Mrs. McClelland stated members couldn't do that and couldn't discuss the item since it was not on the agenda for tonight's meeting. She stated that the item could be added to the September agenda. School Board Attorney Sturgill agreed. Mr. Meade pointed out that a school board attorney in the past (2004) informed the Board this could be done. Mr. Templeton agreed with addressing the matter again and questioned the validity of the vote since there was not a second to the vote listed in the draft minutes of the July 5 meeting. Mr. Campbell stated that he seconded the vote on the amendments to the coaching supplements at the meeting. Chairman Jessee requested that the Clerk and Deputy Clerk review the recorded minutes of the meeting in regard to the amendment of coaching supplements.

It was discussed that coaching supplements was not an item that was listed on tonight's agenda and after discussion the Board agreed to add the coaching supplements item to the agenda for the next meeting. **APPROVAL OF PARENT/STUDENT HANDBOOK AND CODE OF CONDUCT:** On the recommendation of Interim Superintendent Ferguson and on a motion by Mr. Meade, seconded by Mr. Campbell, all members voting aye, the Board approved the Parent/Student Handbook and Code of Conduct as submitted.

**APPROVAL OF FIXED ASSETS THRESHOLD:** Interim Superintendent Ferguson reminded the Board that the fixed assets threshold was previously set at \$2,000. He reported that on July 6, 2011, the Board of Supervisors set a new threshold at \$5,000 for the county and; therefore, he was recommending this new amount be set for the school division as well. On the recommendation of Interim Superintendent Ferguson and on a motion by Mr. Templeton, seconded by Mr. Meade, all members voting aye, the Board hereby sets the threshold for fixed assets at \$5,000.00.

**BUILDING SERVICES UPDATE:** Interim Superintendent Ferguson provided a Work Schedule Update for the building services. He stated once again that Robert Sallee, Director of Building Services, has all work orders available upon request.

Robert Sallee, Building Services Director, was requested to provide an update on the air conditioning for the Twin Springs High School Auditorium. Mr. Sallee reported that the air conditioning unit is a 1969 model and not easy to get parts for. He explained that a company is currently working on the project and further explained, in detail, that this is a timely project. He reported that even when the company has completed testing there is no guarantee that it can be fixed. He explained that an initial purchase order has been done in the amount of \$5,000.00 and further reported that if the unit is replaced with a new one in just the area he was speaking to them from, it would cost approximately \$17,000.00.

It was also discussed that the air conditioning is not working in the Scott County Career & Technical Center kitchen and Mr. Sallee was asked to get to this project as soon as possible.

**DISCUSSION OF REVENUE SHARING ALLOCATION (VIRGINIA DEPARTMENT OF TRANSPORTATION) FOR ASSISTING IN CONSTRUCTING SAFER ACCESS TO THE SPORTS COMPLEX:** Mr. Steve Buston, VDOT Land Use Director, informed the Board that \$1 million in revenue sharing (50% matching funds) is available once a plan of action is in place for safer access to the Sports Complex Facility. Mr. Buston referenced a letter sent to Interim Superintendent Ferguson (dated July 27, 2011), and explained the different options discussed in the meeting with Interim Superintendent Ferguson and Robert Sallee, Director of Building Services: (1) Build a bridge across Big Moccasin Creek to Route T619. (2) Build a vehicle/pedestrian bridge from school property to the complex. (3) Build turn lanes on Route 23 at Filter Plant Road. Mr. Buston also stated that there may be other options available to consider. He also explained that it may take more funding for the project than what was approved with the revenue sharing.

Some board members expressed that their feelings are that this is a VDOT project since there are several citizens living in that location deserving better and safer access to their property. Also, it was suggested that Mr. Buston discuss the matter with the county since it would be a gain for the county with the citizens needing better access to their property.

Mr. Buston explained that Mr. Sallee met with the engineer and began discussion on the revenue sharing project. He explained that funds are available for a two year timeframe and suggested working toward a time schedule and finding an option to pursue. Mr. Buston stated that the crossover on Rt. 23 is substandard but explained that they have them all across the Commonwealth.

Board members thanked Mr. Buston for his presentation but expressed a concern regarding the financial status the school division is already facing, jeopardizing employee positions, employee layoffs and explained that employees have not had a raise in three years and have been doing without what they deserve.

Chairman Jessee stated that this is an item that will be kept on the table but felt the Board could not move forward right now although it is something that is really needed. He stated that whether Scott County can proceed or not he hopes VDOT will take a hard look at the project. He thanked Mr. Buston for attending the meeting and bringing the matter to the Board.

**ADMINISTRATIVE STAFF REPORTS:** None.

**AMBER GOODE, SCHOOL NURSE COORDINATOR: PRESENTATION FROM WELLMONT HEALTH INSTITUTE:** Amber Goode, School Nurse Coordinator, reported that three years ago the school division began putting AEDs in the schools. She reported receiving a call from Rick McMurray, Wellmont Health Institute employee, regarding a donation of three AEDs to the school system. She explained that the

school locations chosen for the AEDs are Rye Cove Intermediate School, Nickelsville Elementary School and Dungannon Intermediate School.

Leslie Bishop and Rick McMurray, Wellmont Health Institute employees, explained that this is an effort toward assisting all schools in Scott County being prepared with AEDs and to make sure that the EMS in Scott County also has EKG capabilities available as well. School Nurse Coordinator Goode reported that this leaves Yuma, Hiltons and Fort Blackmore as the remaining schools needing AEDs. Wellmont Health Institute representatives will keep the school division in mind if they can assist in the future.

Chairman Jessee expressed thanks and appreciation for their generous donation.

**CLOSED MEETING:** Mrs. McClelland made a motion to enter into a closed meeting at 6:55 p.m. to discuss central office staff as provided in Section 2.2-3711A (1) of the Code of Virginia, as amended; motion was seconded by Mr. Campbell, all members voting aye.

On the recommendation of Mr. Smith and on a motion by Mrs. Blair, seconded by Mr. Templeton, all members voting aye, the Board approved the Concussion Guidelines for Parents and Student-Athletes Acknowledgement Form as follows:

## SCOTT COUNTY PUBLIC SCHOOLS

### Concussion Guidelines for Parents and Student-Athletes IMPORTANT INFORMATION—READ CAREFULLY

Effective July 1, 2011, Virginia's Student-Athlete Protection Act (Code of Virginia 22.1-271.5) requires Scott County Schools to provide a policy that provides for the identification and proper handling of suspected head concussions in student-athletes. The policy must also include an education component for students and their parents. Our goal is to ensure that our student-athletes are properly diagnosed, given adequate time to heal, and are given support until they are symptom free.

A **concussion** is a brain injury caused by trauma to the head, face, neck, or body which results in a temporary disruption of normal brain function. An athlete does not have to lose consciousness to suffer a concussion. It is important to note that concussions are unique and every concussion should be treated individually. There is no "cookie-cutter" approach to concussion management and each one will be dealt with depending on the symptoms experienced by the student-athlete.

Because concussions are unique to the individual they may manifest themselves differently in each person, but there are some common signs and symptoms to consider if a student-athlete is suspected of having a concussion. These include, but are not limited to:

- Headaches or pressure in the head
- Confusion
- Vomiting
- Dizziness
- Feeling sluggish or fatigued
- Numbness/tingling in arms or legs
- Balance problems
- Pupil changes (change in size or no reaction to light)
- Double vision
- Sensitivity to noise
- Sensitivity to light
- Feeling mentally "foggy" or groggy
- Difficulty concentrating
- Difficulty remembering
- Irritability
- Nervousness
- Changes in sleep patterns
- Drowsiness

Recognizing a concussion is essential to safe concussion management, but they can be exceptionally difficult to diagnose. Symptoms may occur immediately following the trauma to the head or they can occur hours or even days later. These symptoms can also last anywhere from a few minutes to several weeks. Any signs of a concussion should be reported immediately.

More serious signs and symptoms may be present or develop that require emergency medical attention. Seek immediate medical attention if your student-athlete reports any of the following:

- Headaches that worsen
- Repeated vomiting
- Seizures
- Neck pain
- Extreme drowsiness
- Significant irritability
- Unusual behavioral changes
- Slurred speech
- Weakness in arms/legs
- Numbness in arms/legs

Be aware that concussions can occur in any sporting activity, but most frequently in football, soccer, basketball, and baseball. However, **all athletes are at risk.**

Most athletes who experience a concussion can recover completely as long as they do not return to play prematurely. The effects of repeated concussions can be cumulative, and after a concussion, there is a period in which the brain is particularly vulnerable to further injury. If an athlete sustains a second concussion during this period, the risk of permanent brain injury increases significantly and the consequences of a seemingly mild second concussion can be very severe, and even result in death.

Therefore, any student-athlete suspected of having a concussion shall be immediately removed from the game/practice at that time and not return to play or practice until evaluated and cleared by an appropriate licensed health care provider. If a student-athlete is suspected of having a concussion and no health care professional is available to properly diagnose the situation then the student-athlete should be held out of competition until they can be properly evaluated. **If in doubt, they should sit out.**

According to Scott County Schools policy, athletes determined to have suffered a concussion may not return to play or practice on that same day. To return to play or practice they should no longer exhibit any of the signs of a concussion either at rest or *during exertion*, and receive a written medical release from an appropriate health care provider.

Once cleared, the athlete may proceed with activities as prescribed by an appropriate health care provider, to allow the proper recovery.

**Please remember that rest is the best treatment for a concussion.**

Please acknowledge your receipt, understanding, and agreement with this important information by signing below.

I have read and fully understand the information and risks associated with potential concussions while playing athletics in the Scott County School system.
