

Hello Parents, and Welcome to Edgenuity!

We are genuinely excited that your student will be joining us to achieve real learning on a true educational adventure. Edgenuity provides an exciting, engaging experience that is designed to capture attention and draw students into the interactive world of online and blended learning.

Edgenuity has provided courses for students in sixth to twelfth grade since 1998, and through our experience with teachers, students, and parents, we built engaging and effective curriculum that connects science, math, language arts, social studies, and elective courses to your student's everyday world.

Using a combination of animations, simulations, video-led direct instruction, relevant websites, and a myriad of activities that support the lesson's topic, students have a wealth of information at their fingertips that can be reviewed as many times as necessary to achieve mastery. Edgenuity strongly believes that each student is unique and acquires information in his or her own way. As a result of that belief, our courses are designed to provide students with activities that support the ways they learn best: seeing, hearing, and touching the course materials.

To ensure that your student's experience with Edgenuity is successful, we wanted to introduce ourselves and provide information that will enable you to partner with us in this goal. Enclosed in this brief guide is some basic information on how to login to Edgenuity.

Thank you for joining us in our endeavor to provide engaging, relevant instruction to your student. It is our mission to not only help your student graduate, but also prepare him or her for a successful future.

### Student instruction video

We know that students will have many questions, and logging into a program that they are unfamiliar with can be extremely frustrating. Therefore we recommend the following YOUTUBE video to help our student succeed academically.

## Student Online Academic Recovery

Welcome to Scott County Schools SOAR Program.

Scott County Schools offers students distance learning opportunities through SOAR (Student Online Academic Recovery) Program Using academic curriculum from Edgenuity that is aligned to the Virginia standards of learning. Students may enroll and receive standard credits upon completion of courses. In addition, students may receive verified credits upon passing the SOL test corresponding to the courses completed. These courses present educational material to students using online resources, and the course is supervised by licensed teachers approved by the local school board. This program is available at no cost to students enrolled in Scott county Schools, and is designed to meet the needs of students who otherwise would not be able to take certain classes due to lack of availability or scheduling conflicts. Due to the current COVID-19 Pandemic, The SOAR Program can be used for high quality virtual learning experience for an entire semester schedule of classes.

Within the Edgenuity Program, students will have access to high quality instruction, activities, and evaluations. Both students and parents have access to the student's progress, current grade, hours remaining to completion, and communication to the teacher assigned to each course. Students can expect to invest an average of 100 hours to complete each course, So, Welcome and may your learning experience be a positive one!
