A. Except as otherwise provided in this article, every parent, guardian, or other person in the Commonwealth having control or charge of any child who will have reached the fifth birthday on or before September 30 of any school year and who has not passed the eighteenth birthday shall cause such child to attend a public school or otherwise provide the child with an education in accordance with state law unless the child is exempt from the state's attendance requirement.

Further, in the case of any five-year-old child, the requirements of this section may be alternatively satisfied by sending the child to any public educational pre-kindergarten program, including a Head Start program, or in a private, denominational or parochial educational pre-kindergarten program.

Instruction in the home of a child or children by the parent, guardian or other person having control or charge of such child or children shall not be classified or defined as a private, denominational or parochial school.

The requirements of this section shall apply to (i) any child in the custody of the Department of Juvenile Justice or the Department of Corrections who has not passed his eighteenth birthday and (ii) any child whom the division superintendent has required to take a special program of prevention, intervention, or remediation as provided in subsection C of § 22.1-253.13:1 and in § 22.1-254.01. However, the requirements of this section shall not apply to any person 16 through 18 years of age who is housed in an adult correctional facility when such person is actively pursuing the achievement of a passing score on high school equivalency examination approved by the Board of Education but is not enrolled in an individual student alternative education plan, and any child who has obtained a high school diploma, its equivalent, or a certificate of completion, a passing score on a high school equivalency examination approved by the Board of Education or who has otherwise complied with compulsory school attendance requirements.

B. A school board may excuse for attendance at school:

2. On recommendation of the juvenile and domestic relations district court of the county or city in which the pupil resides, any pupil who, in the judgment of such court, cannot benefit from education at such school.

C. The School Board may allow the compulsory attendance requirements to be met pursuant to an individual student alternative education plan developed in conformity with guidelines prescribed by the Board Of Education under the following conditions:

For a student who is at least sixteen years of age, there shall be a meeting of the student, the student's parents, and the principal, or his designee of the school in which the student is enrolled in which an individual student alternative education plan shall be developed in conformity with guidelines prescribed by the Board, which plan must include:

- a. Career guidance counseling;
- b. Mandatory enrollment and attendance in a preparatory program for passing a high school equivalency examination approved by the Board of Education or other alternative education program approved by the School Board, with attendance reported to the principal or principal's designee;
- c. Mandatory enrollment in a program to earn a Board of Education approved career and technical education credential, such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, or the Virginia workplace readiness skills assessment;
- d. Successful completion of the course in economics and personal finance required to earn a Board of Education-approved high school diploma
- e. Counseling on the economic impact of failing to complete high school; and
- f. Procedures for re-enrollment to comply with the requirements of subsection A of this section. A student for whom an individual student alternative education plan has been granted pursuant to this subsection and who fails to comply with the conditions of such plan shall be deemed to be in violation of subsection A of this section and the superintendent or attendance officer of the school division in which the student was last involved shall seek immediate compliance with the compulsory attendance law.

Alternative Education Programs

3. Suspended pursuant to Va. Code § 22.1-277.05; or

The superintendent shall disseminate information received from the State Superintendent of Public Instruction concerning the ages when children are required or eligible to attend school. This information shall be disseminated to parents of such children upon or prior to enrollment of such children in the public schools of the division.

 - (2) records establishing that such pupil furnished such report upon prior admission to another school or school division and providing the information contained in such report.
- B. If the pupil is a homeless child or youth as defined in Va. Code § 22.1-3, and for that reason cannot furnish the required report or records, and the person seeking to enroll the pupil furnishes to the school division an affidavit so stating and also indicating that, to the best of his knowledge, such pupil is in good health and free from any communicable or contagious disease, the school division shall immediately refer the student to the division's homeless liaison, who will, as soon as practicable, assist in obtaining the necessary physical examination by the local health department or other clinic or physician's office and shall immediately admit the pupil to school.

- E. A physical examination shall not be required of any child whose parent or guardian objects on religious grounds and who shows no visible evidence of sickness. The parent or guardian shall state in writing that, to the best of his or her knowledge, the child is in good health and free from any communicable or contagious disease.
- F. The health departments of the counties and cities of the Commonwealth shall conduct such required physical examinations for medically indigent children, upon request, without charge and may provide such examinations to others on such uniform basis as the departments establish.

Such forms shall be returned within 15 days of receipt unless reasonable extensions have been granted by the superintendent or his designee. Upon failure of the parent to complete such form within the extended time, the superintendent may send the parent written notice of the date he intends to exclude the child from school; however, no child who is a homeless child or youth as defined in subdivision 6 of Va. Code § 22.1-3 shall be excluded from school for such failure to complete such form.

SCHOOL ADMISSION

A person of school age (i.e., a person who will have reached his or her fifth birthday on or before September 30 of the school year and who has not reached 20 years of age on or before August 1st of the school year) is eligible for admission on a non-tuition basis if residing in the Scott County School Division, or if eligible for admission under Policy JECA.

A person of school age shall be deemed to reside in the school division:

1. When the person is living with a natural parent, or a parent by legal adoption, in the Scott County School Division;
2. When, in accordance with the provisions of Va. Code § 22.1-360, the person is living with a noncustodial parent or other person standing in loco parentis, not solely for school purposes, pursuant to a Special Power of Attorney executed under 10 United States Code § 1044b by the custodial parent;
3. When the parents of such person are dead and the person is living with a person in loco parentis who actually resides within the school division;
4. When the parents of such person are unable to care for the person and the person is living, not solely for school purposes, with another person who resides in the school division and is either (i) the court-appointed guardian, or has legal custody of the person, or (ii) acting in loco parentis pursuant to placement of the person for adoption by a person or entity authorized to do so under Va. Code § 63.2-1200; or (iii) an adult relative providing temporary kinship care as that term is defined in Va. Code § 63.2-100. Both parents and the relative providing kinship care must submit signed, notarized affidavits (a) explaining why the parents are unable to care for the person, (b) detailing the kinship care arrangement, and (c) agreeing that the kinship care provider or a parent will notify the school within 30 days of when the kinship care arrangement ends. The parent must also provide a power of attorney authorizing the adult relative to make educational decisions regarding the person. A parent of the kinship care provider must also obtain written verification from the department of social services where the parent or parents live, and the department of social services where the kinship provider lives, that the kinship arrangement serves a legitimate purpose that is in the best interest of the person other than school enrollment. If the kinship care arrangement lasts more than one year, the school division must receive continued verification directly from both departments of social services that the parents are unable to care for the person and that the kinship care arrangement serves a legitimate purpose other than school enrollment.
5. When the person is living in the school division not solely for school purposes, as an emancipated minor; or
6. When all or any portion of the building in which the person resides (i) with another person set forth in the first through fourth numbers above or (ii) as an emancipated minor as set forth in number 5 above is taxable by the locality in which the school division is located; or
7. When the person has been placed in a foster care placement within the school division by a local social services agency. The sending and receiving school division will cooperate in facilitating the enrollment of any child placed in foster care across jurisdictional lines to enhance continuity of instruction. The child will be allowed to continue to attend the school in which he was enrolled prior to the most recent foster care placement, upon the joint determination of the placing social services agency and the school division that such attendance is in the best interest of the child. No person of school age who is the subject of a foster care placement will be charged tuition regardless of whether the child attending the school in which he was enrolled prior to the most recent foster care placement or is attending a school in the receiving school division. These provisions apply to any student

who was in foster care upon reaching 18 years of age and has not reached 22 years of age. Certain other students may be admitted into the public schools of the division and may be charged tuition in accordance with section 22.1-5 of the Code of Virginia and pursuant to Scott County School Board regulations.

No child of a person on active military duty:

1. Who is attending a school free of charge in accordance with this policy shall be charged tuition by the school division upon such child's relocation to military housing located in another school division in the Commonwealth, pursuant to orders received by such child's parent to relocate to base housing and forfeit his military housing allowance. Such children shall be allowed to continue attending school in the school division and shall not be charged tuition for attending such school;
2. Who is attending a school free of charge in accordance with this policy shall be charged tuition upon such child's relocation pursuant to orders received by such child's parent to relocate to a new duty station or to be deployed. Such children shall be allowed to remain enrolled in the current school division free of tuition through the end of the school year; and
3. Who is eligible to attend school free of charge in accordance with this policy shall be charged tuition by a school division that will be the child's division of residence once his service member parent is relocated pursuant to orders received. Such a child will be allowed to enroll in the school division of the child's intended residence if documentation is provided, at the time of enrollment, of military orders of the service member parent or an official letter from the service members' command indicating such relocation. Documentation indicating a permanent address within the school division shall be provided to the school division within 120 days of a child's enrollment or tuition may be charged, including tuition for the days since the child's enrollment in school. In the event that the child's service member parent is ordered to relocate before the 120th day following the child's enrollment, the school division shall not charge tuition. Students eligible to enroll in the school division in accordance with this policy because they are the children of military personnel on active duty who will reside in the division may register, remotely or in person, for courses and other academic programs and participate in the lottery process for the same manner as students who reside in the division. The assignment of the school such child will attend shall be determined by the school division.

Such children shall be counted in the average daily membership of the school division in which they are enrolled. Further, the school division in which such children are enrolled subsequent to their relocation to base housing shall not be responsible for providing for their transportation to and from school.

Additional Admission Requirements

1. Except as otherwise provided below, no pupil shall be admitted for the first time to any public school in any school division in Virginia unless the person enrolling the pupil presents, upon admission, a certified copy of the pupil's birth record. The principal or his designee shall record the official state birth number from the pupil's birth record into the pupil's permanent school record and may retain a copy in the pupil's permanent school record. If a certified copy of the pupil's birth record cannot be obtained, the person so enrolling the pupil shall submit an affidavit setting forth the pupil's age and explaining the inability to present a certified copy of the birth record. If the school division cannot ascertain a child's age because of the lack of a birth certificate, the child shall nonetheless be admitted into the public schools if the division superintendent determines that the person submitting the affidavit presents information sufficient to estimate with reasonable certainty the age of such child.
2. If a certified copy of the birth record is not provided, the administration shall immediately notify the local law enforcement agency. The notice to the local law-enforcement agency shall include copies of the submitted proof of the pupil's identity and age and the affidavit explaining the inability to produce a certified copy of the birth record.
3. Within 14 days after enrolling a transfer student, the administration shall request documentation that a certified copy of the pupil's birth record was presented when the pupil was enrolled in the former school.
4. The School Board assigns a unique student identification number, determined in accordance with a system developed by the Department of Education, to each student enrolled in the division. No student identification number includes or is derived from the student's social security number. Each student retains the students' identification number for as long as the student is enrolled in a public elementary or secondary school in Virginia.
5. Tuition rates are established each year in accordance with the provisions of § 22.1-5 of the Code of Virginia.
6. Prior to admission to the Scott County School Division, the parent, guardian, or other person having control or charge of the child shall provide, upon registration,
 - a. a sworn statement or affirmation indicating whether the student has been expelled from school attendance at a private school or in a public school division of the Commonwealth or another state for an offense in violation of school board policies relating to weapons, alcohol or drugs, or for the willful infliction of injury to another person. This document shall be maintained as a part of the student's scholastic record; and
 - b. a sworn statement or affirmation indicating whether the student has been found guilty of or adjudicated delinquent for any offense listed in subsection G of Va. Code § [16.1-260](#) or any substantially similar offense under the laws of any state, the District of Columbia, or the United States or its territories. This document shall be maintained by the superintendent and by any others to whom he disseminates it, separately from all other records concerning the student.

However, if the school administrators or the school board takes disciplinary action against a student based upon an incident which formed the basis for the adjudication of delinquency or conviction for an offense listed in subsection G of § 16.1-260, the notice shall become a part of the student's disciplinary record.

When the child is registered as a result of a foster care placement, the information required under this subsection must be furnished by the local social services agency or licensed child-placing agency that made the placement.

7. A student, who has been expelled or suspended for more than thirty days from attendance at school by a school board or a private school in Virginia or in another state or for whom admission has been withdrawn by a private school in Virginia or another state may be excluded from attendance in the Scott County School Division regardless of whether such student has been admitted to another school division or private school in Virginia or in another state subsequent to such expulsion, suspension, or withdrawal of admission upon a finding that the student presents a danger to the other students or staff of the school division after (i) written notice to the student and his/her parent that the student may be subject to exclusion, including the reasons therefore, and notice of the opportunity for the student or his parent to participate in a hearing to be conducted by the superintendent or his designee regarding such exclusion; and (ii) a hearing of the case has been conducted by the superintendent or his/her designee; and the decision has been to exclude the student from attendance. The student or his parent may file a written petition for review with the School Board within 15 days of notice of the decision of the superintendent or his/her designee. If the School Board grants a review of the record, the decision of the superintendent or his/her designee may be altered.
8. This policy does not preclude contractual arrangements between the Scott County School Board and agencies of the federal government or the school board of another jurisdiction to permit students not otherwise eligible to attend Scott County Public Schools.

Upon the expiration of the exclusion period for an expulsion or a withdrawal of admission, which period shall be established by the School Board, committee thereof, or superintendent or his designee, as the case may be, at the relevant hearing, the student may petition the School Board for readmission. If the

petition for readmission is rejected, the School Board shall identify the length of the continuing exclusion period and the subsequent date upon which such student may petition the School Board for readmission.

For the purposes of this section, the superintendent's designee shall be a (i) trained hearing officer or (ii) professional employee within the administrative offices of the school division who reports directly to the superintendent and who is not a school-based instructional or administrative employee.

In excluding any such expelled student from school attendance, the School Board may accept or reject any or all of any conditions for readmission imposed upon such student by the expelling school board pursuant to Va. Code § 22.1-277.06. The excluding School Board shall not impose additional conditions for readmission to school.

9. Prior to admission, the student must document compliance with, or eligibility for exemption from, the physical examination and immunization requirements contained in §§ 22.1-270, 22.1-271.2 and 32.1-46 of the Code of Virginia and policies JHCA and JHC.

If the person enrolling a child who has been placed in foster care by a local social services agency is unable to produce a report of a comprehensive physical examination and/or proof of immunization, the student shall be immediately enrolled; however, the person enrolling the child shall provide a written statement that, to the best of his knowledge, the student is in good health and is free from communicable or contagious disease. In addition, the placing social service agency shall obtain and produce the required documents or otherwise ensure compliance with the statutory requirements for the foster child within 30 days after the child's enrollment.

Exclusions and Exemptions From School Attendance

The School Board shall excuse from attendance at school:

1. Any student who, together with his parents, by reason of bona fide religious training or belief is conscientiously opposed to attendance at school.
2. On the recommendation of the juvenile and domestic relations court of the city or county in which the student resides, and for such period of time as the court determines appropriate, any student who, together with his parents, is opposed to attendance at a school by reason of concern for the student's health as verified by competent medical evidence, or by reason of such pupil's reasonable apprehension for personal safety when such concern or apprehension in that pupil's specific case is determined by the court, upon consideration of the recommendation of the principal and division superintendent, to be justified.

The School Board may excuse from attendance at school:

1. On recommendation of the principal and the division superintendent and with the written consent of the parent or guardian, any student who the school board determines, in accordance with regulations of the Board of Education, cannot benefit from education at school; or
2. On recommendation of the juvenile and domestic relations district court of the city or county in which the student resides, any student who, in the judgment of the court, cannot benefit from education at school.

Any request for exemption from attendance shall be presented annually in writing to the superintendent or his/her designee.

The compulsory education requirements do not apply to

1. Children suffering from contagious or infectious diseases;
2. Children whose immunizations against communicable diseases have not been completed;
3. Children under 10 years of age who live more than two miles from a public school unless public transportation is provided within one mile of the place where such children live; and
4. Children between the ages of 10 and 17, inclusive, who live more than 2.5 miles from a public school unless public transportation is provided within 1.5 miles of the place where such children live.

In addition, any child who will not have reached his sixth birthday on or before September 30 of each school year whose parent or guardian notifies the school board that he does not wish the child to attend school until the following year because the child, in the opinion of the parent or guardian, is not mentally, physically, or emotionally prepared to attend school, may delay the child's attendance for one year.

STUDENT ABSENCES/EXCUSES/DISMISSALS/TARDIES

Students who are absent must bring a parental note on the first day the student returns to school stating the reason for the absence. The only excuses for absence that shall be deemed acceptable are:

- a. illness (if over three days, the school may require a note from the doctor)
- b. court appearance
- c. death in the family
- d. religious holidays
- e. field trips and school-related activities
- f. extenuating circumstances which are determined by the school administration

High School

1. Students (grades 9-12) who bring valid notes for acceptable reasons will be permitted to make up work missed.
2. Students who do not bring valid notes will not be permitted to make up work missed. In the absence of a written note, if absence is determined unexcused by Principal or designee, work will not be permitted to be made up and a zero will be rewarded for the work missed.
3. Students absent due to suspension or truancy will not be permitted to make up work missed; the grade for the missed work will be zero.
4. It is the student's responsibility to see the teacher on the day he/she returns to schedule make-up work. Students with excused absences will be expected to make up all work missed immediately, within 5 (five) days after returning to school. All work not made up within the time limit will be graded zero. Extenuating circumstances, however, may be considered by the principal or his/her designee in extending the time limit for make up, and extension shall be liberally granted in order to insure that a student with a valid excuse is allowed to make up missed work.

Elementary/Intermediate/Middle School

1. A student will be expected to make up work for all classes missed within 5 (five) days of return to school, if the absence is excused. Extenuating circumstances may be considered by the principal or his/her designee in extending the time limit.
2. Students who do not bring parental notes or who bring unacceptable excuses shall be corrected through the use of counseling and discipline procedures, which may include the use of the In-School Suspension Program and other available programs and services.

General Provisions

Each principal will insure that teachers are accountable for the following:

- a. checking the roll each day in every class,
- b. communicating with a student's parents if poor attendance is affecting the student's progress and keeping a log of those contacts,
- c. including participation, which may be affected by attendance, in their student evaluation procedures, and
- d. offering vital, stimulating instruction each day which necessitates and encourages student attendance.

- e. in case of absence or tardiness, the student shall have his/her parent or guardian contact the school or send a signed note giving the date of absence or tardiness and the reason.

Children Chronically Tardy to School

Students may have 7 parent notes for anything: including tardy, early dismissals, or absences. After 7 parent notes, only excuses from doctors, court official, or death of an immediate family member will be excused. All other tardies will only be excused at principal discretion.

After 3 unexcused tardies, discipline will be at the discretion of the principal. Whenever any student has 10 or more unexcused tardies to school, the attendance/truancy officer will be involved. The officer in collaboration with the principal will make the determination when to pursue court interventions.

Requirements for Participation in the following:

1. Athletics – Must be present at school for 2 blocks to play or practice with a parent note or 1 block with a doctor excuse
2. Prom – Any student that is absent from school 15 or more days will not be eligible for prom.
3. Senior Trip (if applicable) – A student who is absent from school 15 or more days during the school year is not eligible to participate in senior trip. Must meet all Deadlines set forth by sponsors.
4. Fall Formal (if applicable) – A student who is absent from school 7 or more days is not eligible to attend the fall formal.

Student Attendance Policy

Student attendance is a cooperative effort and the School Board shall involve parents and students in accepting the responsibility for good attendance.

Each parent/guardian or person having control or charge of a child within the compulsory attendance age shall be responsible for such child's regular and punctual attendance at school as required under provisions of the law.

Parents of students who are absent must inform the school of the reason for the absence no later than upon the student's return to schools. Absences are excused for the following reasons:

The superintendent, by regulation, establishes procedure for appropriate intervention when a student engages in a pattern of absences for less than a full day, the explanation of which, if it were a full-day absence, would not be an excused absence.

The superintendent's regulations include procedures for excusing students who are absent by reason of observance of a religious holiday. Such regulations ensure that a student is not deprived of any award or of eligibility or opportunity to compete for any award, or of the right to take an alternative test or examination, which the student missed by reason of such absence, if the absence is verified in an acceptable manner.

Students shall attend school for a full day unless otherwise excused

High school students may spend a maximum of 180 school days each academic year participating in High School to Work Partnerships established pursuant to guidelines developed by the Board of Education. Students who miss a partial or full day of school while participating in Partnership programs are not counted as absent for purposes of calculating average daily membership. The superintendent's regulations include procedures by which students may make up work missed while participating in a High School to Work Partnership.

An attendance officer, or a division superintendent or superintendent's designee when acting as an attendance officer pursuant to Va. Code § 22.1-258, may complete, sign, and file with the intake officer of the juvenile and domestic relations district court, on forms approved by the Supreme Court of Virginia, a petition for a violation of a school attendance order entered by the juvenile and domestic relations district court pursuant to Va. Code § 16.1-278.5 in response to the filing of a petition alleging the pupil is a child in need of supervision as defined in Va. Code § 16.1-228.

Nothing in this policy shall be construed to limit in any way the authority of any attendance officer or the division superintendent to seek immediate compliance with the compulsory school attendance law.

Compulsory Attendance Procedures

Whenever a student fails to report to school on a regularly scheduled school day and no information has been received by school personnel that the student's parent is aware of and supports the absence, the school principal, principal's designee, attendance officer or other school personnel or volunteer notifies the parent by phone, email or other electronic means to obtain an explanation. School staff records the student's absence for each day as "excused" or "unexcused". Early intervention with the student and parent or parents takes place for repeated absences.

1. Upon Fifth Absence Without Parental Awareness and Support

If (1) a student fails to report to school for a total of five scheduled school days for the school year, and (2) there is no indication that the student's parent is aware of and supports the absence; and (3) reasonable efforts to notify the parent of the absences have failed, then the Principal or designee shall make a reasonable effort to ensure that direct contact is made with the parent, either in person or through telephone conversation, or through the use of other communication devices by the attendance officer to obtain an explanation for the pupil's absence and to explain to the parent the consequences of continued nonattendance. The attendance officer, the pupil, and the pupil's parent shall jointly develop a plan to resolve the pupil's nonattendance. Such plan shall include documentation of the reasons for the pupil's nonattendance.

2. Upon Additional Absences Without Parental Awareness and Support

If the pupil is absent for more than one additional day after direct contact with the pupil's parent and school personnel have received no indication that the pupil's parent is aware of and supports the pupil's absence, the school principal or principal's designee shall schedule a conference with the pupil, the pupil's parent and school personnel. Such conference may include the attendance officer and other community service providers to resolve issues related to the pupil's nonattendance. The conference shall be held no later than 10 school days after the tenth absence of the pupil, regardless of whether his parent approves of the conference. The conference team shall monitor the pupil's attendance and may meet again as necessary to address the concerns and plan additional interventions if attendance does not improve. In circumstances in which the parent is internally noncompliant with compulsory attendance requirements, or the pupil is resisting parental efforts to comply with compulsory attendance requirements, the principal or principal's designee shall make a referral to the attendance officer. The attendance officer shall schedule a conference with the pupil and pupil's parent within 10 school days and may (i) file a complaint with the juvenile and domestic relations district court alleging the pupil is a child in need of supervision as defined in Va. Code § 16.1-228 or (ii) institute proceedings against the parent pursuant to Va. Code § 18.2-371 or 22.1-262. In filing a complaint against the students, the attendance officer shall provide written documentation of the efforts to comply with the provision of this policy. In the event that both parents have been awarded joint physical custody pursuant to Va. Code § 20-124.2 and the school has received notice of such order, both parents shall be notified at the last known addresses of the parents.

3. Report for Suspension of Driver's License

In addition to any other actions taken pursuant to this policy, if a student who is under 18 years of age has 10 or more unexcused absences from school on

consecutive school days, the principal may notify the juvenile and domestic relations court, which may take action to suspend the student's driver's license.

4. Attendance Reporting

Student attendance shall be monitored and reported as required by state law and regulations. At the end of each school year, each public school principal shall report to the Superintendent the number of pupils by grade level for whom a conference was scheduled pursuant to Part II (B) above. The Superintendent shall compile this information and provide it annually to the Superintendent of Public Instruction.

5. Dismissal Precautions

Principals shall not release a student during the school day to any person not authorized by the student's parent/guardian to assume responsibility for the pupil. Students shall be released only on request and authorization of parent or guardian. The superintendent shall provide procedures for release of pupils who are not residing with or under the supervision of a parent/guardian. The burden of proof on the authority of the person to receive the student is on the requesting party. A formal check-out system shall be maintained in each school.

Prescriber authorization and parental consent shall be obtained for any such employee to assist with the insertion or reinsertion of the pump or its parts. Nothing in this policy requires any employee to assist with the insertion or reinsertion of the pump or its parts.

Students in grades nine through twelve may be permitted to carry and self-administer other medications when the following conditions are met:

- Written parental permission for self-administration of specified non-prescription medication is on file with the school.
- The non-prescription medication is in the original container and appropriately labeled with the manufacturer's directions.
- The student's name is affixed to the container.
- The student possesses only the amount of non-prescription medicine needed for one school day/activity.

- Written notice from the student's health care provider is on file with the school, indicating the identity of the student, stating the diagnosis of asthma or anaphylaxis, or both, and approving self-administration of inhaled asthma medications or auto-injectable epinephrine, or both, that have been prescribed for the student; specifying the name and dosage of the medication, the frequency in which it is to be administered and the circumstances which may warrant its use; and attesting to the student's demonstrated ability to safely and effectively self-administer the medication.
- An individualized health care plan is prepared, including emergency procedures for any life-threatening conditions.
- There is a consultation with the student's parent before any limitations or restrictions are imposed on a student's possession and self-administration of inhaled asthma medications and auto-injectable epinephrine, and before the permission to possess and self-administer inhaled asthma medications and auto-injectable epinephrine at any point during the school year is revoked.
- Self-administration of inhaled asthma medications and auto-injectable epinephrine is consistent with the purposes of the Virginia School Health Guidelines and the Guidelines for Specialized Health Care Procedure Manual, which are jointly issued by the Virginia Department of Education and the Virginia Department of Health.
- Information regarding the health condition of the student may be disclosed to school board employees in accordance with state and federal law governing the disclosure of information contained in student scholastic records.

Permission granted to a student to possess and self-administer asthma medications or auto-injectable epinephrine, or both, will be effective for a period of 365 calendar days, and must be renewed annually. However, a student's right to possess and self-administer inhaled asthma medication or auto-injectable epinephrine, or both, may be limited or revoked after appropriate school personnel consult with the student's parents. Self-administration of inhaled asthma medications and auto-injectable epinephrine is consistent with the purposes of the Virginia School Health Guidelines and the Guidelines for Specialized Health Care Procedure Manual, which are jointly issued by the Virginia Department of Education and the Virginia Department of Health.

epinephrine and may administer it to any student believed to be having an anaphylactic reaction.

Medication is stored in a locked cabinet or room at each school. Nurses or appropriately trained staff can treat or administer prescription medication medications. The school replenishes over-the-counter meds. All nurse and trained staff abide by HIPPA and FERPA guidelines and confidentiality. Staff is trained on a yearly basis or when doctor's orders are received by the school. Each student is treated individually, and emergency treatment plans are addressed in IEP's/504 Plans/ or Health Care Plans as appropriate.

ALLERGIES

Students with allergies may qualify for either 504 services with a 504 Plan in place of the student's school or a Health Care Plan. The Plan is determined by the School-Based Team when data is presented pertaining to the severity of the allergy and the impact of a major life activity when functions as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, working, reading, concentrating, thinking, communicating, bending, lifting, standing, sleeping and eating, along with the operation of a major bodily function.

If your child has an allergy (peanuts, bee sting, etc.), please contact the school and the school nurse.

The interagency agreement is based on recommended procedures for conducting investigations developed by the Departments of Education and Social Services. The School Board reports substantial modifications of the agreement to the Board of Education.

COMMUNICABLE DISEASES

The Scott County School Board recognizes the importance of protecting its students and employees from the transmission of communicable diseases which present a threat to their health and safety, while also protecting the legitimate interests and rights of students and employees with communicable diseases. In carrying out this responsibility, the Board directs the superintendent to act in compliance with applicable law to exclude from school attendance or work in the school setting any person who has a communicable disease. Both the decision to remove the student or employee and the decision to readmit the student or to permit the employee to return to work shall be made by the superintendent based upon consultation with the local health department, the student's or employee's physician, physician assistant, nurse practitioner, and/or other medical authorities. Such record is open to inspection by officials of the State Department of Health and the local health departments.

The school immunization record will be transferred by the school whenever the school transfers any student's permanent academic or scholastic records.

Within 30 calendar days after the beginning of each school year or entrance of a student, each admitting official will file a report with the local health department. The report will be filed on forms prepared by the State Department of Health and will state the number of students admitted to school with documentary proof of immunization, the number of students who have been admitted with a medical or religious exemption and the number of students who have been conditionally admitted, including those students who are homeless children or youths as defined in Va.  - violence on school property or at school activities;
 - other incidents posing a serious threat of harm to students, personnel or facilities;
 - imminent risk of suicide by students.

This plan shall be developed and fully operational by July 1, 2000. In developing this plan, schools may consult the model school crisis and emergency management plan developed by the Board of Education.

- b. All schools must have contingency plans for emergencies that include staff certified in Cardiopulmonary Resuscitation, the Heimlich maneuver, and emergency first aid. In addition, the school administration shall ensure that the school has:
 - Written procedures for responding to emergencies, including outside threats to safety and security such as bomb threats or threatening conduct by persons not part of the school community.
 - Written procedures, in accordance with guidelines established by the local school board, for responding to violent, disruptive or illegal activities by students or others within the school community while on school property or during a school-sponsored activity. Specific procedures shall be established for responding to verbal or physical threats and other forms of threatening conduct.

SCREENINGS

60 Day Screening Team- SCS has formed a screening team consisting of RNs, LPNs, health assistants, speech therapists, and a vision specialist to screen for: speech, language and voice; hearing and vision; scoliosis; and fine and gross motor skills within 60 administrative working days of initial enrollment and may be screened after 60 business days if original results are not considered valid. This serves as notice to parents and students of the screenings. Parental permission not required for screenings; however, parents may opt their child out of the screening with a written note to the school within the first 2 weeks of enrollment. All procedural safeguards are followed during the screening process, including: written notice to parents when children fail two screenings and are being referred for further testing, confidentiality of child information, and maintenance of information in each child's scholastic record. Screenings reported on a child's preschool physical exam might be acceptable if all necessary information is available. The following is a list of those areas to be screened and more specific information.

SPEECH, LANGUAGE, and VOICE SCREENINGS – Will be screened within 60 administrative days of the opening of school for all new enrollees, including those in Pre-K, kindergarten and those who transfer into the school division for the first time.

HEARING & VISION SCREENING (Grades Pre-K, K, 3, 7, 10)

AUDIO LOGICAL EVALUATION- Children with apparent hearing difficulties (utilizing Pure Tone/Tympanogram evaluations) are examined by an audiologist if they fail two hearing screenings.

SCOLIOSIS SCREENING – Will be conducted twice during a six-year period in which students are in grades 5 through 10. For students in the school division at grade 5, the screening will be conducted in grade 5 and again at grade 10. Students who enter SCS for the first time after grade 5 will be screened during the year they enter and while in grade 10. If they enter SCS for the first time during grade 10, they will only be screened once during that year.

Scoliosis is defined as a lateral curvature of the spine. In most cases, the scoliosis is idiopathic (80% of cases), meaning that it is not known what has caused the curvature to occur. It is not caused by having poor posture or carrying a heavy book bag and in most cases, if detected early it can be treated and does not cause any permanent problems or disabilities.

Scoliosis is usually discovered during routine screening with the forward bend test (Adam's test). During this exam, the child stands up straight, with feet together. The examiner will first check that the shoulders, scapulae (shoulder blades), and hips are level (uneven shoulders can be a sign of scoliosis) and the spine is straight. Next the child will bend forward at the hips, with the arms loosely extended and the palms held together. In children with scoliosis, bending forward will reveal an asymmetry of the back or posterior chest wall causing an elevation of one side of the back, or a rib hump. The child needs to wear a light-weight shirt or t-shirt for this exam. Screening can either be accomplished at school or from the child's medical doctor.

FINE AND GROSS MOTOR - Will be screened within 60 administrative days of the opening of school for all new enrollees including those in kindergarten and those who transfer into the school division for the first time.

Students may be referred for a special education evaluation through the screening process if the student failed any of the screenings which would affect educational and/or behavioral needs.

SEX OFFENDER REGISTRY NOTIFICATION

The Scott County school division recognizes the danger sex offenders pose to student safety. Therefore, to protect students while they travel to and from school, attend school or are at school-related activities, each school in the Scott County school division shall request electronic notification of the registration or reregistration of any sex offender in the same or contiguous zip codes as the school. Such requests and notifications shall be made according to the procedure established by the Virginia Department of State Police (State Police).

Such record is open to inspection by officials of the State Department of Health and the local health departments.

The school immunization record will be transferred by the school whenever the school transfers any student's permanent academic or scholastic records. SECTION III: INSTRUCTION ACCEPTABLE USE POLICY FOR ELECTRONIC INFORMATION, SERVICES, AND NETWORKS (Current policy revised 7/10/2015)

The School Board provides a computer system, including the Internet, to promote educational excellence by facilitating resource sharing, innovation and communication. The term computer system includes hardware, software, data, communication lines and devices, terminals, printers, CD-ROM devices, image & document scanners, tape drives, servers, mainframe and personal computers, the Internet and other internal or external networks.

The purpose of telecommunications technology in Scott County Public Schools is to support research, communication, and education and to provide access to unique resources and opportunities for collaborative work. The use of SCPS computer networks, including Internet access, must be in support of education and consistent with the educational objectives of Scott County Public Schools and the Virginia Board of Education. This policy applies to all users of SCPS electronic information, services, and networks. By using or accessing Division facilities or services, the user agrees to abide by this policy.

In accordance with Va. Code § 22.1-70.2, Scott County Public Schools requires all students/staff to receive NetSmartz Internet safety training or division developed Internet safety training. Internet safety is both taught to and practiced by all students and staff, grades K-12, with special emphasis placed in both the SCPS Grade 5 and Grade 8 curriculum.

Electronic information research skills are now fundamental for productive citizens and employees. Access to the Internet enables students, teachers, and administrators to explore thousands of libraries, databases, bulletin boards, and other resources while exchanging information with people around the world. The Division expects that its teachers will blend thoughtful use of the Internet throughout the curriculum and will provide guidance and instruction to students in its use. As much as possible, access from school to Internet resources should be structured in ways which point students to those which have been evaluated prior to use. While students will be able to move beyond those resources to others that have not been previewed, they will be subject to supervision in an effort to provide Internet use that is particularly suited to learning objectives.

Scott County Public Schools will use a filter which seeks to prevent access to pornography as set out in Va. Code § 18.2-374.1:1 or as defined in 18 U.S.C. § 2256, obscenity as defined by Va. Code § 18.2-372 or 18 U.S.C. § 1460, material which the school division deems to be harmful to juveniles as defined in Va. Code § 18.2-390, material that is harmful to minors as defined in 47 U.S.C. § 254(h)(7)(G), and material that is otherwise inappropriate for minors. However, it is recognized that this filter alone is no guarantee that users will not be able to find Internet resources which are profane, offensive, obscene, or otherwise objectionable. The ultimate responsibility for appropriate use of Internet resources lies with the user. Parents and guardians may request alternative activities not requiring Internet use for their minor children.

Students utilizing SCPS-provided Internet access must first have the permission of and must be supervised by the Division's professional staff. Students utilizing school-provided Internet access are responsible for good behavior on-line just as they are in a classroom or other area of the school. The same general rules for behavior and communications apply. To remain eligible as users, students' use must be in support of and consistent with the educational objectives of the Division. Access is a privilege, not a right. Access requires responsibility.

Computer System Use-Terms and Conditions.

1. **Acceptable Use.** Scott County Public Schools provides employees and students with access to its telecommunication systems. The purpose of these systems is not general access but has a more specific limited educational purpose. This purpose includes use of telecommunication systems for professional SCPS business, classroom instructional activities, professional and career development and to further educational personal goals consistent with the school division mission, goals, and objectives and school policies. Uses which might be acceptable on a user's personal account on another system may not be acceptable on these limited purpose systems. Access to the Division's computer system shall be for the purposes of education or research and be consistent with the educational objectives of the Division or for legitimate school business.

Internet Guidelines:

The school division will provide access to the Internet based on the following guidelines:

1. In elementary schools (K-4), teachers will actively supervise student use of the Internet. Access is password driven. Teachers will make every effort to ensure that students are directed to sites with only age- and topic-appropriate material. Best teaching practice recommends teachers bookmark or use portals to direct usage.
 2. In upper elementary school (5-6), teachers will supervise and model appropriate use of the Internet. Students will continue to have Internet access under direct teacher supervision; however, students will, also, experience guided practice leading towards gaining skills to become an independent, responsible user of the Internet. Teachers will model skills needed to search for information within an area of study, to filter information for credibility and worth, and to recognize areas of inappropriate information sources or access. Teachers will explore an Internet site before directing students to that site. Teachers will make every effort to ensure that students are directed only to sites with age- and topic-appropriate material and resources.
 3. In middle school (7-8), teachers will provide guided practice and model appropriate use of the Internet. Teachers will supervise student initiated information search activities and provide support for students as they begin to assume responsibility for becoming independent users of the Internet. Teachers will make every effort to ensure that students explore only sites with age and topic-appropriate material and resources.
 4. In high school (9-12), students will participate in independent Internet use with teachers assuming less of a monitoring role and more of an advisory role.

Users should not expect that files stored on school-based computers will be private. Electronic messages and files stored on school-based computers are always regarded as property of the Division. Authorized administrators and faculty may review files and logs of Internet use at any time, without reason or prior notice, to maintain system integrity and determine that users are acting responsibly or otherwise consistent with this policy.

10. Enforcement. Software will be installed on the Division's computers having Internet access to filter or block Internet access through such computers to child pornography and obscenity. The online activities of minors may also be monitored manually. Any violation of these regulations shall result in loss of computer system privileges and may also result in appropriate disciplinary action, as determined by School Board policy, or legal action.

Any violation of Division policy and rules may result in immediate termination of Division-provided access to the Internet. Additional disciplinary action may be determined at the building level in keeping with existing procedures and practices regarding inappropriate conduct. When and where applicable, law enforcement agencies may be involved.

The Scott County School Board makes no warranties of any kind, neither expressed nor implied, for the Internet access it is providing. No student shall be permitted to operate a motor vehicle without a learner's permit or a license. DUAL ENROLLMENT, ADVANCED PLACEMENT CLASSES, AND SPECIAL PROGRAMS

Scott County Schools offers dual enrollment, advanced placement classes, and Academic Year Governor's School Programs to our students. Contact the Guidance Office at the school for the qualifications for enrolling in such classes and programs and the availability of financial assistance to low-income and needy students. In regard to dual enrollment courses, it is very important to keep in mind that schools within colleges and universities set their own course transfer standards and these standards are constantly changing. Your selected major will often determine whether courses will transfer for elective or degree credit. Always work closely with your guidance counselor.

Students and their parents shall be notified of the availability of dual enrollment, advanced placement classes, career and technical education programs, including internships, externships, apprenticeships, credentialing programs, certification programs, licensure programs, and other work-based learning experiences; the International Baccalaureate program, and Academic Year Governor's School Programs, the qualifications for enrolling in such classes and programs, and the availability of financial assistance to low-income and needy students to take the advanced placement and International Baccalaureate examinations. Students and their parents shall also be notified of the program with a community college to enable students to complete an associate's degree or a one-year Uniform Certificate of General Studies concurrent with a high school diploma. The superintendent shall promulgate regulations to implement this policy, which shall ensure the provision of timely and adequate notice to students and their parents. Each high school will inform parents and students of such classes/programs and the application process including financial assistance.

EMERGENCY CLOSINGS

In the event that an emergency arises making it impossible to open school, announcements will be made through the mass media as soon as possible. Should hazardous weather or conditions within a school building develop during the day, which would require closing school before the regular dismissal time, it is essential that each pupil know what he/she is to do and where he/she is to go.

It will be impossible to contact all parents before releasing the children on such emergency occasions. To prevent confusion, parents are urged to make necessary arrangements for their children. The parents will fill out a form, prepared by the principal, and returned to the students' teacher noting arrangements that have been made.

The Superintendent or Superintendent's designee may order the closing, the delay in opening or the early dismissal of any or all schools in order to protect the safety and welfare of students and staff.

Unless employees are notified that their work schedule is changed because of adverse weather or emergency conditions, it is expected that all employees will work according to the terms of their contract.

During adverse weather or emergency conditions, however, employees will follow guidelines related to work schedules. The guidelines may be reviewed by the School Board.

1. The District wellness policy shall be updated as needed based on evaluation results, District changes, emersion of new health science information/technology, and/or new federal or state guidance are issued.

HOMEBOUND INSTRUCTION

The School Board shall maintain a program of homebound instruction for students who are confined at home or in a health care facility for periods that would prevent normal school attendance based upon certification of need by a licensed physician, physician assistant, nurse practitioner, or clinical psychologist. Credit for the work shall be awarded when it is done under the supervision of a licensed teacher, a person eligible to hold a Virginia license, or other appropriately licensed professional employed by the School Board, and there is evidence that the instructional time requirements or alternative means of awarding credit adopted by the school board have been met. Homebound instruction is designed so the student does not fall significantly behind during the period of confinement. It is necessary for the student to participate in the instructional process and complete assignments. Homework should be expected. Not all work will be completed in the presence of the homebound teacher. Emphasis will be placed on core academic subjects. Specialty classes (i.e., those requiring labs, special facilities or equipment) may not be comparable. Elective courses are not guaranteed. Homebound instruction is intended to make every effort to ensure academic progress; however, this progress is dependent upon the efforts of the student. Elementary students usually receive five (5) hours of instruction per week and secondary between five and ten (5 and 10) hours of instruction; that is, providing they are carrying a normal academic load. If the student participates in the allotted hours of instruction, he/she will be counted present on their teacher's roll. Upon successfully completing homebound assignments and accompany tests, the student will receive credit for the course on his/her permanent record.

Virtual Courses

Students may enroll in and receive a standard and verified unit of credit for supervised virtual courses with prior approval of the principal. The superintendent is responsible for developing regulations governing this method of delivery of instruction that include the provision of 8 VAC 20-131-110 and the administration of required Standards of Learning tests prescribed by 8 VAC 20-131-30. For courses offered for possible high school credit, standard units of credit are awarded for successful completion of such courses when the course is equivalent to that offered in the regular school program and the work is done under the supervision of a licensed teacher qualified in the relevant subject areas. A verified unit of credit may be earned when the students has successfully complete the requirements specified in 8 VAC 20-131-110.

Applicants for homebound instruction are approved locally by the Director of Homebound Services. Medical forms may be picked up at the School Board Office and must be maintained on file.

To assist with the management of homebound services, a random audit is periodically done to verify the hours submitted by the homebound teacher. During such period of instruction the student shall be carried on the school register as present.

Medical Certification for Homebound Instruction

The basis for this certification is that the student meets the requirements for acute and chronic illness or extended absenteeism from school due to extended illness/injury, surgery, or complications. Acute/chronic health problems require a physician's signature. Following is Scott County's definition for acute and chronic illness:

"Acute" – Having a rapid onset, severe symptoms, and a short course (less than six weeks duration), not chronic. Example: surgery, accidents, chickenpox, measles, etc.

"Chronic" – An illness which has been or is expected to be a condition which affects the student for an extended period of time and which historically is an illness that is not expected to be resolved through regular medical treatment or the passage of time. Examples: asthma, diabetes, cancer, surgeries, hospitalization or complications which may interfere with regular school attendance and may extend beyond six weeks.

Rules for governing homebound instruction are as follows:

- Classroom teachers shall be responsible for providing daily assignments, tests, and grading when a student is on homebound instruction for less than nine weeks.
- Homebound instructors shall provide daily assignments, tests, and grades for those students who are on extended homebound instruction (more than nine weeks).
- An adult must be in attendance when the homebound instructor is in the home providing services.
- A treatment plan specifying a course of treatment leading to eventual return to school must be provided by a qualified psychiatrist or clinical psychologist if a student is suffering from an emotional disorder that precludes their school attendance.
- Weighted credit will not be awarded for courses taken during summer school or for homebound that extends for more than the semester in which the student is presently enrolled.
- Homebound students are expected to be in attendance at the appointed time. Homebound hours will not be made up, and a zero will be given for that time period. The only exception will be a medically necessary doctor's visit or court appearance, in which case a note from the doctor or court representative will be required for verification and the student will be expected to notify the Homebound Teacher so as to avoid an unnecessary visit.
- Students receiving homebound instruction may not work or participate in extra-curricular activities, non-academic activities (such as field trips), or community activities unless these activities are specifically outlined in the student's medical plan of care or the Individualized Education Program (IEP), as applicable.
- The requested homebound services for students receiving special education services shall be subject to review by the student's IEP Team pursuant to the Individuals with Disabilities Act.
- Parental permission to contact the treating physician or psychologist must be granted in order for the student to be considered for homebound services.
- All tests must be administered by homebound teachers. Parents are not to assist with test taking for their children. The homebound teacher will pick up the tests from school, be present during administration, only assist the student with test directions, and deliver the tests back to the school upon completion. If the work assigned while on homebound is not completed, the student will receive an incomplete (I) on their report card. Any child receiving an (I) on their report card will not pass to the next grade.
- Since homebound instruction is not to supplant school services, if it is necessary to extend homebound instruction beyond the initial time frame or longer than nine weeks, a transition plan or new homebound form is required outlining the following:

- Name of student
- Justification for the extension of homebound instruction
- Additional time homebound instruction is anticipated
- Signature, date office address, and phone number of the physician or psychologist.

NOTE: Those students who are experiencing mental illness requiring homebound must present a treatment plan from a qualified psychiatrist or psychologist.

NOTE: In the event extended medical leave is recommended by the family physician, a second medical opinion from a physician chosen by the Homebound Director, at no cost to the parent/student, may be requested.

***The time spent on homebound instruction is not comparable to a school day; therefore, a student approved for homebound instruction may not obtain perfect attendance.

Home-based Instruction:

Services that are delivered in the home setting (or other agreed upon setting) in accordance with the student's Individual Education Program, 504 plan, parent request, or school board approval. Home-based instruction is provided to students who are removed from school by the division for discipline, safety concerns, or other. The services are provided consistent with those for homebound students. The primary distinction is that no medical referral is required and no reimbursement is provided for these services. Home-based instruction must be approved by a committee of three that may be comprised of the following: Superintendent or designee, Personnel Director, Supervisor from the Central Office, Principal/Assistant Principal of school, School Psychologist, or School Social Worker. All evidence of need will be reviewed by the committee prior to approval.

***See attachment for homebound/physician certification.**

HOME INSTRUCTION

The Scott County School Board recognizes that when the requirements of Va. Code § 22.1-254.1 are complied with instruction of children by their parents is an acceptable alternative form of education under the policy of the Commonwealth of Virginia. - (i) holds a high school diploma; or higher; or
- (ii) is a teacher of qualifications prescribed by the Board of Education; or
- (iii) provides a program of study or curriculum which may be delivered through a correspondence course or distance learning program or in any other manner;

Notification by Parents

Advanced Placement (AP), Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) and PreACT examinations are available to students receiving home instruction pursuant to Va. Code § 22.1-254.1. The superintendent establishes a schedule identifying the dates by which students receiving home instruction must register to participate in such examinations. The superintendent notifies students receiving home instruction and their parents of the registration deadlines and the availability of financial assistance to low-income and needy students to take such examinations.

Evidence of Progress

A parent who elects to provide home instruction to a child who is over the age of six as of September 30 of the school year shall provide the division superintendent by August 1 following the school year in which the child has received home instruction with either (i) evidence that the child has attained a composite score in or above the fourth stanine any nationally normed standardized achievement test or an equivalent score on the ACT, SAT or PSAT test or (ii) an evaluation or assessment which the division superintendent determines to indicate that the child is achieving an adequate level of educational growth and progress, including but not limited to: (a) an evaluation letter from a person licensed to teach in any state, or a person with a master's degree or higher in an academic discipline, having knowledge of the child's academic progress, stating that the child is achieving an adequate level of educational growth and progress; or (b) a report card or transcript from a community college or college, college distance learning program, or home-education correspondence school.

In the event that evidence of progress as required in this subsection is not provided by the parent, the home instruction program for that child may be placed on probation for one year. Parents shall file with the division superintendent evidence of their ability to provide an adequate education for their child and a remediation plan for the probationary year which indicates their program is designed to address any educational deficiency. Upon acceptance of such evidence and plan by the division superintendent, the home instruction may continue for one probationary year. If the remediation plan and evidence are not accepted or the required evidence of progress is not provided by August 1 following the probationary year, home instruction shall cease and the parent shall make other arrangements for the education of the child which comply with Va. Code § 22.1-254.

Immunizations

Any parent, guardian or other person having control or charge of a child being home instructed, exempted or excused from school attendance shall comply with the immunization requirements provided in Va. Code § 32.1-46 in the same manner and to the same extent as if the child has been enrolled in and is attending school.

Notification to Parents

Students receiving home instruction and their parents will be notified of the availability of Advanced Placement (AP) and Preliminary Scholastic Aptitude Test (PSAT) examinations and the availability of financial assistance to low-income and needy students to take these examinations from their home schools. Such notice will be given when the parent notifies the division that the student will receive home instruction and the parent requests such information.

Disclosure of Information

Neither the superintendent nor the School Board shall disclose to the Department of Education or any other person or entity outside of the local school division

information that is provided by a parent or student to satisfy the requirements of this policy or subdivision B 1 of Va. Code § 22.1-254. Nothing in this policy prohibits the superintendent from notifying the Superintendent of Public Instruction of the number of students in the school division receiving home instruction.

HOMELESS CHILDREN AND YOUTH

The Scott County School Board is committed to educating homeless children and youth. Homeless children and youth are not stigmatized or segregated on the basis of their status as homeless. The school division coordinates the identification and provision of services to such students with relevant local social services agencies and other agencies and programs providing services to such students, and with other school division as may be necessary to resolve interdivisional issues.

The Scott County School Division serves each homeless student according to the student's best interest and will

- continue the student's education in the school of origin for the duration of homelessness if the student becomes homeless between academic years or during an academic year; or for the remainder of the academic year, if the student becomes permanently housed during an academic year; or
- enroll the student in any public school that non homeless students who live in the attendance area in which the student is actually living are eligible to attend.

In determining the best interest of a homeless student, the Scott County School Board

- presumes that keeping the student in the school of origin is in the student's best interest, except when doing so is contrary to the request of the student's parent or guardian, or (in the case of unaccompanied youth) the youth;
- considers student-centered factors related to the student's best interest, including factors related to the impact of mobility on achievement, education, health and safety of homeless students, giving priority to the request of the student's parent or guardian or (in the case of an unaccompanied youth) the youth;
- if, after conducting the best interest determination based on consideration of the presumption and the student-centered factors above, the Scott County School Division determines that it is not in the student's best interest to attend the school of origin or the school requested by the parent or guardian, or (in the case of an unaccompanied youth) the youth, provides the student's parent or guardian or the unaccompanied youth with a written explanation of the reasons for its determination, in a manner and form understandable to such parent, guardian or unaccompanied youth, including information regarding the right to appeal; and
- in the case of an unaccompanied youth, ensures that the division homeless liaison assists in placement or enrollment decision, gives priority to the views of such unaccompanied youth and provides notice to such youth of the right to appeal.

Enrollment

The school selected in accordance with this policy immediately enrolls the homeless student, even if the student

- is unable to produce records normally required for enrollment, such as previous academic records, records of immunization and other required health records, proof of residency or other documentation; or
- has missed application or enrollment deadlines during any period of homelessness

The enrolling school immediately contacts the school last attended by the student to obtain relevant academic and other records.

If the student needs to obtain immunizations or other required health records, the enrolling school immediately refers the parent or guardian of the students or, (in the case of unaccompanied youth) the youth, to the division's homeless liaison, who assists in obtaining necessary immunizations or screening, or immunization or other required health records.

If the documentation regarding the comprehensive physical examination required by Policy LHCA Physical Examination of Students cannot be furnished for a homeless child or youth, and the person seeking to enroll the pupil furnishes to the school division an affidavit stating that the documentation cannot be provided because of the homelessness of the child or youth and also indicating that, to the best of his or her knowledge, such pupil is in good health and free from any communicable disease, the school division immediately refer the student to the division's homeless liaison who, as soon as practicable, assists in obtaining the necessary physical examination by the county or city health department or other clinic or physician's office and immediately admits the pupil to school.

The decision regarding placement is made regardless of whether the student lives with the homeless parents or has been temporarily placed elsewhere.

Enrollment Disputes

If a dispute arises over eligibility, or school selection or enrollment in a school

- The homeless student is immediately enrolled in the school in which enrollment is sought, pending final resolution of the dispute, including all available appeals;
- The parent or guardian of the student or (in the case of unaccompanied youth) the youth is provided with a written explanation of any decisions related to the school selection or enrollment made by the school, the school division or the Virginia Department of Education, including the rights of the parent, guardian or student to appeal the decision;
- The student, parent or guardian is referred to the division's homeless liaison who carries out the appeal process as expeditiously as possible after receiving notice of the dispute; and
- In the case of an unaccompanied youth, the homeless liaison ensures that the youth is immediately enrolled in the school in which the youth seeks enrollment pending resolution of the dispute.

Appeal Process

Oral Complaint-In the event that an unaccompanied student or the parent or guardian of a student (hereinafter referred to as the Complainant) disagrees with a school's decision regarding the student's eligibility to attend the school, the Complainant shall orally present his position to the division's homeless liaison.

Written Complaint-If the disagreement is not resolved within five (5) school days, the Complainant may present a written complaint to the homeless liaison. The written complaint must include the following information: the date the complaint is given to the homeless liaison; a summary of the events surrounding the dispute; the name(s) of the school division personnel involved in the enrollment decision; and the result of the presentation of the oral complaint to the homeless liaison.

Within five (5) days after receiving the written complaint, the homeless liaison will reach a decision regarding the contested enrollment and shall provide a written statement of that decision, including the reasons therefore, to the Complainant. The liaison will inform the Superintendent of the formal complaint and its resolution.

Appeal to Superintendent

If the Complainant is not satisfied with the written decision of the homeless liaison, the Complainant may appeal that decision to the Superintendent by filing a written appeal. The homeless liaison shall ensure that the Superintendent receives copies of the written complaint and the response thereto. The Superintendent or designee shall schedule a conference with the Complainant to discuss the complaint. Within five (5) school days of receiving the written appeal, the Superintendent, or designee, shall provide a written decision to the Complainant including a statement of the reasons therefore.

Comparable Services

Each homeless student is provided services comparable to services offered to other students in the school attended by the homeless student including the

following:

- Transportation services;
- Educational services for which the student meets the eligibility criteria, such as services provided under Title I, educational programs for children with disabilities and educational programs for English learners;
- Programs in career and technical education;
- Programs for gifted and talented students; and 'school nutrition programs.

Transportation

At the request of the parent or guardian (or in the case of an unaccompanied youth, the liaison), transportation is provided for a homeless student to and from the school of origin as follows:

- If the homeless child or youth continues to live in an area served by the division in which the school or origin is located, the child's or youth's transportation to and from the school of origin is provided or arranged by the division in which the school of origin is located.
- If the homeless child's or youth's living arrangements in the area served by the division in which the school of origin begins living in an area served by another division, the division of origin and the division in which the homeless child or youth is living must agree upon a method to apportion the responsibility and costs for providing the child with transportation to and from the school of origin. If the division are unable to agree upon such method, the responsibility and costs for transportation are shared equally.

HOMEWORK

Homework can provide an essential communication link between the school and the home. One measure of a program or course is the quality of the work done at home by the student. A strong home-school partnership, with many lasting benefits for the individual student and his/her family, can be greatly enhanced by a sound program of homework. In addition, homework should be an important tool in developing independent thought, self-direction, and self-discipline. It can assist the student in developing good work habits and in the wise use of time.

Guidelines for homework include:

1. Homework should be assigned after introduction and thorough explanation of the skills necessary to successfully complete the assignment.
2. Homework should be assigned in such a manner that it will be clearly understood by all students.
3. Homework should serve a valid purpose and be closely related to classroom activities.
4. A student's access to resource materials should be considered when making assignments.
6. Homework should be evaluated promptly and returned to the student. Appropriate rewards should be given to those students who successfully complete assigned work. Effort and competency should be recognized and rewarded.
7. Teachers should seek to determine the causes if a student regularly fails to complete assigned work. Teachers should not avoid giving homework because they believe students will not do the work.
7. Excessive homework, like the absence of homework, should be avoided.
8. Homework should not be used for disciplinary purposes.
9. Teachers and administrators should take appropriate steps to communicate with parents regarding the division's homework policy and to solicit their support.

Procedures for Implementation:

1. Each School shall develop and adhere to procedures for homework consistent with School Board Policy.
2. Principals will make provision for the periodic monitoring of the use of homework by each of their Teachers.
3. Students work at different rates and may require more or less time to complete their homework than their classmates.
4. Communication between the Teachers in departmental situations is very important to insure that assignments are consistent and collectively reasonable.
5. Teachers shall be considerate of the amount of homework assigned over weekends, and during special occasions (such as countywide events and special school activities).
6. Homework shall not be assigned over holidays.
7. All homework shall be checked and feedback given to the student.
8. Communication concerning homework between the Teacher and the student shall include adequate instructions as to the assignment, how it will be evaluated, and the use of the resulting grade.
9. Homework shall not be used as a punishment device.

The Role of the Principal:

1. To establish homework procedures, and practices in his or her school, that are consistent with Board Policy.
2. To periodically monitor each Teacher's observance of the procedures.
3. To evaluate and render a decision regarding instances of disagreement over the amount, nature, or use of homework.
4. To designate special periods of time when Teachers will modify their normal homework practices because of special school or county events.
5. To recommend changes in Board Policy regarding homework as they see problems arising.

The Role of the Teacher:

1. To assign meaningful homework in accordance with the student's educational needs and ability.
2. To communicate clearly to the student what the assignment is, how it will be evaluated, and how the resulting grade will be used.
3. To consider all factors and insure that homework is not unreasonable in terms of its complexity or amount.
4. To communicate with the student and his or parent should problems arise relative to homework.

The Role of the Student:

1. To exercise responsibility in terms of getting his or her assignment and completing it as instructed.
2. To be in attendance at the scheduled time and prepared to work.

The Role of the Parent:

1. To provide students with a quiet, comfortable place at home to do their assignments.
2. To monitor their child's completion of their homework and insist upon them spending adequate time on it.
3. To provide explanation to their child concerning the instructions should this be necessary.
4. To maintain close communication with their child's Teachers regarding the completion of homework and schoolwork in general.
5. To support the Teacher's efforts to provide a quality education and to generally encourage their child to achieve up to their potential.

HONORS, AWARDS AND CLASS RANK

Awards that reward excellence in scholarship in each area of the curriculum and as a whole should be given on the high school level. Honor rolls for both high school and elementary school are to be established for each grading period, posted at school and published whenever possible, as follows:

All A's at each 9-weeks grading period, 1st semester, 2nd semester, or yearly average constitutes 1st Honor Roll for those time periods.

All A's & B's at each 9-weeks grading period, 1st semester, 2nd semester, or yearly average constitutes 2nd Honor Roll for those time periods.

Students with disabilities achieving below grade level and not exposed to the same curriculum as their peers are not eligible for 1st or 2nd honor roll.

The National Honor Society only recognizes middle school and high school students as National Honor Society members. A 90 average is required.

Elementary schools may join the National Elementary Honor Society. Membership to this organization is strictly optional.

Awards and honors in extracurricular activities, such as; dramatics, forensics, athletics are approved; and these awards and honors are to follow rules and regulations of the Virginia High School League.

Any new rewards or honors being bestowed by an organization or persons must be approved by the principal before being bestowed.

Class rank will be established after the 3rd nine-week grading period of the year in which a student is scheduled to graduate. This will be done by averaging all courses taken by the student during his or her 9th – 12th grade years (and those required for graduation but taken during the 8th grade year). In order to receive class rank, the student must attend a Scott County High School three (3) semesters prior to graduation. During this time, homebound instruction does not count toward valedictorian or salutatorian ranking when students on homebound receive modified instruction and/or instructional time. Any student who is pursuing an IEP or Modified Standard Diploma will not be ranked. Those students ranking one and two after the 3rd nine-week grading period of their graduating year will be designated as valedictorian and salutatorian respectively. Students averaging 90 or above in the aforementioned will be designated as honor students at graduating exercises.

In order for a transfer student to receive a weighted grade (toward class ranking), the course must be recognized by Scott County Schools and listed in the Administrative Regulations Manual as a course deserving of advanced or honors weight.

ENGLISH LEARNERS

The Scott County School Board provides programs to improve the education of English learners by assisting the children to learn English and meet Virginia's challenging academic content and student academic achievement standards.

Assessments

The School Board will annually assess the English proficiency of all English learners.

Notification

The School Board will, not later than 30 days after the beginning of the school year, inform a parent or the parents of a limited English proficient child identified for participation in, or participating in, a program for English learners of:

- the reasons for the identification of their child as an English learner and in need of placement in a language instruction education program;
- the child's level of English proficiency, how that level was assessed, and the status of the child's academic and vocational achievement;
- the method of instruction used in the program in which their child is, or will be, participating, and the methods of instruction used in other available programs, including how such programs differ in content, instruction goals, and use of English and a native language in instruction;
- how the program in which their child is, or will be participating will meet the educational strengths and needs of the child;
- how such program will specifically help their child learn English, and meet age appropriate academic and vocational achievement standards for grade promotion and graduation;
- the specific exit requirements for such program, the expected rate of transition from such program into classrooms that are not tailored for English learners, and the expected rate of graduation from high school (including four-year adjusted cohort graduation rates and extended-year adjusted cohort graduation rates for such program);
- in the case of a child with a disability, how such program meets the objectives of the individualized education program of the child; and
- information pertaining to parental rights that includes written guidance detailing the right that parents have to have their child immediately removed from such program upon their request and the options that parents have to decline to enroll their child in such program or to choose another program or method of instruction, if available, and
- assisting parents in selecting among various programs and methods of instruction, if more than one program or method is offered by the school division.

For a child who has not been identified as an English learner prior to the beginning of the school year but is identified as an English learner during the school year, the School Board shall provide the notice detailed above within 2 weeks of the child being placed in the program. The information described above will be provided to parents in an understandable and uniform format and, to the extent practicable, in a language that the parent can understand.

The School Board accepts and provides programs for students for whom English is a second language who entered school in Virginia for the first time after their 12th birthday, and who have not reached age 22 on or before August 1 of the school year. No tuition is charged such students, if state funding is provided for such programs.

MOMENT OF SILENCE/PLEDGE OF ALLEGIANCE

The Scott County School Board recognizes that a moment of silence before each school day prepares students and staff for their respective work or school days. Therefore, each teacher shall observe a moment of silence at the beginning of the first class of each school day. The teacher responsible for each class shall make sure that each student: (1) remains seated and silent and (2) does not disrupt or distract other students during the moment of silence. The moment may be used for any lawful silent activity, including personal reflection, prayer and meditation. However, the teacher responsible for each class shall not influence, in any way, students to pray or meditate or not to pray or meditate during the moment of silence. Students and employees are prohibited from praying aloud during the moment of silence.

At the beginning of homeroom or 1st period (whichever comes first) classes will be notified by bell or intercom to begin the Moment of Silence and will be notified by same means at the end of the Moment of Silence. Following the moment of silence, the daily recitation of the Pledge of Allegiance is required of all students in Scott County. No student shall be compelled to recite the pledge if he, his parent, or legal guardian objects on religious, philosophical, or other grounds. Exempt students shall make no display that disrupts or distracts others who are reciting the pledge.

NATIONAL ASSESSMENT OF EDUCATIONAL PROGRAMS (NAEP)

Parents of children selected to participate in any NAEP assessment must be informed before the administration of any assessment that their child may be excused from participation for any reason, is not required to finish any authorized assessment, and is not required to answer any test question.

Parents and members of the public must have access to all assessment data, questions, and complete and current assessment instruments of any NAEP assessment except personally identifiable information and questions that may be reused in the future. School divisions must make reasonable efforts to inform parents and the public about the right of access to assessment data. If access is requested in writing, it must be provided within 45 days of the request and be made available in a secure setting that is convenient to both parties.

NINE-WEEKS EXAM POLICY

Scott County Public School policy dictates that all students in grades 9-12, where credit is given for graduation requirements, will be given an appropriate and comprehensive exam at the end of each nine weeks. The examination will count as 10% of the student's 9 weeks average.

If the student who does not graduate or complete such requirements is a student for whom English is a second language, the school board notifies the parent of the student's opportunity for a free public education in accordance with Va. Code § 22.1-5.

Parents of children selected to participate in any NAEP assessment must be informed before the administration of any assessment that their child may be excused from participation for any reason, is not required to finish any authorized assessment, and is not required to answer any test question.

Parents and members of the public must have access to all assessment data, questions, and complete and current assessment instruments of any NAEP assessment except personally identifiable information and questions that may be reused in the future. School divisions must make reasonable efforts to inform parents and the public about the right of access to assessment data. If access is requested in writing, it must be provided within 45 days of the request and be made available in a secure setting that is convenient to both parties.

PROTECTION OF PUPIL RIGHTS

The Protection of Pupil Rights Amendment (PPRA), 20 USC §1232h, requires Scott County Public Schools to notify you and obtain consent to allow you to opt your child out of participating in certain school activities. These activities include a student survey, analysis, or evaluation that concerns one or more of the following eight areas ("protected information surveys"):

1. Political affiliations or beliefs of the student or student's parents;
2. Mental or psychological problems of the student or student's family;
3. Sex behavior or attitudes;
4. Illegal, anti-social, self-incriminating, or demeaning behavior;

5. Critical appraisals of others with whom respondents have close family relationships;
6. Legally recognized, privileged relationships, such as with lawyers, doctors, or ministers;
7. Religious practices, affiliations, or beliefs of the student or parents; or
8. Income, other than as required by law to determine program eligibility.

This requirement also applies to the collection or use of student information for marketing purposes (“marketing surveys”) and certain exams and screenings. Scott County Public Schools notifies parents that they will release the names, addresses, and telephone numbers of secondary students to all military recruiters or institutions of higher education that request them unless the parents specifically request that this information not be released.

REMEDIAL INSTRUCTION PROGRAM

Literacy and Standard of Learning Assessment Tests

Scott County Public Schools implements programs of prevention, intervention or remediation for students who are educationally at risk, including those who fail to achieve a passing score on any Standard of Learning assessment in grades three through eight, or who fail an end-of-course test required for the award of a verified unit of credit. Such programs shall include components that are research based.

Any student who achieves a passing score on one or more, but not all, of the Standards of Learning assessments for the relevant grade level in grades three through eight may be required to attend a remediation program.

Any student who fails to achieve a passing score on all of the Standards of Learning assessments for the relevant grade level in grades three through eight or who fails an end-of-course test required for the award of a verified unit of credit shall be required to attend a remediation program or to participate in another form of remediation. The superintendent shall require such students to take special programs of prevention, intervention, or remediation, which may include attendance in public summer school programs

Remediation programs shall include, when applicable, a procedure for early identification of students who are at risk of failing the Standards of Learning assessments in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs may also include summer school for all elementary and middle school grades and for all high school academic courses, as defined by regulations promulgated by the Board of Education, or other forms of remediation. Summer school remediation programs or other forms of remediation shall be chosen by the superintendent to be appropriate to the academic needs of the student.

Students who are required to attend such summer school programs or to participate in another form of remediation shall not be charged tuition.

The requirement for remediation may, however, be satisfied by the student’s attendance in a program of prevention, intervention or remediation which has been selected by his parent, in consultation with the Superintendent or designee, and is either (i) conducted by an accredited private school or (ii) a special program which has been determined to be comparable to the required public school remediation program by the division superintendent. The costs of such private school remediation program or other special remediation program shall be borne by the student’s parent.

Targeted mathematics remediation and intervention are provided to students in grades six through eight who show computational deficiencies as demonstrated by their individual performance on any diagnostic test or grade-level Standards of Learning mathematics test that measures non-calculator computational skills.

The School Board shall annually evaluate and modify, as appropriate, the remediation plan based on an analysis of the percentage of students meeting their remediation goals and consideration of the pass rate on the Standards of Learning assessments.

Summer School

The courses offered and the quality of instruction in the summer school program shall be comparable to that offered during the regular school term. Students must meet the requirements for SOL testing if appropriate. Summer school instruction at any level which is provided as part of a state-funded remedial program is designed to improve specific identified student deficiencies.

Compulsory Attendance

When a student is required to participate in a remediation program pursuant to this policy, the Superintendent may seek immediate compliance with the compulsory school attendance laws if a reasonable effort to seek the student’s attendance, including direct notification of the parents of such student of the attendance requirement and failure of the parents to secure the student’s attendance, have failed and the superintendent determines that remediation of the student’s poor academic performance, passage of the Standards of Learning Assessment in grades three through eight, or promotion is related directly to the student’s attendance in the remediation program.

SALES

Any sales conducted by the school will be for the purpose of funding and operating school programs and activities. All sales activities must have the approval of the principal.

SCHOOL DAY FOR STUDENTS

The school will not be responsible or liable for the general health and welfare of students who arrive at school before adequate supervision is present. Supervision shall be provided from the time the first bus arrives in the morning until the time that the last bus departs in the afternoon. The standard school day for students in grades 1 through 12 averages at least 6 hours excluding breaks for meals.

Early dismissals must be approved by the superintendent.

SCHOOL FUNCTIONS

Students are held responsible for their conduct in attendance at any function. Remember, your behavior is a reflection on your school, and the same rules that apply during the regular school day are applicable for all school functions.

SCHOOL GROUNDS

All students must remain within the designated area and no one will be permitted to leave the school premises without first getting permission from the principal’s office.

SCHOOL TRIPS (Educational Leave for Students)

In planning field trips, teachers should focus on keeping the trip as an educational experience and extension of the classroom instructional program. Teachers should be mindful that field trips cause disruptions to the student's other classes and ensure that time lost from other classes do not become excessive.

All special education students are eligible for the same field trips as those in the general student population. Accommodations for special education and/or physically disabled students must be arranged before any request will be approved. If a student is to be excluded from a field trip for disciplinary reasons, it will be with the principal's recommendation and central office approval. Disciplinary measures on a field trip are the same for students as during the regular school day. Provisions must be made for students choosing not to participate in a field trip that will ensure their educational activities continue on a normal basis.

Only designated chaperones are allowed to ride a bus, other parents/relatives must provide their own transportation and any related expenses (not to be included with any student discounts such as group tickets and room reservations).

Chaperones other than those employed by the school system must submit to a criminal background check at their expense. This provision is for the protection and safety of all children. Students must be properly supervised at all times, including free time. Lodging must include one (1) chaperone per six (6) students per room.

The faculty sponsor shall submit a written request to the principal and superintendent, or designee, for their approval before soliciting student and parental support or conducting any fund-raising for the trip. Before submitting any request, the faculty sponsor shall confer with the building principal to discuss the appropriate means of raising the necessary monies to cover the expenses of the trip. Financial burdens will not be placed upon the student(s) or school. Proper consideration must be given when determining such factors.

Chartered buses may be hired when school-owned buses are not available or it is deemed to be in the best interest of the students. The use of chartered buses greatly increases the cost and could possibly be the cause of some children being financially unable to go.

No student shall be denied the privilege of going on a school-sponsored field trip because of insufficient funds. Each school PTO or community civic group should be contacted regarding financial assistance for indigent students. Any assistance would help defray the cost such as travel, food, and lodging.

Private cars may be used to transport students on field trips only with prior approval of the superintendent, or designee, with the assurance that insurance requirements have been met.

Request for overnight field trips must be submitted to the superintendent or his designee, three (3) months prior to planned trip. The superintendent, or designee, presents the request to the School Board for final approval/disapproval. The school system's insurance will not cover any trip without proper documentation and approval from the School Board.

Class field trips must not exceed three (3) school days. If additional days are needed, plans should include Saturday and Sunday. Overnight field trips by clubs and/or civic groups must be taken outside the regular school schedule from Friday through Sunday. All overnight field trips are to be scheduled after the Standards of Learning Test have been administered.

The Scott County School Board recognizes the importance of educational field trips in the instructional program, however we want to ensure the safety of all involved.

SNOW DAYS

When snow or weather conditions make it hazardous to transport students, schools will be closed. On other days, students may go on a snow schedule, which is 120 minutes later than the regular schedule. In either case, this decision will be made by the superintendent of schools, and will be announced over local radio and television stations. ***Please do not call school officials unless it is to report a hazardous condition.***

SOCIAL PROMOTION

The following guidelines will be followed when considering social promotion or placement in another grade or school from one school year to the next.

- A. If a child is being considered for placement in another grade within the same school, the School-Based Team or Child Study Committee, if in Special Education, should meet and make a recommendation to the building principal and the homeroom/grade level teacher. These considerations should take place in the spring of each school year. Placement is the responsibility of the building principal/grade level teacher.
- B. If a child is being considered for placement in another grade in another school, the School-Based Team or Child Study Committee, if in Special Education, will meet and make a recommendation to the building principal. The principal will approve/deny this request. If approved by the principal, it must be sent to the central office for approval by the appropriate committee. All requests for placement from one school to another must take place in the spring. The only exception to this rule would be in the case of a transfer student. Placement of the student is the responsibility of the central office committee.

NOTE: The School-Based Team consists of professionals (teachers, administrators, specialists, a parent, and student as appropriate) to meet and discuss any aspect of the child's education (academic, behavior, discipline, social, etc.). The Child Study Team's composition consists of the same members identified above including at least one special education teacher. Members may serve on both teams.

K-7 ACADEMIC ADMINISTRATIVE PLACEMENT

Academic Administrative Placement is the transfer of a K-7 student to a previous or next grade level because of extenuating circumstances, including but not limited to instructional, social, emotional, age-related, or other pertinent factors. This placement may only be requested during the first 30 instructional days of the child's enrollment in the current academic year.

In the event a principal wishes to make a K-7 academic administrative placement, he or she must present the request and supporting documentation before the Academic Placement Team. This team will be comprised of the Elementary Supervisor, Special Education Director, and additional Central Office Administrator. The Team will have 10 instructional days to meet, review data, and approve/deny such request.

STANDARDS OF LEARNING AND GRADUATION REQUIREMENTS

Standards of Learning (SOL) Tests and Verified Units of Credit

The Board of Education has established educational objectives known as the Standards of Learning, which form the core of Virginia's educational program, and other education objectives, which together are designed to ensure the development of the skills that are necessary for success in school and in preparation for life in the years beyond.

The Scott County School Board has developed and implemented a program of instruction that is aligned to the Standards of Learning and that meets or exceeds the requirements of the Board of Education.

In kindergarten through eighth grade, where Standards of Learning (SOL) tests are required by the Board of Education, each student is expected to take the SOL tests. Students who are accelerated take the tests of the grade level enrolled or the tests for the grade level of the content received in instruction. No student takes more than one test in any content area in each year. Schools will use the SOL test results in kindergarten through eighth grade as part of a set of multiple criteria for determining the promotion or retention of students.

Each student in middle and secondary school will take all applicable end-of-course SOL tests following course instruction. Students who enroll in high school as freshmen before July 1, 2016, as sophomores before July 1, 2019, as juniors before July 1, 2020 or as seniors before July 1, 2021 are required to earn standard and verified units of credit as specified in the regulations of the Board of Education and as described below. Students who achieve a passing score on an end-of-course SOL test will be awarded a verified unit of credit in that course in accordance with 8 VAC 20-131-110. Students may earn verified credits in any courses for which end-of-course SOL tests are available. Middle and secondary schools may consider the student's end-of-course SOL test score in determining the student's final course grade.

The standard unit of credit for graduation is based on a minimum of 140 clock hours of instruction and successful completion of the requirements of the course. A standard unit of credit may also be awarded based on a waiver of the 140 clock hour requirement as provided in Policy IKFD Alternative Paths to Attaining Standard Units of Credit.

A verified unit of credit for graduation is based on a minimum of 140 clock hours of instruction, successful completion of the requirements of the course, and the achievement by the student of a passing score on the end-of-course SOL test for that course or additional tests as described below.

A student may also earn a verified unit of credit by the following methods:

In accordance with the provisions of the Standards of Quality, students may earn a standard and verified unit of credit for any elective course in which the core academic SOL course content has been integrated and the student passes the relevant end-of-course SOL test. Such course and test combinations must be approved by the Board of Education.

Upon waiver of the 140 Clock hour requirement according to the Board of Education's Guidelines for Graduation Requirements; Local Alternative Paths to Standard Units of Credit and Policy IKFD Alternative Paths to Attaining Standard Units of Credit qualified students who have received a standard unit of credit will be permitted to sit for the relevant SOL test to earn a verified credit without having to meet the 140 clock hour requirement.

Upon recommendation of the superintendent and demonstration of mastery of course content and objectives, qualified students may receive a standard unit of credit and be permitted to sit for the relevant SOL test to earn a verified credit without having to meet the 140-clock-hour requirement. The superintendent by regulation will determine the manner in which a student may demonstrate mastery of course content and objectives, and documentation of such mastery will be maintained in the student's permanent record.

Students may also earn verified credits by taking alternative tests to the SOL assessment. Such tests may only be those approved by the Virginia Board of Education, and the student may earn verified credits only by achieving that score established by the Board of Education.

Participation in the SOL testing program by students with disabilities will be prescribed by provisions of their Individualized Education Program (IEP) or 504 Plan. All students with disabilities will be assessed with appropriate accommodations and alternate assessments where necessary.

All students identified as limited English proficient (LEP) will participate in the SOL testing program. A school-based committee will convene and make determinations regarding the participation level of LEP students. In kindergarten through eighth grade, limited English proficient students may be granted a one-time exemption from SOL testing in the areas of writing, science, and history and social science.

3. Modified Standard Diploma

The Modified Standard Diploma is intended for certain students at the secondary level who have a disability and are unlikely to meet the credit requirements for a Standard Diploma. Eligibility and participation in the program are determined by the student's IEP team and the student, when appropriate. Decisions of eligibility and participation may be made at any point after the student's eighth grade year. Written consent from parent/guardian must be obtained for a student to choose this diploma program.

NOTE: The Modified Standard Diploma will not be an option for students with disabilities who enter the ninth grade for the first time beginning in 2013-2014. [Credit accommodations](#) allow students with disabilities who previously would have pursued a Modified Standard Diploma to earn a Standard Diploma.

The student must:

- be allowed to pursue a Standard or Advanced Studies Diploma at any time throughout his or her high school career;
- not be excluded from courses and tests required to earn a Standard or Advanced Studies Diploma; and
- pass literacy and numeracy competency assessments as prescribed by the Board:
 - For students who entered the ninth grade prior to 2000-01, the literacy and numeracy competency assessments were the reading and mathematics subtests of the LPT.
 - For students who entered the ninth grade in 2000-01 and beyond, the literacy and numeracy competency assessments are the eighth-grade English Reading test and the eighth-grade Mathematics SOL test (Board action – November 30, 2000).
 - The Board also approved four additional substitute assessments to satisfy the literacy and numeracy requirements for students pursuing a Modified Standard Diploma.

The Standards of Accreditation do not require that courses used to satisfy the requirement of Fine Arts or Career and Technical Education be approved by the Board. Therefore, local school officials should use their own judgment in determining which courses students take to satisfy this requirement.

4. Applied Studies Diploma

An Applied Studies Diploma will be awarded to each disabled student who successfully completes the requirements set forth in his/her IEP, but does not meet the requirements for other diplomas. The IEP Team must take into consideration transition requirements as set forth in the regulations for all students with disabilities prior to graduation. Consideration must be given to the direction that each student and their parents have chosen, whether academic or vocational. Students pursuing a vocational track should either have a vocational completer or work experience depending on the type of special education program identified in the IEP, taking into consideration the student's ability level.

The school board will notify the parent of students with disabilities who have an IEP and who fail to meet the requirements for graduation of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Va. Code § 22.1-213 et seq.

5. Certificates of Program Completion

A Certificate of Program Completion will be awarded to any student who completes a prescribed program of studies defined by the local school board but who is not eligible to receive a standard, advanced studies, modified standard, special, or general achievement diploma.

The school board will notify the parent of students who fail to graduate or who fail to achieve the number of verified units of credit required for graduation as provided in the Standards for Accreditation and who have not reached 20 years of age on or before August 1st of the school year of the right to a free public education. If the student who does not graduate or achieve such verified units of credit is a student for whom English is a second language, the school board will notify the parent of the student's opportunity for a free public education in accordance with Va. Code § 22.1-5.

6. General Educational Development (GED)

Official test scores may be accepted from an approved state agency, an official jurisdiction responsible for overseeing GED testing, or an official GED testing center outside of Virginia.

An individual may take the full battery of tests up to three times during a calendar year. Test scores may be combined in accordance with GED Testing Service policy.

STUDENT FEES, FINES AND CHARGES

It shall be the policy of the School Board to charge student fees and to recover funds for the loss of or damage to School Board property in accordance with the Code of Virginia.

The School Board shall provide, free of charge, such textbooks as are required for courses of instruction for each child attending public schools. Consumable materials such as workbooks, writing books, and drawing books may be purchased by the School Board and either provided to students at no cost or sold to students at a retail price not to exceed seven percent added to the publisher's price. If sold, the School Board shall ensure that workbooks, writing books, and drawing books are furnished to students who are unable to afford them at a reduced price or free of charge. Fees will not be charged to students for instructional materials, textbooks, or other materials used by a School Board employee that are not directly used by a public school student.

Fees are reduced or waived for economically disadvantaged students and students whose families are undergoing economic hardships and are financially unable to pay them, including but not limited to, families receiving unemployment benefits or public assistance, including Temporary Assistance for Needy Families (TANF), Supplemental Nutrition Assistance Program (SNAP), Supplemental Security Income (SSI) or Medicaid; foster families caring for children in foster care; and families that are homeless. Each time a fee is charged, notice will be given that a fee waiver may be requested. The notice will include directions as to how to apply for a waiver. This policy will be provided to parents annually and posted on the division's website. The consequences for nonpayment of fees include exclusion from the activity related to the fee. No student's report card, diploma or class schedule will be withheld because of nonpayment of fees or charges. No student will be suspended or expelled for nonpayment of fees or charges.

Only those fees and charges permitted by law or the regulations of the Board of Education may be levied on students. No school or employee may levy a fee or charge on any student without the approval of the Superintendent or his or her designee. In approving such fee or charge, the Superintendent/designee shall ensure that the fee or charge is either reduced or waived for those students who are unable to afford them.

The school board may take action against a pupil or the pupil's parent for any actual loss, breakage, or destruction of or failure to return property owned by or under the control of the school board, caused or committed by such pupil in pursuit of his studies. Such action may include seeking reimbursement from a pupil or pupil's parent for any such loss, breakage, or destruction of or failure to return school property.

STUDENT ORGANIZATIONS

(Secondary Schools)

Policy Statement

It is the policy of the school division to permit the organization and operation of student organizations in the secondary schools and to permit such organizations to meet on school premises during non-instructional time. The purpose of this policy is to establish criteria and procedures governing the operation of student

organizations.

Student-Initiated Organizations

Public school facilities are devoted primarily to instructional programs and school-sponsored activities. Curriculum-related student organizations serve as an extension of the regular school curriculum. Their function is to enhance the participants' educational experience and supplement the course materials within the educational program of the schools. The activities of these organizations should bear a clear relationship to the regular curriculum. Student organizations meeting these criteria and approved by the principal shall be deemed to be officially recognized school-sponsored student organizations.

Secondary school students are also permitted to organize and conduct meetings of non-curriculum related organizations to pursue activities outside of the school curriculum, subject to the provisions of this policy. Any secondary school which permits one or more noncurriculum-related student group to meet on school premises during noninstructional time will provide equal access to any students who wish to conduct a meeting without discrimination on the basis of the religious, political, philosophical, or other content of the speech at such meetings.

Noncurriculum-related student groups may use school facilities provided that

- the group's meetings are voluntary and student-initiated;
- the group is not sponsored by the school, the government, or any government agent or employee;
- agents or employees of the school or government are present at religious meetings only in a nonparticipatory capacity;
- meetings do not materially and substantially interfere with the orderly conduct of educational activities at the school; and
- nonschool persons do not direct, conduct, control, or regularly attend activities of the group.

Membership

Membership in all student-initiated organizations shall be open to and limited to all students currently enrolled in the sponsoring school on a voluntary basis. These student organizations may establish academic qualifications for membership where necessarily related to the purposes of the organization. No student shall be denied membership on account of his or her race, color, national origin, or religion. Qualifications based on sex may be imposed only where based on competitive athletic skill or where the activity involved is a contact sport.

Faculty Supervision

Curriculum-related student organizations shall be sponsored and supervised by one or more of the members of the school faculty and approved by the principal. Faculty sponsors shall participate in the supervision and direction of all activities of the organization and shall attend all meetings.

Non-curriculum-related student organizations that are student-initiated shall not have a faculty sponsor. However, a member of the school's professional staff shall attend every meeting or activity of such organizations in a non-participatory capacity for purposes of general supervision. The organization shall be responsible to assure the presence of a staff member for its meetings.

No school employee will be compelled to attend a meeting of any student organization if the content of such meeting is contrary to the beliefs of that school employee. School employees present at any meeting of a non curriculum-related student organization, which includes religious worship, prayer or practice or is identified as having a religious purpose, shall attend in a non-participatory capacity only.

Meetings of Student Organizations

All student organizations shall have the right to meet on school premises during non-instructional time as designated by the school principal. No student organization shall be denied equal access to school facilities during designated meeting times on the basis of the religious, political, philosophical or other content of the speech at the meetings of such organization. No public funding or support shall be extended to any non curriculum-related student organization other than the opportunity to meet on school premises on an equal basis as other student organizations.

The principal of each school shall develop guidelines and rules concerning the procedure for scheduling meetings of student organizations and setting the times and facilities which are available for such meetings. Meeting times shall be limited to non-instructional time before or after regular classroom hours or during established activities periods. These guidelines and rules shall be made available to all students. Student organizations wishing to conduct meetings under this policy must make application to the principal for permission in accordance with division procedures.

Compliance with Law and Policy

Student organizations shall not engage in any activity which is contrary to law, division policy or school rules; which disrupts or clearly threatens to disrupt the orderly operation of the school; or which would adversely affect the health, safety or welfare of any students or staff members. Failure to comply with these provisions shall be grounds for disciplinary action.

Application

Any group seeking to recognition as a student organization shall submit a written application through its faculty sponsor, if curriculum related, or monitor, if non-curriculum related, to the principal. Applications shall be made on division approved forms only and shall include at least the following information:

- Name of the organization.
- Name(s) of the faculty sponsor(s) or monitor(s).
- A general statement of the purposes of the organization.
- A description of the qualifications for membership, if any.
- A statement of the relation of the organization to the regular school curriculum. This shall include specific references to classes or other elements of the educational program which the organization is interested in supplementing and a description of how the organization will serve as an extension of, or adjunct to, the curriculum.
- A description of the function of the faculty sponsor/monitor in the promotion, supervision and leadership of the organization.

Approval Procedures

The principal shall review the application and such other information as he or she considers appropriate and shall approve or disapprove of the recognition of the organization within fourteen (14) school days after receipt of the application. The principal's decision, in writing, shall be given to the faculty sponsor/monitor. If the application is disapproved, the principal shall state the reasons for disapproval in the decision.

The faculty sponsor/monitor may appeal the principal's decision to the superintendent or designee, by written appeal submitted to the superintendent within ten (10) school days after receipt of the principal's decision. The written appeal shall state the reasons for the decision. The Superintendent, or designee, shall review the appeal and such other information as he or she considers appropriate and give a written decision within fourteen (14) school days after receipt of the appeal. The decision of the superintendent shall be final.

Ongoing Review

The principal may take disciplinary action, including revocation of recognition of any student organization, at any time upon his or her own initiative, or on complaint by any student or staff member for good cause. Revocation may be appealed to the superintendent or designee, as provided above.

At any time, the superintendent or the Board may review the recognition of any student organization and revoke the same for good cause. Any such actions by the superintendent or Board shall be final.

STUDENT PUBLICATIONS

Definition of Official School Publications

Official school publications such as newspapers, yearbooks, and literary magazines may be prepared in regularly scheduled classes and are components of the curriculum approved by the School Board. These publications are not intended to provide a public forum for students or the general public. In all instances related to these publications, the School Board will be the publisher, the principal will be the editor, the faculty sponsor will be co-editor, and students appointed by the co-editor may serve as assistant editors and journalists.

Responsibilities of Student Editors and Journalists

Student editors and journalists shall be responsible for preparing and writing factual material that is not obscene, defamatory, or an invasion of privacy or that

- is reasonably foreseeable to lead to the substantial disruption of school activities or to endanger the health or safety of students or staff;
- which advocates the commission of an unlawful act or the violation of a lawful school policy or regulation;
- which advertises or advocates illegal products or services; or
- which advocates prejudice, hatred, violence, or harassment on the basis of race, religion, national origin, ancestry or disability.

Responsibilities of Student Publications Faculty Co-Editor

School publications faculty co-editors shall instruct students in the Code of Ethics of the American Society of Newspaper Editors and help students to understand and follow it. Faculty members shall instruct students in correct and appropriate journalistic techniques and consult with the principal, who is the editor, on material that may violate the law or the journalism Code of Ethics. Material that may be considered controversial by some members of the school community should be carefully considered by students and the faculty editor, and brought to the attention of the principal (editor).

Responsibilities of the School Principal (Editor)

The school principal is responsible for approving all publications in accordance with School Board policy and his/her judgment and discretion.

STUDENT RECORDS AND RELEASE OF STUDENT INFORMATION

(NOTIFICATION TO PARENTS AND STUDENTS)

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. They are:

1. The right to inspect and review the student's education records within 45 days of the day the Division receives a request for access. Parent or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate or misleading. Parents or eligible students may ask the Scott County School Division to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the Division decides not to amend the record as requested by the parent or eligible student, the Division will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the Division as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement personnel); a person serving on the School Board; a person or company with whom the Division has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks. A school official has a legitimate education interest if the official needs to review an education record in order to fulfill his/her professional responsibility. Upon request, the Division discloses educational records without consent to officials of another school division in which a student seeks or intends to enroll. (NOTE: FERPA requires a school division to make a reasonable attempt to notify the student of the records request unless it states in its annual notification that it intends to forward records on request.)
4. The right to file a complaint with the US department of Education concerning alleged failures by the Division to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
600 Independence Avenue, SW
Washington, DC 20202-6605

For quick, informal responses to routine questions about FERPA, parents may also e-mail the Family Policy Compliance Office at FERPA.Customer@ED.Gov.

Additional information and guidance may be found at FPCO's Web site at: <http://www.ed.gov/policy/gen/guid/fpco/index.html>.

2. Evacuate the building immediately to at least 300 feet from the structure and out of the fire department's operational area.
3. Make special provisions for handicapped students.
4. Each teacher will leave the room with a roll book to check student names.
5. First aid will be rendered as needed.
6. Call Central Dispatch Fire Department, telephone 911.
7. Confine the fire by closing the door to the area involved.

FIRE DRILLS AND OTHER EMERGENCIES

Fire drills are conducted for two purposes: (1) to train students to leave the building orderly and quickly in case of an emergency alarm and (2) to teach self-control in time of emergency.

When the fire alarm signal is sounded, all students should immediately proceed quietly out of the room and to the designated exit. After reaching the designated zone, students should face the building and remain quietly in this area until the all clear signal is sounded to enter the building.

In case of an obstructed or blocked exit during a fire drill, students should proceed to an alternate exit. The last person to leave the room should close all windows, doors, and turn out the lights.

3. Compliance with all state laws and regulations related to reporting to the Virginia Department of Education of resignations and dismissals of licensed employees related to convictions of barrier crimes and founded cases of abuse and neglect;
4. The development, effective implementation and enforcement of clear and reasonable policies governing the interactions of students and school board employees and volunteers;
5. The establishment of channels for reporting by students and parents of suspected misconduct and abuse, and the prompt notification of law enforcement when criminal activity is alleged or suspected; and
6. Disclosure of formal reprimands and dismissals for violating school board policies on sexual misconduct and abuse prevention to school divisions seeking references.

For the purpose of this policy, school personnel include school board members, superintendent, school employees, agents, volunteers, contractors or other persons subject to the supervision and control of the School Division.

I. Policy Statement

The Scott County School Board is committed to maintaining an educational environment and workplace that is free from harassment. In accordance with law, the Board prohibits harassment against students, employees, or others on the basis of sex, sexual orientation, gender, gender identity, race, color, national origin, disability, religion, ancestry, age, marital status, pregnancy, childbirth or related medical conditions, status as a veteran, genetic information or any other characteristic protected by law or based on a belief that such characteristic exists, hereinafter referred to as protected group status, at school or any school sponsored activity.

It is a violation of this policy for any student or school personnel to harass a student or school personnel based on protected group status at school or any school sponsored activity. Further, it is a violation of this policy for any school personnel to tolerate harassment based on a student's or employee's protected group status at school or any school sponsored activity, by students, school personnel or third parties participating in, observing or otherwise engaged in school sponsored activities.

For the purpose of this policy, school personnel includes School Board members, school employees, agents, volunteers, contractors or other persons subject to the supervision and control of the school division.

The school division

- promptly investigates all complaints, written or verbal, of harassment based on protected group status at school or any school sponsored activity;
- promptly takes appropriate action to stop any harassment;
- takes appropriate action against any student or school personnel who violates this policy; and
- takes any other action reasonably calculated to end and prevent further harassment of school personnel or students.

Definitions

Prohibited Conduct

A. Harassment Based on Sex

- submission to that conduct or communication is made a term or condition, either explicitly or implicitly, of obtaining or retaining employment or education;
- submission to or rejection of the conduct or communication by an individual is used as a factor in decisions affecting that individual's employment or education; or
- that conduct or communication substantially or unreasonably interferes with an individual's employment or education, or creates an intimidating, hostile or offensive employment or educational environment (i.e. the conduct is sufficiently serious to limit a student's or employee's ability to participate in or benefit from the educational program or work environment).

Examples of conduct which may constitute harassment based on sex if it meets the immediately preceding definition include:

- unwelcome sexual physical contact
- unwelcome ongoing or repeated sexual flirtation or propositions, or remarks
- sexual slurs, leering, epithets, threats, verbal abuse, derogatory comments or sexually degrading descriptions

- B. Harassment Based on Race, National Origin, Disability or Religion

Harassment based on race, national origin, disability or religion consists of physical or verbal conduct, which may include use of cell phones or the internet, relating to an individual's race, national origin, disability or religion when the conduct

- creates an intimidating, hostile or offensive working or educational environment;
- substantially or unreasonably interferes with an individual's work or education; or
- otherwise is sufficiently serious to limit an individual's employment opportunities or to limit a student's ability to participate in or benefit from the education program.

Examples of conduct which may constitute harassment based on race, national origin, disability or religion if it meets the immediately preceding definition include:

Demeaning or otherwise harmful actions are prohibited, particularly if directed at personal characteristics including, but not limited to, socioeconomic level, regardless of whether the personal characteristic is protected by law.

"Title IX" means 20 U.S.C. §§ 1681-1688 and the implementing regulations.

"Title IX Coordinator" means the person designated by the School Board to coordinate its efforts to comply with its responsibilities under this policy and Title IX.

The Title IX Coordinator may be contacted at The Scott County School Board has designated **Brenda Robinette**, brenda.robinette@scottsschools.com, **340 East Jackson Street, Gate City, VA 24251, 276-386-6118**, as the Compliance Officer responsible for identifying, investigating, preventing and remedying prohibited harassment. Complaints of harassment may also be made to the Alternate Compliance Office **Jason Smith**, jason.smith@scottsschools.com, or **Jennifer Frazier**, jennifer.frazier@scottsschools.com, **340 East Jackson Street, Gate City, VA 24251, 276-386-6118**.

Complaint Procedure

A. Formal Procedure

1. File Report

Any student or school personnel who believes he or she has been the victim of harassment prohibited by law or by this policy by a student, school personnel or a third party should report the alleged harassment to one of the Compliance Officers designated in this policy or to any school personnel. The alleged harassment should be reported as soon as possible, and the report generally should be made within fifteen (15) school days of the occurrence. Further, any student who has knowledge of conduct which may constitute prohibited harassment should report such conduct to one of the Compliance Officers designated in this policy or to any school personnel. Any school personnel who has notice that a student or other school personnel may have been a victim of prohibited harassment shall immediately report the alleged harassment to one of the Compliance Officers designated in this policy.

The reporting party should use the form, Report of Harassment, GBA-F/JFHA-F, to make complaints of harassment. However, oral reports and other written reports are also accepted. The complaint should be filed with either the building principal or one of the Compliance Officers designated in this policy. The principal shall immediately forward any report of alleged prohibited harassment to the Compliance Officer. Any complaint that involves the Compliance Officer or principal shall be reported to the superintendent.

The complaint, and identity of the complainant and alleged harasser, will be disclosed only to the extent necessary to fully investigate the complaint and only when such disclosure is required or permitted by law. Additionally, a person allegedly harassed who wishes to remain anonymous shall be advised that such confidentiality may limit the School Division's ability to fully respond to the complaint.

After receiving a complaint, the Title IX Coordinator makes an initial determination whether the allegations may be sexual harassment prohibited by Title IX. If they may be, the Title IX Grievance Process below is followed. If they cannot be sexual harassment prohibited by Title IX, then the complaint is referred to the Compliance Officer who follows the procedures below.

The Title IX Coordinator also determines whether the alleged harassment may also constitute criminal conduct and ensures that law enforcement officials are notified if necessary.

If the alleged harassment may also constitute child abuse, then it must be reported to the Department of Social Services in accordance with Policy GAE Child Abuse and Neglect Reporting.

Investigation by Compliance Officer

Generally

The Compliance Officer

- receives complaints of harassment referred by the Title IX Coordinator;
- conducts or oversees the investigation of any alleged harassment referred by the Title IX Coordinator;
- assesses the training needs of the school division in connection with complaints referred by the Title IX Coordinator;
- arranges necessary training; and

- ensures that any harassment investigation is conducted by an impartial investigator who is trained in the requirements of equal employment/education opportunity and has the authority to protect the alleged victim and others during the investigation.

2. Compliance Officer Formal Procedure

Upon receiving a referral of a complaint of alleged prohibited harassment from the Title IX Coordinator, the Compliance Officer shall immediately authorize or undertake an investigation. The investigation may be conducted by school personnel or a third party designated by the school division. The investigation shall be completed as soon as practicable, which generally should be not later than 14 school days after receipt of the report by the Compliance Officer. Upon receiving the complaint, the Compliance Officer shall acknowledge receipt of the complaint by giving written notice that the complaint has been received to both the person complaining of harassment and the person accused of harassment. Also upon receiving the complaint, the Compliance Officer shall determine whether interim measures should be taken pending the outcome of the investigation. Such interim measures may include, but are not limited to, separating the alleged harasser and the complainant and, in cases involving potential criminal conduct, determining whether law enforcement officials should be notified. If the Compliance Officer determines that more than 14 school days will be required to investigate the complaint, the person allegedly harassed and the alleged harasser shall be notified of the reason for the extended investigation and of the date by which the investigation will be concluded.

The investigation may consist of personal interviews with the person allegedly harassed, the alleged harasser and any others who may have knowledge of the alleged harassment or the circumstances giving rise to the complaint. The investigation will consider witnesses and evidence from both the alleged harasser and the person allegedly harassed. The investigation may also consist of the inspection of any other documents or information deemed relevant by the investigator. The school division shall take necessary steps to protect the complainant and others pending the completion of the investigation.

In determining whether alleged conduct constitutes a violation of this policy, the division shall consider, at a minimum: (1) the surrounding circumstances; (2) the nature of the behavior; (3) past incidents or past or continuing patterns of behavior; (4) the relationship between the parties; (5) how often the conduct occurred; (6) the identity of the alleged perpetrator in relation to the alleged victim (i.e. whether the alleged perpetrator was in a position of power over the alleged victim); (7) the location of the alleged harassment; (8) the ages of the parties and (9) the context in which the alleged incidents occurred. Whether a particular action or incident constitutes a violation of this policy requires a case by case determination based on all of the facts and circumstances revealed after a complete and thorough investigation.

The Compliance Officer shall issue a written report to the superintendent upon completion of the investigation. If the complaint involves the superintendent, then the report shall be sent to the School Board. The report shall include a determination of whether the allegations are substantiated, whether this policy was violated and recommendations for corrective action, if any.

All employees shall cooperate with any investigation of alleged harassment conducted under this policy or by an appropriate state or federal agency.

3. Action by Superintendent

Within 5 school days of receiving the Compliance Officer's report, the superintendent or superintendent's designee shall issue a decision regarding whether this policy was violated. This decision must be provided in writing to the complainant and the alleged perpetrator. If the superintendent or superintendent's designee determines that it is more likely than not that prohibited harassment occurred, the Scott County School Division shall take prompt, appropriate action to address and remedy the violation as well as prevent any recurrence. Such action may include discipline up to and including expulsion or discharge. Whether or not the superintendent or superintendent's designee determines that prohibited harassment occurred, the superintendent or superintendent's designee may determine that school-wide or division-wide training be conducted or that the complainant receives counseling.

4. Appeal

If the superintendent or superintendent's designee determines that no prohibited harassment occurred, the employee or student who was allegedly subjected to harassment may appeal this finding to the School Board within 5 school days of receiving the decision. Notice of appeal must be filed with the superintendent who shall forward the record to the School Board. The School Board shall make a decision within 30 calendar days of receiving the record. The School Board may ask for oral or written argument from the aggrieved party, the superintendent and any other individual the School Board deems relevant. Written notice of the School Board's decision will be given to both the alleged harasser and the person allegedly harassed.

If the superintendent or superintendent's designee determines that prohibited harassment occurred and discipline is imposed, the disciplined person may appeal the disciplinary sanction in the same manner as any other such sanction would be appealed.

Employees may choose to pursue their complaints under this policy through the relevant employee grievance procedure instead of the complaint procedure in this policy.

B. Informal Procedure

If the person allegedly harassed and the person accused of harassment agree, the person allegedly harassed's principal or principal's designee may arrange for them to resolve the complaint informally with the help of a counselor, teacher or administrator.

If the person allegedly harassed and the person accused of harassment agree to resolve the complaint informally, they shall each be informed that they have the right to abandon the informal procedure at any time in favor of the initiation of the Formal Procedures set forth herein. The principal or principal's designee shall notify the complainant and the person accused of harassment in writing when the complaint has been resolved. The written notice shall state whether prohibited harassment occurred.

Sexual Harassment Prohibited by Title IX

Definitions

"Actual knowledge" means notice of sexual harassment prohibited by Title IX or allegations of sexual harassment prohibited by Title IX to the Title IX Coordinator or any official of the school division who has authority to institute corrective measures or to any employee of an elementary or secondary school.

"Complainant" means an individual who is alleged to be the victim of conduct that could constitute sexual harassment prohibited by Title IX.

"Formal complaint" means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment prohibited by Title IX against a respondent and requesting that the allegation be investigated. A formal complaint may be filed with the Title IX Coordinator in person, by mail, or by electronic mail. When the Title IX Coordinator signs a formal complaint, the Title IX Coordinator is not a complainant or otherwise a party. The allegations in a formal complaint must be investigated. In response to a formal complaint, the Title IX Grievance Process below is followed.

"Program or activity" includes locations, events or circumstances over which the School Board exercises substantial control over both the respondent and the context in which the sexual harassment occurs.

IX. "Respondent" means an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment prohibited by Title IX.

"Supportive measures" means non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures are designed to restore or preserve equal access to the School Board's education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the educational environment, or deter sexual harassment. Supportive measures may include counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, campus escort services, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security or monitoring of parts of campus, and other similar measures. Any supportive measures provided to the complainant or respondent are maintained as confidential, to the extent that maintaining such confidentiality does not impair the ability to provide supportive measures. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.

Title IX Grievance Process

Generally

Any person may report sex discrimination prohibited by Title IX, including sexual harassment (whether or not the person reporting is the person alleged to be the victim of conduct that could constitute sex discrimination or sexual harassment), in person, by mail, by telephone, or by electronic mail, using the contact information listed for the Title IX Coordinator or by any other means that results in the Title IX Coordinator receiving the person's verbal or written report. The reporting party may use the form, Report of Harassment, GBA-F/JFHA-F, to make a complaint. Such a report may be made at any time, including non-business hours, by using the telephone number or electronic mail address, or by mail to the office address listed for the Title IX Coordinator.

Complainants and respondents are treated equitably by offering supportive measures to a complainant and by following this grievance process before the imposition of any disciplinary sanctions or other actions that are not supportive measures against a respondent.

The Title IX Coordinator promptly contacts the complainant to discuss the availability of supportive measures, consider the complainant's wishes with respect to supportive measures, inform the complainant of the availability of supportive measures with or without the filing of a formal complaint, and explain the process for filing a formal complaint.

Applicants for admission and employment, students, parents or legal guardians, employees, and all unions or professional organizations holding collective bargaining or professional agreements with the School Board are notified

- of the name or title, office address, electronic mail address, and telephone number of the Title IX Coordinator; and
- that the School Board does not discriminate on the basis of sex in its education program or activity and that it is required by Title IX not to discriminate in such a manner. The notification states that the requirement not to discriminate extends to admission and employment and that inquiries about the application of Title IX may be referred to the Title IX Coordinator, the Assistant Secretary for Civil Rights of the United States Department of Education, or both.

The School Board prominently displays the contact information for the Title IX Coordinator and this policy on its website and in each handbook or catalog it makes available to persons listed above who are entitled to notifications.

Nothing herein precludes a respondent from being removed from the School Board's education program or activity on an emergency basis, provided that an individualized safety and risk analysis determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of sexual harassment justifies removal, and that the respondent is provided with notice and an opportunity to challenge the decision immediately following the removal.

Nothing herein precludes a non-student employee respondent from being placed on administrative leave during the pendency of a grievance process

This grievance process treats complainants and respondents equitably by providing remedies to a complainant where a determination of responsibility for sexual harassment has been made against the respondent, and by following this process before the imposition of any disciplinary sanctions or other actions that are not supportive measures against a respondent. Remedies are designed to restore or preserve equal access to the School Board's education program or activity.

The respondent is presumed not responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the grievance process.

All relevant evidence is evaluated objectively, including both inculpatory and exculpatory evidence. Credibility determinations are not based on a person's status as a complainant, respondent, or witness.

Any Title IX Coordinator, investigator, decision-maker, or any person who facilitates an informal resolution process may not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent.

Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process receives training on the definition of sexual harassment prohibited by Title IX, the scope of the School Board's education program or activity, how to conduct an investigation and grievance process including appeals, and informal resolution processes, and how to serve impartially, including by avoiding prejudgment of the facts at issue, conflicts of interest, and bias. Decision-makers receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant. Investigators receive training on issues of relevance in order to create investigative reports that fairly summarize relevant evidence.

A finding of responsibility may result in disciplinary action up to and including expulsion for students or dismissal of employees.

The standard of evidence used to determine responsibility is preponderance of the evidence.

This grievance process does not allow, rely upon, or otherwise use questions or evidence that constitute, or seek disclosure of, information protected under a legally recognized privilege unless the person holding such privilege has waived the privilege.

Notice of Allegations

On receipt of a formal complaint, the Title IX coordinator gives the following written notice to the parties who are known:

- notice of the grievance process, including any informal resolution process, and
- notice of the allegations of sexual harassment potentially constituting sexual harassment prohibited by title IX, including sufficient details known at the time and with sufficient time to prepare a response before any initial interview. Sufficient details include the identities of the parties

involved in the incident, if known, the conduct allegedly constituting sexual harassment prohibited by Title IX, and the date and location of the alleged incident, if known.

The written notice

- includes a statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the grievance process;
- informs the parties that they may have an advisor of their choice, who may be, but is not required to be, an attorney, and may inspect and review evidence; and
- informs the parties of any provisions in the School Board's code of conduct or the superintendent's Standards of Student Conduct that prohibit knowingly making false statements or knowingly submitting false information during the grievance process.

If, in the course of an investigation, the investigator decides to investigate allegations about the complainant or respondent that are not included in the notice previously provided, notice of the additional allegations is provided to the parties whose identities are known.

Dismissal of formal complaints

A formal complaint or any allegations therein must be dismissed if the conduct alleged in the complaint

- would not constitute sexual harassment prohibited by title IX even if proved,
- did not occur in the School Board's education program or activity, or
- did not occur against a person in the United States.

Such a dismissal does not preclude action under another provision of the School Board's code of conduct or the superintendent's Standards of Student Conduct.

A formal complaint or any allegations therein may be dismissed if at any time during the investigation:

- a complainant notifies the Title IX Coordinator in writing that the complainant would like to withdraw the formal complaint or any allegations therein;
- the respondent is no longer enrolled or employed by the School Board; or
- specific circumstances prevent the School Board from gathering evidence sufficient to reach a determination as to the formal complaint or allegations therein.

Investigation of formal complaint

When investigating a formal complaint and throughout the grievance process, the burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the School Board and not on the parties provided that a party's records that are made or maintained by a physician, psychologist, or other recognized professional or paraprofessional acting in the professional's or paraprofessional's capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party are not accessed, considered, disclosed or otherwise used without the voluntary, written consent of the party's parent, or the party if the party is an eligible student, to do so for this grievance procedure.

The parties have an equal opportunity to present witnesses, including fact and expert witnesses, and other inculpatory and exculpatory evidence. The ability of the parties to discuss the allegations under investigation or to gather and present relevant evidence is not restricted.

The parties have the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney. The choice or presence of advisor for either the complainant for respondent is not limited in any meeting or grievance proceeding.

Any party whose participation is invited or expected is provided written notice of the date, time, location, participants, and purpose of all investigative interviews or other meetings with sufficient time for the party to prepare to participate.

The investigator provides both parties an equal opportunity to inspect and review any evidence obtained as part of the investigation that is directly related to the allegations raised in a formal complaint, including the evidence which will not be relied upon in reaching a determination regarding responsibility and inculpatory or exculpatory evidence whether obtained from a party or other source, so that each party can meaningfully respond to the evidence prior to conclusion of the investigation. Prior to the completion of the investigative report, the investigator must send to each party and the party's advisor, if any, the evidence subject to inspection and review in an electronic format or a hard copy, and the parties must have at least 10 days to submit a written response, which the investigator will consider prior to completion of the investigative report.

The investigator creates an investigative report that fairly summarizes relevant evidence and, at least 10 days prior to the time a determination regarding responsibility is made, sends to each party and the party's advisor, if any, the investigative report in an electronic format or a hard copy, for their review and written response.

After the investigator has sent the investigative report to the parties and before reaching a determination regarding responsibility, the decision-maker must afford each party the opportunity to submit written, relevant questions that the party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party. Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. The decision-maker(s) must explain to the party proposing the question any decision to exclude a question as not relevant.

Determination regarding responsibility

The decision-maker, who cannot be the same person as the Title IX Coordinator or the investigator, must issue a written determination regarding responsibility.

The written determination must include

- identification of the allegations potentially constituting sexual harassment prohibited by Title IX;
- a description of the procedural steps taken from the receipt of the formal complaint through the determination, including any notifications to the parties, interviews with parties and witnesses, site visits, and methods used to gather other evidence;
- findings of fact supporting the determination;
- conclusions regarding the application of the School Board's code of conduct or the superintendent's Standards of Student Conduct to the facts;

- a statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility, any disciplinary sanctions the School Board imposes on the respondent, and whether remedies designed to restore or preserve equal access to the School Board's education program or activity will be provided to the complainant; and
- the procedures and permissible bases for the complainant and respondent to appeal.

The decision-maker must provide the written determination regarding responsibility to the parties simultaneously.

The determination regarding responsibility becomes final either on the date that the parties are provided with the written determination of the result of the appeal, if an appeal is filed, or, if an appeal is not filed, the date on which an appeal would no longer be considered timely.

The Title IX Coordinator is responsible for effective implementation of any remedies.

Appeals

Either party may appeal from a determination regarding responsibility or from a dismissal of a formal complaint or any allegations therein, on the following bases:

- procedural irregularity that affected the outcome of the matter;
- new evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter; and
- the Title IX Coordinator, investigator, or decision-maker had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter.

Notification of appeal must be given in writing to the Title IX Coordinator.

As to all appeals, the Title IX Coordinator

- notifies the other party in writing when an appeal is filed and implements appeal procedures equally for both parties;
- ensures that the decision-maker for the appeal is not the same person as the decision-maker that reached the determination regarding responsibility or dismissal, the investigator, or the Title IX Coordinator; and
- ensures that the decision-maker for the appeal complies with the standards set forth in title IX and this policy.

The appeal decision-maker

- gives both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome;
- reviews the evidence gathered by the investigator, the investigator's report, and the decision-maker's written decision;
- issues a written decision describing the result of the appeal and the rationale for the result; and
- provides the written decision simultaneously to both parties and the Title IX Coordinator.

Timelines

The investigative report will be provided to the parties within 35 days from the date the formal complaint is filed.

A decision will be issued within 10 working days from the date the investigative report is submitted to the decision-maker.

Either party may appeal within 5 working days from the date the written determination regarding responsibility is given to the parties.

Any appeal will be resolved within 15 calendar days from the filing of the appeal.

If the parties agree to an informal resolution process, these deadlines are tolled from the time one party requests an informal resolution process until either the time the other party responds, if that party does not agree to the informal resolution process, or until either party withdraws from the informal resolution process.

Temporary delays of the grievance process or the limited extension of time frames for good cause with written notice to the complainant and the respondent of the delay or extension and the reasons for the action are permitted. Good cause may include considerations such as the absence of a party, a party's advisor, or a witness; concurrent law enforcement activity; disciplinary processes required by law or School Board policy; or the need for language assistance or accommodation of disabilities.

Informal Resolution Process

At any time during the formal complaint process and prior to reaching a determination regarding responsibility, the parties may participate in an informal resolution process, such as mediation, that does not involve a full investigation and determination of responsibility. When one party requests an informal resolution process, the other party must respond to the request within 3 days. The informal resolution process must be completed within 10 days of the agreement to participate in the process.

The informal resolution process may be facilitated by a trained educational professional, consultant, or other individual selected by the Title IX Coordinator under the following conditions:

- the parties are provided a written notice disclosing the allegations, the requirements of the informal resolution process, including the circumstances under which it precludes the parties from resuming a formal complaint arising from the same allegations; provided, however that at any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process, resume the grievance process with respect to the formal complaint, and be informed of any consequences resulting from participating in the informal resolution process, including the records that will be maintained or could be shared;
- the parties, voluntarily and in writing, consent to the informal resolution process; and
- the informal resolution process cannot be used to resolve allegations that an employee sexually harassed a student.

If the matter is resolved to the satisfaction of the parties, the facilitator shall document the nature of the complaint and the resolution, have both parties sign the documentation and receive a copy, and forward it to the Title IX Coordinator. If the matter is not resolved, the formal complaint process is resumed.

Parties cannot be required to participate in an informal resolution process.

An informal resolution process is not offered unless a formal complaint is filed.

Recordkeeping

The School Board will maintain for a period of seven years records of:

- each investigation of allegations of sexual harassment prohibited by Title IX including any determination regarding responsibility and any audio or audiovisual recording or transcript, if any, required under the Title IX regulations, any disciplinary sanctions imposed on the respondent, and any remedies provided to the complainant designed to restore or preserve equal access to School Board's education program or activity;
- any appeal and the result therefrom;
- any informal resolution and the result therefrom; and
- all materials used to train Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process. These materials will also be made available on the School Board's website.

For each response required under 34 C.F.R. § 106.44, the School Board must create, and maintain for a period of seven years, records of any actions, including any supportive measures, taken in response to a report or formal complaint of sexual harassment prohibited by Title IX. In each instance, the School Board will document the basis for its conclusion that its response was not deliberately indifferent, and document that it has taken measures designed to restore or preserve equal access to its education program or activity. If the School Board does not provide a complainant with supportive measures, then it will document the reasons why such a response was not clearly unreasonable in light of the known circumstances.

Retaliation

Retaliation against students or school personnel who report harassment or participate in any related proceedings is prohibited. The school division shall take appropriate action against students or school personnel who retaliate against any student or school personnel who reports alleged harassment or participates in related proceedings. The Compliance Officer will inform persons who make complaints, who are the subject of complaints, and who participate in investigations, of how to report any subsequent problems.

Right to Alternative Complaint Procedure

Nothing in this policy shall deny the right of any individual to pursue other avenues of recourse to address concerns relating to prohibited harassment including initiating civil action, filing a complaint with outside agencies or seeking redress under state or federal law.

Prevention and Notice of Policy

Training to prevent harassment prohibited by law or by this policy is included in employee and student orientations as well as employee in-service training.

This policy is (1) displayed in prominent areas of each division building in a location accessible to students, parents and school personnel (2) included in the student and employee handbooks; and (3) sent to parents of all students within 30 calendar days of the start of school. Further, all students, and their parents/guardians, and employees are notified annually of the names and contact information of the Compliance Officers.

False Charges

Students or school personnel who knowingly make false charges of harassment shall be subject to disciplinary action as well as any civil or criminal legal proceedings.

Scott County Public Schools pays special attention to the needs of children with disabilities. Every effort is made to educate all students in the "mainstream" of public education. The "Least Restrictive Environment" is considered for each child. To the maximum extent appropriate, children with disabilities are educated with children who are not disabled, and that special classes, separate schooling, or other removal of children with disabilities from the regular education environment occurs only when the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services are necessary to service the range of complexity and severity of disabilities. The following is a brief description of the various special education services provided by the Scott County School System.

CHILD FIND FOR STUDENTS WITH DISABILITIES

A child find program is established and designed to identify, locate and evaluate those children from birth to 21 inclusive who may have disabilities and may need special education and related services. The Board ensures that a free, appropriate public education is available for all children and youth with disabilities, ages 2 through 21, who are residents of Scott County.

The School Board ensures that students with disabilities and their parents or guardians are guaranteed the appropriate procedural safeguards in the process of identification, evaluation, placement, and provision of an appropriate education program. To the maximum extent appropriate, students with disabilities are educated with children who are not disabled. Prior to the identification, evaluation, placement, or provision of a free appropriate public education to a disabled student, a full explanation of all procedural safeguards is made available to parents.

An Individualized Education Program (IEP) is designed and maintained for each child eligible for special education under the Individuals with Disabilities Education Act. The program is developed in a meeting with the child's teachers, parent(s), the student (when appropriate), a school division representative qualified to provide or supervise the provision of special education services and other individuals at the discretion of the parents or school division in accordance with State and federal law. This IEP is reviewed at least annually.

The IEP is inclusive of areas specified by state and federal statutes and regulations.

EARLY CHILDHOOD EDUCATION FOR STUDENTS WITH DISABILITIES

Developmental Milestones
From 2-5 Years

The following shows the normal signs of growth in a child. Many children develop faster than this. Those who develop slower than this, however, may be special children who may have disabilities.

The skills within each age group fall into one of the following categories:

- A. Fine Motor
- B. Gross Motor
- C. Cognitive

- D. Communication
- E. Social
- F. Daily Living Skills

Fine Motor: The child's ability to use small muscle groups. Included are manipulation of objects, eye-hand coordination, and pre-writing skills.

Gross Motor: The child's ability to use large muscle groups required for activities such as running, jumping, and throwing.

Cognitive: This refers to the child's mental processes such as memory, judgment, reasoning, and understanding of symbolic representation.

Communication: The child's ability to verbalize, as well as understand what is said to him/her.

Social: the child's ability to establish and maintain appropriate relationships with others.

Daily Living Skills: the child's ability to do things for his/herself such as dressing, eating, and toileting.

FOSTER CARE POLICIES AND PROCEDURES

For children and youth in foster care, a change in home placement frequently results in a change in school placement. Each time students enter new schools they must adjust to different curricula, different expectations, new friends and new teachers. The impact of every school change can be significant. These changes may create negative impacts on the student, to include: making less academic progress, falling behind their peers, struggling to make friends, building relationships with their teachers, etc. Scott County Public Schools in a joint effort with the Scott County Department of Social Services strives to work together toward the best interest of the student. It is recognized that keeping children in the same school: provides for continuity in education, maintains relationships at school, provides stability during a traumatic time for children, and supports academic success by ensuring school stability.

The Every Student Succeeds Act of 2015 (ESSA) requires that school divisions and child welfare agencies collaborate to develop and implement clear written procedures governing how transportation will be provided, arranged, and funded to maintain children in foster care in their school of origin during the time students are in foster care when it is in their best interest.

A "Best Interest Determination" is made by a committee for each child when placed into foster care by representatives of Scott County Public Schools, the Local Department of Social Services' service worker (LDSS), the child, the child's parents [unless there has been a loss of parental rights in which case the foster parent(s) or guardian(s) will serve], the child's guardian ad litem, and any other significant person(s) or member of the IEP or 504 Team. The Best Interest Determination Committee looks at report cards, progress reports, attendance, achievement data, disciplinary records, and health records. The committee takes into consideration: the child's previous placements (emotionally, socially, academically, and physically), the child's permanency goal and plan, safety considerations, student preferences and interests, whether the child has a current IEP or 504 Plan.

Because Scott County is a rural county and covers 500 square miles, it is not always possible to work out transportation issues. Also, as a rural community children taken from home and placed in foster care often end up with a relative. Depending on where that person lives in the county, the family may request that the student transfer to another school that would be more convenient for them. These issues are taken into consideration before determination of the final school placement for each child is made taking into consideration first and foremost transportation to the child's school of origin.

GIFTED AND TALENTED EDUCATION (GATE)

The Gifted Program, Gifted and Talented Education (GATE) of Scott County Public Schools incorporates the district standards and benchmarks at a rate and level commensurate with the student's learning abilities. A gifted/talented student is a child or youth who performs at or shows the potential for performing at a remarkably high level of accomplishment when compared to others of the same age, experience, or environment. A gifted/talented student exhibits high performance capability in an intellectual, creative, or artistic area; possesses an unusual capacity for leadership; or excels in a specific academic field. Scott County Public Schools believe in the importance of providing a program for gifted students which allows for differentiated learning experiences to meet the needs of students from all ethnic and socio-economic groups. Some strategies used to assist students in achieving; include, but are not limited to: independent study, classroom adaptations, curriculum compacting, acceleration, and enrichment. GATE provides a learning environment which complements as well as extends the existing curriculum of the county's schools.

Valid and systematic identification, including multiple selection criteria, are used in identifying gifted students from the K-12 student population. To ensure that a qualitatively differentiated program is provided, gifted education includes curriculum to meet both the cognitive and social/emotional needs of students. Support services, including materials and staff are provided. Services provided through GATE will enable gifted students to demonstrate skills in communication, problem solving, and self-directed learning that reflects individual uniqueness. GATE is designed to assist students in reaching their greatest potential/cognitive needs so that they may develop maximum knowledge, skills, and abilities in becoming lifelong learners and responsible citizens. Curriculum is chosen to provide challenging and unique opportunities in order to maximize learning potential. Scott County Public School's Vision is: "Every Student, Every Opportunity."

GATE strives to meet the needs of each diverse learner by:

- Understanding the needs of each student
- Planning to meet those needs
- Identifying each student's interests
- Challenging each student to reach their fullest potential
- Providing appropriate resources
- Instructing with flexibility
- Adjusting pacing, providing flexible groupings, and allowing for acceleration

SCPS recognize giftedness as a definable set of leaning characteristics found in the student population. Gifted students are those identified as possessing outstanding abilities and are capable of high performance. They require appropriate instruction and educational services commensurate with their abilities and needs beyond those provided by the regular school program. These include, but are not limited to, in-class differentiation, advanced curricular offerings, and enrichment. Gifted students in SCPS include those who demonstrated achievement or potential in General Intellectual Ability as well as the following measures:

- Teacher Assessment Rating Scale
- Academic Performance
- Pal's Assessment
- SAGES-2
- Otis-Lennon Ability Test
- Woodcock Johnson III
- Interview (Student)
- Non-verbal test of intelligence

Referrals may be made at each of the school's in Scott County to the school's librarian.

GRADING SYSTEM – STUDENTS WITH DISABILITIES

Students with disabilities in mainstream or full-inclusion courses will have grades reported the same as nondisabled students unless their IEP states otherwise. If a student with disabilities participates in a class for socialization skills, their IEP will address goals for socialization and the student will receive "S" for satisfactory or "U" for unsatisfactory participation.

Student with disabilities in life-skills programs 100% of the school day may receive "S" satisfactory, "N" needs improvement, or "U" unsatisfactory and will be stipulated in the student's IEP.

TERMS OF DISABLING CONDITIONS

Scott County Public Schools provides a free, appropriate public education for all identified children with disabilities, ages 2-21, inclusive. This right is guaranteed by Individuals with Disabilities Education Act (IDEA). If you have a child, or know of a child, who you suspect may be disabled according to the definitions below, and who, because of such disability needs special education and related services, please contact the Supervisor of Special Education, 340 East Jackson Street, Gate City, Virginia 24251 or call 386-6118. Also, if you or someone you know needs this information in another language, please feel free to contact the Director of Special Education at the same address and telephone number.

Definitions of disabling conditions are as follows:

AUTISM SPECTRUM DISORDERS

- A child may be found eligible for special education and related services as a child with autism if there is an adverse effect on the child's educational performance due to documented characteristics of autism and the child has any of the Pervasive Developmental Disorders, also referenced as autism spectrum disorder, such as Autistic Disorder, Asperger's Disorder, Rhett's Disorder, Childhood Disintegrative Disorder, or Pervasive Developmental Disorder.
- Not Otherwise Specified including Atypical Autism. Children with a medical diagnosis of autism spectrum disorders must be found eligible for special education and related services under IDEA before an Individualized Education Program (IEP) is developed. Children who are suspected of having a disability should be referred to their local school division for evaluation and to initiate the process for determining eligibility.

DEVELOPMENTAL DELAY means a disability affecting a child ages two through six, inclusive:

- Who is experiencing developmental delays, as measured by appropriate diagnostic instruments and procedures, in one or more of the following areas: physical development, cognitive development, communication development, social or emotional development, or adaptive development, or (ii) who has an established physical or mental condition that has a high probability of resulting in developmental delay;
- The delay(s) is not primarily a result of cultural factors, environmental or economic disadvantage, or limited English proficiency; and
- The presence of one or more documented characteristics of the delay has an adverse affect on educational performance and makes it necessary for the student to have specially designed instruction to access and make progress in the general educational activities for this age group.

EMOTIONAL DISABILITY means a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree that adversely affects a child's educational performance:

- an inability to learn which cannot be explained by intellectual, sensory, or health factors;
- an inability to build or maintain satisfactory interpersonal relationships with peers and teachers;
- inappropriate types of behavior or feelings under normal circumstances;
- a general pervasive mood of unhappiness or depression; or
- a tendency to develop physical symptoms or fears associated with personal or school problems.

The term includes students who are schizophrenic. The term does not apply to students who are socially maladjusted unless it is determined that they have emotional disturbance.

INTELLECTUAL DISABILITY

- A child may be found eligible for special education and related services as a child with an intellectual disability if there is an adverse effect on the child's educational performance due to documented characteristics of intellectual disabilities which are described as a significantly sub average general intellectual functioning, existing concurrently with deficits in adaptive behavior and manifested during the developmental period. Children must be found eligible for special

education and related services under IDEA before an Individualized Education Program (IEP) is developed. Children who are suspected of having a disability should be referred to their local school division for evaluation and to initiate the process for determining eligibility.

The term includes such conditions as perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia. The term does not include learning problems that are primarily the result of visual, hearing, or motor disabilities; mental retardation; emotional disturbance; or of environmental, cultural, or economic disadvantage.

MULTIPLE DISABILITIES

- A child may be found eligible for special education and related services as a child with multiple disabilities if there is an adverse effect on the child's educational performance due to documented characteristics of multiple disabilities which are described as simultaneous impairments (Such as intellectual disability with blindness, intellectual disability with orthopedic impairment), the combination of which causes such severe educational needs that they cannot be accommodated in special education programs solely for one of the impairments (this terms does not include deaf-blindness). Children must be found eligible for special education and related services under IDEA before an Individualized Education Program (IEP) is developed. Children who are suspected of having a disability should be referred to their local school division for evaluation and to initiate the process for determining eligibility.

OTHER HEALTH IMPAIRMENT

- According to IDEA, "other health impairment" means having limited strength, vitality or alertness. This includes a heightened alertness to environmental stimuli that results in limited alertness with respect to the educational environment and which adversely affects a child's educational performance. Chronic or acute health problems that fall under "other health impairment"

▪ Lead Poisoning	▪ Diabetes

SENSORY DISABILITIES

“Sensory disabilities” can involve any of the five senses, but for educational purposes, it generally refers to a disability related to hearing, vision, or both hearing and vision.

Sensory disabilities affect access – access to visual and/or auditory information. Most content information is presented visually and/or auditory in the classroom. It is important that children experiencing a vision and/or a hearing loss are appropriately identified to ensure access to education.

Overviews:

Deaf – Blind

The Regulations Governing Special Education Programs for Children with Disabilities in Virginia (effective July 7, 2009) defines the term as follows:

“Deaf-Blindness” means hearing and visual impairments occurring at the same time, the combination of which causes such severe communication and other developmental and educational needs that they cannot be accommodated in special education programs solely for children with deafness or children with blindness. 34 CFR § 300.7 (c) (3); 8VAC20-81-10.

Hearing Impairment – Deafness

The Regulations Governing Special Education Programs for Children with Disabilities in Virginia (effective July 7, 2009) defines the term as follows:

SPEECH - LANGUAGE IMPAIRMENT

- Speech-language impairments can impact the way a student communicates. Speech errors include errors when producing specific sounds that are not a result of normal development or language acquisition, dysfluency (stuttering), or motor speech issues. Students may also receive therapy for improving the understanding and use of spoken or written language, pragmatics, and meta-linguistic skills. Students with swallowing disorders or dysphagia can also receive services from speech-language pathologists in Virginia public schools.

Students must meet Virginia eligibility criteria to be found eligible for services as a student with a speech language impairment or can receive speech-language therapy as a related service if included in the student's IEP.

TRAUMATIC BRAIN INJURY means an acquired injury to the brain caused by an external physical force resulting in total or partial functional disability or psychosocial impairment, or both, that adversely affects a child's educational performance. The term applies to open or closed head injuries resulting in impairments in one or more areas, such as cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual and motor abilities; psychosocial behavior; physical functions; information processing; and speech. SECTION 504

Section 504/ADA is a civil rights statute aimed at discrimination against individuals with disabilities. Like other statutes of Title VI (race) and Title IX (gender), Section 504/ADA focuses on discrimination based on disability. All programs or activities of the school are covered by Section 504/ADA obligations. No person, on the basis of a disability, shall be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program that benefits from federal funding or is a public entity.

No qualified person shall, on the basis of his/her disability, be subjected to discrimination in employment by any program or activity that receives federal funds or is a public entity.

The school must make reasonable accommodations for employees with known physical and mental impairments unless the accommodation would impose an undue hardship on the operation of the school's program. Examples of reasonable accommodations would include making facilities accessible to and usable by persons with disabilities, job restructuring, part-time or modified work schedules, and acquisition or modification of equipment or devices.

SECTION 504 ELIGIBILITY CRITERIA

Pertaining to Students

The definition of a qualified person under Section 504 covers a broader population than the definition of a disabled person under P.L. 94-142. A "qualified disabled individual" under 504 is a person who: (1) has a physical or mental impairment that substantially limits one or more major life activities; (2) has a record of such an impairment, and (3) is regarded as having such an impairment.

PRONG 1

- a. "Physical or mental impairment" means (a) any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affection of one or more of the following body systems: neurological, musculoskeletal, special sense organs, respiratory including speech organs, cardiovascular, reproductive, digestive, genitor-urinary; hemic and lymphatic; skin, and endocrine, or (b) any mental or psychological disorder such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disability.

Although the basic definition of "disability is unchanged, the Amendments Act of 2008 broadens the scope of the definition of disability by expanding the definition of "major life activities" and by lowering the bar for what it means to be "substantially limited".

- b. "Major life activities: means functions as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, working, reading, concentrating, thinking, communicating, bending, lifting, standing, sleeping and eating, along with the operation of a major bodily function.

PRONG 2

"Has a record of such an impairment" means has a history of, or has been misclassified as having a mental or physical impairment that substantially limits one or more major life activities.

PRONG 3

"Is regarded as having an impairment" means (1) has a physical or mental impairment that does not substantially limit major life activities, but is treated by a recipient as constituting such limitation; (2) has a physical or mental impairment that substantially limits major life activities only as a result of the attitudes or others toward such impairment; or (3) has none of the impairments defined in section one, but is treated by a recipient as having such an impairment.

***An individual who meets the definition of disability solely under the second and third prongs is not entitled to a Section 504 Plan. Such a student is; however, protected from discrimination.

Each school shall establish a Section 504 Committee (in Scott County the Child Study Committee serves this purpose) under the direction of a building administrator whose purpose shall be to process referrals for students suspected of being disabled under Section 504.

Decisions about Section 504/ADA eligibility must be documented in the student's Section 504/ADA file and reviewed at least yearly and whenever any member of the team feels it is necessary. A case manager should be assigned to complete and manage each Section 504/ADA student file. A student's program must be provided in the least restrictive environment, most likely the general education classroom.

Under Section 504/ADA, parents or guardians must be provided with notice of any action that changes the identification, evaluation program, or placement of their student. Written consent would be considered a best practice. The parents should be included in the evaluation, eligibility, and placement process. Parents or guardians have the right to file a grievance, request mediation, ask for a due process hearing, or call the Office for Civil Rights if they disagree with the school. The guidance counselor at each respective school is the person to contact if someone suspects that a student requires 504 services.

GIFTED and TALENTED/SPECIAL EDUCATION/504 ADVISORY COMMITTEE

The Special Education Advisory Committee meets quarterly. Anyone with a child with a disability who would like to join may contact the Supervisor of Special Education at 276-386-6118.

SECTION VII: STUDENT CONDUCT STANDARDS OF STUDENT CONDUCT OVERVIEW

Generally

The Scott County School Board establishes expectations for student conduct so that public education is conducted in an atmosphere free of disruption and threat to persons or property and supportive of individual rights.

In addition to the types of conduct prohibited below, the superintendent issues Standards of Student Conduct and a list of possible actions for violations of those Standards.

This Policy and the Standards of Student Conduct apply to all Scott County school students. They are enforced when the student's conduct occurs when the student is

- On school property.
- Traveling to school or from school.
- Traveling to, at, and from bus stops.
- In School Board vehicles.
- In attendance at any school-sponsored activity.
- Off school property if the conduct disrupts the learning environment.

The School Board and superintendent biennially review the model student conduct code developed by the Virginia Board of Education to incorporate into policy and the Standards of Student Conduct a range of discipline options and alternatives to preserve a safe and non-disruptive environment for effective learning and teaching.

Parental Involvement and Responsibility

Each parent of a student enrolled in Scott County Public Schools has a duty to assist in enforcing this policy, the Standards of Student Conduct and compulsory school attendance in order that education may be conducted in an atmosphere free of disruption and threat to persons or property and supportive of individual rights. This policy, the Standards of Student Conduct, a notice of the requirements of Va. Code § 22.1-279.3, and a copy of the compulsory school attendance law is sent to all parents within one calendar month of the opening of schools simultaneously with any other materials customarily distributed at that time. A statement for the parent's signature acknowledging the receipt of this policy, the Standards of Student Conduct, the requirements of Va. Code § 22.1-279.3 and the compulsory school attendance law is also sent. Parents are notified that by signing the statement of receipt, they are not deemed to waive, but expressly reserve, their rights protected by the constitution or laws of the United States or Virginia. Each school maintains records of the signed statements.

The school principal may request the student's parent or parents, if both have legal and physical custody, to meet with the principal or principal's designee to review this policy, the Standards of Student Conduct and the parent's or parents' responsibility to participate with the school in disciplining the student and maintaining order, to ensure the student's compliance with compulsory school attendance law and to discuss improvement of the child's behavior, school attendance and educational progress.

The school principal may notify the parents of any student who violates a School Board policy, the Standards of Student Conduct, or the compulsory school attendance requirements when such violation could result in the student's suspension or the filing of a court petition, whether or not the school administration has imposed such disciplinary action or filed such a petition. The notice shall state (1) the date and particulars of the violation; (2) the obligation of the parent to take actions to assist the school in improving the student's behavior and ensuring compliance with compulsory school attendance; (3) that, if the student is suspended, the parent may be required to accompany the student to meet with school officials; and (4) that a petition with the juvenile and domestic relations court may be filed under certain circumstances to declare the student a child in need of supervision.

The principal or principal's designee notifies the parent of any student involved in an incident required to be reported to the superintendent and Virginia Board of Education as described in Policy CLA Reporting Acts of Violence and Substance Abuse.

If a parent fails to comply with the requirements of this Policy, the School Board may ask the Juvenile and Domestic Relations Court to proceed against the parent in accordance with the requirements of the Code of Virginia.

A parent, guardian or other person having control or charge of a student is notified in writing of any disciplinary action taken with regard to any incident upon which an adjudication of delinquency or conviction for an offense listed in Va. Code § 16.1-260.G was based and the reasons therefor. The parent or guardian is also notified of the parent or guardian's right to review, and to request an amendment of, the student's scholastic record, in accordance with regulations of the Board of Education governing the management of scholastic records.

Prevention, Intervention, and Treatment Activities and Programs

Any student involved in a reportable drug or violent incident, as described in Policy CLA Reporting Acts of Violence and Substance Abuse, participates in prevention and intervention activities deemed appropriate by the superintendent or superintendent's designee. Further, any student who has been found to be in possession of or under the influence of drugs or alcohol on school property or at a school sponsored activity may be required to (1) undergo evaluation for drug or alcohol abuse and (2) participate in a drug and/or alcohol treatment program if recommended by the evaluator and if the parent consents.

Prohibited Conduct

The following conduct is prohibited. Students engaging in such conduct are subject to disciplinary action.

Bullying and Use of Electronic Means for Bullying

Bullying is prohibited. "Bullying" means any aggressive and unwanted behavior that is intended to harm, intimidate, or humiliate the victim; involves a real or perceived power imbalance between the aggressor or aggressors and victim; and is repeated over time or causes severe emotional trauma. "Bullying" includes cyber bullying. "Bullying" does not include ordinary teasing, horseplay, argument or peer conflict.

Gang Activity

Gang activity, as defined in Policy JFCE Gang Activity or Association, is prohibited.

Harassment

As provided in Policy JFHA/GBA Prohibition Against Harassment and Retaliation, students are prohibited from harassing other students, school staff, volunteers, student teachers or any other person present in school facilities or at school functions.

Intentional Injury of Others

Students are prohibited from intentionally injuring others.

Whether a student acted in self-defense is considered when the student's conduct is evaluated for disciplinary action.

Threats: Intimidation

Students are prohibited from making any verbal, written or physical threat of bodily injury to another person.

Trespassing

Students, including students who have been suspended or expelled, are subject to disciplinary action for trespassing on school property

In addition to any other consequences which may result, a student who is a member of a school athletic team will be ineligible for two school years to compete in interscholastic athletic competition if the school principal and the superintendent determine that the student used anabolic steroids during the training period immediately preceding or during the sport season of the athletic team, unless such steroid was prescribed by a licensed physician for a medical condition.

STANDARDS OF STUDENT CONDUCT/DEFINITIONS

A student shall not assault or commit battery upon another person on school property, on school buses or during school activities on or off school property.

An assault is a threat of bodily injury.

A battery is any bodily hurt, however slight, done to another in an angry, rude or vengeful manner.

2. Attendance; Truancy

Students shall attend school on a regular and punctual basis unless otherwise excused in accordance with School Board policy or regulation. (See Policy JED Student Absences/Excuses/Dismissals.)

If a student who is under 18 years of age has 10 or more unexcused absences from school on consecutive school days, the principal may notify the juvenile and domestic relations court, which may take action to suspend the student's driver's license.

3. Bomb Threats

Students shall not engage in any illegal conduct involving firebombs, explosive or incendiary materials or devices or hoax explosive devices or chemical bombs as defined in the Code of Virginia. Moreover, students shall not make any threats or false threats to bomb school personnel or school property.

"Bullying" means any aggressive and unwanted behavior that is intended to harm, intimidate, or humiliate the victim; involves a real or perceived power imbalance between the aggressor or aggressors and victim; and is repeated over time or causes severe emotional trauma. "Bullying" includes cyber bullying. "Bullying" does not include ordinary teasing, horseplay, argument or peer conflict.

5. Bus-Related Offenses

Students shall not behave in a disruptive manner or otherwise violate these Standards of Conduct while waiting for a school bus, while on a school bus or after being discharged from a school bus.

Riding the school bus to and from school is a privilege given to students by the Scott County School Board. Students who do not behave properly in waiting for and riding the bus may have this privilege taken away. In addition, students may be given detention, in-school suspension, suspension, placement in an alternative program, or expulsion for misbehaving on the bus. Inappropriate behavior can lead to accidents and injuries. Safety is our greatest concern.

- j) Cross the road carefully upon signal from the driver at a point ten feet in front of the bus.
- k) Use the same procedures as above when leaving the bus, and immediately move away from the bus.
- l) Keep hands, arms, head, and any other objects inside the bus windows.

- p) Refrain from bringing the following on the bus: bottles, animals, radios, games, large class projects, recorders, posters, stickers, food, pins, water pistols, and any other items that may cause a disturbance.
- q) In cases where such items are needed for a school activity, the parent should make arrangements to bring the child to school or to box/package the item(s) to minimize disturbance on the bus.
- r) In no way block the aisle.
- s) Have proper written permission before changing from assigned bus and regular stop.
- t) The bus driver will not drop off any unaccompanied Pre-K through 3rd grade student without an adult being visible at the bus stop. The driver will return your child to the custody of a school official until a parent or emergency contact can be reached.
 - **If you cannot be visible at the bus stop, then you may provide a note releasing us from liability. The note should be sent to the school stating it is acceptable to let your child off the bus without you being there. When the principal receives a note from you, then the principal will inform the bus driver. The driver will then drop your child off without you being visible.**

All mobile phones shall be silenced while on campus or school property.

***Elementary and Intermediate school students will not be allowed to use their cell phone upon arrival at school and during the school day. Exceptions to this policy must be approved by the building administrator prior to use. Students who violate this policy will be subjected to the same disciplinary measures as middle and secondary school students.**

****The following policy applies to Middle and Secondary school students.**

Students may be allowed to use their cell phones in the morning, before classes begin, at lunch, during breaks, between classes, and after dismissal from the final class.

During periods of authorized use, taking photographs, audio recording and video recording are strictly forbidden unless authorized specifically by a staff member.

At no time may any device be used with an unfiltered connection to the Internet.

The division is not liable for devices brought to school or school activities.

If a student possesses or uses such a device other than as permitted in this policy, in addition to other disciplinary sanctions which may be imposed, the device may be confiscated from the student and returned only to the student's parent.

Additionally, disciplinary action will be taken against any student taking part in gang-related activities that are disruptive to the school environment, which include the display of any apparel, jewelry, accessory, tattoo, or manner of grooming that, by virtue of its color, arrangement, trademark, or any other attribute, denotes membership in a gang that advocates illegal or disruptive behavior.

Parents of students requiring accommodation for religious beliefs, disabilities, or other good causes should contact the principal.

25. Theft

**DISCIPLINING STUDENTS WITH DISABILITIES
DEFINITIONS**

Behavioral Intervention Plan (BIP) means a plan that utilizes positive behavioral interventions and supports to address behaviors which interfere with the learning of students with disabilities or with the learning of others or that require disciplinary action. . A Functional Behavior Assessment (FBA) and a BIP and modifications designed to address a student’s behavior only applies to students whose behavior is a manifestation of their disability as determined by Scott County Public Schools, the parent, and the relevant members of the student’s IEP Team. They must also be used proactively, if the IEP Team determines that they would be appropriate for the student. If a student’s misconduct has been found to have a direct and substantial relationship to his/her disability, the IEP Team will need to conduct a FBA of the child, unless one has already been conducted. Similarly, the IEP Team must write a BIP for the student, unless one already exists. If a BIP already exists, then the IEP Team will need to review the plan and modify it, as necessary, to address the behavior.

Business Day means Monday through Friday, exclusive of federal and state holidays.

Calendar Day means consecutive days inclusive of Saturdays and Sundays.

Change of Placement means:

- A removal of a student from the student’s current educational placement is for more than 10 consecutive days; or
- The student is subjected to a series of removals that constitute a pattern because they cumulate to more than 10 school days in a school year, and because of such factors as:
 - The length of each removal

- The child’s behavior is substantially similar to the child’s behavior in previous incidents that resulted in the series of removals;
- The total amount of time the student is removed; or
- The proximity of the removals to one another.

Functional Behavioral Assessment (FBA) means a process to determine the underlying cause of functions of a child’s behavior that impede the learning of the child with a disability or the learning of the child’s peers. A functional behavioral assessment may include a review of existing data or new testing data or evaluation as determined by the IEP Team. A FBA must be conducted when the IEP Team determines that a behavior was a manifestation of the child’s disability. **Whenever a MDR is conducted, no manifestation is found, but the team determines a FBA should be conducted. A FBA should be considered when a child’s behavior impedes the child’s learning or that of others. In this case, the team may determine that additional behavior goals are necessary prior to a FBA.**

Long-Term Removal means suspension of a student with a disability to an alternative setting for more than 10 consecutive school days in a school year; or, when the student is subjected to a series of removals that constitute a pattern because they cumulate to more than 10 school days in a year. School personnel may remove a student to an interim alternative educational setting for weapons, drugs, or for serious bodily injury for 45 school days.

Manifestation Determination Review (MDR) means a process to review all relevant information, including the review of the IEP, teacher observations, and relevant information in the student’s file, and the relationship between the student’s disability and the behavior subject to the disciplinary action. **A MDR must be held when there is a disciplinary change in placement.** The mandate requires that the IEP Team determine if the conduct in question was:

- Caused by, or had a direct and substantial relationship to, the child’s disability; or
- The direct result of the school’s failure to implement the IEP.

Pattern means separate related incidents of removal (such as: two or more incidents of fighting) which cumulate to more than 10 school days in a given school year and constitute a change in placement.

School Day means any day, including a partial day, which children are in attendance at school for instructional purposes.

Separate Incidents of Misconduct means that the incidents are unrelated

Serious Bodily Injury means bodily injury that involves substantial risk of death, extreme physical pain, protracted and obvious disfigurement, or protracted loss of impairment of the function of a bodily member, organ or mental faculty.

Short-Term Removal means suspending a student with a disability to an alternative setting for 10 school days or less in a school year, but not consecutive and does not constitute a change in placement.

KEY PROVISIONS

Students with disabilities, who violate the student code of conduct, or engage in conduct for which they may be disciplined, will be disciplined in accordance with this policy. Additionally, the regular disciplinary procedures must be followed. School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability as a result of discipline.

I. Short-Term Suspension

A short-term suspension is a suspension of 10 consecutive days or less at a time.

School authorities may remove a student with a disability from his or her current educational setting for up to 10 school days cumulative in a school year to the extent that such removal would be applied to students without disabilities and for additional short-term suspensions provided no pattern exists. Short term suspension which constitute a pattern will be handled through long term removal procedures.

No MDR or IEP meeting is required for a short term removal, although an IEP meeting may be held if needed. Educational services are provided for each day of removal after the first ten days of removal in a school year, Educational services should also be provided during the first ten days of removal if services are provided to a student without disabilities in the same circumstances. To determine **whether or not a series of short-term removals constitutes a pattern of removal equating a change of placement:**

- Review disciplinary records
- Consultation among the special education teacher, the building administrator, classroom teachers, guidance counselors, and parent(s) or adult student
- Review of the IEP which includes any BIP developed and other relevant records
- Input from any other relevant source

Starting on the 11th school day of removal, **if a pattern of removal does not exist**, school personnel may determine the necessary services, if any, by consulting with the student’s special education teacher and determining the extent to what services are necessary for the student to:

- Continue to participate in the general education curriculum, and
- Progress toward meeting the goals set out in the student’s IEP.

Refer to forms in Appendix: Incident Report (10-day rule) and PWR

Starting on the 11th school day, in defining a change of placement and **whether a pattern exists, the following factors need to be consider:**

- the length of the removals total more than 10 days in a school year
- the student has been subjected to a series of removals that constitute a pattern—
 - because the series of removals total more than 10 school days in a school year;
 - because the student’s behavior is substantially similar to the student’s behavior in previous incidents that resulted in the series of removals; and
 - because additional factors such as length of each removal, the total amount of time the student has been removed, and the proximity of the removals to one another.

The school division determines on a case-by-case basis whether a pattern of removals constitutes a change of placement. If there is a change in placement, a MDR must be held.

<u>SHORT-TERM REMOVALS</u>		
I. First 10 days of removal from School	II. Short-Term suspension after the first 10 days of removal and not a pattern of behavior	III. Short-Term removals that are indicative of a pattern of behavior or culminate into a Change in Placement
<u>PROCEDURE</u>		
I. Utilize the general education discipline process	II. No MDR and no IEP meeting – Provide services as determined by school personnel	III. IEP Meeting/Causal Hearing MDR– Consider conducting FBA/BIP or review existing BIP if there is

	a manifestation
--	-----------------

II. In-School Suspensions (ISS)

ISS would not count in the days of suspension as long as the student:

- Is afforded the opportunity to continue to appropriately participate in the general educational curriculum.
- Continues to receive the services specified on the student's IEP; and
- Continues to participate with nondisabled children to the extent the student would have in the current placement.

III. Portions of a School Day for Discipline

- Less than half a day is counted as a half day.
- More than a half day is counted as a whole day.

IV. Bus Suspensions are counted as out-of-school suspensions if the parent cannot transport the student to school. If the parent has transportation, then the bus suspensions will not count against the student.

V. Functional Behavior Assessments and Behavior Intervention Plans

If the school administration, the parent, and the relevant Individualized Education Program (IEP) team members determine that a manifestation exists, the IEP team must:

- a. conduct a Functional Behavioral Assessment (FBA) and implement a Behavioral Intervention Plan (BIP), if no FBA was conducted previously; or,
- b. if the student already has a FBA and BIP in place, review and modify the BIP, as necessary to address the behavior.

If a manifestation is found, the school division and the parent may agree to a change in placement when reviewing or modifying the BIP. Without this agreement, the student must return to the placement from which the student was removed. Nothing in this section limits the authority of the school division for the first ten days of removal in a school year or for applicable forty-five school day removals.

If the MDR team members determine that there is no manifestation, then the IEP team should decide whether there is a need to conduct or review an FBA and BIP.

VI. Long-Term Suspensions, Expulsions or Short-Term Suspensions Which Constitute a Pattern -- Change in Placement

For the purpose of removing students with disabilities from their current educational placements, a change in placement occurs when:

- (1) The removal is for more than 10 consecutive school days at a time; or
- (2) There is a series of removals each of which is for 10 days or less and they cumulate to more than 10 days in a school year and constitute a pattern because of:
 - (a) the length of each removal,
 - (b) the proximity of the removals,
 - (c) the total time the student is removed, and
 - (d) the child's behavior is substantially similar to the child's behavior in previous incidents.

If the disciplinary action will result in a change of placement for a student with a disability then that student's parents must be sent notice that same day of the recommendation for discipline and be provided with a copy of the procedural safeguards. The procedures outlined in Section VII must also be followed.

A Manifestation Review is not necessary for the first 10 days of out-of-school. . A manifestation determination must be made within 10 school days of any decision to change the placement of a student with a disability because of a violation of a code of student conduct. However, when the removal is for weapons, drugs, or serious bodily injury, the student may remain in an Interim Alternative Educational Setting (IAES), as determined by the child's IEP Team for not more than 45 school days, regardless whether the violation was a manifestation of his/her disability. This type of removal can occur if the student; carries a weapon to or possesses a weapon at school, on school premises, or to or at a school function under the jurisdiction of Scott County Public Schools; knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of Scott County Public Schools; or has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of Scott County Public Schools.

For long-term suspensions, the school must address the behavior violation so that it does not recur when placed in an (IAES).This may include:

- counseling
- social skills training
- teaching of replacement skills
- conflict management skills
- peer mediation skills

LONG-TERM REMOVALS	
II. <u>More than 10 consecutive days of removal.</u>	III. Expulsion
PROCEDURE	
II. Hold a MDR, hold an IEP Meeting, consider need for FBA/BIP if no manifestation or conduct FBA/BIP if there is a manifestation.	III. Hold a MDR, hold an IEP, consider need for FBA/BIP if no manifestation or conduct FBA/BIP if there is a manifestation.

VII. Educational Services While Disciplined

For the first 10 days of removal in a school year, the School Board is not required to provide educational services to the student with a disability if services are not provided to students without disabilities who have been similarly removed.

After the first 10 days of removal in a school year, the School Board shall provide educational services to the student during the period of removal. The services must enable the student to:

- 1) Continue to progress in the general curriculum, although in another setting, and
- 2) Progress toward meeting the goals set out in the student's IEP.

The determination of educational services is made by the IEP team for discipline which constitutes a change in placement. For discipline which is not a change

in placement, the determination is made by school personnel in consultation with the student's special education teacher.

VIII. Manifestation Determination

When a disciplinary action is proposed that will result in a change of placement, a manifestation determination review shall be conducted within 10 school days after the date on which the decision to take disciplinary action is made. This review shall be conducted by the Manifestation Team which consists of a local educational agency representative, the parent and relevant members of the IEP team (as determined by the parent and the school division).

The Manifestation Team may determine that the behavior of the student was not a manifestation of such child's disability only if the Team:

- 1) Considers all relevant information in the student's file, including the student's IEP, any teacher observations, and any relevant information supplied by the parents; and
- 2) Determines that:
 - (a) the conduct in question was not caused by, or had a direct and substantial relationship to, the student's disability; and
 - (b) the conduct in question was not the direct result of the school division's failure to implement the IEP.

IX. Disciplinary Action for Behavior that is Determined Not to be a Manifestation

If the behavior is not a manifestation of the student's disability, the disciplinary procedures will be applied in the same manner as applied to nondisabled students. Following a removal which constitutes a change in placement, the student must continue to receive the educational services necessary to enable the student to continue to participate in the general curriculum, although in another setting, and to progress toward meeting the goals set out in the student's IEP. In addition, the special education and disciplinary records of the student must be made available to the person who makes the final decision regarding the discipline.

A parent may request an expedited due process hearing if the parent disagrees with the determination that the behavior was not a manifestation of the student's disability or if the parent disagrees with any decision regarding the placement of the student while disciplined. During any appeal, the student will remain in the interim alternative education setting unless reversed by decision of the hearing officer; provided, however, the student may still serve the balance of any applicable forty-five school day removal. The placement may also be changed through the IEP process with the consent of the parent.

X. Disciplinary Action and/or Alternative Placement for Behavior That Is Determined To Be a Manifestation

A student with a disability whose behavior is determined to be a manifestation of his or her disability may not be disciplined except to the extent a removal is otherwise permitted by law. The student may also be removed to a more restrictive placement by following change in placement procedures. The IEP team must conduct or review a FBA and/or BIP.

XI. Interim Alternative Educational Settings for Weapons and Drugs and Infliction of Serious Bodily Injury

Students with disabilities 1) who carry or possess a weapon to or at school, or on school premises, or to or at a school function under the jurisdiction of a state or local educational agency; 2) who knowingly possess or use illegal drugs or sell or solicit the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of a state or local educational agency; or 3) who inflict serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of a state or local educational agency may be disciplined pursuant to Policies JFCD, JFCF or JGDB and may be placed in an interim alternative educational setting for up to forty-five school days. These options are available even if a manifestation exists. If no manifestation is found, the student may be disciplined to the extent a student without disabilities would be disciplined.

Weapons, controlled substance and serious bodily injury have the meaning given under state regulations in 8 VAC 20-81-10.

Any interim alternative educational setting shall be selected, by the IEP team, so as to enable the student to continue to progress in the general curriculum, although in another setting, and to progress toward meeting the goals set out in the student's IEP. The student must also receive, as appropriate, a FBA, behavioral intervention services and modifications designed to address the behavior so it does not recur.

XII. Change of Placement by Hearing Officer

In addition to the other options for removal, a hearing officer, through an expedited due process hearing requested by the school division, may order a change in the placement for a student with a disability to an appropriate interim alternative educational setting for not more than forty-five (45) school days if the hearing officer determines that maintaining the current placement of such student is substantially likely to result in injury to the student or others. Additional forty-five (45) school day removals may be authorized by the hearing officer as necessary.

XIII. Placement During Appeals

Students with disabilities are entitled to the due process rights available to a non-disabled student. In addition, students with disabilities are entitled to the due process procedures available under the Individuals with Disabilities Education Act, as amended and any state procedures. During the course of any appeals, the student's placement shall be in accordance with the provisions of federal law unless the parent and the school division agree otherwise.

XIV. Students Not Identified as Disabled

Students for whom the parents assert there is a disability but who have not yet been identified as disabled may be subjected to the same measures applied to students without disabilities if the school division did not have knowledge of the disability before the behavior that precipitated the disciplinary action occurred. A school division will be found to have knowledge of the student's disability if before the behavior that precipitated the disciplinary action occurred:

- (1) the parent expressed concern in writing to supervisory or administrative personnel of the school division, or to a teacher of the student, that the student is in need of special education and related services; or
- (2) the parent requested an evaluation of the student for special education eligibility through formal evaluation procedures; or
- (3) the student's teacher or other school personnel had expressed specific concerns about a pattern of behavior demonstrated by the student directly to the director of special education or to other supervisory personnel of the school division that suggests the presence of a disability.

A school division would not be found to have knowledge of a student's disability if:

- (1) the parents refused to allow an evaluation of the student or refused special education services; or
- (2) the student was evaluated and found not eligible for special education services.

If a request for an evaluation is made during the period such student is subject to disciplinary measures, the evaluation shall be conducted in an expedited manner. If the student is found eligible as a child with a disability, taking into consideration information from the evaluation conducted by the school division and information provided by the parents, then the student must be provided special education and related services, although in another setting, in compliance with the procedures for suspended and expelled students with disabilities. Pending the results of the evaluation, the student shall remain in the educational placement determined by the school authorities.

XV. Disciplining Certain Section 504 Students Who Violate Alcohol and Drug Policies

Students who are identified as disabled solely under Section 504 of the Rehabilitation Act, and who are currently engaging in the illegal use of drugs or alcohol, may be disciplined for violating the division's alcohol and drug policies to the same extent as non-disabled students. The student is not entitled to a due process hearing under special education procedures in this circumstance but does retain the protections afforded to regular education students.

XVI. Reporting of Crimes

Nothing in these procedures prevents the reporting of a crime to appropriate authorities or prevents state law enforcement and judicial authorities from exercising their responsibilities.

DRUGS IN SCHOOL

I. Generally

Possession of a controlled substance, imitation controlled substance or marijuana, as defined in Va. Code § 18.2-247, or synthetic cannabinoids as defined in Va. Code § 18.2-248.1:1, on school property or at a school-sponsored activity is prohibited .

A. Mandatory Expulsion

A student who is determined to have brought a controlled substance, imitation controlled substance or marijuana, or synthetic cannabinoids as defined in Va. Code § 18.2-248.1:1, onto school property or to a school-sponsored activity shall be expelled in accordance with Policy JGD/JGE. The Superintendent may determine, based on the facts of the particular case, that special circumstances exist and another form of discipline is appropriate. Any such disciplinary action shall be taken in accordance with Article 3 of Chapter 14 of Title 22.1 of the Code of Virginia.

B. Prevention and Intervention

Any student who violates this policy shall participate in the prevention and intervention activities identified in Scott County school division's drug and violence prevention plan.

The School Board may require any student who is in possession of or under the influence of drugs at school or school-sponsored activities to: (1) undergo evaluation for drug abuse and (2) participate in a drug treatment program if recommended by the evaluator and if the student's parent consents.

C. Required Reporting to Parents and Local Law Enforcement

The Principal shall report a violation of this policy to parents and local law enforcement as required by Policy CLA.

II. Students with Disabilities

- A. Students with disabilities are subject to the provisions of Section I of this policy and may be disciplined to the same extent as a nondisabled student provided the manifestation review committee determines that the violation was not a manifestation of the student's disability. The provisions of Policy JGDA will be followed in addition to the regular disciplinary procedures.
- B. Additional authority to remove a student with a disability from school for a drug violation.
 - 1. In addition to the authority granted in subsection A above, a student with a disability may be removed without parent consent and assigned to an interim alternative education program by school personnel for not more than forty-five (45) school days when the student knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of a state or local educational agency. This option is available regardless of whether a manifestation exists. The removal should not be in excess of any removal imposed on a student without a disability for the same offense.
 - 2. For purposes of this forty-five (45) school day removal, "illegal drugs" and "controlled substance" are defined as follows:
 - a. Controlled substance means a drug or other substance identified under schedules I, II, III, IV, or V in § 202(c) of the Controlled Substances Act at 21 U.S.C. § 812(c).
 - b. Illegal drug means a controlled substance, but does not include a controlled substance that is legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under the Controlled Substances Act or under any other provision of federal law.

ENROLLMENT OF SUSPENDED STUDENT

Any student who has been suspended from a school of this Division is not eligible to attend any other school within the Division until eligible to return to his or her regular school. Any student who has been suspended from another division will not be permitted to enroll in this Division until eligible to re-enroll in his or her former division or until the Board or the Superintendent, has reviewed the prior suspension and determines that the suspension was illegal or improperly given.

INTERVIEW OF STUDENTS

When a law enforcement officer or employee of the Child Protective Services Unit of the Social Services Department calls at the school, whether to question a student or to serve a court order or arrest warrant, the principal shall lend his or her full cooperation.

1. Criminal Investigations

Should a law enforcement officer wish to interrogate a non-adult student during an investigation of possible criminal activity by the student, the student must be asked if he/she wishes for a parent, or his/her attorney to be present. If he/she does not, the school officials must make a good faith effort to contact the student's parents or guardian prior to the beginning of the interrogation and it is mandatory that the principal or his/her representative be present as an observer. However, the interrogation must be conducted by the officer and not by the principal or representative.

2. Student Interviews

Except in Child Protective Services cases, should a law enforcement officer wish to speak with a non-adult student about matters which do not involve possible criminal activity by the student, the student should be asked if he or she wants a parent or attorney to be present. If he or she does not, the principal or his representative should be present as an observer.

3. Child Protective Services Investigators

Because of the sensitive nature of Child Protective Services cases, Child Protective Services Unit employees and law enforcement officers investigating Child Protective Services cases are permitted by state law to interview students outside the presence of school personnel, parents, or attorneys, Virginia Code

Section 63.1-248.10. School officials are expected to cooperate fully in maintaining strict confidentiality in Child Protective Services investigations. School officials should adhere to requests of Child Protective Services officers as to whether or not parents are to be informed of Protective Services investigations.

PHYSICAL RESTRAINT AND/OR ISOLATION

Scott County Public Schools ensures that children are treated with respect, dignity, and special care. Scott County Public Schools makes every effort to ensure that the learning environment is safe for all students and staff. When there is a need to manage aggressive or violent behavior of students in emergency situations in the school setting, there will be a balance between maintaining an effective and safe learning environment for children and school staff and safeguarding the rights and protections of students and staff. Least restrictive environment is looked at first when dealing with student behaviors, and unreasonable use of physical restraint, seclusion, and any other intervention methods that may not be the least restrictive intervention is prohibited unless there is a danger to self or others, or unless stated in the IEP of a student with disabilities. Scott County Public Schools ensures that any behavior management techniques are used appropriately. Where possible, less restrictive measures will be used initially, and no intervention will remove a student from the learning environment for unreasonable or unnecessary periods. Positive behavior techniques/interventions will be tried first if at all possible. Restraint and seclusion will only be used by staff who have been trained in the proper use of these procedures. When behaviors are brought under control, the student will return to the learning environment as soon as possible.

Scott County Public Schools uses the Handle With Care Behavior Management System. There are 3 standards by which a person/teacher can intervene physically. The first is protection of self and others. The second is a part of a behavioral management or treatment plan that is done in accordance of what is in the best interest of the child based the professional judgment of a qualified person. The third is specific to schools and educators who are placed in the role of custodian of the children and have responsibility to care for, protect and educate students. Scott County Public Schools is responsible for creating and maintaining an environment that is safe, orderly and conducive to learning.

Scott County Public Schools' primary goal is that students learn in a safe environment. Physical restraint and seclusion are only used in emergency situations, when other less intrusive alternatives have failed. Corporal Punishment is expressly prohibited by the Code of Virginia and will not be used in Scott County Public Schools. Briefly holding a student in order to calm or comfort the student, or holding a student's hand or arm to escort a student safely from one area or another is not considered restraint. Time-out is not considered isolation if the student needs to be removed from the immediate environment to a different, open location in order to calm down.

Procedures for Restraint and/or Isolation

A. Other means of discipline will be tried first.

1. Physical Restraint or Isolation may be used in a crisis situation when a student becomes a danger to self or others or when the learning of others has reached a crisis situation and other interventions have not been successful, such as:
 - Modifying curriculum and instruction
 - Modify task length
 - Intersperse assignments with activities
 - Allow flexible seating positions (e.g., stand, sit on knees)
 - Move to a quiet area
 - Play music
 - Distract with another activity
 - Relaxation strategies
 - Social Stories
 - Computer Time
 - Token Economy
2. Physical restraint may be necessary to move the individual to a secluded area and to maintain the individual in seclusion until the threat of physical harm has been eliminated. Once physical restraint is used, a documented debriefing by appropriate staff including staff involved in the restraint must occur. The purpose of the debriefing is to review the incident and take any necessary actions to reduce the chances that such an incident will reoccur. A copy of the restraint and debriefing will be sent to the parent(s)/guardian of the student and to the Director of Special Education.
3. Isolation may include isolation from other students within the room. If behaviors are bizarre or threatening harm to self or others. An adult will be assigned to monitor the student while in isolation from other students. The adult may be in the same room as the student. If behaviors cannot be brought under control in 20 minutes, the parent(s) of the student will be called to take the student home for a cooling off period before returning to school.
4. If the parent(s) cannot be contacted, the child may either be transported to mental health or a mental health worker may be called to the school. If necessary, the police may be contacted to assist in transportation of the student. If the student does not calm down within a 20-minute time period or if the administrator in charge feels that the student is so out-of-control that he/she is a danger to self or others, then transportation to a mental health facility or contact of the police may be necessary.

B. Documentation

- A. The incident will be documented, the parent(s) contacted (within 24 hours), and the report kept in the student's disciplinary file. If the child is a student with a disability, a copy of the Incident Report will be sent to the Supervisor of Special Education/504. If the student is injured in the process of physical restraint or isolation, an accident report shall be filed with the central office.
- B. A copy of the report will be sent to the parent, which will include:
 - (1) Date
 - (2) Time
 - (3) Location
 - (4) Length of physical restraint or isolation
 - (5) A description of the incident and justification statement
 - (6) Persons involved
 - (7) Any other relevant details
 - (8) An explanation of why less intrusive interventions were deemed inappropriate or inadequate
- C. A debriefing about why the procedures were necessary and how they could possibly be avoided in the future must be held. The debriefing shall include the teacher, an administrator, Behavior Specialist and/or guidance counselor. Documentation will be kept pertaining to the outcome of the meeting. If the incident involved a student with a disability, an IEP meeting may need to be called to address other techniques to be tried with the child.
- D. If the student continues to be a danger to self or others, a meeting will be called with the parent(s) to discuss a behavior assessment and intervention plan that may include a formal plan for physical restraint and/or isolation strategies.
- E. If the student is a student with disabilities, the IEP will include behavior intervention strategies as agreed to by the IEP group, implementation procedures (e.g. de-escalation of problematic behaviors and related safety considerations), and appropriate replacement behaviors taught to the child.

- F. If the parent(s) disagree with the physical restraint or isolation of their child, the parent(s) may file a complaint in writing and request an appeal to the Director of Personnel within 7 days of the incident.
- G. The discipline committee will convene within 30 calendar days from receipt of the appeal request for the hearing. The committee will have an additional 10 calendar days to present their findings in writing to the parents.

PARENTAL RESPONSIBILITY AND INVOLVEMENT REQUIREMENTS

- A. Each parent of a student enrolled in a public school has a duty to assist the school in enforcing the standards of student conduct and attendance in order that education may be conducted in an atmosphere free of disruption and threat to persons or property, and supportive of individual rights.
- B. A School Board shall provide opportunities for parental and community involvement in every school in the school division.
- C. Within one calendar month of the opening of school, each School Board shall, simultaneously with any other materials customarily distributed at that time, send to the parents of each enrolled student (i) a notice of the requirements of this section and (ii) a copy of the School Board's standards of student conduct. These materials shall include a notice to the parents that by signing the statement of receipt, parents shall not be deemed to waive, but to expressly reserve, their rights protected by the constitutions or laws of the United States or the Commonwealth and that a parent shall have the right to express disagreement with a school's or school division's policies or decisions. **Each parent of a student shall sign and return to the school in which the student is enrolled a statement acknowledging the receipt of the School Board's standards of student conduct and the notice of the requirements of this section.** Each school shall maintain records of such signed statements.
- D. The school principal may request the student's parents to meet with the principal or his designee to review the School Board's standards of student conduct and the parent's responsibility to participate with the school in disciplining the student and maintaining order, and to discuss improvement of the child's behavior and education progress.
- E. In accordance with section 22.1-277 and the guidelines required by section 22.1-278, the school principal may notify the parents of any student who violates a School Board Policy when such violation could result in the student's suspension, whether or not the school administration has imposed such disciplinary action. The notice shall state (i) the date and particulars of the violation; (ii) the obligation of the parent to take actions to assist the school in improving the student's behavior; and (iii) that, if the student is suspended, the parent may be required to accompany the student to meet with school officials.
- F. No suspended student shall be admitted to the regular school program until such student and his parent have met with school officials to discuss improvement of the student's behavior, unless the school principal or his designee determines that readmission, without parent conference, is appropriate for the student.
- G. Upon the failure of a parent to comply with the provisions of this section, the School Board may, by petition to the juvenile and domestic relations court, proceed against such parent for willful and unreasonable refusal to participate in efforts to improve the student's behavior, as follows:
 1. If the court finds that the parent has willfully and unreasonably failed to meet, pursuant to a request of the principal as set forth in subsection D of this parent's responsibility to assist the school in disciplining the student and maintaining order, and to discuss improvement of the child's behavior and education progress, it may order the parent to so meet; or
 2. If the court finds that the parent has willfully and unreasonably failed to accompany a suspended student to meet with school officials pursuant to subsection F, or upon the student's receiving a second suspension or being expelled, it may order (i) the student or his parent to participate in such programs or such treatment as the court deems appropriate to improve the student's behavior or (ii) the student or his parent to be subject to such conditions and limitations as the court deems appropriate for the supervision, care, and rehabilitation of the student or his parent. In addition, the court may order the parent to pay a civil penalty not to exceed \$500.
- H. The civil penalties established pursuant to this section shall be enforceable in the juvenile and domestic relations court in which the student's school is located and shall be paid into a fund maintained by the appropriate local governing body to support programs or treatments designed to improve the behavior of students as described in subdivision 3 of subsection G. Upon the failure to pay the civil penalties imposed by this section, the attorney for the appropriate county, city, or town shall enforce the collection of such civil penalties.
- I. All references in this section to the juvenile and domestic relations court shall be also deemed to mean any successor in interest of such court.

SEARCH AND SEIZURE

To maintain order and discipline in the schools and to protect the health, safety and welfare of students and school personnel, school authorities may search a student, student lockers or student automobiles under the circumstances outlined below and may seize any illegal, unauthorized, or contraband materials discovered in the search.

As used in this policy, the term "unauthorized" means any item dangerous to the health or safety of students or school personnel, or disruptive of any lawful function, mission or process of the school, or any item described as unauthorized in school rules available beforehand to the student.

Student desks and lockers are the property of the school, and may be used for the storage of permitted student belongings only. School officials retain locker combinations and reserve the right to search desks and lockers as well as to open lockers at any time for repairs. A general search of lockers or desks may be conducted to repossess school property or to locate illegal materials. A random, systemic, non-selective search of student classrooms, desks, lockers or automobiles may be conducted by school officials in accordance with a pre-determined search formula. Students are responsible for the content of their assigned locker at all times. The student's individual right to privacy and freedom from unreasonable search and seizure is balanced by the school's responsibility to protect the health, safety, and welfare of all persons within the school community. Should illegal materials be found during a search, law enforcement officials should be notified.

The locations at which searches of students and student property may be conducted are not limited to the school building or school property, but may be conducted wherever the student is involved in a school-sponsored function.

PERSONAL SEARCHES

A student's person and/or personal effects (e.g. purse, book bag, etc.) may be searched by a school officials whenever the official has reasonable suspicion to believe that the student has violated or is about to violate the law or a school rule and that the search will yield evidence of the violation.

All individual searches of students must be based on reasonable suspicion. In order to be permissible, the search must be: (1) justified at its inception and (2) reasonably related in scope to the circumstances justifying the search. An individual search is justified at its inception when a school official has reasonable grounds, based on the totality of the known circumstances, for suspecting that the search will reveal evidence that the student has violated or is violating either the law or the rules of the school. A search is reasonable in scope when it is reasonably related to the objectives of the search and is not excessively intrusive in light of the age and sex of the student and the nature of the suspected infraction.

A personal search may include requiring a student to be scanned with a metal detector.

A pat down search of a student may only be conducted if a school administrator has established a high level of reasonable suspicion that evidence will be found to corroborate suspicion that a law or school rule has been broken. If a pat down search of a student's person is conducted, it will be conducted in private by a school official of the same sex and with an adult witness of the same sex present.

Strip searches involve an extreme intrusion to the rights of a student and may only be conducted when an extremely serious situation exists requiring immediate action because of an imminent threat of death or great bodily injury to a person or persons. If a strip search is necessary the school official should contact the

appropriate law enforcement official, and the search should be conducted by a sworn law enforcement officer of the same sex, in the presence of a same sex adult witness. School officials may only conduct a strip search in cases where it is necessary to avoid the imminent threat of death or great bodily injury to the student or another person. If a strip search must be conducted by a school official, it must be by a same sex official with a same sex adult witness, and the school official must have the prior approval of the superintendent or his designee, unless the health or safety of the student is endangered by the delay.

LOCKER SEARCHES

Student lockers are school property and remain at all times under the control of the school; however, students are expected to assume full responsibility for the security of their lockers and are responsible for the content of their assigned locker at all times. Periodic general inspections of lockers may be conducted by school authorities for any reason, at any time without notice, without student consent, and without a search warrant.

AUTOMOBILE SEARCHES

Students are permitted to park on school premises as a matter of privilege, not of right. The school retains authority to conduct routine patrols of student parking lots and inspections of the exteriors of student automobiles on school property. The interiors of student vehicles may be inspected whenever a school official has reasonable suspicion to believe that the student has violated or is about to violate the law or a school rule and that the search will yield evidence of the violation, or that illegal or unauthorized materials or other evidence of illegal or otherwise prohibited activities are contained inside the automobile. Such patrols and inspections may be conducted without notice, without student consent, and without a search warrant.

COMPUTER SEARCHES

The school computer system, as defined in Policy GAB/IIBEA Acceptable Computer System Use, is school property. Students are only authorized to use school computers and other similar educational technology consistent with the educational mission of the school and in accordance with Policy IIBEA Acceptable Computer System Use. School officials may search school computers, software and internet access records at any time for any reason and without student consent.

CONSENT SEARCHES

If a student gives a school official consent for a search the school official does not need to demonstrate reasonable suspicion. A student's consent is only valid if given willingly and with knowledge of the meaning of consent. Students should be told of their right to refuse to be searched, and students must not perceive themselves at risk of punishment for refusing to grant permission for the search.

SEIZURE OF ILLEGAL MATERIALS

If a properly conducted search yields illegal or contraband materials, such findings shall be turned over to proper legal authorities for ultimate disposition.

STUDENT SUSPENSION/EXPULSION

I. DEFINITIONS

As used in this Policy, "Alternative education program" shall include, but shall not be limited to, night school, adult education, or another education program designed to offer instruction to students for whom the regular program of instruction may be inappropriate.

II. SUSPENSIONS AND EXPULSIONS OF STUDENTS GENERALLY

Pupils may be suspended or expelled from attendance at school for sufficient cause; however, in no case may sufficient cause for suspension include only instances of truancy.

Except as provided in subsection C of Va. Code § 22.1-277 or Va. Code §§ 22.1-277.07 or 22.1-277.08, no student in preschool through grade three is suspended for more than three school days or expelled from attendance at school, unless (i) the offense involves physical harm or credible threat of physical harm to others or (ii) the School Board or the superintendent or superintendent's designee finds that aggravating circumstances exist, as defined by the Virginia Department of Education.

Any student for whom the division superintendent of the school division in which the student is enrolled has received a report pursuant to Va. Code § 16.1-305.1 of an adjudication of delinquency or a conviction for an offense listed in subsection G of Va. Code § 16.1-260 may be suspended or expelled from school attendance.

The authority of teachers to remove students from their classes in certain instances of disruptive behavior shall not be interpreted to affect the operation of this Policy.

The superintendent is responsible for creating procedures to ensure that suspended students are able to access and complete graded work during and after the suspension.

III. SHORT-TERM SUSPENSIONS

A pupil may be suspended for not more than ten school days by either the school principal, any assistant principal, or, in their absence, any teacher. The principal, assistant principal, or teacher may suspend the pupil after giving the pupil oral or written notice of the charges against him and, if he denies them, an explanation of the facts as known to school personnel and an opportunity to present his version of what occurred. In the case of any pupil whose presence poses a continuing danger to persons or property, or whose presence is an ongoing threat of disruption, the pupil may be removed from school immediately and the notice, explanation of facts, and opportunity to present his version shall be given as soon as is practical thereafter.

Upon suspension of any pupil, the principal, assistant principal, or teacher responsible for such suspension shall report the facts of the case in writing to the division superintendent or his designee and the parent of the pupil suspended. The division superintendent or his designee shall review forthwith the action taken by the principal, assistant principal, or teacher upon a petition for such review by any party in interest and confirm or disapprove such action based on an examination of the record of the pupil's behavior.

The decision of the division superintendent or his designee is final and may not be appealed.

Any oral or written notice to the parent of a student who is suspended from school attendance for not more than ten days shall include notification of the length of the suspension, information regarding the availability of community-based educational programs, alternative education programs or other educational options, and of the student's right to return to regular school attendance upon the expiration of the suspension. The costs of any community-based educational program, or alternative education program or educational option, which is not a part of the educational program offered by the school division, shall be borne by the parent of the student.

IV. LONG-TERM SUSPENSION

A pupil may be suspended from attendance at school for 11 to 45 days after written notice is provided to the pupil and his parent of the proposed action and the reasons therefor and of the right to a hearing before the School Board Disciplinary Committee. The Disciplinary Committee may confirm or disapprove the suspension. If the Disciplinary Committee's decision is not unanimous, the pupil or his parents may appeal the Disciplinary Committee's decision to the full School Board. Such appeal shall be decided by the school board within thirty days.

The written notice of a suspension for 11 to 45 school days includes notification of the length of the suspension and shall provide information concerning the availability of community-based educational, alternative education, or intervention programs. Such notice shall also state that the student is eligible to return to regular school attendance upon the expiration of the suspension or to attend an appropriate alternative education program approved by the school board during or upon the expiration of the suspension. The costs of any community-based educational, alternative education, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his suspension shall be borne by the parent of the student.

A long-term suspension may extend beyond a 45-school-day period but shall not exceed 364 calendar days if (i) the offense is one described in Va. Code §§ 22.1-277.07 or 22.1-277.08 or involves serious bodily injury or (ii) a committee of the School Board or the division superintendent or superintendent's designee finds that aggravating circumstances exist, as defined by the Virginia Department of Education.

Nothing herein shall be construed to prohibit the school board from permitting or requiring students suspended pursuant to this section to attend an alternative education program provided by the school board for the term of such suspension.

V. EXPULSION

A. Generally

Pupils may be expelled from attendance at school after written notice to the pupil and his parent of the proposed action and the reasons therefor and of the right to a hearing before the school board Disciplinary Committee in accordance with the regulations of the school board.

The School Board Disciplinary Committee may confirm or disapprove the expulsion of a student. If the Committee's decision is not unanimous, the pupil or his parent may appeal the Committee's decision to the full School Board. Such appeal is decided by the School Board within 30 days.

The Committee confirms or disapproves of proposed expulsions regardless of whether the pupil has exercised the right to a hearing.

The written notice given to the pupil and his parent shall include notification of the length of the expulsion and shall provide information to the parent of the student concerning the availability of community-based educational, training, and intervention programs. The notice shall also state whether or not the student is eligible to return to regular school attendance, or to attend an appropriate alternative education program approved by the school board, or an adult education program offered by the school division, during or upon the expiration of the expulsion, and the terms or conditions of such readmission. The costs of any community-based educational, training, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his expulsion shall be borne by the parent of the student.

Nothing in this Policy shall be construed to prohibit the school board from permitting or requiring students expelled pursuant to this Policy to attend an alternative

education program provided by the school board for the term of such expulsion.

If the school board determines that the student is ineligible to return to regular school attendance or to attend during the expulsion an alternative education program or an adult education program in the school division, the written notice shall also advise the parent of such student that the student may petition the school board for readmission to be effective one calendar year from the date of his expulsion, and of the conditions, if any, under which readmission may be granted.

B. Conduct Giving Rise to Expulsion

Recommendations for expulsions for actions other than those specified below shall be based on consideration of the following factors:

- the nature and seriousness of the conduct;
- the degree of danger to the school community;
- the student's disciplinary history, including the seriousness and number of previous infractions;
- the appropriateness and availability of an alternative education placement or program;
- the student's age and grade level;
- the results of any mental health, substance abuse, or special education assessments;
- the student's attendance and academic records; and
- other appropriate matters.

No decision to expel a student shall be reversed on the grounds that such factors were not considered. Nothing in this subsection shall be deemed to preclude a school board from considering any of the factors listed above as "special circumstances" for purposes of expulsions discussed in the following subsections.

1. Firearms, Destructive Devices and Pneumatic Guns

The school board shall expel from school attendance for a period of not less than one year any student whom such school board has determined to have possessed a firearm on school property or at a school-sponsored activity as prohibited by Va. Code § 18.2-308.1, or to have possessed a firearm or destructive device as defined in this policy, a firearm muffler or firearm silencer, or a pneumatic gun as defined in this policy on school property or at a school-sponsored activity. A school administrator, pursuant to school board policy, or a school board may, however, determine, based on the facts of a particular situation, that special circumstances exist and no disciplinary action or another disciplinary action or another term of expulsion is appropriate. The School Board may promulgate guidelines for determining what constitutes special circumstances. In addition, the School Board may, by regulation, authorize the superintendent or superintendent's designee to conduct a preliminary review of such cases to determine whether a disciplinary action other than expulsion is appropriate. Nothing in this policy shall be construed to require a student's expulsion regardless of the facts of the particular situation.

The exemptions set out in Va. Code § 18.2-308 regarding concealed weapons shall apply, *mutatis mutandis*, to the provisions of this Policy. The provisions of this policy shall not apply to persons who possess such firearm or firearms as a part of the curriculum or other programs sponsored by the schools in the school division or any organization permitted by the school to use its premises or to any law-enforcement officer while engaged in his duties as such.

2. Drug Offenses

The school board shall expel from school attendance any student whom the school board has determined to have brought a controlled substance, imitation controlled substance, or marijuana as defined in Va. Code § 18.2-247, or synthetic cannabinoids as defined in Va Code § 18.2-248.1:1 onto school property or to a school-sponsored activity. The school board may, however, determine, based on the facts of the particular case, that special circumstances exist and another disciplinary action is appropriate. In addition, the School Board may, by regulation, authorize the superintendent or the superintendent's designee to conduct a preliminary review of such cases to determine whether a disciplinary action other than expulsion is appropriate. Nothing in this policy shall be construed to require a student's expulsion regardless of the facts of the particular situation.

C. Procedure for School Board Disciplinary Committee Hearing

The procedure for the Disciplinary Committee hearing shall be as follows:

- The Disciplinary Committee shall determine the propriety of attendance at the hearing of persons not having a direct interest in the hearing. The hearing shall be private unless otherwise specified by the Disciplinary Committee.
- The Disciplinary Committee may ask for opening statements from the principal or his representative and the student or his parent(s) (or their representative) and, at the discretion of the Disciplinary Committee, may allow closing statements.
- The parties shall then present their evidence. Because the principal has the ultimate burden of proof, he shall present his evidence first. Witnesses may be questioned by the Disciplinary Committee members and by the parties (or their representative). The Disciplinary Committee may, at its discretion, vary this procedure, but it shall afford full opportunity to both parties for presentation of any material or relevant evidence and shall afford the parties the right of cross-examination provided, however, that the Disciplinary Committee may take the testimony of student witnesses outside the presence of the student, his parent(s) and their representative if the Disciplinary Committee determines, in its discretion, that such action is necessary to protect the student witness.
- The parties shall produce such additional evidence as the Disciplinary Committee may deem necessary. The Disciplinary Committee shall be the judge of the relevancy and materiality of the evidence.
- Exhibits offered by the parties may be received in evidence by the Disciplinary Committee and, when so received, shall be marked and made part of the record.
- The Disciplinary Committee may, by majority vote, uphold, reject or alter the recommendations.
- The Disciplinary Committee shall transmit its decision, including the reasons therefor, to the student, his parent(s), the principal and superintendent.

Following the decision of the Disciplinary Committee or upon expiration of the appeal period, the student's parent(s) or guardian shall be provided with written notice which shall include the following:

- The terms or conditions of re-admission, if any;
- The duration of expulsion;
- A statement declaring whether the student is eligible to return to school or attend an appropriate alternative education program approved by the School Board or an adult education program offered by the division during or after the expulsion. If neither option applies, a statement that the student may petition the School Board for readmission after one calendar year from the date of his expulsion; and
- The availability of community-based educational, training and intervention programs.
- The student or his parent(s) may appeal the committee's decision to the full School Board only if the decision of the Disciplinary Committee is not unanimous. Otherwise the decision of the Disciplinary Committee is final.

The appeal to the full School Board must be in writing and must be filed with the superintendent within five (5) calendar days of the committee's decision. Failure to file a written appeal within the specified time will constitute a waiver of the right to an appeal. The full School Board will decide the appeal upon the record of the case within thirty (30) calendar days of the request for an appeal and communicate its decision in writing to the student and his parent, guardian, or other person having control or charge of the student. Such written notice shall include any changes in: (1) the duration of the suspension; (2) the availability of community-based

educational, training, and intervention programs; and/or (3) eligibility to return to school or attend an alternative education program. No statements, witnesses or evidence may be presented at this appeal unless specifically requested by the Chairman of the Board.

VI. ALTERNATIVE EDUCATION PROGRAM

The school board may require any student who has been (1) charged with an offense relating to the laws of Virginia, or with a violation of school board policies, on weapons, alcohol or drugs, or intentional injury to another person, or with an offense that is required to be disclosed to the superintendent of the school division pursuant to Va. Code § 16.1-260.G; (2) found guilty or not innocent of an offense relating to Virginia's laws on weapons, alcohol, or drugs, or of a crime that resulted in or could have resulted in injury to others, or of an offense that is required to be disclosed to the superintendent of the school division pursuant to Va. Code § 16.1-260.G.; (3) found to have committed a serious offense or repeated offenses in violation of school board policies; (4) suspended pursuant to Va. Code § 22.1-277.05; or (5) expelled pursuant to Va. Code § 22.1-277.06, 22.1-277.07, or 22.1-277.08 or subsection B of Va. Code § 22.1-277, to attend an alternative education program. The School Board may require such student to attend such programs regardless of where the crime occurred. The School Board may require any student who has been found to have been in possession of, or under the influence of, or drugs or alcohol on a school bus, on school property, or at a school-sponsored activity in violation of school board policies, to undergo evaluation for drug or alcohol abuse, or both, and, if recommended by the evaluator and with the consent of the student's parent, to participate in a treatment program.

The School Board authorizes the superintendent or superintendent's designee to require students to attend an alternative education program consistent with the provisions of this section after (i) written notice to the student and the student's parent that the student will be required to attend an alternative education program and (ii) notice of the opportunity for the student or the student's parent to participate in a hearing to be conducted by the superintendent or the superintendent's designee regarding such placement. If the student or parent wants to participate in a hearing regarding the placement, the student or parent must notify the superintendent or superintendent's designee within five (5) days of receiving the written notice of the student's assignment to the alternative education program. The decision of the superintendent or superintendent's designee regarding such alternative education placement is final unless altered by the Board upon written petition by the student or student's parent for a review of the record by the School Board. Such petition must be received by the superintendent or superintendent's designee within five (5) days after receiving written notice of the decision after the hearing.

A principal (or his designee) may impose a short-term suspension, pursuant to Va. Code § 22.1-277.04, upon a student who has been charged with an offense involving intentional injury enumerated in Va. Code § 16.1-260.G, to another student in the same school pending a decision as to whether to require that such student attend an alternative education program.

As used herein, "charged" means that a petition or warrant has been filed or is pending against a pupil.

VII. REPORTING

- A. Except as may otherwise be required by federal law, regulation, or jurisprudence, reports shall be made to the division superintendent and to the principal or his designee on all incidents involving
- (1) the assault, or assault and battery, without bodily injury, of any person on a school bus, on school property, or at a school-sponsored activity;

 - (8) the arrest of any student for an incident occurring on a school bus, on school property, or at a school-sponsored activity, including the charge therefor and
 - (9) any illegal possession of weapons, alcohol, drugs, or tobacco products.
- B. The division superintendent and the principal or his designee may receive reports made by local law enforcement authorities on offenses, wherever committed, by students enrolled at the school if the offense would be a felony if committed by an adult or would be a violation of the Drug Control Act, Va. Code § 54.1-3400 et seq., and occurred on a school bus, on school property, or at a school-sponsored activity, or would be an adult misdemeanor involving any incidents described in the clauses (1) through (8) of subsection VII.A. of this policy, and whether the student is released to the custody of his parent or, if 18 years of age or more, is released on bond. A superintendent who receives notification that a juvenile has committed an act that would be a crime if committed by an adult pursuant to subsection G of Va. Code § 16.1-260 shall report such information to the principal of the school in which the juvenile is enrolled.

In addition, except as may be prohibited by federal law, regulation, or jurisprudence, the principal shall also immediately report any act enumerated in clauses (2) through (5) of subsection VII.A. of this policy that may constitute a criminal offense to the parents of any minor student who is the specific object of such act. Further, the principal shall report that the incident has been reported to local law enforcement, pursuant to this subsection and if the incident is so reported, that the parents may contact local law enforcement for further information, if they so desire.

- G. For purposes of this section, "parent" or "parents" means any parent, guardian or other person having control or charge of a child.

VIII. RE-ADMISSION OF SUSPENDED AND/OR EXPELLED STUDENTS

Any student who has been suspended from a school of this division is not eligible to attend any other school within the division until eligible to return to his or her regular school.

Any student who has been expelled or suspended for more than thirty days from attendance at school by a school board or a private school in this Commonwealth or in another state or for whom admission has been withdrawn by a private school in this Commonwealth or in another state may be excluded from attendance in the Scott County Public Schools, in accordance with Policy JEC (G). In the case of a suspension of more than thirty days, the term of the exclusion may not exceed the duration of such suspension.

In excluding any such expelled student from school attendance, the local school board may accept or waive any or all of any conditions for readmission imposed upon such student by the expelling school board pursuant to Va. Code § 22.1-277.06. The excluding school board shall not impose additional conditions for readmission to school.

No suspended student shall be admitted to the regular school program until such student and his parent have met with school officials to discuss improvement of the student's behavior, unless the school principal or his designee determines that re-admission, without parent conference, is appropriate for the student.

If the parent fails to comply with this policy or Policy JEC, the School Board may ask the Juvenile and Domestic Relations Court to proceed against the parent for willful and unreasonable refusal to participate in efforts to improve the student's behavior.

Upon the expiration of the exclusion period for an expulsion or a withdrawal of admission, which period shall be established by the school board, committee thereof, or superintendent or his designee, as the case may be at the relevant hearing, the student may re-petition the school board for admission. If the petition for admission is rejected, the school board shall identify the length of the continuing exclusion period and the subsequent date upon which such student may re-petition the school board for admission.

The school board may permit students excluded pursuant to this subsection to attend an alternative education program provided by the school board for the term of such exclusion.

IX. DISCIPLINING STUDENTS WITH DISABILITIES

Students with disabilities shall be disciplined in accordance with Policy JGDA.

Dear Parent/Guardian:

The Scott County School Board offers your child the use of electronic communications through the Scott County School Division's computer system.

Your child will be able to communicate with other schools, colleges, organizations and individuals around the world through the Internet and other electronic information systems/networks.

Part of the School Division's responsibility in preparing students for the 21st century is to provide them access to the tools they will be using as adults. The Internet will likely be one of these tools. Through the Division's computer system your child will have access to databases, libraries and computer services from all over the world. We accept the responsibility of teaching your child about his/her role as a "network" citizen and the code of ethics involved with this new community.

With this educational opportunity also comes responsibility on the part of your child. It is important that you and your child read the enclosed Division policy, administrative regulation and agreement form and discuss these requirements. The Division takes precautions to prevent access to inappropriate material. However, it is impossible to control access to all material and a user may access inappropriate material.

In order for your child to take advantage of this educational opportunity, your authorization is needed. Following this letter is the **Acceptable Use Policy for Electronic Information, Services, and Networks** (GAB/IIBEA) **Agreement** which both you and your child must sign before your child may use the computer system. HOMELESS CHILDREN AND YOUTH

In compliance with the Federal mandates of the Stewart B. McKinney Homeless Assistance Act in conjunction with Virginia’s House Joint Resolution 181, Scott County Public Schools is required to identify “Homeless Children and Youth.”

Definitions are as follows:

Homeless Children – A homeless individual is one who lacks a fixed, regular and adequate nighttime residence, including but not limited to (McKinney-Vento Definition):

- sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason
- a primary nighttime residence that is not usually used for sleeping

Child and Youth – Persons who, if they were children of residents of the State, would be entitled to a free public education.

If a family lives in any of the following situations:

- In an emergency shelter, motel, vehicle, or campground
- On the street
- In an abandoned building, trailer, or other inadequate accommodations, or
- sharing housing due to loss of housing

Then their preschool-aged and school-aged children have certain rights or protections under the McKinney-Vento Homeless Education Assistance Act.

Children have the right to:

- Go to school, no matter where they live or how long they have lived there. They must be given access to the same public education, including preschool education, provided to other children.
- Continue in the school they attended before they became homeless or the school they last attended, if that is their choice and is feasible. If a school sends a child to a school other than the one requested, the school must provide a written explanation and offer the person the right to appeal the decision.
- Attend a school and participate in school programs with children who are not homeless. Children cannot be separated from the regular school program because they are homeless.
- Enroll in school without giving a permanent address. Schools cannot require proof of residency that might prevent or delay school enrollment.
- Enroll and attend classes while the school arranges for the transfer of school and immunization records or any other documents required for enrollment.
- Receive the same special programs and services, if needed, as provided to all other children served in these programs.
- Receive transportation to school.

When a homeless family moves, they should do the following:

- Contact the school district’s local liaison for homeless education (see phone number below) for help in enrolling their child in a new school or arranging for the child to continue in his or her former school. (Someone at a shelter, social services office, or the school can direct the parent or guardian to the person they need to contact.)
- Contact the school and provide any information they think will assist the teachers in helping the child adjust to new circumstances.
- Ask the local liaison for homeless education, the shelter provider, or a social worker for assistance with clothing and supplies, if needed.

SCOTT COUNTY PUBLIC SCHOOLS

Dear Parent or Guardian,

Your child's diet request for a milk substitution due to lactose intolerance cannot continue due to the change in USDA regulations.

The reason for the change:

USDA, the governing agency for the National Lunch Program, issued a rules change concerning milk substitutes (such as juice or water) for students with non-disabling conditions. The new regulations apply to students without disabilities. Lactose intolerance does not meet the definition of a disability in the USDA programs. The regulations recognizes the value contribution of milk to a child's diet and, therefore, does not allow a school to offer other beverages, such as juice, to substitute for milk in the school menu programs.

The only milk substitutes allowed under this rule for students without disabilities are nondairy beverages that meet the established nutrient requirements. Non-dairy beverages offered as fluid milk substitutes must be nutritionally equivalent to fluid milk, which means they must provide specific levels of calcium, protein, vitamins A and D, magnesium, phosphorus, potassium, riboflavin and vitamin B-12. Scott County Schools will not be offering nondairy milk substitutes.

What alternatives do I have to accommodate my child's needs for a fluid milk substitution due to lactose intolerance?

Our school system offers choices to students and you will see an increased availability of fruits and vegetables, including juice offered daily as a fruit/vegetable choice. Because our school participates in Offer vs. Serve, students can choose not to take milk with their meal as long as they have taken at least three other components of the meal such as meat, bread and fruit.

What if my child has a serious allergy to milk? What steps do I take to obtain a diet modification for my child?

If your child has a disability (such as an allergy to milk, which may result in anaphylaxis), a diet order from a physician is required. These orders from a physician, for the disabling conditions, must answer a series of questions in order to be implemented by the school.

The diet must:

- Identify the disability
- Explain why the disability restricts the child's diet
- Address the major life activity affected by the disability
- List the food or foods to be omitted from the child's diet and the food or choice of foods that must be substituted.

When a child has a disabling allergy to milk, diet order typically will include all potential sources of milk in the student's diet, not just fluid milk. (I.e. cheese and milk by-products such as casein/whey)

If you have any question or need further explanation regarding this letter, please contact me.
