DISCUSSION OF SCHOOL RE-ENTRY FOR THE 2020-2021 SCHOOL YEAR: (APPENDIX F):

Superintendent Ferguson and Assistant Superintendent Jason Smith informed the Board of the different plans of reopening schools and explained how the different options could work. Plan A would be an onsite learning opportunity for all students in which students would attend school Monday, Tuesday, Thursday and Friday from 8:30 a.m. until 2:00 p.m. in the afternoon. Wednesday would be a Remote Learning/Teacher Planning/School Cleaning instructional day and would allow deep cleaning of the schools. The remaining details are outlined in the attached Appendix F. Plan B would be an altered schedule where ½ students would attend onsite Monday/Tuesday and ½ students would be Thursday/Friday. Wednesday would be remote learning-Additional details also in Appendix F. Plan C would offer a Hybrid plan to include: if Virginia is in Phase 3-Prek-7th Grade would follow Plan A; and 8th Grade through 12th Grade would follow Plan B; If Virginia is in Phase 2-Pre-K-3, Special Ed. & EL students would follow Plan A; 4th Grade – 12th Grade would follow Plan D; Plan D: Remote Learning: Remote Learning provides complete remote learning for the Division. If Virginia is in Phase 1, Teachers would use online platforms including Virtual Virginia, Edgenuity, Google Classroom, etc.; Grades would be assigned to assignments; and a Feeding Program implemented. Mr. Jason Smith talked in detail about the Virtual VA learning and explained to the Board members what Edgenuity offered and answered questions from the Board regarding the virtual aspect of this summary. On this Summary there is an Option listed: Selected Virtual which would provide individualized virtual learning for medical fragile students or as requested by parents. This would be a Division led instruction via Virtual Virginia and Edgenuity with Grades assigned to assignments.

Mr. Will Sturgill, School Board Attorney, also spoke to the fact that transportation would be one of the biggest challenges facing the School System as plans are made to start school. Social distancing guidelines would need to be practiced for the best interest of every student. He reiterated that a plan is good to have in place but imperative to have a contingency plan in place and once the School Board's plan is in place and is sent to the VA Dept. of Health and the VA Dept. of Education that we seek those recommendations.

Mr. Smith and Mr. Ferguson emphasized to the Board that each school would need to utilize every available space in the school as a classroom to be able to social distance students properly and keep students safe. They spoke to the fact of masks being worn, face shields when appropriate and recommended and other safety measures, isolation rooms for students who may test positive. Other key points were talked about in regards to the students return to school.

Mr. Will Sturgill spoke to the fact that the School Board can ultimately choose to start with the plan that they feel is the best plan to start with and know that things are subject to transition for whatever is in the best interest of the students.

Mr. Smith did reemphasize that time is of the upmost importance to adopt a plan and that he felt like at some point that Virtual Learning would be a part of anything that they may choose. The Board discussed the different options and the pros and cons regarding each one of the plans and asked

questions of the recommendations the task force. After much discussion, the Board decided they needed more time to make an informed decision on the re-opening of school and to be able to do what they felt best for the students of Scott County.

The Attached document is an update to our instructional personnel's evaluation model. The Virginia Department of Education updated the summative ratings of each standard in January 2020. How student academic progress is met is the responsibility of local school boards provided that *Performance Standard 7: Student Academic Progress* is not the least weighted of the performance standards or less than 1 (10 percent); however, it may be weighted equally as one of the multiple lowest weighted standards.

We propose the following:

Board of Education Announces 2020 Exemplar Performance School Awards

RICHMOND, Va. — The state Board of Education today recognized 447 schools and six school divisions for high student achievement, continuous improvement or innovative practices under the board's exemplar performance school recognition program. The awards are based on performance and practice during 2018-2019 and prior years.

The recognized schools include 71 schools that earned the Board of Education Highest Achievement Award, 375 schools that earned the Board of Education Continuous Improvement Award and one school that earned the Board of Education Innovative Practice Award. The board also recognized six school divisions for innovative practices. In 2019, the first year of the exemplar performance program, 235 schools earned awards.

"The criteria for the exemplar performance awards are designed to incentivize schools to make the changes in instruction, policy, support services and practice required to make progress toward meeting the Board of Education's objective of achieving equity in opportunities and outcomes for all students," Board of Education President Daniel A. Gecker said. "The increase in the number of awards earned this year is evidence of the progress our schools were making toward this objective before the pandemic forced the closure of schools in March."

"I congratulate the principals, teachers, support professionals and students of all of these schools and divisions for the achievement, innovations and hard work recognized by these awards," Superintendent of Public Instruction James Lane said. "I believe the success of these schools and school divisions will inspire learning communities across the commonwealth as they plan for the reopening of school and prepare to meet the

instructional and social-emotional needs of students — especially students most impacted by the closure this spring.”

2020 Board of Education Innovative Practice Award

One school and six school divisions earned the Board of Education Innovative Practice Award. This is the first year the board has issued the award, which recognizes innovations implemented over the course of two academic years that improve student outcomes.

The board recognized Central Academy Middle in Botetourt County for innovative practices to elevate the quality and character of the school environment to create a positive atmosphere for learning and to reflect the norms, goals and values of the community. The six division-level awards for innovative practices are as follows

- Goochland County — For division-wide innovative practices to develop life-ready students through implementation of the Profile of a Virginia Graduate and the 5C's (critical thinking, creativity, communication, collaboration and citizenship)
- Hampton — For division-wide innovative practices to develop life-ready students through implementation of the Profile of a Virginia Graduate and the 5C's
- Newport News — For division-wide innovative practices in developing an integrated STEM approach to learning
- Shenandoah County — For division-wide innovative practices to develop life-ready students through implementation of the Profile of a Virginia Graduate and the 5C's
- Greene County — For division-wide innovative practices to retain high-quality teachers
- Roanoke — For division-wide innovative practices to close achievement gaps among vulnerable and/or minority student groups

Schools, divisions, and local school boards earn recognition for exemplary innovative practices based on the following criteria:

- School- or division-wide implementation for two full academic years of a new or creative evidence-based alternative to existing instructional or administrative practices aligned with one of the following priority areas:
 - Closing achievement gaps among vulnerable and/or minority student groups;
 - Developing an integrated STEM approach to learning;
 - Building genuine relationships with families to support overall family well-being and children's healthy development;
 - Enhancing technology infrastructure to increase student access to connected devices and the internet;
 - Elevating the quality and character of the school environment so that it reflects the positive and support norms, goals, and values of the community;
 - Retaining high-quality teachers; and
 - Developing life-ready students through implementation of the Profile of a Virginia Graduate and the 5 C's framework (skills in critical thinking, creative thinking, collaboration, communication, and citizenship); and

- Data provided by school or division demonstrate that the practice is meeting its objectives and is having a significant impact on outcomes for the targeted student population.

2020 Board of Education Highest Achievement Award

Schools recognized for highest achievement were "Accredited" during 2019-2020 (based on performance data from 2018-2019) and demonstrated high levels of success across all of school quality indicators, including success in narrowing achievement gaps.

Schools also had to meet the Level One accreditation benchmark for reading, mathematics, and science based on the student pass rate, not including growth or progress on assessments taken by English language learners. Schools must also have had no more than a 5% achievement gap, for schools with two student groups, or a 10% gap, for schools with three or more student groups, between the lowest-performing group and all other students in the school. In addition, schools must have achieved at Level One on all other applicable school quality indicators.

Scott County School Board

Resolution condemning racism and affirming the division's commitment to an inclusive school environment for all

WHEREAS, members of the Scott County School Board, as well as the Scott County Public Schools staff, are saddened and outraged by recent events that demonstrate the prejudice and injustice that persists in our country;

WHEREAS, racism and hate have no place in our schools or our society, and we must protect the Constitutional rights of every person who lives, works and learns in our community;

WHEREAS, we cannot be silent. We urgently must act to stop the racial injustice that harms and anguishes black people, who are our family, friends, neighbors, students, staff members and fellow Americans;

WHEREAS, we must listen. Those who have endured discrimination and intolerance deserve to be heard as they share the stories and truth about their experiences and feelings, and we must seek with great empathy to understand their challenges and their pain;

WHEREAS, we must learn. It is time to engage our community in meaningful and honest conversation about racial inequality, to build alliances with those committed to justice for all, and to work together to support our shared conviction that racism must end;

WHEREAS, we must lead. Each of us, individually and collectively, is responsible for creating and nurturing an anti-racist learning environment where every child is respected and valued for who they are, regardless of their skin color. We must actively acknowledge, address and prevent racial bias that occurs as a result of division policies, practices and actions; and

WHEREAS, we must do better. Our school division can be and will be a sanctuary of safety in our community and a beacon of light for the world, as we build and strengthen trust with those we serve, and we model the acceptance of all people.

THEREFORE, BE IT RESOLVED that we, members of the Scott County School Board, stand steadfast in our commitment to foster an inclusive educational environment where every student, teacher, support professional, parent and community member is treated with dignity and respect, as well as our commitment to continue fighting for racial justice and human and civil rights for all.

Approved by the Scott County School Board this 7th day of July, 2020.

Memo

To: School Board Members
From: Jason Smith, Assistant Superintendent
Date: July 7, 2020
Re: Evaluation Model

The attached is a proposed update to the Evaluation model. The previous model weighted Standard 7 at 40% of the overall summative evaluation. This will be in compliance with the updated Code of Virginia.

8. Principals shall rank the teacher's performance using the indicators in the checklist. The scale from 1 to 5 allows the evaluator the opportunity to score those areas that may be evident, but not strong. The scale is constructed so that a 1 is low and a 5 is high. The rating scale is as follows:

- 5 Exemplary level of performance
- 4 An exceeds the proficient level of performance
- 3 A proficient level of performance
- 2 This area needs improvement
- 1 Performance is unacceptable
- N/A Not observed

9. The principal shall average the ratings of the indicators. An overall average will be given to each of the seven categories which are: PROFESSIONAL KNOWLEDGE, INSTRUCTIONAL PLANNING, INSTRUCTIONAL DELIVERY, ASSESSMENT FOR STUDENT LEARNING, LEARNING ENVIRONMENT, PROFESSIONALISM, AND STUDENT ACHEIVEMENT. The teacher will receive an overall rating using the following rubric:

Teacher Performance Standard	Performance Rating	Percentage contribution to the summative rating	Weighted Contribution= (quantified performance rating * Percentage Contribution)
Standard 1		15%	
Standard 2		15%	
Standard 3		15%	
Standard 4		15%	
Standard 5		15%	
Standard 6		10%	
Standard 7		15%	
		Summative Rating (sum of weighted contributions)	

10. The teacher's overall summative rating will place them on a continuum from a 1-5. To determine the overall rating of the teacher, the following rating scale will be used:

Exemplary (4.5-5)	Exceeds Expectations (4-4.4)	Proficient <i>Proficient is the expected level of performance.</i> (3.0-3.9)	Developing/Needs Improvement (2.0-2.9)	Unacceptable (1-1.9)
