He suggested that for the Gate City site, a review be conducted for placing the display on the incline bank between Gate City High School and the northwest corner of the bridge.

Superintendent Baker commented on this being a worthy project and suggested that Mr. John I. Ferguson, Assistant Superintendent for Student Affairs & Operations, review cost for this project and check to see if contributions toward funding the project may be available from the high schools, individuals and boosters; and, report back at the next meeting. 2011 VIRGINIA INDEX OF PERFORMANCE AWARDS: GOVERNOR'S AWARD FOR EDUCATIONAL EXCELLENCE, BOARD OF EDUCATION EXCELLENCE AWARDS, BOARD OF EDUCATION COMPETENCE TO EXCELLENCE AWARDS AND BOARD OF EDUCATION RISING STARS AWARDS: Superintendent Baker reported that once again the school system and schools are being recognized by the Governor and the Virginia Board of Education. He further reported that once these official awards are received they will be presented and recognized at a future meeting. He pointed out that there were only eight school divisions, Scott County being one, earning the Board of Education Excellence Award. He commended the students, parents, etc. in regard to these achievements. He explained that the incentive program was created by the Board of Education in recognition of schools and divisions that achieve excellence goals and far exceed minimum state and federal accountability standards.

VIRGINIA STATE POLICE PARTNERSHIP: Superintendent Baker reported that due to the Virginia Department of Transportation closing of their office at the Moccasin Gap location in Weber City, the state police no longer had an office space available. He reported that an office space has been made available to them at the Gate City High/Middle School and that they will be assisting with the driver's education program and policing services since they will be at the school. He reported that the school system has also offered them satellite offices at both Twin Springs and Rye Cove High Schools. He reported that the state police officers will be available in the schools to work with the School Resource Officers, school safety access to the buildings, assist in putting together a crisis plan and run a mock disaster crisis. He expressed that he is very pleased to have their services available to the school system.

2011-2012 PROPOSED SCHOOL BUDGET: Superintendent Baker reported that not much is known at this point in regard to figures for the 2011-2012 Proposed School Budget. He explained that the General Assembly is scheduled to adjourn on February 26. He further reported that a budget work session will be held following the March regular school board meeting. He also reported that not all revenue from the Federal Education Jobs Fund will be spent this year and part of the funding will be carried over for next year's budget to help save jobs once again. He reported that he plans to attend the Board of Supervisors meeting scheduled to be held tomorrow.

HEALTH INSURANCE: Superintendent Baker reported that health insurance information is being collected, an independent consultant is reviewing items, including the health insurance contract with Anthem, an assessment is being done on who pays what and who is not; and, that more information is expected to be received during this month. He explained the need to continue to work on this issue and hopefully have an answer and recommendation at the March meeting.

A school bus driver asked about health insurance being made available to the school bus drivers.

Superintendent Baker spoke on the budget situation and a need to keep jobs for the current employees, maintaining the buildings, provide what is needed for the instructional program and updating the textbooks but stated he would ask that the matter be reviewed. He commented that he would like to have known this was done for the school bus drivers prior to the current budget situation.

SPORTS COMPLEX UPDATE: Superintendent Baker reported that he is uncertain about the use of the Sports Complex for spring due to the winter weather. He further reported that, if spring comes early, work can proceed; but, he explained that with the weather as it has been, the concession stand project is currently on hold. Superintendent Baker was asked to provide another update at the March meeting.

SCHOOL VISION AND STEERING COMMITTEE: Superintendent Baker reported that he has appointed 25 people to serve on the Vision and Steering Committee and among this group are former and current board members. He stated that a current board member serving on the committee is Mrs. McClelland. He further reported that Dr. Kellie Johnson, Assistant Superintendent for Human Resources and Student Achievement, and Amy Sallee, Weber City Elementary School Assistant Principal/Grant Writing and Strategic Planning, will be co-chairing this committee and will hold their first meeting on February 7th. He commented he is looking forward to their work, the results it will yield and their recommendations.

SCHOOL CALENDAR – INCLEMENT WEATHER: Superintendent Baker reported that one question he has received in emails and everywhere he goes is about the makeup days missed for the inclement weather. He commented that although this school division has missed 14 days so far, it is ahead of some of the neighboring counties. He further reported that, due to the uncertainty of the number of days the school division may still miss for inclement weather, a plan now would be premature and have to be changed again. He explained that there are several built in days that can be used for snow days and that the law requires schools to attend for 180 days or 990 instructional hours. He explained that if you look at the number of instructional hours that the school system puts in each day at the schools then there are several built in snow days that are available to use for inclement weather.

Superintendent Baker reported that according to the Code of Virginia 22.1-98 statute with regard to make up days, the first five days must be made up; and, after that, you can do two for one. He reported that the statute has been on the books for several years now and explained that because what was happening was that many school divisions in the southwest were going to the state board and asking, every year or, every other year, for a waiver since they were missing so many days. So he explained that the legislature's response to that was to pass a law that when you miss more than five days you can start doing the two for one or 990 instructional hours. He stated that he feels somewhat confident in saying that the school division will be using the 990 instructional hours to count time for this school year so that the schools, students, community and faculty won't be going to school all summer. He further stated that he has to be reasonable with what he recommends to the Board with all the stakeholders, being our students, faculty, community, parents and also within our educational mission. He stated that we don't want to cut it short and we won't cut it short but we have to be reasonable in using some of this time that we have because we have missed a significant number of days.

Superintendent Baker reported that the other question he has received is about spring break. He reported that according to the calendar being operated on that was approved by the Board for this year, with the 14 days missed, the spring break is over and cancelled. However, he commented that he didn't want to say that it is the final word. He also commented that it is highly unlikely that there would be a week of spring break. He explained that depending on how many days are missed in February, he will be able to come back to the Board in March with a more definite plan of how to make up days, when school ends and whether or not there would be any spring break at all. He commented that he wants folks to understand the end result is not as bad as it seems because there are some built in days and hours already in the calendar.

Mrs. McClelland explained a need to maybe go ahead and consider setting high school graduation dates. Superintendent Baker will review the matter with administrative staff and check on having dates for the next meeting.

MAINTENANCE WORK SCHEDULE UPDATE: Mr. John I. Ferguson, Assistant Superintendent for Student Affairs & Operations, recognized Mr. Robert Sallee, Director of Building Services, in the audience and reported that he and Mr. Sallee met and reviewed specific needs for the school division. Mr. Ferguson presented a work schedule update to the school board members detailing building services needs. Dr. Johnson explained that Annette Parker, school board office employee who already has experience working in the schools and has worked with Cindy Dorton in the past, will be extending her services at Shoemaker Elementary School due to a family situation at the school.

REPORT ON HIGHLY QUALIFIED: Dr. Kellie Johnson, Assistant Superintendent for Human Resources and Student Achievement, reported that according to the state report the number of highly qualified teachers in the school system has increased and is moving toward 100% with the number currently being at 98%. She further reported that the number of teachers that are not highly qualified do not teach in core areas.

REPORT ON DIRECT DEPOSIT: Mrs. K.C. Linkous, Human Resources Manager, reported that the majority of school system employees have direct deposit. She provided board members with a quote for the software for emailing direct deposit and a yearly maintenance fee. She also provided them with a current breakdown of employees on payroll, number on direct deposit and the average number of employees receiving checks. She also reported on the annual cost for the letterhead for printing paystub statements, letterhead envelopes, address labels, cost of checks, postage to mail retiree (ERIP) direct deposits. She stated that she would discuss with the Accounting Clerk at the County Offices and Mrs. Kathie Noe, Acting County Administrator, whether the county may be interested in making this a county wide project and assisting in the purchase of the software needed for emailing direct deposit.

Mrs. Linkous reported that there are 39 full time cafeteria employees. She informed the Board that she has checked with the school board's financial institution and has been assured that the cafeteria fund can be housed there and falls under the same category as the county's finances, which waives all fees for state and government entities. She further reported that the cafeteria fund is being analyzed by the head of a government team in Richmond and expects a report back by the middle of February; therefore, she should have information to provide an update at the March meeting.

Superintendent Baker expressed thanks to Mrs. Linkous for the hard work and beneficial information. Mrs. Linkous expressed thanks to Mrs. Phyllis Hunley, Accounting Clerk, for her assistance with this matter.

CLOSED MEETING: Mrs. McClelland made a motion to enter into a closed meeting at 7:02 p.m., to discuss teachers and nurses according to Section 2.2-3711A(1) of the Code of Virginia, as amended; motion was seconded by Mr. Templeton, all members voting aye.
