f) explaining the role of government currency and analyzing the purpose of a money economy.

<p style="text-align: center;">Essential Understandings</p>	<p style="text-align: center;">Essential Knowledge</p>
<p>Money is anything that is generally accepted as a method of payment for goods and services.</p> <p>Money makes it easier to trade, borrow, save, and invest, and to compare the value of goods and services.</p>	<p>When the United States government issues coins and currency, people accept it in exchange for goods and services because they have confidence in the government.</p> <p>Money acts as a medium of exchange, making trade easier.</p> <p>Money acts as a store of value, making it easier to save and invest.</p> <p>Money acts as a measure of value, making it easier to compare the value of goods and services.</p> <p>The three types of money generally used in the United States are</p> <ul style="list-style-type: none"> ● coins ● currency ● deposits in bank accounts that can be accessed by checks and debit cards.

STANDARD CE.14a, b, c, d, e, f

The student will apply social science skills to understand personal finance and career opportunities by

- a) identifying talents, interests, and aspirations that influence career choice;**
- b) identifying human capital such as attitudes and behaviors that strengthen the individual work ethic and promote career success;**
- c) identifying human capital such as abilities, skills, and education and the changing supply of and demand for them in the economy;**
- d) examining the impact of technological change and globalization on career opportunities;**
- e) describing the importance of education to lifelong personal finances; and**
- f) analyzing the financial responsibilities of citizenship, including evaluating common forms of credit, savings, investments, purchases, contractual agreements, warranties, and guarantees.**

Essential Understandings	Essential Knowledge
---------------------------------	----------------------------

<p>An awareness of personal talents, interests, and aspirations is needed to select a career.</p> <p>Attitudes and behaviors that support a strong work ethic enhance career success.</p> <p>There is a correlation among skills, education, and income.</p> <p>Changes in technology influence the abilities, skills, and education needed in the work force.</p>	<p>Human capital refers to the combination of a person’s education, knowledge, skill, experience, health, training, and talent. People develop their human capital through formal and informal education. People who have invested in their own human capital have the potential to produce more, earn more, and choose a career that is satisfying to them.</p> <p>Career planning starts with self-assessment.</p> <p>Employers seek employees who demonstrate the attitudes and behaviors of a strong work ethic.</p> <p>Higher skill and/or education levels generally lead to higher incomes.</p> <p>Supply and demand also influence job income.</p> <p>Employers seek individuals who have kept pace with technological changes by updating their skills.</p> <p>Technological advancements create new jobs in the workplace.</p> <p>Technology and information flows permit people to work across international borders. This structure creates competition from foreign workers for United States jobs but also may create opportunities for United States workers to work for companies based in other countries.</p> <p>Being fiscally responsible includes making careful spending decisions, saving and investing for the future, having insurance, keeping to a budget, and using credit wisely, as well as understanding how contracts, warranties, and guarantees can protect the individual.</p>
