

Assessment of First Aid, CPR, and AED Training

Name: _____

Schools: _____

Date: _____

Directions: After reviewing the online training on *CPR, First Aid, and AED*, please complete the following assessment. When it is completed, submit the test to Jason Smith to be graded. If you score a 70 or higher, then you will have met the requirements for training in CPR, First Aid, and AED. You will be given a certificate to be used for initial licensure or renewal of license.

1. T or F Person with heat stroke may have high body temp, rapid/weak pulse, shallow breathing, and confusion.
2. T or F Never remove wet clothing or jewelry from a frostbite area.
3. T or F You should give plenty of caffeine or alcohol to a hypothermic person.
4. T or F You may see a “bulls eye” rash with Lyme Disease.
5. T or F You should never apply ice to a snake bite, or apply a tourniquet.
6. T or F Any time you have an open wound, you must first control the bleeding.
7. T or F You do not have to call 911 if a burn covers more than one body part.
8. T or F In adult CPR, you must start 30 chest compressions first, then 2 rescue breaths.
9. T or F If you do not see the chest rise and fall with each breath, you stop giving breaths.
10. T or F You should stop CPR when an AED is available, use AED, then restart CPR if needed.
