He expressed that it is absolutely impossible to honor all of the faculty and staff, in this sort of way. He further expressed that what the school board and central office wants those present and everyone to understand is that the people that are being honored have been chosen from the schools themselves and exemplify the great job that they do and their colleagues as well. He further stated that these people are going to accept the awards, obviously, on behalf of themselves and their good work; but, also on behalf of the good work and dedication of the entire faculty and staff of the schools being honored. He explained that the school board meetings are being moved around to the various schools and that the first meeting tonight being at the Gate City Middle/High School Complex there will be two awards for the middle school and two awards for the high school. He presented a brief biographical summary for each recipient along with awards as follows:

PUBLIC COMMENT: There was no public comment.

SUPERINTENDENT'S REPORT: Superintendent Baker commented that his first days as superintendent have gone well. He reported that he has worked on the structure and organization of the central office supervisors and staff, which he explained has been articulated and described to the office personnel. He also reported that beginning tomorrow Dr. Johnson, Mr. Ferguson and himself will be conducting faculty meetings that have been scheduled at all schools. He explained that they will be meeting with faculty and administrators to hear what they think is working well and what they think might need to be looked at. He stated that he is looking for 30 ideas in 30 days from faculty. He commented that the faculty is the key cog in education and stressed the importance of hearing and understanding their needs and a realization of their goals and objectives. He reported that the meetings will begin tomorrow and they will move forward as quickly as they can to all schools. He reported that he plans to hold three forums (Duffield area, Nickelsville area & Gate City/Weber City area) during January & February in which the secretaries, teaching assistants, custodians, cafeteria employees and maintenance employees can come (to their choice of attendance area) so that they can discuss their views with regard to the different positions they work in and what might be able to be done to help them. He reported that he also plans to meet with school bus drivers at a different time due to the timeframe of their bus runs. He further reported that he plans to meet with principals on Thursday of this week and assistant principals soon thereafter, probably week after next.

Superintendent Baker expressed that now is a good time to think about establishing a Steering Committee to look at the overall mission and goals for the school system going forward. He stated that a change in leadership is a good time to assess some things overall. He further stated that he doesn't mean that the current vision and mission is not good because he does feel it is and worthy and noble. He expressed the

thought that it is the time to take a fresh look at the mission and vision for the short term and long term. He proposed that he would like to name a Steering Committee in the next couple of weeks and that they be tasked with looking at both short term and long term goals by bringing together in that committee all relevant stakeholders. He defined stakeholders as including parents, board members, teachers, staff, administrators, etc. to look at where the school system is headed. He explained that he would like to be able to give this committee that charge and have them report back to him in a relatively short, but reasonable time period, on the short term (1-3 year period) at least and continue on the long term (3-5 years). He expressed that he would like for the board to give its blessing on him doing this because he thinks it is a good time to assess the mission and vision overall and maybe it can be refined as the school system moves into this already second decade of the 21st century. He commented on how much education has changed in the past 10 years—not to mention how much it has changed in the last 30. He expressed that he felt this would be a worthy endeavor and the efforts would pay off for the school system in the long run.

On the recommendation of Dr. Kellie Johnson, Assistant Superintendent for Human Resources and Student Achievement, and on a motion by Mr. Campbell, seconded by Mr. Templeton, all members voting aye, the Board approved the employment of Amanda Mullins as a teaching assistant due to the retirement of two teachers at the end of the first semester.

BOARD MEMBER COMMENTS: Mr. Campbell asked if a determination has been made on the possibility of direct deposit for the school cafeteria employees. Mrs. Linkous reported that personnel were to get back to her with numbers but had not done so. She stated that she would request the information once again. It was discussed that direct deposit could be made mandatory for new hires.

Superintendent Baker stated that the direct deposit matter will be reviewed (fees charges, numbers feasible, etc.) and Mrs. Linkous will take care of obtaining the information needed and report on this at the next meeting. He explained that at next meeting it could be determined if the Board wants to participate in the direct deposit and then decide if they want to make it a part of the policy for new hires.

Chairman Jessee thanked the audience once again for their interest in attending the meeting. He also reminded them that the school board meetings are listed on the web and the hopes of seeing them at future meetings.
