ASSESSMENT REQUIREMENTS FOR VIRGINIA LICENSURE

To review the requirements for licensure, please refer to the [Licensure Regulations for School Personnel](#). Please read the information carefully to determine the assessment(s) you may need for an initial Virginia license, an endorsement in Mathematics – Algebra I, an endorsement as a Reading Specialist, or the Administration and Supervision endorsement.

Introduction

Pursuant to the *Licensure Regulations for School Personnel*, all candidates who hold at least a baccalaureate degree from a regionally accredited college or university and who seek an initial Virginia teaching license must obtain passing scores on professional teacher's assessments prescribed by the Board of Education [Refer to “Reciprocity – Individuals Who Hold Active Out-of-State Licenses with Full Credentials and Without Deficiencies,” page 1]. With the exception of the career switcher program and the experiential learning alternate route that requires assessments as prerequisites, individuals must complete the professional teacher’s assessments within the three-year validity of the initial provisional license. Candidates seeking a Technical Professional License, International Educator License, School Manager License, or the Pupil Personnel Services License are not required to take the professional teacher's assessments.

The Virginia Board of Education also has approved assessments for individuals seeking the Mathematics – Algebra I (add-on) endorsement, the Reading Specialist endorsement and the Administration and Supervision preK-12 endorsement.

An individual who holds an active teaching license may add an additional teaching endorsement to the license by passing a rigorous academic subject test prescribed by the Board of Education. This testing option does not apply to individuals who are seeking an Early/Primary preK-3 or Elementary Education preK-6 endorsement or who hold a Technical Professional License, Vocational Evaluator License, Pupil Personnel Services License, School Manager License, International Educator License, or Division Superintendent License. Individuals may not add an endorsement in special education through testing. Also, endorsements in Administration and Supervision preK-12 and Reading Specialist cannot be added by testing. If the individual holds a provisional license, the Praxis Subject Assessment for his or her original endorsement must be completed before additional endorsements can be added through testing; however, please note that only endorsements in special education are allowed on a provisional special education license.

Please review the *Licensure Regulations for School Personnel* that further detail assessment requirements.

Reciprocity [Individuals Who Hold Active Out-of-State Licenses with Full Credentials and Without Deficiencies]

Licensure by reciprocity is provided for individuals who have obtained a valid out-of-state license, with full credentials and without deficiencies, that is in force at the time the application for a Virginia license is received by the Department of Education. No service requirements or licensing assessments (Virginia Communication and Literacy Assessment-VCLA, Praxis Subject Assessments, and Reading for Virginia Educators-RVE) shall be required for any such individual.

[Please note that the current out-of-state license (full credential and without deficiencies) must be submitted with the [application for the license](#).]
