Good morning Robert,

I hope you are well!

We are still working through our internal processes, as well as working with our vendor on an estimate, so we do not yet have a timeline for this project. Once we do, we will be sure to share it.

Take care,
Christy

Christy,

Thank you for letting me know, that sounds great. I have talked with the Superintendent Mr. John Ferguson and we would like to move forward with the project.

If you can let us know the project timeline I would appreciate the information, this will allow the School Principal to know when contractors will be onsite to complete the work.

Thanks
Robert

Good afternoon Robert,

I hope you and your family are well!

We spoke to our vendor that handles the inspections and maintenance for the sites, which is also the same vendor that we will be using for decommissioning the sites. It is actually preferred to leave the shade structure. That said, we support your proposal!

Let me know if you have any questions.

Take care,

Subject: TVA-Owned Green Switch Site - Duffield Primary School

Good morning Mr. Rhoton & Mr. Sallee,

Powell Valley shared the questions below with TVA regarding the Duffield Primary solar array. Here are the answers.

- If the solar installation was physically retired, would the financial burden fall on Scott County Schools? If the solar array is retired, TVA will remove the equipment and restore the site to its previous state, before the project was installed.
- Christy had stated that the output of the installation had declined. By what percentage? The technology is 20+ years old and the average annual degradation rate is . 50%.
- Could the school system take possession of the array and keep it for the benefit of the shade it offers their picnic area, as well as a dry walkway to board busses? Yes – TVA is willing to convey the equipment **as-is** to the school. The equipment would be disconnected. If the school wanted to reconnect it as a behind-the-meter resource, they would need to have an electrical contractor rewire it and then get with PVEC to secure an interconnection agreement. The school would be responsible for any repairs or replacements of equipment to keep it operating.
- Who could they speak with concerning past maintenance or services performed on the array? TVA would convey the solar array **as-is** to the school and would share past maintenance records.
- They also had some general questions about keeping the installation up and running for educational and financial purposes. If the school elected to keep the solar array, TVA is willing to convey the equipment **as-is** to the school. The equipment would be disconnected. If the school wanted to reconnect it as a behind-the-meter resource, they would need to have an electrical contractor rewire it and then get with PVEC to secure an interconnection agreement. The school would be responsible for any repairs or replacements of equipment to keep it operating.

In 2000, TVA and Powell Valley installed a solar array at Duffield Primary School with plans to operate the site for 20 years, in support of our Green Power Switch program. The system directly connects to Powell Valley. This site has reached the end of its useful life and we would like to retire the system. There are two options on how to handle the retirement.

1. We can convey the equipment **as-is** to the school. The equipment would be disconnected. If the school wanted to reconnect it as a behind-the-meter resource, they would need to have an electrical contractor rewire it and then get with PVEC to secure an interconnection agreement. The school would be responsible for any repairs or replacements of equipment to keep the system operational. The output of the system has declined significantly so there may not be a good payback to the school for taking it over.
2. We can remove the equipment and restore the site to its previous state, before the solar was installed.

Please let us know which option you prefer – TVA convey the equipment to the school or TVA remove the equipment and restore the site to its previous state- as soon as possible.

Let us know if you have any questions.

Take care,
Christy

21st Century Community Learning Grants Support Academic Achievement and Equity

RICHMOND — The Virginia Department of Education is awarding 37 new grants to fund 21st Century Community Learning Centers in communities across the commonwealth. The grants range from \$50,000 to \$200,000 and will allow school divisions, faith-based organizations, and community groups to provide students with tutoring and enrichment activities that complement regular academic programs.

Community learning centers operate before and after school, during school breaks, Saturdays, and during summer vacation. The centers also provide educational services for families of participating children. Applicants for the grants were encouraged to consult with parents, community groups, businesses, arts and cultural organizations, and other youth development agencies to develop their applications and programs.

"The community learning centers funded with these grants will support the efforts of schools as they address the impact of the pandemic on students through accelerated instruction and extended learning, such as summer and after-school programs," Superintendent of Public Instruction James Lane said. "I would like to thank all of our new recipients for collaborating with partners in their communities and developing proposals for 21st Century Community Learning Centers that will help our schools and students fully recover."

The grant recipients and schools hosting new 21st Century Community Learning Centers in 2021-2022 are as follows:

- Alternatives, Inc. — Crittenden Middle, Hines Middle, Huntington Middle and Passage Middle in Newport News.
- Bedford County Public Schools — Liberty Middle in Bedford County.

VSBA BULLYING PREVENTION RESOLUTION

BE IT RESOLVED, by the County School Board of Scott County, Virginia, on October 5, 2021, as follows:

WHEREAS, school bullying has become an increasingly significant problem in the United States and Virginia; and,

WHEREAS, over twenty percent of the youth in the United States are estimated to be involved in bullying each year, either as a bully or as a victim; and,

WHEREAS, students who experience bullying are at increased risk for depression, anxiety, sleep difficulties, lower academic achievement, and dropping out of school; and,

WHEREAS, bullying can take many forms, including verbal, physical, and most recently in cyberspace, and can happen in many places on and off school grounds; and,

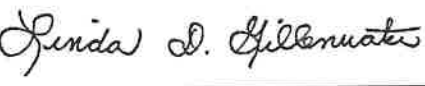

WHEREAS, it is important for Virginia parents, students, teachers, and school administrators to be aware of bullying, and to encourage discussion of the problem as a school community; and,

WHEREAS, the VSBA has developed a model policy on anti-bullying to encourage positive behaviors and to eliminate bullying behaviors; Now,

THEREFORE, the Virginia School Boards Association recognizes the month of October 2021 as VSBA Bullying Prevention Month, with the intention that the issue of bullying and its prevention be discussed in Virginia schools and classrooms during that time.

ASSESSMENT UPDATES 2021

Subpart A 1302.11(b)(2) of the Head Start Program Performance Standards requires programs to review and update the community assessment annually to reflect any significant changes, including increased availability of publicly-funded pre-kindergarten, rates of family and child homelessness, and significant shifts in community demographics and resources.

Job Expansion Opportunities

In December 2020, eHealth Technologies, a provider of medical record and image retrieval and clinical intelligence services announced it would bring 160 new jobs to Scott County through the establishment of a customer service center. In a press release issued by Governor Northam, he stated *“The growth of telehealth during the pandemic has created an increased demand for companies like eHealth Technologies. Southwest Virginia is proactively working with its higher education partners to equip the workforce with 21st-century skills, and this announcement is a reflection of that progress.”*

Additional employment opportunities have expanded within the county and surrounding counties during 2021. Little Caesars joined the food industry bringing in 35 jobs to the county. Bristol, Virginia, a neighboring county, opened an Amazon Distribution Center, bringing in hundreds of new jobs for the region with base pay beginning well above minimum wage.

The creation of these new jobs will further boost the county’s economy and provide more job opportunities for residents living within Scott County.

Increased Access to Higher Education, including Early Childhood

On March 29, 2021, Governor Ralph Northam signed legislation creating his signature “Get Skilled, Get a Job, Give Back” initiative, or “G3,” which makes tuition-free community college available to low and middle income students who pursue jobs in high-demand fields. The G3 program includes \$36 million to cover tuition, fees, books, and provide wraparound support for eligible students at the Commonwealth’s two-year public institutions, including Mountain Empire Community College. The designated programs fall into five targeted career areas that are in high demand in Virginia: Healthcare, Information Technology, Manufacturing and Skilled Trades, Early Childhood Education, and Public Safety.

Scott County has a poverty rate higher than the state and national averages. Combined with a low educational attainment rate, financial resources could create a barrier

for pursuing higher education opportunities. As a result of the G3 legislation, higher education is now more affordable and accessible to those residing in the service area. SCPSHS hopes to see an influx of qualified candidates eligible for early childhood education positions within the program. SCPSHS continues to collaborate with Mountain Empire Community College to recruit and enroll adult learners into the college's Early Childhood Education program. Staff have also increased personnel recruitment efforts through job fairs and providing education on the G3 initiative to program families.

Access to Nutritious Meals for Children during COVID-19

To assist in combating barriers to healthy food options, all children enrolled in Scott County Public Schools receive a free breakfast and lunch each day of the school year, including virtual learning days. This benefit for Scott County families is made possible through the USDA under their Community Eligibility Provision for school districts in low income areas.

The Pandemic Electronic Benefit Transfer (P-EBT) program was created by the federal government in the spring of 2020 to supplement school meals that students missed while schools were closed or placed on part-time attendance schedules due to COVID-19. All children enrolled in Scott County Public Schools were eligible for the P-EBT benefits due to their status under the USDA's Community Eligibility Provision. These benefits were issued in eight installments from March 2021 - August 2021 for a benefit period beginning October 2020. P-EBT funds were eligible for use at any store that accepts SNAP, including online platforms such as Amazon, Aldi, Food Lion, and Walmart.

Expansion of Program's Recruitment Efforts

With the push for in-person learning, and full enrollment effective January 2022, SCPSHS continues to utilize creative methods for recruiting. During the summer of 2021, SCPSHS partnered with our neighboring state to actively recruit within their service area. Due to our county's location and limited resources and industry, many within the community work, shop, and seek medical care across the state line. Expanding the program's recruitment efforts has increased SCPSHS's involvement and public relations in surrounding community events.

COVID-19 Ongoing Pandemic

An increase in COVID-19 cases within the Appalachian Highlands area has prompted, Ballad Health, the community's local healthcare system, to postpone all elective and non-

emergent surgeries as of August 26, 2021. Additionally, clinical and non-clinical personnel from the United States Army and National Guard have been working within the local hospitals to support the COVID-19 surge. Ballard Health continues to set new records for COVID-19 patients in their facilities. As of September 9, 2021, the regional positivity rate was 21.1%, with Ballard Health caring for 709 patients positive with, or under investigation for COVID-19. Of that total, five are children.

According to records received from the Virginia Department of Health, the percentage of the population fully vaccinated within Virginia is 57.5% with Scott County's vaccination rate at 39.7%. Since the start of the pandemic, the Virginia Department of Health has recorded over 2,000 positive COVID-19 cases within Scott County. SCPSHS continues to raise awareness and promote COVID-19 vaccinations within the community. The program recently collaborated with the Virginia Department of Health to provide a mobile vaccination clinic at the Head Start Central Office. Five individuals within the community were vaccinated during the event.

Minimum Wage Increase

On May 1, 2021, the Virginia Assembly passed legislation increasing the minimum wage within the Commonwealth from \$7.25 per hour to \$9.50 per hour. This has given residents within Scott County some assistance in recovering from the loss of employment and wages due to the ongoing pandemic. According to the Virginia Employment Commission, pandemic unemployment benefits (\$300 weekly payments and extended benefits for people who have run out of regular state unemployment) expired September 4, 2021. Scott County currently has an unemployment rate of 3.7%.

School Nutrition Program Payment/Debt Policy 2021-2022

1. Students will always be served a reimbursable meal (breakfast or lunch). No student will be denied a meal.
2. Students who charge will receive a reimbursable meal.
3. Students will not be made to work for their meal or to work to settle any unpaid meal charges. In addition, students will not be labeled with a hand stamp, sticker, wristband, or identified in any other way if they cannot pay for a meal or have an unpaid meal charge.
4. School employees will direct any communication relating to a school meal debt to the student's parent. Communication will be made by a letter addressed to the parent to be sent home with the student or phone call.
5. Balances (positive and negative) will be carried forward from year to year.
6. All cafeteria accounts have a \$25 charge limit. Students **may not** purchase a la carte items if they have a \$10.00 negative balance. (Bottled water, extra entrée, etc.)
7. All outstanding debt to the office and café must be paid in full.
8. When students have reached the maximum \$25.00 charge limit, the child's parents/guardians must be notified with a call from the school office. The office will cover the cost of meals for that day.
9. No charges for a la carte items will be allowed after May 1st for the remainder of the school year.
The following procedures will be followed for students with outstanding debts:
 - Weekly notification will be made to all students who have a debt. (School Messenger)
 - When debt reaches \$10, written notification should be sent to parents.
 - Manager will notify school office and central office in writing when debt reaches \$25.00.
10. SCPS will not file a lawsuit against a student or the student's parent because the student cannot pay for a meal at school or owes a school meal debt.

Parents are also encouraged to check their child's balance weekly at www.Myschoolbucks.com.

Parents/Guardians are also encouraged to sign up for online account at myschoolbucks.com in order to add money to their account, and view activity and balances

Re: Infectious Disease (COVID-19) Preparedness and Response Plan

Attached is the required Infectious Disease (COVID-19) Preparedness Response Plan. This Plan is required from the Virginia Department of Labor.

Scott County Public Schools

Infectious Disease (COVID-19) Preparedness and Response Plan

I. Purpose

This plan describes the implementation of mandatory health and safety requirements established by the Virginia Department of Labor and Industry as well as guidelines from the Virginia Department of Health and the Centers for Disease Control. It is required for all employers with employees covered by 16VAC25-220-50 and -60.

II. Responsibilities

Scott County Public Schools has assigned the following individual(s) to serve in the role of health officer. The health officer has the authority to stop or alter activities to ensure that all work practices conform to the mandatory safety and health requirements applicable to COVID-19 as well as any other infectious disease hazards.

Health Officer(s)			
Name	Title	Department	Phone Number
John I. Ferguson	Superintendent	Central Office	276-386-6118
Jason Smith	Asst. Superintendent	Central Office	276-386-6118
Tiffany Howard	Nurse Coordinator	SCCTC	276-386-6515

For the purpose of ensuring compliance with the most recent safety and health requirements, Jason Smith, Asst. Superintendent is responsible for administering this plan, monitoring agencies for new requirements, updating this plan, communicating any changes to employees, and monitoring the overall effectiveness of the plan. This person is also responsible for providing employees with a copy of this plan upon request.

III. Determination of Exposure Risk by Job Duty

We have determined the COVID-19 risks of all worksite functions to ensure that we apply appropriate hazard controls – including training, equipment, and personal protective equipment (PPE) – to protect employees' safety and health.

IV. Contingency Plan in the Event of an Infectious Disease Outbreak

In the event that an outbreak or pandemic due to an infectious disease, Scott County Public Schools has set up contingency plans for addressing the workplace needs as well as employee safety and health during the outbreak.

These plans are as follows:

- Communicate with local health department for guidance on mitigating the outbreak and access the CDC School Decision Tree for guidance on next steps
- Information may be relayed to the school community through the school systems automatic phone messaging system, the school pages, and email.
- Large gatherings are minimized whenever possible
- Employees are encouraged to maintain physical distance even when on break, as well as before and after working hours
- Physical distancing required for all
- Employee interactions with the general public are modified to allow for additional physical space between parties
- Assigned seats for students
- Limited class changes with mobile teachers when possible
- Signage used for the following
 - Handwashing
 - Symptoms of Coronavirus (COVID-19)
 - Social distancing
 - Directional flow of traffic in the buildings
- Isolation rooms for those showing symptoms
- Sanitation stations at main entry points and throughout the building as much as possible
- Use of digital assignments to reduce contact between people
- Daily student and staff health screenings
- Masks will be available for all staff and students
- Visitor access to the buildings will be restricted

V. Basic Infectious Disease Prevention and Control Measures

To control the spread of infectious diseases such as COVID 19, basic prevention and control measures must be implemented to ensure that all employees are protected against the hazards of infectious disease.

To control the spread of infectious disease it is important to keep up general housekeeping in the workplace. Additional housekeeping actions must also be implemented to ensure the safety and health of employees and decreasing the chances

of spread of an infectious disease such as: All restrooms, common areas that remain in use, door knobs/handles, tools, equipment, and other frequently touched surfaces are disinfected before, in the middle of, and at the end of each shift. All contact surfaces of vehicles used by more than one person are disinfected at the end of each person's use. All disinfectants are EPA-approved or otherwise comply with [CDC disinfection guidance](#)..

Additional precautions and actions to take are:

- Large gatherings are minimized whenever possible;
- Employees are encouraged to maintain physical distance even when on break,
- Employee interactions with the general public are modified to allow for additional physical space between parties.
- Isolation rooms for those showing symptoms
- Masks will be available for all staff and students
- Visitor access to the buildings will be restricted

VI. Identification and Isolation of Sick and/or Exposed Employees

Risk and exposure determinations are made without regard to employees protected characteristics as defined by local, state, and federal law.

Any health-related information and documentation gathered from employees is maintained confidentially and in compliance with state and federal law. Specifically, medical documentation is stored separate from employee's personnel documentation.

Employee Self-Monitoring and Return to Work

- a. Employees shall self-monitor for signs and symptoms of COVID-19 if employees suspect possible exposure or are experiencing signs or symptoms of illness.
- b. Serological testing, also known as antibody testing, is a test to determine if persons have been infected with SARS-CoV-2 virus. It has not been determined that persons who test positive for the presence of antibodies by serological testing are immune from infection.

- c. Serologic test results shall not be used to make decisions about returning employees to work who were previously classified as known or suspected to be infected with the SARS-CoV-2 virus. suspected or confirmed COVID-19.
- d. Serologic test results shall not be used to make decisions concerning employees who were previously classified as known or suspected to be infected with the SARS-CoV-2 virus suspected or confirmed COVID-19 about grouping, residing in, or being admitted to congregate settings, such as schools, dormitories, etc.

Employees who were themselves diagnosed with COVID-19 may only return to work upon confirmation of the cessation of symptoms and contagiousness, proof of which may be acquired via the test-based strategy or the non-test-based strategy.

The test-based strategy is preferred but relies upon the availability of testing supplies and laboratory capacity. Under this strategy, employees may discontinue isolation and return to work upon achieving the following conditions:

Resolution of fever without the use of fever-reducing medications;

Improvement in respiratory symptoms (e.g., cough, shortness of breath); and

Negative results of an FDA Emergency Use Authorized molecular assay for COVID-19 from two consecutive nasopharyngeal swab specimens collected at least 24 hours apart.

Return to work note from the Virginia Department of Health.

Under the non-test-based strategy, employees may discontinue isolation and return to work upon achieving the following conditions:

At least 3 days (72 hours) have passed since recovery defined as resolution of fever without the use of fever-reducing medications;

Improvement in respiratory symptoms (e.g., cough, shortness of breath); and

At least 10 days have passed since symptoms first appeared.

Return to work note from the Virginia Health District

Employees who come into close contact with or who may live with an individual with a confirmed diagnosis or symptoms may return to work after either 10 days have passed since the last close contact with the diagnosed and/or symptomatic individual.

VII. Procedures for Minimizing Exposure from Outside of Workplace

Scott County Public Schools' business practices are evaluated to ensure the safety and health of all individuals.

- In person meetings are made by appointment only
- Limit the number of individuals allowed into school facilities
- Minimize face to face contact
- Signage to remind visitors of 6-foot social distancing, symptoms of COVID-19, directional flow in the buildings, handwashing and sanitizing.

To minimize exposure from visitors or vendors:

- When possible, Scott County Public Schools will limit the number of visitors in the facility.
- Masks will be available to visitors/vendors as well as appropriate disinfectants so individuals can clean work areas before and after use.
- Any individual entering one of Scott County Public Schools' facilities may have their temperature checked and/or a questionnaire completed prior to entry.
- Information is posted at Scott County Public Schools' facilities educating individuals on ways to reduce the spread of COVID-19.
- Individual symptoms may be assessed of COVID-19 and individuals with symptoms will be removed from the workplace.

VIII. Training

All employees covered by this plan will be required to have training on the hazards and characteristics of SARS-CoV-2 virus and COVID-19 disease. This training will ensure that all employees recognize the hazards of SARS-CoV-2 and COVID-19 as well as the procedures to minimize the hazards related to the infectious diseases and help prevent the spread of the infectious disease.

The training material will cover the following:

- Requirements of the COVID-19 Regulation.
- Companies Infectious Disease Preparedness and Response Plan.
- Characteristics and methods of spread of SARS-CoV-2 virus.
- Symptoms of COVID-19 disease as well as the asymptomatic reactions of some persons to the SARS-CoV-2 virus.
- Safe and healthy work practices, including but not limited to, physical distancing, disinfection procedures, disinfecting frequency, and noncontact methods of greeting.
- PPE
 - When PPE is required
 - What PPE is required
 - How to properly don, doff, adjust and wear PPE
 - Limitations of PPE
 - Proper care, maintenance, useful life and disposal of PPE

All employees in the workplace will be trained on this subject and procedures. All training will be certified and recorded according to the Regulation for COVID-19 by the Virginia Department of Labor and Industry.
