires such students to take special programs of prevention, intervention, or remediation, which may include attendance in public summer school programs.

Remediation programs include, when applicable, a procedure for early identification of students who are at risk of failing the Standards of Learning assessments in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs may also include summer school for all elementary and middle school grades and for all high school academic courses, as defined by regulations promulgated by the Board of Education, or other forms of remediation. Summer school remediation programs or other forms of remediation are chosen by the superintendent to be appropriate to the academic needs of the student.

Students who are required to attend such summer school programs or to participate in another form of remediation are not charged tuition.

The requirement for remediation may, however, be satisfied by the student's attendance in a program of prevention, intervention or remediation which has been selected by his parent, in consultation with the superintendent or superintendent's designee, and is either (i) conducted by an accredited private school or (ii) a special program which has been determined to be comparable to the required public school remediation program by the superintendent. The costs of such private school remediation program or other special remediation program are borne by the student's parent.

Targeted mathematics remediation and intervention are provided to students in grades six through eight who show computational deficiencies as demonstrated by their individual performance on any diagnostic test or grade-level Standards of Learning mathematics test that measures non-calculator computational skills.

The School Board annually evaluates and modifies, as appropriate, the remediation plan based on an analysis of the percentage of students meeting their remediation goals and consideration of the pass rate on the Standards of Learning assessments.

Summer School

The courses offered and the quality of instruction in the summer school program shall be comparable to that offered during the regular school term. Students must meet the requirements for SOL testing if appropriate.

Summer school instruction at any level which is provided as part of a state-funded remedial program is designed to improve specific identified student deficiencies.

Compulsory Attendance

When a student is required to participate in a remediation program pursuant to this policy, the superintendent may seek immediate compliance with the compulsory school attendance laws if a reasonable effort to seek the student's attendance, including direct notification of the parents of such student of the attendance requirement and failure of the parents to secure the student's attendance, have failed and the superintendent determines that remediation of the student's poor academic performance, passage of the Standards of Learning Assessment in grades three through eight, or promotion is related directly to the student's attendance in the remediation program.

Generally

The Scott County School Board provides programs to improve the education of English learners by assisting the children to learn English and meet Virginia's challenging academic content and student academic achievement standards.

The School Board accepts and provides programs for students for whom English is a second language who entered school in Virginia for the first time after reaching their 12th birthday, and who have not reached age 22 on or before August 1 of the school year. No tuition is charged such students, if state funding is provided for such programs.

Assessments

The School Board annually assesses the English proficiency of all English learners.

Notification of Programs for English Learners

The School Board, not later than 30 days after the beginning of the school year, informs a parent or the parents of an English learner identified for participation in, or participating in, a program for English learners, of

- the reasons for the identification of their child as an English learner and in need of placement in a language instruction education program;
- the child's level of English proficiency, how that level was assessed and the status of the child's academic achievement;
- the method of instruction used in the program in which their child is, or will be, participating, and the methods of instruction used in other available programs, including how such programs differ in content, instruction goals, and use of English and a native language in instruction;
- how the program in which their child is, or will be, participating will meet the educational strengths and needs of the child;
- how such program will specifically help their child learn English, and meet age appropriate academic achievement standards for grade promotion and graduation;
- the specific exit requirements for such program, the expected rate of transition from such program into classrooms that are not tailored for English learners, and the expected rate of graduation from high school (including four-year adjusted cohort graduation rates and extended-year adjusted cohort graduation rates for such program);
- in the case of a child with a disability, how such program meets the objectives of the individualized education program of the child; and
- information pertaining to parental rights that includes written guidance
 - detailing the right that parents have to have their child immediately removed from such program upon their request and the options that parents have to decline to enroll their child in such program or to choose another program or method of instruction, if available, and
 - assisting parents in selecting among various programs and methods of instruction, if more than one program or method is offered by the school division.

For a child who has not been identified as an English learner prior to the beginning of the school year but is identified as an English learner during the school year, the School Board provides the notice detailed above within 2 weeks of the child being placed in the program.

The information described above is provided to parents in an understandable and uniform format and, to the extent practicable, in a language that the parent can understand.

Notification of Availability of Testing Accommodations

Each high school principal or principal's designee notifies each English learner of the availability of testing accommodations available for industry certifications, state licensure examinations, national occupational competency assessments, the Armed Services Vocational Aptitude Battery and the Virginia workplace readiness skills assessment prior to the student's participation in any such certification, examination, assessment, or battery.

OFF-SITE INSTRUCTION AND VIRTUAL COURSES

Homebound Instruction

The School Board maintains a program of homebound instruction for students who are confined at home or in a health care facility for periods that would prevent normal school attendance based upon certification of need by a licensed physician, physician assistant, nurse practitioner, or clinical psychologist.

Credit for the work is awarded when it is done under the supervision of a licensed teacher qualified in the relevant subject areas and employed by the School Board, and there is evidence that the instructional time requirements or alternative means of awarding credit adopted by the School Board have been met.

Virtual Courses

Students may enroll in and receive a standard and verified unit of credit for supervised virtual courses with prior approval of the principal. The superintendent is responsible for developing regulations governing this method of delivery of instruction that include the provisions of 8 VAC 20-131-110 and the administration of required Standards of Learning tests prescribed by 8 VAC 20-131-30. For courses offered for possible high school credit, standard units of credit are awarded for successful completion of such courses when the course is equivalent to that offered in the regular school program and the work is done under the supervision of a licensed teacher qualified in the relevant subject areas. A verified unit of credit may be earned when the student has successfully completed the requirements specified in 8 VAC 20-131-110.

HOMEBOUND INSTRUCTION

Homebound instruction is one of the Special Education services provided by Scott County to those of our students who are temporarily unable to attend school due to physical illness or emotional disorders.

Homebound instruction is provided in an attempt to help the student maintain some contact with the classes he/she is missing. Elementary student usually receive five (5) hours of instruction per week and secondary between five and ten (5 and 10) hours of instruction; that is, providing they are carrying a normal academic load. If the student participates in the allotted hours of instruction, he/she will be counted present on their teacher's roll. Upon successfully completing homebound assignments and accompanying tests, the student will receive credit for the course on his/her permanent record.

To assist with the management of homebound services, a random audit is periodically done to verify the hours submitted by the homebound teacher.

The basis for medical certification for homebound instruction is that the student meets the requirement for acute and chronic illness or extended absenteeism from school due to extended illness/injury, surgery or complications. Acute/chronic health problems require a physician's signature on the physician's certification of "Acute/Chronic Medical Condition Form". Following is Scott County's definition for acute and chronic illness.

Acute - having a rapid onset, severe symptoms, and a short course (less than six weeks duration), not chronic. Examples: surgery, accidents, chicken pox, measles, etc.

Chronic - an illness which has been or is expected to be a condition which affects the student for an extended period of time and which historically is an illness that is not expected to be resolved through regular medical treatment or the passage of time. Examples: asthma, diabetes, cancer, surgeries, hospitalization or complications which may interfere with regular school attendance and may be extended beyond six weeks.

Rules for governing homebound instruction are as follows:

1. Classroom teachers shall be responsible for providing daily assignments, tests, and grading when a student is on homebound instruction for less than six weeks.
2. Homebound instructors shall provide daily assignments, tests, and grades for those students who are on extended homebound instruction (more than six weeks).
3. An adult must be in attendance when the homebound instructor is in the home providing services.
4. A treatment plan specifying a course of treatment leading to eventual return to school must be provided by a qualified psychiatrist or clinical psychologist if a student is suffering from an emotional disorder that precludes their school attendance.
5. Weighted credit will not be awarded for courses taken during summer school or for homebound that extends for more than the semester in which the student is presently enrolled.
6. Homebound students are expected to be in attendance at the appointed time. Homebound hours will not be made up, and a zero will be given for that time period. The only exception will be a medically necessary doctor's visit, in which case a note from the doctor will be required for verification and the student will be expected to notify the Homebound Teacher so as to avoid an unnecessary visit.
7. Students receiving homebound instruction may not work or participate in extra-curricular activities, non-academic activities (such as field trips), or community activities unless these activities are specifically outlined in the student's medical plan of care or the Individualized Education Program (IEP), as applicable.
8. The requested homebound services for students receiving special education services shall be subject to review by the student's IEP Team pursuant to the Individuals with Disabilities Act.

9. Parental permission to contact the treating physician or psychologist must be granted in order for the student to be considered for homebound services.
10. All tests must be administered by homebound teachers. Parents are not to assist with test taking for their children. The homebound teacher will pick up the tests from school, be present during administration, only assist the student with test directions, and deliver the tests back to the school upon completion. If the work assigned while on homebound is not completed, the student will receive an incomplete (I) on their report card. Any child receiving an (I) on their report card will not pass to the next grade.
11. Since homebound instruction is not to supplant school services, if it is necessary to extend homebound instruction beyond the initial time frame or longer than nine weeks, a transition plan or new homebound form is required outlining the following:
 - Name of student
 - Justification for the extension of homebound instruction
 - Additional time homebound instruction is anticipated
 - Signature, date office address, and phone number of the physician or psychologist.

NOTE: Those students who are experiencing mental illness requiring homebound must present a treatment plan from a qualified psychiatrist or psychologist.

NOTE: In the event extended medical leave is recommended by the family physician, a second medical opinion from a physician chosen by the Homebound Director, at no cost to the parent/student, may be requested.

Home-based Instruction:

Services that are delivered in the home setting (or other agreed upon setting) in accordance with the student's Individual Education Program, 504 plan, parent request, or school board approval. Home-based instruction is provided to students who are removed from school by the division for discipline, safety concerns, or other. The services are provided consistent with those for homebound students. The primary distinction is that no medical referral is required and no reimbursement is provided for these services. Home-based instruction must be approved by a committee of three that may be comprised of the following: Superintendent or designee, Personnel Director, Supervisor from the Central Office, Principal/Assistant Principal of school, School Psychologist, or School Social Worker. All evidence of need will be reviewed by the committee prior to approval.

ONLINE COURSES AND VIRTUAL SCHOOL PROGRAMS

The Scott County School Board may enter into contracts, consistent with the criteria approved by the Board of Education, with approved private or nonprofit organizations to provide multidivision online courses and virtual school programs. Such contracts are exempt from the Virginia Public Procurement Act.

Information regarding online courses and programs that are available through the school division is posted on the division's website. The information includes the types of online courses and programs available to students through the division, when the division will pay course fees and other costs for nonresident students, and the granting of high school credit.

Any student enrolled in any online course or virtual program offered by the school division must be enrolled in a public school in Virginia as provided in Va. Code § 22.1-3.1. The student's parent or guardian must give written permission prior to the enrollment of the student in any full-time virtual program offered by the school division.

A student who resides in BLANK school division is not charged tuition for enrolling in any online course or virtual program offered by the school division. However, tuition may be charged to students, except children with disabilities who are enrolled in the division's full-time virtual school program, who do not reside within the boundaries of the school division.

Teachers who deliver instruction to students through online courses or virtual school programs must be licensed by the Board of Education and are subject to the requirements of Policy GCDA Effect of Criminal Conviction or Founded Complaint of Child Abuse or Neglect.

The administrator of a virtual school program must hold an advanced degree from a regionally accredited institution of higher education with educational and work experience in administering educational programs.

For purposes of this policy, the following definitions apply.

"Multidivision online provider" means (i) a private or nonprofit organization that enters into a contract with a local school board to provide online courses or programs through that school board to students who reside in Virginia both within and outside the geographical boundaries of that school division; (ii) a private or nonprofit organization that enters into contracts with multiple local school boards to provide online courses or programs to students in kindergarten through grade 12 through those school boards; or (iii) a local school board that provides online courses or programs to students who reside in Virginia but outside the geographical boundaries of that school division. However, "multidivision online provider" shall not include (a) a local school board's online learning program in which fewer than 10 percent of the students enrolled reside outside the geographical boundaries of that school division; (b) multiple local school boards that establish joint online courses or programs in which fewer than 10 percent of the students enrolled reside outside the geographical boundaries of those school divisions; (c) local school boards that provide online learning courses or programs for their students through an arrangement with a public or private institution of higher education; or (d) local school boards providing online courses or programs through a private or nonprofit organization that has been approved as a multidivision online provider.

"Online course" means a course or grade-level subject instruction that (i) is delivered by a multidivision online provider primarily electronically using the Internet or other computer-based methods and (ii) is taught by a

teacher primarily from a remote location, with student access to the teacher given synchronously, asynchronously, or both.

"Virtual school program" means a series of online courses with instructional content that (i) is delivered by a multidivision online provider primarily electronically using the Internet or other computer-based methods; (ii) is taught by a teacher primarily from a remote location, with student access to the teacher given synchronously, asynchronously, or both; (iii) is delivered as a part-time or full-time program; and (iv) has an online component with online lessons and tools for student and data management.

ADVANCED PLACEMENT CLASSES AND SPECIAL PROGRAMS

Students and their parents are notified of the availability of dual enrollment and advanced placement classes; career and technical education programs, including internships, externships, apprenticeships, credentialing programs, certification programs, licensure programs, and other work-based learning experiences; the International Baccalaureate program and Academic Year Governor's School Programs; the qualifications for enrolling in such classes, programs, and experiences; and the availability of financial assistance to low-income and needy students to take the advanced placement and International Baccalaureate examinations. Students and their parents are also notified of the program with a community college to enable students to complete an associate's degree or a one-year Uniform Certificate of General Studies concurrent with a high school diploma. STUDENT ORGANIZATIONS

Generally

Public school facilities are devoted primarily to instructional programs and school-sponsored activities. Curriculum-related student organizations are an extension of the regular school program. Their function is to enhance the participants' educational experience and supplement course materials. The activities of these organizations should bear a clear relationship to the regular curriculum.

Secondary school students may organize and conduct meetings of noncurriculum-related groups. Any secondary school which permits one or more noncurriculum-related student group to meet on school premises during noninstructional time will provide equal access to any students who wish to conduct a meeting without discrimination on the basis of the religious, political, philosophical, or other content of the speech at such meetings.

Noncurriculum-related student groups may use school facilities provided that

- the group's meetings are voluntary and student-initiated;
- the group is not sponsored by the school, the government, or any government agent or employee;
- agents or employees of the school or government are present at religious meetings only in a nonparticipatory capacity;
- meetings do not materially and substantially interfere with the orderly conduct of educational activities at the school; and
- nonschool persons do not direct, conduct, control, or regularly attend activities of the group.

Meetings of Student Organizations

The principal of each school will determine the times and places which are available for the meetings of student organizations. The principal will also develop procedures for scheduling meetings of student organizations. Meeting times will be limited to non-instructional time.

Faculty Involvement

Curriculum-related student organizations must be sponsored and supervised by one or more school faculty members and approved by the principal. Faculty sponsors will participate in the supervision and direction of all activities of the organization and will attend all meetings and activities.

Noncurriculum-related student organizations do not have a faculty sponsor. However, a member of the school's staff shall attend every meeting or activity of such organizations in a nonparticipatory capacity for purposes of general supervision. The organization is responsible for assuring the presence of a staff member for its meetings.

No school employee will be compelled to attend a meeting of any student organization if the content of such meeting is contrary to the beliefs of that school employee.

Compliance with Law and Policy

Student organizations shall not engage in any activity which is contrary to law, division policy, or school rules; which disrupts or clearly threatens to disrupt the orderly operation of the school; or which would adversely affect the health, safety or welfare of any students or staff members. Failure to comply with these provisions shall be grounds for disciplinary action.

The faculty sponsor/monitor may appeal the principal's decision to the superintendent or designee, by written appeal submitted to the superintendent within ten (10) school days after receipt of the principal's decision. The written appeal shall state the reasons for the decision. The Superintendent, or designee, shall review the appeal and such other information as he or she considers appropriate and give a written decision within fourteen (14) school days after receipt of the appeal. The decision of the superintendent shall be final.

II. Ongoing Review

The principal may take disciplinary action, including revocation of recognition of any student organization, at any time upon his or her own initiative, or on complaint by any student or staff member for good cause. Policy IGDA indicates many examples of good cause. Revocation may be appealed to the superintendent or designee, as provided above.

At any time, the superintendent or the Board may review the recognition of any student organization and revoke the same for good cause. Any such actions by the superintendent or Board shall be final.

This regulation will be implemented in accordance with the Equal Access Act.

ADULT EDUCATION

Adult education programs are offered to those residents of the school division over the age of compulsory school attendance who are not enrolled in the regular public school program, including adult basic education, credit programs, cultural adult education, external diploma programs, general adult education, and high school equivalency programs, and who are functioning below the high school completion level. The School Board seeks to ensure that every individual participating in such a program has the opportunity to earn a high school diploma or pass a high school equivalency examination approved by the Board of Education. Such programs may be conducted solely by the School Board or through a collaborative arrangement between the School Board and other school boards or agencies. Credits and diplomas are awarded in accordance with regulations established by the Board of Education. Additional educational programs for individuals over the age of compulsory attendance also may be offered. Tuition and fees are established by the School Board.

1. the best interests of the student,
2. the educational level, or achievement level, of the student,
3. the availability of space,
4. the best educational climate for learning,
5. the student's best chance for success,
6. Standards of Learning test scores, where available, or other standardized test scores, and

CLASS SIZE

The Scott County School Board assigns licensed instructional personnel in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions, excluding special education teachers, principals, assistant principals, counselors and librarians, that are not greater than the following ratios:

- 24 to one in kindergarten with no class being larger than 29 students; if the average daily membership in any kindergarten class exceeds 24 pupils, a full-time teacher's aide will be assigned to the class;
- 24 to one in grades one, two and three with no class being larger than 30 students;
- 25 to one in grades four through six with no class being larger than 35 students; and

After September 30 of any school year, anytime the number of students in a class exceeds the class size limit established by this policy, the school division will notify the parent of each student in such class of such fact no later than 10 days after the date on which the class exceeded the class size limit. The notification shall state the reason that the class size exceeds the class size limit and describe the measures that the school division will take to reduce the class size to comply with this policy.

In addition, the BLANK School Board assigns instructional personnel in a manner that produces schoolwide ratios of students in average daily memberships to full-time equivalent teaching positions of 21 to one in middle schools and high schools.

When determining the assignment of instructional and other licensed personnel for purposes of this policy, full-time students of approved virtual school programs are not included.

TEXTBOOK SELECTION, ADOPTION, AND PURCHASE

Selection of Textbooks

The School Board may adopt textbooks, including print or electronic media, for student use that serve as the primary curriculum basis for a grade-level subject or course from the list of textbooks approved by the Board of Education. The School Board may also adopt books which are not on the state-adopted list in accordance with the Board of Education regulations.

In approving textbooks, the School Board

- appoints evaluation committees to review and evaluate textbooks,
- gives notice to parents that textbooks under consideration will be listed on the division's website and made available at designated locations for review by any interested citizens,
- creates opportunities for persons reviewing such textbooks to present their comments and observations to the School Board,
- creates procedures to ensure appropriate consideration of citizen comments and observations and
- establishes and makes known selection criteria.

Textbooks Approved by the Board of Education

The Scott County School Board may either enter into written term contracts or issue purchase orders with publishers of textbooks approved by the Board of Education. Such written contracts or purchase orders are exempt from the Virginia Public Procurement Act (Va. Code § 2.2-4300 et seq.) The contract price shall not exceed the lowest wholesale price at which the textbook or textbooks involved in the contract are currently bid under contract anywhere in the United States. If, subsequent to the date of any contract entered into by the School Board, the prices of textbooks named in the contract are reduced or the terms of the contract are made more favorable to purchase anywhere in the United States or a special or other edition of any book named in the contract is sold outside of Virginia at a lower price than contracted in Virginia, the publisher shall grant the same reduction or terms to the School Board and give the School Board the option of using such special or other edition adapted for use in Virginia and at the lowest price at which such special edition is sold elsewhere and the contract shall so state.

Contracts and purchase orders with publishers of textbooks approved by the Board of Education shall require the publisher to furnish an electronic file of the textbook in the National Instructional Materials Accessibility Standards (NIMAS) format that will then be deposited in the National Instructional Materials Access Center (NIMAC) from which accessible versions of the particular textbook may be produced for students with print disabilities, as defined in 20 U.S.C. § 1474. Publishers shall deliver the NIMAS file of the textbook on or before the date of delivery of the regular text version.

Contracts and purchase orders with publishers of textbooks approved by the Board of Education for use in grades 6-12 shall allow for the purchase of printed textbooks, printed textbooks with electronic files, or electronic textbooks separate and apart from printed versions of the same textbook. The School Board may purchase an assortment of textbooks in any of the three forms listed above.

The School Board shall order directly from the respective publishers the textbooks needed to supply the public schools in the school division. The publishers shall ship the textbooks to the School Board. The purchase price of such textbooks shall be paid directly to the publishers by the School Board.

Locally-Approved Textbooks

In approving textbooks that have not been approved by the Board of Education, the School Board will also include a correlation of the content to the Virginia Standards of Learning in the content area and an analysis of strengths and weaknesses of the textbook in terms of instructional planning and support when the textbooks pertain to Virginia Standards of Learning subjects.

The publishers of such textbooks shall

- provide the School Board with certification that the content of the textbook is accurate and
- sign an agreement with the School Board to correct all factual and editing errors found at its own expense.

The purchase of textbooks other than those approved by the Board of Education is not exempt from the Virginia Public Procurement Act.

SUPPLEMENTARY MATERIALS SELECTION AND ADOPTION

Materials used by students under the guidance of teachers to extend, expand, and supplement basal materials constitute an integral part of the instructional program. Supplemental materials are those items which are used to assist the teaching and learning process and include such items as magazines, newspapers, charts, pictures, certain workbooks, kits, videos, film strips, and games. Materials selected for supplemental use relate directly to the established objectives of the course or content area in which they are used.

The school board delegates the responsibility for the selection and use of supplemental materials to the individual schools. Teachers must carefully review materials prior to use and exercise a high degree of professional judgment in their selection and use of supplemental materials to ensure that the use of such materials serves to both support and complement the basic educational objectives within the specific subject areas and classrooms.

2. The teacher shall briefly describe the activity or material in question as the students and their parents will understand its content.
3. Those students opting out shall be allowed to participate in an alternate activity (material, book, etc.) that is as closely related to what the class is covering as is possible, without the aspects of the activity considered offensive. The term computer system includes hardware, software, data, communication lines and devices, terminals, printers, CD-ROM devices, image & document scanners, tape drives, servers, mainframe and personal computers, the Internet and other internal or external networks.

The purpose of telecommunications technology in Scott County Public Schools is to support research, communication, and education and to provide access to unique resources and opportunities for collaborative work. The use of SCPS computer networks, including Internet access, must be in support of education and consistent with the educational objectives of Scott County Public Schools and the Virginia Board of Education.

This policy applies to all users of SCPS electronic information, services, and networks. By using or accessing Division facilities or services, the user agrees to abide by this policy.

In accordance with Va. Code § 22.1-70.2, Scott County Public Schools requires all students/staff to receive NetSmartz Internet safety training or division developed Internet safety training. Internet safety is both taught to and practiced by all students and staff, grades K-12, with special emphasis placed in both the SCPS Grade 5 and Grade 8 curriculum.

Electronic information research skills are now fundamental for productive citizens and employees. Access to the Internet enables students, teachers, and administrators to explore thousands of libraries, databases, bulletin boards, and other resources while exchanging information with people around the world. The Division expects that its teachers will blend thoughtful use of the Internet throughout the curriculum and will provide guidance and instruction to students in its use. As much as possible, access from school to Internet resources should be structured in ways which point students to those which have been evaluated prior to use. While students will be able to move beyond those resources to others that have not been previewed, they will be subject to supervision in an effort to provide Internet use that is particularly suited to learning objectives.

Scott County Public Schools will use a filter which seeks to prevent access to pornography as set out in Va. Code § 18.2-374.1:1 or as defined in 18 U.S.C. § 2256, obscenity as defined by Va. Code § 18.2-372 or 18 U.S.C. § 1460, material which the school division deems to be harmful to juveniles as defined in Va. Code § 18.2-390, material that is harmful to minors as defined in 47 U.S.C. § 254(h)(7)(G), and material that is otherwise inappropriate for minors. However, it is recognized that this filter alone is no guarantee that users will not be able to find Internet resources which are profane, offensive, obscene, or otherwise objectionable. The ultimate responsibility for appropriate use of Internet resources lies with the user. Parents and guardians may request alternative activities not requiring Internet use for their minor children.

Students utilizing SCPS-provided Internet access must first have the permission of and must be supervised by the Division's professional staff. Students utilizing school-provided Internet access are responsible for good behavior on-line just as they are in a classroom or other area of the school. The same general rules for behavior and communications apply. To remain eligible as users, students' use must be in support of and consistent with the educational objectives of the Division. Access is a privilege, not a right. Access requires responsibility.

Computer System Use-Terms and Conditions.

1. Acceptable Use. Scott County Public Schools provides employees and students with access to its telecommunication systems. The purpose of these systems is not general access but has a more specific limited educational purpose. This purpose includes use of telecommunication systems for professional SCS business, classroom instructional activities, professional and career development and to further educational personal goals consistent with the school division mission, goals, and objectives and school policies. Uses which might be acceptable on a user's personal account on another system may not be acceptable on these limited purpose systems. Access to the Division's computer system shall be for the purposes of education or research and be consistent with the educational objectives of the Division or for legitimate school business.

Internet Guidelines:

The school division will provide access to the Internet based on the following guidelines:

1. In elementary schools (K-4), teachers will actively supervise student use of the Internet. Access is password driven. Teachers will make every effort to ensure that students are directed to sites with only age- and topic-appropriate material. Best teaching practice recommends teachers bookmark or use portals to direct usage.
2. In upper elementary school (5-6), teachers will supervise and model appropriate use of the Internet. Students will continue to have Internet access under direct teacher supervision; however, students will, also, experience guided practice leading towards gaining skills to become an independent, responsible user of the Internet. Teachers will model skills needed to search for information within an area of study, to filter information for credibility and worth, and to recognize areas of inappropriate information sources or access. Teachers will explore an Internet site before directing students to that site. Teachers will make every effort to ensure that students are directed only to sites with age- and topic-appropriate material and resources.
3. In middle school (7-8), teachers will provide guided practice and model appropriate use of the Internet. Teachers will supervise student initiated information search activities and provide support for students as they begin to assume responsibility for becoming independent users of the Internet. Teachers will make every effort to ensure that students explore only sites with age and topic-appropriate material and resources.
4. In high school (9-12), students will participate in independent Internet use with teachers assuming less of a monitoring role and more of an advisory role.

Any violation of these regulations shall result in loss of computer system privileges and may also result in appropriate disciplinary action, as determined by School Board policy, or legal action.

Any violation of Division policy and rules may result in immediate termination of Division-provided access to the Internet. Additional disciplinary action may be determined at the building level in keeping with existing procedures and practices regarding inappropriate conduct. When and where applicable, law enforcement agencies may be involved.

The Scott County School Board makes no warranties of any kind, neither expressed nor implied, for the Internet access it is providing. The Division will not be responsible for any damages users suffer, including--but not limited to--loss of data resulting from delays or interruptions in service; the accuracy, nature, or quality of information stored on Division diskettes, hard drives, or servers; the accuracy, nature, or quality of information gathered through Division-provided Internet access; personal property used to access Division computers or networks or for Division-provided Internet access; nor for unauthorized financial obligations resulting from Division-provided access to the Internet.

**LETTER TO PARENTS:
Acceptable Use Policy for Electronic Information, Services, and Networks**

Dear Parent/Guardian:

The Scott County School Board offers your child the use of electronic communications through the Scott County School Division's computer system. Your child will be able to communicate with other schools, colleges, organizations and individuals around the world through the Internet and other electronic information systems/networks.

Part of the School Division's responsibility in preparing students for the 21st century is to provide them access to the tools they will be using as adults. The Internet will likely be one of these tools. Through the Division's computer system your child will have access to databases, libraries and computer services from all over the world. We accept the responsibility of teaching your child about his/her role as a "network" citizen and the code of ethics involved with this new community.

With this educational opportunity also comes responsibility on the part of your child. It is important that you and your child read the enclosed Division policy, administrative regulation and agreement form and discuss these requirements. The Division takes precautions to prevent access to inappropriate material. However, it is impossible to control access to all material and a user may access inappropriate material.

In order for your child to take advantage of this educational opportunity, your authorization is needed. Attached to this letter are the Acceptable Computer System Use Policy and Regulation (GAB/IBEA) and the Acceptable Computer System Use Agreement which both you and your child must sign before your child may use the computer system. Please review these materials carefully with your child before signing the required agreement.

Sincerely,

SOCIAL MEDIA GUIDELINES

In accordance with GAB/IIBEA, Acceptable Computer System Use Policy, Scott County Public Schools provides a computer system for technological communications, including the Internet, to promote educational excellence by facilitating resource sharing, innovation and communication. Scott County Public Schools has no legal responsibility for content of or to regulate/review off-campus Internet activity or e-communications. Internet activity is defined as blogs, IM, Chat social networks and Web sites including but not limited to Facebook, Flickr, LinkedIn, MySpace, Second Life, Twitter, Wikis, online forums, virtual worlds, YouTube, Chat Room, other emerging sites. E-communication acts of employees are defined as texting and/or IM. However, SCPS reserves the right to discipline employees for actions taken off-campus, which would violate the aforementioned policy and plan stipulations if occurring on-site, if such actions adversely affect the safety, well-being or performance of students while in school, on school buses, at school activities or coming to and from school; if such actions threaten violence against a student or employee, if such actions violate local, state or federal law, or School Board policies or regulations, or if such actions disrupt the learning environment, administration, or orderly conduct of the school. Employees will be held responsible for their disclosure, whether purposeful or inadvertent, of confidential or private information, information that violates the privacy rights or other rights of a third party. When information is posted on the Internet, it is posted for public display. As such, the SCPS employee has no expectation of privacy for any information he posts on the Internet. Consequently, the division may take disciplinary measures, up to and including dismissal, for employee off-campus Internet and/or e-communication activities which are inconsistent with the professional and ethical standards expected of SCPS employees. In accordance with GCPD Professional Staff Discipline and GCPF Suspension of Staff Members, the division may take disciplinary measures, up to and including dismissal, for employee off-campus Internet and e-communication activities.

FIELD TRIPS

Field trips are off-campus instructional activities. Field trips can provide excellent educational experiences for students by enriching the curriculum and by making classroom learning experiences more meaningful. To be educationally beneficial, a field trip requires thoughtful selection, careful advance preparation, and opportunities to assimilate the experience during and after the trip. Teachers will plan advance activities that prepare students for the trip and follow-up activities that assist students in summarizing, applying, and evaluating information learned on the trip.

The following factors should be considered in proposing and approving field trips:

- The value of the trip to the particular class
- The relationship of the field trip to a particular aspect of the curriculum
- The distance travelled
- The time away from the regular instructional program
- The availability of transportation

No student will be denied the opportunity to participate in a field trip because of a lack of funds.

Trips will be approved by the superintendent or designee pursuant to regulations developed by the superintendent. Approval must be obtained before commitments are made to students, parents, or commercial establishments. The superintendent will make an annual report to the School Board on field trips taken.

Trips for activities governed by the Virginia High School League do not require approval on a trip-by-trip basis. Parental permission for such trips may be obtained for the entire athletic season or school year.

The Scott County School Board does not endorse or accept responsibility for any privately sponsored trips for students or any student trips which are not part of the instructional program. Employees are not permitted to solicit students for such trips. Employees who are involved with such trips must emphasize to any interested student/parent that such trips are strictly private enterprises.

FIELD TRIPS

In planning field trips, teachers should focus on keeping the trip as an educational experience and extension of the classroom instructional program. Teachers should be mindful that field trips cause disruptions to the student's other classes and ensure that time lost from other classes do not become excessive.

All special education students are eligible for the same field trips as those in the general student population. Accommodations for special education and/or physically disabled students must be arranged before any request will be approved. If a student is to be excluded from a field trip for disciplinary reasons, it will be with the principal's recommendation and central office approval. Disciplinary measures on a field trip are the same for students as during the regular school day. Provisions must be made for students choosing not to participate in a field trip that will ensure their educational activities continue on a normal basis.

Only designated chaperones are allowed to ride a bus, other parents/relatives must provide their own transportation and any related expenses (not to be included with any student discounts such as group tickets and room reservations).

Chaperones other than those employed by the school system must submit to a criminal background check at their expense. This provision is for the protection and safety of all children. Students must be properly supervised at all times, including free time. Lodging must include one (1) chaperone per six (6) students per room.

The faculty sponsor shall submit a written request to the principal and superintendent, or designee, for their approval before soliciting student and parental support or conducting any fund-raising for the trip. Before submitting any requests, the faculty sponsor shall confer with the building principal to discuss the appropriate means of raising the necessary monies to cover the expenses of the trip. Financial burdens will not be placed upon the student(s) or school. Proper consideration must be given when determining such factors.

Chartered buses may be hired when school-owned buses are not available or it is deemed to be in the best interest of the students. The use of chartered buses greatly increases the cost and could possibly be the cause of some children being financially unable to go.

No student shall be denied the privilege of going on a school-sponsored field trip because of insufficient funds. Each school PTO or community civic group should be contacted regarding financial assistance for indigent students. Any assistance would help defray the cost such as travel, food, and lodging.

Private cars may be used to transport students on field trips only with prior approval of the superintendent, or designee, with the assurance that insurance requirements have been met.

Request for overnight field trips must be submitted to the superintendent or his designee, three (3) months prior to planned trip. The superintendent or designee, presents the request to the School Board for final approval/disapproval. The school system's insurance will not cover any trip without proper documentation and approval from the school board.

Class field trips must not exceed three (3) school days. If additional days are needed, plans should include Saturday and Sunday. Overnight field trips by clubs and/or civic groups must be taken outside the regular school schedule from Friday through Sunday. All overnight field trips are to be scheduled after the Standards of Learning Test have been administered.

The Scott County School Board recognizes the importance of educational field trips in the instructional program, however we want to ensure the safety of all involved.

COMMUNITY RESOURCE PERSONS/SCHOOL VOLUNTEERS

The Scott County School Board supports and encourages the active participation of parents and members of the community in providing and extending educational opportunities for children. The involvement of parents, volunteers and others in the community who can serve as a resource to schools is a fundamentally important component of successful school programs. The administration of each school will direct the activities of parents, volunteers and other community resources at the building level.

SCHOOL VOLUNTEERS

Any volunteer or non-school employee who is under contract must have a background check. It will be the responsibility of each participating school to obtain the appropriate documentation. A file will be maintained at each school and at the School Board Office on the person(s) with whom this policy applies. The cost of the background check is \$40. Only cash or money orders will be accepted, no checks.

GUIDANCE AND COUNSELING PROGRAM

School Guidance and Counseling Services

Each school provides the following guidance and counseling services to all students:

- Academic guidance which assists students and their parents to acquire knowledge of the curricula choices available to students, to plan a program of studies, to arrange and interpret academic testing and to seek post-secondary academic opportunities.
- Career guidance which helps students to acquire information and plan action about work, jobs, apprenticeships and post-secondary educational and career opportunities.
- Personal/social counseling which assists a student to develop an understanding of themselves, the rights and needs of others, how to resolve conflict and to define individual goals, reflecting their interests, abilities and aptitudes. Information and records of personal/social counseling will be kept confidential and separate from a student's educational records and not disclosed to third parties without prior parental consent or as otherwise provided by law. Parents may elect, by notifying their child's school in writing, to have their child not participate in personal/social counseling.

No student is required to participate in any counseling program to which the student's parents object.

The guidance and counseling program does not include the use of counseling techniques which are beyond the scope of the professional certification or training of counselors, including hypnosis, or other psychotherapeutic techniques that are normally employed in medical or clinical settings and focus on mental illness or psychopathology.

Parents are notified annually about the counseling programs which are available to their children. The notification will include the purpose and general description of the programs, information regarding ways parents may review materials to be used in guidance and counseling programs at their child's school and information about the procedures by which parents may limit their child's participation in such programs.

Employment Counseling and Placement Services

The School Board provides to secondary students employment counseling and placement services to furnish information relating to the employment opportunities available to students graduating from or leaving the schools in the school division. Such information includes all types of employment opportunities, including, but not limited to, apprenticeships, the military, career education schools and the teaching profession. In providing such services, the School Board consults and cooperates with the Virginia Employment Commission, the Department of Labor and Industry, local business and labor organizations and career schools.

If the School Board provides access to one or more of its high schools and contact with such high school's student body or other contact with its high school students during a school or school division-sponsored activity to persons or groups for occupational, professional or educational recruitment, it provides equal access on the same basis to official recruiting representatives of the military forces of the Commonwealth and the United States.

COLLEGE AND CAREER READINESS

Each middle and secondary school provides for the early identification and enrollment of students in a program with a range of educational and academic experiences related to college and career readiness in and outside the classroom, including an emphasis on experiences that will motivate disadvantaged and minority students to prepare for a career or postsecondary education.

Each elementary, middle, and secondary school provides for the identification by all students of personal interests and abilities to support planning for postsecondary opportunities and career preparation. Such support includes provision of information concerning exploration of career cluster areas in elementary schools, and course information and planning for college preparation programs, opportunities for educational and academic experiences in and outside the classroom, including internships and work-based learning, and the multiple pathways to college and career readiness in middle and high school.

Beginning in the elementary school years, students explore the different occupations associated with career clusters and select an area or areas of interest. Students begin the development of an academic and career plan portfolio (ACPP) in elementary grades to include information about interests, values such as dependability and responsibility, and skills supporting decisions about their future interests and goals. The information contained in the ACPP serves as the foundation for creating the Academic and Career Plan (ACP) in grade 7.

In middle school, students complete a locally selected career interest inventory and select a career pathway. To support development of the ACP, students complete at least one course in career investigation selected from the career and technical education state-approved list, or a school division-provided alternative means of delivering the career investigation course content, provided that the alternative is equivalent in content and academic rigor.

The School Board may require such courses in career investigation at the high school level as it deems appropriate, subject to approval by the Board of Education. The School Board may require such courses in career investigation at the elementary school level as it deems appropriate.

All schools continue development of a personal ACP with each seventh-grade student with completion by the end of the fall semester of the student's eighth-grade year. The components of the ACP include the student's program of study for high school graduation and a postsecondary career pathway based on the student's academic and career interests. In high school, a career-related learning experience is chosen by the student and documented in the ACP.

The ACP is developed in accordance with guidelines established by the Board of Education and signed by the student, student's parent or guardian, and school official or officials designated by the principal. The ACP is included in the student's record and is reviewed and updated annually. Lists, as compiled annually by the Department of Education and provided to the School Board, of 1) the top 100 professions in Virginia by median pay and the education, training and skills required for each such profession and 2) the top 10 degree programs at institutions of higher education in Virginia by median pay of program graduates are included as part of each student's ACP.

Beginning in the middle school years, students are counseled on opportunities for beginning postsecondary education and opportunities for obtaining industry certifications, occupational competency credentials, or professional licenses in a career and technical education field prior to high school graduation as described in Policy LEB Advanced/Alternative Courses for Credit. Such opportunities include access to at least three

Advanced Placement (AP), International Baccalaureate (IB), or Cambridge courses or three college-level courses for degree credit pursuant to 8 VAC 20-131-100. Students taking advantage of such opportunities are not denied participation in school activities for which they are otherwise eligible. Wherever possible, students are encouraged and afforded opportunities to take college courses simultaneously for high school graduation and college degree credit (dual enrollment), under the following conditions:

- a. Written approval of the high school principal prior to participation in dual enrollment must be obtained;
- b. The college must accept the student for admission to the course or courses; and
- c. The course or courses must be given by the college for degree credits (no remedial courses will be accepted).

HOMEWORK

Homework provides an essential communication link between the school and the home. One measure of a program or course is the quality of the work done at home by the student. A strong home-school partnership, with many lasting benefits for the individual student and the student's family, can be greatly enhanced by a sound program of homework. In addition, homework should be an important tool in developing independent thought, self-direction and self-discipline. It assists the student in developing good work habits and in the wise use of time.

Guidelines for homework include:

- Homework should be assigned after introduction and thorough explanation of the skills necessary to successfully complete the assignment.
- Homework should be assigned in such a manner that it will be clearly understood by all students.
- Homework should serve a valid purpose and be closely related to classroom activities.
- A student's access to resource materials should be considered when making assignments.
- Homework should be evaluated promptly and returned to the student. Appropriate rewards should be given to those students who successfully complete assigned work. Effort and competency should be recognized and rewarded.
- Teachers should seek to determine the cause if a student regularly fails to complete assigned work. Teachers should not avoid giving homework because they believe students will not do the work.
- Excessive homework, like the absence of homework, should be avoided.
- Homework should not be used for disciplinary purposes
- Teachers and administrators should take appropriate steps to communicate with parents regarding the division's homework policy and to solicit their support.

ACCELERATION

The curriculum and schedule of elementary, middle and high schools provides flexibility in placing certain students in programs or subjects normally considered above their grade level. Scheduling eighth grade students into subjects above the normal grade level is done with counseling based on evidence of ability, past scholastic achievement and cooperation of the individual student and his parents or guardian.

When students below the ninth grade successfully complete courses offered for credit in grades 9 through 12, credit is counted toward meeting the standard units required for graduation provided the courses are equivalent in content and academic rigor as those courses offered at the secondary level. To earn a verified unit of credit for these courses, students below ninth grade level must meet the same requirements applicable to other students.

In any high school credit-bearing course taken in middle school, a parent may request that the grade be omitted from the student's transcript and the student not earn high school credit for the course. Such request shall be made in the format and by the deadline set forth in regulations developed by the superintendent.

- If not taken over – the failing grade is calculated into the G.P.A.

Grading or evaluation of a student is used to indicate achievement and should not be used as a disciplinary measure. No points may be subtracted from a student's recorded grade for any reason, unless an error has been made in arriving at this grade.

Elementary permanent records shall be marked with letters; and the report card shall be marked with letters, also, with the exception of the exam column where a figure shall be used.

A grade, once recorded on permanent records, cannot be changed except in case of an error; then the change must be approved by the teacher or principal.

“Accelerated course” means a course that can be completed in less than the normal amount of time; the process of progressing through the school grades at a rate faster than that of the average student, either by skipping grades or by rapidly mastering the work of one course and moving on to the next higher course.

“Advanced course” means a course that presents material and concepts beyond the introductory or the elementary; a course that carries on from an introductory or elementary course given in the same school.

“Advanced Placement (AP) course” means a course with a syllabus equivalent to the relevant Advanced Placement syllabus disseminated by the Educational Testing Services.

*In order for a student to receive a weighted grade in either an advanced class, he/she must earn an unweighted average of at least 70.

*Report cards shall reflect actual grades earned for each grading period. Weighted grade points will be added to the final grade.

*The transcript of the student shall reflect the actual average unless it is an Advanced Course. Weighted class averages shall be reflected in the final grade shown on the transcript.

*Grades for dual enrollment classes, in which students receive college credit, will be turned in to the college or university as their actual (non-weighted) average. Dual enrollment grades will be submitted to the college or university using their grading scale.

The weighted scores shall be awarded as follows:

Advanced Courses 5 points to final average

*Other classes may be added to the list of Advanced classes as they become available, and as approved by the Superintendent of Schools.

*Weighted credit will not be awarded for courses taken during summer school or for homebound that extends for more than the semester in which the student is presently enrolled.

*Advanced courses for students with disabilities – taken in a regular classroom (mainstreaming and inclusion) will receive advance credit listed. Those taught by the Special Education Teacher will not; as the nature of the course is too significantly altered to be commensurate, unless the teacher is endorsed in the area and all curriculum requirements are met.

DROPPING/ADDING CLASSES

Students will have five (5) days to drop any scheduled class(s) if another class is available.

Any extenuating circumstances beyond five (5) days may be reviewed by a committee consisting of the principal, the teacher whose class is being dropped, and the teacher whose class is being added.

EVALUATION AND PROMOTION

The evaluation of an instructional program is essential in determining which practices are best to facilitate learning.

Evaluation of student progress shall be the prerogative of each teacher.

A student in Grades 1-3 will be promoted if they pass Mathematics, Reading, and English.

Schools shall use the Virginia Assessment program test results in Kindergarten through eighth grade as part of a set of multiple criteria for determining the promotion or retention of students. This assessment in grades K-2nd is the PALS. The School-Based Team, including the parent, shall meet on each individual student who is in danger of failing. All test assessments are to be reviewed with the parent in determining whether a child passes or fails.

In Grades 4th and 5th, a student will be promoted if they pass four or more of the core subjects (Reading, English, Math, Science, or Social Studies).

In Grades 6th and 7th, a student will be promoted if they pass three or more of the core subjects (English, Math, Science, or Social Studies).

SOCIAL PROMOTION

Social Promotion - The following guidelines will be followed when considering social promotion or placement in another grade or school.

- A. If a child is being considered for placement in another grade within the same school, the School-Based Team or Child Study Committee, if in Special Education, should meet and make a recommendation to the building principal and the homeroom/grade level teacher. These considerations should take place in the spring of each school year. Placement is the responsibility of the building principal/grade level teacher.
- B. If a child is being considered for placement in another grade in another school, the School-Based Team or Child Study Committee, if in Special Education, will meet and make a recommendation to the building principal. The principal will approve/deny this request. If approved by the principal, it must be sent to the central office for approval by the appropriate committee. All requests for placement from one school to another must take place in the spring. The only exception to this rule would be in the case of a transfer student. Placement of the student is the responsibility of the central office committee.

*NOTE: The School-Based Team consists of professionals (teachers, administrators, specialists, a parent, and student as appropriate) to meet and discuss any aspect of the child's education (academic, behavior, discipline, social, etc.). The Child Study's composition consists of the same members identified above including at least one special education teacher. Members may serve on both teams.

THE VIRGINIA ASSESSMENT PROGRAM AND GRADUATION REQUIREMENTS

I. Generally

The Board of Education has established educational objectives known as the Standards of Learning (SOLs), which form the core of Virginia's educational program, and other education objectives, which together are designed to ensure the development of the skills that are necessary for success in school and in preparation for life in the years beyond.

The Scott County School Board has developed and implemented a program of instruction that is aligned to the Standards of Learning and that meets or exceeds the requirements of the Board of Education. It awards diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who meet the requirements prescribed by the Board of Education and meet such other requirements as are prescribed by the school board and approved by the Board of Education.

The Scott County School Board awards diplomas and certificates in accordance with state laws and regulations. The requirements for a student to earn a diploma and graduate from high school are those in effect when the student enters ninth grade for the first time.

Virginia Assessment Program

In kindergarten through eighth grade, where the administration of Virginia Assessment Program tests are required by the Board of Education, each student is expected to take the tests following instruction. Students who are accelerated take the test aligned with the highest grade level, following instruction in the content. No student takes more than one test in any content area in each year, except in the case of expedited retakes as provided for in 8 VAC 20-131-30. Schools use the test results in kindergarten through eighth grade as part of a set of multiple criteria for determining the promotion or retention of students.

Each student in middle and secondary school takes all applicable end-of-course SOL tests following course instruction. The superintendent certifies to the Department of Education that the division's policy for dropping courses ensures that students' course_schedules are not changed to avoid end-of-course SOL tests. Students who achieve a passing score on an end-of-course SOL test will be awarded a verified unit of credit in that course in accordance with 8 VAC 20-131-110. Students may earn verified credits in any courses for which end-of-course SOL tests are available. Students are not required to take an end-of-course SOL test in an academic subject after they have earned the number of verified credits required for that academic content area for graduation unless such test is necessary in order for the school to meet federal accountability requirements. Middle and secondary schools may consider the student's end-of-course SOL test score in determining the student's final course grade.

Participation in the Virginia Assessment Program by students with disabilities is prescribed by provisions of their Individualized Education Program (IEP) or 504 Plan. All students with disabilities are assessed with appropriate accommodations and alternate assessments where necessary.

Any student identified as an English Learner (EL) participates in the Virginia Assessment Program. A school-based committee convenes and makes determinations regarding the participation level of EL students in the Virginia Assessment Program. In kindergarten through eighth grade, EL students may be granted a one-time exemption from SOL testing in the areas of writing, and history and social science.

Definitions

Authentic Performance Assessment

An “Authentic Performance Assessment” is a test that complies with guidelines adopted by the Board of Education that requires students to perform a task or create a product that is typically scored using a rubric.

Standard Unit of Credit

A “standard unit of credit” or “standard credit” is a credit awarded for a course in which the student successfully completes 140 clock hours of instruction and the requirements of the course. A standard unit of credit may be awarded based on a waiver of the 140 clock hour requirement as provided in Policy IKFD Alternative Paths to Attaining Standard Units of Credit.

Verified Unit of Credit

A “verified unit of credit” or “verified credit” is a credit awarded for a course in which a student earns a standard unit of credit and completes one of the following:

1. Achieves a passing score on a corresponding end-of-course SOL test.
2. Achieves a passing score on an additional test, as defined in 8 VAC 20-131-5, as a part of the Virginia Assessment Program.
3. Meets the criteria for the receipt of a locally awarded verified credit when the student has not passed a corresponding SOL test.
4. Meets the criteria for the receipt of a verified credit in history and social science by demonstrating mastery of the content of the associated course on an authentic performance assessment that complies with guidelines adopted by the Board of Education.
5. Meets the criteria for the receipt of a verified credit for English (writing) by demonstrating mastery of the content of the associated course on an authentic performance assessment that complies with guidelines adopted by the Board of Education.

Students may also earn verified credits by taking alternative tests to the SOL assessment. Such tests may only be those approved by the Virginia Board of Education, and the student may earn verified credits only by achieving that score established by the Board of Education.

Virginia Assessment Program

The “Virginia Assessment Program” is a system used to evaluate student achievement that includes SOL tests and additional tests that may be approved from time to time by the Board of Education.

3. Modified Standard Diploma

The Modified Standard Diploma is intended for certain students at the secondary level who have a disability and are unlikely to meet the credit requirements for a Standard Diploma. Eligibility and participation in the program are determined by the student's IEP team and the student, when appropriate. Decisions of eligibility and participation may be made at any point after the student's eighth grade year. Written consent from parent/guardian must be obtained for a student to choose this diploma program.

NOTE: The Modified Standard Diploma will not be an option for students with disabilities who enter the ninth grade for the first time beginning in 2013-2014. [Credit accommodations](#) allow students with disabilities who previously would have pursued a Modified Standard Diploma to earn a Standard Diploma.

The student must:

- be allowed to pursue a Standard or Advanced Studies Diploma at any time throughout his or her high school career;
- not be excluded from courses and tests required to earn a Standard or Advanced Studies Diploma; and
- pass literacy and numeracy competency assessments as prescribed by the Board;
- For students who entered the ninth grade prior to 2000-01, the literacy and numeracy competency assessments were the reading and mathematics subtests of the LPT.

- For students who entered the ninth grade in 2000-01 and beyond, the literacy and numeracy competency assessments are the eighth-grade English Reading test and the eighth-grade Mathematics SOL test (Board action – November 30, 2000).
- The Board also approved four additional substitute assessments to satisfy the literacy and numeracy requirements for students pursuing a Modified Standard Diploma.

NOTE 1

- Courses completed to satisfy this requirement shall include content from among applications of algebra, geometry, personal finance and statistics in courses that have been approved by the Board.

NOTE 2

- Courses complete shall include content from at least two of the following: applications of earth science, biology, chemistry, or physics in courses approved by the Board.

NOTE 3

- Courses completed to satisfy this requirement shall include one unit of credit in U.S. and Virginia History and one unit of credit in U.S. and Virginia Government in courses approved by the Board.

NOTE 4

- Courses to satisfy this requirement shall include a least two sequential electives in the same manner required for the Standard Diploma.

Electives

- **Sequential Electives** – Effective with the graduating class of 2003, students who wish to receive a Standard or Modified Standard Diploma must successfully complete two sequential electives. On February 5, 2002, the Board of Education approved [Guidelines for Sequential Electives for the Standard and Modified Standard Diploma](#) (PDF).
 - Sequential electives may be in any discipline as long as the courses are not specifically required for graduation.
 - Courses used to satisfy the one unit of credit in a fine arts or career and technical education course may be used to partially satisfy this requirement.
 - For career and technical education electives, check with the Office of Career and Technical Education at (804) 225-2051.
 - An exploratory course followed by an introductory course may not be used to satisfy the requirement.
 - An introductory course followed by another level of the same course of study may be used.
 - Sequential electives do not have to be taken in consecutive years.
- **Fine Arts and Career and Technical Education** – The Standard, Advanced Studies, and Modified Standard Diplomas each contain a requirement for one standard unit of credit in Fine Arts or Career and Technical Education. The Standards of Accreditation do not require that courses used to satisfy the requirement of Fine Arts or Career and Technical Education be approved by the Board. Therefore, local school officials should use their own judgment in determining which courses students take to satisfy this requirement.

4. Special Diplomas

A Special Diploma (Individualized Education Plan - IEP) will be awarded to each disabled student who successfully completes the requirements set forth in his/her IEP, but does not meet the requirements for other diplomas. The IEP Team must take into consideration transition requirements as set forth in the regulations for all students with disabilities prior to graduation. Consideration must be given to the direction that each student and their parents have chosen, whether academic or vocational. Students pursuing a vocational track should either have a vocational completer or work experience depending on the type of special education program identified in the IEP, taking into consideration the student's ability level.

The school board will notify the parent of students with disabilities who have an IEP and who fail to meet the requirements for graduation of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Va. Code § 22.1-213 et seq.

5. Certificates of Program Completion

A Certificate of Program Completion will be awarded to any student who completes a prescribed program of studies defined by the local school board but who is not eligible to receive a standard, advanced studies, modified standard, special, or general achievement diploma.

The school board will notify the parent of students who fail to graduate or who fail to achieve the number of verified units of credit required for graduation as provided in the Standards for Accreditation and who have not reached 20 years of age on or before August 1st of the school year of the right to a free public education. If the student who does not graduate or achieve such verified units of credit is a student for whom English is a second

language, the school board will notify the parent of the student's opportunity for a free public education in accordance with Va. Code § 22.1-5.

6. General Educational Development (GED)

A. Generally

The Board of Education has established a program of testing for general educational development (GED) through which persons may earn a high school equivalency certificate or a General Achievement Diploma. The following persons may participate in the testing program:

- persons who are at least 18 years of age and not enrolled in public school or not otherwise meeting the school attendance requirements set forth in Va. Code § [22.1-254](#); (*under certain circumstances consistent with Va.Code§22.1-254 and 22.1-254.2, the age limit may be lowered to 16.*)
- persons 16 years of age or older who have been instructed by their parents in their home pursuant to Va. Code §[22.1-254.1](#) and who have completed such home school instruction; persons who have been excused from school attendance pursuant to subsections B and C of Va. Code § [22.1-254](#); persons for whom an individual student alternative education plan has been granted pursuant to subsection D of Va. Code § [22.1-254](#); and

- persons required by court order to participate in the testing program.

Under no circumstances will anyone under the age of 16 be eligible for the testing program.

Only those entities designated by the Department of Education as official Virginia GED testing centers will determine whether an individual is eligible to take GED tests. GED tests will be administered only at official Virginia GED testing centers or addendum test sites that have been approved by the Virginia GED Administrator and the GED Testing Service.

Official test scores may be accepted from an approved state agency, an official jurisdiction responsible for overseeing GED testing, or an official GED testing center outside of Virginia.

An individual may take the full battery of tests up to three times during a calendar year. Test scores may be combined in accordance with GED Testing Service policy.

B. General Achievement Diploma

A General Achievement Diploma is intended to provide a diploma option for individuals who leave high school without a diploma. It should not be a first option for high school students. A General Achievement Diploma will be awarded to eligible candidates who satisfy the following requirements.

In order to be eligible for a General Achievement Diploma, an individual must meet one of the following criteria:

EARLY GRADUATION REQUIREMENTS

A student who is or will be 18 by the end of the first semester of their senior year may make application for early graduation providing he/she has completed all of the necessary paperwork as required below. Applications should be received in the guidance office of each high school prior to the start of the school year. No applications will be considered after classes/school has begun.

A committee of three made up of the school's principal or his/her designee, guidance counselor, and one representative from the Central Office will determine early graduation upon reviewing all required paperwork. Paperwork required is as follows:

- a. request in writing signed by student, parent, guidance counselor, and principal
- b. transcript of high school credits
- c. list of credits still needed for graduation
- d. other paperwork as requested

LOCALLY AWARDED VERIFIED CREDITS

Generally

The Scott County School Board awards verified credits in accordance with Virginia law and Virginia Board of Education regulations.

To be eligible for locally awarded verified credits as credit accommodations, students with disabilities must meet all criteria established by Virginia law or regulation and eligibility for such credit accommodations must be established in the student's Individualized Education Program (IEP) or Section 504 plan.

Review Panels

The Scott County School Board appoints review panels comprised of at least three educators to consider evidence of the student's achievement. Different panels may be appointed for individual schools or groups of schools.

The review panel reviews information which provides evidence of the student's achievement of adequate knowledge of the Standards of Learning content. The panel has discretion in determining the information it considers. That information may include, but is not limited to, results of classroom assessments, divisionwide exams, course grades and additional academic assignments (e.g. papers, projects, essays or written questions) as the panel deems appropriate.

Based on the evidence it reviews, the review panel may:

- award the verified credit;
- deny the verified credit;
- suggest participation in a remedial program and retesting; or
- make additional academic assignments prior to determining whether to award the verified credit.

The decision of the review panel is final.

REMEDIATION RECOVERY PROGRAM

The Scott County School Board supports efforts to provide instructional support to those students who have demonstrated a need for such support by their failure to pass certain Standards of Learning (SOL) assessments. Therefore, in kindergarten through grade 12, students may participate in a remediation recovery program as established by the Board of Education in English (reading) or mathematics or both.

HONORS, AWARDS, AND CLASS RANK

Awards that reward excellence in scholarship in each area of the curriculum and as a whole should be given on the high school level. Honor rolls for both high school and elementary school are to be established for each grading period, posted at school and published whenever possible, as follows:

All A's at each 9-weeks grading period, 1st semester, 2nd semester, or yearly average constitutes 1st Honor Roll for those time periods.

All A's & B's at each 9-weeks grading period, 1st semester, 2nd semester, or yearly average constitutes 2nd Honor Roll for those time periods.

The National Honor Society only recognizes middle school and high school students as National Honor Society members. A 90 average is required.

Elementary schools may join the National Elementary Honor Society. Membership to this organization is strictly optional.

Awards and honors in extracurricular activities--such as, dramatics, forensics, athletics--are approved; and these awards and honors are to follow rules and regulations of the Virginia High School League.

Any new rewards or honors being bestowed by an organization or persons must be approved by the principal before being bestowed.

Class rank will be established after the 3rd nine-week grading period of the year in which a student is scheduled to graduate. This will be done by averaging all courses taken by the student during his or her 9th - 12th grade years (and those required for graduation but taken during the 8th grade year). In order to receive class rank, the student must attend a Scott County High School three (3) semesters prior to graduation. During this time, homebound instruction does not count toward valedictorian or salutatorian ranking when students on homebound receive modified instruction and/or instructional time. Any student who is pursuing an IEP or a Modified Standard Diploma will not be ranked. Those students ranking one and two after the 3rd nine-week grading period of their graduating year will be designated as valedictorian and salutatorian respectively. Students averaging 90 or above in the aforementioned will be designated as honor students at graduating exercises.

In order for a transfer student to receive a weighted grade (toward class ranking), the course must be recognized by Scott County Schools and listed in the Administrative Regulations Manual as a course deserving of advanced or honors weight.

Nine-Weeks Exam Policy

Scott County Public School policy dictates that all students in grades 9-12, where credit is given for graduation requirements, will be given an appropriate and comprehensive exam at the end of each nine weeks. The examination will count as 10% of the student's 9 weeks average.

TESTING PROGRAMS

A program of standardized testing prescribed by the Virginia Department of Education is administered annually. Standardized tests are administered according to state and local directives.

In administering tests or other assessment instruments, School Board employees do not require any public school students being tested to disclose their race or ethnicity on such tests. School division personnel, however, may obtain such information from a student's permanent record and place the information on the test or assessment.

No student or his parent is required to disclose information related to the student's race or ethnicity unless (i) the student or his parent is given an option to designate "other" for the student's race or ethnicity or (ii) such disclosure is required by federal law.

TEACHING ABOUT CONTROVERSIAL ISSUES

The Scott County School Board recognizes that preparation for effective citizenship is one of the major purposes of education. The preparation for effective citizenship includes the study of issues that are controversial. Such study will be carried out in an atmosphere free from bias, prejudice, or coercion.

In teaching about controversial issues, teachers are expected to

- establish a learning environment where each student can study the issues within a curriculum that is appropriate to his or her knowledge and maturity; and
- provide instruction in an atmosphere that is free from bias, prejudice, or coercion.

Although the instructional program includes study of the political party system in the United States, the School Board does not endorse any political party or candidate.

RELIGION IN THE SCHOOLS

The Scott County School Board is neutral in matters of religion. This means that Scott County schools

- assume no role or responsibility for the religious training of any student and
- does not become involved in the religious belief, disbelief or doubt of any student.

This neutrality does not preclude or hinder the Scott County school division in fulfilling its responsibility to educate students to be tolerant and respectful of religious diversity. The division recognizes that one of its educational responsibilities is to advance the students' knowledge and appreciation of the role that religion has played in the social, cultural and historical development of civilization.

Therefore, the division approaches religion from an objective, curriculum-related perspective, encouraging all students and staff members to be aware of the diversity of beliefs and respectful of each other's religious and/or non-religious views. In that spirit of respect, students and staff members may be excused from participating in activities that are contrary to their religious beliefs.

The School Board may authorize, as an elective in grades nine through 12 with appropriate credits toward graduation, a comparative religion class that focuses on the basic tenets, history, and religious observances and rites of world religions.

EQUAL EDUCATIONAL OPPORTUNITIES/NONDISCRIMINATION

I. Policy Statement

Equal educational opportunities shall be available for all students, without regard to sex, sexual orientation, race, creed, color, national origin, gender, gender identity ethnicity, religion, disability, ancestry, marital or parental status or any other unlawful basis. Educational programs shall be designed to meet the varying needs of all students.

The School Board

- provides facilities, programs and activities that are accessible, usable and available to qualified persons with disabilities;
- provides a free, appropriate education, including non-academic and extracurricular services to qualified persons with disabilities;
- does not exclude qualified persons with disabilities solely on the basis of their disabilities, from any preschool, daycare, adult education or career and technical education programs; and
- does not discriminate against qualified persons with disabilities in the provision of health, welfare or social services.

II. Complaint Procedure

A. File Report

Any student who believes he or she has been the victim of prohibited discrimination should report the alleged discrimination as soon as possible to one of the Compliance Officers designated in this policy or to any other school personnel. The alleged discrimination should be reported as soon as possible, and the report generally should be made within fifteen (15) school days of the occurrence. Further, any student who has knowledge of conduct which may constitute prohibited discrimination should report such conduct to one of the Compliance Officers designated in this policy or to any school personnel. Any employee who has knowledge of conduct which may constitute prohibited discrimination shall immediately report such conduct to one of the Compliance Officers designated in this policy.

The reporting party should use the form, Report of Discrimination, JB-F, to make complaints of discrimination. However, oral reports and other written reports shall also be accepted. The complaint should be filed with either the building principal or one of the Compliance Officers designated in this policy. The principal shall immediately forward any report of alleged prohibited discrimination to the Compliance Officer. Any complaint that involves the Compliance Officer shall be reported to the superintendent.

The complaint, and identity of the complainant and of the person or persons allegedly responsible for the discrimination, will not be disclosed except as required by law or policy, as necessary to fully investigate the complaint or as authorized by the complainant. A complainant who wishes to remain anonymous will be advised that such confidentiality may limit the school division's ability to fully respond to the complaint.

B. Investigation

Upon receipt of a report of alleged prohibited discrimination, the Compliance Officer shall immediately authorize or undertake an investigation. The investigation may be conducted by school personnel or a third party designated by the school division. The investigation shall be completed as soon as

practicable, which should generally be not later than 14 school days after receipt of the report by the Compliance Officer. Upon receiving the complaint, the Compliance Officer shall acknowledge receipt of the complaint, by giving written notice that the complaint has been received, to both the person complaining of discrimination and the person or persons allegedly responsible for the discrimination. Also upon receiving the complaint, the Compliance Officer shall determine whether interim measures should be taken pending the outcome of the investigation. If the Compliance Officer determines that more than 14 school days will be required to investigate the complaint, the complainant and the person or persons allegedly responsible for the discrimination will be notified of the reason for the extended investigation and of the date by which the investigation will be concluded.

The investigation may consist of personal interviews with the complainant, the person or persons allegedly responsible for the discrimination, and any others who may have knowledge of the alleged discrimination or the circumstances giving rise to the complaint. The investigation will consider witnesses and evidence from both the complainant and the person or persons responsible for the alleged discrimination. The investigation may also include the inspection of any documents or information deemed relevant by the investigator. The school division shall take necessary steps to protect the complainant and others pending the completion of the investigation.

Whether a particular action or incident constitutes a violation of this policy requires a case by case determination based on all of the facts and circumstances revealed by a complete and thorough investigation.

The Compliance Officer shall issue a written report to the superintendent upon completion of the investigation. If the complaint involves the superintendent, then the report shall be sent to the School Board. The report shall include a determination of whether the allegations are substantiated, whether this policy was violated and recommendations for corrective action, if any.

All employees shall cooperate with any investigation of alleged discrimination conducted under this policy or by an appropriate state or federal agency.

C. Action by Superintendent

Within 5 school days of receiving the Compliance Officer's report, the superintendent or designee shall issue a decision regarding (1) whether this policy was violated and (2) what action, if any, should be taken. This decision must be provided in writing to the complainant. If the superintendent or designee determines that prohibited discrimination occurred, the BLANK School Division shall take prompt, appropriate action to address and remedy the violation as well as prevent any recurrence. Such action may include discipline up to and including expulsion or discharge.

D. Appeal

If the superintendent or designee determines that no prohibited discrimination occurred, the student who was allegedly subjected to discrimination may appeal this finding to the School Board within 5 school days of receiving the decision. Notice of appeal must be filed with the superintendent who shall forward the record to the School Board. The School Board shall make a decision within 30 calendar days of receiving the record. The School Board may ask for oral or written argument from the aggrieved party and the superintendent and any other individual the School Board deems relevant. Written notice of the School Board's decision will be given to both the complainant and the person or persons responsible for the alleged discrimination.

If the superintendent or designee determines that prohibited discrimination occurred and discipline is imposed, the disciplined person may appeal the disciplinary sanction in the same manner as any other such sanction would be appealed.

E. Compliance Officer and Alternate Compliance Officer

The Scott County School Board has designated **Brenda Robinette, 340 East Jackson Street, Gate City, VA 24251, 276-386-6118, brenda.robinette@scottschools.com**, as the Compliance Officer responsible for identifying, preventing and remedying prohibited discrimination. - arranges necessary training to achieve compliance with this policy; and
- ensures that any discrimination investigation is conducted by an impartial investigator who is trained in the requirements of equal education opportunity and has the authority to protect the alleged victim and others during the investigation.

III. Retaliation

Retaliation against students or school personnel who report discrimination or participate in the related proceedings is prohibited. The school division shall take appropriate action against any student or employee who retaliates against another student or employee who reports alleged discrimination or participates in related proceedings. The Compliance Officer will inform persons who make complaints, who are the subject of complaints, and who participate in investigations of how to report any subsequent problems.

IV. Right to Alternative Complaint Procedure

Nothing in this policy denies the right of any individual to pursue other avenues of recourse to address concerns relating to prohibited discrimination including initiating civil action, filing a complaint with outside agencies or seeking redress under state or federal law.

V. Prevention and Notice of Policy

Training to prevent discrimination should be included in employee and student orientations as well as employee in-service training.

This policy shall be (1) displayed in prominent areas of each division building in a location accessible to students, parents and school personnel, (2) included in the student and employee handbooks; and (3) sent to parents of all students within 30 calendar days of the start of school. SECTION 504 NONDISCRIMINATION POLICY AND COMPLAINT PROCEDURES

The Scott County School Board does not discriminate against individuals on the basis of disability. The Scott County School Board has established this policy as a way to provide prompt and impartial review of complaints alleging any action prohibited by Section 504 of the Rehabilitation Act of 1973. This policy provides an optional resolution procedure for a complainant. This procedure is not a prerequisite before a complainant may directly pursue any other remedy available under state or federal law. However, the policy of the Scott County School Board is for students, parents/guardians and employees to have the opportunity to make concerns known to the School Board and for the School Board to have the opportunity to respond to and resolve concerns as rapidly as practicable.

The goal of these procedures is to protect the substantive rights of interested persons, meet appropriate due process standards, assure School Board compliance with Section 504 of the Rehabilitation Act of 1973 and provide a prompt, equitable and impartial resolution of complaints alleging a violation of Section 504.

Any student or any parent or guardian of a student may be a complainant and may file a formal or informal grievance as provided below.

A. FORMAL PROCEDURE

1. Filing a Complaint

Any complainant should submit a complaint alleging discrimination as soon as possible to the Compliance Officer or to any other school or school division staff. The complaint shall be submitted within 45 school days of the alleged discrimination. Any employee who has knowledge of conduct which may constitute discrimination shall immediately report such conduct to the Compliance Officer, the employee's supervisor, or to any other school or school division staff. Any employee who receives a complaint under this policy shall immediately forward the complaint to the Compliance Officer.

The complainant should use the "Complaint of Discrimination" form (see end of this policy) to make a complaint of discrimination. However, oral complaints shall also be accepted. The complaint should be filed with the school principal, other school or school division staff, or the Compliance Officer. School or school division staff receiving a complaint of discrimination shall forward it to the school principal; who shall immediately forward the complaint of discrimination to the Compliance Officer. Any complaint that involves the Compliance Officer shall be reported to the superintendent. Any complaint that involves the superintendent shall be reported to the School Board Chair.

The complaint and the identity of the complainant, the individual who is the subject of the complaint (if other than the complainant), and the persons allegedly responsible for the discrimination will not be disclosed except as required by law or policy, as necessary to fully investigate the complaint or as authorized by the complainant.

2. Investigation

Upon receipt of a report or complaint of discrimination, the Compliance Officer shall immediately authorize or undertake an investigation. The investigation may be conducted by school staff or a third party designated by the school division. The investigation shall be completed as soon as practicable, but not later than 15 school days after receipt of the complaint of alleged discrimination by the Compliance Officer unless the extension below is exercised. Within 3 school days of receiving the complaint, the

Compliance Officer shall send written notice that the complaint has been received to the complainant and the person or persons allegedly responsible for the discrimination (the accused).

Also upon receiving the complaint, the Compliance Officer shall determine whether interim measures should be taken pending the outcome of the investigation. If the Compliance Officer determines that more than 15 school days will be required to investigate the complaint, the Compliance Officer will notify the complainant and the persons allegedly responsible for the discrimination of the reasons for the extended investigation and of the date by which the investigation is projected to be concluded, which will be no longer than an additional 15 school days. The investigation may consist of personal interviews with the complainant, the persons allegedly responsible for the discrimination, and any others who may have knowledge of the alleged discrimination or the circumstances giving rise to the complaint. The investigation may also include the inspection of any documents or information deemed relevant by the investigator. The complainant and the accused shall have the right to identify witnesses and other relevant information as well as rebut evidence presented by opposing parties. The school division shall take necessary steps to protect the complainant and others pending the completion of the investigation.

Whether a particular action or incident constitutes a violation of this policy requires a case by case determination based on all of the facts and circumstances revealed by a complete and thorough investigation.

The Compliance Officer shall issue a written report to the superintendent upon completion of the investigation. If the complaint involves the superintendent, then the report shall be sent to the School Board. The report shall include a determination of whether the allegations are substantiated, whether this policy was violated and recommendations for corrective action, if any. The Compliance Officer's written report, and all written notices sent pursuant to this policy shall be maintained and distributed in accordance with the Family Educational Rights and Privacy Act. The report shall be issued to the superintendent, the complainant and the accused within 20 school days of receipt of the complaint, unless additional time was utilized for the investigation in which case the report shall be issued within 35 school days of receipt of the complaint.

3. Action by the Superintendent

Within 10 school days of receiving the Compliance Officer's report, the superintendent or superintendent's designee shall issue a decision regarding:
(1) whether this policy was violated and, if so (2) what action, if any, will be taken. This decision must be provided in writing to the complainant and the accused. If the superintendent determines that discrimination occurred, the school division shall take prompt, appropriate action to address and remedy the harm and prevent any recurrence. Such action may include discipline up to and including recommending that a student be expelled or that an employee be discharged.

4. Appeal

If the superintendent or designee determines that no discrimination occurred, the complainant may appeal this determination to the School Board within 5 calendar days of receiving the decision. Notice of appeal must be filed with the superintendent, who shall forward the Compliance Officer's report and any documentation or information deemed relevant by the Compliance Officer during the course of the investigation to the School Board. The School Board shall make a decision within 30 calendar days of receiving the record. The School Board may require oral or written argument from the complainant, the person or persons accused of discrimination, the superintendent, and any other individual it deems appropriate. An extension of the 30 calendar day time limit may occur if necessary as determined by the School Board Chair up to an additional 10 calendar days. The decision of the School Board shall be in writing and shall be provided to the complainant and the accused.

If the superintendent or designee determines that discrimination occurred and discipline is imposed, the disciplined person (i.e. student or employee) may appeal the disciplinary sanction in accordance with existing School Board policies and regulations.

5. Compliance Officer

The School Board shall at all times designate a Compliance Officer responsible for identifying, preventing and remedying discrimination as well as receiving complaints under this Policy. The name and contact information for the Compliance Officer shall be posted on the Division's website at all times. The School Board has designated **Brenda Robinette, brenda.robinette@scottschools.com, 340 East Jackson Street, Gate City, VA 24251, 276-386-6118** as the Compliance Officer responsible for identifying, preventing and remedying discrimination. Complaints of discrimination may also be made to **Jason Smith, jason.smith@scottschools.com, or Jennifer Frazier, jennifer.frazier@scottschools.com, 340 East Jackson Street, Gate City, VA 24251, 276-386-6118**, the Alternate Compliance Officers.

The Scott County School Board's Compliance Officer shall receive training and shall be knowledgeable about the requirements of Section 504 in order to impartially and equitably resolve complaints and ensure compliance with the law. In addition, the Compliance Officer shall:

- a. receive reports and complaints of discrimination,
- b. conduct or oversee the investigation of any alleged discrimination,
- c. assess the training needs of the school division in connection with this policy and
- d. arrange necessary training to achieve compliance with this policy.

B. INFORMAL PROCEDURE

If the complainant and the persons allegedly responsible for the discrimination agree, the school principal, designee or the Compliance Officer may arrange for them to resolve the complaint informally with the assistance of a counselor, teacher or other school or school division staff.

If the complainant and the persons allegedly responsible for the discrimination agree to attempt to resolve the complaint informally, they shall each be informed that they have the right to abandon the informal procedure at any time in favor of the initiation of the above formal procedures.

If the complaint is resolved informally, the counselor, teacher or other school or school division staff shall notify the school principal of the resolution. The school principal shall notify the complainant, the persons allegedly responsible for the discrimination and the Compliance Officer in writing that the complaint has been resolved informally.

C. RETALIATION

Retaliation against students, school staff or school division staff who report discrimination or participate in the related proceedings is prohibited. The school division shall take appropriate action against any student or employee who retaliates against another student or employee who reports alleged discrimination or participates in related proceedings.

D. FALSE CHARGES

Students, school staff or school division staff who make false charges of discrimination shall be subject to disciplinary action.

SCHOOL ATTENDANCE AREAS

School attendance areas for each school are established by the School Board. Students attend the school in the attendance area in which they reside and to which they are assigned, unless special permission is granted by the School Board.

Any student who resides on a military installation or in military housing within the division is permitted to enroll in any school in the division upon request of the student's parent if space in the school is available. The superintendent is responsible for establishing an application process which may include the following

- A process by which a parent or guardian indicates a school preference for purposes of his child attending a school in the division but outside of the attendance area in which the child resides
- A requirement that the parent or guardian provide transportation for the student attending a school outside the attendance zone in which the child resides
- A requirement that the student may be disqualified from attending a school outside the attendance area in which the child resides if he has been subject to specified disciplinary actions
- A prohibition on the recruitment of a student from one school to another by a school division employee
- A limitation on participation in certain athletic activities for a student who chooses to attend a school outside the attendance zone in which he resides
- A random, unbiased selection process in the event enrollment requests exceed the capacity of a school
- A provision that a student will be permitted to remain at the receiving school until the student has completed the highest grade level in that school
- A preference to a student
 - who resides in a location that has been subject to a change in school attendance area during the previous two years
 - who has a sibling attending the receiving school, or
 - whose parent or guardian is an employee of the receiving school

Changes in attendance areas are determined by the School Board, upon recommendation of the superintendent based on the need to provide for the orderly administration of the schools, the competent instruction of the students and the health, safety, best interests and general welfare of all students.

As used in this policy, "military installation" means a base, camp, post, station, yard, center, homeport facility for any ship, fort, or other activity under the jurisdiction of the Department of Defense, including any leased facility, that is located in whole or in part within the Commonwealth. "Military installation" does not include any facility used primarily for civil works, rivers and harbors projects, or flood control projects.

the student upon whom the crime was committed shall, upon written request from the student's parents, or the student, if such student is an emancipated minor, be permitted to transfer to another comparable school within the division if available. Any transportation services for such students shall be provided in accordance with School Board policies.

For purposes of this policy, "victim" means any student who has been the victim of a crime against the person pursuant to Chapter 4 of Title 18.2 of the Code of Virginia, and who has suffered physical, psychological, or economic harm as a direct result of the commission of such crime.

TRANSFERS BY STUDENTS IN PERSISTENTLY DANGEROUS SCHOOLS

Any student attending a school which has been designated as a persistently dangerous school by the Virginia Department of Education will be offered the opportunity to transfer to another school in the division which is not so designated. If there is not another school in the division to which students may transfer, the division may explore other appropriate options such as an agreement with a neighboring division to accept transfer students.

In the event that a student elects to transfer, the transfer may remain in effect as long as the student's original school is identified as persistently dangerous.

CLASSROOM ASSIGNMENTS FOR TWINS

A parent of twins or higher order multiples in the same grade level may request that the children be placed in the same classroom or in separate classrooms if they are at the same elementary school. A parent must request the classroom placement no later than 3 days after the first day of each school year or 3 days after the first day of attendance of the children during a school year. Schools may recommend classroom placement to the parent.

Schools must provide the placement requested by the children's parent, unless the division superintendent or his designee makes a classroom placement determination following the school principal's request, at the end of the initial grading period, and in consultation with the children's classroom teacher, based upon a determination that the requested classroom placement is disruptive to the school or is harmful to the children's educational progress.

COMPULSORY ATTENDANCE

Every parent, guardian, or other person having control or charge of any child who will have reached the fifth birthday on or before September 30 of any school year and who has not passed the eighteenth birthday shall cause such child to attend a public school or otherwise provide the child with an education in accordance with state law unless the child is exempt from the state's compulsory attendance requirement.

Further, in the case of any five-year-old child, the requirements of this policy may be alternatively satisfied by causing the child to attend any public educational pre-kindergarten program, including a Head Start program, or in a private, denominational, or parochial educational pre-kindergarten program.

As used in this policy, "attend" includes participation in educational programs and courses at a site remote from the school with the permission of the school and in conformity with applicable requirements.

- any child who has obtained a high school diploma or its equivalent, a certificate of completion, or a passing score on a high school equivalency examination approved by the Board of Education, or who has otherwise complied with compulsory school attendance requirements.

Individual Student Alternative Education Plan

The School Board may allow the compulsory attendance requirements to be met pursuant to an individual student alternative education plan developed in conformity with guidelines prescribed by the Board of Education under the following conditions:

1. The student must be at least sixteen years of age
2. There shall be a meeting of the student, the student's parents, and the principal or principal's designee of the school in which the student is enrolled to develop the plan, which must include the following:
 - career guidance counseling

 - mandatory enrollment in a program to earn a Board of Education-approved career and technical education credential, such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, or the Virginia workplace readiness skills assessment

- successful completion of the course in economics and personal finance required to earn a Board of Education-approved high school diploma
 - counseling on the economic impact of failing to complete high school; and
 - procedures for re-enrollment
3. A student for whom such an individual student alternative education plan has been granted but who fails to comply with the conditions of the plan shall be in violation of the compulsory attendance law, and the superintendent or attendance officer shall seek immediate compliance with such law.

Alternative Education Programs

The School Board may, in accordance with the procedures set forth in Va. Code § 22.1-276.01 et seq. and upon a finding that a school-age child has been

- charged with an offense relating to the Commonwealth’s laws, or with a violation of School Board policies, on weapons, alcohol or drugs, or intentional injury to another person;
- found guilty or not innocent of a crime that resulted in or could have resulted in injury to others, or of an offense that is required to be disclosed to the superintendent of the school division pursuant to subsection G of Va. Code § 16.1-260;
- suspended pursuant to Va. Code § 22.1-277.05; or

Whenever a court orders any pupil into an alternative education program, including a program of general educational development, offered in the public schools, the School Board will determine the appropriate alternative education placement of the pupil regardless of whether the pupil attends the public schools it supervises or resides within its school division.

A child who will reach his or her fifth birthday on or before September 30 of the school year and is otherwise eligible for enrollment in school as specified in Policy JEC School Admission and Regulation JEC-R School Admission may be enrolled in school. GUIDELINES FOR CONSIDERING & ENROLLING UNDER-AGE KINDERGARTEN STUDENTS

Scott County Schools generally discourages the enrollment of students in Kindergarten Programs prior to the state recommended age. We recognize, however, that there may be instances when it is in the best interest of the student to do so. The following guidelines and procedures will be followed when a parent wants their child to be considered for early enrollment.

* All Early Kindergarten Enrollments will be considered "Provisional" and be subject to the availability of space, the student's success, and demands placed on the Teacher by the student's presence.

1. The parent will complete an application and submit it to the Elementary Supervisor, at the School Board Office.
2. The student will be given a developmental test to ascertain the degree of maturity that he or she has attained on a variety of school related skills. (This readiness indicator will be given strong consideration in determining which students are given first opportunity to enroll and which to be dropped first, should space become a problem.)
3. Entry of all such students will be only after 5 days of school have passed, in order to allow age-appropriate enrollments to stabilize.
4. Placement will be discontinued if:
 - The student shows signs of being too immature to benefit from the program.
 - The student requires an inordinate amount of care from the teacher.
 - An age-appropriate student needs the slot, and keeping both would require extra personnel.

* Parents should be made aware that a student cannot enter 1st grade earlier than the State Regulated birthdate - even if they are approved for this program. (This would usually mean that the student would have to repeat Kindergarten or a similar program.)

SCHOOL ADMISSION

A person of school age (i.e., a person who will have reached his or her fifth birthday on or before September 30 of the school year and who has not reached 20 years of age on or before August 1st of the school year) is eligible for admission on a non-tuition basis if residing in the Scott County School Division, or if eligible for admission under Policy JECA Admission of Homeless Children.

A person of school age is deemed to reside in the school division

- when the person is living with a natural parent, or a parent by legal adoption, in the Scott County School Division;
 - when, in accordance with the provisions of Va. Code § 22.1-360, the person is living with a noncustodial parent or other person standing in loco parentis, not solely for school purposes, pursuant to a Special Power of Attorney executed under 10 United States Code § 1044b by the custodial parent;
 - when the parents of such person are dead and the person is living with a person in loco parentis who actually resides within the school division;
 - when the parents of such person are unable to care for the person and the person is living, not solely for school purposes, with another person who resides in the school division and is either
 - (i) the court-appointed guardian, or has legal custody of the person,
 - (ii) acting in loco parentis pursuant to placement of the person for adoption by a person or entity authorized to do so under Va. Code § 63.2-1200; or
 - (iii) an adult relative providing temporary kinship care as that term is defined in Va. Code § 63.2-100. Both parents and the relative providing kinship care must submit signed, notarized affidavits
 - (a) explaining why the parents are unable to care for the person,
 - (b) detailing the kinship care arrangement, and
 - (c) agreeing that the kinship care provider or a parent will notify the school within 30 days of when the kinship care arrangement ends.
- The parent must also provide a power of attorney authorizing the adult relative to make educational decisions regarding the person. A parent or the kinship care provider must also obtain written verification from the department of social services where the parent or parents live, and the department of social services where the kinship provider lives, that the kinship arrangement serves a legitimate purpose that is in the best interest of the person other than school enrollment. If the kinship care arrangement lasts more than one year, the school division must receive continued verification directly from both departments of social services that the parents are unable to care for the person and that the kinship care arrangement serves a legitimate purpose other than school enrollment.
- when the person is living in the school division not solely for school purposes, as an emancipated minor;
 - when all or any portion of the building in which the person resides (i) with another person as set forth in the first through fourth bullets above or (ii) as an emancipated minor as set forth in the fifth bullet above is taxable by the locality in which the school division is located; or
 - when the person has been placed in a foster care placement within the school division by a local social services agency. The sending and receiving school divisions will cooperate in facilitating the enrollment of any child placed in foster care across jurisdictional lines to enhance continuity of instruction. The child will be allowed to continue to attend the school in which he was enrolled prior to the most recent foster care placement, upon the joint determination of the placing social services

agency and the school division that such attendance is in the best interest of the child. No person of school age who is the subject of a foster care placement will be charged tuition regardless of whether the child is attending the school in which he was enrolled prior to the most recent foster care placement or is attending a school in the receiving school division. These provisions apply to any student who was in in foster care upon reaching 18 years of age and has not reached 22 years of age.

Certain other students may be admitted into the public schools of the division and may be charged tuition in accordance with Va. Code § 22.1-5 and pursuant to BLANK School Board Regulation JEC-R School Admission.

Children of Persons on Active Military Duty

No child of a person on active military duty

- who is attending a school free of charge in accordance with this policy shall be charged tuition by the school division upon such child's relocation to military housing located in another school division in the Commonwealth, pursuant to orders received by such child's parent to relocate to base housing. Such children shall be allowed to continue attending school in the school division and shall not be charged tuition for attending such school;
- who is attending a school free of charge in accordance with this policy shall be charged tuition upon such child's relocation pursuant to orders received by such child's parent to relocate to a new duty station or to be deployed. Such children shall be allowed to remain enrolled in the current school division free of tuition through the end of the school year; and
- who is eligible to attend school free of charge in accordance with this policy shall be charged tuition by a school division that will be the child's school division of residence once his service member parent is relocated pursuant to orders received. Such a child shall be allowed to enroll in the school division of the child's intended residence if documentation is provided, at the time of enrollment, of military orders of the service member parent or an official letter from the service member's command indicating such relocation. Documentation indicating a permanent address within the school division shall be provided to the school division within 120 days of a child's enrollment or tuition may be charged, including tuition for the days since the child's enrollment in school. In the event that the child's service member parent is ordered to relocate before the 120th day following the child's enrollment, the school division shall not charge tuition. Students eligible to enroll in the school division in accordance with this policy because they are the children of military personnel on active military duty who will reside in the division may register, remotely or in-person, for courses and other academic programs and participate in the lottery process for charter schools and college partnership laboratory schools in the school division at the same time and in the same manner as students who reside in the division. The assignment of the school such child will attend shall be determined by the school division.

Such children shall be counted in the average daily membership of the school division in which they are enrolled. Further, the school division in which such children are enrolled subsequent to their relocation to base housing shall not be responsible for providing for their transportation to and from school.

ADDITIONAL ADMISSION REQUIREMENTS

- A. Except as otherwise provided below, no pupil shall be admitted for the first time to any public school in any school division in Virginia unless the person enrolling the pupil presents, upon admission, a certified copy of the pupil's birth record. The principal or his designee shall record the official state birth number from the pupil's birth record into the pupil's permanent school record and may retain a copy in the pupil's permanent school record. If a certified copy of the pupil's birth record cannot be obtained, the person so enrolling the pupil shall submit an affidavit setting forth the pupil's age and explaining the inability to present a certified copy of the birth record. If the school division cannot ascertain a child's age because of the lack of a birth

certificate, the child shall nonetheless be admitted into the public schools if the division superintendent determines that the person submitting the affidavit presents information sufficient to estimate with reasonable certainty the age of such child.

- B. If a certified copy of the birth record is not provided, the administration shall immediately notify the local law enforcement agency. The notice to the local law-enforcement agency shall include copies of the submitted proof of the pupil's identity and age and the affidavit explaining the inability to produce a certified copy of the birth record.
- C. Within 14 days after enrolling a transfer student, the administration shall request documentation that a certified copy of the pupil's birth record was presented when the pupil was enrolled in the former school.
- D. The School Board assigns a unique student identification number, determined in accordance with a system developed by the Department of Education, to each student enrolled in the division. No student identification number includes or is derived from the student's social security number. Each student retains the student's identification number for as long as the student is enrolled in a public elementary or secondary school in Virginia.
- E. Tuition rates are established each year in accordance with the provisions of Va. Code § 22.1-5.
- F. Prior to admission to the Scott County School Division, the parent, guardian, or other person having control or charge of the child shall provide, upon registration,
 - a sworn statement or affirmation indicating whether the student has been expelled from school attendance at a private school or in a public school division of the Commonwealth or another state for an offense in violation of school board policies relating to weapons, alcohol or drugs, or for the willful infliction of injury to another person. This document shall be maintained as a part of the student's scholastic record; and
 - a sworn statement or affirmation indicating whether the student has been found guilty of or adjudicated delinquent for any offense listed in subsection G of Va. Code § 16.1-260 or any substantially similar offense under the laws of any state, the District of Columbia, or the United States or its territories. This document shall be maintained by the superintendent and by any others to whom he disseminates it, separately from all other records concerning the student.

However, if the school administrators or the School Board takes disciplinary action against a student based upon an incident which formed the basis for the adjudication of delinquency or conviction for an offense listed in subsection G of § 16.1-260, the notice shall become a part of the student's disciplinary record.

When the child is registered as a result of a foster care placement, the information required under this subsection must be furnished by the local social services agency or licensed child-placing agency that made the placement.

- G. A student, who has been expelled or suspended for more than thirty days from attendance at school by a school board or a private school in Virginia or in another state or for whom admission has been withdrawn by a private school in Virginia or another state may be excluded from attendance in the Scott County School Division regardless of whether such student has been admitted to another school division or private school in Virginia or in another state subsequent to such expulsion, suspension, or withdrawal of admission upon a finding that the student presents a danger to the other students or staff of the school division after (i) written notice to the student and his/her parent that the student may be subject to exclusion, including the reasons therefore, and notice of the opportunity for the student or his parent to participate in a hearing to be conducted by the superintendent or his designee regarding such exclusion; and (ii) a hearing of the case has

been conducted by the superintendent or his/her designee; and the decision has been to exclude the student from attendance. The student or his parent may file a written petition for review with the School Board within 15 days of notice of the decision of the superintendent or his/her designee. If the School Board grants a review of the record, the decision of the superintendent or his/her designee may be altered.

Upon the expiration of the exclusion period for an expulsion or a withdrawal of admission, which period shall be established by the School Board, committee thereof, or superintendent or his designee, as the case may be, at the relevant hearing, the student may petition the School Board for readmission. If the petition for readmission is rejected, the School Board shall identify the length of the continuing exclusion period and the subsequent date upon which such student may petition the School Board for readmission.

For the purposes of this section, the superintendent's designee shall be a (i) trained hearing officer or (ii) professional employee within the administrative offices of the school division who reports directly to the superintendent and who is not a school-based instructional or administrative employee.

In excluding any such expelled student from school attendance, the School Board may accept or reject any or all of any conditions for readmission imposed upon such student by the expelling school board pursuant to Va. Code § 22.1-277.06. The excluding School Board shall not impose additional conditions for readmission to school.

- H. This policy does not preclude contractual arrangements between the BLANK School Board and agencies of the federal government or the school board of another jurisdiction to permit students not otherwise eligible to attend Scott County Public Schools.
- I. Prior to admission, the student must document compliance with, or eligibility for exemption from, the physical examination and immunization requirements contained in Va. Code §§ 22.1-270, 22.1-271.2 and 32.1-46 and policies JHCA Physical Examinations of Students and JHCB Student Immunizations.

If the person enrolling a child who has been placed in foster care by a local social services agency is unable to produce a report of a comprehensive physical examination and/or proof of immunization, the student shall be immediately enrolled; however, the person enrolling the child shall provide a written statement that, to the best of his knowledge, the student is in good health and is free from communicable or contagious disease. In addition, the placing social service agency shall obtain and produce the required documents or otherwise ensure compliance with the statutory requirements for the foster child within 30 days after the child's enrollment.

SCHOOL ADMISSION

No person is charged tuition for admission or enrollment in Scott County Public Schools, whether on a full-time or part-time basis, who is eligible for admission under Policies JEC School Admission or JECA Admission of Homeless Children. School officials do not inquire into the student's citizenship or B, C or D visa status in determining eligibility for tuition-free enrollment in Scott County Public Schools.

However, the school division may admit and charge tuition to a student who:

- A. Is a resident of the school division but not of school age;
- B. Is of school age and not a resident of Virginia but is temporarily living with a non-parent who resides within the school division;
- C. Is of school age and resides beyond the boundaries of Virginia but near thereto in a state or the District of Columbia which grants equal attendance privileges to residents of the Commonwealth;

- E. Is of school age and attending a school in the division pursuant to a foreign student exchange program approved by the School Board;
- F. Is a resident of the Commonwealth but not of the school division, except as provided in Policy JEC School Admission;
- G. Is of school age and was enrolled in a public school within the division as a domiciled resident of the Commonwealth, and has been required as a result of military or federal orders issued to their parents to relocate and reside on federal property in another state or the District of Columbia, where such state or the District of Columbia is contiguous to the school division; or
- H. Is of school age and residing within the school division, and is enrolled in summer programs other than remediation required under Va. Code § 22.1-253:13.1, or is enrolled in local initiatives or programs not required by the Standards of Quality or the Standards of Accreditation.

Eligibility for consideration does not signify acceptance of the admission application of a student. Each application for admission will be considered on an individual basis. The residency of persons in the above categories who reside in housing or temporary shelter, or on property located in multiple jurisdictions, shall be determined in the manner set forth in Policy JEC School Admission.

Foreign students in an F-1 immigration status or who obtain F-1 student visas are not admitted in the division's elementary schools or publicly funded adult education programs. Such students may be admitted, for a

period up to twelve months, in the division's secondary schools only if they pre-pay the full, unsubsidized per capita cost of the education.

Procedure for Admission

The following procedure is followed for application and review of applications for admission of students who are not eligible for tuition-free enrollment.

A parent or guardian of a student shall apply for admission on behalf of the student by completing the division application. The application form contains information and agreements including, but not limited to:

- the current legal residence of the child and the school division in which the child is currently enrolled, if any;
- the child's unique student identification number, if any;
- the basis for requesting admission;
- the specific building and grade level (elementary) or course offerings (secondary) in which the student desires to be enrolled if accepted by the division; and,
- the agreement that the student is subject to all policies and regulations of the school division, including Policy JFC Student Conduct and the Standards of Student Conduct.

Within 15 calendar days of receipt of the application, the BLANK Office of the school division shall provide the applicant with written notification of the approval or denial of the application. If the student is to be admitted, the superintendent or superintendent's designee shall notify the division which the student previously attended, if any, and make necessary arrangements for the transfer of student records. The notification of admission shall state the period for which the student is accepted and the subsequent conditions which could cause the acceptance to be terminated.

If the application is denied, the BLANK Office shall notify the parent or guardian of the right to have the decision reviewed by sending a written request to the superintendent or superintendent's designee within seven calendar days. Applications denied based upon the student's suspension, expulsion or withdrawal of admission shall be reviewed as provided in Policy JEC School Admission. For all other denials of admission, the superintendent or superintendent's designee shall respond in writing to the request for review within 10 calendar days.

Tuition Rate

The tuition rate is set by the superintendent for each academic year.

Transportation

Transportation is not furnished to nonresident students except in those cases where:

- agreements between divisions specify transportation services;
- federal or state legislation mandates the provision of transportation services; or
- transportation services can be provided at no cost to the division.

ADMISSION OF HOMELESS CHILDREN

The Scott County School Board is committed to educating homeless children and youth. Homeless children and youth are not stigmatized or segregated on the basis of their status as homeless. The school division coordinates the identification and provision of services to such students with relevant local social services agencies and other agencies and programs providing services to such students, and with other school divisions as may be necessary to resolve interdivisional issues.

The Scott County School Division serves each homeless student according to the student's best interest and will

- continue the student's education in the school of origin for the duration of homelessness
 - if the student becomes homeless between academic years or during an academic year; or
 - for the remainder of the academic year, if the student becomes permanently housed during an academic year; or
- enroll the student in any public school that nonhomeless students who live in the attendance area in which the student is actually living are eligible to attend.

In determining the best interest of a homeless student, the Scott County School Board

- presumes that keeping the student in the school of origin is in the student's best interest, except when doing so is contrary to the request of the student's parent or guardian, or (in the case of an unaccompanied youth) the youth;
- considers student-centered factors related to the student's best interest, including factors related to the impact of mobility on achievement, education, health and safety of homeless students, giving priority to the request of the student's parent or guardian or (in the case of an unaccompanied youth) the youth;
- if, after conducting the best interest determination based on consideration of the presumption and the student-centered factors above, the BLANK school division determines that it is not in the student's best interest to attend the school of origin or the school requested by the parent or guardian, or (in the case of an unaccompanied youth) the youth, provides the student's parent or guardian or the unaccompanied youth with a written explanation of the reasons for its determination, in a manner and form understandable to such parent, guardian or unaccompanied youth, including information regarding the right to appeal; and
- in the case of an unaccompanied youth, ensures that the division homeless liaison assists in placement or enrollment decisions, gives priority to the views of such unaccompanied youth and provides notice to such youth of the right to appeal.

Enrollment

The school selected in accordance with this policy immediately enrolls the homeless student, even if the student

- is unable to produce records normally required for enrollment, such as previous academic records, records of immunization and other required health records, proof of residency or other documentation; or
- has missed application or enrollment deadlines during any period of homelessness.

The enrolling school immediately contacts the school last attended by the student to obtain relevant academic and other records.

If the student needs to obtain immunizations or other required health records, the enrolling school immediately refers the parent or guardian of the student or, (in the case of an unaccompanied youth) the youth, to the division's homeless liaison, who assists in obtaining necessary immunizations or screenings, or immunization or other required health records.

If the documentation regarding the comprehensive physical examination required by Policy JHCA Physical Examinations of Students cannot be furnished for a homeless child or youth, and the person seeking to enroll the pupil furnishes to the school division an affidavit stating that the documentation cannot be provided because of the homelessness of the child or youth and also indicating that, to the best of his or her knowledge, such pupil is in good health and free from any communicable or contagious disease, the school division immediately refers the student to the division's homeless liaison who, as soon as practicable, assists in obtaining the necessary physical examination by the county or city health department or other clinic or physician's office and immediately admits the pupil to school.

The decision regarding placement is made regardless of whether the student lives with the homeless parents or has been temporarily placed elsewhere.

Enrollment Disputes

If a dispute arises over eligibility, or school selection or enrollment in a school

- the homeless student is immediately enrolled in the school in which enrollment is sought, pending final resolution of the dispute, including all available appeals;
- the parent or guardian of the student or (in the case of an unaccompanied youth) the youth is provided with a written explanation of any decisions related to school selection or enrollment made by the school, the school division or the Virginia Department of Education, including the rights of the parent, guardian or student to appeal the decision;
- the student, parent or guardian is referred to the division's homeless liaison who carries out the appeal process as expeditiously as possible after receiving notice of the dispute; and
- in the case of an unaccompanied youth, the homeless liaison ensures that the youth is immediately enrolled in the school in which the youth seeks enrollment pending resolution of the dispute.

Appeal Process

Oral Complaint

In the event that an unaccompanied student or the parent or guardian of a student (hereinafter referred to as the Complainant) disagrees with a school's decision regarding the student's eligibility to attend the school, the Complainant shall orally present his position to the division's homeless liaison.

Written Complaint

If the disagreement is not resolved within five (5) school days, the Complainant may present a written complaint to the homeless liaison. The written complaint must include the following information: the date the complaint is given to the homeless liaison; a summary of the events surrounding the dispute; the name(s) of the school division personnel involved in the enrollment decision; and the result of the presentation of the oral complaint to the homeless liaison.

Within five (5) school days after receiving the written complaint, the homeless liaison will reach a decision regarding the contested enrollment and shall provide a written statement of that decision, including the reasons therefore, to the Complainant. The liaison will inform the Superintendent of the formal complaint and its resolution.

Appeal to Superintendent

If the Complainant is not satisfied with the written decision of the homeless liaison, the Complainant may appeal that decision to the Superintendent by filing a written appeal. The homeless liaison shall ensure that the Superintendent receives copies of the written complaint and the response thereto. The Superintendent or designee shall schedule a conference with the Complainant to discuss the complaint. Within five (5) school days of receiving the written appeal, the Superintendent, or designee, shall provide a written decision to the Complainant including a statement of the reasons therefore.

Comparable Services

Each homeless student is provided services comparable to services offered to other students in the school attended by the homeless student including the following:

- transportation services;
- educational services for which the student meets the eligibility criteria, such as services provided under Title I, educational programs for children with disabilities and educational programs for English learners;
- programs in career and technical education;
- programs for gifted and talented students; and
- school nutrition programs.

Transportation

At the request of the parent or guardian (or in the case of an unaccompanied youth, the liaison), transportation is provided for a homeless student to and from the school of origin as follows:

- if the homeless child or youth continues to live in the area served by the division in which the school of origin is located, the child's or youth's transportation to and from the school of origin is provided or arranged by the division in which the school of origin is located.
- if the homeless child's or youth's living arrangements in the area served by the division in which the school of origin is located terminate and the child or youth, though continuing his or her education in the school of origin, begins living in an area served by another division, the division of origin and the division in which the homeless child or youth is living must agree upon a method to apportion the responsibility and costs for providing the child with transportation to and from the school of origin. If the divisions are unable to agree upon such method, the responsibility and costs for transportation are shared equally.

GUIDELINES FOR IDENTIFYING HOMELESS CHILDREN AND YOUTH

Scott County Public Schools sends out a survey at the beginning of each year to parents, shelter agencies, ministerial associations, etc. in order to identify homeless child(ren) residing in Scott County. Surveys are turned in to the local schools; information is then compiled and sent to the Scott County School Board Office to the attention of the Director for Homeless Children and Youth.

Once a child is identified, the School Social Worker will make contact with the family to determine specific needs. Other agencies such as the Department of Social Services, Mental Health, and the Scott County Health Department will be contacted according to need.

Scott County Public Schools provides after school remedial programs, special education programs, school counseling, transportation, and free and reduced lunch/breakfast programs to any homeless child in need. Other services may include free textbooks, school supplies, preschool supplies, and medical services such as speech, physical therapy, occupational therapy, vision or hearing screenings.

The Director of Homeless Children and Youth is responsible for agency coordination. Homeless children and their families may also be in need of shoes, clothing, glasses or shelter. If so, the School Social Worker will see that contacts are also made with local organizations/clubs such as the Rotary Club, Optimist Club, Hope House, etc.

Scott County Public Schools works in conjunction with other agencies to see that the needs of the homeless are met.

ADMISSION OF NONPUBLIC STUDENTS FOR PART-TIME ENROLLMENT

Generally

The Scott County School Board acknowledges the provisions for equivalent instruction under Virginia law.

The parents of students attending private school or being home schooled pursuant to Va. Code § 22.1-254.1 who wish to enroll their students on a part-time basis in Scott County Schools for participation in academic and/or extracurricular/club activities shall, along with the students, comply with this policy.

Admission

The parents shall identify their children as private school or home school students who desire part-time enrollment in academic courses of study. Students admitted under this policy are designated as part-time students. At the time of applying for admission, students shall designate the academic course(s) in which they want to enroll and each extracurricular or club activity in which they wish to participate.

Enrollment

Students must enroll in at least one academic class (high school) or one instructional unit (elementary/middle school) more than the requested course(s) and for each extracurricular or club activity in which they choose to participate. If no activity participation is sought, the part-time student must enroll in a minimum of two classes. Students wishing to participate in an academic class shall have completed all prerequisite course work or the equivalent required of full-time public school students wishing to enroll in the course. If part-time enrollment causes total enrollment in a class or grade level to exceed the maximum allowed by state or local policy (*e.g.* resulting in the need to employ another teacher) admission will be denied.

Once enrolled, the student shall comply with behavioral, disciplinary, attendance and other rules applicable to all students, including rules governing the use of the division's computer systems. If a student fails to comply, the school may withhold credit and/or terminate the student's participation in addition to taking any disciplinary action that would be taken against a full-time student for similar conduct.

Activities

Students wishing to participate in a Virginia High School League (VHSL) governed extracurricular or club activity shall satisfy the same or equivalent criteria for such activities that full-time students must satisfy. Students admitted under this policy shall participate in any try-out or selection process required of full-time students.

Transportation

The parents of the children for whom part-time admission is sought are responsible for the transportation of the child to and from school, including any expenses incident thereto.

Academic Credit

Class ranking and grade-point-average are not computed for part-time students.

JROTC Membership for Homeschooled Students

Membership in Junior Reserve Officer Training (JROTC) units is open to homeschooled students as provided in Policy LBD Home Instruction.

STUDENT ABSENCES/EXCUSES/DISMISSALS

I. Student Attendance Policy

Student attendance is a cooperative effort and the School Board involves parents and students in accepting the responsibility for good attendance.

Each parent/guardian or person having control or charge of a child within the compulsory attendance age is responsible for such child's regular and punctual attendance at school as required under provisions of the law.

Parents of students who are absent must inform the school of the reason for the absence no later than upon the student's return to school. Absences are excused for the following reasons:

The superintendent, by regulation, establishes procedures for appropriate interventions when a student engages in a pattern of absences for less than a full day, the explanation of which, if it were a full-day absence, would not be an excused absence.

The superintendent's regulations include procedures for excusing students who are absent by reason of observance of a religious holiday. Such regulations ensure that a student is not deprived of any award or of eligibility or opportunity to compete for any award, or of the right to take an alternate test or examination, which the student missed by reason of such absence, if the absence is verified in an acceptable manner.

Students shall attend school for a full day unless excused by the principal or principal's designee.

High school students may spend a maximum of 180 school days each academic year participating in High School to Work Partnerships established pursuant to guidelines developed by the Board of Education. Students who miss a partial or full day of school while participating in Partnership programs are not counted as absent for the purposes of calculating average daily membership. The superintendent's regulations include procedures by which students may make up work missed while participating in a High School to Work Partnership.

An attendance officer, or a division superintendent or superintendent's designee when acting as an attendance officer pursuant to Va. Code § 22.1-258, may complete, sign, and file with the intake officer of the juvenile and domestic relations district court, on forms approved by the Supreme Court of Virginia, a petition for a violation of a school attendance order entered by the juvenile and domestic relations district court pursuant to Va. Code § 16.1-278.5 in response to the filing of a petition alleging the pupil is a child in need of supervision as defined in Va. Code § 16.1-228.

Nothing in this policy shall be construed to limit in any way the authority of any attendance officer or the division superintendent to seek immediate compliance with the compulsory school attendance law.

II. Compulsory Attendance Procedures

Whenever a student fails to report to school on a regularly scheduled school day and no information has been received by school personnel that the student's parent is aware of and supports the absence, the school principal, principal's designee, attendance officer or other school personnel or volunteer notifies the parent by phone, email or other electronic means to obtain an explanation. School staff records the student's absence for each day as "excused" or "unexcused". Early intervention with the student and parent or parents takes place for repeated unexcused absences.

1. Upon Fifth Absence Without Parental Awareness and Support

If (1) a pupil fails to report to school for a total of five scheduled school days for the school year, and (2) there is no indication that the pupil's parent is aware of and supports the absence; and (3) reasonable efforts to notify the parent of the absences have failed, then the principal or principal's designee shall make a reasonable effort to ensure that direct contact is made with the parent in person, through telephone conversation, or through the use of other communication devices to obtain an explanation for the pupil's absence and to explain to the parent the consequences of continued nonattendance. The school principal or principal's designee, the pupil, and the pupil's parent shall jointly develop a plan to resolve the pupil's nonattendance. Such plan shall include documentation of the reasons for the pupil's nonattendance.

2. Upon Additional Absences Without Parental Awareness and Support

If the pupil is absent for more than one additional day after direct contact with the pupil's parent and school personnel have received no indication that the pupil's parent is aware of and supports the pupil's absence, the school principal or principal's designee shall schedule a conference with the pupil, the pupil's parent and school personnel. Such conference may include the attendance officer and other community service providers to resolve issues related to the pupil's nonattendance. The conference shall be held no later than 10 school days after the tenth absence of the pupil, regardless of whether his parent approves of the conference. The conference team shall monitor the pupil's attendance and may meet again as necessary to address concerns and plan additional interventions if attendance does not improve. In circumstances in which the parent is intentionally noncompliant with compulsory attendance requirements or the pupil is resisting parental efforts to comply with compulsory attendance requirements, the principal or principal's designee shall make a referral to the attendance officer. The attendance officer shall schedule a conference with the pupil and pupil's parent within 10 school days and may (i) file a complaint with the juvenile and domestic relations district court alleging the pupil is a child in need of supervision as defined in Va. Code § 16.1-228 or (ii) institute proceedings against the parent pursuant to Va. Code § 18.2-371 or § 22.1-262. In filing a complaint against the student, the attendance officer shall provide written documentation of the efforts to comply with the provisions of this policy. In the event that both parents have been awarded joint physical custody pursuant to Va. Code § 20-124.2 and the school has received notice of such order, both parents shall be notified at the last known addresses of the parents.

III. Report for Suspension of Driver's License

In addition to any other actions taken pursuant to this policy, if a student who is under 18 years of age has 10 or more unexcused absences from school on consecutive school days, the principal may notify the juvenile and domestic relations court, which may take action to suspend the student's driver's license.

IV. Attendance Reporting

Student attendance is monitored and reported as required by state law and regulations. At the end of each school year, each public school principal reports to the superintendent the number of pupils by grade level for whom a conference was scheduled pursuant to Part II (B) above. The superintendent compiles this information and provides it annually to the Superintendent of Public Instruction.

V. Dismissal Precautions

Principals do not release a student during the school day to any person not authorized by the student's parent/guardian to assume responsibility for the pupil. Students are released only on request and authorization of parent or guardian. The superintendent establishes procedures for release of pupils who are not residing with or

under the supervision of a parent/guardian. The burden of proof on the authority of the person to receive the student is on the requesting party. A formal check-out system is maintained in each school.

 - b. court appearance
 - c. death in the family

4. It is the student's responsibility to see the teacher on the day he or she returns to schedule make-up work. Students with excused absences will be expected to make up all work missed immediately, within 5 days after returning to school. All work not made up within the time limit will be graded zero. Extenuating circumstances, however, may be considered by the principal or his/her designee in extending the time limit for make up, and extensions shall be liberally granted in order to insure that a student with a valid excuse is allowed to make up missed work.

Elementary/Intermediate/Middle School

1. A student will be expected to make up work for all classes missed within five (5) days of return to school, if the absence is excused. Extenuating circumstances may be considered by the principal or his/her designee in extending the time limit.
2. Students who do not bring parental notes or who bring unacceptable excuses shall be corrected through the use of counseling and discipline procedures, which may include the use of the In-School Suspension Program and other available programs and services.

- b. communicating with a student's parents if poor attendance is affecting the student's progress and keeping a log of those contacts,
- c. including participation, which may be affected by attendance, in their student evaluation procedures, and
- d. offering vital, stimulating instruction each day which necessitates and encourages student attendance.
- e. in case of absence or tardiness, the student shall have his/her parent or guardian contact the school or send a signed note giving the date of absence or tardiness and the reason.

After 3 unexcused tardies, discipline will be at the discretion of the principal. Whenever any student has 10 or more unexcused tardies to school, the attendance/truancy officer will be involved. The civil penalties established pursuant to this section shall be enforceable in the juvenile and domestic relations court in which the student's school is located and shall be paid into a fund maintained by the appropriate local governing body to support programs or treatments designed to improve the behavior of students as described in subdivision 3 of subsection G. The School Board may excuse from attendance at school:

1. On recommendation of the principal and the superintendent and with the written consent of the parent or guardian, any student who the School Board determines, in accordance with regulations of the Board of Education, cannot benefit from education at school; or
2. On recommendation of the juvenile and domestic relations district court of the city or county in which the student resides, any student who, in the judgment of the court, cannot benefit from education at school.

STUDENT CONDUCT

Generally

The Scott County School Board establishes expectations for student conduct so that public education is conducted in an atmosphere free of disruption and threat to persons or property and supportive of individual rights.

In addition to the types of conduct prohibited below, the superintendent issues Standards of Student Conduct and a list of possible actions for violations of those Standards.

This Policy and the Standards of Student Conduct apply to all Scott County school students. They are enforced when the student's conduct occurs when the student is

- On school property.
- Traveling to school or from school.
- Traveling to, at, and from bus stops.
- In School Board vehicles.
- In attendance at any school-sponsored activity.
- Off school property if the conduct disrupts the learning environment.

The School Board and superintendent biennially review the model student conduct code developed by the Virginia Board of Education to incorporate into policy and the Standards of Student Conduct a range of discipline options and alternatives to preserve a safe and non-disruptive environment for effective learning and teaching.

Parental Involvement and Responsibility

Each parent of a student enrolled in BLANK schools has a duty to assist in enforcing this policy, the Standards of Student Conduct and compulsory school attendance in order that education may be conducted in an atmosphere free of disruption and threat to persons or property and supportive of individual rights. This policy, the Standards of Student Conduct, a notice of the requirements of Va. Code § 22.1-279.3, and a copy of the compulsory school attendance law is sent to all parents within one calendar month of the opening of schools simultaneously with any other materials customarily distributed at that time. A statement for the parent's signature acknowledging the receipt of this policy, the Standards of Student Conduct, the requirements of Va. Code § 22.1-279.3 and the compulsory school attendance law is also sent. Parents are notified that by signing the statement of receipt, they are not deemed to waive, but expressly reserve, their rights protected by the constitution or laws of the United States or Virginia. Each school maintains records of the signed statements.

The school principal may request the student's parent or parents, if both have legal and physical custody, to meet with the principal or principal's designee to review this policy, the Standards of Student Conduct and the parent's or parents' responsibility to participate with the school in disciplining the student and maintaining order, to ensure the student's compliance with compulsory school attendance law and to discuss improvement of the child's behavior, school attendance and educational progress.

The school principal may notify the parents of any student who violates a School Board policy, the Standards of Student Conduct, or the compulsory school attendance requirements when such violation could result in the student's suspension or the filing of a court petition, whether or not the school administration has imposed such disciplinary action or filed such a petition. The notice shall state (1) the date and particulars of the violation; (2) the obligation of the parent to take actions to assist the school in improving the student's behavior

and ensuring compliance with compulsory school attendance; (3) that, if the student is suspended, the parent may be required to accompany the student to meet with school officials; and (4) that a petition with the juvenile and domestic relations court may be filed under certain circumstances to declare the student a child in need of supervision.

The principal or principal's designee notifies the parent of any student involved in an incident required to be reported to the superintendent and Virginia Board of Education as described in Policy CLA Reporting Acts of Violence and Substance Abuse.

If a parent fails to comply with the requirements of this Policy, the School Board may ask the Juvenile and Domestic Relations Court to proceed against the parent in accordance with the requirements of the Code of Virginia.

A parent, guardian or other person having control or charge of a student is notified in writing of any disciplinary action taken with regard to any incident upon which an adjudication of delinquency or conviction for an offense listed in Va. Code § 16.1-260.G was based and the reasons therefor. The parent or guardian is also notified of the parent or guardian's right to review, and to request an amendment of, the student's scholastic record, in accordance with regulations of the Board of Education governing the management of scholastic records.

Prevention, Intervention, and Treatment Activities and Programs

Any student involved in a reportable drug or violent incident, as described in Policy CLA Reporting Acts of Violence and Substance Abuse, participates in prevention and intervention activities deemed appropriate by the superintendent or superintendent's designee. STANDARDS OF STUDENT CONDUCT

3. Bomb Threats

Students shall not engage in any illegal conduct involving firebombs, explosive or incendiary materials or devices or hoax explosive devices or chemical bombs as defined in the Code of Virginia. Students who do not behave properly in waiting for and riding the bus may have this privilege taken away. In addition, students may be given detention, in-school suspension, suspension, placement in an alternative program, or expulsion for misbehaving on the bus. Inappropriate behavior can lead to accidents and injuries. Safety is our greatest concern.

Students are expected to obey the following bus rules:

- a) Obey promptly and courteously the request and directions of the bus driver.
- b) Be seated quickly and remain properly seated while on the bus. Do not sit on feet or books.

- d) Function in an orderly manner at all times for the safety and welfare of the entire group.
- e) Follow all safety and operational regulations.
- f) Refrain from using profane, abusive, or disruptive language and suggestive mannerisms.
- g) Respect the property of others, including the bus. Make a personal effort to keep the bus clean.
- h) Understand that riding the bus is a privilege, which can be continued or discontinued based on the conduct of the individual (Virginia Code 22.1-175[1]).
- i) Be ready to board the bus at the designated stop and approach the bus only after it has completely stopped.
- j) Cross the road carefully upon signal from the driver at a point ten feet in front of the bus.
- k) Use the same procedures as above when leaving the bus, and immediately move away from the bus.
- l) Keep hands, arms, head, and any other objects inside the bus windows.
- m) Refrain from throwing any objects on, at, or from a school bus.
- n) Refrain from talking to others alongside the bus and talk in a normal conversational voice to student on the same seat.
- o) Do not use explosives or anything that could be used as a weapon or looks like a weapon. Students who bring such things on the bus will be severely punished.
- p) Refrain from bringing the following on the bus: bottles, animals, radios, games, large class projects, recorders, posters, stickers, food, pins, water pistols, and any other items that may cause a disturbance.
- q) In cases where such items are needed for a school activity, the parent should make arrangements to bring the child to school or to box/package the item(s) to minimize disturbance on the bus.
- r) In no way block the aisle.
- s) Have proper written permission before changing from assigned bus and regular stop.
- t) The bus driver will not drop off any unaccompanied Pre-K through 3rd grade student without an adult being visible at the bus stop. The driver will return your child to the custody of a school official until a parent or emergency contact can be reached.
 - **If you cannot be visible at the bus stop, then you may provide a note releasing us from liability. The note should be sent to the school stating it is acceptable to let your child off the bus without you being there. When the principal receives a note from you, then the principal will inform the bus driver. The driver will then drop your child off without you being visible.**

ANTI-BULLYING POLICY

INTRODUCTION

Bullying is a problem in many spheres of our culture: it exists in the work place, it exists in intimate relationships, and it exists in families and communities. Bullying exists in public schools, but public schools are in a unique position to educate children and adolescents about its presence, danger, and negative consequences. Schools can also teach behaviors that will protect students from the harmful effects of bullying. Based on the findings of past and current research, Scott County School's policy promotes school practices that address bullying behaviors in schools. This policy unequivocally considers bullying, aggression, and harassment as unacceptable behaviors; it promotes adoption of age-appropriate strategies designed for prevention, intervention, and accountability for bullying behaviors; and it promotes the use of whole-school and evidence-based practices in the classroom, in the school, and across the school division.

Bullying has been linked to negative outcomes for students who are its victims, for bystanders, and for students who are bullies themselves. Bullying negatively affects school climate. Bullying also has negative impacts on learning, health, behavior and school outcomes. For these reasons, Scott County Schools is committed to providing a safe and civil environment for all students, employees, parents or guardians, volunteers, and visitors.

DEFINITIONS

The *Code of Virginia at 22.1.276-01* defines bullying as:

...any aggressive and unwanted behavior that is intended to harm, intimidate, or humiliate the victim; involves a real or perceived power imbalance between the aggressor or aggressors and victim; and is repeated over time or causes severe emotional trauma. "Bullying" includes cyber bullying. "Bullying" does not include ordinary teasing, horseplay, argument, or peer conflicts.

The Scott County School Board adopts the definition of bullying as stated in the *Code of Virginia* and expounds upon it further:

Bullying is an aggressive, purposeful behavior that repeatedly inflicts physical hurt or psychological distress on one or more students or employees. A student, either individually or as a part of a group, shall not harass or bully others either in person or by the use of any communication technology including computer systems, telephones, pagers, or instant messaging systems. Prohibited conduct includes, but is not limited to, physical, verbal, or written intimidation, taunting, name-calling, and insults and any combination of prohibited activities. Prohibited conduct includes verbal or written conduct consisting of comments regarding the race, gender, religion, physical abilities or characteristics or associates of the targeted person.

Bullying may involve, BUT is not limited to:

1. Intimidation
2. Physical violence
3. Cyber bullying
4. Public humiliation
5. Harassment
6. Unwanted taunting
7. Threatening
8. Stalking

Prevention and Intervention

Scott County Public Schools expects staff and students to exhibit the finest values of humanity and civility. Bullying is unproductive and unacceptable in schools. Bullying harms the school culture and climate, and the individual lives of the victim, the bystander, and the bully. Bullying should be prevented, and intervention should be taken in cases where bullying has been reported or is suspected.

- A. Anti-Bullying Programs: A school wide-evidence based anti-bullying program will be part of a system of positive behavioral supports and school improvement efforts across grade levels.
- B. School Climate Information: The division and individual schools shall promote student involvement in the anti-bullying efforts, peer support, mutual respect, and creation of a culture which encourages students to report bullying to adults.
- C. Collaboration: Each school shall collaborate with families and the community to inform parents about the prevalence, causes, and consequences of bullying; including its central role as a public health hazard, the means of preventing it, and the methods of reporting it should it happen or occur.
- D. Bullying Prevention Coordinator: A bullying prevention coordinator is a person who serves as the primary school division contact to receive copies of all formal and informal reports of bullying incidents. S/he ensures policy is implemented and that all staff within the division are properly educated and trained.

The bullying prevention coordinator:

- a. serves as the school division's primary contact for harassment, intimidation, and bullying;
 - b. supports and assists the school principal (or designee) in resolving complaints (except where the complaint is against the principal or designee);
 - c. reviews all copies of incident reporting forms, discipline referral forms, and letters to parents providing the outcomes of investigations, before these are mailed to parents;
 - d. uses school bullying and complaint data to identify division wide patterns of behavior and areas of concern;
 - e. implements school division policy and procedures by overseeing the investigative processes, including ensuring that investigations are prompt, impartial, and thorough;
 - f. assesses the training needs of staff and students to ensure successful implementation of policy throughout the school division ensuring that staff receive annual training and technical assistance based on the results of staff and student surveys;
 - g. develops a procedure for maintaining written records of all incidents of bullying and their individual resolution; and
 - h. disseminates her/his contact information liberally throughout the school division.
- E. Education: Each year students should receive age-appropriate information on the recognition and prevention of harassment, intimidation, or bullying behaviors. Information provided should include a copy of the Bullying Incident Report Form or a link to a Web-based reporting form.
 - F. Training: Staff should receive annual training on the school division's bullying prevention policy and procedures as regards their roles and responsibilities in responding immediately to bullying incidents, as well as the reporting, intervening and following-up with victims and bullies. Annual professional development should increase staff awareness of the prevalence, causes, and consequences of bullying,

and continually promote the use of evidence-based strategies for preventing bullying. Professional development should be provided for employees hired after the annual training has been conducted.

- G. School Safety Surveys: Students and staff should be surveyed at least biennially regarding the prevalence and characteristics of bullying in their school; data collected should be used to guide local decision making and program planning related to surveillance needs, prevention, intervention, and professional development. School safety survey results should be shared with the school board for eventual dissemination to the public.

Reporting, Investigating, and Recording Incidents

Scott County Schools will follow these policies and procedures to ensure prompt investigation and response to any report of an incident of bullying. These procedures should protect the victim from additional bullying or retaliation.

Step 1: Reporting an incident (see Bullying Incident Report Form in Appendix)

- a. Any student who believes s/he has been the target of bullying, or any other person in the school community who observes or receives notice that a student has or may have been the target of bullying, may report incidents verbally or in writing to any staff member.
- b. An incident reporting form may be filed anonymously (via the Web, a physical drop box, and/or a verbal or written report may be made to any school staff member);
- c. All reports of intimidation or bullying should be recorded on a school division incident reporting form and submitted to the principal or designee, unless the designee is the subject of the complaint, and to the bullying prevention coordinator. All reports that have an identified complainant should be investigated.
- d. All staff should document oral reports of bullying incidents made to them.

Step 2: Investigating (see Investigation Form in Appendix)

Upon receipt of a report of bullying, the school principal or designee shall promptly conduct an investigation.

- a. When investigating the incident all of the surrounding facts, circumstances, severity, and age/developmental factors should be considered.
- b. At each school in the school division, the procedures for investigating bullying should include:
 - 1) investigation by the principal or designee. The designee(s) may not be the accused perpetrator (harasser or bully) or victim.
 - 2) documentation of interviews conducted by the principal or designee with the victim, alleged perpetrator, and witnesses (interviews are confidential, and are conducted privately and separately). At no time should the alleged perpetrator and victim be interviewed together.
 - 3) the collection and evaluation of the facts including, but not limited to
 - a) a description of the incident(s) including the nature of the behavior and the context in which the alleged incident(s) occurred;
 - b) how often the conduct occurred;
 - c) whether there were past incidents or past continuing patterns of behavior;
 - d) the relationship between the parties involved;

- e) the characteristics of parties involved (i.e., grade, age, gender, ethnicity, etc.);
- f) the identity and number of individuals who participated in bullying or harassing behavior;
- g) where the alleged incident(s) occurred (time/date/place of incident);
- h) whether the conduct adversely affected the student's education or adversely affected the educational environment;
- i) whether an imbalance of power is evident; and
- j) the date, time, and method of informing parents/legal guardians of all parties involved in the incident.

Whether conduct is "substantially interfering with a student's education" should be determined by considering a targeted student's grades, attendance, demeanor, interaction with peers, participation in school and extracurricular activities, and other performance or behavioral indicators. Negative changes in behavior would be particularly noteworthy.

- c. Whether a particular action or incident constitutes a violation of bullying prevention policy requires a determination based on all the facts and surrounding circumstances and includes:
 - 1) recommended remedial steps necessary to stop the bullying and/or harassing behavior,
 - 2) a safety plan and follow-up with the victim, and
 - 3) a final written report by or to the principal.

Step 3: Reporting investigation results

Three possible outcomes exist:

- a. If the incident falls within the scope of school division policy, appropriate consequences and/or interventions should be implemented. The prescribed actions should be designed to prevent and remediate the bullying and should include graduated interventions that are appropriate to the context and severity of the behavior.
Appropriate support services should be provided for others affected by the bullying behavior.
- b. If the incident falls outside of the scope of school division policy, and/or is determined to be a criminal act, referral should be made to appropriate law enforcement authorities.
- c. If the incident falls outside of the scope of school division policy, and is determined not to be a criminal act, the parents/legal guardians of all students involved should be informed.

Step 4: Additional considerations

- a. The principal or designee may determine that other steps must be taken before the investigation is complete.
- b. The investigation should be completed within two school days from the initial complaint or report. If more time is needed to complete an investigation, the school division should provide all involved parent(s)/guardian(s) and/or the student(s) with weekly updates.

Following the completion of the investigation and the submission to the school division administrator and bullying prevention coordinator, the principal or designee shall respond to the parent/guardian of the alleged aggressor and victim(s) stating:

- 1) the results of the investigation,
- 2) if the allegations were substantiated and there was a violation of policy, and
- 3) the process for any party to challenge the findings.

If the school principal or designee determines that bullying or retaliation has occurred, the school principal or designee should take appropriate disciplinary action, notify the parents or guardians of the perpetrator, and notify the parents or guardians of the victim. If the school principal or designee believes that the situation is placing the victim in a position of harm or danger, s/he should notify local law enforcement.

Step 5: School division recordkeeping and review

- a. Scott County Schools will keep statistics regarding the number of incident reports submitted at each school. Each school will be required to report to the bullying prevention coordinator on a monthly basis. These summaries should include the number of incidents, and number of students involved, that were substantiated and the number still under investigation. It should also include demographics about those involved in the reported incidents, i.e., each student's grade, race/ethnicity, or other pertinent information. Locations where bullying took place should be noted. Regular review of bullying incident data will aid the school division and school in prevention planning.
- b. The statistics about incident reports should parallel the reports of behaviors on the discipline, crime and violence reporting form and have "bullying" disaggregated from other behaviors.

Considerations for students with disabilities:

Any bullying of a student with a disability that result in the student not receiving meaningful educational benefits constitutes a denial of a free appropriate public education (FAPE) under the Individuals with Disabilities Education Act (IDEA). Furthermore, some bullying of students with disabilities may also constitute discriminatory harassment and trigger additional responsibilities under the civil rights laws.

Procedures that will be followed when a student with a disability is involved in any bullying incident:

- A. Convene the Individualized Education Program (IEP) Team to determine whether, as a result of the effects of the bullying, the student's needs have changed, and if the IEP is no longer designed to provide meaningful educational benefit. The decisions must be made by the IEP Team and be consistent with the IDEA parental participation provisions. Parents have the right to request an IEP Team meeting at any time that a student's needs may have changed as a result of the bullying.
 - 1) If the IEP is no longer designed to provide a meaningful educational benefit to the student, the IEP Team must then determine to what extent additional or different special education or related services are needed to address the student's needs, and revise the IEP accordingly.
 - 2) IEP Teams should exercise caution when considering a change in placement or the location of services and should keep the student in the original placement unless the student can no longer receive FAPE in the least restrictive environment (LRE) placement.
 - 3) The placement of a student with disabilities in a more restrictive "protected" environment setting to avoid bullying behavior may constitute a denial of the IDEA's requirement that the school provide FAPE in the LRE.
 - 4) Schools may not attempt to resolve the bullying situation by unilaterally changing the frequency, duration, intensity, placement, or location of the student's special education and related services.
 - 5) If a student with a disability engages in bullying behavior, the IEP Team should review the student's IEP to determine if additional supports and services are needed to address the inappropriate behavior.
 - 6) The IEP Team and other school personnel should examine the environment in which the bullying occurred to determine if changes to the environment are necessary.

Notification

The principal, or designee, shall promptly report via telephone, personal conference, and/or in writing, the occurrence of any incident of bullying as defined by this policy to the parent or legal guardian of all students involved on the same day an investigation of the incident(s) has been initiated. Notification must be consistent with the student privacy rights under the applicable provisions of the Family Educational Rights and Privacy Act of 1974 (FERPA). Once the investigation has been completed and it has been determined that criminal charges may be pursued against the perpetrator, all appropriate local law enforcement agencies should be notified.

Additional considerations:

- A. Statement of rights to other legal recourse: This policy may not be interpreted to prevent a victim of harassment, intimidation or bullying or a victim of cyberbullying from seeking redress or other legal remedies under any other available law, whether civil or criminal.
- B. Relationship to other laws: Scott County Schools works to insure compliance with all state and federal laws regarding harassment, intimidation or bullying. Nothing in this policy or its procedures prevents a student, parent/guardian, school or school division from taking action to remediate harassment or discrimination based on a person's gender or membership in a legally protected class under local, state, or federal law.
- C. Procedure to refer victims and perpetrators of bullying for counseling: Scott County Public Schools will intervene when bullying or harassment is suspected or when a bullying incident is reported. Scott County Schools will provide a continuum of supports appropriate to the range of possible severity of incidents.

TEACHER REMOVAL OF STUDENTS FROM CLASS

Teachers have the initial authority to remove students from class for disruptive behavior. "Disruptive behavior" means a violation of School Board policies or regulations issued by the superintendent governing student conduct that interrupts or obstructs the learning environment.

Criteria for Removal

In order for a teacher to remove a student from class for disruptive behavior

- removal of the student from the class must be necessary to restore a learning environment free from interruptions and obstructions caused by the student's behavior
- interventions by the teacher and/or administrators have been attempted and failed to end the student's disruptive behavior, and
- notice of the student's disruptive behavior and the opportunity to meet with the teacher and/or school administrators must have been provided to the student's parents as described below.

When all of the above criteria have been satisfied, a teacher may remove a student from class.

Requirements for Incident Reports

Teachers should write incident reports regarding all incidents of disruptive behavior. The reports will be filed with the school administration and provided to the student's parents within 24 hours of the incident. The parents must be given the opportunity to meet with the teacher and/or school administrator to discuss the student's behavior and the possible consequences if the behavior continues. The teacher will document, in writing, his or her attempts to request and encourage the parents to meet with him or her or school administrators.

A student may not be removed from class for disruptive behavior unless two written incident reports have been filed with school administrators and provided to the student's parents concerning two prior incidents of disruptive behavior. Upon removal, the teacher shall file a "Student Removal Form" (JFCA-E) with school administrators. The teacher will include any other documentation supporting the removal including, but not limited to, the previous two incident reports.

Procedures for Written Notification of Student and Parents

The teacher shall provide copies of any incident report and Student Removal Form to the student and his or her parents and notify them of the opportunity to meet with the teacher and/or school administrators to discuss the behavior and the possible consequences if the behavior continues. Such notice shall be provided within twenty-four hours of each incident. The teacher shall document, in writing, his or her attempts to request and encourage the parents to meet with school administrators and/or the teacher. Such notice and documentation shall be required for each incident report and student removal.

Guidelines for Alternative Assignment and Instruction of Removed Students

The principal shall determine the appropriate placement of any student removed from class by a teacher. The principal may

- assign the student to an alternative program
- assign the student to another class
- send the student to the principal's office or study hall. If the principal chooses this option, the teacher shall provide and evaluate appropriate make-up work for the student

- suspend the student or recommend the student for expulsion. If the principal chooses this option, alternative instruction and assignment, if any, shall be provided according to School Board policy and in the case of students with disabilities, in accordance with federal law
- return the student to class in accordance with the procedures below

Procedure for the Student’s Return to Class

The principal shall determine, after consultation with the teacher, the duration of the student’s removal from class. The principal shall notify the teacher of the decision to return the student to class. If the teacher disagrees with the principal’s decision to return a student to the class

- the teacher and principal shall discuss the teacher’s objection to returning the student to class and the principal’s reason for returning the student.
- the teacher, after meeting with the principal, may appeal the principal’s decision to the superintendent or designee within one school day. The incident reports and removal form must accompany the appeal. After discussion with the principal and teacher or receiving their written comments, the decision of the superintendent or designee shall be final. The decision shall be made within forty-eight hours of the teacher’s appeal. During the appeal process, the student shall not be returned to class and the principal will determine an appropriate placement for the student.

Once the decision has been made to return the student to class, the teacher and principal shall develop a plan to address future disruptive behavior.

Other Provisions

The principal shall ensure that students removed from class under this policy continue to receive an education in accordance with School Board policies.

Application of this policy to students with disabilities shall be consistent with federal and state law and regulations as well as School Board policy regarding students with disabilities.

Teacher deficiencies in classroom management shall be addressed in teacher evaluations pursuant to Policy GCN Evaluation of Professional Staff.

This policy does not limit or restrict the ability of School Board employees to apply other policies, regulations or laws for maintaining order in the classroom.

SPORTSMANSHIP, ETHICS AND INTEGRITY

The School Board recognizes the value of extracurricular activities in the educational process and the values that students develop when they have the opportunity to participate in an organized activity outside of the traditional classroom.

Participants and responsible adults involved in School Board approved extracurricular activities are expected to demonstrate the same level of responsibility and behavior at practice and competitions as is expected in the classroom. The School Board further encourages the development and promotion of sportsmanship, ethics and integrity in all phases of the educational process and in all segments of the community, including administrators, participants, adult supervisors, parents, fans, spirit groups and support/booster groups.

Random Alcohol and Drug Testing Regulations for Students Involved with Competitive Extra-curricular Activities Pledge Program

Background and Justification

- Over the last several decades, there have been many initiatives and programs to educate our youth on the dangers of alcohol and unauthorized drugs. Examples of these programs are Drug Awareness and Resistance Education, Drug-Free Schools initiative, Mothers Against Drunk Drivers, Students Against Drunk Drivers, Project Prom, and various health education curricula.
- One particular initiative that many Virginia public school divisions have implemented has been directed at athletics and other extra-curricular activities. This initiative is a randomized drug testing of students involved in extra-curricular activities.
- During the past three years, there have been 53 students disciplined for drug or alcohol related incidents in Scott County Schools. While the number of overall incidents has been consistently the same over the past three years, during the 2013-2014 school year, the number of student athletes involved with drug and alcohol related incidents drastically increased.
- With this background and justification, The Scott County Public School's Pledge Program is based on the following facts:
 - Student participation in extra-curricular activities is voluntary. Students who choose to participate do so with the understanding that their participation is a privilege based on their adherence to high moral, ethical, and academic standards.
 - Medical studies have established that drug use affects motor skills, learning, memory retention, reasoning ability and coordination.
 - Except in extreme cases, drug use is difficult for laymen, or even physicians, to detect by casual observation.
 - No safe level of drug use has been established. Any measurable amount of a mind-altering drug or alcohol in a person's body can cause some degree of impairment, even if that impairment is not readily apparent to the layman.
 - The use of alcohol is illegal for anyone under the age of 21. All forms of drug use without a prescription are illegal.

Purpose and Intent

- For Scott County Public Schools to detect and prevent drug use among its students, to provide assistance to students with drug problems, and to give students additional reasons for declining to use drugs.
- Participation in extra-curricular activities is a privilege, not a right, for students in Scott County Public Schools. Consent to drug testing is a mandatory prerequisite for any student to participate in a VHSL sanctioned extracurricular activity.

Testing Coordinator

- The Supervisor of Personnel and Student Services will coordinate and supervise the testing program.

Eligibility for Testing

- Scott County Public Schools students in grades 8-12 who choose to participate in VHSL-sanctioned extra-curricular activities not required by the Board of Education for graduation will be required to participate in the random testing program for alcohol, illegal drugs, or unauthorized drugs in order to participate in their chosen activity.
- Students become eligible upon submission of a consent form. Students must submit a consent form immediately following the Student Pledge Program Parent/Guardian Meeting for their season or before their next practice following the Pledge Program Meeting.
- Students remain eligible for random alcohol and drug testing from the date the consent form is turned in through the end of their sport or extra-curricular activity season. In the event that a student eligible for random alcohol and drug testing ceases to participate or withdraws from an athletic team or extra-curricular activity, he or she will no longer be subject to random drug and alcohol testing associated with this program.

For what Substances will Students be Tested?

- In administering the program, the division will test for the presence of certain substances that may include, but are not limited to, the following substances or their metabolites: alcohol, marijuana (THC), synthetic cannabinoids, opiates, cocaine, methamphetamines, anabolic steroids and phencyclidine (aka PCP), MDMA (aka Ecstasy), and/or any other substance defined as a “controlled substance” by either Virginia or Federal law.

Selection of Students for Random Testing

- A confidential testing schedule will be created by the Program Coordinator to ensure that testing of eligible students is conducted in a manner that is random.
- Testing will only occur on student contact days during each sport or extracurricular activities’ designated season.
- Selection of eligible students for testing will be conducted in a purely and entirely random basis by a third party vendor selected by Scott County Public Schools to administer the Random Alcohol and Drug Testing Program.
- A separate group of students will be selected by sport or activity and designated as alternates to be used in the event of student absence.
- The Program Coordinator/designee will notify the individual(s) selected for testing and a designee will escort them to the designated location for testing.
- The testing site will be at the participant’s respective school in an area that has a secured bathroom/nurse’s office which will maximize privacy of the participant or in the office of an approved collection agency contracted by the school division to collect and test oral fluid and/or urine samples.
- The names and/or any other personally identifiable information of the participants will remain confidential.
- Participants are encouraged to protect their own confidentiality.

Suspicion Based Testing

- In the event that a coach or sponsor observes that a member of a team or extracurricular activity is demonstrating symptoms that cause reasonable suspicion that the member is under the influence of alcohol or drugs, during school or a school-sponsored activity, the coach or sponsor shall follow School Board Regulation JFCF.
- In the event that a coach or sponsor receives reports that a member of a team or extracurricular activity has been using alcohol or drugs outside of school or school-sponsored activities, then the Pledge Program Committee will meet with the player to further investigate the suspected use. If the committee believes there is reasonable suspicion of the use of alcohol or drugs, the Program Coordinator will contact the

student's parent/guardian(s) to inform them that the student will be required to submit to an alcohol and drug screen which will be administered according to the procedures outlined below.

Test Administration

- All aspects of the program, including the taking of specimens, will be conducted so as to safeguard the personal and/or privacy rights of the participant to the maximum extent possible. The program treats a participant's test result as a confidential health record pursuant to both federal and state regulations 42C.F.R. 2.1 and 2.2; VA Code § 32.1-126.1:03. As such, any information obtained by the program which would identify the participant as a drug or alcohol user may be disclosed only for those purposes and under those conditions permitted by federal regulations in accordance with 42C.F.R. – Part II. No testing record of any participant will be used to initiate or substantiate any criminal charges against a participant or to conduct any investigation of him or her, and the division will not share participants' individual test results with law enforcement authorities unless legally required by court order or subpoena.
- The Program Coordinator/designee will coordinate the collection of specimens from the selected students in accordance with federal Substance Abuse and Mental Health Services Administration (SAMHSA) standards and forward the specimens to a licensed laboratory for testing. The Supervisor of Personnel and Student Services/designee may conduct an initial on-site test on the specimen before sending the specimen to the laboratory.
- The participant shall complete a specimen control form.
- The participant shall submit an oral fluid or urine specimen according to the Scott County Public Schools School Division's Random Testing for Illegal/ Unauthorized Drugs and Alcohol Consent to Test Form.
- All students selected for testing must remain at the testing site under the direct supervision of the Athletic Director/designee until he/she can produce an adequate specimen for testing.
- Any attempt by a participant to tamper with the specimen collection process or refusal by the participant to provide a sample, will be treated as a resignation from all extracurricular activities for a period 365 days except in cases where a positive sample would constitute a 3rd violation. In such cases, the student will be banned from any further participation for the remainder of his/her enrollment in the Scott County Public Schools School Division.
- All efforts will be made to minimize the instructional impact of testing and to maintain the confidentiality and privacy rights of participants. All urine testing will be conducted in a closed-door restroom without direct observation by adult monitors.
- Specimens that test positive for the presence of alcohol, illegal drugs, or unauthorized drugs or their metabolites will be kept by the testing facility for at least one hundred eighty (180) days pending an appeal of the test result.

Notification of Testing & Testing Results

- Students who choose to participate in division athletic programs, VHSL-sponsored activities, and/or competitive extra-curricular activities, not required by the Board for graduation, are required to complete and sign the Scott County Public Schools School Division's Random Testing for Illegal Drugs/Unauthorized Drugs and Alcohol Consent to Test Form.
- When a participant tests positive for an alcohol, illegal drugs, or unauthorized drugs, the participant's parent/guardian(s) will be contacted directly by a Medical Review Officer (MRO) to conduct a consultation. The consultation will address the reasons for the positive test and a decision will be made by the MRO regarding the legitimacy, validity, or accuracy of a positive test. Parent/guardian(s) will have 5 business days to provide documentation of a legal prescription that may have caused the positive test. The MRO will determine if that substance has been taken pursuant to a legal prescription.
- Results of student tests confirmed by the MRO will be provided to the Program Coordinator within twenty-four (24) hours of the MRO's consultation with the participant and his or her parent/guardian(s).

- The division respects the privacy of its students and shall maintain confidentiality regarding any alcohol and drug testing for this program. The results will only be released to designated division personnel. All records and subsequent actions shall be kept by the Program Coordinator in a file separate from the student's school records. The Program Coordinator will not release records of drug and alcohol tests or any resulting action to anyone other than designated school personnel and the student and/or his/her parent/guardian(s) without written authorization from the student and/or his/her parent/guardian(s) in accordance with 42C.F.R. – Part II. Student drug testing information will not be turned over to any law enforcement authorities except under circumstances in which the division is legally compelled to surrender or disclose such test results.
- The Program Coordinator will destroy all records for each student when they have no remaining eligibility to participate in VHSL activities due to the fact that they have graduated, they are over the maximum age for participation, or they have completed four years of eligibility.
- The testing company will maintain testing records according to their records retention policies.

Appeal Procedure:

- A student or his/her parent/guardian(s) may request a retest of his/her specimen at his/her own expense at a laboratory of their choice which follows federal Substance Abuse and Mental Health Services Administration (SAMHSA) standards concerning drug testing protocols and procedures. A written request must be made within twenty-four (24) hours of receiving the results of the drug test from the Program Coordinator. The specimen previously submitted will be forwarded to the approved lab in cooperation with the division approved outside agency responsible for confirmatory testing.
- Results of the re-test will be provided to the Program Coordinator by the approved laboratory. During the appeal period students may not participate in athletics or VHSL-sanctioned, extra-curricular activities.
- The student will be ineligible to participate during the appeal.

Consequences

Consequences will result from the following:

- a confirmed positive test for alcohol, illegal drugs, or unauthorized drugs;
- refusal to participate in testing when selected; and/or
- tampering with, diluting or altering the specimen during the collection process.
- Students will be ineligible for participation in any VHSL-sanctioned, extra-curricular activities unless they complete the Scott County Public Schools' Random Testing for Illegal/Unauthorized Drugs and Alcohol Consent to Test Form. Any attempt by a participant to tamper with, dilute or otherwise alter the specimen during the collection process or refusal by the participant to provide a sample, will be treated as a resignation from all extracurricular activities for a period of 365 calendar days except in cases where a positive sample would constitute a 3rd violation. In such cases, the student will be banned from any further participation for the remainder of his/her enrollment in the Scott County Public School Division.
- Upon confirmation of a positive test or a student's confession of alcohol, illegal drugs, or unauthorized drugs use as a result of an investigation based on suspicion of use, the student will be ineligible to participate in athletics or extracurricular activities until they adhere to the consequences outlined below.
- It should be noted that the consequences outlined below are cumulative across each participant's athletic and/or extracurricular "career" in the Scott County Public School Division. Each student's "career" begins in the 8th grade or upon initial participation in an athletic activity, VHSL-sanctioned, extracurricular activity and ends when they graduate or cease to participate in athletics or VHSL-sanctioned, extracurricular, competitive activities. For example, if a student has a positive test for an alcohol, illegal drugs, or unauthorized drugs in the 8th grade and, a second positive test for alcohol, illegal drugs, or unauthorized drugs in the 11th grade, they will be subject to the consequences outlined for a second offense.

Consequences – First Offense

Step 1: Upon confirmation of a positive screen for alcohol, illegal drugs, or unauthorized drugs or a student's confession of alcohol, illegal drugs, or unauthorized drugs use as a result of an investigation based on suspicion of use, the Supervisor of Personnel and Student Services will schedule a meeting with the student, his/her parent/guardian(s), and the principal on the first school day following the confirmation of alcohol, illegal drugs, or unauthorized drugs use to impose a suspension from athletic/extracurricular participation. The student shall be suspended from participating in contests for a period of time equivalent to 50 percent of the total number of VHSL contest limitations or activity contest for each sport or activity to be played during the regular season (any fraction of the calculation will be dropped). The penalty will be applied immediately and include the next contest(s) including playoffs, and/or to the next season in which the student athlete participates within 365 calendar days. During this time, the student shall continue to attend scheduled meetings, practices, and contests associated with his/her activity. The student shall participate in practices and may not dress out for contests. Written notification will be provided to parent/guardian(s) that will detail the conditions and the endpoint of the suspension. Additionally, in the event the season concludes while the student is suspended, the student will be allowed to participate in try-outs for the next activity season if the student has been retested by the current company who provides Scott County Public Schools with our student drug-testing or another drug-testing company approved by Scott County Public Schools administration that operates under SAMHSA (Substance Abuse and Mental Health Services Administration) certified laboratory guidelines, at the parent/guardian(s) expense, less extenuating circumstances; and the test results must be negative. After which time, the student will be ineligible until all conditions of reinstatement have been completed.

Step 2: The Program Coordinator will conduct a screening interview with the student and parent/guardian(s) as soon as possible. Based on the interview, the coordinator will design an intervention program suitable for the student.

Step 3: After suspension and prior to resuming full participation with his/her team/activity, the student will be required to take an additional oral fluid test/urinalysis screen to prove that he/she no longer has any trace of illegal substances in his/her system. The parent/guardian(s) shall be responsible for the cost of the screening, less extenuating circumstances.

Step 4: The student and parent/guardian(s) must participate in the recommended intervention program at their expense, less extenuating circumstances. Progress reports will be provided to the Program Coordinator to document the student's successful participation.

Step 5: The student and his/her parent/guardian(s) must agree to regular testing for alcohol, illegal drugs, or unauthorized drugs for the student for the remainder of the school year. The parent/guardian(s) shall be responsible for the cost of the screening(s), less extenuating circumstances.

Step 6: Upon satisfactorily attending all the prescribed intervention sessions, the student will be provided with a letter of reinstatement from the Program Coordinator indicating that he/she is a "student in good standing" and eligible to resume regular participation with his/her team.

Second Offense

Step 1: Upon confirmation of a second positive test for alcohol, illegal drugs, or unauthorized drugs or the student's admission of continued use of alcohol, illegal drugs, or unauthorized drugs, the Program Coordinator will schedule a meeting with the student, his/her parent/guardian(s), and the Principal on the first school day following the confirmation of alcohol, illegal drugs, or unauthorized drugs. The student shall be suspended from play for a period of time equivalent to 75 percent of the total number of VHSL contest limitations or activity contest for each sport or activity to be played during the regular season (any fraction of the calculation will be dropped). The penalty will be applied immediately and include the next contest(s) including playoffs, and/or to the next sport season in which the student participates within 365 calendar days. During this time, the student shall continue to attend scheduled meetings, practices, and contests associated with his/her activity. The student shall not participate in practices and may not dress out for contests. Written notification will be provided to the parent/guardian(s) that will detail the

conditions and the endpoint of the suspension. Additionally, in the event the season concludes while the student is suspended, the student will be allowed to participate in try-outs for the next activity season if the student athlete has been retested by the current company who provides Scott County Public Schools with our student drug-testing or another drug-testing company approved by Scott County Public Schools administration that operates under SAMHSA (Substance Abuse and Mental Health Services Administration) certified laboratory guidelines, at the parent/guardian(s) expense, less extenuating circumstances; and the test results must be negative. After which time, the student will be ineligible until all conditions of reinstatement have been completed.

Step 2: The Program Coordinator will conduct a screening interview with the student and parent/guardian(s) as soon as possible. Based on the interview, the coordinator will design an intervention program suitable for the student.

Step 3: After suspension and prior to resuming full participation with his/her team/activity, the student will be required to take an additional oral fluid test/urinalysis screen to prove that he/she no longer has any trace of illegal substances in his/her system. The parent/guardian(s) shall be responsible for the cost of the screening, less extenuating circumstances.

Step 4: The student and parent/guardian(s) must participate in the recommended intervention program at their expense, less extenuating circumstances. Progress reports will be provided to the Program Coordinator to document the student's successful participation.

Step 5: The student and his/her parent/guardian(s) must agree to regular testing for alcohol, illegal drugs, or unauthorized drugs for the student for the remainder of the activity season. The parent/guardian(s) shall be responsible for the cost of the screening(s), less extenuating circumstances.

Step 6: Upon satisfactorily attending all the prescribed intervention sessions, the student will be provided with a letter of reinstatement from the Supervisor of Personnel and Student Services indicating that he/she is a "student in good standing" and eligible to resume regular participation with his/her team.

Third Offense

Upon confirmation of a third positive test for alcohol, illegal drugs, or unauthorized drugs or the student's admission of continued alcohol, illegal drugs, or unauthorized drugs use, the Program Coordinator will schedule a meeting with the student, his/her parent/guardian(s), and the Principal on the first school day following the confirmation of alcohol, illegal drugs, or unauthorized drugs use to suspend the student from any further athletic and/or extracurricular participation while enrolled in the Scott County Public School Division.

COLLECTION PROCESS

Selected students are escorted from class or practice to the collection site. A specimen of oral fluid/urine is collected following this process:

Oral Fluid Testing Procedures

- No purses, bags or containers may be taken into the collection area with the student. All extra coats, vests, jackets, sweaters, etc., are to be removed before entering the collection area.
- Student is asked to rinse his/her hands and dry them. If no water is easily accessible, an alcohol free wipe may be used instead.
- The Testing Custody and Control Form is completed by the student and collector.
- The student is told to check expiration date on back of kits for validity.
- The student opens the kits.
- The collector instructs the student to position the swab in their mouth and rub back and forth several times on inside of cheek one at a time.
- The student places the swabs in his own mouth.
- The collector and the student fill in designated sections of the laboratory chain of custody form.

- The samples and chain of custody form are labeled by the student and packaged for overnight delivery to the SAMHSA certified lab.
- The top lab copies of the Testing Custody and Control Form are folded with the top portion visible to the outside and placed in the Requisition Pouch. The transport bag and pouch are sealed as indicated. The student is given the donor copy of the form.
- The student may wash his/her hands and be released from the testing site.
- The collector distributes the remaining copies of the form as required, being responsible for getting the appropriate copy of the form to the MRO in a timely manner.
- The Program Coordinator will be notified immediately of any student who refuses to give a sample or is suspected of tampering with the sample.

Urine Testing Procedures

- No purses, bags or containers may be taken into the collection area with the student. All extra coats, vests, jackets, sweaters, etc., are to be removed before entering the collection area.
- The collector adds a bluing agent (food coloring) to the water in the urinal or toilet.
- Student is asked to rinse his/her hands and dry them. If no water is easily accessible, an alcohol free wipe may be used instead.
- The Testing Custody and Control Form is completed by the Student and collector.
- The student is told to urinate directly into the provided container and should provide a sufficient amount of urine (at least 45ml) in one attempt. The student is also told they are to hand the container of urine to the collector.
- The student enters a closed stall or single use bathroom to collect the specimen, and then hands the container to the collector when they exit the stall or bathroom.
- The collector checks the volume, reads and records the temperature within four minutes of collection, and looks for evidence of tampering. If tampering is suspected, a second specimen will be requested. A second suspected tampered specimen will be considered refusal to test and the Program Coordinator will be notified.
- With the student watching, the collector will pour the specimen into the two bottles and recap the specimen bottles tightly.
- The collector takes the properly signed and student initialed bottle seals and places them over the caps and sides of the bottles. The sealed bottles are placed inside the transport bag.
- The top lab copies of the Testing Custody and Control Form are folded with the top portion visible to the outside and placed in the Requisition Pouch. The transport bag and pouch are sealed as indicated. The student is given the donor copy of the form.
- The student may wash his/her hands and be released from the testing site.
- The collector distributes the remaining copies of the form as required, being responsible for getting the appropriate copy of the form to the MRO in a timely manner.
- The Program Coordinator will be notified immediately of any student who refuses to give a urine sample or is suspected of tampering with the sample.

MEDICAL REVIEW OFFICER (MRO) RESPONSIBILITIES

- The MRO will review all results of oral fluid/urine testing. Any urine specimen testing positive for alcohol, illegal drugs, unauthorized drugs, banned substances, or adulteration will be handled in the following manner:
- The MRO determines if any discrepancies have occurred in the Chain of Custody.
- Depending on the substances found in the urine, if necessary, the MRO will contact the parent/guardian to determine if the student is on any prescribed medication from a physician.

- If the student is on medication, the parent/guardian(s) will be asked to provide documentation from the prescribing physician, within five working days, to document what medication(s) the student is currently taking. Failure to provide such requested information will be considered a positive result.
- The MRO will determine if the prescribed medications resulted in the positive test result. For example, a positive test result for codeine may be ruled negative by the MRO when he receives a letter from the treating physician that the student has been prescribed Tylenol© with codeine as a pain medication following tooth extraction. Or, if the student has a positive screen for codeine and has no documented physician order for the medication (maybe a parent/guardian gave the student one of his/her pills), this would likely be ruled a positive test by the MRO.
- Finally, the MRO, based on the information given, will certify the test results as positive or negative and report this to the Program Coordinator, initially reporting positive results by phone.
- Screens positive for alcohol or illicit drugs (marijuana, heroin, cocaine) would automatically be considered positive by the MRO.
- The MRO may use quantitative results to determine if positive results on repeat tests indicate recent use of illicit or banned substances or the natural decline of levels of the illicit or banned substance from the body. If the MRO feels the quantitative levels determined to be above the established cutoffs do not reflect current use but natural decay, then a negative result may be reported.

The School Board supports substance abuse programs which vary according to individual needs. Included among these are programs for persons who desire more information, and for those who need help with intervention activities and programs.

The School Board supports efforts to help students during the school day as well as to reinforce programs provided by other sources. To that end, individual school substance abuse programs may provide group experiences, individual counseling and other programs.

SEARCH AND SEIZURE

A search involves an invasion of privacy. Whether a search of a student is permissible depends on a balancing of the student's right to privacy and freedom from unreasonable search and seizure against the school division's responsibility to protect the health, safety and welfare of all persons in the school community and to carry out its educational mission. To maintain order and discipline in the schools and to protect the health, safety and welfare of students and school personnel, school authorities may search a student, student belongings, student lockers or student automobiles under the circumstances outlined below and may seize any illegal, unauthorized or contraband materials discovered in the search.

As used in this policy, the term "unauthorized" means any item dangerous to the health or safety of students or school personnel, or disruptive of any lawful function, mission or process of the school or any item described as unauthorized in school rules available beforehand to the student.

The locations at which searches of students and student property may be conducted are not limited to the school building or school property. Searches may be conducted wherever the student is involved in a school-sponsored function.

PERSONAL SEARCHES

A student's person and/or personal effects (e.g. purse, book bag, etc.) may be searched by a school official whenever the official has reasonable suspicion to believe that the student has violated or is about to violate the law or a school rule and that the search will yield evidence of the violation.

All individual searches of students must be based on reasonable suspicion. In order to be permissible, the search must be:

- justified at its inception and
- reasonably related in scope to the circumstances justifying the search.

An individual search is justified at its inception when a school official has reasonable grounds, based on the totality of the known circumstances, for suspecting that the search will reveal evidence that the student has violated or is violating either the law or the rules of the school. A search is reasonable in scope when it is reasonably related to the objectives of the search and is not excessively intrusive in light of the age and sex of the student and the nature of the suspected infraction.

A personal search may include requiring a student to be scanned with a metal detector.

A pat down search of a student may only be conducted if a school administrator has established a high level of reasonable suspicion that evidence will be found to corroborate suspicion that a law or school rule has been broken. If a pat down search of a student's person is conducted, it will be conducted in private by a school official of the same sex and with an adult witness of the same sex present.

Strip searches involve an extreme intrusion into the rights of a student and may only be conducted when an extremely serious situation exists requiring immediate action because of an imminent threat of death or great bodily injury to a person or persons. If a strip search is necessary the school official should contact the appropriate law enforcement official, and the search should be conducted by a sworn law enforcement officer of the same sex, in the presence of a same sex adult witness. School officials may only conduct a strip search in cases where it is necessary to avoid the imminent threat of death or great bodily injury to the student or another person. If a strip search must be conducted by a school official, it must be by a same sex official with a same sex adult witness, and

the school official must have the prior approval of the superintendent or superintendent's designee, unless the health or safety of the student is endangered by the delay.

LOCKER AND DESK SEARCHES

Student lockers and desks are school property and remain at all times under the control of the school; however, students are expected to assume full responsibility for the security of their lockers and are responsible for the content of their assigned locker at all times. Periodic general inspections of lockers and desks may be conducted by school authorities for any reason at any time without notice, without student consent and without a search warrant.

AUTOMOBILE SEARCHES

Students are permitted to park on school premises as a matter of privilege, not of right. The school retains authority to conduct routine patrols of student parking lots and inspections of the exteriors of student automobiles on school property. The interiors of student vehicles may be inspected whenever a school official has reasonable suspicion to believe that the student has violated or is about to violate the law or a school rule and that the search will yield evidence of the violation, or that illegal or unauthorized materials or other evidence of illegal or otherwise prohibited activities are contained inside the automobile. Such patrols and inspections may be conducted without notice, without student consent and without a search warrant.

COMPUTER SEARCHES

The school computer system, as defined in Policy GAB/IIBEA Acceptable Computer System Use, is school property. Students are only authorized to use the school's computer system and other similar educational technology consistent with the educational mission of the school and in accordance with Policy GAB/IIBEA Acceptable Computer System Use. School officials may search school computers, software and internet access records at any time for any reason and without student consent.

CONSENT SEARCHES

If a student gives a school official consent for a search the school official does not need to demonstrate reasonable suspicion. A student's consent is only valid if given willingly and with knowledge of the meaning of consent. Students should be told of their right to refuse to be searched, and students must not perceive themselves to be at risk of punishment for refusing to grant permission for the search.

SEIZURE OF ILLEGAL MATERIALS

If a properly conducted search yields illegal or contraband materials, such findings shall be turned over to proper legal authorities for ultimate disposition.

INTERVIEWS OF STUDENTS

When a law enforcement officer or employee of the Child Protective Services Unit of the Social Services Department calls at the school, whether to question a student or to serve a court order or arrest warrant, the principal shall lend his or her full cooperation.

1. Criminal Investigations
Should a law enforcement officer wish to interrogate a non-adult student during an investigation of possible criminal activity by the student, the student must be asked if he/she wishes for a parent, or his/her attorney to be present. If he/she does not, the school officials must make a good faith effort to contact the student's parents or guardian prior to the beginning of the interrogation and it is mandatory that the principal or his/her representative be present as an observer. However, the interrogation must be conducted by the officer and not by the principal or representative.
2. Student Interviews
Except in Child Protective Services cases, should a law enforcement officer wish to speak with a non-adult student about matters which do not involve possible criminal activity by the student, the student should be asked if he or she wants a parent or attorney to be present. If he or she does not, the principal or his representative should be present as an observer.
3. Child Protective Services Investigators
Because of the sensitive nature of Child Protective Services cases, Child Protective Services Unit employees and law enforcement officers investigating Child Protective Services cases are permitted by state law to interview students outside the presence of school personnel, parents, or attorneys, Virginia Code Section 63.1-248.10. School officials are expected to cooperate fully in maintaining strict confidentiality in Child Protective Services investigations. School officials should adhere to requests of Child Protective Services officers as to whether or not parents are to be informed of Protective Services investigations.

3. The school system may inspect the interiors of student automobiles whenever a school authority has reasonable suspicion to believe illegal or unauthorized materials are contained inside the automobiles;
4. Such patrols and inspections may be conducted without notice, without student consent, and without a search warrant; and
5. Failure to provide access to the interior of a student's car upon request by a school official, will subject the student to school disciplinary action.

It shall be the policy of the Scott County School Board that:

1. Student lockers are the property of the school system;
2. Student lockers remain at all times under the control of the school system;

All school parking lots are under the jurisdiction, ownership, and control of the Scott County School Board and are available only for use by school personnel, students, and authorized visitors.

All such use is subject to regulations issued by the Superintendent of the Scott County School System in cooperation with the principal of the local school.

Such regulations shall contain the following minimal requirements as to the high schools, vocational center and middle and intermediate schools:

1. All students who drive motor vehicles to and from the high schools and vocational center shall be fully licensed drivers. Permission must be obtained from the principal to drive to and from school. Special permission must be obtained from the vocational school principal and the high school principal to drive to and from vocational school.

5. If there are insufficient parking spaces on the school campus to accommodate the requests, parking spaces will be assigned on the basis of criteria developed and the Superintendent working with the school principal.
6. Student motor vehicles are subject to search in accordance with School Board Policy Manual and Code of Student Conduct.
7. Any student who rides as a passenger to and from school with another student must have specific written permission to do so from the parent/guardian of the passenger and from the registered driver of the vehicle on file in the school principal's office. The principal has final approval of this request. Students will not be permitted to ride with other students to vocational school.
8. As provided in Virginia Code Section 46.2-1231, any vehicle parked on a school parking lot in violation of this policy and the regulations issued pursuant to this policy, will be subject to removal by towing or otherwise to a licensed garage for storage until called for by its owner or his/her agent. However, prior notice of towing or removal shall be first given to a local law enforcement officer. If the vehicle is removed and stored, the vehicle owner shall be responsible for cost of such removal and storage. If the owner of the trespassing vehicle is present and removes the trespassing vehicle before it is actually towed, the trespassing vehicle shall not be towed, but the owner of the trespassing vehicle shall be liable for a fee of \$25.00 (twenty-five dollars).
9. Any vehicle requiring more than one parking space must have prior approval from the principal.

This section shall not apply to police, fire or public health vehicles or where a vehicle, because of a wreck or other emergency is parked or left temporarily.

In addition to the foregoing, any violation by a student shall be treated as a violation of required student conduct and disciplined accordingly.

PROHIBITION AGAINST HARASSMENT AND RETALIATION

VIII. I. Policy Statement

The Scott County School Board is committed to maintaining an educational environment and workplace that is free from harassment. In accordance with law, the Board prohibits harassment against students, employees, or others on the basis of sex, sexual orientation, gender, gender identity, race, color, national origin, disability, religion, ancestry, age, marital status, pregnancy, childbirth or related medical conditions, status as a veteran, genetic information or any other characteristic protected by law or based on a belief that such characteristic exists, hereinafter referred to as protected group status, at school or any school sponsored activity.

It is a violation of this policy for any student or school personnel to harass a student or school personnel based on protected group status at school or any school sponsored activity. Further, it is a violation of this policy for any school personnel to tolerate harassment based on a student's or employee's protected group status at school or any school sponsored activity, by students, school personnel or third parties participating in, observing or otherwise engaged in school sponsored activities.

For the purpose of this policy, school personnel includes School Board members, school employees, agents, volunteers, contractors or other persons subject to the supervision and control of the school division.

The school division

- promptly investigates all complaints, written or verbal, of harassment based on protected group status at school or any school sponsored activity;
- promptly takes appropriate action to stop any harassment;
- takes appropriate action against any student or school personnel who violates this policy; and
- takes any other action reasonably calculated to end and prevent further harassment of school personnel or students.

IX. Definitions

The Compliance Officer is the person designated by the School Board to receive complaints of harassment referred by the Title IX Coordinator and oversee investigation of those complaints as described below.

"Consent" is clear, unambiguous, and voluntary agreement between the participants to engage in specific sexual activity.

Prohibited Conduct

Harassment Based on Sex

Harassment based on sex consists of unwelcome sexual advances, requests for sexual favors, sexually motivated physical conduct or other verbal or physical conduct or communication, which may include use of cell phones or the internet, of a sexual nature when submission to that conduct or communication is made a term or condition, either explicitly or implicitly, of obtaining or retaining employment or education; submission to or rejection of the conduct or communication by an individual is used as a factor in decisions affecting that individual's employment or education; or that conduct or communication substantially or unreasonably interferes with an individual's employment or education, or creates an intimidating, hostile or offensive employment or educational environment (i.e. the conduct is sufficiently serious to limit a student's or employee's ability to participate in or benefit from the educational program or work environment).

Examples of conduct which may constitute harassment based on sex if it meets the immediately preceding definition include:

- unwelcome sexual physical contact
- unwelcome ongoing or repeated sexual flirtation or propositions, or remarks
- sexual slurs, leering, epithets, threats, verbal abuse, derogatory comments or sexually degrading descriptions
- graphic comments about an individual's body
- sexual jokes, notes, stories, drawings, gestures or pictures

- displaying sexual objects, pictures, cartoons or posters
- impeding or blocking movement in a sexually intimidating manner
- sexual violence
- display of written materials, pictures, or electronic images

- unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the School Board's education program or activity; or
- "sexual assault" as defined in 20 U.S.C. § 1092(f)(6)(A)(v), "dating violence" as defined in 34 U.S.C. § 12291(a)(10), "domestic violence" as defined in 34 U.S.C. § 12291(a)(8), or "stalking" as defined in 34 U.S.C. § 12291(a)(30).

Harassment Based on Race, National Origin, Disability or Religion

Harassment based on race, national origin, disability or religion consists of physical or verbal conduct, which may include use of cell phones or the internet, relating to an individual's race, national origin, disability or religion when the conduct

- creates an intimidating, hostile or offensive working or educational environment;
- substantially or unreasonably interferes with an individual's work or education; or
- otherwise is sufficiently serious to limit an individual's employment opportunities or to limit a student's ability to participate in or benefit from the education program.

Examples of conduct which may constitute harassment based on race, national origin, disability or religion if it meets the immediately preceding definition include:

- graffiti containing racially offensive language
- name calling, jokes or rumors

Complaints of harassment may also be made to the Alternate Compliance Office **Jason Smith**, jason.smith@scottschools.com, or **Jennifer Frazier**, jennifer.frazier@scottschools.com, **340 East Jackson Street, Gate City, VA 24251, 276-386-6118**.

X. Complaint Procedures

Report

Any student or school personnel who believes he or she has been the victim of harassment prohibited by law or by this policy by a student, school personnel or a third party should report the alleged harassment to the Title IX Coordinator or to any school personnel. The alleged harassment should be reported as soon as possible, and the report generally should be made within fifteen (15) school days of the occurrence. Further, any student who has knowledge of conduct which may constitute prohibited harassment should report such conduct to the Title IX Coordinator or to any school personnel. Any school personnel who has notice that a student or other school personnel may have been a victim of prohibited harassment shall immediately report the alleged harassment to the Title IX Coordinator. Any complaint that involves the Title IX Coordinator should be reported to the superintendent.

The reporting party should use the form, Report of Harassment, GBA-F/JFHA-F, to make complaints of harassment. However, oral reports and other written reports are also accepted.

The complaint, and identity of the person allegedly harassed and alleged harasser, will be disclosed only to the extent necessary to fully investigate the complaint and only when such disclosure is required or permitted by law. Additionally, a person allegedly harassed who wishes to remain anonymous shall be advised that such confidentiality may limit the School Division’s ability to fully respond to the complaint.

After receiving a complaint, the Title IX Coordinator makes an initial determination whether the allegations may be sexual harassment prohibited by Title IX. If they may be, the Title IX Grievance Process below is followed. If they cannot be sexual harassment prohibited by Title IX, then the complaint is referred to the Compliance Officer who follows the procedures below.

The Title IX Coordinator also determines whether the alleged harassment may also constitute criminal conduct and ensures that law enforcement officials are notified if necessary.

If the alleged harassment may also constitute child abuse, then it must be reported to the Department of Social Services in accordance with Policy GAE Child Abuse and Neglect Reporting.
Investigation by Compliance Officer

Generally

The Compliance Officer

- receives complaints of harassment referred by the Title IX Coordinator;
- conducts or oversees the investigation of any alleged harassment referred by the Title IX Coordinator;
- assesses the training needs of the school division in connection with complaints referred by the Title IX Coordinator;
- arranges necessary training; and
- ensures that any harassment investigation is conducted by an impartial investigator who is trained in the requirements of equal employment/education opportunity and has the authority to protect the alleged victim and others during the investigation.

Compliance Officer Formal Procedure

Upon receiving a referral of a complaint of alleged prohibited harassment from the Title IX Coordinator, the Compliance Officer shall immediately authorize or undertake an investigation. The investigation may be conducted by school personnel or a third party designated by the school division. The investigation shall be completed as soon as practicable, which generally should be not later than 14 school days after referral of the complaint to the Compliance Officer. Upon receiving the complaint, the Compliance Officer shall acknowledge receipt of the complaint by giving written notice that the complaint has been received to both the person complaining of harassment and the person accused of harassment. Also upon receiving the complaint, the Compliance Officer shall determine whether interim measures should be taken pending the outcome of the investigation. Such interim measures may include, but are not limited to, separating the alleged harasser and the person allegedly harassed. If the Compliance Officer determines that more than 14 school days will be required to investigate the complaint, the person allegedly harassed and the alleged harasser shall be notified of the reason for the extended investigation and of the date by which the investigation will be concluded.

The investigation may consist of personal interviews with the person allegedly harassed, the alleged harasser and any others who may have knowledge of the alleged harassment or the circumstances giving rise to the complaint. The investigation will consider witnesses and evidence from both the alleged harasser and the person allegedly harassed. The investigation may also consist of the inspection of any other documents or information deemed relevant by the investigator. The school division shall take necessary steps to protect the person allegedly harassed and others pending the completion of the investigation.

In determining whether alleged conduct constitutes a violation of this policy, the division shall consider, at a minimum: (1) the surrounding circumstances; (2) the nature of the behavior; (3) past incidents or past or continuing patterns of behavior; (4) the relationship between the parties; (5) how often the conduct occurred; (6) the identity of the alleged perpetrator in relation to the alleged victim (i.e. whether the alleged perpetrator was in a position of power over the alleged victim); (7) the location of the alleged harassment; (8) the ages of the parties and (9) the context in which the alleged incidents occurred. Whether a particular action or incident constitutes a violation of this policy requires a case by case determination based on all of the facts and circumstances revealed after a complete and thorough investigation.

The Compliance Officer shall issue a written report to the superintendent upon completion of the investigation. If the complaint involves the superintendent, then the report shall be sent to the School Board. The report shall include a determination of whether the allegations are substantiated, whether this policy was violated and recommendations for corrective action, if any.

All employees shall cooperate with any investigation of alleged harassment conducted under this policy or by an appropriate state or federal agency.

Action by Superintendent

Within 5 school days of receiving the Compliance Officer's report, the superintendent or superintendent's designee shall issue a decision regarding whether this policy was violated. This decision must be provided in writing to the person allegedly harassed and the alleged harasser. If the superintendent or superintendent's designee determines that it is more likely than not that prohibited harassment occurred, the BLANK School Division shall take prompt, appropriate action to address and remedy the violation as well as prevent any recurrence. Such action may include discipline up to and including expulsion or discharge. Whether or not the superintendent or superintendent's designee determines that prohibited harassment occurred, the superintendent or superintendent's designee may determine that school-wide or division-wide training be conducted or that the person allegedly harassed receives counseling.

Appeal

If the superintendent or superintendent's designee determines that no prohibited harassment occurred, the employee or student who was allegedly subjected to harassment may appeal this finding to the School Board within 5 school days of receiving the decision. Notice of appeal must be filed with the superintendent who shall forward the record to the School Board. The School Board shall make a decision within 30 calendar days of receiving the record. The School Board may ask for oral or written argument from the aggrieved party, the superintendent and any other individual the School Board deems relevant. Written notice of the School Board's decision will be given to both the alleged harasser and the person allegedly harassed.

If the superintendent or superintendent's designee determines that prohibited harassment occurred and discipline is imposed, the disciplined person may appeal the disciplinary sanction in the same manner as any other such sanction would be appealed.

Employees may choose to pursue their complaints under this policy through the relevant employee grievance procedure instead of the complaint procedure in this policy.

Compliance Officer Informal Procedure

If the person allegedly harassed and the person accused of harassment agree, the person allegedly harassed' s principal or principal's designee or supervisor may arrange for them to resolve the complaint informally with the help of a counselor, teacher or administrator.

If the person allegedly harassed and the person accused of harassment agree to resolve the complaint informally, they shall each be informed that they have the right to abandon the informal procedure at any time in favor of the initiation of the Compliance Officer Formal Procedures set forth herein. The principal or principal's designee or supervisor shall notify the person allegedly harassed and the person accused of harassment in writing when the complaint has been resolved. The written notice shall state whether prohibited harassment occurred.

Sexual Harassment Prohibited by Title IX

Definitions

"Actual knowledge" means notice of sexual harassment prohibited by Title IX or allegations of sexual harassment prohibited by Title IX to the Title IX Coordinator or any official of the school division who has authority to institute corrective measures or to any employee of an elementary or secondary school.

"Complainant" means an individual who is alleged to be the victim of conduct that could constitute sexual harassment prohibited by Title IX.

"Formal complaint" means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment prohibited by Title IX against a respondent and requesting that the allegation be

investigated. A formal complaint may be filed with the Title IX Coordinator in person, by mail, or by electronic mail. When the Title IX Coordinator signs a formal complaint, the Title IX Coordinator is not a complainant or otherwise a party. The allegations in a formal complaint must be investigated. In response to a formal complaint, the Title IX Grievance Process below is followed.

“Program or activity” includes locations, events or circumstances over which the School Board exercises substantial control over both the respondent and the context in which the sexual harassment occurs.

“Respondent” means an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment prohibited by Title IX.

“Supportive measures” means non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures are designed to restore or preserve equal access to the School Board’s education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the educational environment, or deter sexual harassment. Supportive measures may include counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, campus escort services, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security or monitoring of parts of campus, and other similar measures. Any supportive measures provided to the complainant or respondent are maintained as confidential, to the extent that maintaining such confidentiality does not impair the ability to provide supportive measures. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.

Title IX Grievance Process

Generally

Any person may report sex discrimination prohibited by Title IX, including sexual harassment (whether or not the person reporting is the person alleged to be the victim of conduct that could constitute sex discrimination or sexual harassment), in person, by mail, by telephone, or by electronic mail, using the contact information listed for the Title IX Coordinator or by any other means that results in the Title IX Coordinator receiving the person’s verbal or written report. The reporting party may use the form, Report of_Harassment, GBA-F/JFHA-F, to make a complaint. Such a report may be made at any time, including non-business hours, by using the telephone number or electronic mail address, or by mail to the office address listed for the Title IX Coordinator.

Complainants and respondents are treated equitably by offering supportive measures to a complainant and by following this grievance process before the imposition of any disciplinary sanctions or other actions that are not supportive measures against a respondent.

The Title IX Coordinator promptly contacts the complainant to discuss the availability of supportive measures, consider the complainant’s wishes with respect to supportive measures, inform the complainant of the availability of supportive measures with or without the filing of a formal complaint, and explain the process for filing a formal complaint.

Applicants for admission and employment, students, parents or legal guardians, employees, and all unions or professional organizations holding collective bargaining or professional agreements with the School Board are notified

- of the name or title, office address, electronic mail address, and telephone number of the Title IX Coordinator; and
- that the School Board does not discriminate on the basis of sex in its education program or activity and that it is required by Title IX not to discriminate in such a manner. The notification states that the

requirement not to discriminate extends to admission and employment and that inquiries about the application of Title IX may be referred to the Title IX Coordinator, the Assistant Secretary for Civil Rights of the United States Department of Education, or both.

The School Board prominently displays the contact information for the Title IX Coordinator and this policy on its website and in each handbook or catalog it makes available to persons listed above who are entitled to notifications.

Nothing herein precludes a respondent from being removed from the School Board's education program or activity on an emergency basis, provided that an individualized safety and risk analysis determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of sexual harassment justifies removal, and that the respondent is provided with notice and an opportunity to challenge the decision immediately following the removal.

Nothing herein precludes a non-student employee respondent from being placed on administrative leave during the pendency of a grievance process

This grievance process treats complainants and respondents equitably by providing remedies to a complainant where a determination of responsibility for sexual harassment has been made against the respondent, and by following this process before the imposition of any disciplinary sanctions or other actions that are not supportive measures against a respondent. Remedies are designed to restore or preserve equal access to the School Board's education program or activity.

The respondent is presumed not responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the grievance process.

All relevant evidence is evaluated objectively, including both inculpatory and exculpatory evidence. Credibility determinations are not based on a person's status as a complainant, respondent, or witness.

Any Title IX Coordinator, investigator, decision-maker, or any person who facilitates an informal resolution process may not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent.

Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process receives training on the definition of sexual harassment prohibited by Title IX, the scope of the School Board's education program or activity, how to conduct an investigation and grievance process including appeals, and informal resolution processes, and how to serve impartially, including by avoiding prejudgment of the facts at issue, conflicts of interest, and bias. Decision-makers receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant. Investigators receive training on issues of relevance in order to create investigative reports that fairly summarize relevant evidence.

A finding of responsibility may result in disciplinary action up to and including expulsion for students or dismissal of employees.

The standard of evidence used to determine responsibility is preponderance of the evidence.

This grievance process does not allow, rely upon, or otherwise use questions or evidence that constitute, or seek disclosure of, information protected under a legally recognized privilege unless the person holding such privilege has waived the privilege.

Notice of Allegations

On receipt of a formal complaint, the Title IX coordinator gives the following written notice to the parties who are known:

- notice of the grievance process, including any informal resolution process, and
- notice of the allegations of sexual harassment potentially constituting sexual harassment prohibited by title IX, including sufficient details known at the time and with sufficient time to prepare a response before any initial interview. Sufficient details include the identities of the parties involved in the incident, if known, the conduct allegedly constituting sexual harassment prohibited by Title IX, and the date and location of the alleged incident, if known.

The written notice

- includes a statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the grievance process;
- informs the parties that they may have an advisor of their choice, who may be, but is not required to be, an attorney, and may inspect and review evidence; and
- informs the parties of any provisions in the School Board's code of conduct or the superintendent's Standards of Student Conduct that prohibit knowingly making false statements or knowingly submitting false information during the grievance process.

If, in the course of an investigation, the investigator decides to investigate allegations about the complainant or respondent that are not included in the notice previously provided, notice of the additional allegations is provided to the parties whose identities are known.

Dismissal of formal complaints

A formal complaint or any allegations therein must be dismissed if the conduct alleged in the complaint

- would not constitute sexual harassment prohibited by title IX even if proved,
- did not occur in the School Board's education program or activity, or
- did not occur against a person in the United States.

Such a dismissal does not preclude action under another provision of the School Board's code of conduct or the superintendent's Standards of Student Conduct.

A formal complaint or any allegations therein may be dismissed if at any time during the investigation:

- a complainant notifies the Title IX Coordinator in writing that the complainant would like to withdraw the formal complaint or any allegations therein;
- the respondent is no longer enrolled or employed by the School Board; or
- specific circumstances prevent the School Board from gathering evidence sufficient to reach a determination as to the formal complaint or allegations therein.

Investigation of formal complaint

When investigating a formal complaint and throughout the grievance process, the burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the School Board and not on the parties provided that a party's records that are made or maintained by a physician, psychologist, or other recognized professional or paraprofessional acting in the professional's or paraprofessional's capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party are not accessed, considered, disclosed or otherwise used without the voluntary, written consent of the party's parent, or the party if the party is an eligible student, to do so for this grievance procedure.

The parties have an equal opportunity to present witnesses, including fact and expert witnesses, and other inculpatory and exculpatory evidence.

The ability of the parties to discuss the allegations under investigation or to gather and present relevant evidence is not restricted.

The parties have the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney. The choice or presence of advisor for either the complainant or respondent is not limited in any meeting or grievance proceeding.

Any party whose participation is invited or expected is provided written notice of the date, time, location, participants, and purpose of all investigative interviews or other meetings with sufficient time for the party to prepare to participate.

The investigator provides both parties an equal opportunity to inspect and review any evidence obtained as part of the investigation that is directly related to the allegations raised in a formal complaint, including the evidence which will not be relied upon in reaching a determination regarding responsibility and inculpatory or exculpatory evidence whether obtained from a party or other source, so that each party can meaningfully respond to the evidence prior to conclusion of the investigation. Prior to the completion of the investigative report, the investigator must send to each party and the party's advisor, if any, the evidence subject to inspection and review in an electronic format or a hard copy, and the parties must have at least 10 days to submit a written response, which the investigator will consider prior to completion of the investigative report.

The investigator creates an investigative report that fairly summarizes relevant evidence and, at least 10 days prior to the time a determination regarding responsibility is made, sends to each party and the party's advisor, if any, the investigative report in an electronic format or a hard copy, for their review and written response.

After the investigator has sent the investigative report to the parties and before reaching a determination regarding responsibility, the decision-maker must afford each party the opportunity to submit written, relevant questions that the party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party. Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. The decision-maker(s) must explain to the party proposing the question any decision to exclude a question as not relevant.

Determination regarding responsibility

The decision-maker, who cannot be the same person as the Title IX Coordinator or the investigator, must issue a written determination regarding responsibility.

The written determination must include

- identification of the allegations potentially constituting sexual harassment prohibited by Title IX;
- a description of the procedural steps taken from the receipt of the formal complaint through the determination, including any notifications to the parties, interviews with parties and witnesses, site visits, and methods used to gather other evidence;
- findings of fact supporting the determination;
- conclusions regarding the application of the School Board's code of conduct or the superintendent's Standards of Student Conduct to the facts;
- a statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility, any disciplinary sanctions the School Board imposes on the respondent, and whether

remedies designed to restore or preserve equal access to the School Board's education program or activity will be provided to the complainant; and

- the procedures and permissible bases for the complainant and respondent to appeal.

The decision-maker must provide the written determination regarding responsibility to the parties simultaneously.

The determination regarding responsibility becomes final either on the date that the parties are provided with the written determination of the result of the appeal, if an appeal is filed, or, if an appeal is not filed, the date on which an appeal would no longer be considered timely.

The Title IX Coordinator is responsible for effective implementation of any remedies.

Appeals

Either party may appeal from a determination regarding responsibility or from a dismissal of a formal complaint or any allegations therein, on the following bases:

- procedural irregularity that affected the outcome of the matter;
- new evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter; and
- the Title IX Coordinator, investigator, or decision-maker had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter.

Notification of appeal must be given in writing to the Title IX Coordinator.

As to all appeals, the Title IX Coordinator

- notifies the other party in writing when an appeal is filed and implements appeal procedures equally for both parties;
- ensures that the decision-maker for the appeal is not the same person as the decision-maker that reached the determination regarding responsibility or dismissal, the investigator, or the Title IX Coordinator; and
- ensures that the decision-maker for the appeal complies with the standards set forth in title IX and this policy.

The appeal decision-maker

- gives both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome;
- reviews the evidence gathered by the investigator, the investigator's report, and the decision-maker's written decision;
- issues a written decision describing the result of the appeal and the rationale for the result; and
- provides the written decision simultaneously to both parties and the Title IX Coordinator.

Timelines

The investigative report will be provided to the parties within 35 days from the date the formal complaint is filed.

A decision will be issued within 10 working days from the date the investigative report is submitted to the decision-maker.

Either party may appeal within 5 working days from the date the written determination regarding responsibility is given to the parties.

Any appeal will be resolved with 15 calendar days from the filing of the appeal.

If the parties agree to an informal resolution process, these deadlines are tolled from the time one party requests an informal resolution process until either the time the other party responds, if that party does not agree to the informal resolution process, or until either party withdraws from the informal resolution process.

Temporary delays of the grievance process or the limited extension of time frames for good cause with written notice to the complainant and the respondent of the delay or extension and the reasons for the action are permitted. Good cause may include considerations such as the absence of a party, a party's advisor, or a witness; concurrent law enforcement activity; disciplinary processes required by law or School Board policy; or the need for language assistance or accommodation of disabilities.

Informal Resolution Process

At any time during the formal complaint process and prior to reaching a determination regarding responsibility, the parties may participate in an informal resolution process, such as mediation, that does not involve a full investigation and determination of responsibility. When one party requests an informal resolution process, the other party must respond to the request within 3 days. The informal resolution process must be completed within 10 days of the agreement to participate in the process.

The informal resolution process may be facilitated by a trained educational professional, consultant, or other individual selected by the Title IX Coordinator under the following conditions:

- the parties are provided a written notice disclosing the allegations, the requirements of the informal resolution process, including the circumstances under which it precludes the parties from resuming a formal complaint arising from the same allegations; provided, however that at any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process, resume the grievance process with respect to the formal complaint, and be informed of any consequences resulting from participating in the informal resolution process, including the records that will be maintained or could be shared;
- the parties, voluntarily and in writing, consent to the informal resolution process; and
- the informal resolution process cannot be used to resolve allegations that an employee sexually harassed a student.

If the matter is resolved to the satisfaction of the parties, the facilitator shall document the nature of the complaint and the resolution, have both parties sign the documentation and receive a copy, and forward it to the Title IX Coordinator. If the matter is not resolved, the formal complaint process is resumed.

Parties cannot be required to participate in an informal resolution process.

An informal resolution process is not offered unless a formal complaint is filed.

Recordkeeping

The School Board will maintain for a period of seven years records of:

- each investigation of allegations of sexual harassment prohibited by Title IX including any determination regarding responsibility and any audio or audiovisual recording or transcript, if any, required under the Title IX regulations, any disciplinary sanctions imposed on the respondent, and any remedies provided to the complainant designed to restore or preserve equal access to School Board's education program or activity;

- any appeal and the result therefrom;
- any informal resolution and the result therefrom; and
- all materials used to train Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process. These materials will also be made available on the School Board's website.

For each response required under 34 C.F.R. § 106.44, the School Board must create, and maintain for a period of seven years, records of any actions, including any supportive measures, taken in response to a report or formal complaint of sexual harassment prohibited by Title IX. In each instance, the School Board will document the basis for its conclusion that its response was not deliberately indifferent, and document that it has taken measures designed to restore or preserve equal access to its education program or activity. If the School Board does not provide a complainant with supportive measures, then it will document the reasons why such a response was not clearly unreasonable in light of the known circumstances.

XI. Retaliation

Retaliation against students or school personnel who report harassment or participate in any related proceedings is prohibited. The school division shall take appropriate action against students or school personnel who retaliate against any student or school personnel who reports alleged harassment or participates in related proceedings. The Title IX Coordinator will inform persons who make complaints, who are the subject of complaints, and who participate in investigations of how to report any subsequent problems.

XII. Right to Alternative Complaint Procedure

Nothing in this policy shall deny the right of any individual to pursue other avenues of recourse to address concerns relating to prohibited harassment including initiating civil action, filing a complaint with outside agencies or seeking redress under state or federal law.

XIII. Prevention and Notice of Policy

Training to prevent harassment prohibited by law or by this policy is included in employee and student orientations as well as employee in-service training.

This policy is (1) displayed in prominent areas of each division building in a location accessible to students, parents and school personnel (2) included in the student and employee handbooks; and (3) sent to parents of all students within 30 calendar days of the start of school. Further, all students, and their parents/guardians, and employees are notified annually of the names and contact information of the Compliance Officers.

XIV. False Charges

Students or school personnel who knowingly make false charges of harassment shall be subject to disciplinary action as well as any civil or criminal legal proceedings.

CORPORAL PUNISHMENT

No teacher, principal or other person employed by the School Board shall subject a student to corporal punishment. This prohibition does not prohibit the use of incidental, minor or reasonable physical contact or other actions designed to maintain order and control or the use of reasonable and necessary force

- to prevent a student from inflicting physical harm on himself;

For the purposes of this policy, "corporal punishment" means the infliction of, or causing the infliction of, physical pain on a student as a means of discipline. II. SUSPENSIONS AND EXPULSIONS OF STUDENTS GENERALLY

Pupils may be suspended or expelled from attendance at school for sufficient cause; however, in no case may sufficient cause for suspension include only instances of truancy.

Except as provided in subsection C of Va. Code § 22.1-277 or Va. Code §§ 22.1-277.07 or 22.1-277.08, no student in preschool through grade three is suspended for more than three school days or expelled from attendance at school, unless (i) the offense involves physical harm or credible threat of physical harm to others or (ii) the School Board or the superintendent or superintendent’s designee finds that aggravating circumstances exist, as defined by the Virginia Department of Education.

Any student for whom the superintendent has received a report pursuant to Va. Code § 16.1-305.1 of an adjudication of delinquency or a conviction for an offense listed in subsection G of Va. Code § 16.1-260 may be suspended or expelled from school attendance.

The authority of teachers to remove students from their classes in certain instances of disruptive behavior shall not be interpreted to affect the operation of this Policy.

The superintendent is responsible for creating procedures to ensure that suspended students are able to access and complete graded work during and after the suspension.

III. SHORT-TERM SUSPENSIONS

A pupil may be suspended for not more than ten school days by either the school, any assistant principal, or, in their absence, any teacher. The principal, assistant principal or teacher may suspend the pupil after giving the pupil oral or written notice of the charges against him and, if he denies them, an explanation of the facts as known to school personnel and an opportunity to present his version of what occurred. In the case of any pupil whose presence poses a continuing danger to persons or property, or whose presence is an ongoing threat of disruption, the pupil may be removed from school immediately and the notice, explanation of facts and opportunity to present his version shall be given as soon as is practical thereafter.

Upon suspension of any pupil, the principal, assistant principal or teacher responsible for such suspension reports the facts of the case in writing to the superintendent or superintendent’s designee and the parent of the pupil suspended. The superintendent or superintendent's designee reviews forthwith the action taken by the

principal, assistant principal or teacher upon a petition for such review by any party in interest and confirms or disapproves such action based on an examination of the record of the pupil's behavior.

The decision of the superintendent or superintendent's designee is final and may not be appealed.

Any oral or written notice to the parent of a student who is suspended from school attendance for not more than ten days includes notification of the length of the suspension, information regarding the availability of community-based educational programs, alternative education programs or other educational options and of the student's right to return to regular school attendance upon the expiration of the suspension. The costs of any community-based educational program, or alternative education program or educational option, which is not a part of the educational program offered by the school division, are borne by the parent of the student.

IV. LONG-TERM SUSPENSION

A pupil may be suspended from attendance at school for 11 to 45 school days after written notice is provided to the pupil and the pupil's parent of the proposed action and the reasons therefor and of the right to a hearing before the School Board Disciplinary Committee. The Disciplinary Committee may confirm or disapprove the suspension. If the Disciplinary Committee's decision is not unanimous, the pupil or the pupil's parent may appeal the Disciplinary Committee's decision to the full School Board. Such appeal shall be decided by the School Board within thirty days.

The written notice of a suspension for 11 to 45 school days includes notification of the length of the suspension and provides information concerning the availability of community-based educational, alternative education or intervention programs. Such notice also states that the student is eligible to return to regular school attendance upon the expiration of the suspension or to attend an appropriate alternative education program approved by the School Board during or upon the expiration of the suspension. The costs of any community-based educational, alternative education, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his suspension is borne by the parent of the student.

A long-term suspension may extend beyond a 45-school-day period but shall not exceed 364 calendar days if (i) the offense is one described in Va. Code §§ 22.1-277.07 or 22.1-277.08 or involves serious bodily injury or (ii) a committee of the School Board or the division superintendent or superintendent's designee finds that aggravating circumstances exist, as defined by the Virginia Department of Education.

Nothing herein shall be construed to prohibit the School Board from permitting or requiring students suspended pursuant to this section to attend an alternative education program provided by the School Board for the term of such suspension.

V. EXPULSION

A. Generally

Pupils may be expelled from attendance at school after written notice to the pupil and the pupil's parent of the proposed action and the reasons therefor and of the right to a hearing before the School Board Disciplinary Committee.

The School Board Disciplinary Committee may confirm or disapprove the expulsion of a student. If the Committee's decision is not unanimous, the pupil or the pupil's parent may appeal the Committee's decision to the full School Board. Such appeal is decided by the School Board within 30 days.

The Committee confirms or disapproves of proposed expulsions regardless of whether the pupil has exercised the right to a hearing.

The written notice given to the pupil and the pupil's parent includes notification of the length of the expulsion and provides information concerning the availability of community-based educational, training, and intervention programs. The notice states whether or not the student is eligible to return to regular school attendance, or to attend an appropriate alternative education program approved by the School Board, or an adult education program offered by the school division, during or upon the expiration of the expulsion, and the terms or conditions of such readmission. The costs of any community-based educational, training, or intervention program that is not a part of the educational program offered by the school division that the student may attend during the expulsion is borne by the parent of the student.

Nothing in this section shall be construed to prohibit the School Board from permitting or requiring students expelled pursuant to this Policy to attend an alternative education program provided by the School Board for the term of such expulsion.

If the School Board determines that the student is ineligible to return to regular school attendance or to attend during the expulsion an alternative education program or an adult education program in the school division, the written notice also advises the parent of such student that the student may petition the School Board for readmission to be effective one calendar year from the date of the expulsion, and of the conditions, if any, under which readmission may be granted.

B. Conduct Giving Rise to Expulsion

Recommendations for expulsions for actions other than those specified below are based on consideration of the following factors:

- the nature and seriousness of the conduct;
- the degree of danger to the school community;
- the student's disciplinary history, including the seriousness and number of previous infractions;
- the appropriateness and availability of an alternative education placement or program;
- the student's age and grade level;
- the results of any mental health, substance abuse or special education assessments;
- the student's attendance and academic records; and
- other appropriate matters.

No decision to expel a student shall be reversed on the grounds that such factors were not considered. Nothing in this subsection precludes the School Board from considering any of the factors listed above as "special circumstances" for purposes of expulsions discussed in the following subsections.

Firearms, Destructive Devices and Pneumatic Guns

The School Board shall expel from school attendance for a period of not less than one year any student whom the School Board has determined to have possessed a firearm on school property or at a school-sponsored activity as prohibited by Va. Code § 18.2-308.1, or to have possessed a firearm or destructive device as defined in this Policy, a firearm muffler or firearm silencer, or a pneumatic gun as defined in this Policy on school property or at a school-sponsored activity. A school administrator or the School Board may, however, determine, based on the facts of a particular situation, that special circumstances exist and no disciplinary action or another disciplinary action or another term of expulsion is appropriate. The School Board may promulgate guidelines for determining what constitutes special circumstances. In addition, the School Board authorizes the superintendent or superintendent's designee to conduct a preliminary review of such cases to determine whether a disciplinary action other than expulsion is appropriate. Nothing in this section shall be construed to require a student's expulsion regardless of the facts of the particular situation.

The exemptions set out in Va. Code § 18.2-308 regarding concealed weapons apply, *mutatis mutandis*, to the provisions of this Policy. The provisions of this section do not apply to students who possess such firearm or

firearms or pneumatic guns as a part of the curriculum or other programs sponsored by the schools in the school division or any organization permitted to use school premises.

Drug Offenses

The School Board shall expel from school attendance any student whom the School Board has determined to have brought a controlled substance, imitation controlled substance or marijuana as defined in Va. Code § 18.2-247 onto school property or to a school-sponsored activity. The School Board may, however, determine, based on the facts of the particular case, that special circumstances exist and another disciplinary action is appropriate. In addition, the School Board authorizes the superintendent or the superintendent's designee to conduct a preliminary review of such cases to determine whether a disciplinary action other than expulsion is appropriate. Nothing in this section shall be construed to require a student's expulsion regardless of the facts of the particular situation.

C. Procedure for School Board Disciplinary Committee Hearing

The procedure for the Disciplinary Committee hearing is as follows:

- The Disciplinary Committee determines the propriety of attendance at the hearing of persons not having a direct interest in the hearing. The hearing is private unless otherwise specified by the Disciplinary Committee.
- The Disciplinary Committee may ask for opening statements from the principal or principal's representative and the student or student's parent(s) (or their representative) and, at the discretion of the Disciplinary Committee, may allow closing statements.
- The parties then present their evidence. Because the principal has the ultimate burden of proof, he presents his evidence first. Witnesses may be questioned by the Disciplinary Committee members and by the parties (or their representative). The Disciplinary Committee may, at its discretion, vary this procedure, but it shall afford full opportunity to both parties for presentation of any material or relevant evidence and shall afford the parties the right of cross-examination provided, however, that the Disciplinary Committee may take the testimony of student witnesses outside the presence of the student, the student's parent(s) and their representative if the Disciplinary Committee determines, in its discretion, that such action is necessary to protect the student witness.
- The parties shall produce such additional evidence as the Disciplinary Committee may deem necessary. The Disciplinary Committee is the judge of the relevancy and materiality of the evidence.
- Exhibits offered by the parties may be received in evidence by the Disciplinary Committee and, when so received, are marked and made part of the record.
- The Disciplinary Committee may, by majority vote, uphold, reject or alter the recommendations.
- The Disciplinary Committee transmits its decision, including the reasons therefor, to the student, the student's parent(s), the principal and superintendent.

Following the decision of the Disciplinary Committee or upon expiration of the appeal period, the student's parent(s) or guardian is provided with written notice which includes the following:

- the terms or conditions of re-admission, if any;
- the duration of expulsion;
- a statement declaring whether the student is eligible to return to school or attend an appropriate alternative education program approved by the School Board or an adult education program offered by the division during or after the expulsion. If neither option applies, a statement that the student may petition the School Board for readmission after one calendar year from the date of his expulsion; and
- the availability of community-based educational, training and intervention programs.

The student or student's parent(s) may appeal the Disciplinary Committee's decision to the full School Board only if the decision of the Disciplinary Committee is not unanimous. Otherwise the decision of the Disciplinary Committee is final.

The appeal to the full School Board must be in writing and must be filed with the superintendent within five (5) calendar days of the Committee's decision. Failure to file a written appeal within the specified time constitutes a waiver of the right to an appeal. The full School Board decides the appeal upon the record of the case within thirty (30) calendar days of the request for an appeal and communicates its decision in writing to the student and the student's parent, guardian or other person having control or charge of the student. Such written notice includes any changes in: (1) the duration of the suspension or expulsion; (2) the availability of community-based educational, training, and intervention programs; and/or (3) eligibility to return to school or attend an alternative education program. No statements, witnesses or evidence may be presented at this appeal unless specifically requested by the Chair of the Board.

VI. ALTERNATIVE EDUCATION PROGRAM

The School Board may require any student who has been

- charged with an offense relating to the laws of Virginia, or with a violation of School Board policies, on weapons, alcohol, or drugs, or intentional injury to another person, or with an offense that is required to be disclosed to the superintendent pursuant to Va. Code § 16.1-260.G;
- found guilty or not innocent of an offense relating to Virginia's laws on weapons, alcohol, or drugs, or of a crime that resulted in or could have resulted in injury to others, or of an offense that is required to be disclosed to the superintendent pursuant to Va. Code § 16.1-260.G.;
- found to have committed a serious offense or repeated offenses in violation of School Board policies;
- suspended pursuant to Va. Code § 22.1-277.05; or
- expelled pursuant to Va. Code § 22.1-277.06, 22.1-277.07, or 22.1-277.08 or subsection C of Va. Code § 22.1-277,

to attend an alternative education program.

The School Board may require such student to attend such programs regardless of where the conduct occurred.

The School Board may require any student who has been found to have been in possession of, or under the influence of, drugs or alcohol on a school bus, on school property, or at a school-sponsored activity in violation of School Board policies, to undergo evaluation for drug or alcohol abuse, or both, and, if recommended by the evaluator and with the consent of the student's parent, to participate in a treatment program.

The School Board authorizes the superintendent or superintendent's designee to require students to attend an alternative education program consistent with the provisions of this section after (i) written notice to the student and the student's parent that the student will be required to attend an alternative education program and (ii) notice of the opportunity for the student or the student's parent to participate in a hearing to be conducted by the superintendent or the superintendent's designee regarding such placement. If the student or parent wants to participate in a hearing regarding the placement, the student or parent must notify the superintendent or superintendent's designee within five (5) days of receiving the written notice of the student's assignment to the alternative education program. The decision of the superintendent or superintendent's designee regarding such alternative education placement is final unless altered by the Board upon written petition by the student or student's parent for a review of the record by the School Board. Such petition must be received by the superintendent or superintendent's designee within five (5) days after receiving written notice of the decision after the hearing.

A principal or principal's designee may impose a short-term suspension, pursuant to Va. Code § 22.1-277.04, upon a student who has been charged with an offense involving intentional injury enumerated in Va. Code § 16.1-260.G, to another student in the same school pending a decision as to whether to require that such student attend an alternative education program.

As used in this section, "charged" means that a petition or warrant has been filed or is pending against a pupil.

VII. REPORTING

- A. Except as may otherwise be required by federal law, regulation, or jurisprudence, reports are made to the superintendent and to the principal or principal's designee on all incidents involving
- (1) the assault, or assault and battery, without bodily injury, of any person on a school bus, on school property or at a school-sponsored activity;
 - (2) the assault and battery which results in a bodily injury, sexual assault, death, shooting, stabbing, cutting, or wounding of any person, abduction of any person as described in Va. Code § 18.2-47 or Va. Code § 18.2-48, or stalking of any person as described by Va. Code § 18.2-60.3, on a school bus, on school property or at a school-sponsored activity;
 - (3) any conduct involving alcohol, marijuana, a controlled substance, imitation controlled substance, or an anabolic steroid on a school bus, on school property or at a school-sponsored activity, including the theft or attempted theft of student prescription medications;
 - (4) any threats against school personnel while on a school bus, on school property or at a school-sponsored activity;
 - (5) the illegal carrying of a firearm as defined in Va. Code § 22.1-277.07 onto school property;
 - (6) any illegal conduct involving firebombs, explosive materials or devices or hoax explosive devices, as defined in Va. Code § 18.2-85, or explosive or incendiary devices, as defined in Va. Code § 18.2-433.1, or chemical bombs, as described in Va. Code § 18.2-87.1, on a school bus, on school property or at a school sponsored activity;
 - (7) any threats or false threats to bomb, as described in Va. Code § 18.2-83, made against school personnel or involving school property or school buses;
 - (8) the arrest of any student for an incident occurring on a school bus, on school property or at a school-sponsored activity, including the charge therefor and
 - (9) any illegal possession of weapons, alcohol, drugs or tobacco products.
- B. The superintendent and the principal or principal's designee may receive reports made by local law enforcement authorities on offenses, wherever committed, by students enrolled at the school if the offense would be a felony if committed by an adult or would be a violation of the Drug Control Act, Va. Code § 54.1-3400 et seq., and occurred on a school bus, on school property, or at a school-sponsored activity, or would be an adult misdemeanor involving any incidents described in the clauses (1) through (8) of subsection VII.A. of this Policy, and whether the student is released to the custody of the student's parent or, if 18 years of age or more, is released on bond. A superintendent who receives notification that a juvenile has committed an act that would be a crime if committed by an adult pursuant to subsection G of Va. Code § 16.1-260 reports such information to the principal of the school in which the juvenile is enrolled.
- C. The principal or principal's designee submits a report of all incidents required to be reported pursuant to subsection VII.A.(1-8) of this Policy to the superintendent. The superintendent annually reports all such incidents to the Department of Education.

In submitting reports of such incidents, principals and superintendents accurately indicate any offenses, arrests, or charges as recorded by law-enforcement authorities and required to be reported by such authorities pursuant to subsection VII.B. of this Policy.

- D. The principal or principal's designee also notifies the parent of any student involved in an incident required by this subsection to be reported, regardless of whether disciplinary action is taken against such student or the nature of the disciplinary action. Such notice relates to only the relevant student's involvement and does not include information concerning other students.
- E. Whenever any student commits any reportable incident as set forth in this subsection, such student shall be required to participate in such prevention and intervention activities as deemed appropriate by the superintendent or superintendent's designee.
- F. Except as may otherwise be required by federal law, regulation, or jurisprudence, a principal immediately reports to the local law-enforcement agency any act enumerated in clauses (2) through (7) of subsection VII.A. of this Policy that may constitute a felony offense and may report to the local law enforcement agency any incident described in clause (1) of subsection VII.A. of this Policy.

In addition, except as may be prohibited by federal law, regulation, or jurisprudence, the principal also immediately reports any act enumerated in clauses (2) through (5) of subsection VII.A of this Policy that may constitute a criminal offense to the parents of any minor student who is the specific object of such act. Further, the principal reports whether the incident has been reported to local law enforcement pursuant to this subsection and if the incident is so reported, that the parents may contact local law enforcement for further information, if they so desire.

- G. For purposes of this section, "parent" or "parents" means any parent, guardian or other person having control or charge of a child.

VIII. RE-ADMISSION OF SUSPENDED AND/OR EXPELLED STUDENTS

Any student who has been suspended from a school of this division is not eligible to attend any other school within the division until eligible to return to the student's regular school.

Any student who has been expelled or suspended for more than thirty days from attendance at school by a school board or a private school in this Commonwealth or in another state or for whom admission has been withdrawn by a private school in this Commonwealth or in another state may be excluded from attendance in the BLANK Schools, in accordance with Policy JEC School Admission. In the case of a suspension of more than thirty days, the term of the exclusion may not exceed the duration of such suspension.

In excluding any such expelled student from school attendance, the BLANK School Board may accept or waive any or all of any conditions for readmission imposed upon such student by the expelling school board pursuant to Va. Code § 22.1-277.06. The School Board shall not impose additional conditions for readmission to school.

No suspended student is admitted to the regular school program until such student and the student's parent have met with school officials to discuss improvement of the student's behavior, unless the school principal or principal's designee determines that re-admission, without parent conference, is appropriate for the student.

If the parent fails to comply with this Policy or Policy JEC School Admission, the School Board may ask the Juvenile and Domestic Relations Court to proceed against the parent for willful and unreasonable refusal to participate in efforts to improve the student's behavior.

Upon the expiration of the exclusion period for an expulsion or a withdrawal of admission, which period shall be established by the School Board Disciplinary Committee or superintendent or superintendent's designee, as the case may be at the relevant hearing, the student may re-petition the School Board for admission. If the

petition for admission is rejected, the School Board shall identify the length of the continuing exclusion period and the subsequent date upon which such student may re-petition the School Board for admission.

The School Board may permit students excluded pursuant to this subsection to attend an alternative education program provided by the School Board for the term of such exclusion.

The School Board Disciplinary Committee decision shall be final and may not be appealed to the full School Board if it is unanimous. DISCIPLINING STUDENTS WITH DISABILITIES

Students with disabilities, who violate the student code of conduct, or engage in conduct for which they may be disciplined, will be disciplined in accordance with this policy. Additionally, the regular disciplinary procedures must be followed. School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability as a result of discipline.

I. Long-Term Suspensions, Expulsions or Short-Term Suspensions Which Constitute a Pattern are Long Term Removals and Considered a Disciplinary Change in Placement

For the purpose of removing students with disabilities from their current educational placements, a disciplinary change in placement occurs when:

- (1) the removal is for more than 10 consecutive school days at a time; or
- (2) Pattern analysis: there is a series of removals during the school year, each of which is for 10 days or less and they cumulate to more than 10 days in a school year and constitute a pattern because of:
 - (a) the length of each removal,
 - (b) the proximity of the removals to each other,
 - (c) the total time the student is removed, and
 - (d) the child's behavior is substantially similar to the child's behavior in the series of removals for previous incidents in the school year.
 - (e) The pattern analysis determination is made and documented by the administration.

If the disciplinary action will result in a long term removal, the student's parents must be sent notice of the recommendation of discipline the same day as the decision is made for the disciplinary change in placement and must be provided with a copy of the procedural safeguards. The procedures outlined in Section IV must also be followed.

A parent may request a due process hearing to challenge the pattern analysis determination. For any disciplinary change in placement, a Manifestation Determination Review ("MDR") must be held and the Individualized Education Program (IEP) team must meet to determine the educational services to be provided during the long-term removal.

II. Short-Term Suspensions

A short-term suspension is a suspension of 10 consecutive days or less at a time.

School authorities may remove a student with a disability from his or her current educational setting for 10 school days cumulative in a school year to the extent that such removals would be applied to students without disabilities and for additional short-term suspensions during the school year provided no pattern exists. Short term suspensions which constitute a pattern will be handled through long term removal procedures.

No MDR or IEP meeting is required for a short term removal, although an IEP meeting may be held if needed. Educational services are provided for each day of removal after the first ten days of removal in a school year. Educational services should also be provided during the first ten days of removal if services are provided to a student without disabilities in the same circumstances.

III. Functional Behavior Assessments and Behavior Intervention Plans

If the MDR team members determine that a manifestation exists, the IEP team must:

- conduct a Functional Behavioral Assessment (FBA) and implement a Behavioral Intervention Plan (BIP), if no FBA was conducted previously; or,
- if the student already has an FBA and a BIP in place, review and modify the BIP, as necessary to address the behavior.

If a manifestation is found, the school division and the parent may still agree to a change in placement made through the IEP process. Without this agreement, the student must return to the placement from which the student was removed. Nothing in this section limits the authority of the school division for the first ten days of removal in a school year or for applicable forty-five school day removals.

If the MDR team members determine that there is no manifestation, then the IEP team should decide whether there is a need to conduct or review an FBA and BIP.

IV. Educational Services While Disciplined

For the first 10 days of removal in a school year, the School Board is not required to provide educational services to the student with a disability if services are not provided to students without disabilities who have been similarly removed.

After the first 10 days of removal in a school year, the School Board shall provide educational services to the student during the period of removal. The services must enable the student to:

- 1) continue to progress in the general curriculum, although in another setting, and
- 2) make progress toward meeting the goals set out in the student's IEP.

The determination of the educational services is made by the IEP team if the discipline constitutes a change in placement. For a short term removal which is not a change in placement, the determination of the education services is made by school personnel in consultation with the student's special education teacher.

V. Manifestation Determination Review

When a disciplinary action is proposed that will result in a disciplinary change of placement, an MDR shall be conducted within 10 school days after the date on which the decision to take disciplinary action is made. This review shall be conducted by the Manifestation Team which consists of a local educational agency representative, the parent(s) and relevant members of the IEP team (as determined by the parent and the school division).

The Manifestation Team may determine that the behavior of the student was not a manifestation of such child's disability only if the Team:

- 1) considers all relevant information in the student's file, including the student's IEP, any teacher observations, and any relevant information supplied by the parents; and
- 2) determines that:
 - (a) the conduct in question was not caused by, or did not have a direct and substantial relationship to, the student's disability; and
 - (b) the conduct in question was not the direct result of the school division's failure to implement the IEP.

VI. Disciplinary Action Following an MDR Determination that there is No Manifestation

If the behavior is not a manifestation of the student's disability, the disciplinary procedures will be applied in the same manner as applied to students without disabilities. The student must continue to receive the educational services necessary to enable the student to continue to participate in the general

curriculum, although in another setting, and to progress toward meeting the goals set out in the student's IEP. In addition, the special education and disciplinary records of the student must be made available to the person who makes the final decision regarding the imposition of discipline.

A parent may request an expedited due process hearing if the parent disagrees with the determination that the behavior was not a manifestation of the student's disability or if the parent disagrees with any decision regarding the placement of the student while disciplined. During any appeal, the student will remain in the interim alternative education setting unless reversed by decision of the hearing officer; provided, however, the student may still serve the balance of any applicable forty-five school day removal. The placement may also be changed through the IEP process with the consent of the parent.

VII. Disciplinary Action Following MDR Determination that there is a Manifestation

A student with a disability whose behavior is determined to be a manifestation of his or her disability may not be disciplined except to the extent a removal is otherwise permitted by law. The student may be removed to a more restrictive placement by following change in placement procedures through the IEP process. The IEP team must conduct or review an FBA and/or BIP as provided in Section III.

VIII. Interim Alternative Educational Settings for Weapons, Drugs and Infliction of Serious Bodily Injury

Students with disabilities 1) who carry or possess a weapon to or at school, or on school premises, or to or at a school function under the jurisdiction of a state or local educational agency; 2) who knowingly possess or use illegal drugs or sell or solicit the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of a state or local educational agency; or 3) who inflict serious bodily injury upon another person at school, on school premises, or at a school function under the jurisdiction of a state or local educational agency may be disciplined pursuant to Policies JFCD Weapons in School, JFCF Drugs in School or JGDB Discipline of Students with Disabilities for Infliction of Serious Bodily Injury and may be placed in an interim alternative educational setting for up to forty-five school days. These options are available even if a manifestation exists. If no manifestation is found, the student may be disciplined to the extent a student without disabilities would be disciplined.

Weapons, controlled substance and serious bodily injury have the meaning given under state regulations in 8 VAC 20-81-10.

Any interim alternative educational setting shall be selected, by the IEP team, so as to enable the student to continue to progress in the general curriculum, although in another setting, and to progress toward meeting the goals set out in the student's IEP. The student must also receive, as appropriate, an FBA, behavioral intervention services and modifications designed to address the behavior so it does not recur.

IX. Change of Placement by Hearing Officer

In addition to the other options for removal, a hearing officer through an expedited due process hearing requested by the school division, may order a change in the placement for a student with a disability to an appropriate interim alternative educational setting for not more than forty-five (45) school days if the hearing officer determines that maintaining the current placement of such student is substantially likely to result in injury to the student or others. Additional forty-five (45) school day removals may be authorized by the hearing officer as appropriate.

X. Placement During Appeals

During the course of any appeals, the student's placement shall be in accordance with the provisions of state and federal law unless the parent and the school division agree otherwise. Students with

disabilities are also entitled to the due process rights available to a non-disabled student who is subject to discipline. In addition, students with disabilities are entitled to the due process procedures available under the Individuals with Disabilities Education Act, as amended, and any state procedures.

XI. Students Not Yet Identified as Disabled

Students for whom the parents assert there is a disability but who have not yet been identified as disabled may be subjected to the same measures applied to students without disabilities if the school division did not have knowledge of the disability before the behavior that precipitated the disciplinary action occurred. A school division will be found to have knowledge of the student's disability if, before the behavior that precipitated the disciplinary action occurred, one of the following occurred:

- (1) the parent expressed concern in writing to supervisory or administrative personnel of the school division, or to a teacher of the student, that the student is in need of special education and related services; or
- (2) the parent requested an evaluation of the student for special education eligibility; or
- (3) the student's teacher or other school personnel expressed specific concerns about a pattern of behavior demonstrated by the student directly to the director of special education or to other supervisory personnel of the school division that suggests the presence of a disability.

A school division would not be found to have knowledge of a student's disability if:

- (1) the parents refused to allow an evaluation of the student or refused special education services; or
- (2) the student was evaluated and found not eligible for special education services.

If a request for an initial evaluation is made during the period a student is subject to disciplinary measures, the evaluation shall be conducted in an expedited manner. If the student is found eligible as a child with a disability, taking into consideration information from the evaluation conducted by the school division and information provided by the parents, then the student must be provided special education and related services, although in another setting. Pending the results of the evaluation, the student shall remain in the educational placement determined by the school authorities which placement can include suspension or expulsion without services.

XII. Disciplining Certain Section 504 Students Who Violate Alcohol and Drug Policies

Students who are identified as disabled solely under Section 504 of the Rehabilitation Act, and who are currently engaging in the illegal use of drugs or alcohol, may be disciplined for violating the division's alcohol and drug policies to the same extent as non-disabled students. The student is not entitled to a due process hearing under special education procedures in this circumstance but does retain the protections afforded to regular education students.

XIII. Reporting of Crimes

Nothing in these procedures prevents the reporting of a crime to appropriate authorities or prevents state law enforcement and judicial authorities from exercising their responsibilities.

DISCIPLINE OF STUDENTS WITH DISABILITIES FOR INFLICTION OF SERIOUS BODILY INJURY

A student with a disability may be removed without parent consent and assigned to an interim alternative education program by school personnel for not more than forty-five (45) school days when the student has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of a state or local educational agency. This option is available regardless of whether a manifestation exists. If no manifestation is found, the student may be disciplined to the extent that a student without disabilities would be disciplined.

In addition, the applicable procedures of Policies JGDA and JGD/JGE will be followed.

The term serious bodily injury has the same meaning given the term “serious bodily injury” under paragraph (3) of subsection (h) of section 1365 of title 18 of the United States Code.

STUDENT HEALTH SERVICES AND REQUIREMENTS

A. ACCIDENT/INJURIES/ILLNESSES

Any accident, injury or illness which occurs on school property must be immediately reported to the principal. This is essential for medical and insurance purposes.

Every effort shall be made to immediately contact the parent or guardian. If they cannot be reached, the student will be transported by the most appropriate means to emergency treatment. Under no circumstances shall the student be permitted to start home alone.

The principal shall report serious incidents to the office of the Superintendent.

B. ACCIDENTS AND INJURIES: EMERGENCY CARE

School Personnel:

1. Shall render emergency care to students who are injured at school.
1. Shall proceed on the assumption of maximum disability in the event the severity of an injury cannot be determined.
2. Shall see that first-aid kits are handily available when students are conducted on field trips.
3. Shall under no circumstances stipulate or imply to anyone that they or the school are responsible or liable for an accident. Responsibility or cause and payment of doctor bills are to be decided by the insurance carrier.
4. Shall notify the parent before a physician is contacted except in cases of extreme emergency. This must be a matter of judgment. The decision to contact a physician immediately should be made if it is in the best interest of the student.
6. Shall file a report of the accident on forms provided for that purpose.

PHYSICAL EXAMINATIONS OF STUDENTS

A No pupil is admitted for the first time to any public kindergarten or elementary school in Scott County School Division unless such pupil furnishes, prior to admission,

- a report from a qualified licensed physician, or a licensed nurse practitioner or licensed physician assistant acting under the supervision of a licensed physician, of a comprehensive physical examination of a scope prescribed by the State Health Commissioner performed within the 12 months prior to the date such pupil first enters such public kindergarten or elementary school; or
- records establishing that such pupil furnished such report upon prior admission to another school or school division and providing the information contained in such report.

If the pupil is a homeless child or youth as defined in Va. Code § 22.1-3, and for that reason cannot furnish the required report or records, and the person seeking to enroll the pupil furnishes to the school division an affidavit so stating and also indicating that, to the best of his knowledge, such pupil is in good health and free from any communicable or contagious disease, the school division immediately refers the student to the division's homeless liaison, who, as soon as practicable, assists in obtaining the necessary physical examination by the local health department or other clinic or physician's office and immediately admits the pupil to school.

The health care provider making a report of a physical examination shall, at the end of such report, summarize the abnormal physical findings, if any, and shall specifically state what, if any, conditions are found that would identify the child as handicapped.

Physical examination reports are placed in the child's health record at the school and made available for review by any employee or official of the State Department of Health or any local health department at the request of such employee or official.

A physical examination is not required of any child whose parent or guardian objects on religious grounds and who shows no visible evidence of sickness. The parent or guardian shall state in writing that, to the best of his or her knowledge, the child is in good health and free from any communicable or contagious disease.

The health departments of the counties and cities of the Commonwealth conduct such required physical examinations for medically indigent children, upon request, without charge and may provide such examinations to others on such uniform basis as the departments establish.

Parents/guardians of students entering school shall complete a health information form as required by state law. Such forms shall be returned within 15 days of receipt unless reasonable extensions have been granted by the superintendent or superintendent's designee. Upon failure of the parent to complete such form within the extended time, the superintendent may send the parent written notice of the date he intends to exclude the child from school; however, no child who is a homeless child or youth as defined in subdivision 6 of Va. Code § 22.1-3 shall be excluded from school for such failure to complete such form.

STUDENT IMMUNIZATIONS

No student shall be admitted by a school unless at the time of admission the student or his parent submits documentary proof of immunization as required by Va. Code §§ 22.1-271.2 and 32.1-46 to the admitting official of the school or unless the student is exempted from immunization as described below or is a homeless child or youth as defined in Va. Code § 22.1-3.

If a student does not have documentary proof of immunization, the school will notify the student or his parent

- (i) that it has no documentary proof of immunization for the student;
- (ii) that it may not admit the student without proof unless the student is exempted, including any homeless child or youth as defined in Va. Code § 22.1-3;
- (iii) that the student may be immunized and receive certification by a licensed physician, physician assistant, nurse practitioner, registered nurse or an employee of a local health department; and
- (iv) how to contact the local health department to learn where and when it performs these services.

Any parent, guardian, or other person having control or charge of a child being home instructed or exempted or excused from school attendance shall comply with immunization requirements provided in Va. Code §§ 22.1-271.4 and 32.1-46 in the same manner and to the same extent as if the child has been enrolled in and is attending school.

Conditional Enrollment

Any student whose immunizations are incomplete may be admitted conditionally if he provides documentary proof at the time of enrollment of having received at least one dose of the required immunizations accompanied by a schedule for completion of the required doses within 90 calendar days. If the student requires more than two doses of hepatitis B vaccine, the conditional enrollment period will be 180 calendar days.

The immunization record of each student admitted conditionally will be reviewed periodically until the required immunizations have been received.

Any student admitted conditionally who fails to comply with his schedule for completion of the required immunizations will be excluded from school until his immunizations are resumed.

Exemptions

No certificate of immunization is required for the admission to school of any student if

- (i) the student or his parent submits an affidavit to the admitting official stating that the administration of immunizing agents conflicts with the student's religious tenets or practices; or
- (ii) the school has written certification from a licensed physician, physician assistant, nurse practitioner, or local health department that one or more of the required immunizations may be detrimental to the student's health, indicating the specific nature and probable duration of the medical condition or circumstance that contraindicates immunization.

Homeless Pupils

If a student is a homeless child or youth as defined in Va. Code § 22.1-3 and

- (a) does not have documentary proof of necessary immunizations or has incomplete immunizations and

(b) is not exempted from immunization,

the school division will immediately admit such student and will immediately refer the student to the local school division homeless liaison who will assist in obtaining the documentary proof of, or completing, immunization.

Immunization Record

Every school records each student's immunizations on the school immunization record. The school immunization record is a standardized form provided by the State Department of Health, which will be a part of the mandatory permanent student record. Such record is open to inspection by officials of the State Department of Health and the local health departments.

The school immunization record will be transferred by the school whenever the school transfers any student's permanent academic or scholastic records.

Within 30 calendar days after the beginning of each school year or entrance of a student, each admitting official will file a report with the local health department. The report will be filed on forms prepared by the State Department of Health and will state the number of students admitted to school with documentary proof of immunization, the number of students who have been admitted with a medical or religious exemption and the number of students who have been conditionally admitted, including those students who are homeless children or youths as defined in Va. Code § 22.1-3.

COMMUNICABLE DISEASES

The Scott County School Board recognizes the importance of protecting its students and employees from the transmission of communicable diseases which present a threat to their health and safety while also protecting the legitimate interests and rights of students and employees with communicable diseases. The Board directs the superintendent to act in compliance with applicable law to exclude from school attendance or work in the school setting any person who has a communicable disease. Both the decision to remove the student or employee and the decision to readmit the student or to permit the employee to return to work are made by the superintendent based upon consultation with the local health department, the student's or employee's physician, physician assistant, nurse practitioner and/or other medical authorities. (See policy JHCCA Blood Borne Contagious or Infectious Diseases).

The identity of a student who has a communicable disease is kept confidential and revealed only in accordance with state law. An alternative educational program is made available to any student whose removal pursuant to this policy is expected to result in a prolonged absence from school or where otherwise required by law.

Administrative procedures concerning the exclusion of employees and students with communicable diseases are consistent with the requirements of law, including the policies of the Virginia Department of Education and reflect current medical knowledge and research.

COMMUNICABLE DISEASES

These procedures are in place for school system teachers and administrators who identify or suspect communicable disease in the school or workplace.

1. Teachers and administrators shall report suspected cases of communicable disease to their immediate supervisors who will channel the concern to the Superintendent at which time the Superintendent may require a medical evaluation of the student or employee and can convene the Communicable Disease Review Panel if needed.
2. Most communicable diseases which occur in the school setting are short-term illnesses which require 1-5 days exclusion from school. In these cases, it is practical and reasonable for the principal or his/her designee and/or the school nurse to make the initial decision to exclude a child from school attendance. In cases of exclusion, the parents shall be called. In situations in which the child's private physician has directed that the child stay home for a longer period of time, and this directive is uncontested, there is no additional requirement other than the provision of alternative education, if appropriate.
3. The remainder of these administrative regulations pertain to cases in which there may be prolonged or recurring exclusion from the school setting due to a student or employee's having a long-term disease which has the potential for communicability.
4. If it is the judgment of the local Health Department, after consultation with private medical doctors and/or other public health authorities, that a communicable disease is present in the school division and that there is significant risk of transmission thereof or that the risk of transmission is unknown, the Health Department shall advise the Superintendent of Schools who will make the decision to exclude the student or employee from the school setting and will convene the Communicable Disease Review Panel if needed.
5. The Superintendent shall establish a Communicable Disease Review Panel consisting of the local Health Department Director, a private physician, the Supervisor of Instructional Support Services, and the Superintendent's designee. The Superintendent shall convene the Communicable Disease Review Panel whenever the decision to exclude a student or employee with a communicable disease is questionable or contested. Each case shall be handled individually. The Communicable Disease Review Panel shall review all pertinent information and make its recommendations to the Superintendent. Persons called on for information to this panel may include, but not be limited to, the attending physician, the principal, teacher(s), and parents of the student. In the case of an employee, contributing persons include the attending physician and the immediate supervisor. The Review Panel should be established immediately upon approval of these regulations.
6. Employees with communicable diseases and parents of students with communicable diseases shall be notified of the five-day time limit for submitting any medical evaluations to the Communicable Disease Review Panel. Medical evaluation(s) submitted to the Panel will be considered before the Panel makes its recommendation on a case. The Panel shall meet, review information, and make recommendations to the Superintendent within 5 school days following exclusion of the affected student or employee. The recommendations shall include, but not be limited to, a timetable on future school presence.
7. Within 5 school days following his/her receipt of the Panel's report, the Superintendent shall notify the parents of the affected student, or notify the affected employee of his/her decision to re-admit or to continue to exclude the student from school attendance or the employee from work in the school setting.

8. Confidentiality and the right to privacy regarding the affected student or employee shall be maintained by all persons involved. Information regarding students or school employees suspected of or diagnosed as having a communicable disease shall be released only through the office of the Superintendent of Schools.
9. The Scott County School System will institute preventive measures to control communicable disease transference. Such preventive measures shall include the education of employees and students about communicable diseases and the methods of reducing the risks of transmission. Employees shall be taught the proper methods of cleaning up spilled body fluids, collecting trash and disinfecting areas which might be sources of contamination.
10. The Superintendent shall advise the School Board to regularly re-examine its policy and regulations on communicable diseases as new knowledge regarding communicable diseases becomes known.

Procedure for Blood Borne Contagious or Infectious Diseases

The following procedure will be utilized in determining the attendance at school or work of any student or employee who suffers from a blood borne disease which is infectious or contagious, such as AIDS and Hepatitis B, and which may be transmitted by the exchange of body secretions. Each such determination will be made on a case-by-case basis. This procedure will not apply to persons suffering from common childhood diseases, such as measles, chicken pox, impetigo, strep throat, scarlet fever, head lice, etc.

1. The Superintendent will establish a Review Committee composed of the Director of the local Health Department or a public health physician designated by the Director, the student/employee's family physician, and two administrators appointed by the Superintendent. The Superintendent may appoint other persons to the Review Committee. After reviewing all pertinent information regarding the student/employee and consulting with the employee or the student's parents, the student, if appropriate, and such other persons as the Review Committee shall deem necessary, the Review Committee shall make a recommendation to the Superintendent regarding the student/employee's attendance at school or work. The Review Committee may make such further recommendations as it deems necessary.
2. The Review Committee shall meet within fourteen (14) days of being established and shall make its recommendation to the Superintendent as soon thereafter as practical. The Superintendent will notify the student's parents or the employee, as the case may be, of his decision within five school days after receiving the Review Committee's recommendation. The student's parents or the employee, as the case may be, may appeal the Superintendent's decision to the School Board. A written request for such appeal must be submitted to the Superintendent within ten (10) days of the decision or the right to appeal will be deemed to be waived.
3. The student/employee's status will be re-evaluated based upon a plan for periodic review formulated by the Review Committee.
4. All parties involved shall respect the individual's right to privacy. The number of personnel who are informed of the student/employee's condition shall be kept at a minimum needed to assure proper care of the student/employee and to detect situations where the potential for transmission may occur (e.g., bleeding injury).

BLOOD BORNE CONTAGIOUS OR INFECTIOUS DISEASES

The attendance at school of students who suffer from blood borne diseases which are infectious or contagious, such as AIDS and Hepatitis B, and which may be transmitted by the exchange of body secretions is determined by the superintendent on a case-by-case basis. The superintendent obtains the advice of the local department of health to assist with the determination. The student may be excluded from school and school-related functions pending the superintendent's decision. The superintendent issues regulations setting forth the procedures to be followed to effectuate this policy.

The identity of a student who has tested positive for human immunodeficiency virus is confidential in accordance with law.

An alternative educational program is made available to any student whose removal pursuant to this policy is expected to result in a prolonged absence from school or where otherwise required by law.

Training in the use of universal precautions for handling blood is conducted periodically in accordance with state and federal law. Universal precautions for handling blood are implemented within the school setting and on buses in accordance with state and federal law.

The school board adopts guidelines for school attendance for children with human immunodeficiency virus. Such guidelines are consistent with the model guidelines for such school attendance developed by the Board of Education.

GUIDELINES FOR SCHOOL ATTENDANCE FOR STUDENTS WITH HUMAN IMMUNODEFICIENCY VIRUS

The Scott County School Board recognizes its dual obligations to protect the rights of individual students infected with human immunodeficiency virus (HIV) and to provide a safe environment for students, staff, and the public. Because HIV is not transmitted through casual contact, any student who is HIV-infected continues in a regular classroom assignment unless the student's health significantly interferes with the student's ability to benefit from the educational program.

Scott County Public Schools works cooperatively with the local health department with regard to the school attendance of students infected with HIV. To enhance the school attendance of students who are HIV-infected, the school division collaborates with public and private organizations in the provision of support services to HIV-infected students.

All students are expected to satisfy the immunization requirements of Virginia Code § 22.1-271.2 unless a required immunization would be harmful to the health of the student. Students who are HIV-infected or have acquired immune deficiency syndrome (AIDS) may be exempted from obtaining immunizations which would otherwise be required. School personnel cooperate with public health personnel regarding exemptions from the requirements.

Mandatory screening for HIV infection is not warranted as a condition of school attendance. Upon learning that a student is HIV-infected or has AIDS, the superintendent may consult with the student's family, the student's family physician, or an official from the local department of health to determine whether the student is well enough to stay in school. If a change in the student's program is necessary because of the student's health, the superintendent or superintendent's designee will work with the student's family, family physician or local health official to develop an educational plan for the student.

Any school board employee or volunteer who has any information regarding a student's HIV-infected status treats that information as confidential.

Despite the extremely remote risk that exposure of skin to blood could result in infection, the following universal precautions for handling blood are implemented within schools and on school buses:

- persons involved in cleaning surfaces exposed to blood and persons rendering first aid to bleeding students should wear disposable gloves to avoid exposure of open skin lesions and mucous membranes to blood;
- surfaces contaminated with blood should be promptly cleaned with household bleach (1 part bleach to 9 parts water) using disposable towels and tissues;
- hands must be washed after gloves are removed;
- if one person's skin is exposed to the blood of another person, the exposed areas should be washed with soap and water.

Universal precautions do not apply to feces, nasal secretions, saliva, sputum, sweat, tears, urine, and vomitus unless they contain blood.

To ensure implementation of the proper procedures for all body fluids, training is provided to all school personnel. Training includes information regarding the following: etiology, transmission, prevention, and risk reduction of HIV; standard procedures for handling blood and body fluids; community resources available for information and referral; and school board policies.

Comprehensive and age-appropriate instruction on the principal modes by which HIV is spread and the best methods for the reduction and prevention of AIDS is provided.

ADMINISTERING MEDICINES TO STUDENTS

Medications Prescribed for Individual Students

Employees of the Scott County School Board may give medication prescribed for individual students only pursuant to the written order of a physician, physician assistant, or nurse practitioner and with written permission from the student's parent or guardian. Such medicine must be in the original container and delivered to the principal, school nurse, or school division designee by the parent or guardian of the student.

Nonprescription Medications

Employees of the Scott County School Board may give nonprescription medication to students only with the written permission of the parent or guardian. Such permission shall include the name of the medication, the required dosage of the medication, and the time the medicine is to be given. Such medicine must be in the original container and delivered to the principal, school nurse, or school division designee by the parent or guardian of the student.

Self-Care and Self-Administration of Medication

Each enrolled student who is diagnosed with diabetes, with parental consent and written approval from the prescriber, is permitted to

- carry with him and use supplies, including a reasonable and appropriate short-term supply of carbohydrates, an insulin pump, and equipment for immediate treatment of high and low blood glucose levels, and
- self-check his own blood glucose levels on school buses, on school property, and at school-sponsored activities.

A School Board employee, as defined in Va. Code § 22.1-274.E, who is a registered nurse, licensed practical nurse, or certified nurse aide and who has been trained in the administration of insulin, including the use and insertion of insulin pumps, and the administration of glucagon may assist a student who is diagnosed with diabetes and who carries an insulin pump with the insertion or reinsertion of the pump or any of its parts. Prescriber authorization and parental consent shall be obtained for any such employee to assist with the insertion or reinsertion of the pump or any of its parts. Nothing in this policy requires any employee to assist with the insertion or reinsertion of the pump or any of its parts.

Students may be permitted to carry and self-administer other medications when the following conditions are met:

- Written parental permission for self-administration of specified non-prescription medication is on file with the school.
- The non-prescription medication is in the original container and appropriately labeled with the manufacturer's directions.
- The student's name is affixed to the container.
- The student possesses only the amount of non-prescription medicine needed for one school day/activity.

Sharing, borrowing, distributing, manufacturing or selling any medication is prohibited. Permission to self-administer non-prescription medication may be revoked if the student violates this policy and the student may be subject to disciplinary action in accordance with the Standards of Student Conduct.

Self-Administration of Asthma Medications and Auto-Injectable Epinephrine

Students with a diagnosis of asthma or anaphylaxis, or both, are permitted to possess and self-administer inhaled asthma medications or auto-injectable epinephrine, or both, as the case may be, in accordance with this policy during the school day, at school-sponsored activities, or while on a school bus or other school property. A student may possess and self-administer asthma medication, or auto-injectable epinephrine, or both, when the following conditions are met:

- Written parental consent that the student may self-administer inhaled asthma medications or auto-injectable epinephrine, or both, is on file with the school.
- Written notice from the student's health care provider is on file with the school, indicating the identity of the student, stating the diagnosis of asthma or anaphylaxis, or both, and approving self-administration of inhaled asthma medications or auto-injectable epinephrine, or both, that have been prescribed for the student; specifying the name and dosage of the medication, the frequency in which it is to be administered and the circumstances which may warrant its use; and attesting to the student's demonstrated ability to safely and effectively self-administer the medication.
- An individualized health care plan is prepared, including emergency procedures for any life-threatening conditions.
- There is a consultation with the student's parent before any limitations or restrictions are imposed on a student's possession and self-administration of inhaled asthma medications and auto-injectable epinephrine, and before the permission to possess and self-administer inhaled asthma medications and auto-injectable epinephrine at any point during the school year is revoked.
- Self-administration of inhaled asthma medications and auto-injectable epinephrine is consistent with the purposes of the Virginia School Health Guidelines and the Guidelines for Specialized Health Care Procedure Manual, which are jointly issued by the Virginia Department of Education and the Virginia Department of Health.
- Information regarding the health condition of the student may be disclosed to school board employees in accordance with state and federal law governing the disclosure of information contained in student scholastic records.

Permission granted to a student to possess and self-administer asthma medications or auto-injectable epinephrine, or both, will be effective for a period of 365 calendar days, and must be renewed annually. However, a student's right to possess and self-administer inhaled asthma medication or auto-injectable epinephrine, or both, may be limited or revoked after appropriate school personnel consult with the student's parents.

Epinephrine

Pursuant to an order or standing protocol issued by the prescriber within the course of his professional practice, any school nurse, School Board employee, employee of a local appropriating body or employee of a local health department who is authorized by a prescriber and trained in the administration of epinephrine may possess epinephrine and administer it to any student believed to be having an anaphylactic reaction.

Regulation

The superintendent shall develop a regulation for administration of medicines to students. The regulation shall include provisions for the handling, storage, monitoring, documentation and disposal of medication.

Anaphylaxis Policy

I. Introduction:

The purpose of this Scott County School Policy on Anaphylaxis is to provide best-practice guidelines for responding to anaphylaxis in the school setting. It is not intended to supersede the individual prescriptive orders for epinephrine administration contained in the individualized healthcare plans of students with an established need for epinephrine availability. In fact, all students who have had a prior anaphylactic reaction or otherwise identified as with need for epinephrine availability, should have this addressed specifically in an individualized healthcare plan and should provide epinephrine for their personal use to their school.

II. Definition of Anaphylaxis:

Anaphylaxis is one type of allergic reaction, in which the immune system responds to otherwise harmless substances from the environment (called “allergens”). A variety of allergens can provoke anaphylaxis, but the most common culprits are food, insect venom, medications, and latex. Unlike other allergic reactions, however, anaphylaxis is potentially lethal and can kill in a matter of minutes. Anaphylaxis typically begins within minutes or even seconds of exposure, and can rapidly progress to cause airway constriction, skin and intestinal irritation, and altered heart rhythms. Without treatment, in severe cases, it can result in complete airway obstruction, shock, and death. Initial emergency treatment is the administration of injectable epinephrine (also known as “adrenaline”) coupled with immediate summoning of emergency medical personnel and emergency transportation to the hospital. Appropriate, timely treatment can totally reverse anaphylaxis and return a child or adult to their prior state of health.

III. Signs and Symptoms of Anaphylaxis:

- Sudden difficulty breathing, wheezing
- Sneezing or coughing
- Hives, generalized flushing, itching, or redness of the skin, or paleness
- Swelling of the throat, lips, tongue, eyes, face; tightness/change of voice; difficulty swallowing
- Blueness around lips, inside lips, eyelids
- Low blood pressure, dizziness and/or fainting
- Heart beat complaints: rapid or decreased
- Tingling sensation, itching, or metallic taste in mouth
- Sweating and anxiety
- Feeling of apprehension, agitation
- Nausea, abdominal pain, vomiting and diarrhea
- Loss of consciousness
- Burning sensation, especially face or chest

Although anaphylaxis typically results in multiple symptoms, reactions may vary substantially from person to person. In some individuals, a single symptom may indicate anaphylaxis. Anaphylaxis usually occurs quickly-within seconds or minutes of exposure; death has been reported to occur within minutes. An anaphylactic reaction occasionally can occur up to one to two hours after exposure to the allergen.

IV. Treatment of Anaphylaxis

- A. **Epinephrine**- also known as “adrenaline” is the drug of choice to treat and reverse the symptoms of anaphylaxis by constricting blood vessels and raising blood pressure, relaxing the bronchial muscles and

reducing tissue swelling. It is a prescribed medication and is administered by injection, either intramuscularly by an auto-injector or intramuscularly by syringe. **It should be administered at the first sign of anaphylaxis.** It is safer to administer epinephrine than to delay treatment for anaphylaxis. The sooner it is treated, the greater the person's chance for survival. It is fast acting, but its effects last only 5-15 minutes; therefore, a second dose may be required if symptoms continue or return.

- B. **Doses-** epinephrine is available premeasured in an auto-injector or by ampule or vial. The single dose epinephrine auto-injector is available in two doses: **.15mg (for individuals weighing 33-66 lbs.) and .3mg (for individuals weighing greater than 66 lbs.)** Each school will stock 2 doses of both concentrations. Unless the principal can say 100% of the students weigh >66 lbs, only 2 doses of the .3mg concentration will be mandatory. Schools will use only the auto-injectors.
- C. **Trained Personnel-** Epinephrine auto-injectors can be administered in the school setting by both licensed personnel (i.e., registered nurse, physician) and by trained unlicensed personnel as well as by self-administration in the case of older students. Persons rendering emergency care in good faith shall not be liable for any civil damages for ordinary negligence in acts or omissions resulting from the rendering of such treatment. (Code of Virginia § 8.01-225) Unlicensed personnel shall be trained on an annual basis by a licensed registered nurse or physician. Training shall be conducted utilizing the most current edition of the Virginia Department of Education Manual for Training of Public School Employees in the Administration of Medication. **Each school administrator shall appoint 2 personnel to receive Epinephrine Administration training and administer epinephrine in the absence of the school nurse. All school staff shall be trained annually on the signs and symptoms of Anaphylaxis by a registered nurse or physician.**
- D. **Storage-** Epinephrine auto-injectors should be stored in a safe, unlocked and accessible location, in a dark place at room temperature (between 59-86 degrees F). It should be protected from exposure to heat, cold or freezing temperatures. Supplies associated with responding to suspected anaphylaxis should be stored along with the epinephrine (ex. Incident Form, copy of Anaphylaxis guidelines, Epi Injection Directions)
- E. **Inspection-** The expiration date of epinephrine solutions should be periodically checked. Each school should maintain documentation that stock epi has been checked on a monthly basis to ensure proper storage, expiration date, and medication stability. The medication should be discarded if expired and immediately replaced. The drug should be checked for discoloration or contents of solid particles if contents are visible. If contents are cloudy or contain solid particles, the drug should be discarded in a sharps container and replaced immediately. For replacement, nurse coordinator should be contacted.

V. Administration of Epinephrine by Auto-injector

- A. Based on symptoms, determine that an anaphylactic reaction appears to be occurring. Act quickly. It is safer to give epinephrine than to delay treatment. **Anaphylaxis is a life-threatening reaction.**
- B. If you are alone and are able to provide epinephrine, call out or yell for help as you immediately go to get the epinephrine. Do not take extra time seeking others until you have provided the epinephrine.
- C. If you are alone and do not know how to provide epinephrine, call out or yell for help. If someone is available to help you, have them get the personnel trained to provide epinephrine while you dial 911 and follow the dispatcher's instructions. Advise 911 operator that anaphylaxis is suspected and epinephrine is available. Your goal is to get someone (EMS or trained personnel) to provide epinephrine and care as soon as possible.
- D. Select appropriate epinephrine auto-injector to administer, based on weight.
 - Dosage: .15 mg if <66 lbs
 - .3 mg if >66lbsFrequency: If symptoms persist or return, a second dose should be administered 5-15 minutes after the first dose.
- E. Inject epinephrine via auto-injector: Pull off safety release cap. Swing and jab firmly into upper, outer thigh (through clothing if necessary). **Hold in place for 10 seconds to deliver medication and then remove.** Massage area for 10 seconds. Note the time.
- F. Call or have a bystander call 911 immediately or activate the Emergency Medical System (EMS). Advise the 911 operator that anaphylaxis is suspected and epinephrine was given.

- G. Keep the individual either lying down or seated. If they lose consciousness, check if they are breathing and have a pulse. If not, begin CPR, call out for help and continue CPR until the individual regains a pulse and is breathing or until EMS arrives and takes over.
- H. Call school nurse, administrator, or office staff and advise of situation.
- I. Repeat the dose after 5-15 minutes if symptoms persist or return.
- J. Stay with the individual until EMS arrives, continuing to follow the directions in #5 above.
- K. Provide EMS with Epinephrine auto-injector labeled with name, date, and time administered to transport to the ER with the student.
- L. Follow up: make sure parents have been notified and are encouraged to let child's pediatrician know about the episode.
- M. Complete required documentation of incident.
- N. Order replacement epinephrine auto-injector(s) by contacting nurse coordinator.

VI. Standing Order

Standing orders are written to cover multiple people as opposed to individual-specific orders, which are written for one person. Scott County Schools shall designate an authorized medical provider (MD, DO, PA, or NP with prescriptive authority) to prescribe non-student specific epinephrine in the school division, to be administered to any **student** believed to be having an anaphylactic reaction on school grounds, during the academic day. This order does not cover faculty or guests, only Scott County Students. Standing orders must be renewed annually and with any change in prescriber.

VII. Incident Report of Anaphylactic Reaction

A "Report of Anaphylactic Reaction" must be filled out immediately following the incident and rescue of the anaphylactic reaction. (see attached form) Person responsible for initiating the completion of this form should be either the 1st Responder who administered the epinephrine or the school Administrator. All parties involved in the rescue shall have input in the completion of this report. Once completed, a copy should be sent to the nurse coordinator, School Board Office, and the original shall be filed in the student's medical records.

VIII. Offsite School Activities

Stock Epinephrine is intended for use on school premises and should not be carried offsite. Additional epinephrine should be made available along with arrangements for administration during field trips and other official offsite school activities.

RECOMMENDATION OF MEDICATION BY SCHOOL PERSONNEL

School personnel are prohibited from recommending the use of psychotropic medications for any student. School health staff, classroom teachers, or other school professionals may recommend that a student be evaluated by an appropriate medical practitioner. In addition, school personnel may consult with a medical practitioner who is serving the student with the written consent of the student's parent.

For the purpose of this policy, "psychotropic medications" means those medications that are prescribed with the intention of altering mental activity or state, including, but not limited to, antipsychotic, antidepressant, and anxiolytic medication and behavior-altering medication.

The School Nutrition Supervisor is responsible for overseeing the implementation of this policy and developing procedures for evaluating the policy, including indicators that will be used to measure its success.

Implementation procedures include measuring and making available to the public, at least once every three years, an assessment of the implementation of the policy, including the extent to which schools are in compliance with the policy, the extent to which this policy compares to model school wellness policies and a description of the progress made in attaining the goals of the policy. The results of the triennial assessment are considered in updating the policy.

The School Board retains the following records to document compliance with 7 C.F.R. § 210.31:

All instructional materials, including teacher's manuals, films, tapes, or other supplementary material which will be used in connection with any such survey, analysis, or evaluation will be available for inspection by the parents or guardians of the students involved.

Any other human research involving students must be approved and conducted under the review of a human research committee established by the school division or the school conducting the research. Such research will be conducted or authorized only after the student and the student's parents or legally authorized representative give their informed consent, as evidenced by a signed and witnessed informed consent form in accordance with Va. Code § 32.1-162.18.

STUDENT SAFETY

The primary consideration of the Scott County School Board in all student activities shall be the safety of the student. The Division Superintendent shall implement the provisions of state law and the regulations of the Board of Education concerning student safety.

Students shall be instructed properly in accident prevention including proper conduct on streets and highways, the operation of motor vehicles, and fire prevention.

Students shall be carefully supervised at all times and caution shall be exercised in these classes where machinery or chemicals are used or are in use. Protective eye devices shall be worn where there could be damage to the student.

Care shall be taken that all equipment or grounds used by students shall be kept free from hazardous conditions.

Any employee, volunteer, student, or other individual becoming aware of a threat by any individual to do serious bodily harm to any person or facilities must report same immediately to the principal. The principal shall report immediately the threat to the Division Superintendent and police officials. The individual(s) making the threat(s) is/are to be removed immediately from school grounds.

In an effort to make our schools as safe as possible, the following precautions will be taken:

1. Students, faculty, and staff will notify the office of any strangers they see on school property.
2. Visitors sign in
3. Hall/Visitor pass
4. Make available to teachers a list of students suspended or expelled
5. Be alert to the presence of any students who have been suspended or expelled from school and immediately notify the office
6. Limit access to the building by closing and locking all outside doors except those leading to the main entrance. (Only lock those doors equipped with panic bars that allow students to exit safely.)
7. Periodic locker search
8. Discuss safety with students the first day of each school year and ask for their help concerning school safety.

SUICIDE PREVENTION

Duties of Teachers and Administrative Staff

Any person licensed as administrative or instructional personnel by the Board of Education and employed by the Scott County School Board who, in the scope of his employment, has reason to believe, as a result of direct communication from a student, that such student is at imminent risk of suicide, contacts, as soon as practicable, at least one of such student's parents to ask whether such parent is aware of the student's mental state and whether the parent wishes to obtain or has already obtained counseling for such student.

Abuse or Neglect

If the student has indicated that the reason for being at imminent risk of suicide relates to parental abuse or neglect, contact is not made with the parent. Instead, the staff person notifies, as soon as practicable, the local department of social services of the county or city wherein the child resides or wherein the abuse or neglect is believed to have occurred or the state Department of Social Services' toll-free child abuse and neglect hotline as required by Policy GAE Child Abuse and Neglect Reporting and Va. Code § 63.2-1509. When giving this notice to the local or state department, the person stresses the need to take immediate action to protect the child from harm.

Parental Review of Materials

Parents have the right to review any audio-visual materials that contain graphic sexual or violent content used in any anti-bullying or suicide prevention program. Prior to the use of any such material, the parent of a child participating in such a program is provided written notice of the parent's right to review the material and the right to excuse the child from participating in the part of such program utilizing such material.

STUDENT-ATHLETE CONCUSSIONS DURING EXTRACURRICULAR ACTIVITIES

Generally

In order to participate in any extracurricular physical activity, each student-athlete and the student-athlete's parent or guardian must review, on an annual basis, information on concussions provided by the school division. After having reviewed materials describing the short- and long-term health effects of concussions, each student-athlete and the student-athlete's parent or guardian must sign a statement acknowledging receipt of such information, in a manner approved by the Board of Education.

Return to Play Protocol

A student-athlete suspected by that student-athlete's coach, athletic trainer, or team physician of sustaining a concussion or brain injury in a practice or game is removed from the activity at that time. A student-athlete who has been removed from play, evaluated, and suspected to have a concussion or brain injury does not return to play that day or until the student-athlete is

- evaluated by an appropriate licensed health care provider as determined by the Board of Education and
- in receipt of written clearance to return to play from such licensed health care provider.

The licensed health care provider evaluating student-athletes suspected of having a concussion or brain injury may be a volunteer.

Return to Learn Protocol

School personnel are alert to cognitive and academic issues that may be experienced by a student who has suffered a concussion or other head injury, including

- difficulty with concentration, organization, and long-term and short-term memory;
- sensitivity to bright lights and sounds; and
- short-term problems with speech and language, reasoning, planning, and problem solving.

School personnel accommodate the gradual return to full participation in academic activities of a student who has suffered a concussion or other head injury as appropriate, based on the recommendation of the student's licensed health care provider as to the appropriate amount of time that such student needs to be away from the classroom.

Procedures

The superintendent is responsible for developing, and biennially updating, procedures regarding the identification and handling of suspected concussions in student-athletes.

Athletic Activities Conducted by Non-School Organizations on School Property

The school division may provide this policy to organizations sponsoring athletic activity for student-athletes on school property. The school division does not enforce compliance with the policy by such organizations.

Scott County Schools Head Concussion Policy

Introduction

The goals of the Student-Athlete Protection Act (SB 652, SB 172, HB 410, HB 1096, and HB 953) are to ensure that students who sustain concussions are properly diagnosed, given adequate time to heal, and are comprehensively supported until they are symptom free. According to the

Consensus Statement on Concussion in Sport (4th International Conference on Concussion in Sport, Zurich, November 2012), “The cornerstone of concussion management is physical and cognitive rest until symptoms resolve and then a graded program of exertion prior to medical clearance and return to play.”

The Brain Injury Association of Virginia notes that it is important for all education professionals to be aware of the issues surrounding brain injuries and how they can affect the student’s abilities in the educational setting. When a child is known or suspected to have sustained a concussion, either from a sports injury, motor-vehicle crash, fall, or other cause, the resulting impairments can be multidimensional and may include cognitive, behavioral, and/or physical deficits.

Impairments can be mild or severe, temporary or prolonged. Because no two concussions are alike, it is difficult to determine the period of recovery.

Concussions are a medical and educational issue and are considered to be among the most complex injuries in medicine to assess, diagnose, and manage. The concussed brain requires mental and physical rest to recover. Developing brains are highly variable and concurrent issues may affect cognitive recovery. Every concussion is different, and each student will have unique symptoms and recovery times. Facilitating/managing a student’s recovery from a concussive injury includes awareness of current symptoms, the pre-injury status of physical and cognitive function, and the student’s sensitivity to physical and cognitive exertion.

Concussion symptoms may have a significant impact on learning and academic achievement. A concussion may interfere with a student’s ability to focus, concentrate, memorize, and process information. This cognitive impairment may cause frustration, nervousness, anxiety, and/or irritability, and further affect mood or previously existing irritability or anxiety. The “return to learn” academic concussion management plan is divided into graduated phases to promote recovery, considering all factors in this complex injury. Some students may need a short period of rest with a gradual return to school, while others will be able to continue academic work with minimal instructional support.

The “return-to-play” protocols following a concussion are also a stepwise process in which the students will progress to the next level when physical exertion does not exacerbate symptoms or cause the re-emergence of previously resolved symptoms. If any post-concussion symptoms reoccur while in the stepwise process, the student-athlete would revert back to the previous level, rest, and try to progress again after a period of rest is completed. Most students who experience a concussion can recover completely as long as they do not “return-to-learn” or “return-to-play” prematurely. *Premature return to learn/play may delay and/or impede recovery.* Return-to-play should not occur before the student-athlete has managed to return to a full day of academic activities.

The effects of repeated concussions can be cumulative, and after a concussion, there is a period in which the brain is particularly vulnerable to further injury. If a student sustains a second concussion during this period, the risk of prolonged symptoms increases significantly, and the consequences of a seemingly mild second concussion can actually be very severe and potentially catastrophic (i.e., “second impact syndrome”).

Definitions

A *concussion* is a traumatic brain injury and is defined by the 4th International Conference on Concussion in Sports (2012) as a complex pathophysiological process affecting the brain and induced by biomechanical forces. Several common features that incorporate clinical, pathologic, and biomechanical injury constructs that may be utilized in defining the nature of a concussive head injury include the following:

- Concussion may be caused either by a direct blow to the head, face, neck, or elsewhere on the body with an "impulsive" force transmitted to the head.
- Concussion typically results in the rapid onset of short-lived impairment of neurologic function that resolves spontaneously. However, in some cases, symptoms and signs may evolve over a number of minutes, hours, or days.
- Concussion may result in neuropathological changes, but the acute clinical symptoms largely reflect a functional disturbance rather than a structural injury with no abnormality seen on standard structural neuroimaging studies.
- Concussion results of clinical symptoms that may or may not involve loss of consciousness. Resolution of the clinical and cognitive symptoms typically follows a sequential course. It is important to note, however, that symptoms may be prolonged in some cases.

Appropriate licensed health care provider means a physician, physician assistant, osteopath physician, or athletic trainer licensed by the Virginia Board of Medicine; a neuropsychologist licensed by the Board of Psychology; or a nurse practitioner licensed by the Virginia State Board of Nursing.

Cognitive rest means limiting cognitive exertion and careful management of neurometabolic demands on the brain during recovery.

Return-to-learn refers to instructional modifications that support a controlled, progressive increase in cognitive activities while the student recovers from a brain injury (i.e., concussion) allowing the student to participate in classroom activities and learn without worsening symptoms and potentially delaying healing.

Return-to-play means participate in a nonmedically supervised practice or athletic competition.

Non-interscholastic youth sports program means a program organized for recreational athletic competition or recreational athletic instruction for youth.

Virginia Board of Education Guidelines

A. Policies and Procedures

1. Each school division shall develop policies and procedures regarding the identification and handling of suspected concussions in students. Consideration should also be given to addressing the academic needs and gradual reintroduction of cognitive demands for *all* students who have been determined to have a concussion.
The Brain Injury Association of Virginia offers resources on strategies for educators to consider when working with a student with a brain injury.
2. In order to participate in any extracurricular athletic activity, each student-athlete and the student-athlete's parent or guardian shall review, on an annual basis (every 12 months), information on concussions provided by the school division. After having reviewed materials describing the short- and long-term health and academic effects of concussions, each student-athlete and the student-athlete's parent or guardian shall sign a statement acknowledging receipt, review, and understanding of such information. The local school division will determine procedures for ensuring, annually, that

statements are distributed to and collected from each student-athlete and his or her parent or guardian with appropriate signatures.

3. A student-athlete suspected by the coach, athletic trainer, or team physician of sustaining a concussion or brain injury in a practice or game shall be removed from the activity at that time. A student-athlete who has been removed from play, evaluated, and suspected to have a concussion or brain injury shall not return to play that same day nor until (i) evaluated by an appropriate licensed health care provider as defined by the Board of Education and (ii) in receipt of written clearance to return to play from such licensed health care provider. The licensed health-care provider evaluating student-athletes suspected of having concussions or brain injuries may be a volunteer.
4. Appropriate licensed health care providers or properly trained individuals evaluating student-athletes at the time of injury will utilize a standardized concussion sideline assessment instrument. Sideline Concussion Assessment Tool (SCAT-V), ChildSCAT3, the Standardized Assessment of Concussion (SAC), and the Balance Error Scoring System (BESS) are examples of sideline concussion assessment tools that test cognitive function and postural stability.
5. The school division's concussion policy team may include a school administrator, teacher, school counselor, school psychologist, school nurse, athletic administrator, appropriate licensed health care provider, coach, parent/guardian, and student and shall refine and review local concussion management policies on an annual basis.

B. Protocol for Return to Learn

School personnel shall be alert to cognitive and academic issues that may be experienced by a student who has suffered a concussion or other head injury, including (i) difficulty with concentration, organization, and long-term and short-term memory; (ii) sensitivity to bright lights and sounds; and (iii) short-term problems with speech and language, reasoning, planning, and problem solving. Scott County School division shall accommodate the gradual return to full participation in academic activities as appropriate, based on the recommendation of the student's licensed health care provider as to the appropriate amount of time that such student needs to be away from the classroom, and would benefit from these accommodations to promote recovery following a concussion.

1. A student recovering from a brain injury shall gradually increase cognitive activities progressing through *some or all* of the following phases. Some students may need total rest with a gradual return to school, while others will be able to continue doing academic work with minimal instructional modifications. The decision to progress from one phase to another should reflect the absence of any relevant signs or symptoms, and should be based on the recommendation of the student's appropriate licensed health-care provider in collaboration with school staff, including teachers, school counselors, school administrators, psychologists, nurses, clinic aides, or others as determined by local school division concussion policy.

a. Home: Rest

Phase 1: Cognitive and physical rest may include

- minimal cognitive activities – limit reading, computer use, texting,
- television, and/or video games;
- no homework;
- no driving; and
- minimal physical activity.

Phase 2: Light cognitive mental activity may include

- up to 30 minutes of sustained cognitive exertion;
- no prolonged concentration;
- no driving; and
- limited physical activity.

Student will progress to part-time school attendance when able to tolerate a minimum of 30 minutes of sustained cognitive exertion without exacerbation of symptoms or re-emergence of previously resolved symptoms.

b. School: Part-time

Phase 3: Maximum instructional modifications including, but not limited to

- shortened days with built-in breaks;
- modified environment (e.g., limiting time in hallway, identifying quiet and/or dark spaces);
- established learning priorities;
- exclusion from standardized and classroom testing;
- extra time, extra assistance, and/or modified assignments;
- rest and recovery once out of school; and
- elimination or reduction of homework.

Student will progress to the moderate instructional modification phase when able to tolerate part-time return with moderate instructional modifications without exacerbation of symptoms or re-emergence of previously resolved symptoms.

Phase 4: Moderate instructional modifications including, but not limited to

- established priorities for learning;
- limited homework;
- alternative grading strategies;
- built-in breaks;
- modified and/or limited classroom testing, exclusion from standardized testing; and
- reduction of extra time, assistance, and/or modification of assignments as needed.

Student will progress to the minimal instructional modification phase when able to tolerate full-time school attendance without exacerbation of existing symptoms or reemergence of previously resolved symptoms.

c. School: Full-time

Phase 5: Minimal instructional modification - instructional strategies may include, but are not limited to

- built-in breaks;
- limited formative and summative testing, exclusion from standardized testing;
- reduction of extra time, assistance, *and* modification of assignments; and
- continuation of instructional modification and supports in academically challenging subjects that require cognitive overexertion and stress.

Student will progress to nonmodified school participation when able to handle sustained cognitive exertion without exacerbation of symptoms or re-emergence of previously resolved symptoms.

Phase 6: Attends all classes; maintains full academic load/homework; requires no instructional modifications.

2. Progression through the above phases shall be governed by the presence or resolution of symptoms resulting from a concussion experienced by the student including, but are not limited to
 - a. difficulty with attention, concentration, organization, long-term and short-term memory, reasoning, planning, and problem solving;
 - b. fatigue, drowsiness, difficulties handling a stimulating school environment (e.g., sensitivity to light and sound);
 - c. inappropriate or impulsive behavior during class, greater irritability, less able to cope with stress, more emotional than usual; and
 - d. physical symptoms (e.g., headache, nausea, dizziness).
3. Progression through gradually increasing cognitive demands should adhere to the following guidelines:
 - a. increase the amount of time in school;
 - b. increase the nature and amount of work, the length of time spent on the work, or the type or difficulty of work (change only one of these variables at a time)
 - c. if symptoms do not worsen, demands may continue to be gradually increased;
 - d. if symptoms do worsen, the activity should be discontinued for at least 20 minutes and the student allowed to rest
 - 1) if the symptoms are relieved with rest, the student may reattempt the activity at or below the level that produced symptoms; and
 - 2) if the symptoms are not relieved with rest, the student should discontinue the current activity for the day and reattempt when symptoms have lessened or resolved (such as the next day).
4. If symptoms persist or fail to improve over time, additional in-school support may be required with consideration for further evaluation. If the student is three to four weeks post injury without significant evidence of improvement, a 504 plan should be considered. Under Section 504, FAPE is the provision of regular or special education related aids and services that are designed to meet the individual educational needs of students with disabilities as adequately as the needs of non-disabled students are met.
 - a. List of major life activities under 504 are caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, breathing, speaking, concentrating, thinking, communicating, working, bending, breathing, lifting, reading and learning.
 - b. Students may eligible for 504 services, while they are recovering from concussion symptoms. The student's home school will meet with the 504 committee to review medical provider's recommendations for 'return to learn'. If the student's condition requires a 504 plan, it will be implemented immediately and revised as needed.
5. A student shall progress to a stage where he or she no longer requires instructional modifications or other support before being cleared to return to full athletic participation (return-to-play).

C. Protocol for return to play

1. No member of a school athletic team shall participate in any athletic event or practice the same day he/she is injured and:

The school division provides military recruiters the same access to secondary school students as is provided generally to post-secondary educational institutions or to prospective employers of those students.

Record of Disclosure

Scott County Public Schools maintains a record, kept with the education records of each student, indicating all individuals (except school officials who have a legitimate educational interest in the records), agencies or organizations which request or obtain access to a student's education records. The record will indicate specifically the legitimate interest the party had in obtaining the information. The record of access will be available only to parents, to the school official and his assistants who are responsible for the custody of such records and to persons or organizations which audit the operation of the system.

The requirements related to records of disclosure stated above do not apply to disclosures made pursuant to an ex parte order issued by a court at the request of the United States Attorney General (or any federal officer or employee, in a position not lower than an Assistant Attorney General, designated by the Attorney General) seeking to collect education records relevant to an authorized investigation or prosecution of international terrorism as defined in 18 U.S.C. § 2331 or other acts listed in 18 U.S.C. § 2332b(g)(5)(B).

Personal information will only be transferred to a third party on the condition that such party will not permit any other party to have access to such information without the written consent of the parents of the student. If a third party permits access to information, or fails to destroy information, the division will not permit access to information from education records to that third party for a period of at least five years.

Directory Information

The Scott County School Board notifies parents and eligible students at the beginning of each school year what information, if any, it has designated as directory information, the right to refuse to let the division designate any or all of such information as directory information, and the period of time to notify the division, in writing, that he or she does not want any or all of those types of information designated as directory information. The notice may specify that disclosure of directory information will be limited to specific parties, for specific purposes, or both. If the School Board specifies that disclosure of directory information will be so limited, the disclosures of directory information will be limited to those specified in the public notice.

No school discloses the address, telephone number, or email address of a student pursuant to the Virginia Freedom of Information Act unless the parent or eligible student affirmatively consents in writing to such disclosure. Except as required by state or federal law, no school discloses the address, telephone number, or email address of a student pursuant to 34 C.F.R. § 99.31(a)(11) unless (a) the disclosure is to students enrolled in the school or to school board employees for educational purposes or school business and the parent or eligible student has not opted out of such disclosure in accordance with Virginia law and this policy or (b) the parent or eligible student has affirmatively consented in writing to such disclosure.

Parents and eligible students may not use the right to opt out of directory information disclosures to 1) prevent disclosure of the student's name, identifier or institutional email address in a class in which the student is enrolled; or 2) prevent an educational agency or institution from requiring the student to wear, to display publicly or to disclose a student ID card or badge that exhibits information designated as directory information and that has been properly designated as directory information.

Correction of Education Records

The procedures for the amendment of records that a parent or eligible student believes to be inaccurate are as follows.

1. Parents or the eligible student must request in writing that the BLANK Public Schools amend a record. In so doing, they should identify the part of the record they want changed and specify why they believe it is inaccurate, misleading or in violation of the student's privacy or other rights.
2. SCOTT COUNTY Public Schools shall decide whether to amend the record in accordance with the request within a reasonable period of time. If it decides not to comply, the school division shall notify the parents or eligible student of the decision and advise them of their right to a hearing to challenge the information believed to be inaccurate, misleading or in violation of the student's rights.
3. Upon request, Scott County Public Schools shall arrange for a hearing, and notify the parents or eligible student, reasonably in advance, of the date, place and time of the hearing. The hearing shall be held within a reasonable period of time after the request.
4. The parent or eligible student may, at his or her own expense, be assisted or represented by one or more individuals of his or her own choice, including an attorney.
5. The hearing shall be conducted by a hearing officer who is a disinterested party; however, the hearing officer may be an official of the school division. The parents or eligible student shall be afforded a full and fair opportunity to present evidence relevant to the issues raised in the original request to amend the student's education records in accordance with FERPA.
6. Scott County Public Schools shall prepare a written decision which will include a summary of the evidence presented and the reasons for the decision within a reasonable period of time after the hearing. The decision will be based solely on the evidence presented at the hearing.
7. If Scott County Public Schools decides that the information is inaccurate, misleading or in violation of the student's right of privacy, it shall amend (including expungement) the record and notify the parents or eligible student, in writing, that the record has been amended.
8. If Scott County Public Schools decides that the challenged information is not inaccurate, misleading or in violation of the student's right of privacy, it will notify the parents or eligible student that they have a right to place in the record a statement commenting on the challenged information and/or a statement setting forth reasons for disagreeing with the decision. The statement will be maintained as part of the student's education records as long as the contested portion is maintained and disclosed whenever the school division discloses the portion of the record to which the statement relates.

Confidentiality of HIV and Drug and Alcohol Treatment Records

Scott County Public Schools complies with the confidentiality requirements of Va. Code § 32.1-36.1 providing for the confidentiality of records related to any test for Human Immunodeficiency Virus (HIV). In addition, the school division maintains confidentiality of drug and alcohol treatment records as required by federal and state law.

STUDENT RECORDS AND RELEASE OF STUDENT INFORMATION (NOTIFICATION TO PARENTS AND STUDENTS)

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. They are:

- (1) The right to inspect and review the student's education records within 45 days of the day the Division receives a request for access.

Parents or eligible students should submit to the school principal [or appropriate school official] a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

- (2) The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate or misleading.

Parents or eligible students may ask the Scott County School Division to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

If the Division decides not to amend the record as requested by the parent or eligible student, the Division will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

- (3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the Division as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the Division has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his/her professional responsibility.

Upon request, the Division discloses educational records without consent to officials of another school division in which a student seeks or intends to enroll. [NOTE: FERPA requires a school division to make a reasonable attempt to notify the student of the records request unless it states in its annual notification that it intends to forward records on request.]

- (4) The right to file a complaint with the US Department of Education concerning alleged failures by the Division to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

STUDENT TRANSCRIPTS

Generally

Secondary school transcripts contain information as specified by the Virginia Board of Education.

Test Record

The superintendent is responsible for establishing a procedure by which parents, guardians or others with legal control of a student can elect in writing to have the student's test record excluded from the student transcript. The test record includes at least the highest score earned, if applicable, on college performance-related standardized tests such as SAT and ACT, excluding Standards of Learning (SOL) test scores.

High School Credit-Bearing Courses Taken in Middle School

No student is required, as part of any federally funded program, to submit to a survey, analysis, or evaluation that reveals information concerning

- (1) political affiliations or beliefs of the student or the student's parent,
- (2) mental or psychological problems of the student or the student's family,
- (3) sex behavior or attitudes,
- (4) illegal, anti-social, self-incriminating, or demeaning behavior,
- (5) critical appraisals of other individuals with whom respondents have close family relationships,

C. Surveys Requesting Sexual Information

In any case in which a questionnaire or survey requesting that students provide sexual information, mental health information, medical information, information on student health risk behaviors pursuant to Va. Code § 32.1-73.8, other information on controlled substance use, or any other information that the School Board deems to be sensitive in nature is to be administered, the School Board notifies the parent concerning the administration of such questionnaire or survey in writing at least 30 days prior to its administration. The notice informs the parent of the nature and types of questions included in the questionnaire or survey, the purposes and age-appropriateness of the questionnaire or survey, how information collected by the questionnaire or survey will be used, who will have access to such information, the steps that will be taken to protect student privacy, and whether and how any findings or results will be disclosed. III. Commercial Use of Information

Questionnaires and surveys are not administered to public school students during the regular school day or at school-sponsored events without written, informed parental consent when participation in such questionnaire or survey may subsequently result in the sale for commercial purposes of personal information regarding the individual student.

This subsection does not apply to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions, such as the following:

ACCEPTANCE OF ELECTRONIC SIGNATURES AND RECORD

Policy Statement

Electronic or digital signatures can take many forms and can be created using many different types of technology. The authenticity and reliability of electronic signatures relating to transactions are dependent on the accompanying processes, supplemental records and the overall context in which records are created, transferred, and signed. The Scott County School Board adopts the following policy with respect to the use of electronic records and signatures in connection with its communications with parents, guardians, or other persons having control over a child enrolled in this division.

Definitions

“Attribution” – An electronic record or electronic signature is attributable to a person if it was the act of the person. The act of the person may be shown in any manner, including a showing of the efficacy of any security procedure applied to determine the person to which the electronic record or electronic signature was attributable.

“Electronic Signature”- An electronic sound, symbol or process attached to or logically associated with a record and executed or adopted by a person with the intent to sign the record.

“Electronic Record” – Any record created, generated, sent, communicated, received or stored by electronic means.

Applicability

This policy applies to parents, guardians, and other persons having control or charge of a child enrolled in the division; and also to individuals affiliated with the division, whether paid or unpaid, including but not limited to teachers, administrators, staff, students, affiliates, and volunteers.

Electronic Records

Electronic records created or received by the division shall be appropriately attributed to the individual(s) responsible for their creation and/or authorization or approval. The division shall utilize available technology to implement reliable methods for generating and managing electronic records. Any electronic record filed with or issued by the division may be given full force and effect of a paper communication if the following conditions are satisfied:

1. The communication is an electronic filing or recording and the BLANK School Board agrees to accept or send such communication electronically; and
2. If a signature is required on the record or communication by any statute, rule or other applicable law or School Board policy, the electronic signature must conform to the requirements set forth in this policy governing the use of electronic signatures.

Electronic Signatures

An electronic signature may be used if the law requires a signature unless there is a specific statute, regulation, or policy that requires records to be signed in non- electronic form. The issuance and/or acceptance of an electronic signature by the School Board may be permitted in accordance with the provisions of this policy and all applicable state and federal law. If permitted, such electronic signature shall have the full force and effect of a manual signature only if the electronic signature satisfies all of the following requirements:

1. The electronic signature identifies the individual signing the document by his/her name and title;

201-J

2. The identity of the individual signing with an electronic signature is capable of being validated through the use of an audit trail;
3. The electronic signature and the document to which it is affixed cannot be altered once the electronic signature has been affixed;
4. The electronic signature conforms to all other provisions of this policy.

Acceptance, Use and Issuance of Electronic Records and Signatures

The School Board shall maintain an electronic recordkeeping system that can receive, store, and reproduce electronic records and signatures relating to communications and transactions in their original form. Such system should include security procedures whereby the School Board can (a) verify the attribution of a signature to a specific individual, (b) detect changes or errors in the information contained in a record submitted electronically, (c) protect and prevent access, alteration, manipulation or use by an unauthorized person, and (d) provide for nonrepudiation through strong and substantial evidence that will make it difficult for the signer to claim that the electronic representation is not valid.

The School Board shall ensure that all electronic records and signatures are capable of being accurately reproduced for later reference and retained until such time as all legally mandated retention requirements are satisfied.

The School Board shall maintain a secure hard copy log of the PIN/password or actual signature of any individual authorized to provide an electronic signature in connection with School Board business.

The School Board may receive and accept as original, electronic records and signatures so long as the communication, on its face, appears to be authentic.

SIMULTANEOUS HIGH SCHOOL-COLLEGE ENROLLMENT FOR SECOND SEMESTER SENIOR STUDENTS

To be eligible to participate in their graduation ceremony, students must satisfy all standards set forth by the Virginia Department of Education and Scott County Public Schools. Should a second semester senior elect to ease their transition from high school to college, simultaneous enrollment in high school and accredited colleges or universities is available. Simultaneous enrollment provides second semester senior students an opportunity to gain college credit while completing their high school education.

Students are qualified for participation in simultaneous high school – college enrollment by fulfilling the following criteria:

- continue enrollment in Scott County Public Schools,
- complete first semester senior year prior to beginning simultaneous enrollment status,
- possess a “C” or better average at the end of the first semester senior year,
- satisfy, by the end of first semester senior year, all the graduation requirements set forth by the Virginia Department of Education and Scott County Public Schools to receive a standard or advanced studies diploma,
- complete Simultaneous High School-College Enrollment application, inclusive of parent/guardian signature for minor students, and receive principal approval prior to enrollment in an accredited college or university.
- provide to their high school administration proof of full-time enrollment* in an accredited college or university, and
- remain enrolled in their high school as students participating in independent study courses which mirror the courses in which the students are enrolled in the accredited college or university.

Prior to approval by the high school principal or designee for students to participate in simultaneous high school-college enrollment:

- the principal or designee must verify that students have met graduation requirements prior to simultaneous enrollment in accredited college or university courses,
- the students must submit to the principal or designee a completed Simultaneous High School-College Enrollment application, inclusive of parent/guardian signature for minor students, and proof of full-time enrollment in an accredited college or university,
- the students must submit to the principal or designee a list of the courses in which the students will be enrolled, and
- the principal or designee must ensure the courses in which the students will be enrolled are assigned appropriate course codes as independent study courses.

To qualify for high school credit, students must present to the principal or designee, within fifteen (15) days upon completion of the college course, a transcript from the accredited college or university where the courses were successfully completed. The principal or designee will ensure the students receive corresponding grades for the independent studies in which the students are enrolled at the high school. As it relates to final G.P.A. and class ranking, the grades from the accredited college or university will be calculated into the students’ high school G.P.A.

If students drop or add college or university courses within the college or university’s drop/add timeline, students are responsible for forwarding the information within five (5) days to their principal or designee to ensure the

students' independent study courses mirror the college or university courses in which the students are enrolled. Simultaneously enrolled students who elect to withdraw from a college/university courses after the accredited college/university drop/add deadline, are required to notify immediately the principal or designee.

Simultaneously enrolled students are solely responsible for their own transportation to and from college or university courses and are responsible for all tuition, fees and books associated with enrollment as students in an accredited college or university.

*Full-time enrollment status is determined by the accredited college or university.

RIGHTS & RESPONSIBILITIES

The Rights of Requestors and the Responsibilities of Scott County Public Schools under the Virginia Freedom of Information Act

The Virginia Freedom of Information Act (FOIA), located at § 2.2-3700 et seq. of the Code of Virginia, guarantees citizens of the Commonwealth and representatives of the media access to public records held by public bodies, public officials and public employees.

A public record is any writing or recording – regardless of whether it is a paper record, an electronic file, an audio or video recording or record in any other format – that is prepared or owned by, or in the possession of a public body or its officers, employees or agents in the transaction of public business. All public records are presumed to be open to the public and may only be withheld if a specific statutory exemption applies.

The policy of FOIA is to promote an increased awareness by all persons of governmental activities. In furthering this policy, FOIA requires that the law be interpreted liberally, in favor of access, and that any exemption allowing public records to be withheld must be interpreted narrowly.

FOIA Rights

- A citizen of the Commonwealth has the right to request to inspect or receive copies of public records, or both.
- A citizen of the Commonwealth has the right to request that any charges for the requested records be estimated in advance.
- If a citizen of the Commonwealth believes that their FOIA rights have been violated, the citizen may file a petition in district or circuit court to compel compliance with FOIA. Alternatively, they may contact the FOIA Council for a nonbinding advisory opinion.

Making a Request for Records from Scott County Public Schools

- A citizen of the Commonwealth may request records by U.S. Mail, fax, e-mail, in person or over the phone. FOIA does not require that a request be in writing, nor that it specifically state that records are being requested under FOIA.
- As a practical matter, it may be helpful to both the requestor and the person receiving the request to put the request in writing. This creates a record of the request. It also gives us a clear statement of what records are requested, so that there is no misunderstanding over a verbal request. However, we cannot refuse to respond to a FOIA request if it is not put in writing.
- A request must identify the records sought with “reasonable specificity.” This is a common-sense standard. It does not refer to or limit the volume or number of records requested; instead, it requires the requestor to be specific enough so that we can identify and locate the records that are requested.
- A request must ask for existing records or documents. FOIA creates a right to inspect or copy records; it does not apply to general questions about the work of Scott County Public Schools, nor does it require BLANK Public Schools to create a record that does not exist.
- A requestor may choose to receive electronic records in any format used by Scott County Public Schools in the regular course of business. For example, if requested records are maintained in an Excel file, the requestor you may elect to receive those records electronically, via e-mail or on a computer disk or to receive a printed copy of those records.
- If we have questions about a request, please cooperate with staff’s efforts to clarify the type of records sought, or to attempt to reach a reasonable agreement about a response to a large request. Making a

FOIA request is not an adversarial process, but we may need to discuss a request to ensure that we understand what records are being sought.

To request records from Scott County Public Schools, direct your request to Scott County Public Schools' designated Freedom of Information Act Officer (FOIA Officer) who is responsible for serving as a point of contact for members of the public who wish to request public records. The Scott County Public Schools FOIA Officer is:

**Beverly Stidham or Angie Johnson
340 East Jackson Street
Gate City, VA 24251
276-386-6118**

In addition, the FOIA Advisory Council is available to answer questions about FOIA. The Council may be contacted by e-mail at foiacouncil@dls.virginia.gov or by phone at (804) 225-3056 or 1-866-448-4100.

Scott County Public Schools' Responsibilities in Responding to Your Request

Scott County Public Schools must respond to a request within five working days of receiving it. "Day One" is considered the day after the request is received. The 5-day period does not include weekends or holidays.

The reason behind a request for public records from Scott County Public Schools is irrelevant and a requestor does not have to state why they want the records before we respond to the request. FOIA does, however, allow Scott County Public Schools to require a requestor to provide their name and legal address.

FOIA requires that Scott County Public Schools make one of the following responses to a request within the 5-day time period:

1. We provide the records requested in their entirety.
2. We withhold all of the records requested, because all of the records are subject to a specific statutory exemption or exemptions. If all of the records are being withheld, we must send a response in writing. That writing must identify the volume and subject matter of the records withheld and state the specific section(s) of the Code of Virginia that allows us to withhold the records.
3. We provide some of the records requested, but withhold other records. We cannot withhold an entire record if only a portion of it is subject to an exemption. In that instance, we may redact the portion of the record that may be withheld, and must provide the remainder of the record. We must provide the requestor a written response stating the specific section(s) of the Code of Virginia that allows portions of the requested records to be withheld.
4. We inform the requestor in writing that the requested records cannot be found or do not exist (we do not have the records requested). However, if we know that another public body has the requested records, we must include contact information for the other public body in our response.
5. If it is practically impossible for Scott County Public Schools to respond to the request within the 5-day period, we must state this in writing, explaining the conditions that make the response impossible. This will allow us 7 additional working days to respond to the request, giving us a total of 12 working days to respond to the request.

If a request is made for a very large number of records and we feel that we cannot provide the records within 12 working days without disrupting our other organizational responsibilities, we may petition the court for additional time to respond to the request. However, FOIA requires that we make a reasonable effort to reach an agreement with the requestor concerning the production of the records before we go to court to ask for more time.

Costs

Scott County Public Schools may make reasonable charges not to exceed its actual cost incurred in accessing, duplicating, supplying or searching for the requested records. Scott County Public Schools will not impose any extraneous, intermediary or surplus fees or expenses to recoup the general costs associated with creating or maintaining records or transacting the general business of the schools. Any duplicating fee charged by Scott County Public Schools will not exceed the actual cost of duplication. All charges for the supplying of requested records shall be estimated in advance at the request of the requestor as set forth in subsection Va. Code § 2.2-3704.F.

The requestor may have to pay for the records requested from Scott County Public Schools. FOIA allows us to charge for the actual costs of responding to FOIA requests. This includes items like staff time spent searching for the requested records, copying costs or any other costs directly related to supplying the requested records. It does not include general overhead costs.

If we estimate that it will cost more than \$200 to respond to a request, we may require the requestor to pay a deposit, not to exceed the amount of the estimate, before proceeding with the request. The five days that we have to respond to the request does not include the time between when we ask for a deposit and when the requestor responds.

A requestor may request that we estimate in advance the charges for supplying the records requested. This will allow the requestor to know about any costs upfront, or give the requestor the opportunity to modify the request in an attempt to lower the estimated costs.

If a requestor owes us money from a previous FOIA request that has remained unpaid for more than 30 days, Scott County Public Schools may require payment of the past-due bill before it will respond to a new FOIA request.

Any written requests received by building personnel are immediately forwarded to the FOIA Officer with a notation indicating the date and time the request was received.

Responding to Requests

1. Promptly, but in all cases within five working days of receiving the request, the school division provides the requested records to the requester or makes one of the following responses in writing:
 - (a) The requested records are being entirely withheld. The response will identify with reasonable particularity the volume and subject matter of the withheld records, and, with respect to each category of withheld records, cite the specific Virginia Code section(s) or other law that authorizes the withholding of the records.

- (b) The requested records are being provided in part and are being withheld in part. The response will identify with reasonable particularity the subject matter of the withheld portions and cite, with respect to each category of withheld records, the specific Virginia Code section(s) or other law which authorizes the withholding of the records.
- (c) The requested records could not be found or do not exist. If the school division knows that another public body has the requested records, the response includes contact information for the other public body.
- (d) It is not practically possible to provide the records or to determine whether they are available within the five-day period. Such response specifies the conditions which make a response impossible. If the response is made within five working days, one of the preceding responses is provided within an additional seven-day period.

No public record is withheld in its entirety on the grounds that some portion of the public record is excluded from disclosure by law. A public record may be withheld from disclosure in its entirety only to the extent that an exclusion from disclosure applies to the entire content of the public record. Otherwise, only those portions of the public record containing information subject to an exclusion may be withheld, and all portions of the public record that are not so excluded are disclosed.

The school division may petition the appropriate court for additional time to respond to a request for records when the request is for an extraordinary volume of records or requires an extraordinarily lengthy search and a response within the time outlined above will prevent the school division from meeting its operational responsibilities. Before proceeding with the petition, the school division will make reasonable efforts to reach an agreement with the requester concerning the production of the records requested.

- 2. The five-day period begins on the first working day following the day the request is received by the school division. Any time that elapses between the time the requester is notified of an advance cost determination pursuant to the procedures detailed below and the time that the requester responds to that notice is not counted in calculating the five working days.

Processing of Requests

- 1. The FOIA Officer, after receiving a request, promptly makes an initial determination as to whether the requested records will be provided to the requester, will be withheld, either completely or in part, or if it is practically impossible to provide the requested records or to determine whether they are available within five days.
- 2. If the FOIA Officer is unsure whether the requested documents should be provided to the requester, legal advice is promptly sought.
- 3. If the FOIA Officer is uncertain whether the requested records exist or where they may be located, efforts are promptly initiated to locate the records or determine whether they exist.
- 4. If the requested records will be made available either in whole or in part, the FOIA Officer promptly consults with School Board staff to determine the cost involved to assemble the records for inspection and copying. Where portions of individual records must be redacted prior to inspection and copying, the cost of doing this is taken into account. The following costs are charged at the rates indicated, not to exceed actual cost:
 - Staff member search time, charged by the quarter hour. Depending on the staff member(s) involved in the search, rates of \$15.00 per quarter hour may apply.
 - Computer search time, charged at the rate of \$10.00 per quarter hour
 - Computer printouts, charged at the rate of \$0.15 cents per page
 - Photocopies (including those necessary to perform redactions), charged at the rate of \$0.15 cents per page.
 - Incidental out-of-pocket costs necessary to assemble the records (for example: phone, postage, or courier charges).
- 5. If the requester has asked for an advance determination of the cost, or if the cost is expected to exceed \$200, the requester shall be notified in advance of the cost associated with the request. If the cost of the request is

determined to exceed \$200, the School Board may, before continuing to process the request, require the requester to agree to payment of a deposit not to exceed the amount of the advance determination. The deposit shall be credited toward the final cost of supplying the requested records. No further action shall be taken until the requester responds, and the requester must agree to pay the estimated amount before any further processing of the request is performed.

6. Before processing a request for records, the FOIA Officer may require the requester to pay any amounts owed to the school board for previous requests for records that remain unpaid 30 days or more after billing.
7. If school division records have been transferred to any entity, including any other public body, for storage, maintenance or archiving, the school division remains the custodian of the records for purposes of responding to requests and is responsible for retrieving and supplying the records to the requester.
8. Any records to be disclosed are assembled for inspection and copying by school board staff, under the direction and supervision of the FOIA Officer.
9. School board staff are responsible for recording the date the request was received, verifying identification and recording and assembling additional information about the request as indicated on Form KBA-F1 Request for Public Records.

COMMUNITY USE OF SCHOOL FACILITIES

This regulation aims toward establishing the procedures and determining the condition for the best possible utilization of the physical facilities belonging to the citizens of the community. To achieve this end, the use of school facilities for school and student-related activities as well as by outside organizations and groups shall be encouraged when these activities will not interfere with the educational program in the schools or impair the efficiency of the school.

Proper protection, safety and care of school property shall be primary considerations in the use of school facilities. The superintendent or designee reserves the right to deny usage or terminate an existing usage contract for good cause. Failure to pay promptly all rental charges or damages may be considered sufficient grounds for refusal to grant further use of school property to an applicant.

I. Application, Approval, and Cancellation

The School Board recognizes the highest priority for use of school buildings to be for instructional programs and student activities approved by the principal. School-related groups, such as Parent-Teacher Associations, and any special tutoring activities of the secondary school, are a second priority. The next priority is use of facilities by others, including youth groups, employee organizations, cultural and civic groups, churches, government agencies, and private organizations.

Applications must be sponsored by reputable and established clubs, societies, or organizations that reasonably can be held responsible for the payment of charges, compensation for damages to property and for use of the property in conformity with regulations on the application. All organized sporting teams must complete an application for use of school fields.

Nonprofit organizations may be required to submit proof of their status.

In no case shall school property be leased to individuals.

The superintendent or designee is authorized to approve and sign application agreements that meet the requirements of the Board and these regulations. The superintendent may appoint the school principal designee for this purpose. The completed and signed form shall be a binding agreement between the applicant and the School Board. The school division reserves the right to deny usage of a facility if the application is received less than (5) days prior to the start of the event. No rental application shall be considered more than three (3) months prior to the desired rental date, unless a special exception is made by the superintendent or designee. Field rental may be restricted to four (4) days per week to allow fields to rest and to provide for unorganized community use.

The school division reserves the right to cancel a rental contract up to ten (10) days prior to a scheduled rental for good cause. Use of schools will automatically be canceled when schools close due to inclement weather or emergency conditions. The superintendent or designee reserves the right to cancel field rental/usage because of weather conditions.

II. Days and Hours of Usage

The use of school facilities shall be restricted to the days and hours listed below:

Days	Times Buildings May Be Used	Times Grounds May Be Used
Weekdays	Close of school day to _____ p.m.	Close of school day to _____ p.m.
Saturdays	_____ to _____	_____ to _____
Sundays	_____ to _____	_____ to _____
Holidays	Closed	Closed

III. Fees

The superintendent shall establish a minimum schedule of fees and may make additional adjustments in the fees. The minimum schedule and additional adjustments shall be based upon the classification of the group or organization, facilities to be used, size of the group, objectives of the organization, approximate cost to the school division, and the purpose for which the facility will be used. FEES AND FEE CLASSIFICATIONS SHALL NOT BE BASED UPON THE PHILOSOPHICAL, RELIGIOUS, OR POLITICAL VIEWS OF THE APPLYING ORGANIZATION. In general, the following fees will apply:

- 1) A full rental fee shall be charged to all paying classifications, in accordance with the school fee schedule. The fee reflects the type of facility requested (cafeteria, auditorium, gymnasium, classroom, athletic field, etc.), the size of the facility requested, and the length of time the facility is used (hourly rates).
- 2) Personnel fees shall be charged to all paying classifications, in accordance with the school fee schedule.

Custodial services are needed to clean an area after use, assist in the school kitchen (cafeteria personnel must be paid if kitchen facilities are used), assist with lighting and audio equipment, supervise large groups (staff supervisor may be assigned at the discretion of the principal), attend to the building during the hours when the building is not in normal use (overtime), unlocking and locking doors, maintaining heating and air conditioning systems, setting up chairs, and for other services.

Rental of facilities by large groups or organizations which require the services of more than one custodian will result in additional personnel fees. Weekend and other custodial services may require an additional overtime compensation fee.

- 3) Special fees may be charged. These include use of stadium, stage, or playground lights, the use of kitchen utilities, and any uses which may require special trash pickups after an event.

All fees must be paid at least four (4) days in advance, and the sponsoring organization whose name appears on the application shall be held responsible for any and all damages to school property and equipment stemming from their use. A late fee of 10% will be assessed when the four-day deadline is not observed. For prolonged contractual agreements, payments may be paid monthly in advance.

The building rental fees collected will be made payable to the school. The school principal or designee shall retain a copy of all approved application forms in school files for three years for examination by school auditors. The principal or designee shall establish a procedure with the central office financial administrator to provide for the remittance of funds at the end of each month and for payment of personnel expenses. A file shall be maintained in the central office recording payments to employees based upon service under this regulation. All such employee payments must be paid from the fees collected herein.

IV. Fund-Raising Activities

Nonprofit groups may sell merchandise in school facilities only to support or benefit local programs. Further, where the purpose of nonprofit groups is to sell merchandise, the application for facilities use

may be approved only if the group owns title to the goods sold and will be the primary beneficiary of the sale, or if third parties sell the goods and the nonprofit group is the primary beneficiary of the revenues.

School organizations and school supportive groups having fund-raising activities are also allowed to authorize the selling of merchandise by third parties. The principal may require special conditions, however, including additional registration fees and/or minimum payments to the sponsoring organization.

V. Protection of School Property

For use of indoor facilities, an employee of the School Board shall be on duty at the school property at times when the school facilities are in use. No equipment or furnishing may be used or moved without the consent of the employee in charge if such usage is not in conformity with the contracted agreement. Documentation of a group's nonprofit status or liability insurance coverage may be required.

The sponsoring organization shall be responsible for crowd control measures, including the employment of police protection when required. Such control shall be arranged in advance when deemed necessary by the superintendent or designee.

The sale or consumption of food and/or beverages will be limited to the cafeteria area only. Use of alcoholic beverages shall be prohibited in all schools at all times. Tobacco use on school property is also prohibited, in accordance with Policy KGC.

VI. Informal Usage of Outdoor School Property

The School Board endorses the concept that the outdoor facilities at the schools serve a park function for the community. It is understood that, in general, these facilities shall be available for free play or unstructured use during daylight hours at no cost to residents, unless such use would conflict with a reserved use as allowed above or with another school need, including maintenance requirements.

SCHOOL VISITORS

Generally

Visitors are welcome in the schools as long as their presence is not disruptive. Upon arriving at a school, all visitors must report to the administrative office. Potential visitors, including parents, who are registered sex offenders, should consult Policy KN Sex Offender Registry Notification and Policy KNA Violent Sex Offenders on School Property before arriving at school property or school sponsored activities. The school division expects mutual respect, civility and orderly conduct from all individuals on school property and at school events. Unauthorized persons, including suspended and expelled students, will be requested to leave school grounds by the building administrator. Unauthorized persons who fail to leave the school grounds or school activity as requested will be considered trespassers. The School Board authorizes the superintendent to take all necessary actions regarding the safety, order and preservation of the educational environment on School Board property or at school division sponsored activities. Law enforcement may be called to enforce this policy.

Anyone, including students, who enters a school at nighttime without the consent of an authorized person except to attend an approved meeting or service or who enters or remains on any school property, including school buses, in violation of (i) any direction to vacate the property by an authorized individual or (ii) any posted notice which contains such information, posted at a place where it reasonably may be seen may be prosecuted.

Parents

Parents are encouraged to visit the schools on scheduled days for conferences with teachers, assemblies, PTA meetings, volunteer service and other school programs. Noncustodial parents are not denied, solely on the basis of their noncustodial status, the opportunity to participate in any of the student's school or day care activities in which such participation is supported or encouraged by the policies of the School Board.

Board Members

Periodically, Board members may visit schools within the division. The purpose of these visits is to assist in fulfilling their responsibilities and increase understanding of actual educational practices. School Board members follow the same procedures applicable to all other visitors when visiting a school.

SERVICE ANIMALS IN PUBLIC SCHOOLS

A. Service Animals

An individual with a disability is permitted to be accompanied by his/her service animal on school property when required by law, subject to the conditions of this policy.

A “service animal” means a dog that has been individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition. (See, however, Section D regarding miniature horses.) The work or tasks performed by a service animal must be directly related to the individual’s disability.

School officials can ask the owner or handler of an animal whether the animal is required because of a disability and what work or task the animal has been trained to do unless the answers to these inquiries are readily apparent. School officials may not ask about the nature or extent of a person’s disability and may not require documentary proof of certification or licensing as a service animal.

B. Requirements That Must be Satisfied Before a Service Animal Will be Allowed on School Property

Vaccination: The service animal must be immunized against diseases common to that type of animal.

Health: The service animal must be in good health.

Control: A service animal must be under the control of its handler at all times. The service animal must have a harness, backpack or vest identifying the dog as a trained service dog, a leash (blaze orange in color) for hearing dogs, a harness for guide dogs, or other tether unless either the handler is unable because of a disability to use a harness, backpack, vest, leash, or other tether, or the use of a harness, backpack, vest, leash, or other tether would interfere with the service animal’s safe, effective performance of work or tasks, in which case the service animal must be otherwise under the handler’s control.

C. Service Dogs in Training

Experienced trainers of service animals may be accompanied on school property by a dog that is in training to become a service animal. The dog must be at least six months of age. Trainers must wear a jacket identifying the organization to which they belong. Persons conducting continuing training of a service animal may be accompanied by a service animal while on school property for the purpose of school business. Persons who are part of a three-unit service dog team may be accompanied by a service dog while on school property provided that person is conducting continuing training of a service dog. A three-unit service dog team consists of a trained service dog, a disabled person, and a person who is an adult and who has been trained to handle the service dog. The dogs may accompany these persons while on school property for school purposes.

Use of Harnesses, Vests, etc. A dog that is in training to become a guide dog or a currently trained guide dog that is undergoing continuing training must be in a harness.

A dog that is in training to become a hearing dog or a currently trained hearing dog that is undergoing continuing training must be on a blaze orange leash.

A dog that is in training to become a service dog or a currently trained service dog that is undergoing continuing training must be in a harness, backpack, or a vest identifying the dog as a trained service dog.

The training cannot disrupt or interfere with a school's educational process. It is expected that training would not normally take place in the classroom during instructional time.

All requirements of this policy which apply to service animals, such as annual written requests, and supervision, care and damages, also apply to dogs in training.

D. Miniature Horses

The school division will make reasonable modifications in policies, practices, or procedures to permit the use of a miniature horse by an individual with a disability if the miniature horse has been individually trained to do work or perform tasks for the benefit of the individual with a disability. In determining whether reasonable modifications in policies, practices, or procedures can be made to allow a miniature horse into a specific facility, the school division must consider the following factors:

1. The type, size, and weight of the miniature horse and whether the facility can accommodate these features;
2. Whether the handler has sufficient control of the miniature horse;
3. Whether the miniature horse is housebroken; and
4. Whether the miniature horse's presence in a specific facility compromises legitimate safety requirements that are necessary for safe operation.

All additional requirements outlined in this policy, which apply to service animals, shall apply to miniature horses.

E. Extra Charges

The owner or handler of a service animal cannot be required to pay an admission fee or a charge for the animal to attend events for which a fee is charged.

F. Supervision and Care of Service Animals

The owner or handler of a service animal is responsible for the supervision and care of the animal, including any feeding, exercising, and clean up.

G. Damages to School Property and Injuries

The owner or handler of a service animal is solely responsible for any damage to school property or injury to personnel, students, or others caused by the animal.

H. Removal of Service Animals From School Property

A school administrator can require an individual with a disability to remove a service animal from school property under the following circumstances:

1. The animal is out of control and the animal's handler does not take effective action to control it;
2. The animal is not housebroken;
3. The presence of the animal poses a direct threat to the health or safety of others; or
4. The presence of an animal would require a fundamental alteration to the service, program, or activity of the school division.

If the service animal is removed, the individual with a disability shall be provided with the opportunity to participate in the service, program, or activity without the service animal.

I. Denial of Access and Grievance

If a school official denies a request for access of a service animal or a dog in training, the disabled individual or parent or guardian can file a written grievance with the school division's Section 504 Coordinator.

PUBLIC COMPLAINTS

Complaints involving a particular school are handled within the school through the established channel of responsibility. If the complaint cannot be resolved at the level of the principal, it is referred to the superintendent or superintendent's designee. If the central office staff and complainant cannot reach a satisfactory solution, the matter may, at the School Board's discretion, be heard at a regular board meeting.

Any parent, custodian, or legal guardian of a pupil attending Scott County Public Schools who is aggrieved by an action of the School Board may, within thirty days after such action, petition the local circuit court to review the action of the School Board. The court will sustain the action of the School Board unless the School Board exceeded its authority, acted arbitrarily or capriciously or abused its discretion.

PUBLIC COMPLAINTS ABOUT LEARNING RESOURCES

Resolving complaints about the selection and use of learning resources requires a recognition of responsibilities and considerations of the rights of the individual, the student, the community, the principal, the teacher, the media specialist, the school and the School Board.

In reviewing complaints, the following questions should be asked to determine whether the complaint points up inconsistencies with the School Division's initial selection objectives:

1. Are the materials appropriate for instructional use such that they enrich and support the attainment of the educational objectives of the curriculum, taking into consideration the varied interests, abilities, intellectual development and maturity levels of the pupils served and the standards of the community?
2. Do the materials stimulate growth in factual knowledge, literary appreciation, aesthetic values and ethical standards?
3. Do the materials provide a background of information which will enable pupils to make intelligent judgments in their daily lives?
4. Do the materials contribute to the presentation of opposing sides of controversial issues so that young citizens may develop under guidance the practice of critical analysis of all media?
5. Are the materials representative of the many religious, ethnic and cultural groups and their contributions to our American heritage?
6. Do the materials promote the goal of providing a comprehensive collection appropriate for the interests and needs of the users, recognizing their right to access a wide range of reading materials?

Procedures for Review

Most complaints can and should be resolved at the building level. Many concerns are the result of simple misunderstandings or misinformation and can be resolved through informal inquiry and discussions with principals and/or teachers or library media specialists.

When a complaint is received, the school principal will check decisions on questioned and challenged learning resources on file in the office of the Director of Instruction to determine whether the learning resource has been questioned before. If a decision is on file and the challenge is substantially the same, the principal will share that decision with the complainant. If any significant difference is found in the new challenge, or if the learning resource has not been challenged before, the following procedure shall apply.

1. Discussion with School Principal
 - a. The school principal will hold a conference with the complainant. At the discretion of the principal, the teacher or library media specialist or elementary library assistant using the resource will be present at the conference.
 - b. If the complainant is dissatisfied with the results of the conference or if the proposed action in response to the complaint affects the availability of the materials to or use by other students, the principal will inform the complainant of this regulation and provide the complainant with the form "Citizen's Request for Reconsideration of Learning Resources."
 - c. Upon receipt of the appropriate completed form, the principal will forward the form, with a written report of the conference held with the complainant, to the Director of Instruction, the teacher or media specialist/teaching assistant involved and the citizen.

RELATIONS WITH PARENT ORGANIZATIONS

The Scott County School Board encourages the establishment of parent-teacher organizations that seek to advance programs that improve educational opportunities for all students consistent with state and federal law. The School Board requests that parent-teacher organizations maintain a close relationship with the Board, administration and staff, and that they consider School Board and school policies when planning activities.

SEX OFFENDER REGISTRY NOTIFICATION

The Scott County school division recognizes the danger sex offenders pose to student safety. Therefore, to protect students while they travel to and from school, attend school or are at school-related activities, each school in the Scott County school division shall request electronic notification of the registration or reregistration of any sex offender in the same or contiguous zip codes as the school. Such requests and notifications shall be made according to the procedure established by the Virginia Department of State Police (State Police).

Annual Notification

At the beginning of each school year, the Scott County school division shall notify parents and employees of this policy. The school board will also annually notify the parent of each student enrolled in the school division of the availability of information in the Sex Offender and Crimes Against Minors Registry and the location of the Internet website.

Dissemination of Sex Offender Registry Information

Sex offender registry information should be provided to employees who are most likely to observe unauthorized persons on or near school property including but not limited to:

- school bus drivers
- employees responsible for visitor registration
- employees responsible for bus duty
- security staff
- coaches
- playground supervisors, and
- maintenance personnel.

When registry information is disseminated, it shall include a notice that such information should not be shared with others and may only be used for the purposes discussed below. Employees who share registry information with others may be disciplined.

The Scott County school division recognizes that it is the responsibility of local law enforcement to notify the community of potential public danger. Therefore, the division will not disseminate registry information to parents.

Use of Sex Offender Registry Information

Registry information shall only be used for the purposes of the administration of law-enforcement, screening current or prospective school division employees or volunteers and for the protection of school division students and employees. Registry information shall not be used to intimidate or harass others.

1. Registered Sex Offender Sighted.

If a notified employee sees a registered sex offender on or near school property, around any school division student, or attending any school division activity, the Superintendent or his designee shall be notified immediately. The Superintendent or his designee may, in his or her discretion, notify local law-enforcement.

2. School Volunteers and Student Teachers.

Each staff member shall submit to the Principal the name and address of each volunteer the staff member proposes to use as soon as the person is identified. The Principal shall screen each student teacher and volunteer's name and address against the registry information. If a match is found, the Principal shall notify the Superintendent, who shall confirm the match. If the match is confirmed, the Superintendent shall inform the individual, in writing, that he or she may not serve as a volunteer or student teacher. The notice shall provide the reason with reference to this policy. The Superintendent shall provide a copy of the notice to the Principal and staff member.

3. Contractors' Employees.

In addition to ensuring that the certification requirements of Policy DJF Purchasing Procedures are met, the Superintendent shall include the following language in all Division contracts that may involve an employee of the contractor having any contact with a student:

The contractor shall not send any employee or agent who is a registered sex offender to any school building or school property. Monthly, the contractor shall check the registry to determine if any employee is registered.

4. School Division Employees.

Each time sex offender registry information is received, the principal shall review it to determine if a school division employee is registered. If a match is found, the Superintendent shall confirm or disprove the match with local law enforcement. If the match is confirmed, the Superintendent shall notify the School Board. The School Board will take the appropriate action to comply with state law which may include termination of employment.

5. Applicants for Employment.

Before hiring any person, the Superintendent shall determine whether the prospective employee is a registered sex offender. If the prospective employee is a registered sex offender, he or she shall not be hired by the division.

6. Parents of Students and other Visitors.

Persons who have been convicted of a sexually violent offense, as defined in Va. Code § 9.1-902, may be present at school during school hours or during school related or school sponsored activities, on any school bus, or on any property, public or private, when such property is solely being used by an elementary or secondary school for a school-related or school-sponsored activity only as provided in Policy KNA Violent Sex Offenders on School property.

When the school division learns that a parent of an enrolled student is a registered sex offender, other than a violent sex offender, the parent will be notified in writing that he or she is barred from being present at school or at school functions without the express written approval of the student's principal. Such approval must be obtained in advance of the proposed visit and will state the conditions under which the parent may be present. When a parent who is a registered sex offender is permitted at school or at school functions he or she will be monitored to ensure that he or she does not come into contact with any children other than his or her own children. Principals will consider requests from registered sex offenders in accordance with procedures prescribed by the superintendent.

When the school division learns that any person other than the parent of an enrolled student who is a registered sex offender, other than a violent sex offender, seeks to be present at school or at school functions, he or she will be notified in writing that he or she is barred from being present at school or school functions without the express written approval of the principal of the school the person seeks to visit or which sponsors the event the person seeks to attend. Such approval must be obtained in advance of the proposed visit and, if obtained, will state the conditions under which the person may be present. One of the conditions will be that the person will be monitored to ensure the safety of students, staff, and others. Principals will consider requests from registered sex offenders in accordance with procedures prescribed by the superintendent.

7. Precautions to Protect Students.

When the Superintendent determines it is necessary, because of the presence of a registered sex offender, alternative arrangements may be made for bus and walking routes to and from school, recess and physical education periods, or any other activity in order to protect division students.

8. Requests for Registry Information

Anyone requesting registry information from the school division shall be referred to the State Police.

RELATIONS WITH LAW ENFORCEMENT AUTHORITIES

Investigations by Law Enforcement Officers at School

When it becomes necessary for any law enforcement officer to interrogate a student on school premises, the principal is contacted immediately. The principal or principal's designee makes a reasonable effort to contact the parent or guardian and have the parent or guardian in attendance for the interrogation. If the parent or guardian cannot be present for the interrogation, then the principal or principal's designee is present throughout the interrogation.

Service of Process at School

Should there be a need to serve a student or school employee with any "legal process", the School Board encourages the process server to make all reasonable attempts to serve such documents off school premises; however, if the documents must be served on school premises, they should be served at the principal's office of the school which the student attends or the main office of the facility at which the employee is assigned.

In any case in which custody or visitation of a minor child is at issue and a summons is issued for the attendance and testimony of a teacher or other school employee who is not a party to the proceeding, if such summons is served on school property, it may be served only by a sheriff or his deputy.

Development of Programs

The superintendent seeks to develop, in cooperation with the local law-enforcement agencies, juvenile and domestic relations court judges and personnel, parents, and the community at large, programs and procedures to prevent violence and crime on school property and at school-sponsored events. The superintendent obtains and uses Sex Offender Registry information in accordance with Policy KN Sex Offender Registry Notification.

Report to Law Enforcement Officials

Except as may otherwise be required by federal law, regulation or jurisprudence, the principal immediately reports to local law-enforcement officials all incidents listed below that may constitute a felony offense:

1. assault and battery which results in bodily injury, sexual assault, death, shooting, stabbing, cutting, or wounding of any person, abduction of any person as described in Va. Code §§ 18.2-47 or 18.2-48, or stalking of any person as described in Va. Code § 18.2-60.3, on a school bus, on school property or at a school-sponsored activity; or
2. any conduct involving alcohol, marijuana, a controlled substance, imitation controlled substance or an anabolic steroid on a school bus, on school property or at a school-sponsored activity, including the theft of or attempted theft of student prescription medications; or
3. any threats against school personnel while on a school bus, on school property or at school-sponsored activity; or
4. the illegal carrying of a firearm, as defined by Va. Code § 22.1-277.07, onto school property;
5. any illegal conduct involving firebombs, explosive materials or devices, or hoax explosive devices, as defined in Va. Code § 18.2-85, or explosive or incendiary devices, as defined in Va. Code § 18.2-433.1 or chemical bombs, as described in Va. Code § 18.2-87.1, on a school bus, on school property or at a school-sponsored activity; or
6. any threats or false threats to bomb, as described in Va. Code § 18.2-83, made against school personnel or involving school property or school buses.

The principal may report to local law enforcement officials any incident involving the assault or assault and battery, without bodily injury, of any person on a school bus, on school property or at a school-sponsored activity.

If the local law-enforcement agency employs school resource officers, the School Board and the agency have a memorandum of understanding that sets forth the powers and duties of the school resource officers. The memorandum of understanding addresses the use of seclusion and restraint by law enforcement personnel in school settings. The School Board and the law-enforcement agency review and amend or affirm the memorandum of understanding at least once every two years or at any time upon the request of either party. The School Board provides notice and an opportunity for public input during each review period for the memorandum of understanding. The current memorandum of understanding is conspicuously published on the division website.

REPORTS OF MISSING CHILDREN

The Scott County School Division shall receive reports of the disappearance of any child living within the school division from local law enforcement pursuant to Va. Code § 52-31.1.

Upon notification by a local law-enforcement agency of a child's disappearance, the principal of the school in which the child was enrolled at the time of the disappearance shall indicate, by mark, in the child's cumulative record that the child has been reported as missing. Upon notification by law enforcement that the child is located, the principal shall remove the mark from the record.

Upon receiving a request from any school or person for copies of the cumulative records and birth certificate of any child who has been reported by a local law-enforcement agency to be missing, the school being requested to transfer the records shall immediately notify the law-enforcement agency that provided the report to the school of the child's disappearance of the location of the school or person requesting the cumulative records and birth certificate of the child, without alerting the requestor of such report.

For the purposes of this policy, a "mark" means an electronic or other indicator that (i) is readily apparent on the student's record and (ii) will immediately alert any school personnel that the record is that of a missing child.

PARENTAL RIGHTS AND RESPONSIBILITIES

- A. When parents of a student are estranged, separated, or divorced, all personnel will respect the parental rights of both parents. Unless there is a court order to the contrary, both parents have the right to
1. view the child's school records, in accordance with Policy JO Student Records;
 2. receive school progress reports, the school calendar, and notices of major school events;
 3. visit the school in accordance with Policies KK School Visitors, KN Sex Offender Registry Notification, and KNA Violent Sex Offenders on School Property;
 4. participate in parent-teacher conferences; in the case of the noncustodial parent, after a timely request is made;
 5. receive all notifications in accordance with the Individuals with Disabilities Education Act; and
 6. receive notice of the student's extended absence, as defined in and pursuant to Policy JED Student Absences/Excuses/Dismissals, if both parents have joint physical custody.

B. Parent Responsibilities

The custodial parent has the responsibility to

1. keep the school office informed of his address and how he or she may be contacted at all times;
2. provide the current address and phone number of the noncustodial parent at registration unless such address is unknown and the parent signs a statement to that effect, or unless a court order restricts the educational or contact rights of the noncustodial parent; and
3. provide a copy of any legal document which restricts the educational and/or contact rights of the noncustodial parent.

The noncustodial parent has the responsibility to keep the school office apprised of changes in his or her current phone number and address. Further, the noncustodial parent may make timely requests to participate in parent-teacher conferences. At the request of a noncustodial parent, such parent will be included as an emergency contact for the student's activities unless a court order has been issued to the contrary.

COMMERCIAL, PROMOTIONAL, AND CORPORATE SPONSORSHIPS AND PARTNERSHIPS

Generally

The Scott County School Board recognizes that corporate and other private sponsorship of programs and activities related to education can provide valuable enhancement of the educational program offered by the Board. For that reason, the BLANK School Board may enter into commercial, promotional and corporate sponsorship and partnership arrangements under certain conditions.

Definitions

An “educational partnership” is a mutually beneficial, co-operative relationship in which partners share values, objectives and/or human or financial resources to enhance learning for students.

An “educational sponsorship” is an arrangement pursuant to which the sponsor provides money, price reductions, equipment, materials, services or other benefits in exchange for recognition of its products or entity for a specified period of time.

Authority to Enter into Agreements

On behalf of the School Board, principals may enter into sponsorships and partnerships for their schools when the sponsorship or partnership does not extend beyond a single school year or exceed \$5,000 in value to the school.

On behalf of the School Board, the superintendent may enter into sponsorships and partnerships which will benefit more than one school or the division as a whole. The superintendent may also enter into sponsorships and partnerships when the sponsorship or partnership extends beyond a single school year or exceeds \$5,000 in value.

The School Board may create a Sponsorship Review Committee to approve any sponsorship or partnership which the Board determines should be considered by the Committee. The School Board shall establish criteria identifying proposed sponsorships and partnerships which must be approved by the Committee rather than by a principal or the superintendent. If the Committee’s decision regarding the proposed sponsorship or partnership is not unanimous, the decision may be appealed to the School Board by either the potential sponsor or partner or by a member of the Sponsorship Review Committee.

Requirements

Any agreement to enter into an educational sponsorship or educational partnership will be in writing.

The written agreement shall include:

- A statement of the educational purpose for the relationship.
- A statement that the School Board has the right to terminate the agreement without penalty if it determines that the agreement is having an adverse impact on the educational experience of students.
- A statement that if an agreement is terminated because of an adverse impact on the educational experience of students, no other agreement for an educational partnership or sponsorship will be entered into between the School Board and the partner or sponsor whose agreement has been terminated for a specified period of time.

- A statement detailing the specific benefits to the school or school division from the agreement.
- A statement clearly defining the roles, expectations, rights, and responsibilities of all parties to the agreement. This statement shall include a statement of whether the agreement permits the sponsor or partner to advertise in connection with the agreement and, if so, the extent of such advertising.
- A statement clearly defining whether the agreement creates any exclusive rights for the sponsor or partner and, if such rights are created, clearly defining those rights. If no exclusive rights are created, the agreement shall include a statement that the existence of the sponsorship or partnership will not limit the discretion of the School Board or its personnel in the use of sponsored or nonsponsored materials.
- The duration of the agreement.
- A statement that the school or School Board retains the exclusive right to authorize the use of its name, logo, or other similar information.
- A statement that the school or School Board must approve its identification as a partner or co-sponsor in all publicity materials.
- A statement of the monetary value to be received by the school or school division pursuant to the agreement.
- A statement defining how the benefits arising from agreement will be distributed.
- A statement of the basis on which students will be permitted to participate in the program or otherwise benefit from the agreement.
- A statement that the sponsor or partner assumes the responsibility for obtaining the consent of any student or School Board employee whose likeness may appear in any materials disseminated by the partner or sponsor.
- A statement disclosing any relationship between the sponsor or partner, or any of its employees or major stockholders, and any student, School Board employee, School Board member, or the superintendent.
- A statement that all partnerships and sponsorships will be consistent with all federal and state laws, local ordinances, school division policies and regulations, and all preexisting School Board contracts. If the terms of the partnership or sponsorship agreement establish that the employees, contractors or others acting on behalf of the partner or sponsor will have direct contact with students on school property during regular school hours or during school-sponsored activities, the sponsor or partner must certify that all such persons have not been convicted of any violent felony set forth in the definition of barrier crime in subsection A of Va. Code § 19.2-392.01; any offense involving the sexual molestation or physical or sexual abuse or rape of a child, or any crime of moral turpitude.
- A statement that if the terms of the partnership or sponsorship agreement establish that the employees, contractors, or others acting on behalf of the partner or sponsor will have direct contact with students on school property during regular school hours or during school-sponsored activities, the individuals acting on behalf of the partner or sponsor may have been convicted of any felony or crime of moral turpitude that is not set forth in the definition of barrier crime in subsection A of Va. Code § 19.2-392.02 and does not involve the sexual molestation, physical or sexual abuse, or rape of a child, provided that in the case of a felony conviction, the individual's civil rights have been restored by the Governor.
- A statement that no partnership or sponsorship shall exploit any student or School Board employee.
- A statement that no sponsor or partner shall be permitted to collect personal information, including names, addresses or telephone numbers of students or School Board employees because of the partnership or sponsorship.
- A statement that any curriculum materials provided pursuant to the agreement will be held to the same standards as other curriculum materials.
- A statement that any participation by any student or School Board employee in any activity established pursuant to the agreement will be purely voluntary. If a student or School Board

employee wants to participate in any sponsored or partnered activity but objects to using the materials provided by the sponsor or partner, the sponsor or partner must supply substantially similar materials to which the student does not object for that student to use in the activity. If a student objects to using materials provided by the sponsor or partner, the School Board employee in charge of the activity shall provide for a means by which the student's objections are made known to other students involved in the activity and by which those objections are discussed in an educational manner.

Prohibitions

No agreement shall be entered into if the sponsorship or partnership involves or gives the appearance of involving any activity which could result in the following:

- promotion of hostility or violence;
- an attack on ethnic, racial, or religious groups;
- discrimination prohibited by any law or School Board policy;
- promotion of the use of drugs, alcohol, tobacco products, nicotine vapor products, or firearms;
- promotion of sexual, obscene or pornographic activities; or
- promotion of any image that is not in keeping with the established goals and purposes of the School Board.

EDUCATION AGENCY RELATIONS GOALS

The Scott County School Board supports the endeavors of other educational institutions whose goals are compatible with those of the division.

To the extent appropriate, the school division utilizes the resources of other educational institutions for the benefit of its students and the development of its staff.

The school division cooperates with educational institutions and agencies in selected areas of research and experimentation which have the potential to increase the effectiveness of teacher preparation or staff development and/or which directly improve the local instructional program. To protect students and teachers from unnecessary intrusions that may disrupt instruction and regular school activities, requests for college students and professors to observe classes or otherwise interact with students or division personnel must be submitted directly to the superintendent or superintendent's designee.

The school division strives to improve the climate for education, particularly with reference to expanding the fiscal base, providing for efficient expenditure of funds, and bringing about state or federal legislation which improves education or contributes to division goals.

The school division cooperates with professional educational organizations whose goals are compatible with those of the division.

RELATIONS WITH PRIVATE SCHOOLS

The School Board and superintendent shall work cooperatively with private schools that serve the community and students in matters of common interest, unless expressly prohibited by state statutes or local school board policy. The superintendent is authorized to consult with officials of these schools to determine areas of mutual concern and interest and to make recommendations to the Board. The School Board will not enter into agreement with any nonpublic school within the division to provide student transportation to and from such schools.

HOME INSTRUCTION

GENERALLY

The Scott County School Board recognizes that when the requirements of Va. Code § 22.1-254.1 are complied with instruction of children by their parents is an acceptable alternative form of education under the policy of the Commonwealth of Virginia. Any parent of any child who will have reached the fifth birthday on or before September 30 of any school year and who has not passed the eighteenth birthday may elect to provide home instruction in lieu of school attendance if the parent

- holds a high school diploma;
- is a teacher of qualifications prescribed by the Board of Education;
- provides the child with a program of study or curriculum which may be delivered through a correspondence course or distance learning program or in any other manner; or
- provides evidence that the parent is able to provide an adequate education for the child.

DEFINITION

For purposes of this policy, "parent" means any parent, guardian, legal custodian or other person having control or charge of a child.

NOTIFICATION BY PARENTS

Any parent who elects to provide home instruction in lieu of school attendance shall annually notify the superintendent no later than August 15 of the parent's intention to so instruct the child and provide a description of the curriculum, limited to a list of subjects to be studied during the coming year and evidence of having met one of the criteria for providing home instruction. Any parent who moves into a school division or begins home instruction after the school year has begun shall notify the superintendent of the parent's intention to provide home instruction as soon as practicable and shall comply with the requirements of this policy within thirty days of such notice. The superintendent shall notify the Superintendent of Public Instruction of the number of students in the school division receiving home instruction.

EVIDENCE OF PROGRESS

A parent who elects to provide home instruction to a child who is over the age of six as of September 30 of the school year shall provide the superintendent by August 1 following the school year in which the child has received home instruction with either (i) evidence that the child has attained a composite score in or above the fourth stanine any nationally normed standardized achievement test or an equivalent score on the ACT, SAT or PSAT test or (ii) an evaluation or assessment which the superintendent determines to indicate that the child is achieving an adequate level of educational growth and progress, including but not limited to: (a) an evaluation letter from a person licensed to teach in any state, or a person with a master's degree or higher in an academic discipline, having knowledge of the child's academic progress, stating that the child is achieving an adequate level of educational growth and progress; or (b) a report card or transcript from a community college or college, college distance learning program or home-education correspondence school.

In the event that evidence of progress as required in this subsection is not provided by the parent, the home instruction program for that child may be placed on probation for one year. Parents shall file with the superintendent evidence of their ability to provide an adequate education for their child and a remediation plan for the probationary year which indicates their program is designed to address any educational deficiency. Upon acceptance of such evidence and plan by the superintendent, the home instruction may continue for one

probationary year. If the remediation plan and evidence are not accepted or the required evidence of progress is not provided by August 1 following the probationary year, home instruction shall cease and the parent shall make other arrangements for the education of the child which comply with Va. Code § 22.1-254.

IMMUNIZATIONS

Any parent, guardian or other person having control or charge of a child being home instructed, exempted or excused from school attendance shall comply with the immunization requirements provided in Va. Code § 32.1-46 in the same manner and to the same extent as if the child has been enrolled in and is attending school.

Upon request by the superintendent, the parent shall submit to the superintendent documentary proof of immunization in compliance with Va. Code § 32.1-46.

No proof of immunization shall be required of any child upon submission of (i) an affidavit to the superintendent stating that the administration of immunizing agents conflicts with the parent's or guardian's religious tenets or practices or (ii) a written certification from a licensed physician, physician assistant, nurse practitioner, or local health department that one or more of the required immunizations may be detrimental to the child's health, indicating the specific nature of the medical condition or circumstance that contraindicates immunization.

NOTIFICATION TO PARENTS

Advanced Placement (AP), Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) and PreACT examinations are available to students receiving home instruction pursuant to Va. Code § 22.1-254.1. The superintendent establishes a schedule identifying the dates by which students receiving home instruction must register to participate in such examinations. The superintendent notifies students receiving home instruction and their parents of the registration deadlines and the availability of financial assistance to low-income and needy students to take such examinations.

DISCLOSURE OF INFORMATION

Neither the superintendent nor the School Board shall disclose to the Department of Education or any other person or entity outside of the local school division information that is provided by a parent or student to satisfy the requirements of this policy or subdivision B 1 of Va. Code § 22.1-254. Nothing in this policy prohibits the superintendent from notifying the Superintendent of Public Instruction of the number of students in the school division receiving home instruction.

JROTC MEMBERSHIP FOR HOMESCHOOLED STUDENTS

Homeschooled students who reside in the division and who are otherwise eligible for membership in a Junior Reserve Officers' Training Corp (JROTC) unit maintained by a secondary school but for their lack of enrollment in the division are permitted to be members of the unit.

Homeschooled students who are members in the division's JROTC units must comply with behavioral, disciplinary, attendance and other rules applicable to all students, including rules governing the use of the division's computer systems. If a student fails to comply, the school may withhold credit and/or terminate the student's participation in addition to taking any disciplinary action that would be taken against a full-time student for similar conduct.

CHARTER SCHOOLS

Purpose

In order to (1) encourage the development of innovative programs; (2) provide opportunities for innovative instruction and student assessment; (3) provide parents and students more choices; (4) provide innovative scheduling, structure and management; (5) encourage the use of performance-based educational programs; (6) establish high standards for teachers and administrators; and (7) develop models for replication in other public schools, the Scott County School Board receives and considers applications for the establishment of charter schools.

Definition of Charter School

A charter school is a public, nonreligious or non-home-based alternative school located within the BLANK School Division or operated jointly by multiple school divisions. A charter school may be created as a new school or by converting all or part of an existing public school. Conversions of private schools or home-based programs are not permitted. A charter school for at-risk pupils may be established as a residential school.

In establishing public charter schools within the division, the School Board gives priority to public charter school applications designed to increase the educational opportunities of at-risk students. At least one half of the public charter schools in the division must be designed for at-risk students. However, conversions of existing public schools into public charter schools that serve the same community as the existing public school do not count in the determination of school division compliance with the one-half requirement.

Enrollment in a charter school is open to any child who resides within the school division or, in the case of a regional public charter school, within any of the relevant school divisions, through a lottery process on a space-available basis, except that in the case of the conversion of an existing public school, students who attend the school and the siblings of such students are given the opportunity to enroll in advance of the lottery process. Students eligible to enroll in the school division pursuant to Va. Code § 22.1-3.B because they are the children of military personnel on active military duty who will reside in the division may participate in the lottery process for charter schools in the division at the same time and in the same manner as students who reside in the division.

Public charter schools are subject to all federal laws and authorities as set forth in law and the charter contract. Public charter schools are subject to the same civil rights, health and safety requirements applicable to other public schools in the Commonwealth, except as otherwise provided by law.

Public charter schools are subject to the student assessment and accountability requirements applicable to other public schools. Nothing precludes a public charter school from establishing additional student assessment measures that go beyond state requirements if the School Board approves such measures.

Management committees of public charter schools are subject to and shall comply with the Virginia Freedom of Information Act (§ [2.2-3700](#) et seq.).

No public charter school shall discriminate against any individual on the basis of disability, race, creed, color, sex, sexual orientation, gender, gender identity, national origin, religion, ancestry, or need for special education services or any other unlawful basis, and each public charter school shall be subject to any court-ordered desegregation plan in effect for the school division.

No public charter school shall discriminate against any student on the basis of limited proficiency in English and each public charter school shall provide students who have limited proficiency in English with appropriate services designed to teach such students English and the general curriculum, consistent with federal civil rights laws.

No public charter school shall engage in any sectarian practices in its educational program, admissions or employment policies or operations.

Application Process

Any person, group or organization may submit an application for the formation of a public charter school to the Scott County School Board. A complete application includes the applicant's Virginia Public Charter School Application package submitted to the Board of Education, the result of the Board of Education's review of the application and the Charter School Application Addendum (LC-E [School Division] Charter School Application Addendum). Prior to submitting a charter school application to the School Board, a public charter school applicant shall submit its proposed charter application to the Board of Education for review and comment and a determination as to whether the application meets the approval criteria developed by the Board of Education. Charter School applications initiated by the Scott County School Board must conform to the Virginia Public Charter School Application. However, such applications are not required to receive Board of Education review and comment prior to action by the School Board.

The Board of Education examines all applications, other than those initiated by the School Board, for feasibility, curriculum, financial soundness and other objective criteria it may establish, consistent with existing state law. The Board of Education's review and comment is for the purpose of ensuring that the application conforms with such criteria. The school division may work with a charter school applicant before the application is submitted to the Board of Education for review and recommendation.

All public charter school applicants, other than those initiated by the School Board, must also complete the application addendum in the format provided in Exhibit LC-E [School Division] Charter School Application Addendum. The School Board shall establish a "review team" consisting of appropriate school personnel, a local business representative and a resident charter school proponent to evaluate charter school applications. The School Board shall designate the chairman of the review team as the contact person for answering questions about the application process and receiving applications. The review team shall work cooperatively with applicants for charter schools. When an application is incomplete, the review team shall request the necessary information; an incomplete application is not grounds for denying a charter. However, if the applicant does not provide the necessary information within a reasonable timeframe (established by the review team) then the application may be denied.

The review team shall (1) recommend to the School Board appropriate criteria for reviewing charter school applications; (2) evaluate all charter school applications based on the review criteria adopted by the School Board; (3) recommend one of the following options to the School Board for each application: approve, reject, place on a waiting list or return with suggestions for improvement; (4) monitor charter school progress; and (5) make recommendations for revocation, renewal or non-renewal of charter contracts.

The Scott County School Board shall establish a regulation for receiving, reviewing and ruling on applications for the establishment of charter schools. Such regulation must include a timeline for the application and review process and the means for reviewing and evaluating each application, including the criteria on which the decision to grant or deny a charter will be based. To provide appropriate opportunity for input from parents, teachers, citizens, and other interested parties and to obtain information to assist the School Board in its decision to grant or deny a public charter school application, the regulation will provide for public notice and the receipt of comment on public charter school applications. The School Board shall give at least 14 days' notice of its intent to

receive public comment on an application. A copy of the regulation, including the review criteria, shall be posted on the division's website and a copy shall be made available to any interested party upon request.

School Board Decision

If the School Board denies a public charter school application, or revokes or fails to renew a charter agreement, it shall provide to the applicant or grantee its reasons, in writing, for such decision, and it shall post such reasons on its website. A public charter school applicant whose application was denied, or a grantee whose charter was revoked or not renewed, is entitled to petition the School Board for reconsideration. The petition for reconsideration shall be filed no later than 60 days from the date the public charter school application is denied, or the charter agreement is revoked or fails to be renewed. Such reconsideration shall be decided within 60 days of the filing of the petition.

The School Board shall establish a process for reviewing petitions of reconsideration, which shall include an opportunity for public comment. The petition of reconsideration may include an amended application based on the reasons given by the School Board for such decision. Prior to seeking reconsideration, an applicant or grantee may seek technical assistance from the Superintendent of Public Instruction to address the reasons for denial, revocation or non-renewal.

Upon reconsideration, the decision of the School Board to grant or deny a public charter school application or to revoke or fail to renew a charter agreement is final and not subject to appeal. Following a decision to deny a public charter school application or to revoke or fail to renew a charter agreement, the School Board submits documentation to the Board of Education as to the rationale for the School Board's decision. The Board of Education has no authority to grant or deny a public charter school application or to revoke or fail to renew a charter agreement but may communicate any Board finding relating to the rationale for the School Board's denial of the public charter school application or revocation of or failure to renew the charter agreement based on the documentation submitted in any school division in which at least half of the schools receive funding pursuant to Title I, Part A.

Nothing in this policy prohibits an applicant whose application has been denied or a grantee whose charter has been revoked or not renewed from submitting a new application.

Charter Contract

Within 90 days of approval of a charter application, the School Board and the management committee of the approved public charter school shall execute a charter contract that clearly sets forth (i) the academic and operational performance expectations and measures by which the public charter school will be judged and (ii) the administrative relationship between the School Board and public charter school, including each party's rights and duties. The 90-day period may be extended by up to 30 days by mutual agreement of the parties. Such performance expectations and measures shall include applicable federal and state accountability requirements and may be refined or amended by mutual agreement after the public charter school has collected baseline achievement data for its enrolled students.

The academic and operational performance expectations and measures in the charter contract shall be based on a performance framework that clearly sets forth the academic and operational performance indicators, measures and metrics that will guide the School Board's evaluations of the public charter school. The performance framework shall include indicators, measures and metrics for:

- student academic proficiency;
- student academic growth;
- achievement gaps in both proficiency and growth between the major student subgroups based on gender, race, poverty status, special education status, English language learner status and gifted status;
- attendance;

- recurrent annual enrollment;
- postsecondary education readiness of high school students;
- financial performance and sustainability; and
- the performance and stewardship of the management committee, including compliance with all applicable laws, regulations and terms of the charter contract.

The performance framework shall allow the inclusion of additional rigorous, valid and reliable indicators proposed by the charter school to augment external evaluations of its performance, provided that the School Board approves the quality and rigor of such indicators.

The performance framework shall require the disaggregation of all student performance data by major student subgroups based on gender, race, poverty status, special education status, English language learner status and gifted status.

Annual performance targets shall be set by the public charter school and the School Board and shall be designed to help each school meet applicable federal, state and School Board expectations.

The charter contract shall be signed by the chairman of the School Board and the president or chairman of the public charter school's management committee. Within 10 days of executing a charter contract, the School Board shall submit to the Board written notification of the charter contract execution, including a copy of the executed charter contract and any attachments.

No public charter school shall commence operations without a charter contract executed in accordance with this policy and approved in an open meeting of the School Board.

Waivers of School Board Policy and State Regulation

A charter school may operate free from School Board policies and state regulations, except the Standards of Quality, the Standards of Accreditation and Standards of Learning, as agreed in the charter contract. The School Board shall request from the Board of Education, on behalf of its charter schools, waivers from state regulation contained in each approved charter application. If the charter school is designed to increase the opportunities of at-risk students, then the School Board shall request that the Board of Education approve an Individual School Accreditation Plan.

Management and Operation

A charter school shall be administered and operated by a management committee in the manner agreed to in the charter contract. The management committee shall be composed of parents of students enrolled in the school, teachers and administrators working in the school and representatives of any community sponsors, or any combination thereof. A charter school shall be responsible for its own operations. However, a charter school may negotiate and contract with the School Board, or any other third party, for the provision of necessary services; services provided by the School Board must be provided at cost.

The applicant and members of the management committee, administrators, and other personnel serving in a public charter school must disclose any ownership or financial interest they may have in renovating, lending, granting, or leasing public charter school facilities.

Personnel

Charter school personnel shall be selected as agreed in the charter contract. Such personnel may, but are not required, to be employees of the School Board. However, all charter school personnel shall be subject to the provisions of Va. Code §§ 22.1-296.1, 22.1-296.2 and 22.1-296.4.

Professional, licensed employees currently employed by the School Board may volunteer for assignment to a charter school and may be assigned by the School Board to a charter school for one contract year and reassigned annually upon the request of the employee and management committee. Professional, licensed employees assigned to a charter school shall receive the same employment benefits as such personnel assigned to noncharter schools. Professional, licensed personnel who request assignment to a noncharter school or who are not recommended for reassignment in the charter school, other than for reasons cited in § 22.1-307 of the Code of Virginia, shall be transferred to a noncharter school according to School Board policy.

The School Board may employ health, mental health, social services and other related personnel to serve in residential charter schools for at-risk students as determined in the charter agreement. However, the School Board is not required to fund the residential or other services provided by a residential charter school.

The School Board has the final authority to assign professional, licensed personnel to charter or other schools within the division.

Funding

Charter schools shall be funded as provided by law and negotiated in the charter contract.

Revocation and Renewal of the Charter Contract

The School Board may revoke a charter contract if

- the charter school violates the conditions, standards or procedures established in the application;
- the charter school violates a material term of the charter contract (for example, failing to provide required reports to the School Board);
- the charter school fails to meet or make reasonable progress toward achievement of the content standards or student performance standards identified in the charter application;
- the charter school fails to meet generally accepted standards of fiscal management; or
- the charter school violates any provision of law from which it was not specifically exempted.

A charter contract may be renewed for up to five years. The management committee must apply to renew the charter by [INSERT AMOUNT OF TIME] before the charter expires.

The application for renewal shall contain

- a report on the progress of the charter school in achieving the goals, objectives, program and performance standards for students and other conditions and terms the School Board required in the charter
- a financial statement, on forms prescribed by the Board of Education, disclosing the costs of administration, instruction and other spending categories which is written in a way to allow the School Board and the public to compare such costs to the costs of other schools and comparable organizations
- other information the School Board may require

If a charter contract is revoked or not renewed, or a charter school is dissolved, the management committee shall be responsible for all financial obligations of the charter school.

Reports

The School Board reports the following to the Board of Education:

- the grant or denial of charter applications, applications for renewal, and the revocation of any charter contract; for any such denial, revocation or failure to renew, the report to the Board of Education contains documentation as to the reason for the denial or revocation
- whether a public charter school is designed to increase the educational opportunities of at-risk students

The Board of Education will report the number of public charter schools established in Virginia, and the number of charters denied, in its annual report to the Governor and the General Assembly.

CHARTER SCHOOL APPLICATION ADDENDUM

Any person, group or organization may submit an application for the formation of a charter school. Applicants must follow state law and School Board policy regarding charter schools. A complete Scott County Charter School Application (“Application”) consists of (i) the Applicant’s *Virginia Public Charter School Application* package submitted to the State Board of Education, (ii) the result of the State Board of Education’s review of the Applicant’s state application, and (iii) the Scott County *Charter School Application Addendum* prepared in accordance with this policy. RELATIONS WITH EDUCATIONAL ACCREDITATION AGENCIES

All Scott County Public Schools are accredited according to standards developed by the Board of Education. The School Board reports the accreditation status of each school in the division annually in a public session of a board meeting.

The School Board recognizes individual schools under the Virginia Index of Performance (VIP) program established by the Board of Education to recognize and reward fully accredited schools that make significant progress toward achieving advanced proficiency levels in reading, mathematics, science, and history and social science, and other indicators of school and student performance that are aligned with Virginia's goals for public education. The School Board may ask the Board of Education for release from state regulations or, on behalf of one or more of its schools, for approval of an Individual School Accreditation Plan for the evaluation of the performance of one or more of its schools as authorized for certain other schools by the Standards of Accreditation. A request for a waiver from state regulations that are not (i) mandated by state or federal law or (ii) designed to promote health or safety will be made by the superintendent and chairman of the School Board on behalf of the School Board. The waiver request will describe how release from state regulations is designed to increase the quality of instruction and improve the achievement of students in the affected school or schools.

The School Board, by the superintendent and chairman of the School Board, may also request that the Board of Education grant waivers of specific requirements in Va. Code § 22.1-253.13:2, permitting the School Board to assign instructional personnel to the schools with the greatest needs, so long as the school division employs a sufficient number of personnel divisionwide to meet the total number required by Va. Code § 22.1-253.13:2 and all pupil/teacher ratios and class size maximums set forth in subsection C of Va. Code § 22.1-253.13:2 are met.
